Gonzaga University belongs to a long and distinguished tradition of humanistic, Catholic, and Jesuit education. We, the trustees and regents, faculty, administration, and staff of Gonzaga, are committed to preserving and developing that tradition and communicating it to our students and alumni.

As humanistic, we recognize the essential role of human creativity, intelligence, and initiative in the construction of society and culture.

As Catholic, we affirm the heritage which has developed through two thousand years of Christian living, theological reflection, and authentic interpretation.

As Jesuit, we are inspired by the vision of Christ at work in the world, transforming it by His love, and calling men and women to work with Him in loving service of the human community.

All these elements of our tradition come together within the sphere of free intellectual inquiry characteristic of a university. At Gonzaga, this inquiry is primarily focused on Western culture within which our tradition has developed.

We also believe that a knowledge of traditions and cultures different from our own draws us closer to the human family of which we are a part and makes us more aware of both the possibilities and limitations of our own heritage. Therefore, in addition to our primary emphasis on Western culture, we seek to provide for our students some opportunity to become familiar with a variety of other human cultures.

In the light of our own tradition and the variety of human societies, we seek to understand the world we live in. It is a world of great technological progress, scientific complexity, and competing ideologies. It offers great possibilities for cooperation and interdependence, but at the same time presents us with the fact of widespread poverty, hunger, injustice, and the prospect of degeneration and destruction.

We seek to provide for our students some understanding of contemporary civilization; and we invite them to reflect with us on the problems and possibilities of a scientific age, the ideological differences that separate the peoples of the world, and the rights and responsibilities that come from commitment to a free society. In this way we hope to prepare our students for an enlightened dedication to the Christian ideals of justice and peace.

Our students cannot assimilate the tradition of which Gonzaga is a part nor the variety of human cultures, nor can they understand the problems of the world, without the development and discipline of their imagination, intelligence, and moral judgment. Consequently, we are committed at Gonzaga to developing these faculties. And since what is assimilated needs to be communicated if it is to make a difference, we also seek to develop in our students the skills of effective writing and speaking.

We believe that our students, while they are developing general knowledge and skills during their years at Gonzaga, should also attain more specialized competence in at least one discipline or profession.

We hope that the integration of liberal humanistic learning and skills with a specialized competence will enable our graduates to enter creatively, intelligently, and with deep moral conviction into a variety of endeavors, and provide leadership in the arts, the professions, business, and public service.

Through its academic and student life programs, the Gonzaga community encourages its students to develop certain personal qualities: self-knowledge, self-acceptance, a restless curiosity, a desire for truth, a mature concern for others, and a thirst for justice.

Many of our students will find the basis for these qualities in a dynamic Christian faith. Gonzaga tries to provide opportunities for these students to express their faith in a deepening life of prayer, participation in liturgical worship, and fidelity to the teachings of the Gospel. Other students will proceed from a non-Christian religious background or from secular philosophic and moral principles.

We hope that all our graduates will live creative, productive, and moral lives, seeking to fulfill their own aspirations and at the same time, actively supporting the aspirations of others by a generous sharing of their gifts.
What's in a Name?
The University is named after the sixteenth-century Italian Jesuit saint, Aloysius Gonzaga. A descendant of a noble Renaissance family and a page at the court of Francesco de' Medici, Aloysius Gonzaga entered the Society of Jesus (the Jesuit order) in 1585. Later, while a seminarian in plague-stricken Rome, he attended to the sick and dying; as a result of his heroic service, he died of exhaustion on June 21, 1591, only twenty-three years old. He was declared the patron saint of youth in 1726.

Quality That Earns National Recognition
U.S. News and World Report's most recent America's Best Colleges ranked Gonzaga among the top comprehensive regional universities in the West for the 19th time in the last 22 years. Barron's Best Buys in College Education, and The Princeton Review have also consistently praised the academic strength and quality of education provided at Gonzaga University.

Spokane and the Inland Northwest
Spokane, Washington, forms the hub of the "Inland Northwest," a four-state region relying on this area's business, service, and transportation facilities. With a population exceeding 500,000 in the metropolitan area, the city of Spokane offers many opportunities for work and relaxation for Gonzaga students.

The campus is adjacent to the Spokane River, where the Washington Centennial Trail extends 39-miles between northwest Spokane and Coeur d'Alene, Idaho. Students enjoy biking, rollerblading, running, and walking along the Trail. The downtown area is just a few blocks walk from the campus. The city's skywalk system, the nation's second largest, provides easy access for shopping, dining, and entertainment. A 12,000-seat civic entertainment arena is also within walking distance of campus. The University basketball team plays some of its games there.

Spokane boasts many parks, including the 100-acre Riverfront Park in the heart of the city. In addition, there are 15 area public golf courses, ice and roller skating rinks, theaters, and art galleries. A symphony orchestra, civic theatre, and professional athletic teams add to the cultural and entertainment opportunities of the region. Nearby recreation areas are easily accessible to students. Seventy-six lakes and five ski areas provide swimming, water skiing, and winter sports activities. Spokane has consistently been recognized for its quality of life.

Students: The Center of the University
Total enrollment each semester at Gonzaga is approximately 6,700, of which about 4,300 are undergraduates and 2,500 are in graduate programs, including the School of Law, Doctorate in Leadership Studies, and master's degree programs. Our student body represents nearly every state and about forty-nine foreign countries. More than fifty percent of the student body comes from homes at least 500 hundred miles from Spokane. The result is a diverse, welcoming campus community, where cultures and friendships are shared warmly.

There are a total of 336 regular Jesuit, lay, and religious faculty, and all classes are taught by professors, not teaching assistants. The ratio of students to faculty is about 13 to 1. More than 60% of undergraduates ranked in the top fifth of their graduating class. Approximately 25% hold student leadership positions in Gonzaga student government, residence halls, clubs and organizations.

Finance: An Important Part of Your Education
As you begin your academic career, it is important to remember that although tuition at independent or private universities is typically higher than at public universities, the ultimate value of a degree from Gonzaga University is well recognized by members of business and industry. Gonzaga is committed to assisting students in financing their college education. Over 95% of our students receive financial aid. The Financial Aid Office welcomes your inquiries and is prepared to provide assistance in the development of your financial aid award, assuring you the best package possible.

The Campus: Your Home Away From Home
Gonzaga's campus has grown from one building which housed both students and Jesuit faculty in its early years to 87 buildings spread over 110 landscaped acres. The University site is along the north bank of the Spokane River and includes its own small lake and an attractive, well-kept campus. Some highlights of the campus include the following:

Student Housing provides living options for more than 2400 undergraduare students, including men's, women's or coeducational residence halls with capacities ranging from 15 to 360. Apartment-style living units are another option, and the University owns several houses and apartment complexes in the neighborhood, which are rented to upper-division students. Residence halls are staffed by trained students who provide services ranging from personal counseling to activities planning. Full-time first and second year students who are under age 21, unmarried, and not living at home, must live in on-campus residence halls. The University recently completed construction of two apartment-style residences for upper division and graduate students as well as two new pod-style residence halls for first and second year students.

Crosby Student Center has become an important part of campus life. The Center offers lounges for studying quietly, watching television and listening to music, meeting rooms, postal services, offices for student government and student activities, and light recreation such as video games, pool tables, and ping pong. The Center also displays memorabilia from alumnus/entertainer Bing Crosby and houses various Student Life Offices and The Career Center.

Gonzaga University Athletic Facilities
The Martin Centre consists of more than 83,000 square feet of indoor training space which houses the majority of the offices for the Athletic Department. The Martin Centre includes two basketball or volleyball courts, a golf practice area, weight room for GU varsity athletes, locker rooms, and athletic training room. The Martin Centre is the home of the Gonzaga University volleyball team.

The McCarthy Athletic Center, built at a cost of 25 million dollars, was completed in October of 2004. The new arena features a seating capacity of 6,000 and is the home of the men's and women's basketball teams.

Martin Field is the home of the Gonzaga men's and women's soccer teams. The Mulligan, Hamilton and athletic training room. The Martin Centre is the home of the Gonzaga University volleyball team.

The Rudolf Fitness Center is a 38,000 sq. ft. facility with cardiovascular and weight areas containing a full line of Olympic benches, dumbbells, Hammer Strength equipment, treadmills, ellipticals, rowers, versa-climber, bikes, and steppers with 14 televisions. Also available are four racquetball courts, two aerobics rooms, a field house with three full basketball or volleyball courts, a (1/11 mile) rubberized running track, a six lane 25-yard swimming pool. The Rudolf Fitness Center also houses a majority of the physical education classes offered by the University and is open throughout the year for use by students, staff/faculty and spouses.
Foley Center
This 20 million dollar state-of-the-art library was opened in the fall of 1992, providing sophisticated on-line computer access to libraries across the United States. In addition, students enjoy a 24-hour study lounge, abundant study carrels, an audio/visual resource room, and one of the finest rare book rooms in the country.
New buildings as well as historic ones grace the Gonzaga campus. The Jundt Art Center and Museum was completed in 1995. The state-of-the-art-Law School building opened in 2000.

St. Aloysius Church and the Student Chapel
The chapel offer students a place for solitude and reflection as well as daily masses. The spires of St. Al's Church are a landmark of the Spokane area; the student chapel is located in the Administration Building.

A Century of Educational Leadership
After forty years of pioneer missionary efforts to bring Christian civilization and culture to the Pacific Northwest, the Rev. Joseph M. Cataldo, S.J., an Italian Jesuit missionary, initiated plans to build a mission school in Spokane Falls Territory. Out of the vision and courage of early Jesuits, Gonzaga College became a reality and admitted its first students in 1887, two years before Washington became a state.
The College became Gonzaga University with the opening of the School of Law in 1912. In 1916 the School of Philosophy of Letters for Jesuit Scholastics became part of the University. In 1921 the University opened the School of Business Administration and in 1928 the School of Education. The School of Engineering and Applied Science was established in 1934 and in 1975 the School of Continuing Education was established, now named the School of Professional Studies.
Gonzaga is an independent, Roman Catholic and Jesuit university committed to ensuring our students an educational experience which encourages individual intellectual, moral, and spiritual development.

Visit the Campus
Whether you are considering enrolling at Gonzaga University or just want to experience Gonzaga firsthand, you are invited to visit the campus. We have a Campus Visit Program offering opportunities to sit in on classes, tour the campus, meet students and faculty, and spend some time in the residence halls. Our Admission Office will be pleased to schedule a visit for you.

Accreditation: The Mark of Excellence
Gonzaga University is accredited by the Northwest Commission on Colleges and Universities (NWCCU), an institutional accrediting body recognized by the Council for Higher Education Accreditation and the Secretary of the U.S. Department of Education.
The School of Business is accredited by the Association to Advance Collegiate Schools of Business, a specialized accrediting board recognized by the Council for Higher Education Accreditation and the Secretary of the U.S. Department of Education.
The School of Law is accredited by Council of the Section of Legal Education and Admissions to the Bar of the American Bar Association (ABA). The U.S. Department of Education has recognized the Council as the national agency for the accreditation of programs leading to the first professional degree in law.
The Department of Religious Studies is accredited by the Commission on Accrediting of the Association of Theological Schools (ATS), a specialized accrediting board recognized by the Council for Higher Education Accreditation and the Secretary of the U.S. Department of Education.
Programs in English as a Second Language are accredited by the Commission on Accreditation of Teachers and Speakers of Other Languages (TESOL), a specialized accrediting board recognized by the Council for Higher Education Accreditation and the Secretary of the U.S. Department of Education.
Programs in the Department of Nursing are accredited by the Commission on Collegiate Nursing Education (CCNE), a specialized accrediting board recognized by the Council for Higher Education Accreditation and the Secretary of the U.S. Department of Education.
Programs in Civil, Electrical, Computer, and Mechanical Engineering are accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (EAC/ABET), a specialized accrediting board recognized by the Council for Higher Education Accreditation and the Secretary of the U.S. Department of Education.
Programs for the certification of elementary, secondary, and Special Education teachers at the bachelor’s level; and Special Education, Initial Teaching (elementary and secondary levels), Principal and Superintendents (Leadership Formation), at the graduate level; and for the certification of post-licensure teachers and administrators (i.e., “professional certification”), are accredited both by the National Council for Accreditation of Teacher Education (NCATE), a specialized accrediting board recognized by the Council for Higher Education Accreditation and the Secretary of the U.S. Department of Education, and by the Washington State Board of Education through its Office of the Superintendent of Public Instruction (OSPI).
The School Counseling and Community Counseling master’s programs are accredited by the Council for Accreditation of Counseling and Related Education Program (CACREP), a specialized accrediting board recognized by the Council for Higher Education Accreditation and the Secretary of the U.S. Department of Education.
The Special Education, Sports Management, and Physical Education bachelor’s programs, and the Special Education, Sport and Athletic Administration, Leadership and Administration, Master of Teaching At-Risk Youth, Counseling Psychology, Reading and Literacy, and Anesthesiology Education master’s programs, are accredited both by the National Council for Accreditation of Teacher Education (NCATE), a specialized accrediting board recognized by the Council for Higher Education Accreditation and the Secretary of the U.S. Department of Education, and by the Washington State Board of Education through its Office of the Superintendent of Public Instruction (OSPI).
The Anesthesiology Education master’s program is accredited by the Council of Accreditation of Nurse Anesthesia Education Programs (COA), part of the American Association of Nurse Anesthetists (AANA). The Council is a specialized accrediting board recognized by the Council for Higher Education Accreditation and the Secretary of the U.S. Department of Education.
The University Seal: The Mark of Distinction

The University adapted the present form of its seal in 1914 from an earlier version used in the 1890's. Beneath the eagle of the former seal is a shield; the order of precedence in this shield is dexter chief, sinister base, sinister chief, and dexter base.

In hatchment dexter chief are two gray wolves leaning on a black pot and chain; it represents the House of Loyola whose son, Ignatius, was the founder of the Jesuits; the pride of that House was that they kept the wolf away from the door of the poor.

In hatchment sinister base are the arms of the House of Gonzaga: a purple cross sustaining an escutcheon with the lions of Florence and three purple bars for the many ecclesiastical dignities given to the House of Gonzaga; the four falcons in the corners represent the hunting prowess of that family.

In hatchment sinister chief are the colors of Spain; seven red bars on a field of gold which were given to the House of Loyola-Onaz because seven brothers of that house distinguished themselves in service to the King of Spain. They form part of Ignatius of Loyola's coat of arms.

In hatchment dexter base is a sunburst over Spokane Falls, a pine tree, and an Indian tepee; the Spokane Indians were so called because they were children of the sun.

The eagle in the crest is the American bald eagle which protects the university; above the eagle are found "IHS" of the name of Jesus, the cross, and the nails of His crucifixion all in black, surrounded by a halo of gold.

The escutcheon in the center of all is a royal blue field on which the white letter "G" stands for Gonzaga; the University's colors are Royal Blue and Immaculate White.

The scrolled A.M.D.G. stands for Ad Majorem Dei Gloriam, "For the Greater Glory of God," the motto of the Society of Jesus. Below this is the date of incorporation of Gonzaga College. The wreath of bay leaves on the right represents classic renown, and the wreath of oak on the left signifies civic pride.

Our Commitment to Non-Discrimination

Gonzaga University subscribes to the principles and laws of the federal government and Washington State pertaining to civil rights and equal opportunity. The University does not discriminate against any person on the basis of race, religion, gender, national origin, age, marital or veteran status, sexual orientation, a physical or mental impairment that limits a major life activity, or any other non-merit factor in employment, educational programs or activities which it operates. All University policies, practices, and procedures are consistent with Gonzaga's Catholic, Jesuit identity and Mission Statement.

As a church-related institution, in conformity with Federal and State law Gonzaga reserves the right to take religious faith into consideration where it is deemed appropriate. Gonzaga University’s Equal Employment Opportunity and Affirmative Action Plan is designed to further develop and maintain equal employment opportunity for all personnel and to insure the utilization of women and ethnic minorities at all levels and in all segments of the University, particularly where they are underutilized in relation to their availability in the work force.
Gonzaga University
Strategic Planning Process
Vision Statement
Approved by the Board of Trustees on December 9, 2005

Deeply rooted in the centuries-old tradition of Jesuit education, Gonzaga University aspires to develop the whole person through contemplation, intellectual dialogue, and engagement within a vibrant Jesuit, Catholic, and humanistic learning community. We exist to develop generations of leaders whose actions reflect a faith that promotes justice, the pursuit of truth, a dedication to service, and a commitment to ethics and the common good.

References
The Gonzaga ethos, in practice, can be seen as one of “overlapping commitments,” where we as a community agree on values and principles, some of us for religious reasons (whether Catholic or Christian or from other religious traditions), some of us for humanistic reasons, and some from our grounding in the Jesuit spirituality. We see these three terms as informing and bounding our ethos, creating a common field. While each of us may have a different location within this field, closer to one boundary than another, depending upon our grounding inspiration, all of us are presumed to operate within the same field.

The Mission of Gonzaga University is at once Jesuit, Catholic and humanistic. Our sense is that the Mission, and thereby the community, is better served when statements about these terms are also symmetrical. For example, we require a Jesuit way of proceeding that supports and complements Catholicism, and a Catholic Church that supports Jesuit education; a humanism that is supportive of Catholicism but also a Catholicism that is supportive of humanistic values, and so forth.

The term “Jesuit” refers to a religious Order of men within the Catholic Church, who have committed their lives to the service of God in specific works. Through the profound influence of the Jesuit intellectual tradition and the vision of the Spiritual Exercises, the Constitutions, and documents of its General Congregations, Jesuits and their colleagues participate in the work of the Society of Jesus. In the context of the University, “Jesuit education” includes major themes: helping students to find their own calling from God through the creation of a discerning heart that can identify their true desires; the cultivation of a faith that promotes justice; and the formation of “persons for others”—students who graduate with a desire to give something back to their community. “Jesuit” also means helping students recognize and confront the realities of sin and suffering in the world—not only through study but through solidarity with the marginal in our society by direct hands on, face-to-face engagement. We should aspire to form committed Christians and engaged citizens allied in the building of a more humane and just society.

The term “Catholic” refers to a specific Church, which expresses itself through living the Gospel of Christ, and understands itself through time in its Councils and traditions. The Jesuits and their colleagues carry out their Mission as a vocation within this Church. The Catholic Church provides the opportunity for the cultivation of a vibrant and mature faith life, and a means of reaching out to the world with a message of hope: a belief in the love of God. The Catholic Church includes a sacramental, moral, and intellectual tradition which seeks dialogue beyond itself to reach that horizon of hope and love. A significant way in which the University serves the Church is by providing a forum in which Catholicism can enter into critical (that is, intellectually reasoned and responsible) dialogue with other voices and other fields of knowledge. It has been said many times over these last several years, that the Catholic university is a significant “place where the Church does its thinking.”

The term “humanistic” is understood to include the quest for self-knowledge and the formation of a virtuous character. We impart to our students a critical understanding and appreciation of our common human nature, the moral heritage of their culture and society, as well as some exposure and education in cultures and societies different from our own. We also impart to students a similarly critically informed understanding and appreciation for their own religious traditions and an exposure and education to other religious traditions prevalent in our global community. Humanistic, in its original meaning, “of the humanities,” is meant beyond academics to include the development of the whole person, helping students to integrate their lives into a harmonious whole and learning to prize and respect the flourishing of others, however different from themselves. This latter sense links “humanistic” to both “Catholic” and “Jesuit,” which have a concern for the faith that promotes not only individual, but social justice.

The integration of the three therefore requires an integration of faith, justice, ethics, service, and leadership for the common good into a vibrant learning environment.

References
1 The Catholic Church has most recently articulated its relationship to Catholic universities through the apostolic constitution, Ex Corde Ecclesiae. In addition, the Documents of Vatican II, and the Social and other encyclicals, have shed great light on the need for, and the value and nature of, Catholic higher education.
2 Fr. Theodore Hesburgh, former President, Notre Dame.
3 Within the Jesuit tradition, “humanism” is seen as distinct from “secular humanism” (see Preface).
Policy
Decisions on admission to any undergraduate school or college of the University are made after a careful review of an applicant’s academic achievement, scholastic aptitude, and personal characteristics which may predict success in the University. High school or college grades, course content, test scores, class rank, essays, extra-curricular activities and recommendations from teachers, counselors, and principals play an important part in the whole admission procedure. All applicants are reviewed according to these criteria without discrimination on the basis of race, age, color, creed, national or ethnic origins, marital of financial status, disability, gender, sexual orientation or any other non-merit factor.

Prerequisites
Applicants for regular admission are expected to have graduated from an accredited high school in a college preparatory curriculum while showing evidence of ability to complete the University’s requirements for graduation. The following pattern of coursework is recommended, but not required, for admission to Gonzaga University: English - four years; mathematics -- three/four years; history/social studies -- two years; foreign language -- three years; natural/physical science -- four years; mathematics -- three/four years; history/social studies -- three years; natural/physical laboratory science -- three/four years. Suitable scores on the American College Test battery (the ACT) or on the Scholastic Aptitude Test of the College Board (the SAT I) are also required. All candidates for admission to the University are urged to take their tests no later than the first semester of their senior year in high school. Often, these test scores will then appear on the candidate’s transcript; if they do not, the candidate must ensure that such scores are forwarded to the University. An application for undergraduate admission will not be considered until all pertinent records are filed with the Office of Admission.

How to Apply for Admission
I. Application to Freshman Year:
1) Obtain Gonzaga’s Application for Admission from the Office of Admission at Gonzaga or through the University website. Applications may be accessed on the University web site.
2) Complete all sections of the first part of the application, including personal and educational data, family information, personal essay, and a list of awards and activities. Request a teacher to complete part 3 and/or write a letter of recommendation.
3) Submit the non-refundable application fee in the form of a check or money order made out to “Gonzaga University.” Send this check or money order along with the application to the Office of Admission.
4) Request a representative at the applicant’s current institution, or last institution attended, complete the dean’s/counselor’s report which also must be submitted.
5) Have ACT or SAT I scores forwarded to the Office of Admission if they do not already appear on the high school transcript.
6) Home-schooled students are encouraged to apply to Gonzaga University. Students must submit a transcript along with a portfolio of high school work. In addition, an SAT or ACT score must also be submitted if the applicant is under twenty-one years of age. One letter of recommendation is required, and it must be from someone other than a parent or guardian. A parent can complete the dean’s/counselor’s report which also must be submitted.

II. Application to Transfer Standing:
1) Obtain Gonzaga’s Application for Admission from the Office of Admission at Gonzaga or through the University website.
2) Complete all sections of the first part of the application, including personal and educational data, family information, personal essay, and a list of awards and activities. Request a teacher to complete part 3 and/or write a letter of recommendation.
3) Arrange to have official transcripts of all high school and college work sent to the Office of Admission. Students who have earned thirty semester or forty-five quarter credits in college need not submit a high school transcript.
4) Submit the scores of the ACT or SAT to the Office of Admission if they do not appear on high school or college transcripts. Students who can transfer thirty semester or forty-five quarter credits in college need not submit a high school transcript.
5) Have ACT or SAT I scores forwarded to the Office of Admission if they do not already appear on the high school transcript.
6) Home-schooled students are encouraged to apply to Gonzaga University. Students must submit a transcript along with a portfolio of high school work. In addition, an SAT or ACT score must also be submitted if the applicant is under twenty-one years of age. One letter of recommendation is required, and it must be from someone other than a parent or guardian. A parent can complete the dean’s/counselor’s report which also must be submitted.
7) Request that a representative at the applicant’s current institution, or last institution attended, complete the Transfer Student Clearance Report and forward it to the Office of Admission.
8) Home-schooled students are encouraged to apply to Gonzaga University. Students must submit a transcript along with the application to the Office of Admission.
9) Attach to the application the non-refundable application fee in the form of a check or money order made out to “Gonzaga University.” Send this check or money order along with the application to the Office of Admission.

Admission of International Students
Gonzaga welcomes applications from international students, who make up a valued part of the University’s student body. Since 1969, Gonzaga has been authorized by the Federal government to issue both I-20’s and DS-2019 so that international students can secure visas and enroll in our programs. To be considered for undergraduate admission, international applicants are required to submit the following:
1) A completed International Undergraduate Application with the required fee. An application can be obtained from Gonzaga’s Office of International Student Programs at (509) 323-6562 or an application may be submitted online via the University website.
2) Proof of academic preparation through the submission of official academic records demonstrating satisfactory
achievement in the completion of a secondary education equivalent to that offered in the United States.
3) Proof of financial resources which will permit the student to afford all costs associated with undergraduate study at Gonzaga University. This is demonstrated by submitting an official Financial Declaration for International Applicants, accompanied by official bank statements or the equivalent.
4) Proof of English language proficiency adequate for undergraduate study at Gonzaga, which may be demonstrated by any of the following:
a) An official TOEFL score of at least 550 written/ 213 computer/80 internet-based administered and reported directly to Gonzaga University by the Educational Testing Service.
b) An official APIEL grade of 3 or higher administered and reported directly to Gonzaga University by the College Board.
c) Successful completion of the course of study offered by Gonzaga University's ESL Program with faculty recommendation.
d) For transfer students, proof of successful University-level English study (not ESL), courses equivalent to Gonzaga's ENGL 101 and SPCO 101 with a "B" grade or better at a college or university in the United States, or acceptable TOEFL scores.
e) Proof of English as the student's native language.

When to Apply for Admission

All new students may apply for admission to either the fall or spring semesters. Gonzaga uses a 'pooling' admission system for fall applicants from high schools. High-school students have two fall semester application options: 1) a non-binding early action program with a November 15th deadline, or 2) a regular decision option with a February 1st deadline. Early action applicants will be informed of their admission status by mid-January while regular decision applicants will be informed of their admission status by mid-March. Students seeking entrance into the spring semester should apply for admission by November 1st.

All applicants seeking financial aid should also complete and submit the Free Application for Federal Student Aid (FAFSA) by February 1st.

All students who wish to transfer to Gonzaga from another college or university should make their application early in the semester preceding their intended registration at Gonzaga; this is especially true for transfer students who wish to apply for financial assistance. In any case, transfer students applying for the fall semester should do so no later than June 1, and students applying for the spring semester, no later than November 1st. Transfer student applications are considered on a 'rolling' basis.

Enrollment in a summer session does not imply admission for the regular academic year. Summer session students who desire regular admission to the University should submit their application to the Office of Admission.

Credits Earned Elsewhere

Transfer of Credit

Applicants from other colleges or universities should note that all credits submitted for transfer approval must have a grade of at least 2.00 (on a 4.00 point scale), must represent college-level course work, and must be academic in nature for acceptance by the University. Students may not transfer more than sixty-four semester credits or ninety-six quarter credits from a two-year college. Students transferring to Gonzaga University with sixty-four semester credits from a community college may not return to a two-year college for any additional transfer credit. All transfer students must complete at least thirty semester credits at Gonzaga immediately preceding their graduation from the University. For further information on transfer credits, applicants should consult the General Degree Requirements section of this catalogue.

Advanced Placement of Freshmen/International Baccalaureate Credit

The University welcomes requests for special placement evaluation for incoming students who have taken the Advanced Placement (AP) Examinations of the College Board or International Baccalaureate Examinations. Examination results should be forwarded to the Office of Admission. Applicants may be granted credit, advanced standing, or a waiver of requirements depending on the field of study, the scores achieved, and the general regulations of the University. A brochure on A.P. and I.B. Examination policies at Gonzaga University is available from the Office of Admission or from the University website.

College Level Examination Program

The C.L.E.P. (College Level Examination Program) was established to enable students who have acquired their education in non-traditional ways to demonstrate their academic achievement. It is especially designed for older students who by private reading and study have achieved competence beyond the high school level in certain fields of study normally taught to college freshmen. Two kinds of examinations are available: Subject Examinations and General Examinations.

1) Subject Examinations: The University allows credit for most of these examinations according to norms established by the appropriate departments of the University. Detailed information is available from the Dean of Admission.
2) General Examinations: Gonzaga does not offer credit on the basis of these examinations, but the examination results may be used by various departments in making decisions about giving students advanced standing, thus possibly exempting them from certain freshman-level courses. Decisions are made on an individual basis by chairpersons.
Proficiency Examination Program
P.E.P. (Proficiency Examination Program) is a series of examinations sponsored by the American College Testing program. Gonzaga currently gives credit for several P.E.P. examinations. These tests are designed to assess experiential learning of subject-matter proficiency attained primarily outside a typical classroom. A brochure on P.E.P. and all Credit by Examination policies at Gonzaga University is available from the Dean of Admission.

Honors Program
Gonzaga University has long challenged exceptional students through its Honors Program. This interdisciplinary, competitive program seeks academically gifted and intellectually curious students who are willing to put their talents to work for the service of others.

The four-year Honors curriculum allows a student to choose any major or minor course of study. Although primarily geared for students in the College of Arts and Sciences, adjustments are made for those pursuing degrees in engineering, education, or business. In addition to small classes and close personal advising and counseling, a waiver of tuition fees for excess credit, a modest non-need based scholarship, flexible scheduling, special study facilities, and pride of place at graduation are provided.

Anyone may apply to the program, but only twenty places are open each year, approximately the top 2% of an entering first-year class. Candidates must complete a separate Honors application to be considered for admission. Acceptance is based on independent intellectual achievement, recommendations from teachers, leadership roles, skill in effective expression, outstanding standardized test scores, high school rank, personal interviews, and the essay on the Honors application form. Potential applicants are encouraged to visit the campus and to meet with the Director. For further information, please consult the Honors Program section of this catalogue.

Hogan Entrepreneurial Leadership Program
The Hogan Entrepreneurial Leadership Program includes a four-year concentration that immerses students from any major in the fundamentals of creating and managing new enterprises in the private or public sectors. The Hogan Program seeks students who are high achievers, creative thinkers, and recognized leaders who want to make a difference in the world. The program offers a waiver of tuition for excess credit as well as a modest scholarship. Admission to the Hogan Entrepreneurial Leadership Program is selective, and candidates must complete a separate application to be considered for admission to the program. Potential applicants are encouraged to contact the Hogan Entrepreneurial Leadership program director at Gonzaga University.

Campus Visit
The Admission Office offers an extensive visit program for those interested in attending Gonzaga. An individualized visit may include an overnight stay, class visit, lunch, faculty meeting, admission interview, and campus tour. In addition to individualized visits, several Campus Preview Days (group oriented, open-house days) are offered throughout the year. To schedule a visit, contact the Visit Office at least two weeks in advance and prior to making permanent travel arrangements.

Dual Enrollment
High school students who have not yet completed their graduation requirements may enroll (with certain restrictions and on a space-available basis) in a maximum of two courses per semester while still enrolled in high school. This program is generally reserved for juniors and seniors who present a minimum cumulative grade-point average of 3.50 (4.00 scale) and a letter of recommendation from their principal or counselor. A special tuition rate is available for all students taking dual enrollment courses. For more information on this program students may contact the Dean of Admission.

Non-Matriculation
Non-matriculated students not seeking a degree may enroll in courses at Gonzaga on a space-available basis after matriculated students have registered. Contact the Registrar's Office for further information.
As recent national surveys have indicated, Gonzaga University consistently is ranked among the best regional comprehensive colleges and universities in the West. In addition, Gonzaga is ranked extremely high in value among regional comprehensive universities. A primary reason for this recognition is the excellent quality of financial aid awards provided Gonzaga students. In addition to the University's significant institutional grant and scholarship program, Gonzaga also participates in all federal and state financial aid programs. The Financial Aid Office provides numerous services to meet the needs of those who wish to obtain a Gonzaga degree.

Applying for Admission
Students are encouraged to apply for admission and financial aid concurrently in order to expedite each important process. However, aid applicants must be admitted to the University in order to receive a financial aid award.

Applying for Financial Aid
The Free Application for Federal Student Aid (FAFSA) is the required application for need-based financial aid at Gonzaga. In order for Gonzaga to receive FAFSA data to determine eligibility for financial aid, applicants must list Gonzaga University, Spokane, Washington, federal school code "003778" in the School section of the FAFSA. The FAFSA is available from high schools and colleges nationwide in November or December for the following academic year. The FAFSA is also available on the internet at www.fafsa.ed.gov.

Financial Aid Priority Dates
Financial aid applicants must mail their FAFSA to the central processor no earlier than January 1st but no later than February 1st in order to meet the University priority filing deadline. Also, applicants must be admitted to the University by February 1st in order to ensure priority consideration for available financial aid. Students applying after these priority dates will be considered for financial aid on a funds-available basis.

Financial Aid Process
The FAFSA data is processed by the central processor, and an Expected Family Contribution (EFC) is calculated utilizing a formula mandated by the federal government. The results of this calculation are forwarded to the University, where the Financial Aid Office compares the EFC to the cost of attendance in order to determine each applicant's financial need and eligibility for specific types of financial assistance. Applicants selected for verification must provide documentation of FAFSA data (for example, income tax returns) which is compared to the original application information. Financial aid eligibility and awards may be revised following the verification process.

The Financial Aid Package
Once financial need is established, the Financial Aid Office assembles the best possible financial aid package for each applicant. This package generally combines several types of aid from sources inside and outside the University. Rarely does total student aid come from a single source. A typical financial aid package is developed from four sources: scholarships, grants, work-study, and long-term educational loans. The proportions of aid from each of these sources vary greatly, depending upon individual circumstances. Financial aid packages can vary from year to year, depending on changes in a student's financial need, grades, and date of filing. Students must reapply for financial aid each year by the priority date to ensure maximum eligibility. Institutional assistance covered by the Gonzaga Guarantee provides for four years of receipt provided the recipient maintains full-time, continuous, undergraduate enrollment and maintains good academic standing according to this University catalogue.

Scholarship Aid
Gonzaga University offers scholarship assistance exceeding $14 million on an annual basis. Eligibility for scholarships is based solely on academic merit or on a combination of merit and financial need. Merit-Based Scholarships: By applying for admission to the University, all incoming freshmen are automatically considered for one of a series of merit-based institutional scholarships. Other merit-based scholarships require separate applications with varying deadlines. These include: Alumni Debate Bauer Diversity Music Engineering Business Honors Ignatian Leaders ROTC Cataldo Martin Hogan Tifford Maxwell Christopher West Transfer Opportunity

Please contact the Financial Aid Office for further information and applications. Also, the Financial Aid Office has a scholarship library which students are encouraged to use.

Need-Based Scholarships: Students who have been admitted and who have filed the FAFSA are automatically considered for Gonzaga scholarships which incorporate academic achievement and financial need. These scholarships are renewable by maintaining a specified grade point average and successful completion of specified credit hours.

Grants
Grants are a form of financial aid for which eligibility is based upon financial need, not academic achievement. Grants are a preferred form of financial assistance since they do not have to be repaid. The FAFSA is the application for all grants.

Federal Pell Grants: This program provides grant assistance from the federal government to needy students. The amount of the grant is determined by the federal government, and it is prorated to reflect actual enrollment status.

Federal Academic Competitiveness Grant (AC): Federal grant assistance awarded to first and second year students only who have completed an academically rigorous high school program. Students must be eligible for a Federal Pell Grant in order to receive an AC Grant. The grant is $750 annually for first year students and $1,300 annually for second year students.

Federal National Science and Mathematics Access to Retain Talent Grant (SMART): Federal grant assistance awarded to third and fourth year students who are majoring in Computer Science, Engineering, Critical Foreign Languages, Life Sciences, Mathematics, Physical Sciences and Technology. Student must be eligible for a Federal Pell Grant in order to receive a SMART Grant. The grant amount is $4,000 annually for the third and fourth year.

Federal Supplemental Educational Opportunity Grants (SEOG): This is another form of federal grant assistance provided to students with substantial financial need. The amount of the grant varies according to funding and need criteria.
Financial Aid

Washington State Need Grants: This state-funded program provides financial assistance to undergraduate students who are residents of the State of Washington and who demonstrate substantial financial need.

Educational Opportunity Grant (EOG): This is a renewable, state-funded grant for place-bound community college transfer students who have achieved junior status. A separate application is required in addition to the FAFSA. Contact the Financial Aid Office to determine eligibility for consideration.

University Grants: Gonzaga awards a significant number of grants from University funds. The amount of these grants varies according to an applicant's financial need and date of application.

Loans
Student and parent loans are available from a number of sources to assist with the financing of a college education. Loan eligibility is based upon FAFSA data, and the loans require separate promissory notes which are processed by the lender. Student loans must be repaid. While Gonzaga students have demonstrated responsible loan repayment, all students are encouraged to borrow only that amount which is necessary.

Federal Perkins Loans: This program, funded jointly by the federal government, the University, and monies repaid by past student borrowers, provides assistance to students with financial need. The Perkins Loan carries a fixed interest rate of 5%. Repayment begins nine months after dropping below at least half-time student status. Loan cancellation provisions exist with this loan program.

Federal Subsidized Stafford Loans: These student loans are made available by banks and credit unions to students with financial need. The annual interest rate is fixed at 6.8%. The interest which accrues while the student is enrolled at least half-time is paid by the federal government. Repayment begins six months after graduation or withdrawal from a degree program.

Federal Unsubsidized Stafford Loans: These loans are identical to the Subsidized Stafford, with the exception that the borrower is responsible for the interest which accrues while the student is enrolled and during any other deferment period. The annual interest rate is fixed at 6.8 percent. Repayment begins six months after graduation or withdrawal from a degree program. These loans are not based on financial need.

Federal Nursing Loans: These loans are available to undergraduate nursing students with financial need. The Federal Nursing loan carries a fixed 5% interest rate, with no accrual of interest while enrolled at least half-time. Students have a nine month grace period after their enrollment drops below less than half-time before monthly payments are required. Minimum monthly payments of at least $40 per month and interest begin after the grace period.

Federal Plus Loans (PLUS): The PLUS is available to all credit-worthy parents of dependent undergraduate students. These loans are not based on financial need, although Gonzaga requires submission of the FAFSA prior to applying for the loan. The annual interest rate is fixed at 8.5 percent. Loans are made available by banks and credit unions. The maximum amount that can be borrowed is the Gonzaga "cost of attendance" minus other financial aid.

Other Loan Funds: Other loan funds have been established to assist students with expenses due to emergencies or other special circumstances. These funds include the Fred E. and Venora Bigelow Trust (Loan Fund), the Leo J. Brockman Loan Fund, and the Carrie Welch Loan Fund. Inquiries should be directed to the Financial Aid Office.

