HOW DID A SMALL-TOWN GIRL become a surgeon and one of the first six women astronauts for NASA in 1978? Discover how Dr. Rhea Seddon navigated a man's world to accomplish her dream of conducting medical experiments in space, and what it took to become a healthcare leader at the Vanderbilt Medical Group for over a decade. And, this ATHENA Award winner didn't stop there – she is now a popular national speaker, and recently published her memoir. Dr. Seddon's tale of opportunities and mentors weaves a remarkable career journey that will inspire you to reach for the stars.
