CLASS METHODOLOGY

Class methodology is based on: lectures, structured class discussions, readings, groupworks, oral presentations

CLASS PARTICIPATION AND ATTENDANCE

Participation is a vital part of your grade, which means mandatory attendance. Students are also expected to participate actively and critically in class discussions, and the participation portion of the class will be graded accordingly. Students must read assignments before the class, and come in on time. Students are responsible for making up any missed assignments.

ASSESSMENT/GRADING POLICY

The assessment method includes in-class participation, written papers, oral presentations, and weekly homework (reading of the assigned chapters of the textbook). Grades are based on a student's cumulative average calculated from attendance and in-class participation, a mid-term, an oral presentation and a final exam.

SUMMARY OF HOW GRADES ARE WEIGHTED:

- 20% Group discussion/class participation
- 25% for the Midterm paper
- 25% for the Presentation
- 30% for the final exam