Student Employment
Numerous educational studies have found very significant positive effects from students working on a part-time basis while enrolled in undergraduate studies. The Gonzaga Financial Aid Office supports these findings and encourages students to pursue part-time employment opportunities.

Federal Work-Study Program: This federal aid program, funded by the federal government and the University, provides a variety of employment opportunities for students employed on campus. Jobs range from assisting with research to general office work to community action projects. Students work approximately 10 hours per week during the semester, and up to 30 hours per week during vacation periods. Eligibility for work-study is based on financial need. The FAFSA is the required application.

State Work-Study Program: This financial aid employment program is funded by the State of Washington and private employers. It allows students to work with Spokane area employers during the academic year or anywhere in the United States during the summer sessions. These opportunities provide an excellent way for students to gain experience in their fields of study while earning a good salary. The program provides jobs in accounting, the arts, business, education, engineering, computer programming and processing, law, marketing, and other fields. Eligibility for this program is based upon financial need. The FAFSA is the required application.

Employment: Limited student employment opportunities are available in various administrative offices and academic areas of the University, as well as with Sodexo Marriott Food Service. These positions are available through University departments and offices. Position openings are posted on the job location board.

Off-Campus University Employment: Spokane business and private individuals often require part-time help where hours in which to work are conducive to students' schedules. These positions are posted on the Job Location Board and are viewed by students as well as the public.

Satisfactory Academic Progress
The Higher Education Amendments of 1992, and the Washington State Higher Education Coordinating Board, require that a student receiving federal and/or state assistance must demonstrate satisfactory academic progress (SAP). In general, SAP is defined as "proceeding toward successful completion of degree requirements." Full-time students who are eligible for, and receiving, financial aid must successfully complete 12 credits with a minimum GPA of 2.00 each semester. Students who fail to achieve this criterion are placed on Financial Aid Probation and may lose all financial aid if their academic performance does not reflect satisfactory progress during the next semester. Additionally, State of Washington financial aid recipients who are enrolled full-time are required to successfully complete at least six credit hours per semester or risk immediate suspension of state aid. Please note that current financial aid awarding procedures reflect the expectation that undergraduate students enrolled on a full-time basis will complete their degree requirements in eight semesters. The policies and procedures governing SAP and its relationship to financial aid are available from the Financial Aid Office, Administration Building Room 129. Students with additional questions regarding this policy are invited to inquire at the Financial Aid Office.
General Information
The University's cost of providing a Gonzaga education is not borne solely by student tuition and fees. The annual Jesuit Community gift, endowment income, and gifts of many types from individuals, firms, and foundations constitute some of the other revenue sources essential for a balanced budget.

However, revenue from student charges constitutes most of Gonzaga’s income. Student charges (less verified financial aid) are payable in full in U.S. dollars on a per semester basis, no later than three weeks prior to the beginning of the term. Knowing that payment in full presents a burden for many parents and students, Gonzaga offers two installment plans which cover the academic year and spread payments over a period of either eight or ten months.

Eight and Ten Month Installment Plans
With each of these payment options, estimated tuition, room, and board expenses for the academic year are payable in equal monthly installments. The plans require an application and fee. There is, however, no interest charged. Verified financial aid is deducted from the total amount due. The application deadline for the 10 Month Installment Plan is June 1st. Payments begin July 1st and run through the following April.

The application deadline for the 8 Month Installment Plan is August 1st. Payments begin September 1st and run through the following April.

December graduates or students enrolling in the spring semester for the first time should contact Student Accounts for semester payment options.

Students who are admitted to the University after the application deadlines given above may apply within two weeks of their acceptance date.

NOTE: All charges are payable in U.S. Funds. Student Accounts accepts cash and checks for payment on account. Electronic payment is also available which includes e-Check at no charge to the student and credit card payment through American Express, MasterCard and Discover, with a 2.75% service fee. For additional information, go to: www.gonzaga.edu/studentaccounts and click on the 'Billing and Payment' link.

Third Party Sponsors
A student whose account will be paid by a corporate or foreign sponsor, a government agency, a religious institution, a scholarship foundation or trust account, requires proof of sponsorship in the Student Accounts Office to confirm their classes.

Confirmation Deposit
In order to reserve a place in the student body, each first-time entering student is required to pay a $400.00 confirmation deposit. This will apply as a credit toward first semester tuition expenses. Confirmation deposits are non-refundable unless written notification of cancellation of enrollment is received by the Admission Office prior to its deadline dates.

Room Reservation/Damage Deposit
Students are expected to make housing reservations with the Housing Office prior to April 15th for fall semester and prior to December 1st for spring semester. All new students must complete and sign a Residential Living Application/Agreement. Reservations for new students must be accompanied by a $200 advance room deposit fee which is non-refundable after June 1st for fall semester and January 1st for spring semester. This room reservation deposit converts to a room damage deposit at the time of first registration. Damage deposits are left on account until the student leaves the housing system permanently. Damage deposits are refundable when a student checks out of the residence hall or leaves the University and appropriate damage charges, if any, have been assessed.

Returning students who have been refunded their damage deposit are required to resubmit a damage deposit of $200. Room reservation deposits are non-refundable unless written notification of cancellation of room reservation is received by the Housing Office prior to the deadline dates.

Refunds
Students withdrawing completely from the University must obtain a Complete Withdrawal form from the Office of Academic Services. Tuition adjustments are calculated in Student Accounts. Final adjustments are based on the effective date of the withdrawal and exclude non-refundable fees. Room and board are pro-rated throughout the semester. Laboratory fees are not refunded after the first full week of classes. Financial aid funds are refunded in accordance with governmental and University regulations.

The withdrawal refund schedule and refund schedule for dropped classes are available in the Student Accounts and Financial Aid offices.

Miscellaneous
The University reserves the right to change any costs without notice. It further reserves the right to withhold student information, including transcripts and diplomas, until a student's account has been paid in full. No student will be allowed to register for an ensuing semester if a balance is owed for a prior semester. A finance charge of 12% per annum pro rata (365 days) on any amount more than thirty days past due will be added to a student's account, or a rebilling fee of 1% of the amount due or $3.00, whichever is greater, will be added to a student's account. A "No Payment/No Arrangement Fee" of 3% of the amount due will be charged to a student not meeting the established payment deadline.
Tuition Schedule (Academic Year 2007-08)

(Tuition and fees will be adjusted for the period of June 1, 2008 through May 31, 2009.)

Undergraduate:
- Full-time (12-18 credits), per academic year, including General Fees: $26,120
- Excess Credits, per credit: 760
- Part-time (1-11 credits), per credit: 760
- Bachelor of General Studies, (1-12 credits)
- Regular, per credit: 410
- Accelerated, academic year, per credit: 530
- Accelerated, summer, per credit: 510
- Excess BGS credits (over 12) will be at the rate of:
  - Part time, per credit: 760

Study Abroad Programs:
- Gonzalez-in-Florence (includes room & board), per year: 41,800
- Gonzalez-in-Florence, summer program: 7,200
- Gonzalez-in-Granada, (Spain), fall semester: 12,365
- Gonzalez-in-Granada, (Spain), spring semester: 14,040
- Gonzalez-in-London, per semester: 13,900

Special Programs:
- Dual H.S. Enrollment, part-time (6 credit limit per semester) per course: 290
- English as a Second Language, per session: 2,305

Auditors:
- Of Record (recorded on transcript), per credit: 760
- No Record/No Credit, per credit/maximum per course
- Undergraduate: 285/865
- Alumni (limited courses), per course: 175

Notes: 1) Tuition schedules for graduate, postgraduate, doctoral, and law programs are contained in separate catalogs.
2) Physical Education activity courses may not be taken on an "audit" basis.

Special Fees: 2007-08

I. Academic Fees:
- Application Fee: 50
- Summer Session Administrative Fee: 35
- Graduation Fee: 50
- Studies Abroad Administrative Fee: per semester: 500-750
- Late Add/Drop, Withdrawal Fee, per course: 50
- Late Graduation Fee: 75
- Late Registration Fee: 50
- Replacement of ID Cards: 20
- Tuition Deposit: (Full refund prior to 5/1): 400
- Housing Deposit: (Full refund prior to 6/1): 200
- Fitness Center Fee: Full-time Undergraduate, per semester: 95
  - Optional, for all other undergraduate categories, (per semester): 150
  - Optional, entire summer: 50
- Course Challenge Fee: Undergraduate only, per credit: 50
- Transcript Fee: per official copy: 5
- Technology Fees:
  - Full-time Student, per semester: 105
  - Part-time Student, per semester: 50
  - Summer, per session: 28
- Mandatory Accident Insurance, per year: 42

II. Student Life Fees:
- Orientation, required of all first time, full-time undergraduate students:
  - Fall: 60
  - Spring: 50
- Publications, per year, included in tuition: 55
- Laundry Fee, all resident students, per semester:
  - included in room charge: 40
- Campus Ministry Retreats at Bozarth Retreat Center:
  - Optional for all students, varies with retreat: 5-22
- GSBA Student Life Fee: per semester, included in tuition: 80
- Residence Hall Fees: per semester, included in room charge: 35
- Parking, University lots: per year: 50
- Student Mail Box Rental: per year: 35

Room & Board: 2007-08

Students residing on campus must enroll in a combined room and meal plan. Room options with the Gold meal plan option (21 meals per week with $285 flex dollars) are listed below. These are per semester costs:

- Room: Double Occupancy: 3,635
  - Single Occupancy: 3,990
  - Premium Single: 4,135

No meals are served during the Christmas or Spring break periods. All board charges are subject to further increases should rising food costs make it necessary.
In partnership with students, faculty, administrators, and other members of the Gonzaga University community, the division of Student Life assists students in their pursuit of an education based on Jesuit tradition and the Gonzaga University Mission and Ethos Statements. The division strives to know students personally, encourages them to grow and to mature, and enriches their education by challenging them to be active in all areas of their own development. Recognizing growth as a continuous process, the division is sensitive and responsive to the spiritual, intellectual, social, physical, and emotional growth needs of students. The division wants students to commit to excellence, to develop their talents more fully, to be involved in the educational community, to develop mutual respect for and sensitivity to others, to commit to honesty, to communicate openly, to value and offer service to others, to increase their awareness of the oppressed and to work for a just society. The division of Student Life is committed to serving students and the Gonzaga University community through counseling, health education, service, career planning, prayer and worship, safety and security, physical development, crisis intervention, student orientation, student discipline, and co-curricular activities. The aim is to assist students in achieving the maximum benefit from their educational experience and to improve the quality of campus life.

**Student Housing Residency Requirement and Dining Policies:** The University requires full-time undergraduate first and second year students under the age of 21 to reside on campus in the residence hall system and take their meals in the dining halls. Students who have been admitted to Gonzaga University and want to live on campus, must be 17 and 3 months on the first day of classes. Students younger than this age upon the first day of classes must live off campus with parents or immediate family who are 21 or older. Any special exceptions or requests will be considered and addressed by the Director of Housing. First and second year students refers to how many years the students have been attending Gonzaga University and should not be confused with “class standing” in relation to this residence requirement. Undergraduate first and second year students who are under the age of 21 but who are married or living with immediate family in the local area may apply for an exemption from this requirement with the Office of Housing and Residence Life. All students residing on campus are contractually obligated to the University for the room and board fees as stipulated in the “terms and conditions” portion of the Residential Living Application Agreement.

**Residential Living Application/Agreement:** All resident students must complete and sign a Residential Living Application/Agreement. This document fulfills several purposes: it serves as the room and board contract between the University and the student; it states some of the University’s housing policies; it refers you to where you can find the rest of the policies regarding on campus living and behavior; and it provides information on room and damage deposits. If a student withdraws from the University during the semester, his or her room and board charges are refunded on a pro rate basis.

It should be noted that acceptance of the Residential Living Application/Agreement does not constitute acceptance to the University academically. Prospective students are encouraged to apply for housing as early as possible prior to their expected term (fall or spring) of attendance.

**Residence Halls**

Under the direction of the Director of Housing and Residence Life, the University operates 21 residential communities. In addition, two unfurnished off-campus apartment communities and several theme houses are part of our attempt to offer a variety to a student's housing experience as they enter upper division status and are over 21 years of age. The combined residential system houses approximately 2,300 students. The majority of the residence halls are small, ranging in size from 15 to 360 students. This arrangement provides a close-knit and informal atmosphere designed to help students develop responsibility and accept opportunities for leadership.

Alliance, Campion, Chardin, Cushing, Lincoln, and Roncalli are smaller residences on campus. Crimont, DeSmet, Dillon, Goller, Twohy, Welch, Dooley, and Madonna are larger style ranging in size from 45 to 155 students. Catherine/Monica Hall, our largest, is most popular with freshmen and houses 360 students. Apartment style living is popular among second year students and opportunities for such living arrangements can be found in 301 Boone, Sharp Apartments, Sharp House, Dussault Apartments, and to some degree, Burch Apartments. Currently, Kennedy Apartments, some space in Burch Apartments and all of Corkery Apartments are reserved for upper division students who wish to remain on campus after their residency requirement expires. The upper division apartments are premium style, newer apartments, mostly offering options for single bedrooms while sharing apartment space with friends and peers.

Several Jesuit priests live on campus in residence halls with students, acting as live-in chaplains. In addition, several lay chaplains are assigned to residence halls that do not have live-in Jesuit priests. This chaplain program helps provide opportunities for spiritual counseling, in-house worship and some level of guidance as well as an adult presence and role model.

Residence halls and dining halls are open throughout the academic year except during Christmas vacation and spring break, when limited service is provided. Opening and closing dates, including those pertinent to Christmas vacation, are published on the department’s website and various department seasonal publications, distributed during each semester and through community meetings. If multiple dates seem to conflict or are confusing, you should rely on information directly from the Office of Housing and Residence Life when it comes to scheduling flights to and from the campus during holiday periods.

The University does not assume responsibility for the loss or damage of personal property. Every resident is strongly encouraged to secure renter’s insurance and information from private insurers will be included in a summer mailing to all students. Detailed information regarding residence hall regulations is published separately in the Student Handbook. This handbook is available from the Office of Housing and Residence Life or the department of Student Activities.
Room Reservations
Students are expected to apply for housing with the Office of Housing and Residence Life at least six months before the beginning of the semester. All students must complete and sign a Residential Living application/agreement. This document must be accompanied by a $200 advance room deposit which is non-refundable after May 1 for the fall semester and December 1 for the spring semester. The $200 room reservation deposit converts to a room damage deposit at the time of occupancy. A portion of this deposit may be non-refundable, depending upon the year. Please refer to the current Rental Application/Agreement for further details pertinent to the year. The damage portion of the deposits are refundable when a student checks out of the residence hall or leaves the University and appropriate room charges, if applicable, have been deducted.

All students are assigned rooms by the Office of Housing and Residence Life. New students may indicate room or hall preference on the Application/Agreement. Roommate preference, if applicable, should be noted in the "Roommate Request" area. In the absence of a roommate preference, students are paired with a roommate based on the responses to lifestyle questions on the Application/Agreement. Students may also select to live in our Positive Choice and other theme style communities. The theme style communities each year will be advertised on the department website. Most require an additional special application. No guarantees can be made to first-year students regarding building, roommate, or theme style preferences. Returning residents participate in a spring sign up process during the spring semester that allows them to select a specific room for the next fall semester.

Mutual Responsibility
The admission of a student to Gonzaga University and the student's acceptance of that admission constitute an agreement of mutual responsibility. The student's obligation is to accept the published policies of the University and to act in a manner consistent with these policies. Matters treated by the policies of the University's Ethos statement and the student conduct code are detailed in the Student Handbook. The policies and regulations include, but are not limited to, information that describes infliction or threat of bodily or psychological harm, harassment, behaviors that interfere with the learning environment, academic dishonesty, destruction or theft of property, and the possession, use, or sale of controlled substances, drugs, or narcotics.

In turn, the University's responsibility is to provide an environment in which its educational goals may be achieved. The University also recognizes its obligation to provide students with an opportunity to be heard in matters affecting their welfare. Gonzaga University assumes a responsibility to take appropriate action when behaviors are contrary to Gonzaga's mission, Ethos statement, or regulations, and thus, when the agreement of mutual responsibility has been violated.

University Ministry
The Office of University Ministry has as its primary goal to get each student what he or she needs to grow in his or her relationship with God. The habits we teach through University Ministry aim at focusing and realizing the Catholic and Jesuit mission of the University in our students and for their sake, doing so in a way that fits the development and desire of each student.

The Roman Catholic identity of Gonzaga University compels us to be skillful, competent, unitive, and collaborative in the way we practice our religious habits with and for our students, both Catholic and non-Catholic. We are Roman Catholic when we are true to ourselves, but also when we have found the proper ways to relate skillfully and profoundly to what is finest in our students and to the great religious traditions of holiness and service our students represent. After four years, we want our students to have become better individuals regardless of their religious beliefs, attracted to what they do not understand having found ways to work together for the good of all.

The Jesuit identity of Gonzaga University, which governs most profoundly the educational philosophy of the University, compels that we help our students understand how intellectual growth in each of them is essential if we are going to find a way together to unify and heal our world. For the sake of accomplishing these goals, the Office of University Ministry sponsors and directs a multitude of spiritual opportunities our students may engage in, both Catholic and Protestant alike. During the academic year we offer:

- The Eucharist twice a day, six Freshmen Retreats, four Search Retreats, four Cardoner Retreats, two Spiritual Exercises of St. Ignatius Retreats, an RCIA training program for those desiring to enter the Catholic Church, an annual Pilgrimage to the Mission of the Sacred Heart at Cataldo, Idaho.
- We make available spiritual direction to students desiring it. We offer a multitude of opportunities for students to pray together—the Catalyst prayer groups in the residence halls, Rosary groups, Eucharistic adoration groups.
- We co-sponsor opportunities for Protestant-style praise and worship through the Thirst group.
- We offer in every domain of University Ministry opportunities for motivated students to help lead any of these spiritual initiatives.
Furthermore, we explicitly work to link University Ministry and its spiritual formation of students with the broad service initiatives sponsored and directed through Gonzaga’s Center for Community Action and Service-Learning. We will do whatever we can, in accord with our principles and alert to what fits each student, to keep our students growing spiritually, as they also grow intellectually and socially towards their vocations and careers.

See our Website for further details: www.gonzaga.edu/about/mission

Counseling and Career Assessment Center
The Counseling and Career Assessment Center services are available for all currently enrolled students who have concerns which may impede their academic progress. A counselor will decide with the student how many sessions will be needed - not to exceed the limits of our short-term model. Confidentiality is strictly maintained. Occasionally, students have concerns that may require specialized services and the staff can offer referrals to appropriate community professionals. Specialized services may include: alcohol rehabilitation, family therapy, treatment for eating disorders and other chronic psychological conditions. Fees incurred for services beyond the scope of the Counseling and Career Assessment Center are the responsibility of the individual student. While some students may come to college with definite ideas about their academic direction and career goals, many individuals find that the college experience often has a profound impact on the formation of their personal and professional goals. The Counseling and Career Assessment Center provides career counseling to assist these students in taking a comprehensive look at how their particular interests, values and abilities may relate to various career and lifestyle choices. Some of the materials used in the career assessment process include the Strong Interest Inventory, the Myers-Briggs Type Indicator, and the System of Interactive Guidance and Information (eSIGI Plus). Each of these tools is helpful to students in clarifying interests, values and skills, and in identifying compatible academic majors and career fields. The Center offers the Miller Analogies Test year round and serves as a test center for many other graduate admission tests. Information bulletins are available for the following national tests: GRE, LSAT, PRAXIS SERIES (NTE), TOEFL, PCAT, FSWE, and the MAT. The Center is located in the Administration Building, Room 303. The extension is 4054. Off campus, call 323-4054. Office hours are 8:00 am - 12:00 pm and 1:00 pm - 4:30 pm. Counselors are available for appointments Monday-Friday, 9:00 am - 12:00 pm and 1:00 pm - 4:00 pm.

Addiction Counseling
The Addiction Counseling program serves the University community by offering support and resources for those with substance abuse problems. Some services include: alcohol/drug addiction counseling, Adult Children of Alcoholics (ACOA) support group, substance-free housing options, the law school alcohol/drug/behavioral support group, an eating disorder support group, a sexual abuse/sexual assault support group, and alcohol education programs.

The Mission is to provide counseling services to students with substance abuse issues. Occasionally, students have concerns that may require more specialized counseling services. The addiction counselor can serve as a source of referral to appropriate community professionals. The addiction counselor can be reached at extension 4100, or from off campus at 323-4100.

The Career Center
The Career Center provides information, training and services to students and alumni in order to help them clarify and articulate a career path that is consistent with their individual interests, goals, abilities and field of study. Representatives from national, regional and local corporations, non-profit organizations, government agencies and school districts visit the campus annually to recruit and interview students for full-time employment and internships opportunities. Employment opportunities are posted on line at ZagTrax (http://www.ecampusrecruiter.com/gonzaga) and are available to all students. ZagTrax is also used by students and alumni to keep their career portfolio (letters of recommendation, transcript, resume and other pertinent documents) and are made available to prospective employers or graduate schools upon the request of the student or alumni.

The Career Center maintains a library that provides current information on employer and occupational profiles, alternative careers and national, regional and local employment trends. Seminars on career planning, resume writing, interview skills, and job search techniques are conducted throughout the year by staff professionals and trained student paraprofessionals called CRISP (Career Representatives Involved in Student Planning) to assist students in developing a better understanding of the skills necessary for employment. Mock interviews are conducted with professionals from local businesses to provide students an opportunity to practice their interviewing skills. The Gonzaga University Career and Internship Fair is held during fall semester as part of Career Week activities allowing students the opportunity to network with professionals for future employment opportunities. The Career Center has developed a partnership with the career centers from Eastern Washington University, Whitworth College, and WSU Spokane to sponsor “The Partnership in Employment Career Fair” for students and alumni to provide opportunities for employers and candidates to discuss future employment and internship opportunities. Students are encouraged to schedule an appointment with a career professional to develop a personal career portfolio, options for graduate school, or employment opportunities.

The Career Center is the central resource for internship opportunities. Interested students should complete the Internship Interest Form available in The Career Center or visit our web site at www.gonzaga.edu/careercenter. Registered students are notified when opportunities are available that match their interests and skills. Internships are an excellent way to gain valuable experience and give students an opportunity to integrate classroom knowledge into an applied setting. The Career Center can assist students in reviewing the possibility of academic credit for an internship experience.
GAMP

Gonzaga University Alumni Mentor Program (GAMP) is a career development and networking resource for students and alumni. This award-winning program assists individuals in exploring alternative career fields and in developing a network of contacts by matching them with alumni mentors in their particular career field. The program has over two thousand mentors in a wide variety of career fields from different geographical locations willing to help students clarify academic and career decisions. Students acquire realistic and current information from these career practitioners and begin developing relationships that will prepare them to make a successful transition from school to the professional world.

In addition to the individual mentoring, GAMP organizes regional events in Spokane, Portland, and Seattle. The "Trek" program offers students the opportunity to participate in corporate excursions, networking socials, and to meet representatives from some of the top firms in the region.

Center for Community Action and Service-Learning (CCASL)

The Center for Community Action and Service-Learning (CCASL) puts Gonzaga’s mission into action through a wide spectrum of volunteer and service-learning programs. CCASL empowers students and faculty to take action through community involvement, education, and public service to strive for social justice. Together with the campus community, CCASL endeavors to fulfill the University’s mission of creating "men and women for others." CCASL is located in a house that serves as a resource center to students, faculty, alumni, and community partners with the goal of providing community service opportunities. Programs include:

The Office of Service-Learning: GU has offered service-learning courses (a service component is integrated into a course’s curriculum) for over a decade. The program is supported by the Service-Learning Advisory Board and the Office of Service-Learning. Over 40 faculty teach service-learning courses in twelve different academic departments and the law school. Over 1,000 students are engaged in service-learning each academic year. Each semester the office coordinates a Service Fest where 50 non-profit agencies recruit student volunteers.

Other volunteer opportunities include: The Campus Kids and Shaw Connection Project: Campus Kids and Shaw Connection are mentoring programs for at-risk youth. The project pairs GU students with 4th, 5th and 6th grade children, or middle school children, for tutoring activities centered on the Gonzaga campus.

Literacy Links: Literacy Links includes four individual literacy projects, each led by a full time AmeriCorps member. Projects include a reading tutoring program for elementary school children, and the "Partners Project", an English as a Second Language tutoring program for English language learners in Spokane Public Schools.

Community Action Projects: These student initiated projects include one-day events such as April’s Angels and the Way of the Heart Retreat. These include projects for the homeless, elderly, environment, and at-risk youth. CCASL also has information and resources on over 100 community agencies, as well as resources for students interested in post-graduate volunteer opportunities. Please visit www.gonzaga.edu/CCASL for additional information.

Health Center

The campus Health Center provides health education, promotes physical and mental health, and provides medical treatment for illness and minor injuries. The Health Center is open weekdays during the academic year except holidays, and Christmas and Spring vacations. A referral service is also provided.

The physician, nurse practitioner, and registered nurses are available for a confidential treatment and consultation with an emphasis on personal responsibility and wellness. All full-time students are eligible for these services.

In compliance with University policy, all students born after 1956 must submit documentation of two immunizations for red measles (Rubella) prior to registration. Non-compliance with this requirement may result in a hold on any future registration. Exceptions must be verified by the Health Center and will be granted only for specific medical or religious objections to vaccination.

An accident/injury plan is in effect for all students. Additional insurance coverage is offered to cover the cost of services, in or out of the Health Center.

Athletics

Gonzaga University competes at the highest level of intercollegiate athletics in the ranks of the National Collegiate Athletic Association’s Division I. Gonzaga offers seven intercollegiate sports for men and seven for women.

Gonzaga's athletic teams are nicknamed the "Bulldogs." The University's official colors are blue, red, and white. Men's basketball, baseball, cross country, soccer, golf and tennis teams compete in the West Coast Conference with teams from Loyola Marymount University, Pepperdine University, Saint Mary's College, Santa Clara University, and the Universities of Portland, San Diego, and San Francisco.

Men's crew competes independently of conference affiliation. Gonzaga's men have been members of the WCC since 1979.

Women's basketball, volleyball, cross country, soccer, crew, golf, and tennis teams also compete in the West Coast Conference, comprised of the same teams included in the men's WCC alignment. Gonzaga's women have been members of the WCC since 1987.

Gonzaga also offers a variety of club sports, through the Gonzaga Student Body Association, including ice hockey, men's and women's rugby, alpine skiing, and lacrosse.

Intramural sports are a vital part of student life on the Gonzaga campus. Activities span the nine-month academic calendar, including such sports as flag football, basketball, volleyball, dodgeball, tennis, badminton, and softball. All sports are offered for both men and women, or as a coed activity.

The Charlotte Y. Martin Centre is a 136,000 square foot athletics and recreation complex. The complex houses the Rudolf Student Fitness Center, Athletics Department, and Physical Education classes. The Martin Centre is the 2000 seat home for volleyball.

The Rudolf Fitness Center is a 38,000 sq. ft. facility with a full line of cardiovascular and weight areas. Also available are four racquetball courts, two aerobics rooms, three full basketball or volleyball courts, a running track, a six lane 25 yard swimming pool and a smoothie snack bar.

The McCarrthy Athletic Center is a 144,000 square foot basketball arena. The McCarrthy Athletic Center houses a portion of the Athletics Department offices and a workout room for the men's and women's crew teams. The McCarrthy Athletic Center contains the Kennel which is the 6,000 seat home for men's and women's basketball.
Unity House Cultural Education Center
Enriching life through justice and culture: experience it!

Unity House since 1996, is under the administrative responsibility of the Office of the Associate Vice President for Diversity.

Through our staff, services, and programs, we provide assistance and support to all students, faculty, and staff who seek to broaden and deepen their understanding of themselves and the diverse world in which we live. The center encourages and supports open and honest communication and opportunities for participation in individual, group, and cultural education programs and events on campus and in the greater community.

Our Mission is to promote the Jesuit and Catholic ideals of social justice and service; and to promote cultural and cross cultural understanding within the Gonzaga community through academic pursuits, collaborative efforts, advocacy and civic engagement. We provide and support student leadership and professional development programs, such as, the Academic Cultural Excellence (ACE) Student Leadership program, a staff development program known as the Diversity Passport program, the freshman Pathways experience with their focus on diversity, justice and human rights and GIEOP (Gonzaga’s Indian Education Outreach Program). The director also works to collaborate with other faculty across disciplines in an effort to enhance the classroom experiences of our students and visitors on issue of social justice and diversity. In addition we support cultural events, community service, and outreach initiatives. We specifically seek to support students of color by providing a safe, academic, and social climate at Unity House.

We provide a place to study and a home away from home for students and visitors. Some of our resources include:

1) A state of the art computer lab. 
2) A small book/video resource library; big screen T.V. 
3) Meeting and lounge areas and kitchen and dinning areas.

The house also serves as the headquarters of several community and campus efforts, e.g. the Spokane Chapter of the NAACP (National Association for the Advancement of Colored People), the Fig Tree faith in action newspaper, P.I.E.R. (Program for International Education and Relief), the Black Student Union (BSU), First Nations Native American Student Association, the Special Populations Resource Center, and the Office of the Cultural Activities Coordinator. Unity House is an outlet for active and open dialogue regarding racial, cultural, sexual orientation, and social justice issues for all members of the Gonzaga Community. All are welcome here.

Visit our web site at www.gonzaga.edu/diversity

International Student Programs
The International Student Programs (ISP) office markets the University's programs overseas. ISP processes the application and admission of foreign undergraduate students and the evaluation of foreign secondary and tertiary transcripts, and ensures the University's compliance with federal regulations pertaining to international visitors and students.

The ISP Office operates a variety of programs providing services to Gonzaga students from other countries, including orientation, academic advising, and multicultural activities. ISP also coordinates activities among students, faculty, administration, the local community, and various American and foreign governmental agencies involved with international students.

ISP also works in coordination with the University's English Language Center. For more information, please see the English Language Center section of the catalogue.

Disability Resources, Education, and Access Management
Disability Resources, Education, and Access Management (DREAM) provides access services to Gonzaga University's programs, services, activities and facilities for qualified students with disabilities in compliance with the Americans with Disabilities Act, Section 504 of the Rehabilitation Act of 1973 and Washington State laws. DREAM may arrange or provide appropriate academic adjustments, reasonable accommodations, auxiliary aids, assistive technology, advocacy, and other types of assistance for students with disabilities.

In order to receive reasonable accommodations, students are responsible for requesting accommodations and for providing the appropriate documentation to DREAM. Please contact DREAM to receive a copy of the University's policy on documentation of a disability or visit the department website at www.gonzaga.edu/disabilityresources for these policies as well as other helpful information. Students should contact DREAM at least four weeks prior to each semester for which they are requesting services. Lack of advance notice may delay the availability of accommodations.

If at any time during the process of application, admission, and enrollment, individuals feel that they have been discriminated against because of disability, they are encouraged to notify the DREAM director. Incidents which have occurred more than 120 days prior to making the complaint may or may not be given consideration. To obtain copies of GU's Informal Complaint Process for Reasonable Accommodation or the Formal Grievance Procedure, please contact the DREAM Director or visit the department website: www.gonzaga.edu/disabilityresources.

For more information, please contact the department at 509-323-4134 or extension 4134, if you are calling from an on-campus phone or using the switchboard to direct your call.

Campus Safety and Security Department
The Campus Security department facilitates the safety and security of the students, staff, faculty, visitors, and property of Gonzaga University. As part of the Student Life division, the Safety and Security department supports the educational and developmental mission of the Office of the Vice President for Student Life. The department is staffed 24 hours a day, 365 days a year. Officers are professionally trained in public safety methods. On-going training, appropriate for the campus environment, is provided. Officers make regular checks of all University buildings, with emphasis on the residence halls. Officers also answer calls for service, provide escorts and jump starts, check alarms, and investigate suspicious situations. Criminal activity and requests for police service that are outside the authority of campus officers are directed to the Spokane Police Department. The University possesses a collaborative working relationship with local law enforcement and emergency service providers.
Crosby Student Center
The Crosby Student Center opened in the spring of 1993 as a student-oriented facility designed to enhance the quality of life among members of the Gonzaga community. The Center offers meeting rooms, lounges, and a recreation area for programs, study, and socialization. Also available are student mailboxes, the University mail service, a central information desk, television lounge, espresso bar, vending machines, gifts/balloons, a small movie theatre, food retail outlets, a student photo gallery, ATM, bank, courtesy phones, and Ticket Central where students can purchase discounted tickets to area-wide events on and off campus. Offices housed in the Center include University Ministry, The Career Center, Student Activities, Outdoor Recreation, in addition to the offices of the Gonzaga Student Body Association (GSBA), and the Crosbyanna Room with Bing Crosby memorabilia.

Student Publications
The University is the publisher of these student produced publications: The Bulletin, the weekly newspaper; Reflections, an annual journal of art, poetry and fiction; Charter, an annual journal of scholarly thought and opinion; the Spires yearbook; and on-line student publications. For distribution locations, call 323-6875. To view these publications on-line go to http://www.gonzaga.edu/Student+Life/Get+Involved/Student+Media/default.htm or to www.gonzagabulletin.com for the newspaper. The online student telephone directory is available to students only through their Zagweb account. For other questions, please call 323-6875.

Student Organizations
Student Government: The Gonzaga Student Body Association (GSBA) is Gonzaga's student government. Every undergraduate student is a member of GSBA. The purpose of GSBA is to present student concerns to the administration, provide activities both on and off campus, sponsor and financially support student clubs and organizations, supply student services, provide leadership development opportunities, and assist in creating an environment which is conducive to students' needs. GSBA is made up of three branches: the executive branch, the legislative branch, and the judicial branch. There are four elected and 14 students appointed executive branch representatives, 24 elected legislative branch representatives, and five students appointed judicial branch representatives. GSBA's mission is to support the growth of the Gonzaga community through the sponsorship of clubs, activities, and forums for student participation.

Student Clubs: The Vice President for Student Life formally recognizes academic, social, honorary, sports, religious, awareness, and service clubs and organizations. There are over ninety chartered clubs and organizations at Gonzaga. Currently, Gonzaga has such club sports as hockey, skiing, women's fast pitch, rugby and men's and women's lacrosse. These clubs compete with other schools in the region.

Service organizations provide an opportunity for students to serve the University and the Spokane community. The Knights, the Setons, and Circle K, all allow students to use their talents in service.

In addition, there are special-interest clubs. Among these are academic clubs, political clubs, cultural clubs, and honor societies. All of these groups sponsor and participate in activities on campus and in the community. Students are encouraged to form new clubs and organizations; however, they will not be officially registered with the University until they go through the proper procedures for emerging clubs. The Office of the Vice President for Student Life will be the final point of recognition for all clubs and organizations.

Further information on these clubs can be obtained by contacting the Student Activities Office which is located on the second level of the Crosby Student Center.

Gonzaga Outdoors: The mission of Gonzaga Outdoors (GO) is to provide experiential educational opportunities for students to learn about themselves through the outdoors. GO tries to appeal to all types of outdoor enthusiasts by sponsoring ski trips, fall and spring rafting trips, backpacking trips, climbing classes, camping, environmental education and clean-up, bike tours and more. These trips are meant for everyone, whether expert or beginner. The Gonzaga Outdoor Office is located in the basement level of the Crosby Student Center.

Outdoor Equipment Rental Program: The outdoor equipment rental program is a service available to students, faculty and staff. Rental equipment includes camping supplies, kayaks, snowshoes, snowboards, and more. New to the area and don't know where to go? Our staff can assist you in planning a trip, whether it is camping, hiking, kayaking or anything.

Further information on the Gonzaga Outdoors Program can be obtained by contacting the office, which is located in the basement level of the Crosby Student Center.

Student Activities: Operating under the belief that extracurricular activities help develop the “whole person,” the Office of Student Activities is a wonderful starting point for your journey. The office is a central point for happenings on campus which assists with event planning, supervises clubs, and large events on campus such as Homecoming, Spring Fling, Senior Week activities and more. For further information contact the Student Activities Office located on the upper level of the Crosby Student Center, Room 200. The phone number is 323-6123.

Weekend Wonders: This is a program that provides students with a variety of fun activities on the weekends. The coordinator works with various clubs and organizations to put on some events such as the La Raza Latina Grand Festival, Lacrosse BBQ and the Gonzaga Outdoors Climbing Experience.

For further information on Weekend Wonders, contact the Student Activities Office located on the upper level of the Crosby Student Center.
DEGREE REQUIREMENTS AND PROCEDURES

www.gonzaga.edu
Degrees and Programs Offered

A. Degrees Offered

Gonzaga University offers programs leading to the degrees listed below. For specific majors within these degrees, more information can be found under the listing of the individual school or college. This catalogue provides undergraduate degree information and references to the other divisions of the University. Information on graduate and legal studies can be found in the separate catalogues of the Graduate School and the School of Law.

The University has advisory programs to assist students in preparation for admission to professional schools: pre-dentistry, pre-law, and pre-medicine. The Department of Military Science also offers a program leading to a commission in the United States Army.

The College of Arts and Sciences confers the degrees of Bachelor of Arts (B.A.) (Honors and General), and Bachelor of Science (B.S.) (Honors and General).

The School of Business Administration confers the degree of Bachelor of Business Administration (B.B.A.) (Honors and General).

The School of Education confers three degrees: Bachelor of Education (B.Ed.) in Special Education, Bachelor of Education (B.Ed.) in Sport Management and a Bachelor of Education (B.Ed.) in Physical Education. This school also provides programs leading to initial and continuing teacher certification in elementary and secondary education in conjunction with the B.A. degree.

The School of Engineering and Applied Science confers the degree of Bachelor of Science (B.S.) (Honors and General) in Civil, Computer, General, Electrical, and Mechanical Engineering.

The School of Professional Studies confers the degrees of Bachelor of General Studies (B.G.S.) and Bachelor of Science in Nursing (B.S.N.).

The School of Law confers the degree of Juris Doctor. In cooperation with the Graduate School of Business, a combined program is offered for the M.B.A./J.D. and MACC/J.D.

A listing of graduate programs in the above College and Schools can be found in the "Other Schools and Programs" section of this catalogue. Consult the graduate catalogue for complete information.

B. Programs Offered

1. Special University-Wide Programs

Gonzaga makes available special programs for selected students in all of its schools and college. Further information on the following programs can be obtained from the director of the program.

Study Abroad Program: An academic year program in Florence, one or two semester programs in Paris, London, Spain, Ireland, China, or at Sophia University in Tokyo. Summer programs are offered in Florence, Cuernavaca and London.

Honors Program: A special curriculum for academically gifted undergraduates; specific requirements vary from school to school. Upon graduation, students in this program receive their degree with a special Honors designation.

Hogan Entrepreneurial Leadership Program: A special four year curriculum for students of exceptional ability that immerses undergraduates in the concepts and practices of creating new commercial and social enterprises. Students in this program graduate with a major in an academic field of their choosing as well as a Concentration in Entrepreneurial Leadership.

International Students Programs: An office which provides information on the academic programs of Gonzaga University to students and educators overseas, and provides a wide range of social, cultural, academic and other services for the international students at the University. It administers the International Cultural Center, and offers a year-round intensive English as a Second Language (ESL) program.

Ministry Institute: An independent institute for ministry formation in a community setting; students of the Institute take graduate course work at the University.

2. Pre-Professional Programs

Pre-Medicine, Pre-Dentistry, and Pre-Veterinary Studies: Members of the Committee on Health Science Careers (CHSC) share a commitment to preparing students for graduate studies in the health sciences. Faculty members of the CHSC represent a broad range of departments. The committee currently includes faculty from Psychology and English, as well as Biology, Chemistry, and Physics. Not only are committee members active in pre-health science advising, but they also support the student's application by providing mock entrance interviews, reviewing personal statements, and writing letters of recommendation. Students who indicate an interest in the health sciences are encouraged to consult with committee members or an advisor with expertise in advising in that area.

Pre-health science students choose and complete a regular undergraduate major under the supervision of their academic advisor. Students cannot major in pre-medicine or any other pre-health science field at the undergraduate level. Although health science students must demonstrate strong achievement and aptitude in the natural sciences, a science major is not necessary. Admission committees consider each candidate based on their record of academic success, their score on the standardized entrance examination (MCAT or DAT), personal characteristics, which are further developed through the core curriculum, a demonstrated commitment to service, and knowledge of the chosen career field. Consequently, they also encourage applications from non-science majors who demonstrate these qualities and who have completed the science requirements. The CHSC recommends that students select a major based on individual interests and potential alternative career plans and then pursue the curriculum that will be most useful towards these goals.
All health science students should complete certain science courses as minimum preparation for graduate study in the health sciences. These courses should be finished prior to the spring semester of the junior year, which is when the standardized entrance examinations (MCAT or DAT) should be taken. The following courses fulfill the minimal requirements established by most health science programs:

1) 1 semester of General Chemistry (CHEM 101/101L or 105/105L)
2) 3 semesters of Biology (BIOL 101/101L, 201/201L & 202/202L)
3) 2 semesters of Organic Chemistry (CHEM 230/230L & 331/331L)
4) 1 semester of Bioanalytical Chemistry or Quantitative Analysis (CHEM 240/240L or 310/310L)
5) 2 semesters of Physics (PHYS 101/101L & 102/102L) or (PHYS 103/103L & 204/204L)

Many programs also require or strongly recommend one semester of Biochemistry (BIOL 440 or CHEM 440). Collectively, these courses provide the student with a strong foundation for graduate study in the health sciences. A few programs have additional requirements. The CHSC therefore directs students to appropriate resources to learn about the requirements of specific professional programs. Furthermore, the CHSC can advise students on the most appropriate courses to meet or exceed those requirements. As a complement to science courses, the Arts and Sciences Core Curriculum provides students with a broad liberal arts education that will help them develop the philosophical and humanistic perspective necessary to handle complex social and ethical issues. Moreover, the CHSC encourages students to seek out volunteer opportunities and exposure to health care providers and work environments. Students who demonstrate a humanistic concern for others through regular volunteer work in the community have higher acceptance rates than students who show no such interest or concern. Additionally, health science students must learn about their chosen career through direct interaction with health care providers. In fact, some professional programs require entering students to exceed a minimum level of exposure to their chosen field. For further information on the CHSC, or preparation for health science careers, contact the Biology department.

Pre-Law: A Bachelor's degree is normally demanded by law schools for admission. No particular major is required, but these schools look for students who have done well in their undergraduate program and on the Law School Admission Test. Further information can be found in the Law School section of this catalogue. The best preparation for law school is a solid liberal education with particular emphasis on those majors and courses that develop the ability to read critically, to analyze difficult written material carefully, to think logically, and to write clear, coherent, and effective English prose. More pre-law students major in Political Science than any other field, but Gonzaga graduates have done well in law school recently with majors in all rigorous academic programs.

The pre-law program is administered by the department of Political Science. Students are provided with special academic advisors, and special preparation for the LSAT examination is provided. Internships with private law firms and with the Office of the State Attorney General are available to qualified students. The pre-law advisor can suggest an individually tailored minor in legal studies, upon request, or specific pre-law courses.

Pre-Nursing: Gonzaga offers a program for students who are just beginning their college education and wish to become registered nurses. During the first two years of the program, students complete the Gonzaga University core and prerequisites to the Nursing program. Prerequisite courses include: Anatomy and Physiology with a laboratory, Chemistry with a laboratory, English Composition, Mathematics, Microbiology with a laboratory, Nutrition, Psychology, Social Sciences, Sociology, Speech Communication, and Statistics. During the sophomore year, students make a formal application to enter the nursing major. If admitted to the major, Gonzaga students begin advanced nursing courses.

Preparation for Careers in Allied Health: The University provides students with opportunities to prepare for graduate or professional study in a variety of health related areas including physical and occupational therapy, physician assistant programs, corporate fitness, cardiopulmonary rehabilitation, business careers in health fitness and human performance, health administration, health education, and sport and fitness business administration. Careers in allied health require additional study after completion of an undergraduate degree and therefore consideration of the prerequisites for admission to individual graduate programs is critical and should be considered by the student in selecting an undergraduate major. For further information on preparation for careers in allied health, contact the Department of Exercise Science in the School of Professional Studies or the Department of Sport and Physical Education in the School of Education.

Miscellaneous Programs: Students who wish to pursue degrees in medical records, physical therapy, optometry, pharmacy, agriculture, architecture, forestry, or mining are encouraged to complete the core curriculum at Gonzaga as well as those courses which will form a good basis for further study in the field of their choice.

Veterans: Gonzaga University's academic programs of study are approved by the Washington State Higher Education Coordinating Board's State Approving Agency (HECB/SAA) for enrollment of persons eligible to receive educational benefits under Title 38 and Title 10 USC. Eligible veterans needing to apply for their benefits, approved veterans needing certification of enrollment, or students with questions about possible veteran benefits should contact the University's Veterans Coordinator in Room 229 of the Administration Building.
D e g r e e  R e q u i r e m e n t s

A. University Wide

1) University Wide Undergraduate Degree Requirements

a) Completion of a minimum of 128 semester credits.
b) Completion of the core requirements of the University and of the individual school or college.
c) Graduate courses may not be counted toward an undergraduate degree.
d) Minimum cumulative grade point average of 2.00 in all courses taken at Gonzaga.
e) Completion of major requirements with a minimum cumulative grade point average of 2.00 in upper division major courses. The majority of the upper-division major credits must be Gonzaga credits.
f) Courses grades with a “P” (pass) grade mode can only be used as elective credits. Credit earned with a “P” may not be used to satisfy core, major, minor or concentration requirements.
g) Senior Residency Requirement: the last thirty semester credits immediately preceding graduation must be earned in Gonzaga University course work.
h) Formal application for graduation: students must file an application and pay the graduation application fee according to the instructions and dates published by the University Registrar; diploma’s will be dated as of December, May, June, or August, with one public commencement ceremony held in May.

Note: Payment of all indebtedness to Gonzaga University, the return of all equipment to the appropriate entity, and the return of all books to Foley Library are required prior to a prospective graduate’s departure from Gonzaga. Holds may be placed on transcripts and diploma’s for any of these deficiencies.

2) University Core Curriculum

At Gonzaga, all undergraduate students follow a common program designed to complete their education in those areas which the University considers essential for a liberal and humanistic education as well as a more specialized program of the student’s own choosing. The University Core Curriculum consists of thirty-one semester credits. Individual schools and college also have core curricula of their own which complement the University’s Core.

The University Core Requirements are grouped into five basic areas:

a) Thought and Expression (7 credits): This is a set of three courses designed to be taken as a block in one of the semesters of an undergraduate’s first year: ENGL 101 English Composition; PHIL 101 Critical Thinking; and SPCO 101 Speech Communication.
b) Philosophy (9 credits): Three courses in Philosophy beyond PHIL 101 taken in sequence: PHIL 201 Philosophy of Human Nature; PHIL 301 Ethics; and one 400 level Philosophy elective.
c) Religious Studies (9 credits): Three courses in religious studies taken in sequence: one in scriptural studies (100 level); one in Christian doctrine (200 level); and one in applied theology (300 level).
d) Mathematics (3 credits): One course in mathematics (MATH) on the 100 level or above. (NURS 320 substitutes for MATH for BSN students.) Course work in Computer Science (CPSC), or courses without the MATH prefix, do not fulfill this requirement. MATH 203 fulfills this requirement only for students who graduate with certification in Elementary Education.
e) English Literature (3 credits): One course in English literature (ENGL 102, 103H, 105, or 106).

3) Catalogue Options

Students entering after June 1, 1981 may select the core and degree requirements from any appropriate catalogue which is within six years prior to their graduation. Students who entered before June 1, 1981, do not have a time limit regarding the catalogue they select. An appropriate catalogue is one in effect when a student attends with regular status as an undergraduate in a degree program. Summer session attendance does not qualify. The complete degree requirements of only one catalogue must be followed. Selections may not be made from more than one catalogue. Substitutions for discontinued courses are required and are to be authorized by the proper University authorities.

B. Major Area

Either at the time of entrance or by the end of their second year, undergraduates should declare the particular field in which they wish to do their major work. They are then directed to the proper department for acceptance and advice in planning a program of study.

The major normally consists of at least eighteen credits of upper-division course work in the major field and such supporting courses as the department requires. The major is listed on the final transcript but not on the diploma with the exception of Engineering, Education, General Studies and Nursing.

C. Minor Area: Minor Courses of Study

An optional minor study program is offered by most of the departments within the University. Specific requirements can be found under the department headings in this catalogue. The minor is listed on the final transcript if the student completes the necessary requirements and requests the Registrar’s Office to do so in writing on the Application for Bachelor’s Degree form.

D. Second Majors, Minors, and Degrees

Under a Gonzaga baccalaureate degree, a student may complete more than one major and/or minor under that degree type (i.e. Bachelor of Arts with majors in Sociology and in Psychology). Students can receive more than one baccalaureate degree at the same time (i.e. Bachelor of Arts and Bachelor of Science). This is accomplished by completing both school’s core and major requirements in addition to completing a minimum of 158 semester credits. Students who already hold an undergraduate degree from Gonzaga or any other institution can enroll at Gonzaga for a second degree as a post baccalaureate student. Gonzaga University offers second majors, second minors, and second degrees according to the following norms:

Second Major:

1) The student must fulfill all departmental requirements for the second major and all the core requirements of the school wherein the major is offered.
2) The student must formally apply for the second major on the Application for the Bachelor’s Degree form.
3) At least during the third and fourth years, the student should utilize the advice of a faculty member in the department of the second major.

Second Minor:

1) The student must fulfill the requirements of the department. If the minor is in a school other than the major, the second school core requirements need not be fulfilled.
2) The student must formally apply for a minor on the Application for the Bachelor’s Degree form.
3) The diploma does not indicate a minor, but it is listed on the transcript.
Degree Requirements and Procedures

Second Degree (Undergraduate):
1) The student must fulfill thirty Gonzaga credits beyond the 128 completed for the first degree.
2) The student must fulfill all University core requirements, individual school core requirements and departmental requirements for the second degree; requirements fulfilled in the major, however, for the first degree are not repeated.
3) The student must formally apply for the second degree prior to graduation.
4) A second diploma is awarded only when the second degree is distinctly different from the first.

Second Degree (Post Baccalaureate):
1) The student must be admitted to the University by the Office of Undergraduate Admission.
2) The student would enter under the academic curriculum of the current catalogue and be subject to the current academic policies. This would require the student to take all courses that are new core requirements for the school/college since his/her original degree.
3) The minimum GPA requirement to receive the degree is a 2.00.
4) Students must complete a minimum of thirty credits at Gonzaga University. Any course work considered transferable toward the second degree would require a student to adhere to the course substitution petition process.
5) Courses used to complete another degree either through Gonzaga University or another institution cannot be used toward the second degree.

E. Activity Courses
No more than eight activity credits can be counted toward a baccalaureate degree. No more than one activity course may be taken each semester.

Exceptions to these limitations:
1) Physical Education Majors (B. Ed.) are, with the permission of the Chairperson of the Physical Education department, allowed a total of four EDPE Activity Courses beyond the eight-credit limit for all activity courses.
2) Majors and minors in Music or Music Education may exceed the eight-credit limit.
3) Majors in Theatre Arts are allowed a total of four performance credits beyond the eight-credit limit.

F. Multiple Usage of Courses for Meeting Degree Requirements
Basically, one course can satisfy only one degree requirement. The 128 credit minimum for degree completion (and the additional 30 credits required for a second degree) are not reduced by a double count. Exceptions for multiple usage of courses include:
1) A LOWER DIVISION course can automatically be used to fulfill any number of lower division MAJOR, MINOR, AND CONCENTRATION requirements while also fulfilling a core requirement. A double count of courses within the core itself is not allowed with the exception of the social justice requirement within the College of Arts and Sciences.
2) An UPPER DIVISION course can be used to fulfill a requirement for more than one major and/or minor. Any upper division course cross-listed with Women's Studies (WOMS) or Catholic Studies (CATH) may fulfill core requirements as well as a course requirement or electives in the Women's Studies concentration or Catholic Studies concentration. No permission is necessary.
3) An UPPER DIVISION course used to meet a University or school core requirement cannot be used to satisfy any major or minor requirement, except for students specifically majoring and/or minoring in the Departments of Religious Studies and Philosophy.
4) When multiple usage of a course occurs in meeting degree requirements, the course credit is counted only once and the grade is computed when determining the major upper division grade point average.

G. Pass/Fail Grade Course Limit
No more than five (5) Pass/Fail graded courses can count toward a baccalaureate degree, and no more than two (2) can be taken in any one department. This grading option cannot be used to satisfy core, major, minor, or concentration requirements; it only applies to courses taken as electives.

Academic Policies

A. Disclaimer for Academic Policy and Program Changes
The provisions of this catalogue are not to be regarded as a contract between the student and Gonzaga University. The University reserves the right to make changes in courses, programs, faculty, calendar, tuition and fees, grading procedures, graduation requirements, admission criteria, and any other information contained in this catalogue at any time without notification. Changes become effective when the University so determines, and apply to prospective students as well as students currently enrolled. The University will make an effort to notify students of changes through publications and notices.

B. Disclaimer for Course Availability
All reasonable care is taken to ensure that both course offerings and degree requirements contain no erroneous, deceptive, or misleading information by omission, actual statement, or implication. Every effort will be made by the University to offer at least the courses listed in this catalogue during the period in which it is in effect; student enrollment and faculty availability, however, may affect the courses offered. Some courses listed in this catalogue are offered only as needed. The decision to offer such courses rests with the Chairperson in consultation with the appropriate dean. Final course information is published on Zagweb.

C. Academic Advising
Gonzaga University offers a wide variety of courses and programs. So that students may make informed decisions, the University places great emphasis on academic advising. All students are assigned to faculty advisors who can provide information about programs and requirements. These advisors are provided with information on the academic background of the advisees. Although advisors assist in drawing up class schedules and checking for requirements and prerequisites, students have personal responsibility for fulfilling the academic requirements as set forth in this catalogue.
All students must have their schedule of classes approved by their advisors each semester. At mid-term of each semester advisors will meet with their advisees to distribute mid-term grade reports, to review academic progress, and to distribute registration information.

Advisors are available for consultation during their designated office hours and at other times by arrangement. The University expects that students will take advantage of the assistance which advisors can provide in course planning, interpretation of University policies and requirements, clarification of academic and career goals, understanding and using established processes for exemptions to University policies, and making use of the opportunities provided at Gonzaga for a satisfying and profitable academic experience.

Although advisors cannot change University policy or departmental requirements, they can assist students in submitting petitions to the appropriate office(s). Students should take special care that all approved petitions are placed in their permanent file in the Registrar's Office. They should also make sure that both they and their advisors keep copies of such material.

Close and long-term relationships with advisors can obviously be very helpful in the larger educational process of college life. Advisors will sometimes take the initiative in contacting their advisees. Students are expected to visit their advisors at regular intervals.

Students are free to request a change of advisor. Forms are available in the Dean's Offices.

D. Academic Services
This office is designed to centralize into one area services for students and faculty regarding academic information, advising, and academic policies. This office serves students and faculty needing assistance with:

- Academic planning
- Special advising questions and cases
- Dual Enrollment student advising
- New student registration
- Complete Withdrawals/Leave of Absence from the University
- Academic standing/Academic probation
- Academic transition issues
- Academic crises
- Academic honesty
- General academic policy issues.

E. Course Numbering System

**Lower Division Courses:**
Below 100 - Remedial in nature; University credit is granted for no more than two courses numbered below 100 and they do not fulfill any core or major requirements.
100-199 - Primarily first and second year courses for which there are normally no prerequisites
200-299 - Courses with usually one prerequisite; primarily for first and second year undergraduates

**Upper Division Courses:**
300-399 - Courses usually with prerequisites; primarily for third and fourth year undergraduates
400-499 - Courses with prerequisites; primarily fourth year undergraduates
500-599 - Graduate courses which may be taken by third and fourth year undergraduates with dean's permission (these courses do not count toward a baccalaureate degree)
600-699 - Graduate courses for graduate students only
700-799 - Graduate courses for doctoral students only

F. Classification of Students
An undergraduate student is classified as a First Year, Second Year, Third Year or Fourth Year based upon the cumulative number of semester credits he/she has earned.

<table>
<thead>
<tr>
<th>Cumulative Credits Earned</th>
<th>Classification</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 - 25</td>
<td>First Year</td>
</tr>
<tr>
<td>26 - 59</td>
<td>Second Year</td>
</tr>
<tr>
<td>60 - 95</td>
<td>Third Year</td>
</tr>
<tr>
<td>96 - More</td>
<td>Fourth Year</td>
</tr>
</tbody>
</table>

A post baccalaureate student has a bachelor's degree and is not admitted to a graduate program. He or she may be pursuing a second bachelor's degree or attending for personal enrichment.

G. Registration Procedures
For each semester detailed registration procedures are published on the Registrar Office web pages at:
http://www.gonzaga.edu/Campus+Resources/Offices+and+Services+A-Z/Registrar/default.asp.

If an individual attends a course section that he or she is not registered or financially confirmed for, no credit or grade will be recorded. Sitting in a course without registration is not permitted.

Late registration is permitted only during the published time for change of registration (add/drop).

Students who do not have the necessary prerequisites for a course will not be able to register for that course. For more information, please contact the Registrar's Office.

H. Change in Course Registration
Any change in a student's course schedule after registration requires approval from the academic advisor.

Courses may be changed only during the period listed under **Important Dates and Deadlines** on the web pages of the Registrar's Office.

Courses dropped during the official change of registration period do not appear on the student's record; courses officially withdrawn after that period will appear on the transcript with a designation of "W" (Official Withdrawal).

I. Transfer and Evaluation of Credits
Gonzaga University welcomes the transfer student, and realizes that the unique contributions offered by students with diverse backgrounds enhance the vitality of the Gonzaga community. Applicants from other colleges and universities should note the following conditions:

1) Transfer credits must have been completed at a regionally accredited college or university.

2) Transfer credits are evaluated on a course-by-course basis.

3) Each transfer course must have a grade of 2.0 or higher on a 4.0 scale.

4) Transfer course grades do not calculate in the Gonzaga University GPA.

5) "Pass" grades, "Satisfactory" grades, (or the equivalent) will be accepted in transfer as general elective credit, and will not fulfill any core, major, minor, or concentration requirements.

6) In order to fulfill a specific requirement at Gonzaga, the transferred course must be similar in content and depth to a course taught at Gonzaga. Transfer credits submitted in fulfillment of a specific major requirement must have the approval of the department chairperson and dean of the school.
7) Two-year college students (junior or community colleges) are allowed to transfer a maximum of 64 semester (or 96 quarter credits) in academic subjects. Only 64 of these semester credits can be applied towards a Gonzaga baccalaureate degree.

8) Transfer students coming to Gonzaga with sixty or more acceptable semester credits from a community college are not permitted to enroll in any two-year institution for further transferable credit.

9) The transfer of any extension or correspondence course credit is limited to six semester credits and requires the written approval of the Academic Vice President’s Office.

10) Some credit may be granted on the basis of A.P., C.L.E.P., I.B., and P.E.P. examinations. A brochure providing details is issued annually by the Admission Office and at www.gonzaga.edu/Admissions.

11) Educational experience in the Armed Forces is accepted for some transfer credit. Consideration is given to the service school training especially in a Defense Language Institute or in U.S.A.F.I. courses.

12) All transfer students must complete at least 30 semester credits at Gonzaga immediately preceding their graduation from the University. In the School of Business Administration, transfer students must earn at least 50% of their business administration core and major courses at Gonzaga University.

13) Students transferring in with 45 or more semester credits are permitted to waive either the Philosophy elective (400 level) or applied Religious Studies course (300 level).

14) Students may not enroll and complete courses through any other institution while on a Leave of Absence status through Gonzaga (with the exception of non-sponsored study abroad programs.)

J. Transfer of Credits

**Associate of Arts Degree (AA-DTA)**

Students who have completed an Associate of Arts degree from a Washington State community college or from North Idaho College will normally be granted third year standing and will have satisfied many of Gonzaga's core requirements. Students will be responsible for:

1) A university-level mathematics course beyond intermediate algebra.

2) One course in logic.

3) Three courses in philosophy and religion. (see I. 13 above).

4) A public/interpersonal/small group speaking course.

**NOTE:** Former Gonzaga students who re-enter the University from two-year colleges to complete their degree may not use the Associate of Arts degree core course waiver privileges. All readmitted transfer students must fulfill all of the University's core requirements. Transfer credits, however, will be evaluated and accepted on a course by course basis. Similarly, Gonzaga will not recognize an AA degree that is obtained using Gonzaga coursework transferred to fulfill AA requirements.

The associate degree must include at least 90 quarter (60 semester) credits of which 75 quarter (50 semester) credits must be directly transferable to Gonzaga. The maximum transferable credit from any community college is 96 quarter credits or 64 semester credits.

**Associate of Science Degree (AS-T)**

Students who have completed an Associate of Science degree from a Washington State Community College or from North Idaho College will be granted junior standing and evaluation of coursework will be on a course by-course basis.

**Permission for Transfer of Credits by Current Gonzaga Students**

If a student on a Leave of Absence (LOA) takes courses at another institution, their LOA will be cancelled and they must reapply as a former student through Admissions. Transfer of credit must be approved by the Office of Undergraduate Admission and the Dean of the College or School. Students who desire to register simultaneously at Gonzaga and another college or university must obtain prior written permission from their Dean.

Transfer of credit for courses taken in the summer at another college or university by Gonzaga students must be authorized prior to taking the course, in writing, by appropriate University officials as specified on the Permission to Transfer Credits form and Waiver of Senior Year in Residency form. Students may view the Transfer Guide on the Admissions web site as a guideline for courses previously approved from other universities; individual approval is still required. Students must request official transcripts that include credits from other institutions as soon as they are completed, to be forwarded to the Registrar's Office, Gonzaga University, Spokane, WA, 99258.

K. Course Challenge Program

Students who have completed twelve credits at Gonzaga and are currently enrolled in a matriculated degree program may take advantage of the course challenge system. This enables them to obtain academic credit for certain courses by demonstrating proficiency in the required subject matter. This option is available to student enrolled in a minimum of 12 credits excluding the course challenge credits and a maximum of 18 credits including the course challenge credits. Detailed information and regulations regarding this program can be obtained from the Registrar's Office. There is a fee charged per credit challenged.

L. Course Overload

Students in good academic standing may petition their school's Dean to take more than the maximum of eighteen credits. There is an additional tuition charge for these extra credits. Students in the Honors Program or the Hogan Entrepreneurial Leadership Program, however, with the approval of the respective Program Director, may take extra credits without charge.

M. Auditing a Course

**Audit grading option (AU grade assigned):** Auditors are students who register for a course under the Audit grading option by signing the audit form in the Registrar's Office. Regular tuition is charged. Activity courses (e.g., physical education, music, art, etc.) are not permitted to be taken under the Audit grading option. Auditors will not be allowed access to individual instruction, to equipment, or to supplies in conjunction with the course. Once a course is registered for under the Audit grading option, students who fail to attend the class according to the regular attendance requirements of the class are liable to receive a "V" grade at the discretion of the professor.

1) Registration is available through Registration Period III which is the late registration/drop-add period. The auditor registers for a lecture method course under the Audit grading option and pays tuition based on this option and course credits. A designation of "AU" is recorded on the auditor's academic transcript if the auditor satisfactorily attended the course. An "AU" on a student's transcript reflects no academic credits earned and indicates that the person has received exposure to the course content for an academic semester/term. The "AU" designation does not apply toward meeting degree requirements.
2) A professor may assign a "V" grade for unofficial with- 
drawal when attendance is unsatisfactory.
3) Professors may assign the "AU" designation in ENGL 
098, 099, and Math 099 when a student who has not 
registered as an auditor is unable to attain the objec-
tives of those courses within one semester in spite of 
diligent work and attendance; these courses must be 
repeated until a passing letter grade is granted.
4) Under this option, audited course credits are not count-
ed toward meeting full-time credit requirements for 
financial aid, student loans, VA benefits, etc., although 
standard tuition is paid for the credits. Auditors should 
be very cautious about registering using the Audit grad-
ing option.

N. Withdrawal from the University
Students who register but decide not to attend the University 
should obtain a Complete Withdrawal form from the 
Office of Academic Services (OAS). The withdrawal process 
requires approvals and an interview with a professional in 
OAS. OAS will assist students in acquiring approvals from 
the following offices as necessary: Registrar's Office, 
Financial Aid, Student Accounts, and the Office of Housing 
and Residence Life. Financial adjustments are based upon 
the date of the completion of the withdrawal process.
Refunds will be made on tuition according to the following plan:

- First week: 100%
- Second week: 80%
- Third week: 60%
- Fourth week: 40%

After the start of the fifth week no refund will be made.
Laboratory fees are refunded during the first week only.
Refunds for room and board will be prorated throughout the 
semester: board on a daily basis and room in units of whole 
weeks or any part thereof ending Saturday midnight.
Financial aid received will be refunded to the proper agency 
in accordance with University and governmental regu-
lations.

O. Leave of Absence
Students who are pursuing a bachelor's degree at Gonzaga 
and must interrupt their education for a period of not more 
than one year may be eligible for a leave of absence from 
the University. To be eligible for a leave of absence, a stu-
dent must have at least a 2.00 in the preceding fall or spring 
semester, a cumulative grade point average of 2.00 and 
plan to return within a year. Leave of Absence forms are 
available from the Office of Academic Services (OAS).
Students requesting a leave of absence must have an inter-
view and obtain approval from OAS. OAS will assist stu-
dents in acquiring approvals from the following offices as 
necessary: Registrar's Office, Financial Aid, and Student 
Accounts. Students are not eligible to reside on campus, 
attend classes, or participate in regular campus activities 
during their absence. Students who attend another school 
during their leave of absence will have that status voided 
and they must apply for re-admission to the University. 
Leaves of absence will not extend beyond one academic 
year. Students who wish to return to the University after 
the termination date of their leave of absence must apply for re-
admission to the University.

Grading Policies

A. Grading Procedures
A student's scholastic standing is based on the GPA earned 
each semester. This is determined by the combined results 
of examinations, assignments, class attendance, and gener-
al evidence of regular and consistent participation. Due 
weight will be given to mastery of the subject and the ability 
to communicate clearly, effectively, and accurately in both 
oral and written form. There are several GPA's including the 
semester GPA, the cumulative GPA, and the upper division 
major GPA.
Letter grades and plus/minus indicators are used by all 
 instructors in the University's undergraduate programs to 
indicate a student's quality of achievement in a given sub-
V, and NS are assigned a "quality point value" for purposes 
of grade point average calculations, certification and con-
venience in reporting.
The GPA is calculated by dividing the total quality points 
 earned by the total credits graded.
The letter grades AU, I, IP, P, RD, S, and W do not count as 
credits graded and quality points are not awarded. Grades 
of "S" and "P" do not calculate into the GPA but count as 
credits earned.
A minimum cumulative and upper division major grade point 
average of 2.00 is required for completion of an undergrad-
uate degree. Transfer credits accepted by Gonzaga may 
count toward degree completion; however, grades associ-
ated with transfer credits are not used in the calculation of the 
cumulative GPA at Gonzaga.

AU - Audit grading option: The "AU" grade is assigned by the 
Registrar's Office and not an option of the instructor 
except in ENGL 098, 099, and MATH 099 when the student is 
unable to attain the objectives of these courses within one 
semester in spite of diligent work and attendance: These 
courses must be repeated until a passing letter grade is 
granted. Students choosing the Pass/Fail grading option 
may have grades of D+ and D converted to AU grades by 
requesting this change in the Registrar's Office. Students 
must register for this grade mode no later than the close of 
Registration Period III which runs through the drop/add peri-
od. A complete description of this option is given earlier in 
the Academic Policies section of the catalogue under the 
heading of "Auditing a Course."
**F - Failing:** Grade awarded to students who complete the term and the course but fail to achieve course objectives. 

**I - Incomplete:** Given when a student with a legitimate reason as determined by the instructor, does not complete all the work of the course within the semester that he/she is registered. The faculty member notifies the Registrar’s Office with the reason for the “I” (Incomplete) grade, lists the missing material, and assigns a provisional grade that will be assigned thirty (30) calendar days into the following semester (summer sessions are not included). A provisional grade should be what the student would earn if no additional work is submitted. Requests for a date extension beyond the published date for removing incompletes must be approved through the appropriate Deans’ Office and sent to the Registrar’s Office for processing. Forms for this action can be obtained from the Registrar’s Office. If the instructor does not submit an extension or a new grade before the published date or time extension lapses, the provisional grade will be recorded on the student’s transcript. If a provisional grade has not been provided, the “I” grade becomes an “F” grade and is recorded on the transcript as an “IF.” Whenever an “I” grade has been assigned, the “I” grade becomes part of the permanent record. i.e. “I/B,” etc.

**IP - Grade in Progress:** Assigned only for courses in Internships, Research, and Comprehensive Exams as well as courses that Deans recognize as eligible due to the nature of the course and the need for more than a semester to complete the work. An “IP” may remain for one calendar year. If a grade is not submitted within one year an “IP” automatically becomes a “W” (official withdrawal). Requests for an extension beyond the deadline must be submitted by the instructor to the Registrar’s Office by completing the Extension form and obtaining signatures from the Dean of the school the course falls under as well as the Academic Vice President. Once the course is complete and graded, the Change of Grade form needs to be processed and the grade will be entered on the student academic record by the Registrar’s Office.

**P - Pass:** Designated elective courses may be taken on the Pass/Fail grading option by student request, not that of the instructor. Instructors do not know that students have chosen the Pass/Fail grading option for their courses. Students select this option before the drop/add registration period closes by completing the appropriate paperwork in the Registrar’s Office. Letter grades assigned by instructors that are “C-” or higher are converted to “P” (Pass) grades at the end of the semester and grades below “C-” are converted to “F” grades. The “P” grade does not calculate into the grade-point average and the credits earned count toward the minimum number of credits required to graduate. The “F” (fail) grade affects the cumulative GPA as a standard “F” grade. Courses taken under the Pass/Fail grading option do not satisfy any University core, major, minor, or concentration requirement and can only be used as elective credit toward the overall credit total required for graduation. A complete description of this option is given later in this section of the catalog under the heading of “Pass/Fail Option.”

**RD - Report of Grade Delayed:** If an instructor fails to assign a grade for a course and the grade entry is left blank, the Registrar’s Office will assign an “RD” and the “RD” will remain a part of the student record until the earned grade has been received by the Registrar’s Office. To submit the grade, a Change of Grade form is required along with the Dean’s signature.

**S/NS - Satisfactory/Non-Satisfactory:** Some courses are designated by academic departments for Satisfactory (S)/Non-Satisfactory (NS) grading only. This is not a grading option that students can choose. This grading option can only be determined by a department/school. The NS grade indicates an equivalent grade lower than a “C-“ and has the same effect as an “F” (Fail) on the grade point average. An “S” grade is equivalent to a “C-“ or higher, does not affect the GPA, and the credits earned are counted toward total credits needed to graduate. Courses graded using this grade mode will not be converted to a standard letter grade.

**V - Unofficial Withdrawal:** Grade awarded to students who have not officially dropped or withdrawn from a course and consequently have not met class attendance requirements or participation in the course through the end of a semester. The grade is given at the discretion of the professor. Students should not assume that professors will automatically initiate course drops/withdrawals for non-attendance. This grade has the same effect as “F” (Fail) on the grade point average (GPA).

**W - Official Withdrawal:** No penalties incurred. Not included in the attempted or earned GPA.

**B. Grade Reports**

Students receive their mid-semester grade reports from their advisors. Final grades may be obtained by the student over Zagweb or through the Registrar’s Office.

**C. Grade Point Averages**

The GPA is calculated by dividing the total quality points earned by the total graded credits. The letter grades AU, I, IP, P, RD, S, and W do not count as credits graded and quality points are not awarded. There are several GPA’s including the semester GPA, cumulative GPA, major GPA, and graduation GPA. A minimum cumulative and major grade point average of 2.00 is required for an undergraduate degree. Transfer credits are not used in calculating the grade point average at Gonzaga University.

**D. Removal of Incompletes**

When an incomplete grade (I) has been officially awarded and a provisional grade has been recorded by the instructor, the provisional grade will become final after thirty days have elapsed in the subsequent semester, unless the student fulfills the missing requirements and the instructor informs the Registrar on an official Change of Grade form that the course requirements have been fulfilled. Students must observe this thirty-day grace period and instructors have an additional two weeks to forward grades to the Registrar's Office. If no provisional grade was submitted, the "I" grade becomes an "F" grade and is recorded on the transcript at this time. The "I" (Incomplete) grade remains on the transcript along with the earned grade.

**E. Extension of Incomplete Grades**

Students who are unable to meet the deadline for the removal of an incomplete grade for a serious and legitimate reason may petition the Dean of their school for an extension of the deadline. If the Dean approves the petition, he or she will forward it to the Academic Vice President for approval.
University qualify to improve the GPA. Under this policy, courses re-taken at Gonzaga also do not qualify under the repeat course policy jurisdiction. These grades are not included in the cumulative credits and GPA will be adjusted on the student's transcript but will not be counted into the student's GPA. The original course and grade will remain recorded on the student's transcript. Repeating Courses for Improved Grade

A change of grade requires a Change of Grade form signed by both the instructor and the Dean of the school in which the course was offered. Grades are normally changed only because of calculation error or failure to take into account a significant amount of student work.

Designated elective courses may be taken on a pass or fail basis at the option of the student, not of the instructor. The Pass/Fail option by a student should not be confused with the Satisfactory/Non Satisfactory option offered and graded for courses predetermined by academic departments. Refer to "Grading Procedures" section under "Grading Policies" earlier in this section.

1) A course with a "P" grade earned at the option of the student does not fulfill any course requirement for core, major, minor, or concentration requirement.
2) The credits earned for a "P" grade count toward the 128 minimum credits necessary for a degree but do not count in a GPA.
3) A "P" grade (pass) will not affect the grade-point average; a fail will have the same effect as any "F" grade.
4) A student's level of performance for a "P" grade must correspond to the letter grade of "C-" or better; a grade of "D+" or "D" will be recorded as a "D+" or "D," however, a student may choose an audited "AU" grade by notifying the Registrar's Office who will, in turn, assign an audit "AU" grade; a grade of F will be recorded as an "F".
5) Students wishing to exercise the Pass/Fail option must fill out the Pass/Fail Grade Option form in the Registrar's Office prior to the last published date for "adding or dropping courses" and may not revoke their decision after this date.
6) No more than five Pass/Fail courses may count toward a degree, and no more than two may be taken in any one department.
7) Students are allowed to take two courses on Pass/Fail during the four semesters as first year and second year undergraduates, provided that no more than one such course is taken in any given semester. A total of three Pass/Fail courses may be taken during the undergraduate third year and fourth year with no more than one in any given semester.
8) Any course failed "F" grade may not be repeated on a Pass/Fail basis.
9) Last day to change to or from the Pass/Fail grading option is the last day of Registration Period III.

An undergraduate student can repeat any course with another course of the same designation, in an effort to improve the GPA. The original course and grade will remain recorded on the student's transcript but will not be counted into the student's GPA. The cumulative credits and GPA will be adjusted to reflect the last credits and grade earned. Courses for which a student received a grade carrying no quality point value, such as W, (X prior to Fall 1996), and AU, may be re-taken in subsequent semesters; these grades are not included in the repeat course policy jurisdiction. Courses re-taken as an independent study or directed reading also do not qualify under this policy. Only courses re-taken at Gonzaga University qualify to improve the GPA.

A. Academic Freedom of Students
Freedom of Expression: Students are free to take reasoned exception to the views offered in particular courses of study. They may, however, be required to know thoroughly the particulars set out by the instructor, but are free to reserve personal judgment as to the truth or falsity of what is presented. Knowledge and academic performance should be the norms by which students are graded.

B. Academic Honesty
Academic honesty is expected of all Gonzaga University students. Academic dishonesty includes, but is not limited to cheating, plagiarism, and theft. Any student found guilty of academic dishonesty is subject to disciplinary action. Disciplinary action against a student found guilty of academic dishonesty may include, but is not limited to:
1) A failing grade for the test or assignment in question.
2) A failing grade for the course.
3) A recommendation for dismissal from the University.

A student may appeal the disciplinary action taken. The appeal shall be made in writing to the Chair of the department, or Dean if there is no Chair, of the appropriate school within 14 days of receipt of written notification of the disciplinary action taken. Following an appeal, a final report shall be submitted to the Academic Vice President for review and possible further disciplinary action taken by the University. The Academic Vice President may direct in intermediate appeal to the Chair's Dean. Final appeal by the student may be made to the Academic Vice President.

A complete copy of the policy can be obtained from the Academic Vice President's Office.

C. Grade Appeal
Students must maintain standards of academic performance set forth by the University if they are to receive the certificate of competence implied by course credits and degrees. The instructor is the usual and competent judge of these matters. Students must be protected against the rare case of unjust grading and evaluation. Allegations of unfair or prejudiced grading may be brought to the attention of and reviewed by the Dean of the appropriate school and, if necessary, by the Academic Vice President, whose decision is final.

D. Minimum/Maximum Course Loads
Full-Time Status: The normal course load of a regular full-time undergraduate student is sixteen semester credits. For academic purposes, the minimum full-time course load is twelve credits. The maximum load in one semester is 18 credits.
E. Good Academic Standing, Unsatisfactory Academic Progress, Probation, and Academic Dismissal

To be in good academic standing with the University, an undergraduate student must maintain a cumulative grade point average of 2.00 for all credits earned at Gonzaga. Good academic standing status will be determined beginning with the completion of the student's second regular semester (non-summer) at Gonzaga. If the semester or cumulative grade point average falls below a 2.00, a notation of "Unsatisfactory Progress" will appear on grade reports and transcripts and the student is automatically on academic probation. Additionally, the student status will be reviewed by the committee. The conditions of academic probation are specified in an individual letter to the student from the Committee on Academic Standing. Students are expected to comply with all stipulations made in this letter, and any additional requirements placed upon them as a result of academic probation.

Students on academic probation, regardless of their academic standing, may be subject to academic dismissal from the University. Those receiving financial aid also may be subject to Financial Aid Unsatisfactory Academic Progress and/or Probation, which may result in additional financial consequences. Further information can be found in the Financial Aid section of this catalogue.

F. Satisfactory Academic Progress for Veterans

Veterans failing to achieve minimum standards of academic progress are placed on probation for the following semester and notified via letter by the University’s Veterans’ Coordinator. The Department of Veteran Administration will be notified should a veteran fail to achieve satisfactory academic progress subsequent to the initial probationary period and benefits will be suspended until satisfactory progress standing is attained.

G. Class Attendance Policy

Students are presumed to have sufficient maturity to recognize their responsibility for regular class attendance. Since illness or other good reasons may prevent attendance, Gonzaga University has a standard policy on absences. This policy stipulates that the maximum allowable absence is two class hours (100 minutes) for each class credit. For the three credit class the maximum absence is, therefore, six class hours (300 minutes). Classes scheduled to meet for more than 50 minutes have more than one class hour for each meeting; for example, a class which meets for 75 minutes has one and one-half class hours for each scheduled meeting. Instructors may report absences to the Registrar’s Office which will in turn notify the students by letter. The grade given for excessive absences is a "V" (unofficial withdrawal) grade which is calculated as a failing grade and is counted in the grade point average (GPA). Students should not assume that professors will automatically initiate course drops for non-class attendance on the first class day of course sections. Students will experience a reduction in credits when they are dropped for non-attendance. This may affect financial aid awards, scholarship eligibility, athletic eligibility, VA benefits, and numerous other areas related to minimum credit limits.

I. Final Examinations

Final examinations are held at the end of each semester, and, at the option of the instructor, examinations are held at mid-semester. Final examination times are listed for each semester under Important Dates and Deadlines as outlined on the Registrar’s Office web pages. Students making their travel arrangements for the end of each semester must take into account these final examination times. Final examinations or their equivalent can be administered by instructors only on the day and at the time indicated in the Final Exam Schedule; any exceptions to this procedure must have the explicit approval of the appropriate Dean.

J. Enrollment Verifications

On average six times each semester (not including summer sessions) the Registrar’s Office transmits enrollment data to the National Clearinghouse for enrollment verification of students with federal and state loans. The Registrar’s Office, upon timely notice, will also provide to any student a letter verifying his/her enrollment status to any agency. Students may print out their verification by accessing the National Student Loan Clearinghouse through Zagweb.

A. Academic Recognition

An undergraduate student whose grade-point average for a semester is 3.50 through 3.69 will be placed on the Dean’s List. An undergraduate student whose grade point average for a semester is 3.70 through 4.00 will be placed on the President’s List. Students must be enrolled in 12 or more academic credits to be eligible for the above lists and courses in which the department has predetermined with the Satisfactory/Non Satisfactory (S/NS) grading option will count in the 12 credits.

B. Graduation Honors

The academic achievements of graduating seniors are formally recognized at the public Commencement exercises, appear in published lists of graduates, and are recorded on transcripts. Only Gonzaga University credits are used in computing graduation honors. Students who have earned 64 Gonzaga University credits are graduated Cum Laude with a cumulative grade-point average between 3.50 and 3.69, Magna Cum Laude between 3.70 and 3.89, Summa Cum Laude of 3.90 or higher. For recognition purposes at Commencement, eligibility for these honors is determined based on the cumulative GPA as of the end of the fall semester. Students who have earned at least 48, but less than 64, Gonzaga University credits are graduated with Distinction if the cumulative grade-point average is 3.50 or higher.

University Honors

A. Academic Recognition

An undergraduate student whose grade-point average for a semester is 3.50 through 3.69 will be placed on the Dean's List. An undergraduate student whose grade point average for a semester is 3.70 through 4.00 will be placed on the President's List. Students must be enrolled in 12 or more academic credits to be eligible for the above lists and courses in which the department has predetermined with the Satisfactory/Non Satisfactory (S/NS) grading option will count in the 12 credits.

B. Graduation Honors

The academic achievements of graduating seniors are formally recognized at the public Commencement exercises, appear in published lists of graduates, and are recorded on transcripts. Only Gonzaga University credits are used in computing graduation honors. Students who have earned 64 Gonzaga University credits are graduated Cum Laude with a cumulative grade-point average between 3.50 and 3.69, Magna Cum Laude between 3.70 and 3.89, Summa Cum Laude of 3.90 or higher. For recognition purposes at Commencement, eligibility for these honors is determined based on the cumulative GPA as of the end of the fall semester. Students who have earned at least 48, but less than 64, Gonzaga University credits are graduated with Distinction if the cumulative grade-point average is 3.50 or higher.
C. University Leadership Programs

**Hogan Entrepreneurial Leadership Program:** The Hogan Entrepreneurial Leadership Program is a four-year undergraduate concentration founded on the Jesuit educational philosophy of educating the whole person. Its purpose is to prepare students to create new ventures that make a positive difference in society. This student-centered program is designed for promising individuals from any major who demonstrate academic excellence, leadership, creativity, and a commitment to serve others.

**Comprehensive Leadership Program:** The Comprehensive Leadership Program at Gonzaga University is a formal, for-credit academic leadership program intended to complement students’ academic goals through theoretical study, and experiential learning. The program was inaugurated in an effort to fulfill the University mission of creating leaders, in a variety of fields, dedicated to the common good. Through their four-year program, students participate in a number of leadership development experiences and represent academic majors from every college. Students are involved in every aspect of student life providing leadership and extensive involvement.

D. University Honor Societies

**Alpha Sigma Lambda:** The national honor society devoted to the advancement of scholarship and to the recognition of non-traditional students continuing their higher education. Membership is based on the top 10% of non-traditional students who have taken at least 30 credits at Gonzaga University.

**Alpha Sigma Nu:** The national Jesuit honor society for third year and fourth year men and women students of outstanding academic achievement, service, and loyalty to the ideals of Jesuit education.

**Beta Alpha Psi:** The national honorary and professional accounting fraternity for third year and fourth year accounting majors of outstanding academic achievement. Membership is open to students with at least a 3.00 GPA in accounting courses and their cumulative GPA.

**Beta Gamma Sigma:** The national business honor society. Membership is for the top 7% of the third year class, the top 10% of the fourth year class, and the top 20% of the Master of Business Administration class.

**Kappa Delta Pi:** The national education honor society where membership is limited to third year and fourth year students enrolled in one of the phases of the education program of the School of Education, and is based on academic and professional abilities.

**Lambda Pi Eta:** The national communication honor society for outstanding students in any of the communication arts. Membership in Iota Rho, our local chapter, is limited to third and fourth year students who have achieved high academic achievement, leadership, and service, with a demonstrated commitment to the discipline of communication.

**Omicron Delta Epsilon:** This organization is the international honor society in economics.

**Phi Alpha Theta:** Founded in 1921, Phi Alpha Theta is the national honor society in history, whose mission is to promote the study of history through the encouragement of research, good teaching, publication and the exchange of learning and ideas among historians. Since the foundation of the Xi-Gamma Chapter of Phi Alpha Theta at Gonzaga University, dozens of Gonzaga’s top students in history have joined the 275,000 members in 820 active chapters across the U.S.

**Phi Sigma Tau:** The national honor society in philosophy founded in 1930 which recognizes philosophy students for their academic achievement. Now an international honor society, it is open to all Gonzaga students who have completed a minimum of twelve philosophy credits and have met particular grade requirements.

**Pi Sigma Alpha:** The national honor society for students majoring in political science at the undergraduate and graduate levels. Gonzaga’s Chapter, Alpha Beta Xi is open to students in the junior and senior year. Membership is attained through academic achievement at the highest level in both discipline and in overall academic work.

**Psi Chi:** The national honor society in psychology, founded in 1929 for the purposes of encouraging and maintaining excellence in scholarship, and advancing the science of psychology.

**Sigma Theta Tau:** This organization is one of the largest and most prestigious nursing organizations in the world. As nursing’s only honor society, it provides leadership and scholarship in practice, education, and research to enhance the health of all people. It supports the learning and professional development of its members, who strive to improve nursing care worldwide.

**Tau Beta Pi:** The national honor society for undergraduate engineering (all disciplines) majors of outstanding academic achievement, leadership, and community service.

**Theta Alpha Kappa:** The national honor society for religious studies majors. It was founded in 1976 for the purposes of honoring particularly excellent undergraduate students in the fields of theological and/or religious studies.

E. University Academic Awards

Each spring the faculties of the University meet in convocation to recognize the academic achievements of individual members of the University community. Among others, these awards include:

**The Alumni Association Award:** The gift of the Gonzaga Alumni Association to a member of the graduating class who has shown excellence in his or her field of study and involvement in University and student life, and who has created an impact on the community of Spokane.

**The William A. Garrigan, S.J., Award:** The gift of the University in memory of Father Garrigan to the member of the graduating class who has achieved the highest cumulative grade point average for four years of undergraduate work at Gonzaga.

**The Carl J. Lindberg Loyalty Award:** The gift of Judge William Lindberg, class of 1934, awarded to a graduating fourth year male in good standing who is judged by a committee of faculty and students to be conspicuous for loyalty and service to the University.

**The Philomathea Award:** The gift of the Philomathea Club awarded to a graduating fourth year female in good standing who is judged by a committee of faculty and students to be conspicuous for loyalty and service to the University.

**Fourth Year, Third Year, Second Year, and First Year Awards:** Each one of the first year, second year, third year, and fourth year awards will be granted to the undergraduate student who had the highest GPA calculated for the fall and spring semesters, and who was enrolled for 30 more academic credits in the academic year. If there is a tie, the award will be granted to the student who earned the highest (total) cumulative GPA. Only Gonzaga grades are considered in the GPA. Courses predetermined or mandated by academic departments as Satisfactory/Non-Satisfactory (S/NS) grading only will be counted in the 30 credits.
Gonzaga University's policy concerning the confidentiality of student educational records reflects a reasonable balance between the obligation of the institution for the instruction and welfare of its students and its responsibility to society. The Family Educational Rights and Privacy Act of 1974 (FERPA), including the Buckley Amendment and regulations thereunder (collectively the "Act"), controls access to student education records. Gonzaga University will make a reasonable effort to extend to eligible students and their parents the rights granted by the federal act. The provisions of this policy are not intended to create contractual rights; enforcement provisions are as provided under the Act.

Copies of the complete Gonzaga University's Confidentiality of Records Policy on a student's right to inspect his or her education records and the University's responsibility to maintain the confidentiality of such records are available at the offices of the University Registrar, Law School Registrar, Corporation Counsel, School/College Dean, and the Academic Vice President.

**NOTIFICATION OF RIGHTS UNDER FERPA**

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are:

1) The right to inspect and review the student's education records within 45 days of the day the University receives a request for access.

   Students should submit to the Registrar's Office written requests that identify the record(s) they wish to inspect. The Associate Registrar will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, the Associate Registrar shall advise the student of the correct official to whom the request should be addressed.

2) The right to request the amendment of the student's education records that the student believes are inaccurate or misleading.

   Students may ask the University to amend a record that they believe is inaccurate or misleading. They should write the University official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading.

   If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3) The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

   One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted (such as an attorney, auditor, or collection agent); a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

   A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

**Release of Student Directory Information Policy:** Certain categories of student information are considered "open" or Directory Information. Directory Information may be published in a student directory or event program and released to the media and to the public for enrolled students. Directory information includes the following: Student Name, Local Address & Telephone, Permanent Address & Telephone, Place of Birth, Major Field of Study, Dates of Attendance, Full or Part-Time Enrollment Status, Year in School (Class), Degree(s) Received, Scholastic Honors and Awards Received, Other Educational Institutions Attended, Visual Image (photo, video), Weight, Height of Athletic Team Members.

A student may request that directory information not be released by so indicating at any time in the Registrar's Office. In that case, this information will not be disclosed except with the consent of the student or as otherwise allowed by the Family Educational Rights and Privacy Act of 1974 (FERPA).

4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by Gonzaga University to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

   Family Policy Compliance Office  
   U.S. Department of Education  
   600 Independence Avenue, SW  
   Washington, DC 20202-5920
The College of Arts and Sciences

Dean: Robert D. Prusch
Associate Deans: Colleen McMahon, Alfred L. Morisette, S.J.

The College of Arts and Sciences provides both a general education to all undergraduate students of the University, and a particular education in a variety of disciplines and fields of concentration to students wishing to pursue degrees in the humanities and the social and physical sciences. A basic aim of the College is the formation of students in the spirit of Christian humanism.

The College has developed a core curriculum to provide that general culture which distinguishes the educated person. This curriculum challenges each student to read, write, analyze, reflect, discuss and persuade; to evaluate learning with discernment and compassionate understanding; to explore the past for the light it casts on the present and future; to create works of the imagination; to practice ethical decision making; and to develop a foundation for fashioning a career.

The student's major field or field of concentration offers an opportunity for specialized work and original investigation. This development allows the student to come into direct contact with the methods of the scholar and to learn to do original work in the laboratory, studio or research library. Under the guidance of a skilled professor, the student's exploration in his or her major field is the crown of a liberal education and the foundation for graduate or professional study.

Degree Programs in Arts and Sciences

Bachelor of Arts, Honors: This degree is awarded to students who pursue their basic undergraduate education under the direction of the Honors Program; a specific core curriculum is provided for those students who obtain this degree. Most general education work is done through colloquia and seminars. The degree is available in all majors within the College that offer the B.A.

Bachelor of Arts, General: This is the regular B.A. degree offered by the College; it also is available with a teaching option in some majors.

Bachelor of Science, Honors: This degree is awarded to students who complete the requirements for a major in a field which offers the B.S. and who pursue their basic undergraduate education under the direction of the Honors Program; a special core curriculum is provided for those students who obtain this degree.

Bachelor of Science, General: This is the regular B.S. degree offered by the College.

Arts and Sciences Degree Requirements

Students earning all degrees offered by the College must meet the following special requirements in addition to the general degree requirements of the University:

1) Completion of the basic subjects necessary for a general education as found in the core curriculum of the College.

2) Completion of a major within the College.

3) Completion of a Senior Thesis or Comprehensive (courses numbered 499).

4) Completion of at least 104 credits within the College of Arts and Sciences of the 128 required for graduation.

5) No core, major, minor, or concentration courses may be taken under the Pass/Fail option.

Core Curriculum of the College of Arts and Sciences

The core curriculum or common body of knowledge of the College of Arts and Sciences consists of 59 to 62 credits which are common to and required of all degree programs in the College: the first 31 credits (of which there is a more complete description in the General Degree Requirements and Procedures section of this catalogue) form the University Core, while the remaining 28 to 31 credits are common to all Arts and Sciences degrees.

Students should attempt to spread the core curriculum over their entire fours years at Gonzaga.

### Concentrations

- Catholic Studies: 21 credits
- Environmental Studies: 23 credits
- Women's Studies: 21 credits

### Non-Arts and Sciences Courses

It is assumed that students will choose their electives or optional minor program from departments within the College. Of the 128 credits required for graduation, students must earn at least 104 within Arts and Sciences departments. Economics courses are within the College of Arts and Sciences.

### Teacher Certification

In order to obtain a teaching certificate, students need to complete a degree with an appropriate major and also to complete professional educational requirements. Since most future teachers obtain their degree in the College of Arts and Sciences, they have an academic advisor in that college. In addition, they need an advisor from the Teacher Education Department, who is usually assigned to them when they register for EDTE 101L.

Students who complete the Initial Teacher Certification Program at the time of graduation may reduce the number of credits within the College of Arts and Sciences to 94.
The Department of Art offers students the opportunity to explore the varieties of visual experience through the plastic and graphic arts and offers a Bachelor of Arts in Art.

For students intending to go to graduate school, additional work beyond the minimum major requirements is strongly encouraged.

The Jundt Art Museum maintains studios in ceramics, design, drawing, painting, printmaking, and sculpture. A theatre-style lecture hall provides space for art history, visiting artist lectures, and video/film presentations. Some of the department's courses are offered at Gonzaga-in-Florence.

The department is located in the Jundt Art Center and Museum. This facility is a state-of-the-art complex that incorporates the appropriate environmental controls and safeguards needed in both the academic and museum areas.

only. Does not satisfy the fine arts core.

VART 294 Florence of the Medici 3 credits
A study of the artistic, social, and literary developments in Florence from the time of Savonarola through the Florence of Michelangelo, Cosimo I, Galileo, and the Grand Dukes. Florence campus only. Does not satisfy the fine arts core.

VART 295 Spanish Art-Modern and Contemporary 3 credits
Granada campus only. Does not satisfy the fine arts core.

VART 296 Spanish Art-Ancient and Medieval 3 credits
Granada campus only. Does not satisfy the fine arts core.

Upper Division

VART 322 Fresco 3 credits
Exploration of Fresco techniques. Both Buon and Fresco secco are introduced. Students have hands-on experience and produce a Fresco image during the course. Florence campus only. Does not satisfy the fine arts core.

VART 323 Painting III 3 credits
Advanced problems in figurative art with emphasis on painting the human figure and landscape. Fall and Spring. Prerequisite: VART 222.

VART 324 Painting IV 3 credits
A continuation of VART 323. Fall and Spring. Prerequisite: VART 323.

VART 331 Sculpture I 3 credits
The use of three-dimensional materials, including wood, metal, and clay, directed toward the development of the student's structural and perceptual senses. Florence campus only. Does not satisfy the fine arts core. Prerequisite: VART 101.

VART 332 Sculpture II 3 credits
Continuation of VART 331. Florence campus only. Does not satisfy the fine arts core. Prerequisite: VART 331.

VART 341 Intermediate Ceramics Projects 3 credits
A directed study of specific throwing and/or hand building techniques. Studio processes of glaze development and firing practices will be introduced. Fall and Spring. Prerequisite: VART 241.

VART 350 Beginning Printmaking I 3 credits
Introduces students to the basic methods of relief and intaglio printmaking. Students also learn how to use the print lab and to respect the communal nature of the work space. Fall Prerequisite: VART 101.

VART 351 Beginning Printmaking II 3 credits
This course introduces students to one or more of the following techniques: screen printing, lithography, monotype, mixed media. Students also learn how to use the print lab and to respect the communal nature of the work space. Spring Prerequisite: VART 101.

VART 352 Intermediate Printmaking 3 credits
This course adds new printmaking techniques to the processes learned in beginning printmaking, refines the abilities already learned and expands the student's knowledge about printmaking in both historical and contemporary contexts. Fall and Spring Prerequisites: VART 350 and VART 351.

VART 380 Art Service 2-3 credits
Students are scheduled for the Jundt Art Gallery services, including hanging of art exhibits and gallery security. Does not satisfy the fine arts core. Fall and Spring.

VART 381 Advanced Studio Art 2 credits
Self-motivated students enrolled in Modernism and Contemporary Art can use the London semester to develop their visual thinking skills and a personal visual vocabulary. The will draw inspiration from the wider London art scene, visit galleries and studios, and draw regularly. Does not satisfy the fine arts core.

VART 385 Figure Drawing I 3 credits
Basic problems in developing the human figure and experiments with a variety of drawing media. Florence campus and main campus. Fall and Spring. Prerequisite: VART 201.

VART 386 Figure Drawing II 3 credits
A continuation of VART 385. Fall and Spring. Prerequisite: VART 385.

VART 390 History of Art I 3 credits
Florence campus only. Does not satisfy the fine arts core.

VART 391 History of Art II 3 credits
Florence campus only. Does not satisfy the fine arts core.

VART 392 Modernism and Contemporary 4 credits
This course studies those trends in twentieth century art collectively known as Modernism, examining how each challenged the artistic ideas of earlier centuries. London campus only. Prerequisite: HIST 101.

VART 393 British Masters 4 credits
Study the evolution of the British school from the foundation of the Royal Academy in the eighteenth century to today's "Brit Pack." Examine contemporary artists and their work, patrons, and treatment by public opinion and the media. London campus. Spring.

VART 394 Special Topics in Art History 3 credits
Consult instructor for topic as it will vary for semester. Fall and Spring.

VART 395 Art in the 19th Century 3 credits

VART 396 Art in the 20th Century 3 credits

VART 397 Renaissance Art 3 credits
A survey of the painting, sculpture, and architecture of Italy, 1400-1600. Florence campus only. Does not satisfy the fine arts core.

VART 398 Roman Art and Architecture 3 credits
Examines the major trends and developments in art and architecture from the Roman Republic (500 B.C.) to the reign of Constantine the Great (A.D. 306-337). Does not satisfy the fine arts core.

VART 421 Advanced Painting Projects 3 credits
Advanced oil painting problems in still-life, figure and landscape. Can be repeated. Prerequisite: VART 324

VART 441 Advanced Ceramics Projects 3 credits
Exploration of advanced glazing and firing techniques. Emphasis is on developing individual expression in ceramic form. Course can be repeated. Fall and Spring.
The Biology Department offers a selection of courses that help students understand the unity, diversity and complexity of life at the molecular, cellular, organismal, and ecological levels using evolutionary principles as the unifying theme. Students in the Biology program learn concepts in subdisciplines of biology and acquire scientific problem solving skills through lectures, discussions, laboratory exercises, and research. The program is aimed at preparing students for a broad range of biology-oriented careers, such as those in medicine, biotechnology, environmental science, research, and teaching.

The Bachelor of Science degree is designed for students preparing for a career in biology, including continued training in graduate programs in a broad range of subdisciplines of biology, as well as medical and dental school. The Bachelor of Arts degree, in coordination with the Teacher Certification Program in the School of Education, prepares students for a career in biology, including continued training in graduate programs in a broad range of subdisciplines of biology, as well as medical and dental school. The Bachelor of Arts degree, in coordination with the Teacher Certification Program in the School of Education, prepares students for careers in medical and dental school. The Bachelor of Arts degree, in coordination with the Teacher Certification Program in the School of Education, prepares students for careers in medical and dental school. The Bachelor of Arts degree, in coordination with the Teacher Certification Program in the School of Education, prepares students for careers in medical and dental school. The Bachelor of Arts degree, in coordination with the Teacher Certification Program in the School of Education, prepares students for careers in medical and dental school. The Bachelor of Arts degree, in coordination with the Teacher Certification Program in the School of Education, prepares students for careers in medical and dental school. The Bachelor of Arts degree, in coordination with the Teacher Certification Program in the School of Education, prepares students for careers in medical and dental school. The Bachelor of Arts degree, in coordination with the Teacher Certification Program in the School of Education, prepares students for careers in medical and dental school. The Bachelor of Arts degree, in coordination with the Teacher Certification Program in the School of Education, prepares students for careers in medical and dental school. The Bachelor of Arts degree, in coordination with the Teacher Certification Program in the School of Education, prepare...
students to participate in faculty research programs (areas include cell biology, vertebrate biology, evolutionary biology, plant physiology, population and community ecology, animal behavior, genetics and biochemistry). Interested students should contact specific faculty members concerning the availability of research opportunities.

Some courses are specifically designed to fulfill requirements for non-science majors. These include courses that fulfill the Laboratory Science requirement for the Core Curriculum of the College of Arts and Sciences: Human Ecology (BIOL 123 and 123L), Field Botany (BIOL 140 and 140L), and Core Topics (BIOL 199 and 199L); and those that fulfill the Mathematics or Natural Science requirement of the Core Curriculum of the College of Arts and Sciences: Biological Concepts (BIOL 100) Science and Religion (BIOL 134), and Biology of Medicine (BIOL 165).

*The prerequisite for all upper division Biology classes is a cumulative GPA 2.00 in BIOL 101, 102, 201, 202, and CHEM 101 (or 105) and 230, and the associated labs. A minimum of 13 credits (BS), 8 credits (BA) or 4 credits (Minor) must be biology classes taken from Gonzaga faculty. All classes should be chosen in consultation with a faculty advisor.

<tbody>
<tr>
<td>BIOL 165 (WOMS 265)</td>
<td>Biology of Disease</td>
<td>3</td>
<td>This course investigates how medicines work. It covers various affected organ systems (e.g., immune, endocrine, reproductive), the scientific method, development of effective medicines/treatments, and the potential sex/race/culture bias of experimental results from drug trails. Various diseases (e.g., AIDS, cancer, diabetes) and treatments will be covered in the course. Designed for non-science majors. On sufficient demand.</td>
</tr>
<tr>
<td>BIOL 170 Introductory Microbiology</td>
<td>3</td>
<td>An introduction to microbiology for students in the nursing program or other allied health professions who will not be majoring in Biology. The course includes basic cellular chemistry and genetics, as well as a survey of topics of clinical importance. Fall. Prerequisites: BIOL 101 and (CHEM 101 or CHEM 105)</td>
<td></td>
</tr>
<tr>
<td>BIOL 170L Introduction to Microbiology Lab</td>
<td>1</td>
<td>An introduction to methods of microbial analysis including the culture, safe handling, and genetic analysis of microbes. Fall. Taken concurrently with BIOL 170.</td>
<td></td>
</tr>
<tr>
<td>BIOL 199 Core Topics</td>
<td>3</td>
<td>Designed for non-science majors, this course fulfills the core laboratory science requirement. Lectures and laboratory sessions emphasize science as an inquiry based process. Selected topics will be offered each semester. Lab is required. Fall or Spring.</td>
<td></td>
</tr>
<tr>
<td>BIOL 199L Core Topics Laboratory: BIOL 199 course description. Taken concurrently with BIOL 199.</td>
<td></td>
<td>See BIOL 199 course description. Taken concurrently with BIOL 199.</td>
<td></td>
</tr>
<tr>
<td>BIOL 201 Cellular Biology</td>
<td>3</td>
<td>An examination of cell structure and function with an emphasis on cellular biochemistry. Prerequisites: BIOL 101 and CHEM 230. Fall.</td>
<td></td>
</tr>
<tr>
<td>BIOL 201L Cellular Biology Lab</td>
<td>1</td>
<td>An examination of cell structure and function with an emphasis on cellular biochemistry. Taken concurrently with BIOL 201.</td>
<td></td>
</tr>
<tr>
<td>BIOL 202 Genetics and Evolution</td>
<td>3</td>
<td>A study of the mechanisms of heredity and evolution. Topics include Mendelian inheritance, molecular and population genetics, and current issues in evolutionary biology. Spring. Prerequisite: BIOL 201.</td>
<td></td>
</tr>
<tr>
<td>BIOL 202L Genetics and Evolution Lab</td>
<td>1</td>
<td>Methods of genetic analysis and investigations of evolutionary mechanisms will be explored. Taken concurrently with BIOL 202.</td>
<td></td>
</tr>
<tr>
<td>BIOL 203 Population Ecology</td>
<td>3</td>
<td>An in-depth look at the interactions that control the distribution and abundance of organisms at the population level. Topics such as life-history strategies, population dynamics, competition, predation, parasitism, and mutualism will be explored through the research literature, field observations, and computer simulations. Spring alternate years. Prerequisites: BIOL 102 and BIOL 202</td>
<td></td>
</tr>
<tr>
<td>BIOL 303L Population Ecology Lab</td>
<td>1</td>
<td>Taken concurrently with BIOL 303.</td>
<td></td>
</tr>
<tr>
<td>BIOL 304 Practice in Laboratory Teaching</td>
<td>1-2</td>
<td>In this course students gain experience in teaching laboratory sections. May be repeated. A maximum of two credits can be applied to Biology electives. Fall and Spring. Prerequisite: BIOL 202 or permission.</td>
<td></td>
</tr>
<tr>
<td>BIOL 313 Behavioral Ecology</td>
<td>3</td>
<td>This course explores how behavioral processes affect ecological patterns. The behavioral adaptations of animals to their environment including the evolution of behavior, foraging, competition for resources, reproductive ecology, mating systems, parental care, and cooperative behavior. Fall or Spring. Prerequisites: BIOL 102 and BIOL 202.</td>
<td></td>
</tr>
<tr>
<td>BIOL 323 Conservation Biology</td>
<td>3</td>
<td>This course covers the biological concepts important for the conservation of natural populations, communities, and ecosystems. Both theoretical and empirical studies will be applied to such topics as: the genetics and ecology of small populations, consequences of habitat degradation and fragmentation, the impact of introduced species, and the ecological value of biological diversity. Spring. Prerequisites: BIOL 102 and BIOL 202.</td>
<td></td>
</tr>
<tr>
<td>BIOL 331 Parasitology</td>
<td>3</td>
<td>Explores the medical, physiological, ecological, and historical effect of parasites. The course concentrates on human parasites and ranges from viruses and bacteria through helminthes and arthropods. Fall. Prerequisites: BIOL 102 and BIOL 202.</td>
<td></td>
</tr>
<tr>
<td>BIOL 333 Community Ecology</td>
<td>3</td>
<td>This course provides an introduction to the science of community ecology. The major processes that have created and are operating within communities will be explored, including species diversity, competition, predation, herbivory, evolution, food webs, island biogeography, ecological invasions, and succession. Students will explore the theories and experimental evidence of these processes and conduct ecology projects. Fall or Spring. Prerequisites: BIOL 102 and BIOL 202.</td>
<td></td>
</tr>
<tr>
<td>BIOL 333L Community Ecology Laboratory</td>
<td>1</td>
<td>Lab will include field-based experiments, greenhouse experiments, and field trips to explore a range of community ecology topics. Taken currently with BIOL 333.</td>
<td></td>
</tr>
<tr>
<td>BIOL 334 Advanced Evolutionary Biology</td>
<td>3</td>
<td>A study of the mechanisms responsible for the diversity of life on earth. Topics covered include speciation theory, systematics, extinction, natural selection, genetic drift, and gene flow. Examples from plant as well as animal evolution will be used. Fall or Spring. Prerequisite: BIOL 202.</td>
<td></td>
</tr>
<tr>
<td>BIOL 335 Advanced Genetics: Race and Racism</td>
<td>3</td>
<td>This course examines the issues of race and racism from a biological standpoint. Topics include: the genetic basis of human variation and the use of the variation to identify racial groups; the history of racial classification of humans; the eugenics movement and other applications of genetic theory to social issues; and the potential consequences of recent advances in molecular genetic testing for medicine and society. Fall alternate years. Prerequisite: BIOL 202.</td>
<td></td>
</tr>
<tr>
<td>BIOL 337 Developmental Biology</td>
<td>3</td>
<td>A study of the principles and mechanisms that underlie the development of plants and animals, using approaches that integrate cell biology, genetics, molecular biology, and evolution. Spring alternate years. Prerequisite: BIOL 202.</td>
<td></td>
</tr>
</tbody>
</table>
BIOL 337L Developmental Biology Laboratory 1 credit
See BIOL 337. Taken concurrently with BIOL 337.

BIOL 338 Histology 3 credits
A study of the microscopic structure of animal (mostly mammalian) tissues and organs. Topics include: histology, cytology, and microscopic anatomy as exemplified in animal tissue. Material will emphasize the relationship between structure and function in tissues and organs. Spring. Prerequisite: BIOL 202.

BIOL 338L Histology Laboratory 2 credits
Labs will combine the study of tissue structure using a collection of prepared slides, and the processing and sectioning of tissue samples. Lab assignments will include the production of personal digital atlases. Taken concurrently with BIOL 338.

BIOL 340 Field Botany 3 credits
This class meets with and covers the same topics as BIOL 140 but is designed for biology majors. In addition to the topics and requirements listed for BIOL 140, biology majors are required to complete a field project in the area of plant systematics or plant ecology. Summer I. Prerequisite: BIOL 202.

BIOL 340L Field Botany Laboratory 1 credit
Taken concurrently with BIOL 340.

BIOL 351 Advanced Cell Biology 3 credits
An advanced study of cell structure and function with an emphasis on selected topics in cell biology. Topics vary with instructor, but may include cell signaling, cell cycle, plant cells, and the cell biology of cancer. Spring. Prerequisite: BIOL 202.

BIOL 351L Advanced Cell Biology Laboratory 1 credit
Taken concurrently with BIOL 351.

BIOL 357 Principles of Wildlife Management 3 credits
The ecology, theory, methods, and philosophy of wildlife management emphasizing game, nongame, and endangered species. Students gain an understanding of the roles and responsibilities of various government agencies and non-governmental organizations. Fall or Spring. Prerequisites: BIOL 102 and BIOL 202.

BIOL 357L Wildlife Management Laboratory 1 credit
Taken concurrently with BIOL 357.

BIOL 360 Plant Biology 3 credits
An exploration of the biology of plants. A wide range of topics such as plant evolution, biogeography, ecology, medicinal botany and global warming are explored in lecture. Offered on sufficient demand, Spring. Prerequisite: BIOL 202.

BIOL 360L Plant Biology Laboratory 1 credit
Labs focus on select lecture topics and include field trips to explore our diverse native flora. Taken concurrently with BIOL 360.

BIOL 367 Entomology 3 credits
This course introduces students to the scientific study of insects. Topics will include insect identification, diversity, behavior, anatomy, ecology, and applied entomology. Prerequisite: BIOL 202

BIOL 367L Entomology Laboratory 1 credit
The lab includes field trips. Taken concurrently with BIOL 367.

BIOL 370 General Microbiology 3 credits
A study of the fundamental factors involved in microbiology including basic microbial morphology, taxonomy, biochemistry, genetics, and culture techniques. Fall. Prerequisite: BIOL 202.

BIOL 370L General Microbiology Laboratory 1 credit
Taken concurrently with BIOL 370.

BIOL 371 Vertebrate Biology 3 credits
Vertebrate diversity, structure and function from an evolutionary perspective. Topics covered will include development, physiology, ecology, behavior and conservation. Fall alternate years. Prerequisites: BIOL 102 and 202.

BIOL 371L Vertebrate Biology Laboratory 1 credit
Taken concurrently with BIOL 371.

BIOL 374 Immunology 3 credits
An introduction to the cellular and molecular basis of the immune response. Topics will include structures and interactions of effect on molecules in the immune system, generation of diversity in immune specificity, cellular immunology, and the basis of immunity and autoimmune diseases. Fall. Prerequisite: BIOL 202.

BIOL 375 Virology 3 credits
Viral evolution, replication, virus-host interactions, epidemiology, and lateral gene transfer are covered. Offered on sufficient demand. Prerequisite: BIOL 202.

BIOL 399 Advanced Topics 2 credits
An introduction to the current reviews and research literature on specific biological topics. This course prepares students to study, analyze, and discuss the results of biological research. Selected topics are offered each semester. May be repeated with departmental permission. Fall and Spring. Prerequisites: BIOL 202 and Junior standing.

BIOL 440 (CHEM 440) Biochemistry 3 credits
Lectures on the structure and function of the major classes of biomolecules (carbohydrates, proteins, and nucleic acids) with an emphasis on proteins and enzymology. The central metabolic pathways of glycolysis, gluconeogenesis, and the citric acid cycle are discussed from a mechanistic, energetic, and regulatory viewpoint. Fall. Prerequisites: CHEM 331 and (CHEM 240 or CHEM 310).

BIOL 441 Comparative Physiology 3 credits
Physiological mechanisms, processes and responses of animals. Physical, chemical and biochemical principles common to physiological systems, such as respiration, excretion, and metabolism, will be covered. Goals of the course are to reveal the mechanisms, adaptive significance, and evolution of physiological systems using a comparative approach. Fall. Prerequisites: BIOL 102 and BIOL 202.

BIOL 441L Comparative Physiology Laboratory 1 credit
Taken concurrently with BIOL 441.

BIOL 443L (CHEM 443L) Biochemistry Laboratory I 1 credit
An investigation of the techniques used to examine biomolecules and biochemical systems. Students perform integrated laboratory experiments in biochemistry. Spring. Prerequisite: BIOL 440 or CHEM 440.

BIOL 445 (CHEM 445) Biochemistry II 3 credits
Continuation of BIOL 440 (CHEM 440), including an examination of the primary processes of cellular energy production, oxidative phosphorylation and photosynthesis. The major metabolic pathways of carbohydrates, lipids, amino acids and nucleotides are covered. Spring. Prerequisite: BIOL 440 or CHEM 440.

BIOL 451 Comparative Endocrinology 3 credits
A comparative study of the structure and function of hormones across a wide variety of taxa (emphasizing vertebrates), including secretion and regulation of hormones, mechanisms of action, and integration of hormones into biological processes. Offered on sufficient demand. Prerequisite: BIOL 202
BIOL 451L Comparative Endocrinology Lab 1 credit
Taken concurrently with BIOL 451.

BIOL 456 Molecular Biology 3 credits
This course provides essential background for understanding the application of recombinant DNA technology in biological research and biotechnology. Fall. Prerequisite: BIOL 202.

BIOL 456L Molecular Biology Lab 2 credits
Labs focus on the construction, manipulation, and analysis of recombinant DNA molecules. Taken concurrently with BIOL 456.

BIOL 460 Plant Physiology 3 credits
Plant structure, function, physiology, and biochemistry are explored. Emphasis is placed on physiological phenomena such as fluid transport processes, the regulation of plant growth, and photosynthesis. Aspects of plant molecular biology and genetic engineering of crop plants are also investigated. Offered on sufficient demand. Prerequisite: BIOL 202.

BIOL 460L Plant Physiology Laboratory 1 credit
Taken concurrently with BIOL 460.

BIOL 471 Wildlife Management 4 credits
Introduces students to the questions, principles and tools used by resource managers in the Kenyan Savanna ecosystem. Students will study habitat assessment, plant and animal identification, plant and animal associations and distributions, and other approaches to evaluating Savanna ecosystems. School for Field Studies Program only. See http://www.fieldstudies.org/ for current schedule. Prerequisites: BIOL 102 and BIOL 202.

BIOL 472 Wildlife Ecology 4 credits
Presents students with the information and conceptual background necessary to understand the underlying ecological principles of the East African Savanna ecosystem. Focus on the fundamental processes and relationships between the biotic and abiotic environment. School for Field Studies Program only. See http://www.fieldstudies.org/ for current schedule. Prerequisites: BIOL 102 and BIOL 202.

BIOL 473 Tropical Marine Ecology 4 credits
Discusses the interactions that determine the distribution and abundance patterns of tropical marine organisms, with emphasis on the ecology of near-shore areas. Basic principles of ecology are integrated with physical, chemical and geological oceanography. School for Field Studies Program only. See http://www.fieldstudies.org/ for current schedule. Prerequisites: BIOL 102 and BIOL 202.

BIOL 474 Rainforest Ecology 4 credits
Introduces the structure and function of tropical rainforests including the floral and faunal components. Ecological processes that maintain biodiversity and the evolutionary processes that generate it will be presented. School for Field Studies Program only. See http://www.fieldstudies.org/ for current schedule. Prerequisites: BIOL 102 and BIOL 202.

BIOL 475 Principles of Forest Management 4 credits
Presents the ecological and analytical tools used in the management of terrestrial, living resources. Uses examples from the tropics to stress the theories and skills that provide the foundation for land management worldwide. School for Field Studies Program only. See http://www.fieldstudies.org/ for current schedule. Prerequisites: BIOL 102 and BIOL 202.

BIOL 476 Principles of Resource Management 4 credits
Introduces practical tools used in addressing complex environmental problems including coastal zone planning, guidelines for ecologically sustainable development, environmental impact assessment, fisheries management techniques, and protected-area planning and management. School for Field Studies Program only. See http://www.fieldstudies.org/ for current schedule. Prerequisites: BIOL 102 and BIOL 202.

BIOL 477 Coastal Ecology 4 credits
Examines the ecological processes at the interface between land and sea in order to provide an understanding of how human perturbations can impact both marine and terrestrial systems. The watershed concept will be used to explore nutrient flow, energy cycling, erosion, coastal circulation productivity, and biotic interactions. School for Field Studies Program only. See http://www.fieldstudies.org/ for current schedule. Prerequisites: BIOL 102 and BIOL 202.

BIOL 484 Research Seminar 1 credit
A forum for students to present results of their independent research to students and faculty. Offered on sufficient demand. Prerequisite: Permission.

BIOL 490 Directed Reading 1-3 credits
Reading material will be selected by the student after consultation with a faculty member in the department. Course may be repeated to total not more than six credits. A maximum of six credits of any combination of BIOL 490, BIOL 496, and BIOL 498 can be applied to Biology electives. Fall and Spring. Prerequisites: BIOL 202 and permission from department.

BIOL 496 Biological Research Techniques 1-3 credits
An introduction to some of the experimental techniques used in biological research. Course content will vary by instructor. A maximum of six credits of any combination of BIOL 490, BIOL 496, and BIOL 498 can be applied to Biology electives. Fall and Spring. Prerequisites: BIOL 202 and permission from department.

BIOL 498 Directed Research 1-3 credits
This course provides the motivated student with the opportunity to conduct an independent research project under the direction of a Biology Department faculty member. A maximum of six credits of any combination of BIOL 490, BIOL 496, and BIOL 498 can be applied to Biology electives. Fall and Spring. Prerequisites: BIOL 202 and permission from department.

BIOL 499 Senior Colloquium 1 credit
Required of all majors. This course meets once per week to review students framework of biological knowledge and discuss biological principles. Recent primary literature articles on current topics in biology may be examined as a means of review. At the end of the semester, students are required to take the Major Field Test in Biology. Fall and Spring. Prerequisite: Senior standing.
The Catholic Studies Concentration provides a multi-disciplinary approach to understanding the Catholic expression of Christianity and its cultural contributions. The concentration assumes that a knowledge of the heritage of Catholicism's past is necessary for understanding the present and anticipating the future. The concentration has four goals. First, it gives students an opportunity to identify Catholicism's heritage in various disciplines across the curriculum. Second, it gives students an opportunity to integrate their understanding of these contributions into an appreciation of the richness of Catholic culture. Third, the program supports the idea that Catholicism is not something limited to a particular department or to a particular segment of a person's life. Catholicism involves the total person and is thus appropriately addressed throughout the entire curriculum of a Catholic university. Finally, the concentration seeks to encourage faculty to be aware of and reflective on the assumptions and the goals outlined above. The Catholic Studies Committee that oversees the program understands these goals as furthering the mission of the University.

The Catholic Studies concentration offers a twenty-one credit program that will enable students to choose and integrate courses from a coherent and focused perspective. The concentration requires three courses - RELI 220 Catholicism, a course in Catholic Church history, and CATH 499 Catholic Studies Symposium. The RELI 220 course is a 'gateway' course that should be taken prior to taking other courses in the Concentration; however, it may be taken concurrently with other concentration courses. The CATH 499 symposium is the 'capstone' course and is the final course to be taken in the Concentration. It is this course that specifically seeks to produce an integrative experience for students in the concentration. Students will also select four elective courses from different disciplines, such as Art, Communication Arts, English, Music, Philosophy, Political Science and Religious Studies. These elective courses and the church history course follow no definite sequence since the intent is that the student be free to explore the diversity of Catholic thought and life. Courses satisfying concentration requirements are indicated by a Catholic Studies attribute. Student course selections are subject to the following requirements: no more than six credits from any one department can count towards meeting concentration requirements; no more than a total of nine credits combined from the Philosophy and Religious Studies departments, excluding the required RELI 220 Catholicism course, can count towards meeting concentration requirements. These requirements are intended to highlight the diversity of Catholic thought and life. Students in the College of Arts and Sciences may be able to meet most of the concentration's requirements within the College's core curriculum.
The Department of Chemistry offers both the Bachelor of Science and the Bachelor of Arts degrees. The American Chemical Society has approved the curriculum for the Bachelor of Science in Chemistry including a program with a biochemistry option. A Bachelor of Arts is offered for those students wishing a strong background in the field but with less specialization than the Bachelor of Science program. A minor in chemistry is also offered.

For those interested in teaching chemistry at the secondary level, the department suggests the B.A. degree along with the teacher certification program of the School of Education. For students interested in environmental science, a B.A. degree in Chemistry combined with a concentration in environmental science and supporting courses from Biology and Civil Engineering is recommended.

Gonzaga University does not offer a program in Chemical Engineering. Students interested in Chemical Engineering should consider combining a B.S. degree in Chemistry with supporting courses from the School of Engineering and Applied Science and an M.S. or Ph.D. degree in Chemical Engineering from another institution.

B.S. Major in Chemistry: 63 Credits

**Lower Division**
- CHEM 105 General Chemistry: 3 credits
- CHEM 105L General Chemistry Lab: 1 credit
- CHEM 206 Inorganic Chemistry: 3 credits
- CHEM 206L Inorganic Chemistry Lab: 1 credit
- CHEM 230 Organic Chemistry I: 3 credits
- CHEM 230L Organic Chemistry Lab: 1 credit
- MATH 157, 258, and 259: 12 credits
- PHYS 103, 103L and 204, 204L: 8 credits

**Upper Division**
- CHEM 310 & 310L Quantitative Analysis: 4 credits
- CHEM 320 Physical Chemistry I: 3 credits
- CHEM 321 Physical Chemistry II: 3 credits
- CHEM 331 Organic Chemistry I: 3 credits
- CHEM 331L Organic Chemistry Lab II: 1 credit
- CHEM 340 Unified Lab I: 3 credits
- CHEM 341 Unified Lab II: 3 credits
- CHEM 406 Advanced Inorganic Chemistry: 3 credits
- CHEM 440 Biochemistry I: 3 credits
- CHEM 471 Chemical Bibliography: 1 credit
- CHEM 485 Seminar: 1 credit
- CHEM 486 Seminar: 1 credit
- CHEM 498A and B Thesis: 2 credits

B.S. Major in Chemistry with Biochemistry Option: 76 Credits

**Lower Division**
- CHEM 105 General Chemistry: 3 credits
- CHEM 105L General Chemistry Lab: 1 credit
- CHEM 206 Inorganic Chemistry: 3 credits
- CHEM 206L Inorganic Chemistry Lab: 1 credit
- CHEM 230 Organic Chemistry I: 3 credits
- CHEM 230L Organic Chemistry Lab: 1 credit
- BIOL 101 Diversity of Life: 3 credits
- BIOL 101L Diversity of Life Laboratory: 1 credit
- BIOL 201 Cellular Biology: 3 credits
- BIOL 201L Cellular Biology Lab: 1 credit
- BIOL 202 Genetics and Evolution: 3 credits
- BIOL 202L Genetics and Evolution Lab: 1 credit
- MATH 157, 258, and 259: 12 credits
- PHYS 103, 103L and 204, 204L: 8 credits

**Upper Division**
- CHEM 310 and 310L Quantitative Analysis: 4 credits
- CHEM 320 Physical Chemistry I: 3 credits
- CHEM 321 Physical Chemistry II: 3 credits
- CHEM 331 Organic Chemistry I: 3 credits
- CHEM 331L Organic Chemistry Lab II: 1 credit
- CHEM 340 Unified Lab I: 3 credits
- CHEM 341 Unified Lab II: 3 credits
- CHEM 440 Biochemistry I: 3 credits
- CHEM 443 Biochemistry I Lab: 1 credit
- CHEM 445 Biochemistry II: 3 credits
- CHEM 471 Chemical Bibliography: 1 credit
- CHEM 485 Seminar: 1 credit
- CHEM 486 Seminar: 1 credit
- CHEM 498A and B Thesis: 2 credits

B.A. Major in Chemistry: 49-50 Credits

**Lower Division**
- CHEM 105 (or 101) General Chemistry: 3 credits
- CHEM 105L (or 101L) General Chemistry Lab: 1 credit
- CHEM 206 Inorganic Chemistry: 3 credits
- CHEM 206L Inorganic Chemistry Lab: 1 credit
- CHEM 230 Organic Chemistry I: 3 credits
- CHEM 230L Organic Chemistry Lab: 1 credit
- MATH 157, 258, and 259: 8 credits
- One of the following two sets of courses:
  - PHYS 101, 101L and 102, 102L: 8 credits
  - PHYS 103, 103L and 204, 204L: 8 credits

**Upper Division**
- CHEM 310 and 310L Quantitative Analysis: 4 credits
- CHEM 331 Organic Chemistry I: 3 credits
- CHEM 331L Organic Chemistry Lab II: 1 credit
- CHEM 471 Chemical Bibliography: 1 credit
- CHEM 485 Seminar: 1 credit
- CHEM 486 Seminar: 1 credit
- CHEM 320 or 321 Physical Chemistry I or II: 3 credits
- One of the following two sets of courses:
  - CHEM 498 A and B Thesis: 2 credits
  - CHEM 488 Senior Literature Review: 1 credit
  - Two of the following courses: 6 credits
    - CHEM 406, 440, 445 or a second semester of Physical Chemistry (320 or 321)

Minor in Chemistry: 31-35 Credits

**Lower Division**
- CHEM 105 (or 101) General Chemistry: 3 credits
- CHEM 105L (or 101L) General Chemistry Lab: 1 credit
- CHEM 206 Inorganic Chemistry: 3 credits
- CHEM 206L Inorganic Chemistry Lab: 1 credit
- CHEM 230 Organic Chemistry I: 3 credits
- CHEM 230L Organic Chemistry Lab: 1 credit
- MATH 157 Calculus and Analytical Geometry I: 4 credits
- PHYS 101, 101L or PHYS 103, 103L: 4 credits

**Upper Division**
- CHEM 310 and 310L Quantitative Analysis: 4 credits
- CHEM 331 Organic Chemistry I: 3 credits
- CHEM 331L Organic Chemistry Lab II: 1 credit
- CHEM 340 Unified Lab I: 3 credits
- CHEM 498A and B Thesis: 2 credits
- One of the following courses:
  - CHEM 320 Physical Chemistry I (requires MATH 258): 3 credits
  - CHEM 440 Biochemistry I: 3 credits
Lower Division
CHEM 101 General Chemistry 3 credits
A systematic treatment of the fundamental laws and theories of chemistry and their applications. Three lectures per week. Taken concurrently with CHEM 101L.
CHEM 101L General Chemistry Lab I 1 credit
Taken concurrently with CHEM 101. One laboratory per week.
CHEM 105 General Chemistry 3 credits
Similar to CHEM 101 but designed for students with a good chemistry background, especially those exploring chemistry as a major. Three lectures per week. Taken concurrently with CHEM 105L. Fall.
CHEM 105L General Chemistry Lab 1 credit
Taken concurrently with CHEM 105. Emphasis on discovery approach. One laboratory per week. Fall.
CHEM 111 Chemistry in Context 3 credits
A survey of chemical topics related to contemporary social issues. Specifically designed for non-science majors. CHEM 111L optional. On sufficient demand.
CHEM 111L Chemistry in Context Lab 1 credit
See CHEM 111 for description. Taken concurrently with CHEM 111.
CHEM 170H Honors Chemistry 4 credits
Topics selected to highlight the role chemistry plays in modern society. Historical development of the basic laws and theories. Examination of the ethical dimension of scientific activity. Three lectures with one laboratory period per week. For non-science majors in the Honors Program. On sufficient demand. Prerequisite: HONS 190.
CHEM 180 Art and Chemistry 3 credits
Investigation of artists' materials such as pigments, dyes, paints, paper, clay, glass and metals using principles of chemistry. Possible topics include fresco painting, ceramics, printmaking, photography, art preservation, authentication and restoration. Designed for non-science majors. Taken concurrently with CHEM 180L. On sufficient demand.
CHEM 180L Art and Chemistry 1 credit
Hands-on activities and experiments that are integrated with the lecture material presented in CHEM 180. Taken concurrently with CHEM 180.
CHEM 206 Inorganic Chemistry 3 credits
Periodic trends including acid-base, solubility, redox, and radioactive properties of the elements. Emphasis on aqueous solutions and environmental applications. Taken concurrently with CHEM 206L. Fall. Prerequisite: CHEM 101 or CHEM 105.
CHEM 206L Inorganic Chemistry Lab 1 credit
Preparation and analysis of inorganic compounds. Qualitative analysis of aqueous solutions. Taken concurrently with CHEM 206. Fall. Prerequisite: CHEM 105 or CHEM 101.
CHEM 230 Organic Chemistry 3 credits
Essential concepts in bonding and structure, acid-base chemistry, reactivity and synthesis of functional groups, nomenclature, and mechanisms of fundamental organic reactions. Three lectures and one recitation per week. Taken concurrently with CHEM 230L. Spring. Prerequisite: CHEM 101 or CHEM 105 (minimum grade C- or by permission).
CHEM 230L Organic Chemistry Lab I 1 credit
Preparation and analysis of representative organic compounds. One laboratory per week. Taken concurrently with CHEM 230. Spring. Prerequisite: CHEM 101 or CHEM 105.
CHEM 240 Intro to Bioanalytical Chemistry 3 credits
Topics include acid-base chemistry, spectrometry, chromatography, electrochemistry, chemical thermodynamics, and kinetics. Emphasis on biological applications. Three lectures per week. Taken concurrently with CHEM 240L. Spring. Prerequisite: CHEM 230.
CHEM 240L Intro to Bioanalytical Chemistry Lab 1 credit
Applications of selected analytical methods to biological problems. Three lectures per week. Taken concurrently with CHEM 240. Spring.

Upper Division
CHEM 310 Quantitative Analysis 3 credits
Principles of chemical analysis by gravimetric, volumetric, electrometric, spectrometric, and chromatographic procedures. Laboratory experiments utilizing analytical instrumentation. Two lectures per week. Two laboratories per week. Spring. Prerequisites: CHEM 206 and CHEM 230.
CHEM 310L Quantitative Analysis Lab 0 credit
See CHEM 310 for description. Prerequisites: CHEM 206 and CHEM 230.
CHEM 320 Physical Chemistry I 3 credits
Quantum mechanics, group theory, and spectroscopy. Three lectures per week. Fall. Prerequisites: MATH 258, CHEM 310, and (PHYS 103 or PHYS 101).
CHEM 321 Physical Chemistry II 3 credits
Thermodynamics, statistical mechanics, and kinetics. Three lectures per week. Spring. Prerequisites: MATH 258, CHEM 310, and (PHYS 103 or PHYS 101).
CHEM 331 Organic Chemistry II 3 credits
Quantitative analysis of organic compounds. Three lectures per week. Taken concurrently with CHEM 331L. Fall. Prerequisite: CHEM 230 (minimum grade C-).
CHEM 331L Organic Chemistry Lab II 1 credit
Preparation and analysis of organic compounds. One laboratory per week. Taken concurrently with CHEM 331. Fall. Prerequisite: CHEM 230L.
CHEM 340 Unified Laboratory Session I 3 credits
Laboratory experiments emphasizing instrumental analysis. Two laboratories per week. Fall. Prerequisites: CHEM 310 and CHEM 331.
CHEM 341 Unified Laboratory II 3 credits
Laboratory experiments emphasizing physical chemistry methods. Two laboratories per week. Spring. Prerequisites: CHEM 310, CHEM 331, and CHEM 320.
CHEM 360 Introduction to Bioinformatics 3 credits
An introduction to the methods and applications of bioinformatics. Participants will learn the basics of how the computer is used as an investigative tool by researchers in the biochemical and biomedical sciences. Approximately half the course will be devoted to methods for the viewing and analysis of protein structures. Summer via internet. Prerequisites: CHEM 331 and BIOL 201.
CHEM 406 Advanced Inorganic Chemistry 3 credits
Application of quantum mechanics, group theory, and molecular orbital theory to inorganic compounds including transition metal complexes. Special topics include recent advances in inorganic chemistry. Three lectures per week. Spring, even years. Prerequisite: CHEM 320 or CHEM 321.
CHEM 421 Advanced Physical Chemistry 1-3 credits
Material to be chosen from topics such as quantum chemistry, rate theory, surface chemistry, or electrochemistry. On sufficient demand. Prerequisite: CHEM 321
CHEM 430 Advanced Organic Chemistry 3 credits
Selected topics in organic chemistry. On sufficient demand. Prerequisite: CHEM 331.

CHEM 440 Biochemistry I 3 credits
Structure and function of the major classes of biomolecules (carbohydrates, lipids, proteins, and nucleic acids) with an emphasis on proteins and enzymology. The central metabolic pathways of glycolysis, gluconeogenesis, and the citric acid cycle are discussed from a mechanistic, energetic and regulatory viewpoint. Prerequisites: CHEM 331 and (CHEM 310 or CHEM 240). Fall.

CHEM 443L Biochemistry Laboratory I 1 credit
An investigation of the techniques used to examine biomolecules and biological systems. Integrated laboratory experiments in biochemistry. Spring. Prerequisite: CHEM 440 or BIOL 440.

CHEM 445 Biochemistry II 3 credits
Continuation of CHEM 440, including an examination of the primary processes of cellular energy production, oxidative phosphorylation and photosynthesis. The major metabolic pathways of carbohydrates, lipids, amino acids, and nucleotides are covered. Spring. Prerequisite: CHEM 440.

CHEM 471 Chemical Bibliography 1 credit
Survey of the chemical literature as background for the senior thesis or senior literature review. Scientific writing will be emphasized. Spring.

CHEM 485 Seminar 1 credit
Required of all fourth year chemistry majors. Prerequisite: fourth year standing. Fall.

CHEM 486 Seminar 1 credit
Continuation of CHEM 485. Spring. Prerequisite: CHEM 485.

CHEM 488 Senior Literature Review 1 credit
Literature review of special chemical problem or topic under the direction of a faculty member. Prerequisite: CHEM 471.

CHEM 490 Directed Reading 1-3 credits
Material and credit to be arranged. Prerequisite: approval of chairperson.

CHEM 498A Thesis 1 credit
Investigation of special chemical problems and topics under the direction of a faculty member. Required of all B.S. majors. Fall. Prerequisite: CHEM 471.

CHEM 498B Thesis 1 credit
Continuation of CHEM 498A. Spring. Prerequisite: CHEM 498A.

Classical Civilizations
Chairperson: Patrick J. Hartin
Professor: F. Schlatter, S.J. (Emeritus)
Instructor: K. Krall, S.J.

The department will meet the needs of three classes of students:
1) Those who wish a major in Classical Civilizations.
2) Those who wish to begin or continue the study of Latin in support of other majors or in preparation for advanced work in other areas.
3) Those who wish to fulfill part of the foreign language requirement of the Arts and Sciences core curriculum by taking one of the classical languages.

B.A. Major in Classical Civilizations: 35 credits

Two Language Courses 8 credits
LATN 101-102 or GREK 101-102

Two Classical courses 6 credits
CLAS 272 Topics in Classical Civilizations
CLAS 375 Topics in Classical Civilizations

Six Elective courses 18 credits
Students may elect to focus in either Latin or Greco-Roman Civilization

Focus in Latin Language and Authors
LATN 201 Intermediate Latin 3 credits
LATN 202 Intermediate Latin 3 credits
LATN 301 Latin Authors 3 credits
LATN 302 Latin Authors 3 credits
LATN 303 Latin Authors 3 credits
LATN 304 Latin Authors 3 credits

Focus in Greco-Roman Civilization
One course must be selected from any four of the five following disciplinary areas. This selection must also include one course in Greek culture and one course in Roman culture.

Archaeology
HIST 301 The Ancient City 3 credits
HIST 315 Art and Archaeology of Greece and Rome 3 credits

Greek Language
GREK 201 Intermediate Greek 3 credits
GREK 202 Intermediate Greek 3 credits

History
HIST 303 Athens in the 5th Century BC 3 credits
HIST 304 Alexander the Great and the Hellenistic World 3 credits
HIST 311 The Roman Republic from Romulus to Julius Caesar 3 credits
HIST 312 The Roman Empire from Augustus to the "Decline and Fall" 3 credits

Philosophy
PHIL 401 History of Ancient Philosophy 3 credits
PHIL 406 Philosophy of St. Augustine 3 credits

Religious Studies
RELI 419 Christians, Romans and Jews 3 credits
RELI 446 Christianity in the Roman Empire 3 credits

CLAS 499 Senior Thesis 3 credits
### Minor in Classical Civilizations: 23 credits

Selected from any of the following five disciplinary perspectives:

**Latin Language**
- LATN 201 Intermediate Latin 3 credits
- LATN 202 Intermediate Latin 3 credits

**Greek Language**
- GREK 201 Intermediate Greek 3 credits
- GREK 202 Intermediate Greek 3 credits

**Archaeology**
- HIST 301 The Ancient City 3 credits
- HIST 315 Art and Archaeology of Greece and Rome 3 credits

**History**
- HIST 303 Athens in the 5th Century 3 credits
- HIST 304 Alexander the Great and the Hellenistic World 3 credits
- HIST 311 The Roman Republic from Romulus to Julius Caesar 3 credits
- HIST 312 The Roman Empire from Augustus to the “Decline and Fall” 3 credits

**Philosophy**
- PHIL 401 History of Ancient Philosophy 3 credits
- PHIL 406 Philosophy of St. Augustine 3 credits

**Religious Studies**
- RELI 419 Christians, Romans and Jews 3 credits
- RELI 446 Christianity in the Roman Empire 3 credits

### Greek

**Lower Division**
- GREK 101 Elementary Greek I 4 credits
  - A beginner's course: grammar, composition, and easy prose selections. Fall, alternate years.
- GREK 102 Elementary Greek II 4 credits
  - Continuation of GREK 101. Spring, alternate years. Prerequisite: GREK 101 or equivalent.
- GREK 201 Intermediate Greek I 3 credits
  - Continuation of GREK 102: review of forms, syntax, readings. Fall alternate years. Prerequisite: GREK 102 or equivalent.
- GREK 202 Intermediate Greek II 3 credits
  - Continuation of GREK 201; readings. Spring, alternate years. Prerequisite: GREK 201 or equivalent.

**Upper Division**
- GREK 491 Special Reading Course 1-4 credits

### Latin

**Lower Division**
- LATN 101 Elementary Latin I 4 credits
  - A beginner's course: grammar, composition, and easy prose selections. Fall.
- LATN 102 Elementary Latin II 4 credits
  - Continuation of LATN 101. Spring. Prerequisite LATN 101 or equivalent.
- LATN 201 Intermediate Latin I 3 credits
  - Continuation of LATN 101 and 102: review of forms and syntax; composition, and readings. Fall. Prerequisite: LATN 102 or equivalent.
- LATN 202 Intermediate Latin II 3 credits
  - Continuation of LATN 201. Spring. Prerequisite: LATN 201 or equivalent.
- LATN 272 Topics in Latin 1-7 credits
  - Tutorials available as needed by students who have finished the intermediate level and are proceeding to read authors of moderate difficulty. Prerequisite: LATN 202.

**Upper Division**
- LATN 301 Latin Authors 3 credits
  - Courses or tutorials for students who have completed the intermediate level Latin and are reading original Latin authors. Fall and Spring. Prerequisite: LATN 202.
- LATN 302 Latin Authors 3 credits
  - Courses or tutorials for students who have completed the intermediate level Latin and are reading original Latin authors. Fall and Spring. Prerequisite: LATN 202.
- LATN 303 Latin Authors 3 credits
  - Courses or tutorials for students who have completed the intermediate level Latin and are reading original Latin authors. Fall and Spring. Prerequisite: LATN 202.
- LATN 304 Latin Authors 3 credits
  - Courses or tutorials for students who have completed the intermediate level Latin and are reading original Latin authors. Fall and Spring. Prerequisite: LATN 202.

### Classic Civilization

**Lower Division**
- CLAS 272 Topics in Classic Civilization 3 credits
  - A course offering the student an opportunity to study literature of the Classical world in translation. Offered annually.

**Upper Division**
- CLAS 375 Topics in Classic Civilization 3 credits
  - A course offering the student an opportunity to study literature of the Classical world in translation. Offered annually.
- CLAS 499 Senior Thesis 3 credits
  - Required for majors in Classical Civilization in their fourth year. Prerequisite: Permission from department.
Communication Arts

Chairperson: Thomas A. Miller
Professors: J. S. Caputo, H. Hazel
Associate Professors: J. Hofland, R. Lyons, S.J., C. McMahan, T. Miller, T. Osborne, B. Russo
Assistant Professors: E. Dorsey, S. English, J. Fitzsimmons, D. Garrity, M. Hazel, N. Schmidt
Instructor: G. Frappier

The communication process constitutes the fabric of human society. This relational process is woven into personal, community, business, artistic, and religious life - and into the dialogue among the cultures and nations of the world. Critical examination of this process describes, interprets, and evaluates these relationships. As faculty in the Department of Communication Arts, we seek to assist students in becoming effective, creative, and ethically responsible communicators who can understand theoretical choices and design, express, interpret, and critically evaluate oral, written, nonverbal, and electronically mediated messages. Communication, as an academic discipline, draws upon the humanities, the social and natural sciences, and the professions. The curriculum is both conceptual and applied. Courses prepare for an in-depth exploration of one or more areas of inquiry. Bachelor of Arts degrees are offered in these areas:

1) Applied Communication Studies.
2) Broadcast and Electronic Media Studies.
3) Journalism.
4) Public Relations.
5) Theatre Arts.

Additionally, we offer a minor in advertising that is jointly taught by Communication Arts and Marketing faculty. The pedagogy combines lecture, seminar, production, and performance. The intent of our program is to guide students toward academic excellence and realistic career goals. Communication Arts at Gonzaga reflects the Catholic, Jesuit character and liberal arts tradition of the institution. Internships may be taken at television stations, newspapers, magazines, online outlets, public relations and marketing firms, as well as profit and non-profit agencies. There are service-learning components in applied communication, public relations and theatre courses. Students can serve on the campus newspaper, The Bulletin, in theatre productions, with GUTV, or at KAGU-FM, the campus radio station. In addition, some classes develop newsletters and magazines such as the intercultural publication, The Blue Marble. The curriculum is supported by video and photography labs and Russell Theatre, along with a computer lab for research on the Internet, graphic design or editing copy. Lambda Pi Eta is the National Communication Honor Society for outstanding students in any of the Communication Arts. Membership in Iota Rho, the campus chapter, is limited to third- and fourth-year students who have demonstrated high academic achievement, leadership and service, and a commitment to the discipline of communication.

Communication Arts Department Core:

Majors within the Communication Arts Department are required to complete the Communication Arts Department Core:

- COMM 101 Mass Communication (except Theatre) 3 credits
- COMM 499 Senior Seminar 0 credit

*Note: No upper-division courses may be applied to two separate majors and/or minors within the Department of Communication Arts, with the exception of COMM 305 and COMM 364.

Applied Communication Studies

Director: M. Hazel

The Applied Communication Studies major combines the classical liberal arts tradition of rhetoric with contemporary trends in speech communication with special emphasis on organizational studies and leadership. The major is founded on the Jesuit ideal of producing leaders who excel in Ars eloquentiae - the ability to communicate effectively in personal and professional settings. More specifically, the program serves students who plan to pursue a career in public service, non-profit administration, teaching, government, business or law. Faculty provide foundational courses for those who plan to attend graduate school in communication or related subjects. The major is a blend of the academic and the practical since it is designed to make students better communicators, not merely by developing interpersonal and public speaking skills but by having them understand the centrality of communication in the development of thought and culture.

All students are expected to have completed SPCO 101 (Introduction to Speech) in their first year or SPCO 102 if they are transfer students.

Applied Communication Studies includes a nationally successful intercollegiate debate program situated and equipped in its own facility, the Conway House.

B.A. Major in Applied Communication Studies: 37 credits

Lower Division

- COMM 101 Mass Communication 3 credits
- JOUR 110 Introduction to Journalistic Writing 3 credits

Upper Division

- COMM 305 Communication Theory and Research 3 credits
- One of the following two courses:
  - COMM 375 Communication Training and Consulting 3 credits
  - COMM 475 Organizational Communication 3 credits
- COMM 418 Intercultural and International Communication* 3 credits
- SPCO 321 Advanced Public Speaking 3 credits
- SPCO 356 Persuasion 3 credits
- SPCO 400 Nonverbal Communication 3 credits
- SPCO 401 Communication and Leadership 3 credits
- SPCO 453 Interpersonal and Small Group Communication 3 credits
- SPCO 457 Communication Criticism 3 credits
- SPCO 498 Senior Communication Colloquium 2 credits
- COMM 499 Senior Seminar 0 credit

*This course meets the College of Arts and Sciences social justice requirement

**Students who wish to go on to graduate school may substitute this course in consultation with their advisor.

Minor in Applied Communication Studies: 21 credits

Lower Division

- COMM 101 Mass Communication 3 credits
- JOUR 110 Introduction to Journalistic Writing 3 credits

Upper Division

- COMM 305 Communication Theory and Research 3 credits
- One of the following two courses:
  - COMM 375 Communication Training and Consulting 3 credits
  - COMM 475 Organizational Communication 3 credits
- SPCO 401 Communication and Leadership 3 credits
- Two of the following three courses:
  - COMM 418 Intercultural and International Communication 6 credits
  - SPCO 321 Advanced Public Speaking 3 credits
  - SPCO 453 Interpersonal and Small Group Communication 3 credits
Broadcast and Electronic Media Studies
Director: D. Garrity
The major in Broadcast and Electronic Media Studies prepares students for careers in radio, television and related communications fields in addition to providing a foundation for graduate work in the same areas. Students gain a theoretical appreciation of mass media, but are then challenged to apply their knowledge in live, original productions on KAGU radio and GUTV, the Broadcast program’s television station. Majors are provided state-of-the-art non-linear technology with which to create programming, and brand new studios in which to perform. Broadcast and Electronic Media graduates are taught the ultimate goal of the program is for them to make a positive difference in the world with their newfound talents.

B.A. Major in Broadcast and Electronic Media Studies: 37 Credits

Lower Division
- COMM 101 Mass Communication 3 credits
- BRCO 203 Fundamentals of TV Production 3 credits
- BRCO 204 Fundamentals of Audio Production 3 credits

Upper Division
- COMM 364 Mass Media Law 3 credits
- BRCO 303 Intermediate TV Production 3 credits
- BRCO 370 Broadcast Journalism 3 credits
- BRCO 469 Advanced TV Production 3 credits
- BRCO 470 Broadcast Leadership 3 credits
- BRCO 481 TV & Social Justice 3 credits
- BRCO, COMM, JOUR, PRLS or THEA electives 9 credits
- BRCO 499 Comprehensive Exam 1 credit
- COMM 499 Senior Seminar 0 credit

Minor in Broadcast Studies: 21 Credits

Lower Division
- COMM 101 Mass Communication 3 credits
- BRCO 203 Fundamental TV Production 3 credits

Upper Division
- BRCO 303 Intermediate TV Production 3 credits
- BRCO 304-494 Electives 12 credits

Journalism
Director: S. English
The Journalism major prepares students for careers in journalism or related occupations. The major focuses on reporting, writing, editing, and production for newspapers and magazines. Graduates of the journalism program often carry these skills into advertising or public relations, broadcast news, business, government, law and graduate schools, as well as into daily or weekly journalism.

The major blends practical experience, discussion of ethics, traditions and the nature of news, and theory. Work is carried on in the Journalism and Broadcast Center lab. The program is integrated with the University’s liberal arts requirements, which are considered important ingredients of a journalist’s education at Gonzaga. Students are expected to make use of their liberal arts and professional education to become critical and creative contributors to journalism and civic life.

Most journalism students contribute to The Bulletin, the University's student-produced weekly newspaper. But credits for Journalism 220 and 230 may also be given for work on other publications, or under certain circumstances even in other media. Those meeting the prerequisites are encouraged to complete an internship. Students are encouraged but not required to complete minors in other departments.

Public Relations
Director: E. Dorsey
The Public Relations major is interdisciplinary in scope and writing intensive in design. The objective of the major is to provide students with a critical understanding of the symbolic, rhetorical behavior which creates and influences relationships between organizations and their public. Courses encourage the examination of practical and theoretical perspectives, historical developments, research methodology, legal applications and the expanding role of Public Relations in modern society. All first-year majors participate in a Service Learning practicum tailored to the unique challenges of public relations within a non-profit setting. In addition, students acquire skills in public speaking, reporting, and critical thinking.

A minor in Public Relations appeals to students majoring in a variety of other fields, including those students majoring within another division of the Communication Arts Department. Political Science majors may see the minor as a means to enhance their expertise and understanding of public communication and campaign development. Business students may use it in association with concentrations in finance, management, or marketing. Students majoring in English may use the minor to explore the dynamics of organizational advocacy and communicative strategy.

B.A. Major in Public Relations: 38-39 credits

Lower Division Courses
- COMM 101 Mass Communication 3 credits
- JOUR 110 Journalistic Writing 3 credits
- PRLS 267 Principles of Public Relations 3 credits
### Upper Division

* A 300-400 level, three credit Communication Arts Department elective may be substituted for an internship if the student does not meet the minimum cumulative 3.00 GPA requirement prior to the beginning of the fourth year OR if the student's academic advisor does not recommend a professional internship.

**For students planning on graduate school, COMM 306, Research Methods, is recommended. It may substitute for any non-PRLS upper-division requirement except COMM 305 or COMM 364.

All Public Relations majors are also required to complete a minor in either another division within the Communication Arts Department, or another department within the College of Arts and Sciences or the School of Business. Minors in Advertising, Political Science, Modern Languages, and Journalism have been popular choices.

### Theatre Arts

**Director:** J. Hofland

**Mission Statement**

The Theatre Arts program at Gonzaga University is committed to training and developing artists who confront the important issues of our lives through their engagement with the art forms of live theatre. Gonzaga Theatre Arts provides disciplined training in both performance and technical theatre. Students study and critically reflect on a broad range of literature, theatrical forms, and techniques in order to promote an active engagement with the foundations of our culture and to promote the formation of a character that reflects the faith and justice mission of Gonzaga University.

The intended outcome of this study and reflection is to provide service to our audience and the broader community and to promote the search for social justice. Our purpose is to serve young artists hoping to apply disciplined training and thoughtful work to a search for justice and the greater good of those around them.

Applied Communication Studies
Lower Division
SPCO 101 (SPCO 102) Introduction to Speech Communication 2 credits
Basic principles of speech communication for public address, small group, and interpersonal communication settings. Emphasis on oral communication proficiency. Fall and Spring.
SPCO 102 (SPCO 101) Basic Principles Speech Communication 2 credits
This course is identical to SPCO 101 with the exception of begin designed for transfer students, or students who were unable to take SPCO 101 in their freshman year. Fall, Spring, and Summer.
SPCO 226 Oral Interpretation 3 credits
Analysis and oral reading of prose, poetry, and drama with interpretive and dramatic emphasis. Spring, odd years. Prerequisite: SPCO 101.

SPCO 270H Honors Rhetoric 3 credits
The principles and historical development of rhetoric from classical to contemporary speeches. Speeches by students will demonstrate their grasp of rhetoric. On sufficient demand. Prerequisite: HONS 109.

Upper Division
SPCO 321 Advanced Public Speaking 3 credits
A concentration on various forms of public address. Frequent speeches given before the class. Fall and Spring. Prerequisite: SPCO 101.
SPCO 331 Principles of Debate 3 credits
Examination of the fundamentals of advocacy including argumentation theory, techniques of persuasion, refutation, and cross-examination. This course is open to both debate team members and anyone interested in improving argumentation skills. Fall. Prerequisite: SPCO 101.

SPCO 341 Argumentation and Debate 3 credits
Advanced theory and practice of debate principles. Intended for debate team members only. Spring. Prerequisite: SPCO 331
SPCO 342 Debate Participation 1 credit
Participation on University debate teams. Prerequisite: SPCO 331.

SPCO 356 Persuasion 3 credits
Theory and practice of effective persuasive techniques. Fall, Spring, and Summer. Prerequisite: SPCO 101 or SPCO 102.

SPCO 400 Nonverbal Communication 3 credits
A comprehensive study of the role of nonverbal communication in interpersonal relationships. Current research, discussion and exercises are used to understand the definition and importance of nonverbal communication as a social semiotic. Spring, odd years.

SPCO 401 Communication and Leadership 3 credits
A study of the link between communication and leadership. Includes an examination of leadership styles, theories, and research. Emphasis is placed on ways leaders use power, manage diversity, influence followers and solve group problems. Fall or Spring. Prerequisite: SPCO 101 or SPCO 102.

SPCO 453 Interpersonal and Small Group Communication 3 credits
Study of interpersonal and small group communication behaviors, research and theory. Practice and application of theory. Spring Prerequisite: SPCO 101 or SPCO 102.
SPOC 457 Communication Criticism 3 credits
An introduction to the methods and theories of communication criticism. Classical and contemporary approaches are applied to speeches, books, films, television programs, and musical productions. Fall. Prerequisite: SPOC 101.

SPOC 481 Seminar 1-3 credits
Special topics with credit to be arranged. On sufficient demand

SPOC 482 Advanced Seminars 1-3 credits
Special arranged topics with credits to be arranged. On sufficient demand.

SPOC 491 Directed Study 1-3 credits
Special topics and reading; credit by arrangement with the instructor. Fall, Spring, and Summer.

SPOC 497 Internship 1-3 credits
Professional work experience in speech communication related fields. Fall, Spring, and Summer.

SPOC 498 Senior Communication Colloquium 1 credit
The colloquium is designed to assist students' ability to articulate the substance of their major as well as develop a philosophy of communication. In this sense, the colloquium will be a capstone on their education at Gonzaga University. The course will include weekly seminars, a written project and the development of a portfolio including a resume, writing samples and other completed work, and a philosophical statement of communication. All public relations and speech communication majors must register for this course for the fall and spring semesters of their senior year.

**Broadcast and Electronic media Studies**

**Lower Division**

BRCO 203 Fundamentals of Television Production 3 credits
A practicum dealing with the technical aspects of television production along with creative generation of live, original programs. Students learn the basics of how television signals are created and transported, and then demonstrate proficiency in all crew areas concerned with live productions. In addition, this course provides a much greater sense of media literacy as it applies to mainstream messages in the media today. BRCO 203 will give the students the basic technical competence required for BRCO 303. Fall and Spring. Prerequisite: COMM 101.

BRCO 203L Fundamentals of Television Production Lab 0 credit
See BRCO 203.

BRCO 204 (MUSC 204) Fundamentals of Audio Production 3 credits
A practicum dealing with the technical aspects of radio management, programming, and production. Emphasis will be placed on the mastering of all operational procedures. This course is a prerequisite for all participants in KAGU, Gonzaga's FM radio station. Fall and Spring.

BRCO 204L (MUSC 204L) Fundamentals of Audio Production Lab 0 credit
See BRCO 204.

**Upper Division**

BRCO 303 Intermediate Television Production 3 credits
An application of the technical and aesthetic aspects of electronic news gathering and production. The class provides experience as camera operators, video tape editors, writers, and performers. Students are required to achieve a basic level of competency with analog and digital cameras, and become proficient in non-linear editing techniques. Fall and Spring. Prerequisite: BRCO 203.

BRCO 303L Intermediate Television Production Lab 0 credit
See BRCO 303. Prerequisite: BRCO 203.

BRCO 307 Writing with Sights and Sounds 3 credits
A class designed to develop creative writing skills for the purpose of telling stories with the languages of aural and visual media. Traditional media of radio and television are the foundations, but new forms of Internet communications will be studied. Prerequisite: BRCO 303.

BRCO 370 Broadcast Journalism 3 credits
Planning, reporting, and practice in gathering and covering news for radio and television. As resources allow, depth reporting and documentaries. Prerequisite: BRCO 303.

BRCO 370L Broadcast Journalism Lab 0 credit
Prerequisite: BRCO 303.

BRCO 469 Advanced Television Production and Programming 3 credits
Organization, preparation, and production of student-generated programs for telecast on live television (GUTV, channel 15). Students generate a news magazine show, a talk show, and a comedy show, and are responsible for every aspect of each production. Fall and Spring. Prerequisites: COMM 101 and BRCO 303.

BRCO 469L Advanced TV Production and Programming Lab 0 credit
Prerequisite: BRCO 303.

BRCO 470 Broadcast Leadership 3 credits
Study the inner workings of various media leadership and management. Students will be exposed to day-to-day media leadership and management situations which deal with day-to-day decision making, staffing, departmental structures, human resources, accountability, research and strategic planning. Prerequisites: (COMM 101 and BRCO 203) or (BRCO 204 and BRCO 303).

BRCO 481 Television and Social Justice 3 credits
Examines the application of this powerful medium toward improving the human condition. Students study examples of this concept in today's media, then use their own analytical and production skills to improve the condition locally. Spring.

BRCO 482 Remote Video Production 3 credits
Provides advanced experience in scripting, producing, directing, and editing televised field events. Examples include basketball and baseball games, along with theatre productions. May be repeated for a total of not more than 9 credits. Spring. Prerequisite: BRCO 203.

BRCO 483 Advanced Non-Linear Editing 1-3 credits
Students are introduced to state-of-the-art digital editing and learn how the technology fits in to the industry today. Prerequisite: BRCO 303.

BRCO 484 Seminar in Live Television 3 credits
Allows students considering a career in live TV to specialize in roles of anchor, reporter, producer, or director. Prerequisite: BRCO 469.

BRCO 484L Seminar Lab 0 credit
See BRCO 484.

BRCO 485 Seminar in Broadcasting 3 credits
May be repeated for a total of not more than 6 credits. Prerequisites: fourth year standing, Broadcast Studies majors only, and permission from department. Fall and Spring.

BRCO 486 Applied Radio Production 3 credits
Students work with the latest audio production technologies to examine the current state of the radio industry and to participate in creation of actual radio programming on KAGU. Prerequisite: BRCO 204.
COMMUNICATION ARTS

COMM 302 Advanced Printing and Alternative Processes
This course builds on the printmaking skills developed in COMM 202, using toning and bleaching processes, multiple negatives, fiber base papers etc. to work towards the "fine print," and exhibition quality enlargement. It also works with alternative printing processes, teaching the art of using liquid silver emulsions on a variety of materials, using 19th century printing processes, such as Platinum/Palladium printing, gum bichromate and cyanotype. These require the use of large negatives either made in camera or enlarged from 35 mm negatives. This class is primarily lab work, requires a significant commitment of time, and is directed towards the fine arts approach to photography. Spring. Prerequisite: COMM 202.

COMM 305 Communication Theory and Research
This course examines various "ways of knowing" about communication. The course will consist of a review and criticism of the major approaches to communication research and the major theories that have been devised by scholars to explain and predict the processes and effects of human communication. Fall, Spring, and Summer. Prerequisites: COMM 101, (SPCO 101 or SPCO 102), and second year standing.

COMM 306 Communication Research Methods
Qualitative and quantitative research methodology, strategic planning, research design, population sampling, polling and survey strategies, data gathering, analysis, interpretation and reporting, scientific public relations program management. Spring. Prerequisite: COMM 305.

COMM 320 Communication Technology and Society
Does communication technology cause social change, or do societal factors cause change in communication technologies? Examination of relationships between mass media and community, and computers and the self. On sufficient demand.

COMM 364 Mass Media Law
A study of major facets of mass communications law and their effects upon print, broadcast media and online. Fall and Spring. Prerequisite: COMM 101.

COMM 375 Communication Training and Consulting
This course explores the unique application of communication theory and skills to help design effective consultant/trainer programs. By focusing on non-traditional instructional settings, the class will prepare students to develop a plan for assessing, designing, delivering and evaluating communication consultation and/or training for an organization. Fall and Spring.

COMM 390 Seminar-Media Criticism
A study of all forms of media and development of critical writing skills. Students will look at, and discuss, the way the media work and, more important, don't work. Emphasis is placed on discussion. On sufficient demand.

COMM 418 Intercultural and International Communication
Identification and analysis of processes and problems of communication as affected by national cultures. Effects of differences in attitudes, social organization, role expectations, language and non-verbal behavior - all of which are interrelated. Principles of communication theory as they apply to the intercultural context will be studied. Prerequisites: second year standing and permission from department. Spring.

COMM 471 (ENGL 394) Literature and Film
The relationship between literature and film, with discussion centering on means of production, finished product, and audience/media relationship and expectations. Students will be asked to write a shooting script and (since basic methods of film production will be explored) those who wish to do so will be encouraged to make a film. Basic equipment will be available. Summer Prerequisite: ENGL 101.

COMM 475 Organizational Communication
Study of research findings, theories, and models of communication in organizations; examination of the impact of organizational culture and structure on the communication process, including factors maximizing effective communication and overcoming communication barriers. Fall and Spring.
COMM 480 Themes In Communication Studies 3 credits
The specific theme of the course varies each semester, but bridges the several perspectives represented by the five programs within Communication Arts. Themes presented may include: Distortion (Propaganda, Deception, and Lies), Communication and Social Change (Campaigns, Crusades, and Agi-Props), Communication and Criticism, Ethical Issues in Communication, Media Effects, Intercultural Communication, Communication and Technology, Ways of Seeing, Semiotics and Communication, Philosophy of Language, Virtual Realities, Audience and Self. Prerequisite: third year standing. Course may be repeated. On sufficient demand. Prerequisites: SPCO 101 and COMM 101.

COMM 481 Ancient Rhetoric 3 credits
This course encapsulates the history of Rhetoric and its symbiotic relationship to the development of philosophy. Beginning with the first attempts to systematize and teach persuasive argument in Syracuse (5th century BC), the course will examine how Rhetoric was further defined and developed by Plato and Aristotle. Prerequisite: SPCO 101.

COMM 482 Rhetoric Criticism 3 credits
This course is designed to develop the student's analytical powers and promote an appreciation and understanding of the process of human communication, which encompasses various reciprocal or interconnected aspects. Among the more prominent of these are cultural identity (i.e., shared symbols), the creation of meaning and its social and historical context. Prerequisite: SPCO 101.

COMM 490 Directed Study in Communication 0-10 credits
Directed study requires completion of a form, and department permission and cannot be registered for via Zagweb.

COMM 491 Directed Study 1-3 credits
Directed Study requires completion of a form, department permission and cannot be registered for via Zagweb. Prerequisites: SPCO 101 and COMM 101.

COMM 492 Directed Study 1-3 credits
Directed Study requires completion of a form, department permission and cannot be registered for via Zagweb. Prerequisites: SPCO 101 and COMM 101.

COMM 499 Senior Seminar 0 credit
The senior seminar is designed to assist students' ability to articulate the substance of their major as well as develop a philosophy of communication. In this sense, the seminar will be a capstone on their education here at Gonzaga University. Comprehensive exams are arranged by program Directors. The seminar will include majors throughout the Communication Arts Department and may include guest speakers, a written project or performance, the development of a portfolio including a resume, writing samples and other completed work, and a philosophical statement of communication. This course must be taken concurrently with BRCO 499, JOUR 499, PRLS 498, SPCO 498 or THEA 499. Spring.

JOURNALISM

Lower Division

JOUR 110 Introduction to Journalistic Writing 3 credits
An overview of writing for the mass media. Introduces students to newspaper, broadcast journalism, and public relations writing. Fall, Spring and Summer.

JOUR 110L Journalistic Writing Lab 0 credit
see JOUR 110.

COMM 210 News Reporting and Writing 3 credits
Reporting techniques and experiences in identifying news and information sources, contacting sources, interviewing, and obtaining information. A variety of writing styles will be emphasized. Some emphasis on journalism ethics and law. Fall and Spring. Prerequisite: JOUR 110.

JOUR 220 Practical Newspaper Reporting 1 credit
Under the direction of the newspaper adviser and editors, students seek news, write opinion and take photographs for the campus newspaper, The Bulletin, or possibly for other publications. Fall and Spring. Prerequisite: JOUR 110.

JOUR 230 Newspaper Editing and Production 1 credit
Under the direction of the newspaper adviser and editors, students help produce the campus newspaper, The Bulletin. Fall and Spring. Prerequisite: JOUR 110.

JOUR 270 Principles of Photojournalism 3 credits
Fundamental concepts and methods of photojournalism with an emphasis on the use of the camera as a reporter. Two-hour lecture per week. Lab Fee. Fall and Spring. Prerequisite: JOUR 110.

JOUR 280 News Editing and Layout 3 credits
Designing the newspaper page for print and online platforms, writing headlines, and editing copy. Attention also to news values and principles. Fall, Spring and Summer.

Upper Division

JOUR 310 Public Affairs Reporting 3 credits
Reporting municipal, county, state, and federal affairs. Open meeting, shield and disclosure laws, law enforcement and the judicial process. Fall and Spring. Prerequisite: JOUR 210.

JOUR 341 News Seminar 3 credits
Examines the organizational, cultural, technological, and ideological nature of news. Attention is given to theories of the press, the construction of news, news as a form of knowledge, and the broader social implications of news organizations and practices. Fall and Spring. Prerequisite: JOUR 210.

JOUR 353 History of Journalism 3 credits
The historical development of the press and journalistic practices in America. The focus is the development of journalistic values such as objectivity, accuracy, balance and legal and ethical issues such as free speech and access. Spring.

JOUR 410 Specialized Reporting 3 credits
Topics vary, and may include community journalism, and reporting on courts, religion, science and medicine, sports, business, education, environment, entertainment, and the arts. On sufficient demand. Prerequisite: JOUR 210.

JOUR 420 Literary Journalism 3 credits
The course focuses on writing longer forms of journalism. Content includes a look at the traditions of literary journalism in America, memoir-style nonfiction and using fiction techniques in nonfiction stories. Writing topics are individualized. Fall. Prerequisite: JOUR 210.

JOUR 482 Seminar: Media Criticism 3 credits
A study of all forms of media and development of critical writing skills. Students will look at, and discuss, the way the media work and, more importantly, don't work. Emphasis is placed on discussion. On sufficient demand.
JOUR 485 Seminar: Journalism Ethics 3 credits
   Journalistic ethical issues ranging from fairness, balance and conflicts of interest to sensationalism will be discussed in depth. Course content includes an overview of ethical models. Fall. Prerequisite: COMM 101.

JOUR 490-491 Directed Study-Special Project 1-3 credits
   Tutorial study and special projects. Limit 6 credits. Fall and Spring.

JOUR 494 Independent Study 1-3 credits
   Tutorial study and special projects. Limit 6 credits. Fall and Spring.

JOUR 497 Internships 1-6 credits
   Professional work experience in journalism. Possibilities include metropolitan dailies, suburban dailies, weeklies, and magazines. Fall, Spring and Summer.

JOUR 499 Comprehensive Exam 1 credit
   This course must be taken in conjunction with Senior Seminar COMM 499. Spring.

Public Relations

Lower Division

PRLS 267 Principles of Public Relations 3 credits
   History of public relations, communications theories applicable to strategic communication, law and ethics for public relations practitioners, crisis management, dynamics of public opinion, establishment of media relations, survey of practice and techniques. Fall and Spring. Prerequisite: COMM 101.

PRLS 305 Writing for Public Relations 3 credits
   Writing media releases, scripts for broadcast, copy for ads, brochures and newsletters, and feature stories with an emphasis on understanding the target audience. Editing, desktop and on-line publishing techniques with which to integrate graphics and visual elements within the text. Fall, Spring, and Summer. Prerequisites: ENGL 101, COMM 101, PRLS 267 and JOUR 110.

PRLS 367 Public Relation Planning and Case Review 3 credits
   Strategic planning principles for campaigns and program implementation, crisis planning and communications; issue management, integrated marketing, communications and case study reviews. Fall and Spring. Prerequisites: COMM 101, JOUR 110, PRLS 267 and PRLS 305.

PRLS 467 Public Relations Campaign 3 credits
   Emphasis on group work on behalf of a local client based on current theories of organizational communication. Students will engage in research elements such as focus groups and surveys, public relations tactics and strategies, and completion of a campaign plan. Students formally present comprehensive findings and proposals to the client. Fall, Spring, and Summer. Prerequisite: PRLS 367 and PRLS 305.

PRLS 497 Internship in Public Relations 2-3 credits
   Professional work experience in public relations. Requires employer contract with individual learning objectives, response papers, supervisor evaluation, and portfolio development. Fall, Spring, and Summer.

PRLS 498 Senior Communication Colloquium 2 credits
   Completion of a final public relations thesis or final project. Included is the analysis and investigation of trends, principles, policies and ethics of current public relations practices, with an emphasis on the issues facing the profession. Students can choose between a final research thesis or final public relations project. Fall and Spring.

PRLS 499 Professional Development Seminar 1 credit
   Provides students with opportunities and skills needed to create and implement exit strategies for graduate work or job placement. Key elements include portfolio design, interview strategies and position search. Fall and Spring. Prerequisite: PRLS 367.

Theater

Lower Division

THEA 100 Introduction to Theatre Arts 3 credits
   An introductory survey of the history, aesthetics, and literature of the theatre, and the various areas of theatrical production. Fall and Spring.

THEA 111 Acting I 4 credits
   An introduction to the techniques of dramatic expression, utilizing the body, voice, and imagination. Structured play exercises help the beginner to overcome physical/vocal inhibitions, and develop a sense of trust and teamwork within the group. Scene work is approached using beats, intentions, scores of physical actions, obstacles, and subtext. The class concludes with a recital to provide practical experience in rehearsal and performance. Fall and Spring.

THEA 120 Movement for the Performer 3 credits
   In this course, students will be introduced to the theories and practices of Laban, Alexander, and Bartenieff. Students will also learn and practice yoga, stage combat and neutral mask work. Each session will include some lecture but mainly practical application through movement exercises, stretching, strengthening and freeing. Fall.

THEA 124 Ballet I 1 credit
   Beginning or continuing instruction in classical ballet. Includes barre and center exercises designed to develop coordination, balance and strength for dance and fitness. May be repeated. Fall.

THEA 125 Jazz Dance I 1 credit
   This beginning or continuing course in jazz dance will focus not only on technique, vocabulary, stretching and strengthening, but also on stringing movements together through choreography. May be repeated. Fall.

THEA 130 Topics in Dance 1-2 credits
   Advanced courses, visiting artists, cultural dance. Periodic offering.

THEA 132 Stagecraft 4 credits
   The theory and practice of the construction and painting of scenery and props, the fundamentals of stage lighting, and the organization of technical work in the theatre. Includes a lab component. Fall.

THEA 134 Costume Construction 3 credits
   An introduction to sewing and to the history and theory of costume construction. Fall and Spring.

THEA 214 Advanced Acting I: Classic-Neo-classic 4 credits
   An examination of history, style, and text of Greek, Elizabethan, and Neo-Classical works. The demands of differing movement forms, and working with verse are explored and practiced. Historical consideration is emphasized as students learn to perform within a particular social and historical context. Spring, even years. Prerequisite: THEA 111.
THEA 216 Advanced Acting II: Romantics to Contemporary 4 credits
A continuation of Advanced Acting I, in which students study history, text, and style. In this course, the approach is applied to an examination of nineteenth and twentieth-century European and American plays. The historical roots, as well as the challenges and demands for the actor, of romantic, realist, absurdist, Brechtian, and postmodern texts, are considered. Spring, odd years. Prerequisite: THEA 111.

THEA 224 Modern Dance 1 credit
Analysis and theory of modern dance with an emphasis on basic technique and movement exploration. Includes a study of the evolution of modern dance and its past and present pioneers. May be repeated. Fall, odd years.

THEA 225 Sacred Dance 1 credit
Introduction to dance as a means of expressing and celebrating the spirit in a worship setting. Includes a study of the liturgical dance movement and how it is currently used in religious venues. May be repeated. Fall, even years.

THEA 235 Theatre Graphics 3 credits
An introduction to the following kinds of graphics for the theatre: drawing, computer aided drafting, painting, rendering, and model building. Spring, even years.

THEA 239 Lighting Design 2 credits
An introduction to the technical procedures, equipment, organization, drafting, and design principles of theatrical lighting. Students will design and execute lighting for mainstage productions. Spring, odd years.

THEA 240 Creative Dramatics 3 credits
An introduction to improvisational, non-exhibitionist, process-centered drama intended for use by teachers and leaders of children's and youth groups. The course provides a method for teaching oral and written language skills, socialization skills, problem solving skills, and introducing the art of theatre. Spring, odd years.

THEA 253 Directing I 3 credits
The fundamental techniques of play analysis, actor communication, and composition are introduced and applied to model plays. Organizational and leadership skills are developed as students audition, cast, and rehearse chosen scenes from the realistic repertoire for performance. Fall. Prerequisite: THEA 111.

THEA 260 Technical Theatre Lab 1 credit
Introductory level participation in one or more phases of the technical production process (set construction, costume construction, lighting, sound, etc).

THEA 261 Performance Theatre Lab 1 credit
Performance of a role in a main stage theater production.

Upper Division

THEA 316 Acting for the Camera 4 credits
With experience of basic acting techniques in hand, the student actor works in front of the camera to meet the challenges of electronic media. Simplicity of presentation, performance of the authentic person, and active listening are key skills. Work is in a variety of forms, from feature films to public service announcements. The class concludes with a public showing of student work. Spring, even years. Prerequisite: THEA 111.

THEA 320 Ballet II 2 credits
This intermediate course in ballet focuses on technique, vocabulary, stretching, strengthening and choreography. Dancers will participate in the annual spring dance concert. May be repeated. Spring. Prerequisite: THEA 124.

THEA 321 Jazz Dance II 2 credits
This intermediate course in jazz dance focuses on technique, vocabulary, stretching, strengthening and choreography. Dancers will participate in the annual spring dance concert. May be repeated. Spring. Prerequisite: THEA 125.

THEA 322 Musical Theatre Dance 2 credits
Examination of the unique history of musical theatre dance. Practice in the techniques and choreographic styles required for performances in musicals. Dancers will participate in the annual spring dance concert. May be repeated. Spring, odd years.

THEA 323 Tap Dance 2 credits
Basic instruction in tap dance techniques. Dancers will participate in the annual spring dance concert. May be repeated. Spring, even years.

THEA 325 Sacred Dance 1 credit
Introduction to dance as a means of expressing and celebrating the spirit in a worship setting. Includes a study of the liturgical dance movement and how it is currently used in religious venues. May be repeated. Fall, even years.

THEA 332 Scenic Design 2 credits
This intermediate course in ballet focuses on technique, vocabulary, stretching, strengthening and choreography. Dancers will participate in the annual spring dance concert. May be repeated. Spring. Prerequisite: THEA 124.

THEA 333 Dance History and Choreography 3 credits
This course is a study of dance history and fundamental concepts in dance composition. Dynamics, rhythm, design, motivation, gesture, and improvisation are explored as basic elements for building dance. Spring, even years.

THEA 334 Dance History and Choreography 3 credits
This course is a study of dance history and fundamental concepts in dance composition. Dynamics, rhythm, design, motivation, gesture, and improvisation are explored as basic elements for building dance. Spring, even years.

THEA 354 Directing II 4 credits
With a foundation in play analysis, actor communication, and design. Student directors will create a vision for a short play, audition, cast, and work with a design team on realizing the play in a public performance. Spring, odd years. Prerequisites: THEA 253, and two of the following: THEA 134, THEA 239, THEA 332.

THEA 480-482 Theatre Seminar 1-4 credits
Intensive study of a particular aspect of theatre. Prerequisite: Permission from department. On sufficient demand.

THEA 490-494 Directed Study 1-2 credits
Students will take leadership in one of the following areas of applied theatrical production: stage management, lighting design, scenic design, sound design, costume design or directing. Prerequisite: Permission from department.

THEA 495 Dance History and Choreography 3 credits
This course is a study of dance history and fundamental concepts in dance composition. Dynamics, rhythm, design, motivation, gesture, and improvisation are explored as basic elements for building dance. Spring, even years.

THEA 496A Strategies for Dance Instruction I 3 credits
In the first part of this year-long course, students will learn a variety of teaching styles and strategies, curriculum planning and evaluation methods, and then will have the opportunity to develop their own teaching style through a service learning teaching component. Emphasis is placed on learning to build a positive classroom environment while meeting the needs of various levels of dance students. Fall. Prerequisite: Sophomore status.
Criminal Justice

Director: E. Vacha

The Criminal Justice program is administered by the Department of Sociology. Its faculty is drawn from the departments of Political Science, Psychology, Sociology, and professionals in the field of criminal justice. A Bachelor of Arts degree in Criminal Justice is offered.

This program provides excellent preparation for students who are planning careers in the field of criminal justice as well as an opportunity to advance the education of individuals who are already members of the law enforcement profession.

The curriculum is structured to blend the best of the liberal arts with courses designed for professional training of present and future members of the law enforcement community. Special emphasis is placed upon the development of the habits of critical thinking and of effective communication skills as well as the acquisition of basic knowledge of the social sciences as they pertain to the area of criminal justice.

Majors should take Introduction to Criminal Justice (CRIM 101) in their first year; and Criminal Theory and Measurement (CRIM 499) in their fourth year.

B.A. Major in Criminal Justice: 34 credits

Lower Division

CRIM 101 Introduction to Criminal Justice 3 credits
SOCI 202 (MATH 121) Statistics for Social Science 3 credits

Upper Division

SOCI 304 Research Methods 4 credits
One of the following three courses: 3 credits
CRIM 340 Policing in the United States
CRIM 352 Corrections
CRIM 390 American Court System
One of the following three courses: 3 credits
SOCI 350 Deviant Behavior
SOCI 351 Criminology
SOCI 353 Juvenile Delinquency
One of the following seven courses: 3 credits
POLS 303 Civil Liberties
POLS 304 Criminal Justice Amendments and Courts
POLS 311 State and Local Government
POLS 312 Urban Politics and City Life
POLS 320 Public Administration
POLS 321 Politics and Public Administration
POLS 323 Constitutional Law

* Acceptable elective choices are:
Any CRIM,
SOCI 350, 351, 353, 385,
POLS 303, 304, 311,312, 320,321, 323,
PSYC 380, 426, 465, 488 and
PHIL 470.

Minor in Criminal Justice: 18 Credits

Lower Division

CRIM 101 Introduction to Criminal Justice 3 credits

Upper Division

One of the following three courses: 3 credits
CRIM 340 Policing in the United States
CRIM 352 Corrections
CRIM 390 American Court System
One of the following three courses: 3 credits
SOCI 350 Deviant Behavior
SOCI 351 Criminology
SOCI 353 Juvenile Delinquency
One of the following seven courses: 3 credits
POLS 303 Civil Liberties
POLS 304 Criminal Justice Amendments and Courts
POLS 311 State and Local Government
POLS 312 Urban Politics and City Life
POLS 320 Public Administration
POLS 321 Politics and Public Administration
POLS 323 Constitutional Law

* Acceptable elective choices are:
Any CRIM,
SOCI 350, 351, 353, 385,
POLS 303, 304, 311,312, 320,321, 323,
PSYC 380, 426, 465, 488 and
PHIL 470.

Lower Division

CRIM 101 Introduction to Criminal Justice 3 credits
A critical analysis of the way the American criminal justice system operates, focusing on the nature of law, the police, and the courts.

CRIM 240 Issues in Law Enforcement 3 credits
Examines current issues in law enforcement such as corruption, brutality, use of deadly force, politics and policy administration, resource management, stress, community relations, and major court decisions.
Upper Division

CRIM 340 Policing in the United States 3 credits
This course examines law enforcement in American society with a focus on empirical research and sociological and criminological theory. Students will review the historical development of policing in the United States, the role of the police in contemporary society, the structure and responsibilities of law enforcement agencies in this country, and the interaction between institutional and individual aspects of police work. Students will also be expected to research and theory on controversial issues in law enforcement, including the use of force, police deviance, the use of discretion, the impact of social inequality on enforcement, and policing in the mass media.

CRIM 352 Corrections 3 credits
An examination of the American correctional system, from its origins to the present day. Focuses on philosophical and policy issues and debates that confront our society in attempting to deal with criminal offenders. Field trips to correctional facilities.

CRIM 354 Extremism in America 3 credits
What is extremism and terrorism? Are there differences in extremist and terrorist ideologies? What makes a person turn to terrorism? Is Right Wing terrorism similar to Left Wing or single issue terrorism/extremism? Should we be more afraid of international or domestic terrorism? What is the government and law enforcement doing to protect the American people? What does the future hold for terrorism in America? By the end of the course students will have working knowledge of the following: an understanding of extremism and terrorism in the United States, different American extremist ideologies and groups, law enforcement restrictions in investigating terrorism and past and future trends in American terrorism.

CRIM 355 (SOCI 355) Elite and White Collar Crime 3 credits
This course examines organizational crimes and the crimes of the rich and powerful. The nature and extent of various types of white collar crime are described, discussed and analyzed and methods of controlling this form of crime are presented. This course also provides a survey of various sociological explanations for white collar crime.

CRIM 357 Inequality and Crime 3 credits
This course reviews the relationship between criminal justice and race, class and gender in history and in contemporary America. The class examines whether members of one race, class or gender commit more crimes than members of other groups, and if so, why? It also explores how and why members of one race, class or gender are treated differently by the criminal justice system than members of other groups. The differential treatment in police work, in courts and in corrections are looked at, and the class assesses how and why these differences may occur more or less in one or another of these branches of the criminal justice system.

CRIM 361 Crime and Gender 3 credits
An exploration of the ways in which gender influences who is and is not considered criminal, why women are often socialized to be the victims of crime and men the perpetrators of such actions, and how such behaviors are used to maintain and support pre-existing inequalities. As such, special attention will also be paid to how issues of social class, ethnicity, and sexual orientation often temper these societal outcomes.

CRIM 360 Criminal/Civil Trial Procedure 0 or 3 credits
Full court case preparation in a year-long mock trial team environment, including knowledge of the law, opening and closing statements, direct, redirect, cross-examinations, courtroom procedure and demeanor. Formal American Mock Trial competition takes place during spring semester, at the end of which credit will be granted for successful completion of the course. Intended only for those with a serious interest in law. Cannot be repeated for credit. Prerequisites: Second year standing and permission of the instructor.

CRIM 386 Criminal Law 3 credits
Substantive criminal law; principles, functions, and limits; basic crime categories with extensive case analysis; state and national legal research materials.

CRIM 390 American Court System 3 credits
A hands-on class conducted by a Superior Court Judge. Students observe actual trials and are instructed about the proceedings by the judge.

CRIM 395-399 Topics in Criminal Justice 3 credits
Specific topics to be chosen by faculty. Prerequisite: Second year standing.

CRIM 465 Comparative Criminal Justice 3 credits
A comparison of criminal justice systems from around the world using the Internet and a seminar format.

CRIM 490 Directed Reading in Criminal Justice 1-4 credits
Supervised readings in the criminal justice area.

CRIM 494 Senior Thesis 3 credits
Students with a 3.70 GPA in the Criminal Justice major and a 3.30 overall GPA who wish to graduate with departmental honors in criminal justice must enroll in this course two semesters prior to their graduation and complete an honors thesis. The thesis may be a significant expansion of the student's work in SOCI 304 or CRIM 499. A committee of three faculty members will direct the thesis. Two members of the committee must be from the Criminal Justice/Sociology Department, and one may be from another department. The chair of the committee will be the instructor of record. The committee's decision about whether to award Departmental Honors is independent of the course grade. Prerequisites: Appropriate GPA, and consent of committee.

CRIM 495 SPD Cooperative Education 1 credit
The course involves a 40 hour training academy and a commitment of at least 20 hours a month to the Spokane Police Department. Students will provide low priority responses to citizen needs such as property recovery and accident reporting.

CRIM 496 Practicum in Criminal Justice 1-3 credits
Supervised experience for Criminal Justice majors in selected criminal justice agencies such as The Spokane County Prosecutor's Office, The Spokane County Public Defender's Office, or the Spokane County Juvenile Court. Prerequisites: Third or fourth year standing and permission.

CRIM 497 Criminal Justice Summer Internship 1-10 credits
This is a limited program for third and fourth year students who will spend a minimum of 40 hours per week for ten weeks in the summer with a participating criminal justice agency in varied work and observer experience with both line and staff assignments.

CRIM 499 Criminal Theory and Measurement 3 credits
An advanced class in criminological theory and methods. In a seminar format students will review and discuss current criminological research and theories. Required of all Criminal Justice majors and fulfills the comprehensive examination requirement. Spring. Prerequisites: SOCI 304 and (SOCI 350, SOCI 351 or SOCI 353).
Economics

Director: John H. Beck
Professors: C. Barnes, J. Beck, R. Bennett
Assistant Professors: D. Friesner, K. Henrickson, M. McPherson

The mission of the economics program is to give students a broad background and knowledge of domestic and international economic systems that are essential for people in today’s competitive global economy. Graduates can apply economic theory to problems relating to market structures, resource markets, employment, and fiscal and monetary policies. Economics courses may be taken to satisfy the social science core requirement of the College of Arts and Sciences. Most 300-level courses require only ECON 201 as a prerequisite.

Two economics majors are offered. The B.S. major in Economics includes extensive coursework in mathematics as well as economics for students considering graduate study in economics. The B.A. major in Economics is offered for students who want an extensive background in economics in preparation for careers in business or government as well as for those pursuing advanced study in law or business. A minor in Economics is also offered for students with other majors who need less extensive knowledge of economics.

Economics courses are taught by faculty of the School of Business Administration, but students pursuing the B.A. and B.S. majors are enrolled in the College of Arts and Sciences and must fulfill its degree requirements. Students must earn at least 104 credits from departments in the College of Arts and Sciences (including Economics).

All majors must register for a comprehensive examination (ECON 499) in their fourth year. Students expecting to go into a business field are encouraged to take courses in their fourth year. Students expecting to go into a business field are encouraged to take courses in preparation for careers in business or government as well as for those pursuing advanced study in law or business. A minor in Economics is also offered for students with other majors who need less extensive knowledge of economics.

Economics courses are taught by faculty of the School of Business Administration, but students pursuing the B.A. and B.S. majors are enrolled in the College of Arts and Sciences and must fulfill its degree requirements. Students must earn at least 104 credits from departments in the College of Arts and Sciences (including Economics).

All majors must register for a comprehensive examination (ECON 499) in their fourth year. Students expecting to go into a business field are encouraged to take courses in accounting and may want to consider the General Business Minor or the Minor in Analytical Finance offered by the School of Business Administration.

B.S. Major in Economics: 45 Credits

Lower Division
- ECON 201 Microeconomics: 3 credits
- ECON 202 Macroeconomics: 3 credits
- MATH 157, 258 and 259 Calculus: 12 credits

Upper Division
- MATH 321 Statistics: 3 credits
- MATH 339 Linear Algebra: 3 credits
- ECON 300 Business Forecasting: 3 credits
- ECON 302 Intermediate Macroeconomics: 3 credits
- ECON 403 Managerial Economics: 3 credits
- Two of the following courses: 6 credits
  - ECON 304 Economics of Environmental Protection
  - ECON 305 Public Finance
  - ECON 310 Antitrust Policy and Regulation
  - ECON 312 Work, Wages and Inequality
  - ECON 411 International Economics
- ECON 401 or 402: 3 credits
- One elective chosen from: 3 credits
  - MATH 328, 421, 422 or any upper division ECON
- ECON 499 Senior Comprehensive Exam: 0 credit

B.A. Major in Economics: 33 Credits

Lower Division
- ECON 201 Microeconomics: 3 credits
- ECON 202 Macroeconomics: 3 credits
- MATH 114 or 148 or 157: 3-4 credits
- BUSN 230, MATH 321, or MATH 121: 3 credits

Upper Division
- ECON 302 Intermediate Macroeconomics: 3 credits
- ECON 403 Managerial Economics: 3 credits
- Two of the following courses: 6 credits
  - ECON 304 Economics of Environmental Protection
  - ECON 305 Public Finance
  - ECON 310 Antitrust Policy and Regulation
  - ECON 312 Work, Wages and Inequality
  - ECON 411 International Economics
- One of the following two courses: 3 credits
  - ECON 401 Adam Smith and Karl Marx
  - ECON 402 Currents in 20th Century Economics
- Any two upper division ECON electives: 6 credits
- ECON 499 Senior Comprehensive Exam: 0 credit

Minor in Economics: 18 Credits

Lower Division
- ECON 201 Microeconomics: 3 credits
- ECON 202 Macroeconomics: 3 credits

Upper Division
- ECON 302 Intermediate Macroeconomics: 3 credits
- Two of the following courses: 6 credits
  - ECON 304 Economics of Environmental Protection
  - ECON 305 Public Finance
  - ECON 310 Antitrust Policy and Regulation
  - ECON 312 Work, Wages and Inequality
  - ECON 403 Managerial Economics
  - ECON 411 International Economics
- Any upper division ECON elective: 3 credits

Lower Division
- ECON 200 Economic Analysis: 3 credits
  - A one-semester economics course for General Business minors and others interested in a one-semester survey course. Key micro and macroeconomic models that are critical to the development of modern economics are explored. Analysis includes theories of supply and demand, theory of the firm, pricing, employment, monetary and fiscal policy, and international trade and finance. Fall.
- ECON 201 Microeconomics: 3 credits
  - Economics of the firm and the consumer. Principles underlying supply and demand; analysis of competition, monopoly, and other market structures; labor and other resource markets. Fall and Spring.
- ECON 202 Macroeconomics: 3 credits
  - The structure and functioning of the national economy. Particular attention is given to determinants of national income, employment and the price level, fiscal and monetary policies, international trade, exchange rates, and trade restrictions. Fall and Spring.
- ECON 270H Honors Economics: 3 credits
  - The fundamental concepts and approaches used in economics for analyzing problems involving the use of scarce resources to satisfy wants. The roles and limitations of both markets and government-directed forms of resource allocation are studied. Modern economic theories are discussed in the context of the historical development of the study of economics. May be substituted for ECON 201 Microeconomics. Fall. Prerequisite: HONS 190 or ENTR 101.
ECON 290 Directed Study 1-3 credits
Lower division topic to be determined in consultation with the faculty. Directed study requires completion of a form and permission from department. Zagweb registration is not available. Summer.

Upper Division
ECON 300 Business Forecasting 3 credits
Mathematical and statistical techniques applied to economic and business research and forecasting. Students will undertake a research project. Spring. Prerequisites: ECON 202 and BUSN 230 or MATH 121 and MATH 157.

ECON 302 Intermediate Macroeconomics 3 credits
Analysis of the determinants of the levels of national output and prices and the effects of monetary and fiscal policies. Spring. Prerequisite: ECON 202.

ECON 303H Honors Seminar in Game Theory 3 credits
Game theory is the study of strategic decision-making. Students learn to make decisions that are not only in their best interests but also anticipate and incorporate the fact that their decisions (and subsequent actions) have an impact on others and vice versa. On sufficient demand. Prerequisite: HONS 190.

ECON 304 Economics of Environmental Protection 3 credits
Explores the economic dimensions of environmental topics such as air and water pollution, deforestation, non-renewable resource depletion, recycling, global warming. The course studies the extent of environmental problems and alternative solutions. Spring. Prerequisite: ECON 201.

ECON 305 Public Finance 3 credits
Develops economic tools used to analyze government expenditures and taxation. Discussion of public policy issues such as welfare reform, health care, Social Security, tax reform, and fiscal problems of state and local governments. Fall. Prerequisite: ECON 201.

ECON 306 Comparative Economic Systems 3 credits
Economic analysis of various systems of economic organization, including Capitalism, Socialism, and Communism. Historical development of the theoretical basis and description of the institutional organization of each system. Florence campus only. Prerequisite: ECON 201 or ECON 202.

ECON 310 Antitrust Policy and Regulation 3 credits
Examines the rationale for and effects of various government policies toward business. Analyzes the economic consequences of market power. Emphasis is placed on antitrust policy as a response to market power. Fall. Prerequisite: ECON 201.

ECON 311 (INST 343) Global Economic Issues 3 credits
This course is a presentation of a broad range of global economic issues and policies relevant to a number of disciplines including business, political science, and international studies. Topics include: why nations trade; international trade and economic growth; protectionism; discriminatory trade policies; the foreign exchange market; factor mobility; and comparative economic systems. Fall and Spring. Prerequisite: ECON 201.

ECON 312 Work, Wages, and Inequality 3 credits
An economic perspective on labor market issues. Explores recent controversial topics such as inequality in earnings, race and sex discrimination in labor markets, immigration, minimum wage laws and labor unions, health and safety regulations in the work place. Fall. Prerequisite: ECON 201.

ECON 401 Adam Smith and Karl Marx 3 credits
A course focused on reading and discussing the works of two opposite but highly influential economic thinkers, Smith and Marx. Supplemented with material on other important economic thinkers from 1500 to 1870. Spring, even-numbered years. Prerequisite: ECON 202.

ECON 402 Currents in 20th Century Economics 3 credits
Emphasis on the works of Thorstein Veblen and neoclassical, Austrian, Keynesian, post-Keynesian and Chicago School economists. Spring, odd-numbered years Prerequisite: ECON 202.

ECON 403 Managerial Economics 3 credits
The primary goal of this course is to apply the economic way of thinking to the business decision-making process. The course emphasis is on preparing students to become architects of business strategy. Topics include: demand analysis; production and cost analysis; profit maximization in various market structures; and advanced topics in managerial decision making. Fall. Prerequisites: ECON 201 and MATH 114 or MATH 157.

ECON 404 Economic Integration of the European Community 3 credits
A survey of the origins and development of the European Community; its relation to GATT (General Agreement on Trade and Tariffs); monetary coordination; monopoly, competition, and the balances of payments. Florence campus only.

ECON 409 Special Topic Seminar 1-3 credits
Topics and credit by arrangement. Prerequisite: ECON 201.

ECON 410 Directed Study 1-3 credits
Individually-designed course at the upper division level appropriate to the student's major. Directed Study requires completion of a form, and permission from department. Zagweb registration is not available. Summer.

ECON 411 International Economics 3 credits
The focus of this course is on international trade theory and macroeconomic issues related to international finance. Topics include: economic analysis of the basis for international specialization and trade; gains from trade; the balance of international payments; tariffs; international monetary problems; exchange rate adjustments; capital movements; and international economic organizations. Spring, even-numbered years. Prerequisite: ECON 201 or ECON 101.

ECON 488 Internship 0-3 credits
Work experience directly related to the student's major area of study. Internship requires completion of an application form, a 3.00 GPA and permission from department. Zagweb registration is not available. Fall and Summer.

ECON 499 Senior Comprehensive Examination 0 credit
Required of all Arts and Sciences Economics majors in their fourth year. Fall and Spring. Prerequisite: Fourth year standing.
English

Chairperson: Daniel Butterworth
Professors: M. Herzog
Associate Professors: D. Butterworth, E. Cooley, P. Fowler, T. Marshall, P. Taufen (emeritus), P. Terry, A. Wadden (emeritus)
Assistant Professors: B. Cooney, T. Derrickson, H. Easterling, J. Miller, M. Pringle, I. Ranum, J. Thayer, L. Tredennick

The English department provides courses to meet student needs in several areas: to fulfill the requirements of the core curricula of the University and of the College of Arts and Sciences; to provide majors in other disciplines with an opportunity for further humanistic enrichment through literature and writing; to offer majors and minors in English a variety of courses which reflect the literary heritage of Western civilization; and to provide a Bachelor of Arts degree in English.

All undergraduate degree programs in the University require six semester hours in English: ENGL 101 or ENGL 200 and ENGL 102, 105, or 106 (ENGL 103H and ENGL 104H for Honors Program students). Students in the College of Arts and Sciences must take an additional three-credit literature course from ENGL 201-285 (206H for Honors Program students).

The department directs the operation of a Writing Center open to all undergraduate students at no charge; help is available there in the preparation of papers and reports.

English majors may not use lower division courses to fulfill any part of the twenty-seven upper division credits required.

Before graduation all English majors must register for and pass ENGL 499, the comprehensive examination, which is based on a departmental reading list.

ENGL 370 or 480 will fill one (3 credit) elective requirement for English majors earning a secondary teaching credential. These students must also take ENGL 395.

B.A. Major in English: 36 Credits

Lower Division
ENGL 101 (ENGL 103H) or ENGL 200
English Composition 3 credits
One of the following: 3 credits
ENGL 102 (ENGL 104H) Introduction to Literature
ENGL 105 Themes in Literature
ENGL 106 Special Topics in Multicultural or World Literature
ENGL 201 (206H) Studies in Poetry 3 credits

Upper Division
British Literature: Pre-1500 3 credits
ENGL 320 Middle English Literature
ENGL 325 Medieval Romance
ENGL 420 The Age of Beowulf
ENGL 423 Chaucer
ENGL 466 Topics in Literature*
Shakespeare: 3 credits
ENGL 330 Shakespeare
ENGL 335 Classical & Renaissance Themes in Shakespeare (Florence)
British Literature: 1500-1800 (excluding Shakespeare) 3 credits
ENGL 331 Renaissance Literature
ENGL 348 Restoration & 18th Century Literature
ENGL 433 Milton & His Contemporaries
ENGL 434 Tudor & Stuart Drama
ENGL 436 18th Century British Novel
ENGL 438 Restoration and 18th Century Drama
ENGL 466 Topics in Literature*

Minor in English: 21 Credits

Lower Division
ENGL 101 (ENGL 103H) or ENGL 200
English Composition 3 credits
One of the following: 3 credits
ENGL 102 (ENGL 104H) Introduction to Literature
ENGL 105 Themes in Literature
ENGL 106 Special Topics in Multicultural or World Literature
ENGL 201 (206H) Studies in Poetry 3 credits

Upper Division
ENGL 300-489 Electives 12 credits

Lower Division
ENGL 090 Remedial Independent Study 1-3 credits
ENGL 099 Basic Writing 3 credits
A basic writing course whose purpose is to prepare students for ENGL 101. This course does not fulfill any core or major requirements.

ENGL 101 English Composition 3 credits
An expository writing class intended to be taken in conjunction with PHIL 101 and SPCO 101. The course is designed to help students express themselves effectively in writing.

ENGL 102 Introduction to Literature 3 credits
Part of the University core curriculum and required of all undergraduates, this course studies the major genres of literature (poetry, fiction, and drama), and entails practice in effective critical writing based on close analysis of literary texts.

* Indicates Chair's approval for using this course as a requirement.
Note: No single class can satisfy more than one requirement.
ENGL 103H Honors Literature | 3 credits
A survey of literature in the Western tradition from the
Classical to Renaissance periods. The equivalent of
ENGL 101 or ENGL 200 for Honors students.

ENGL 104H Honors Literature II | 3 credits
A survey of Literature in the Western tradition since the
Renaissance. The equivalent of ENGL 102, ENGL 105,
or ENGL 106 for Honors students.

ENGL 105 Themes in Literature | 3 credits
This course introduces students to literary study through
the exploration of a particular theme. Like English 102, this
will serve as part of the University core curriculum and can
be taken instead of English 102. This course examines the
major genres of literature (poetry, fiction and drama),
and entails practice in effective critical discussion and writing
based on close analysis of literary texts.

ENGL 106 Special Topics: Multicultural and
World Literature | 3 credits
This course introduces students to literature through
works produced by different minority groups in America
and/or by cultures throughout the world. This course
examines the major genres of literature (poetry, fiction
and drama), and entails practice in effective critical writ-
ing based on close analysis of literary texts. Like English
102, this will serve as part of the University core curricu-
um and can be taken instead of English 102.

ENGL 190 Directed Study | 1-3 credits
Topic to be decided by faculty. Prerequisite: Permission
from department.

ENGL 200 Intermediate Composition | 3 credits
A course providing additional practice in expository writ-
ing. This course does not fulfill University or Arts &
Science core requirements in literature. Can be taken
instead of ENGL 101 with permission from department.
Prerequisite: Permission from department.

ENGL 201 Studies in Poetry | 3 credits
The study of poetry, with emphasis on the major ele-
ments: imagery, tone, rhythm, etc.; practice in effective
critical writing focused on explication and interpretation
of poems. Prerequisites: (ENGL 101, ENGL 200, or
ENGL 103H) and (ENGL 102, ENGL 105, ENGL 106,
or ENGL 104H).

ENGL 202 (WOMS 220C) Studies in Fiction | 3 credits
The study of fiction, with emphasis on the major ele-
ments of narrative form: plot, character, point of view,
etc.; practice in effective critical writing focused on textu-
al analysis and interpretation of short stories and novels.
Prerequisites: (ENGL 101, ENGL 200, or ENGL 103H)
and (ENGL 102, ENGL 105, ENGL 106, or ENGL 104H).

ENGL 203 Studies in Drama | 3 credits
The study of drama, with emphasis on major elements of
dramatic form: action, audience, structure, character,
etc.; practice in effective writing focused on close read-
ing and interpretation of plays. Readings will include a
variety of types and forms that reflect the traditions of the
genre. Prerequisites: (ENGL 101, ENGL 200, or ENGL
103H) and (ENGL 102, ENGL 105, ENGL 106, or ENGL
104H).

ENGL 204 Literature and Film | 3 credits
This class is an introductory exploration of the relation-
ship between literature and film, with the goal of learning to
"read" films critically and appreciatively. Prerequisites:
(ENGL 101, ENGL 200, or ENGL 103H) and (ENGL 102,
ENGL 105, ENGL 106, or ENGL 104H).

ENGL 205 Studies in Shakespeare | 3 credits
An introductory survey of Shakespeare's histories,
comedies, and tragedies as well as the sonnets; close
textual analysis. Prerequisites: (ENGL 101, ENGL 200,
or ENGL 103H) and (ENGL 102, ENGL 105, ENGL 106,
or ENGL 104H).

ENGL 206H Honors Literature III | 3 credits
A Capstone Course for Honors students providing an in-
depth study in a specific area of literary approaches.
Examples include a specific genre, historical/literary peri-
od, theme, author, etc. Prerequisites: ENGL 103H and
104H.

ENGL 207 Literature of Western Civilization I | 3 credits
This course is a survey of Classical, Medieval and
Renaissance literature of the Western tradition. Prerequisites:
(ENGL 101, ENGL 200, or ENGL 103H) and
(ENGL 102, ENGL 105, ENGL 106, or ENGL 104H).

ENGL 208 Literature of Western Civilization II | 3 credits
This course is a survey of the Western tradition in litera-
ture since the Renaissance. Prerequisites: (ENGL 101,
ENGL 200, or ENGL 103H) and (ENGL 102, ENGL 105,
ENGL 106, or ENGL 104H).

ENGL 210 British Literature Survey I | 3 credits
This course is a survey of British literature through the
18th Century. Prerequisites: (ENGL 101, ENGL 200, or
ENGL 103H) and (ENGL 102, ENGL 105, ENGL 106, or
ENGL 104H).

ENGL 220 British Literature Survey II | 3 credits
This course is a survey of British literature since the 18th
Century. Prerequisites: (ENGL 101, ENGL 200, or
ENGL 103H) and (ENGL 102, ENGL 105, ENGL 106, or
ENGL 104H).

ENGL 230 Survey of American Literature | 3 credits
This course examines a selection of representative
American writers from the Colonial period to the present.
Prerequisites: (ENGL 101, ENGL 200, or ENGL 103H)
and (ENGL 102, ENGL 105, ENGL 106, or ENGL 104H).

ENGL 240 Special Topics: Multicultural Literature | 3 credits
This course examines literature produced by different
social, ethnic and racial groups within the United States.
Prerequisites: (ENGL 101, ENGL 200, or ENGL 103H)
and (ENGL 102, ENGL 105, ENGL 106, or ENGL 104H).

ENGL 250 Creative Writing | 3 credits
A course in the practice of writing poetry and fiction. This
course does not fulfill the University core requirement in
composition or literature. Prerequisites: (ENGL 101,
ENGL 200, or ENGL 103H) and (ENGL 102, ENGL 105,
ENGL 106, or ENGL 104H).

ENGL 260 Special Topics: World Literature | 3 credits
This course examines selected authors, themes and his-
torical periods in world literature with emphasis on works
outside the Western tradition. Prerequisites: (ENGL 101,
ENGL 200, or ENGL 103H) and (ENGL 102, ENGL 105,
ENGL 106, or ENGL 104H).

ENGL 285 Special Topics | 3 credits
This course provides special offerings in English litera-
ture that may not fit under other 200-level course offering
descriptions. Topics will be approved by the department
chair. Prerequisites: (ENGL 101, ENGL 200, or ENGL
103H) and (ENGL 102, ENGL 105, ENGL 106, or ENGL
104H).

ENGL 290 GIEOP Mentoring | 1 credit
Gonzaga Indian Education Outreach Project (GIEOP)
Student Mentoring: Students will learn how to help junior
high and high school students with writing and literature
assignments and to role model for them the importance
of a college education. Prerequisite: Permission from
department.

ENGL 291 Directed Study | 1-3 credits
Topic to be decided by faculty. Prerequisite: Permission
from department.
Upper Division

Prerequisites: ENGLISH CORE (ENGL 101, ENGL 200, or ENGL 103H), (ENGL 102, ENGL 105, ENGL 106, or ENGL 104H), and (ENGL 201 or ENGL 206H for majors, or ENGL 202, ENGL 203, ENGL 204, or ENGL 205).

ENGL 300 Introduction to English Major 3 credits
Students will learn how to engage in academic discourse through research-informed writing. Prerequisite: English Core (see above).

ENGL 301 Poetry Writing 3 credits
The practice of poetry writing. Prerequisite: English Core (see above). ENGL 302 Fiction Writing 3 credits The practice of fiction writing. Prerequisite: English Core (see above).

ENGL 303 Creative Non-Fiction Writing 3 credits
The practice of writing creative non-fiction. Prerequisite: English Core (see above).

ENGL 305 The Writing Traveler 3 credits
The practice of writing poetry, fiction, and essays in the context of foreign travel and residency. Prerequisite: English Core (see above).

ENGL 310 American Literature I 3 credits
Colonial American literature to the early Romantic movement of the 1830s and 1840s. Prerequisite: English Core (see above).

ENGL 311 American Literature II 3 credits
American literature from 1840-1900. Prerequisite: English Core (see above).

ENGL 312 American Literature III 3 credits
American literature from 1900 to present. Prerequisite: English Core (see above).

ENGL 313 American Narratives 3 credits
Over 200 years of literature relating to the aspirations and fears of colonists/Americans, from 1620 to 1854. Prerequisite: English Core (see above).

ENGL 314 Multicultural Literature of the United States 3 credits
Literature produced by different social, ethnic and racial groups in the U.S. Prerequisite: English Core (see above).

ENGL 316 Studies in Post Colonial Literature 3 credits
Works written in English by writers responding to the impact of Western colonization and imperialism. Prerequisite: English Core (see above).

ENGL 318 African-American Literature 3 credits
A study of African-American writers. Prerequisite: English Core (see above).

ENGL 320 Middle English Literature 3 credits
Middle English literature 1200-1500, exclusive of Chaucer. Prerequisite: English Core (see above).

ENGL 325 Medieval Romance 3 credits
Continental and English medieval romances. Prerequisite: English Core (see above).

ENGL 330 Shakespeare 3 credits
Selected plays and poetry. Prerequisite: English Core (see above).

ENGL 331 Renaissance Literature 3 credits
British literature covering the period 1500-1600, excluding drama. Prerequisite: English Core (see above).

ENGL 340 The Romantic Age 3 credits
British writers of the Romantic period, 1798-1832, with emphasis on poetry. Prerequisite: English Core (see above).

ENGL 342 Victorian Era 3 credits
Writers of the Victorian Era, 1832-1901, with emphasis on poetry. Prerequisite: English Core (see above).

ENGL 348 Restoration and 18th Century Literature 3 credits
Major prose, drama and poetry from 1660-1800, exclusive of the novel. Prerequisite: English Core (see above).

ENGL 350 Twentieth Century British Literature 3 credits
British literature of the Twentieth Century including poetry, drama and prose. Prerequisite: English Core (see above).

ENGL 360 Modern Drama 3 credits
This course will cover a broad sweep of plays from the modern and contemporary eras of drama, emphasizing the beginnings of dramatic modernism in nineteenth-century continental Europe (texts to be read in translation), as well as the development of drama in Britain and America from the late nineteenth century to the present. Prerequisite: English Core (see above).

ENGL 370 History of the English Language 3 credits
The English language from its beginnings to the present. Prerequisite: English Core (see above).

ENGL 390 Writing Center Practicum 1 credit
Supervised tutoring in the Writing Center.

ENGL 391 Directed Study 1-3 credits
Topic to be decided by faculty. Prerequisite: Permission from department.

ENGL 393 English Gothic Romance 3 credits
Works that use Italy as a setting and focus on the gothic (Florence). Prerequisite: English Core (see above).

ENGL 394 (COMM 471) Literature and Film 3 credits
A comparative study of selected works of art in two media. Prerequisite: English Core (see above).

ENGL 395 The Teaching Of Composition 3 credits
A course in techniques and approaches to teaching composition on the secondary-school level. Prerequisite: English Core (see above).

ENGL 413 19th Century American Novel 3 credits
Major American novels of the period 1800-1900. Prerequisite: English Core (see above).

ENGL 414 20th Century American Novel 3 credits
Selected major novels of the 20th Century. Prerequisite: English Core (see above).

ENGL 415 Recent American Writing 3 credits
American prose and poetry since World War II. Prerequisite: English Core (see above).

ENGL 420 The Age of Beowulf 3 credits
Language and literary study of the Old English period with special emphasis on the anonymous epic poem Beowulf. Prerequisite: English Core (see above).

ENGL 422 Chaucer and Medieval Novella 3 credits
A study of Boccaccio and Chaucer and their use of the medieval literary form known as the novella. Chaucer will be read in Middle English (Florence). Prerequisite: English Core (see above).

ENGL 423 Chaucer 3 credits
Chaucer’s principal works in the original language. Prerequisite: English Core (see above).

ENGL 433 Milton and His Contemporaries 3 credits
Poetry and prose from the 17th Century with particular emphasis on Milton. Prerequisite: English Core (see above).

ENGL 434 Tudor and Stuart Drama 3 credits
Principal plays 1520-1640, excluding Shakespeare. Prerequisite: English Core (see above).

ENGL 436 18th Century British Novel 3 credits
The British novel from 1700-1800. Prerequisite: English Core (see above).

ENGL 438 Restoration and 18th Century British Drama 3 credits
British drama from the re-opening of the London stages in 1660 through 1800. Prerequisite: English Core (see above).
Environmental Studies

Director: Jonathan Isacoff

Concentration in Environmental Studies:

23 credits

Lower Division Courses:

ENVS 200 Case Studies in Environmental Science 4 credits

One of the following:

- BIOL 123 and Lab Human Ecology
- BIOL 199 and Lab Conservation Biology
- BIOL 102 and Lab Introduction to Ecology

Upper Division Courses:

PHIL 458 Environmental Ethics 3 credits

ENVS 499 Symposium in Environmental Studies 3 credits

Two courses from the following: 6 credits

- ECON 304 Economics of Environmental Protection
- POLS 317 Ecological Thought, Green Practice
- POLS 329 North American Environmental Politics
- POLS 375 Global Environmental Politics

One of the following: 3-4 credits

- BIOL 140 Field Botany
- HIST 396 History of Yellowstone
- POLS 311 State, Tribal, and Local Government
- POLS 325 Native American Government and Politics
- POLS 328 Politics of the Pacific Northwest
- PSYC 333 Environmental Psychology
- SOCI 382 Population and Society
- SOCI 383 Environmental Sociology
- RELI 112 Old Testament and Ecojustice

* Special topics courses upon approval

Lower Division:

ENVS 200 Case Studies in Environmental Science 4 credits

This course is designed to introduce students to scientific issues and concepts related to environmental problems. The course will consist of investigations of a number of specific cases of environmental impacts by humans, such as: chemical contamination of soils, air, or water; overexploitation of fisheries or other living resources; freshwater availability and quality; habitat conversion, fragmentation, and loss of biodiversity, invasive species, renewable and non-renewable energy sources; and the production and management of waste. Specific cases will vary from semester to semester, and will include examples of current local, regional and global relevance. Laboratory exercises will allow students to investigate the scientific principles important for understanding the cases, and will help students develop an appreciation for the strength and limitations of scientific knowledge in addressing environmental issues. Prerequisite: BIOL 102 or BIOL 123 or BIOL 199.

ENVS 499 Symposium in Environmental Studies 3 credits

This capstone experience is designed to help Environmental Studies students integrate their experience and perspectives and apply them to specific environmental issue. Students will be expected to produce a major written analysis of a current complex environmental issue facing the Inland Northwest. Projects may undertaken by individual students, small groups or even the entire class. Class meetings will involve discussions of background readings, coordination of work on the projects, presentations and critiques of draft reports, and opportunities for students from different majors to share their expertise and perspectives on the issues being investigated.
History

Chairperson: Micheal W. Maher, S.J.
Professors: R. Carriker, E. Downey, J.R. Stackelberg (Emeritus), A. Via, S.J.
Associate Professors: S. Balzarini, K. Chambers, R. DeAragon, M. Maher, S.J., K. O’Connor,
Assistant Professors: E. Cunningham, R. Donnelly, A. Goldman, T. Nitz, M. Raffety

The Department of History offers a variety of courses that enable students to fulfill the core requirements of their schools as well as to obtain a Bachelor of Arts with either a major or a minor in history. The goals of the department curriculum are to engender an informed, critical, and articulate sense of the past, an appreciation for the diversity of human experience, and an awareness of the role of tradition in shaping the present. The major develops a variety of practical research, analytic and communication skills and provides a foundation for graduate programs, teaching, archival and library sciences, the study of law, and many careers in business and the professions. The department sponsors a chapter of Phi Alpha Theta, the international history honor society.

Majors are required to take HIST 101; either HIST 102 or 112; HIST 201; and HIST 202. In addition they must take 18 elective credits beyond HIST 202, no more than six credits of which may be at the 200-level. Of those 18 credits, three credits must be taken from each of four specific categories (i.e., a total of four courses):

1) Non-western or developing areas
2) Pre-modern Europe
3) Modern Europe
4) United States.

Majors should consult their advisors for the specific courses within these categories. Majors are also required to complete HIST 301 (Historical Methods), normally taken in the second semester of their sophomore year or the first semester of their junior year, and one 400-level course normally taken in their senior year. In exceptional cases and with the approval of the department, students may elect to take HIST 499 (Senior Thesis) in lieu of HIST 401. Majors who wish to obtain teacher certification should confer each semester with the School of Education as well as their departmental adviser.

Students in the College of Arts and Sciences who are not history majors complete their core requirement in history by taking HIST 101 and either HIST 102 or HIST 112 in their first year. If they are unable to complete all six 100-level HIST credits in their first year, HIST 201 or 202 may be substituted for one 100-level course after the first year. The School of Business Administration history requirement may be satisfied by taking one course from HIST 101, HIST 102, or HIST 112.

B.A. Major in History: 33 Credits

Lower Division

HIST 101 Survey of Western Civilization I 3 credits
One of the following two courses: 3 credits
HIST 102 Survey of Western Civilization II
HIST 112 Survey of World Civilization
HIST 201 History of U.S.A. I
HIST 202 History of U.S.A. II
HIST Elective(s) 0-6 credits

Upper Division

HIST 301 Historical Methods 3 credits
HIST Electives 16-18 credits
One of the following two courses:
HIST 401 Research Seminar 3 credits
HIST 499 Honors Thesis 0 credit

HIST Electives must include one course in each of the following areas:

1) Non-Western or Developing Areas:
   - HIST 348 Islamic Civilization
   - HIST 349 History of the Modern Middle East
   - HIST 370 Foundations of East Asian Civilization
   - HIST 371 Modern China
   - HIST 372 Modern Japan
   - HIST 373 East Asia after World War II
   - HIST 380 Colonial Latin America
   - HIST 381 Modern Latin America
   - HIST 382 Revolutions in Modern Latin America
   - HIST 383 Mexico
   - HIST 384 Women in Colonial Latin America

2) Pre-Modern Europe:
   - HIST 219 Sex and Gender in European History
   - HIST 302 The Ancient City
   - HIST 303 Athens in the 5th Century
   - HIST 304 Alexander the Great and the Hellenistic World
   - HIST 305 The Roman Republic
   - HIST 306 The Roman Empire
   - HIST 307 The Archaeology of Greece and Rome
   - HIST 310 Rome from the Republic to Justinian
   - HIST 311 Medieval Europe
   - HIST 315 Renaissance Europe
   - HIST 316 The Reformation
   - HIST 317 Tudor and Stuart England

3) Modern European:
   - HIST 321 Age of the French Revolution
   - HIST 323 Europe in the 19th Century
   - HIST 324 Italy in the 19th Century
   - HIST 325 World War I 1914-1918
   - HIST 326 Europe 1918-1939
   - HIST 327 Europe-U.S. Relations Since WWII
   - HIST 328 19th Century Germany
   - HIST 329 Hitler’s Germany
   - HIST 330 The Holocaust
   - HIST 331 World War II
   - HIST 332 Modern Britain
   - HIST 333 Tsarist Russia
   - HIST 334 Modern Russia
   - HIST 335 Eastern Europe Since 1863
   - HIST 338 Fascist Italy
   - HIST 339 Italy & Europe after WWII

4) U.S. History:
   - HIST 259 History of Sports in America
   - HIST 263 U.S. Since 1945
   - HIST 350 The City in American History
   - HIST 351 Coming to America
   - HIST 352 U.S. in the Era of Jefferson and Jackson
   - HIST 353 U.S. in the Era of the Civil War and Reconstruction
   - HIST 354 North American Exploration
   - HIST 355 The American West
   - HIST 356 The Age of Theodore Roosevelt
   - HIST 357 The Age of Franklin D. Roosevelt
   - HIST 358 African-American History
   - HIST 360 Pacific Northwest History
   - HIST 361 Post-World War II Presidency
   - HIST 362 American Biography
   - HIST 363 Women in United States History
   - HIST 364 Public History/History in Public

Minor in History: 18 Credits

Lower Division

HIST 101 Survey of Western Civilization I 3 credits
One of the following two courses: 3 credits
HIST 102 Survey of Western Civilization II
HIST 112 Survey of World Civilization
HIST Electives (200 level) 0 - 6 credits

Upper Division

HIST Electives 6-12 credits

Associate Professors: S. Balzarini, K. Chambers, R. Carriker, E. Downey, J.R. Stackelberg (Emeritus), A. Via, S.J.
Chairperson: Micheal W. Maher, S.J.
Lower Division
HIST 101 Survey of Western Civilization I 3 credits
A survey of the origins of western civilization in the Near East; Greek and Roman civilizations; and developments in Europe through the Reformation.
HIST 101H Survey of Western Civilization I Honors 3 credits
For Honors students, see HIST 101. Prerequisite: HONS 190.
HIST 102 Survey of Western Civilization II 3 credits
A survey of European history from the seventeenth century to the present with emphasis on ideas, politics, and social changes.
HIST 102H Survey of Western Civilization II Honors 3 credits
For Honors students, see HIST 102. Prerequisite: HONS 190.
HIST 112 World Civilization 1500-Present 3 credits
A survey of world civilization from the 16th century to the present with an emphasis on the different civilizations of the world and their interactions.
HIST 201 History of the United States I 3 credits
The political, diplomatic, and territorial history of the United States from colonial beginnings through the Civil War. Historical geography is emphasized.
HIST 201H History of the U.S. I Honors 3 credits
For Honors students, see HIST 201. Prerequisite: HONS 190.
HIST 202 History of the United States II 3 credits
A continuation of HIST 201 with special attention given to the Reconstruction period, the rise of industry, reform, and American participation in world events in the late 19th and the 20th centuries.
HIST 202H History of the U.S. II Honors 3 credits
For Honors students, see HIST 202. Prerequisite: HONS 190.
HIST 206 Washington History 1 credit
This course is intended for students working towards teacher certification.
HIST 219(WOMS 270) Sex and Gender in European History 3 credits
An introduction to ideas about gender, sex, and the family in western culture, and women’s experiences of and contributions to civilizations in the Mediterranean region and western Europe, from ancient times to the early modern period (circa 1600). Prerequisite: HIST 101.
HIST 259 History of Sports in America 3 credits
This course examines the development and explores the meanings of American sports from the colonial era through the twentieth century. Historically, sports have offered Americans an arena in which to play out many of the nation’s most important and contentious cultural issues. Precisely because sports are largely seen as “apolitical,” the meanings of race, gender, and class are worked out on the field with a candor not possible elsewhere. In particular, we will focus on the links between sports and America’s sense of itself as a nation, explore the effects of industrialization, urbanization, and immigration on sporting life and practice, and discuss the ways in which sports both reinforce and challenge historical meanings of racial and gender identity. We may even get in a game or two ourselves.
HIST 263 U.S. Since 1945 3 credits
The political ideologies, social movements, and cultural revolutions that emerged after World War II, as reactions to the Cold War, social injustice, and changes in ideas, have influenced our contemporary politics, society, and culture. By examining this period in U.S. history, we will be able to better understand some of the issues that are most important to us today. HIST 263 will survey the international conflict, great social movements, and popular culture of the decades since 1945. This course has a social justice component.

Upper Division
HIST 290-299 Special Topics in History 1-3 credits
HIST 301 Historical Methods 3 credits
An in-depth introduction to the discipline of history. While subject matter varies by professor and semester, all sections will have in common the following topics: the history and philosophies of History; varieties of historical evidence (oral, archaeological, documentary); mechanics of historical writing, introduction to various interpretive frameworks and theories, with an emphasis on contemporary methods and issues. Students will complete library research and writing projects, demonstrating understanding of historical prose, citation, analysis and interpretation.
HIST 302 Ancient City 3 credits
This course is a survey of the development of the city in the ancient world. Students will explore urban forms and processes as they are shaped by - and as they shape - their social, cultural, economic and physical contexts. The course will focus on representative urban centers of the ancient Near East, Egypt, and the Mediterranean world, tracing the evolution of ancient urbanism from the Near East to the classical worlds of Greece and Rome. Prerequisite: HIST 101.
HIST 303 Athens in the 5th Century 3 credits
The history of ancient Greece from the Bronze Age through the end of the fifth century BC, with special emphasis on the city of Athens and its political, social, and economic landscape during Classical Greece. Prerequisite: HIST 101.
HIST 304 Alexander the Great and the Hellenistic World 3 credits
The political, social, and cultural history of Greece and the Hellenistic World from 399 to 30 BC, from the death of Socrates to the death of Cleopatra. The course will focus particularly on the rise of Macedon as a Mediterranean power, the achievements of Alexander the Great, and the transformation of the eastern Mediterranean under the monarchies of the Hellenistic Period. Prerequisite: HIST 101.
HIST 305 (ITAL 363) The Roman Republic 3 credits
The political, social and cultural history of Republican Rome from its legendary origins to the Battle of Actium and its de facto end in 31 BC. The course will focus closely on the factors leading to the Republic’s successful rise as uncontested Mediterranean ruler as well as the internal political and social conflicts that brought the Republic crashing down to its ultimate fall. Generally offered through the Gonzaga-in-Florence program on an irregular basis. Prerequisite: HIST 101.
HIST 306 (ITAL 364) The Roman Empire 3 credits
The political, social and cultural history of Rome during the age of the Emperors, from Augustus’ creation of the Principate in 27 BC to the decline of the Roman Empire in the west by the 5th century AD. Special focus in this course will be given to the workings of the Imperial system, daily life in Rome and the provinces, the rise of Christianity and the ultimate transformation of the empire. Prerequisite: HIST 101.
HIST 307 The Archaeology of Greece and Rome 3 credits
This course examines the techniques and methods of classical archaeology as revealed through an examination of the major monuments and artifacts of the Greek and Roman world. Architecture, sculpture, vase and fresco painting, and the minor arts are all examined. We consider the nature of this archaeological evidence, and the relationship of classical archaeology to other disciplines such as history, art history, and the classical languages. Prerequisite: HIST 101.
HIST 310 Rome from Republic to Justinian  3 credits
The political, social and cultural history of Rome during its rise, transformation into an empire, decline, and the shift of the empire's center to Constantinople. Special attention will be paid to the transformation of Italy under Roman leadership and the role which Italy played in the empire. Generally offered through the Gonzaga-in-Florence program on an irregular basis. Prerequisite: HIST 101.

HIST 311 (ITAL 366) Medieval Europe  3 credits
Developments in the first flowering of Western European civilization, C.A.D. 500-1350, including feudalism, the rise of representative assemblies, the commercial revolution and the papal monarchy. Taught at both the main campus and Florence campus.

HIST 315 (ITAL 367) Renaissance Europe  3 credits
The history of western Europe 1350-1550, emphasizing the political, religious, social, and economic foundations for the cultural achievements of the age of Michelangelo, Henry VIII, and Joan of Arc.

HIST 316 The Reformation  3 credits
The figures, ideas, and events that produced the religious upheaval and disruption of medieval Christendom in the sixteenth century.

HIST 317 Tudor And Stuart Britain  3 credits
British religious, political, social, and economic developments from the late 1400s to 1689, including the English Renaissance and Reformation, the rise of Parliament, the Civil War and the Restoration, and the Revolution of 1688. Prerequisite: HIST 101.

HIST 318 Medieval and Renaissance Economies  3 credits
An examination of the economic structure of medieval and early modern Europe. Florence campus only.

HIST 321 (FREN 430F/INST 383) Age Of The French Revolution  3 credits
The political, social, intellectual, and religious history of Europe from the eighteenth century to 1815, including the Enlightenment, the fall of the ancient regime, the French Revolution, and Napoleon. Prerequisite: HIST 102 or HIST 112.

HIST 323 (INST 386) Europe In The 19th Century  3 credits
The social and political history of Italy from the Congress of Vienna (1815) to the outbreak of the First World War (1914). Generally offered through the Gonzaga-in-Florence program on an irregular basis. Prerequisite: HIST 102.

HIST 324 (INST 380) Italy In the 19th Century  3 credits
The social and political history of Italy from the Congress of Vienna (1815) to the outbreak of the First World War (1914). Generally offered through the Gonzaga-in-Florence program on an irregular basis. Prerequisite: HIST 102.

HIST 325 World War I, 1914-1918  3 credits
A history of Europe and the world's involvement in the Great War from 1914-1918. The course will discuss the origins, conduct and consequences of World War I. Arguably the pivotal event of the modern age, World War I set the stage for the "century of violence." The nature of war and Western civilization changed on the battlefields of the First World War. These themes will be explored in the course. Prerequisite: HIST 102.

HIST 326 (INST 387) Europe 1918-1939  3 credits
A history of Europe from the end of the Great War to the beginning of the second world war. This course will include the impact of World War I, the postwar peace settlements, the social, political, intellectual and economic disruption of the war, the rise of fascism, the Great Depression, Hitler and national socialism, and the origins of World War II. Prerequisite: HIST 102.

HIST 327 Europe-U.S. Relations Since WW II  3 credits
A detailed analysis of the development of U.S.-Western European relations since World War II. Florence campus only.

HIST 328 (INST 388) 19th Century Germany  3 credits
This course examines the history of the German states from the end of the Napoleonic era to the end of the first world war. Issues to be explored include German nationalism and liberalism, the revolutions of 1848-1849, the rise of Prussia and the formation of the German Empire, and the development of political and social institutions during the imperial period.

HIST 329 (INST 397) Hitler's Germany  3 credits
German history from 1918 to 1945. The causes, characteristics, and consequences of Nazi rule.

HIST 330 The Holocaust  3 credits
A history of the Nazi genocide of the Jews in World War II, including its origins and historical context, the methods used by the Nazis to identify and exterminate victims, a study of the perpetrators, the reaction of the international community, and post-war historiography, interpretation and commemoration.

HIST 331 World War II  3 credits
The causes, conduct and consequences of the second world war. Prerequisite: HIST 102 or HIST 112.

HIST 332 (INST 398) Modern Britain  3 credits
British history from 1688 to the present, emphasizing the reign of Victoria, industrialization and reform, imperialism, constitutional and colonial development, the conflict with Napoleon, the Irish Home Rule, the decline of liberalism and the rise of labor, the two world wars, and the postwar welfare state. Prerequisite: HIST 102 or HIST 112.

HIST 333 Tsarist Russia  3 credits
This course examines the major political, social, intellectual, and cultural developments in Russia from the Kievan Rus era through the Great Reforms of the nineteenth century. Its major themes include the development of Russian autocratic traditions, Russian imperial expansion, and the growing tensions between state and society under the Romanovs.

HIST 334 (INST 376) Modern Russia  3 credits
This course examines the major political, social, and cultural developments in Russia from the mid-nineteenth century through the end of the Soviet era, with particular focus on the crisis of imperial Russia, the revolutions of 1905 and 1917, Stalinism, the communist party-state, and the collapse of communism.

HIST 335 Eastern Europe Since 1863  3 credits
This course surveys the major political developments in central, eastern, and southeastern Europe from the mid-nineteenth century to the present. Its major themes include the collapse of the region's multinational empires, the creation of nation-states, World War II and the Holocaust, the Cold War, and the political challenges posed by democracy, nationalism, communism, and foreign domination.
HIST 338 (INST 391) Fascist Italy  3 credits
Italian history from 1918 to 1945, including an examination of social and economic conditions in post-war Italy, rise of the Fascist party, the role of Benito Mussolini, the nature of fascist government in Italy, Italian imperialism under Mussolini, and the part played by Italy as an ally with Hitler's Germany. Generally offered through the Gonzaga-in-Florence program on an irregular basis. Prerequisite: HIST 102.

HIST 339 (INST 379) Italy and Europe after WWII  3 credits
The transformation of Italian political institutions and society after the defeat of the fascist government at the end of the second world war, the continuing evolution of Italy during the Cold War and post-Cold War eras, and Italy's role in post-war Europe (including NATO, the European Economic Community, and the establishment of the European Union). Generally offered through the Gonzaga-in-Florence program on an irregular basis. Prerequisite: HIST 102.

HIST 348 (INST 368/RELI 492E) Islamic Civilization  3 credits
This course examines the history of Islam from the time of the Prophet Muhammad to the great Islamic "gunpowder empires" of the early modern period. Specific topics covered include the Qur'an, the practices and beliefs of the faith, and an examination of the intersection between faith and culture. The course also includes and introduces to key issues related to Islam in the contemporary world.

HIST 349 (INST 371) History of Modern Middle East  3 credits
The development of the Middle East from the middle of the nineteenth century to the late twentieth century. Topics covered include the end of the Ottoman and Qajar Empires, the creation of the contemporary states of the Middle East at the end of World War I, and their history from 1920 through the end of the twentieth century.

HIST 350 The City in American History  3 credits
How, when, and why did cities in America develop where they did? How do physical form and institutions vary from city to city and how are these differences significant? This course will explore these and other questions while emphasizing twentieth-century American cities. We will examine urban populations, city culture, crime and municipal politics. Prerequisite: HIST 202.

HIST 351 Coming to America  3 credits
Immigration and ethnicity in American history. We will discuss the factors that impelled our ancestors to leave the "old country" and the "new world" features that made it attractive. What "baggage" did they bring? Where did they settle? How were they received? While considering ethnic identity, religion, assimilation, community, citizenship, work, gender, class, and exclusion, we will discover why it is important that we study not only our own roots, but also the background of others in this polyethnic nation. This course has social justice and service learning components.

HIST 352 U.S. in the Era of Jefferson and Jackson  3 credits
This course examines the critical period in the early American republic from roughly 1800-1850. Particular attention is given to the rise of popular democratic participation and party politics, the development of race as a central line of division, national expansion, and the political, economic, and cultural processes by which the United States began to cohere as a nation.

HIST 353 U.S. in the Era of the Civil War and Reconstruction  3 credits
The Civil War and Reconstruction era ranks as a decisive moment in American history by any measure. This course will examine the political, economic, social, and cultural impact of the period on the United States and the world. Topics covered will include the origin of the war in slavery, sectional conflict, the structure of the two nations that fought, the changing character and objectives of the war, the nature of the Union that emerged from the war, and the ways that its "reconstruction" altered the war changed the nation. Additionally, the course explores the reasons for our enduring national obsession with this formative and dramatic period.

HIST 354 North American Exploration  3 credits
A biographical approach to individual, government and institutional exploration of the trans-Mississippi west after 1800.

HIST 355 The American West  3 credits
An investigation into frontier American institutions and activities that have helped form the modern American character.

HIST 356 The Age of Theodore Roosevelt  3 credits
The United States from 1877 to 1914. Emphasis is on big business, agricultural crisis, labor strife, political reform, and the emergence of America as a world power. The period is studied through the career of Theodore Roosevelt. Prerequisite: HIST 202.

HIST 357 Age of Franklin D. Roosevelt  3 credits
The United States from 1914-1945: Progressivism, the Jazz Age, the New Deal and World War II. The period is studied through the careers of Franklin and Eleanor Roosevelt. Prerequisite: HIST 202.

HIST 358 African-American History  3 credits
A study of the experiences of African-Americans from the 1600s to the 1960s, which will include the development of slavery, abolition, the Civil War and Reconstruction, African-Americans on the frontier, and the African-American experience in the 20th century.

HIST 360 Pacific Northwest History  3 credits
The social and political roots of the Pacific Northwest, from early exploration to the present, with a concentration on the people and places of Washington State.

HIST 361 Post-World War II Presidency  3 credits
The post-1945 presidency evolved and changed drastically as consequence of domestic and foreign events and ideology. We will examine the powers and limitations of the post-1945 U.S. presidents in both foreign and domestic affairs. We will assess their relationships with Congress, the American people, the press, and other nations, and we will explore presidential power, agenda, persuasion, secrecy, and character.

HIST 362 American Biography  3 credits
Glimpses of notable Americans who have helped shape the American character.

HIST 363 (WOMS 330) Women in United States History  3 credits
An examination of the roles, experiences, and activities of American women from the colonial period to the 1970s.
HIST 374 (INST 374) Modern China 3 credits
This course explores the history of China since the fall of the Ming Dynasty in 1644. Of special interest are the expansion of the Qing empire, the challenges posed by the appearance of western traders in the nineteenth century, the Opium War, the Taiping Rebellion, the decline and fall of imperial China, the revolutions of the twentieth century, Mao Zedong’s attempts to create a communist society after 1949, and the growth of market socialism since the era of Deng Xiaoping. Prerequisite: HIST 112.

HIST 375 (INST 375) Modern Japan 3 credits
This course explores the history of Japan from the Tokugawa era (1603-1868) through the Meiji era and the twentieth century, examining such topics as the Edo culture, the Meiji Restoration, the rise of Japanese cultural nationalism, World War II, the Occupation, and Japan’s transformation in the postwar era. In addition to the political, economic, and social changes experienced in Japan, we will also look at the phenominal influence exercised by Japanese pop culture upon the world since the 1950’s. Prerequisite: HIST 112.

HIST 373 (INST 373) East Asia After World War II 3 credits
This course explores the political, social, economic, and cultural history of East Asia since the end of World War II. Of special interest are Japan’s transformation into an economic and cultural superpower after WWII, the establishment and growth of the People’s Republic of China, the emergence of the “Asian Tigers,” the Vietnam War, the crisis of the Korean Peninsula, and an analysis of the cultural and spiritual exchanges between Asia and the west in the postwar era. Prerequisite: HIST 112.

HIST 380 (INST 372) Colonial Latin America 3 credits
A survey of colonial Latin America that examines the contact, conflict, and accommodation among Europeans, Native Americans, and Africans that shaped colonial Latin America.

HIST 381 (INST 394) Modern Latin America 3 credits
A general introduction to the history of the former colonies of Spain and Portugal in the Western Hemisphere. Topics include the rise of caudillos, rural developments, the emergence of liberal economic development, populism, banana republics, dictatorships, dirty wars, Marxist revolution, and contemporary predicaments.

HIST 382 (INST 369) Revolutions in Modern Latin America 3 credits
This course examines the origins, emergence, process, and consequences of major Latin American social and political revolutions in the twentieth century. It will investigate a variety of types of revolutions including different urban and rural movements, as well as groups that sought radical change from high politics to the grass roots level.

HIST 383 (INST 377) Mexico 3 credits
A survey of Mexican history from the Aztec wars to the present.

HIST 384 (WOMS 331) Women in Colonial Latin America 3 credits
This course will investigate the lives of women in both the pre-contact and post-conquest societies. The first part of the course concentrates on the activities of women, and their role in society, among the Aztecs, Inca, and Pueblo civilizations. The course will focus on the study of their experiences after the Spanish Conquest. The final section of the course will cover the variety of women, ranging from wealthy Spanish women, established nuns, marginal mystics, Indian leaders, and African women, and their experiences in the Spanish colonies. In the class, students will learn about and discuss the various gender systems which operated in different periods, and how these systems shaped women’s lives as women shaped the systems themselves.

HIST 390-394 Topics In History 1-3 credits
Selected historical topics of current and special interest.

HIST 395 (WOMS 331) Women in Colonial Latin America 3 credits
This course seeks to give students an understanding of the history and culture of pre-modern China, Japan, Korea, and Vietnam. After exploring the historical roots of Confucianism, Daoism and Buddhism in China, students will examine the ways in which these foundational philosophies helped form social, cultural, and political institutions in China and its neighbors. Students will also focus attention on the historical emergence of the Chinese imperial system, and its greatest pre-modern exemplars, the Qin, Han and T’ang dynasties. Not limiting the focus to China alone, students will also explore how the concept of China as the “middle kingdom” influenced the language, religion and political developments in Japan and Korea, leading to an authentic “macro-culture” in East Asia. The course will finish with a discussion of samurai culture and an analysis of how the Mongol conquests of Central and East Asia transformed the region, taking students to the threshold of the early modern period in Asia. Prerequisite: HIST 112.

HIST 400 Directed Reading and Research 1-3 credits
Topic to be decided by faculty.

HIST 401 Research Seminar 3 credits
The History capstone course, designed as a seminar focused on discussion, historiography, research, and writing. General topics vary by instructor and term, but all will cover the following: study of a topic in greater depth than possible in the 300-level courses; opportunity to develop and demonstrate an understanding of the historical discipline in course discussion and the production of a significant research and writing project using primary and secondary sources; and up-to-date historiography of the topic. The course is intended to build on the skills and methods introduced in HIST 301. Prerequisite: HIST 301.

HIST 498 Advanced Historical Writing 1 credit
This course is designed for students who have taken HIST 401 and who wish to improve their historical and writing skills by continuing work on their research papers. Prerequisite: HIST 401.

HIST 499 Thesis 0 credit
In exceptional cases, this course may be taken in lieu of HIST 401 by students with honor-level grade point averages, course work, and the permission of the Department of History.
International Studies

Director: T. A. Nitz

The International Studies (INST) major offers students the opportunity to obtain a Bachelor of Arts in International Studies. The overall goal of the program is to promote better understanding of the growing interdependence of nations, the rights and obligations that arise from those interdependencies, and significant transnational issues. The program also aspires to impart an awareness of the religious, political, economic, and cultural diversity among nations. Students pursuing an International Studies major or minor must select from one of four areas of emphasis: Asian Studies, European Studies, Latin American Studies, or International Relations. Students contemplating a major or minor in international studies are encouraged to take HIST 112 (World Civilizations) as part of their University and College of Arts and Sciences core requirement in history.

To earn the Bachelor of Arts in International Studies, students must satisfactorily complete three sets of requirements:

1) All students choose a foreign language and achieve competency in that language as defined below.
2) Complete the courses which form the upper division international studies core, including INST 499, Senior Project. Students take INST 499 in either semester of the senior year; the course involves completing a written academic paper on a topic related to the student's International Studies major (e.g., Asian Studies, International Relations, etc.) and giving an oral presentation on that same topic.
3) Take elective INST or approved related courses not used to satisfy the language requirement, including a minimum number which focus on the individual student's area of emphasis.

(Students may only double-count a maximum of three upper division courses with participating departments [i.e. POLS, HIST, Modern Languages].) Requirements for the international studies major and minor by area of emphasis is explained in more detail below.

B.A. Major in International Studies: Asian Studies: 44 Credits

Foreign Language Competency

Students must achieve competency in either Chinese or Japanese. Competency is defined as passing the equivalent of two years of college-level work at the grade of "C" or higher. Students will normally complete this requirement by taking 16 credits of Chinese or Japanese courses at Gonzaga through the 202 level or its equivalent. (Students who begin their study at Gonzaga University above the 101 level need only take sufficient courses to achieve competency.)

Students who are majoring in international studies are required to complete at least six credits at the 300 or higher level in their chosen language. Students who participate in a study abroad program of at least one semester may, with the permission of the International Studies Program (in consultation as appropriate with the Department of Modern Languages), substitute equivalent language, literature, or culture courses taken as part of the study abroad program for this requirement.

International Differences Elective Courses

Take an additional six credits not used for any other INST requirement which focus on International Differences among nations. Each course must focus on a different region of the world (Africa, Asia, Europe, Latin America, or the Middle East) or all courses taken to meet this requirement must compare two or more cultures, states, or regions. Courses which meet this comparative requirement are:

Differences electives listed for International Relations majors.

For all courses in International Studies, Studies the spiritual wisdom of the world's main civilizations, international economics, international politics, and the potential for international integration. Fall.

This course number designates special topics which are offered on occasion as full semester courses by faculty members from the various disciplines which make up the International Studies program. Such courses will focus on subjects of current or special interest which are not normally a part of the regular curriculum.

Focus on political development in the Third World. After examining the making of the Third world through imperialism and colonialism, key political institutions (the state, political parties, the military) are analyzed, as is the international economic context of dependency and vulnerability. Several case studies follow a common analytical framework to trace experiences with democratic and authoritarian rule and assess the underlying causes of democratic success and failure.

An overview of Latin American development. Several socio-economic factors are examined. Development issues are broadly conceptualized within economic, demographic, and cultural dimensions. These variables are viewed as overlapping forces influencing development.

A study of the major literary works from colonial period to the classic works of the 19th century. Alternate years. Taught in Spanish. Prerequisite: SPAN 301.

A study of the region's literary classics from the Enlightenment to the contemporary period. Alternate years. Taught in Spanish. Prerequisite: SPAN 301.

Focus on the pre-1985 Soviet political system; how Gorbachev's six-year reform program led to the unraveling of the Soviet Union; and the difficult transition to democracy and a market economy in post-Soviet Russia. Similarly, Maoist China is contrasted with the uneasy mixture of economic reform and political repression coexisting in China today.

This course will compare women's movements around the world. We will examine women's roles in various nations and how women themselves are both redefining and using their roles to bring about political change. Starting with the U.S., we will proceed to study European, Latin American, Russian, and Palestinian women's movements.

The diverse non-Western religious beliefs and practices and various religious perspectives regarding world brotherhood and sisterhood. Includes an introduction to the religions of the world.

This course is a study of Buddhism as Asian spirituality and world religion; an examination of the Buddha's teachings, the expansion and development of Buddhism, and the teachings and practices of contemporary Buddhism.

A study of French cinema as it has evolved in the last two decades. The films viewed will be used as a means to encourage reflection on the history, ideas and values that have gone into the making of modern France. The course is offered in English and French in separate sections. For students who take the English section of the course through the INST cross-listing, there is no French prerequisite. Spring.

Reading and/or discussion of social, political, economic or environmental issues of Hispanic world as presented by foreign media. Taught in Spanish.

Theory and practice in the functioning of the international political system and the behavior of the nations within it.

This course is a presentation of a broad range of global economic issues and policies relevant to a number of disciplines including business, political science, and international studies. Topics include: why nations trade, international trade and economic growth, protectionism, discriminatory trade policies, the foreign exchange market, factor mobility, and comparative economic systems. Fall and Spring. Prerequisite: ECON 201.

Nature, sources, and development of international law and its interrelationship with international organizations.

Focus on disciplined parties, prime ministers, civil servants and elected politicians, written and unwritten constitutional rules, parliamentary and right-based politics. Usually a specific nation, such as Canada is featured, but examples are also drawn from Great Britain, Australia, and Japan.

The moral structure of the international community in the context of problems such as war, foreign aid, and transnational migration. Prerequisite: PHIL 301.

This course is designed to introduce students to fundamental Japanese culture. Some of the areas covered by this course will be human relations at work and in school, etiquette, customs, traditions and social issues. (This course will be taught in English.)
This course focuses on Japanese values, attitudes, and behaviors. The students will learn strategies for communication with Japanese people. (This course will be taught in English.)

Why is there an Arab-Israeli conflict? The question is much-discussed but not very often answered. This course is a comprehensive effort to understand that question as well as the intense political debates that have evolved surrounding it. The course is interdisciplinary, touching on the historical, political, and sociological aspects of the origins and trajectory of the Arab-Israeli conflict.

Shows the Middle East is more than a region fraught with violence, ethnic hatred and the struggle for control of oil by examining the modern Middle East's history and context, a diverse set of country case studies, and current issues including the role of women, Islamic fundamentalism, terrorism, and peace in Israel-Palestine.

This course examines the origins, emergence, process, and consequences of major Latin American social and political revolutions in the twentieth century. It will investigate a variety of types of revolutions including different urban and rural movements, as well as groups that sought radical change from high politics to the grassroots level.

The development of the Middle East from the middle of the nineteenth century to the late twentieth century. Topics covered include the end of the Ottoman and Qajar Empires, the creation of the contemporary states of the Middle East at the end of World War I, and their history from 1920 through the end of the twentieth century.

A survey of colonial Latin America that examines the contact, conflict, and accommodation among Europeans, Native Americans, and Africans that shaped colonial Latin America.

This course explores the political, social, economic, and cultural history of East Asia since the end of World War II. Of special interest are Japan's emergence transformation into an economic and cultural superpower after WWII, the establishment and growth of the People's Republic of China, the emergence of the "Asian Tigers," the Vietnam War, the crisis of the Korean Peninsula, and an analysis of the cultural and spiritual exchanges between Asia and the west in the postwar era. Prerequisite: HIST 112.

This course explores history of China since the fall of the Ming Dynasty in 1644. Of special interest are the expansion of the Qing empire, the challenges posed by the appearance of western traders in the nineteenth century, the Opium War, the Taiping Rebellion, the decline and fall of imperial China, the revolutions of the twentieth century, Mao Zedong's attempts to create a communist society after 1949, and the growth of market socialism in the era of Deng Xiaoping. Prerequisite: HIST 112.

This course explores the history of Japan from the Tokugawa era (1603-1868) through the Meiji era and the twentieth century, examining such topics as the Edo culture, the Meiji Restoration, the rise of Japanese cultural nationalism, World War II, the Occupation, and Japan's transformation in the postwar era. In addition to the political, economic, and social changes experienced in Japan, we will also look at the phenomenal influence exercised by Japanese pop culture upon the world since the 1950's. Prerequisite: HIST 112.

This course explores the major political, social, and cultural developments in Russia from the mid-nineteenth century through the end of the Soviet era, with particular focus on the crisis of Imperial Russia, the revolutions of 1905 and 1917, Stalinism, the communist party-state, and the collapse of communism.

A survey of Mexican history from the Aztec wars to the present.

The transformation in the postwar era. In addition to the political, social, intellectual, and religious history of Europe from the eighteenth century to 1815, including the Enlightenment, the fall of the ancient regime, the French Revolution, and Napoleon. Prerequisite: (HIST 102 or HIST 112).

This course seeks to give students an understanding of the history and culture of pre-modern China, Japan, Korea, and Vietnam. After exploring the historical roots of Confucianism, Daoism and Buddhism in China, students will examine the ways in which these foundational philosophies helped form social, cultural, and political institutions in China and its neighbors. Students will also focus attention on the historical emergence of the Chinese imperial system, and its greatest pre-modern exemplars, the Qin, Han and T'ang dynasties. Not limiting the focus to China alone, students will also explore how the concept of China as the "middle kingdom" influenced the language, religion and political developments in Japan and Korea, leading to an authentic "macro-culture" in East Asia. The course will finish with a discussion of samurai culture and an analysis of the change in the Mongol conquests of Central and East Asia transformed the region, taking students to the threshold of the early modern period in Asia. Prerequisite: HIST 112.

Focus on the caudillo or leader in Latin American politics. 3 credits

Some treatment of U.S. foreign policy.
INST 386 (HIST 323) Europe in the 19th Century 3 credits
The social and political history of Europe from the Congress of Vienna (1815) to the outbreak of the First World War (1914), including the industrial revolution, the revolutions of 1848, the unifications of Italy and Germany, the growth of liberalism, socialism, nationalism, and imperialism.

INST 387 (HIST 326) Europe, 1918-1939 3 credits
Europe from 1918 to 1939 including the Great War, the Paris Peace Conference and the Treaty of Versailles, the rise of fascism, the Great Depression, Hitler and national socialism, and the origins of World War II. Prerequisite: (HIST 102 or HIST 112)

INST 388 (HIST 328) 19th Century Germany 3 credits
This course examines the history of the German states from the end of the Napoleonic era to the end of the first world war. Issues to be explored include German nationalism and liberalism, the revolutions of 1848-1849, the rise of Prussia and the formation of the German Empire, and the development of political and social institutions during the imperial period.

INST 389 (POLS 364) Politics of the Pacific Rim 3 credits
Focus on the role played by the East Asian capitalist development states (Japan, South Korea, Taiwan, Hong Kong, and Singapore) in the accelerated economic growth of the Pacific Rim; a consideration of the Philippines as a representative of ASIAN; finally, a brief look at the likely impact of this Pacific Basin dynamism on the USA, Russia, and the P.R.C.

INST 390 (POLS 365) African Politics and Development 3 credits
Contemporary sub-saharan, black ruled Africa is examined in four key areas of development and politics: (1) contemporary social, economic, and ecological conditions; (2) colonial and nationalist eras; (3) development strategies and African decline; and (4) state and society tensions.

INST 391 (HIST 338) Fascist Italy 3 credits
Italian history from 1918 to 1945, including an examination of social and economic conditions in post-world war Italy, rise of the Fascist Party, the role of Benito Mussolini, the nature of fascist government in Italy, Italian imperialism under Mussolini, and the part played by Italy as an ally with Hitler’s Germany.

INST 392 (POLS 368) Tyranny to Democracy 21st Century 3 credits
Between 1974 and 2000 more than fifty countries in Southern Europe, Latin America, East Asia, and Eastern Europe shifted from authoritarian to democratic systems of government. An examination of the causes and nature of these democratic transitions. Several case studies of democratic transitions in different areas of the world will be investigated in order to understand the factors responsible for the democratic trend and to ascertain which key variables best explain completed democratic transitions and democratic consolidation.

INST 393 (POLS 367) Democratization in Eastern Europe 3 credits
Problems of and prospects for democracy in Eastern/Central Europe. The history, movements, institutions, and politics of the nations will be considered, as well as of democratization and economic reform.

INST 394 (HIST 381) Modern Latin America 3 credits
A general introduction to the history of the former colonies of Spain and Portugal in the western hemisphere. Topics include the rise of caudillos, rural developments, the emergence of liberal economic development, populism, banana republics, dictatorships, dirty wars, Marxist revolution, and contemporary predicaments.

INST 395 (POLS 354) Politics in Western Europe 3 credits
Survey of the parties, institutions, political processes, issues and policies of the major western European industrialized nations. Special focus on England, France, and Germany, but coverage will extend to the other European democracies as well.

INST 396 (PHIL 434) Chinese Philosophy 3 credits
A survey of the history of Chinese philosophy focusing on the Confucian tradition and taking other traditions such as Taoism and Buddhism into account.

INST 397 (HIST 329) Hitler’s Germany 3 credits
German history from 1918 to 1945. The causes, characteristics, and consequences of Nazi rule.

INST 398 (HIST 332) Modern Britain 3 credits
British history from 1668 to the present, emphasizing the reign of Victoria, industrialization and reform imperialism, constitutional and colonial development, the conflict with Napoleon, the Irish Home Rule, the decline of liberalism and the rise of labor, the two world wars, and the postwar welfare state.

INST 399 Area Studies Abroad 2-4 credits
Area study courses in politics, history, and economics taken abroad.

INST 406 (SPAN 406) Narrative Fiction in Spanish America 3 credits
The novel and short story in Spanish America during the twentieth century.

INST 410 (POLS 366) Perspectives on Global Issues 3 credits
A critical analysis of vital global issues from the different perspectives of realists, idealists, and system-transformers. This framework encourages an exploration of competing world views and value systems and requires the weighing of evidence from differing ideological, cultural, and gender perspectives. The major analytical perspectives and organizing concepts that scholars have fashioned to make these issues comprehensible are introduced.

INST 415 (SPAN 415) The Hispanic Cinema 3 credits
The course will focus on Spanish or Spanish American cinema, using representative films of these diverse countries to amplify student understanding of these complex societies. Taught in Spanish. Prerequisite: SPAN 301.

INST 416 (ITAL 315) The Italian Cinema 3 credits
This course aims at presenting aspects of Italian society through film. In English. Special arrangements may be made for majors in Italian Studies and minors in Italian.

INST 417 (FREN 351) Africa through Literature and Film 3 credits
In the media, Africa is very often portrayed with images of disaster and backwardness. This course challenges students to go beyond these clichés, and to analyze the lives, dreams, and challenges of African peoples by taking into consideration some historical, social, and political contexts. By resorting to films and literature produced by Africans, the course will help students look at Africa through the eyes of its people.

INST 480 Topics in International Studies 1-3 credits
Selected International Studies topics of current and special interest.

INST 490 Directed Reading 1-3 credits
Credit by arrangement for directed reading and reports on selected topics.

INST 492 Independent Research or Study 1-4 credits
Students research a topic related to their area of emphasis in International Studies, write an academic research paper, and give an oral presentation on that topic. Required of all majors in their fourth year. Prerequisite: Senior standing.
Integrated B.A. or B.S. and M.B.A.

Director: Scott Bozman
Assistant Dean, School of Business Administration

The integrated B.A. or B.S. and M.B.A. program is designed for Gonzaga students interested in liberal arts or other non-business disciplines who also seek collegiate preparation for administrative positions or business careers. By integrating preparatory business courses into their undergraduate programs of study, students are able to earn both an undergraduate degree and the Gonzaga M.B.A. within a five-year period versus six years if the degrees are completed separately.

Students choosing this program must complete their B.A. or B.S. degree and the required preparatory business courses listed below before being admitted to the Graduate School of Business and the M.B.A. program. Provisional admission may be available to students who do not complete the preparatory business courses prior to receiving their B.A. or B.S. degree.

Gonzaga-in-Florence Courses

The following Florence courses may be applied towards electives for the major and minor in Italian Studies. Complete course descriptions can be found under the Modern Languages departmental listings. Courses offered in Florence which are not offered regularly and are not on this list will need the approval of the Director of Italian Studies to be used toward the major and minor in Italian Studies.

Integrated B.A. or B.S.

Preparatory Business Courses

- ACCT 263 or ACCT 260 and ACCT 261 (Principles of Accounting I and II)
- ECON 200 or ECON 201 and ECON 202 (Microeconomics and Macroeconomics)
- BUSN 230 Business Statistics
- BUSN 283 Business Law
- MKTG 310 Principles of Marketing
- MGMT 350 Principles of Management
- BMIS 235 Management Information Systems

In addition, students should take the Graduate Management Admissions Test (GMAT) during their fourth year. Students completing the preparatory courses will be awarded an undergraduate business minor.

The M.B.A. degree program requires 33 semester hours of 600-level coursework beyond the required preparatory business courses. Additional information is contained in the Graduate Catalogue.

Italian Studies Program

Director: Gabriella Brooke

Italian Studies is an interdisciplinary program aimed at imparting an understanding of Italian culture and competence in the Italian language. The Director of the Italian Studies program is advised by a committee formed by the chairs or representatives of the departments that offer upper division electives for Italian Studies. Meetings of the advisory committee are called by the director of Italian Studies as needed.

The Bachelor of Arts degree with a major in Italian Studies includes one semester of participation in the Gonzaga-in-Florence program or comparable experience in Italy and a senior thesis (ITAL 498). Italian majors are required to take an upper division course in Italian during their fourth year regardless of credits earned.

B.A. Major in Italian Studies: 38 Credits

or 22 credits at the 300 level and above

Lower Division Courses

- ITAL 101 Elementary Italian I 4 credits
- ITAL 102 Elementary Italian II 4 credits
- ITAL 201 Intermediate Italian I 4 credits
- ITAL 202 Intermediate Italian II 4 credits

Upper Division Courses

- ITAL - - - Florence: Three electives taught in English in Italian art, comparative literature, economics, history, Italian literature, political science, or sociology 9 credits
- ITAL 301 3 credits
- Upper-division courses taught in Italian 9 credits
- ITAL 498 Senior Thesis 1 credit

Minor in Italian Studies: 25 credits

or 17 credits at the 200 level and above

Lower Division Courses

- ITAL 101 Elementary Italian I 4 credits
- ITAL 102 Elementary Italian II 4 credits
- ITAL 201 Intermediate Italian I 4 credits
- ITAL 202 Intermediate Italian II 4 credits

Upper Division Courses

- Any upper-division Italian courses or any courses chosen from those listed below: 9 credits

Chairperson: Thomas McKenzie
Professors: J. Burke, W. Carsrud (Emeritus), J. Firkins (Emeritus)
Associate Professors: T. McKenzie, G. Nord, J. Vander Beek
Assistant Professors: S. Coble, S.J., D. Larson, S. Overbay, J. Villalpando, T. Woods

The Department of Mathematics seeks to train students in both the discipline of mathematics and its application. The curriculum is a blend of pure mathematics, classical applications, and the option of a combination of mathematics and computer science. Majors are well prepared for positions in industry, government, and education, as well as for graduate studies.

The department offers three degrees: Bachelor of Arts in Mathematics, Bachelor of Science in Mathematics, and Bachelor of Science in Mathematics and Computer Science. All majors must take the senior comprehensive (MATH 499) in the fall of their final year.

Prospective teachers of mathematics should consult the School of Education for the current state certification requirements.

It is recommended that majors in mathematics take PHYS 103, CHEM 105 or BIOL 101 to satisfy their College of Arts and Sciences laboratory science requirement.

The department involves students with activities sponsored by the Mathematical Association of America. Majors may also participate in the annual William Lowell Putnam Mathematical Competition held every December.

B.S. Major in Mathematics: 40 Credits
Lower Division
MATH 157 Calculus and Analytic Geometry I 4 credits
MATH 258 Calculus and Analytic Geometry II 4 credits
MATH 259 Calculus and Analytic Geometry III 4 credits

MATH, any 400-level 3 credits
MATH --- Electives 6 credits
MATH 499 Senior Comprehensive 1 credit

Minor in Mathematics-Computer Science is not available

Lower Division
MATH 103 Excursions In Mathematics 3 credits
An elementary survey of various mathematical areas such as algebra, geometry, counting (permutations, combinations), probability, and other topics selected by the instructor. This course is intended for the liberal arts student not pursuing business or the sciences. Fall and Spring. Prerequisite: Two years of high school algebra.

MATH 112 College Algebra 3 credits
College algebra for those students who need additional preparation before taking MATH 114, MATH 147, or MATH 148. Topics include equations, polynomials, conics, graphing, algebraic, exponential and logarithmic functions. Fall and Spring. Prerequisite: Two years of high school algebra.

MATH 114 Mathematical Analysis-Business 3 credits
Designed for the student majoring in business. Topics selected from: functions, systems of linear equations and matrices, linear programming, elementary probability, and an introduction to differential calculus. Fall and Spring. Prerequisite: MATH 112 or equivalent.

MATH 121 Introductory Statistics 3 credits
An introduction to the basic concepts of descriptive and inferential statistics and their application to the interpretation and analysis of data. Fall and Spring. Prerequisite: Two years of high school algebra.

MATH 147 Precalculus 3 credits
Topics include advanced equations and inequalities, functions and graphs including composite and inverse functions, logarithmic and exponential functions, trigonometric functions and their graphs, right angle trigonometry, trigonometric identities, systems of equations, and conics. Fall and Spring. Prerequisite: MATH 112 or (two years of high school algebra and one year of high school geometry).

MATH 148 Survey of Calculus 3 credits
A one-semester introduction to differential and integral calculus designed to convey the significance, use and application of calculus for liberal arts students, particularly those in the behavioral, biological, and social sciences. Fall and Spring. Prerequisite: MATH 112 or a strong high school background in algebra, functions, and graphs.
MATH 157 Calculus and Analytic Geometry I 4 credits
Functions, continuity, the derivative with application to curve sketching and maximum-minimum problems, introduction to limits, and the integral. Fall and Spring. Prerequisite: MATH 147.

MATH 203 Math for Elementary Teachers I 3 credits
Does not satisfy the university core requirement in mathematics unless the student earns a Teacher Certificate in Elementary Education. Topics include problem solving, sets and logic, functions, geometry, and number theory. Fall and Spring. Prerequisite: EDTE 101 or permission from department.

MATH 231 Discrete Structures 3 credits
Topics taken from sets, functions, matrices, ordered sets, partially ordered sets, directed graphs, algebraic systems, recursive definitions, and algorithms. Fall. Prerequisite: MATH 258.

MATH 258 Calculus and Analytic Geometry II 4 credits
Introduction to exponential, logarithmic, and hyperbolic functions; parametric equations; polar coordinates; techniques and applications of integration. Fall and Spring. Prerequisite: MATH 157 (with a grade of C- or higher strongly recommended).

MATH 259 Calculus and Analytic Geometry III 4 credits
Infinite series, vectors, partial derivatives, multiple integrals, solid analytic geometry including spherical and cylindrical coordinates. Fall and Spring. Prerequisite: MATH 258 (with a grade of C- or higher strongly recommended).

MATH 260 Ordinary Differential Equation 3 credits
Solution methods for first order equations, and for second and higher order linear equations. Includes series methods, and solution of linear systems of differential equations. Fall and Spring. Prerequisite: MATH 259.

MATH 290 Directed Reading 1-3 credits
Readings and reports in selected mathematical topics. On sufficient demand. Prerequisite: MATH 157.

Upper Division

MATH 301 Fundamentals of Mathematics 3 credits
A development of standard proof techniques through examination of logic, set theory, topology of the real line, one-to-one, onto, and inverse functions. Additional topics may be chosen from analysis and algebra. Fall and Spring. Prerequisite: MATH 259.

MATH 321 Statistics For Experimentalist 3 credits
An applied statistics course for those with calculus preparation. Descriptive statistics, probability theory, discrete and continuous random variables, and methods of inferential statistics including interval estimation, hypothesis testing, and regression. Fall and Spring. Prerequisite: MATH 258.

MATH 328 Operations Research 3 credits
Quantitative methods for application to problems from business, engineering, and the social sciences. Topics include linear and dynamic programming, transportation problems, network analysis, PERT, and game theory. Spring, even years. Prerequisite: MATH 258.

MATH 339 Linear Algebra 3 credits
A systematic study of matrices, vector spaces, and linear transformations. Topics include systems of linear equations, determinants, dependence, bases, dimension, rank, eigenvalues and eigenvectors. Applications include geometry, calculus, and differential equations. Fall and Spring. Prerequisite: MATH 259.

MATH 341 Modern Geometry 3 credits
Axiomatic systems for, and selected topics from, Euclidean geometry, projective geometry, and other non-Euclidean geometries. Special attention will be given to the needs of the individuals preparing to teach at the secondary level. Fall, even years. Prerequisite: MATH 259.

MATH 350 Elementary Numerical Analysis 3 credits
An introduction to numerical analysis: root finding, interpolation, numerical integration and differentiation, finite differences, numerical solution to initial value problems, and applications on a digital computer. Spring, odd years. Prerequisite: MATH 258.

MATH 351 Combinatorics and Graph Theory 3 credits
An introduction to combinatorics and graph theory with topics taken from counting techniques, generating functions, combinatorial designs and codes, matchings, directed graphs, paths, circuits, connectivity, trees, planarity, and colorings. Fall, odd years. Prerequisite: MATH 301.

MATH 360 – 363 Selected Topics 1-3 credits
Various areas of pure and applied mathematics presented at a level accessible to those just completing calculus. On sufficient demand. Prerequisite: MATH 259 or permission from department.

MATH 413 Advanced Calculus I 3 credits
Notions from set theory, the real number system, topology of the real line, continuity (including uniform continuity), differentiation, Riemann integration, sequences, and infinite series of numbers and functions. Fall, even years. Prerequisite: MATH 301 or permission from department.

MATH 414 Advanced Calculus II 3 credits
Continuation of MATH 413. Spring, odd years. Prerequisite: MATH 413.

MATH 417 Complex Variables 3 credits
Complex numbers and functions, analyticity and the Cauchy-Riemann equations, integration, and Cauchy’s theorem and formula. Other topics chosen from Taylor and Laurent series, the calculus of residues, conformal mapping, and applications. Spring, odd years. Prerequisite: MATH 301 or permission from department.

MATH 421 Probability Theory 3 credits
A mathematical treatment of the laws of probability with emphasis on those properties fundamental to mathematical statistics. General probability spaces, combinatorial analysis, random variables, conditional probability, moment generating functions, Bayes’ law, distribution theory, and law of large numbers. Fall, odd years. Prerequisite: MATH 301 or permission from department.

MATH 422 Mathematical Statistics 3 credits
An examination of the mathematical principles underlying the basic statistical inference techniques of estimation, hypothesis testing, regression and correlation, non-parametric statistics, analysis of variance. Spring, even years. Prerequisite: MATH 421.

MATH 437 Abstract Algebra I 3 credits
A detailed examination of topics chosen from groups, rings, integral domains, Euclidean domains, unique factorization, fields, Galois theory, and solvability by radicals. Fall, odd years. Prerequisite: MATH 301 or permission from department.
Modern Languages and Literature

Chairperson: Benjamin Semple
Professor: G. Brooke
Associate Professors: M. Gonzales, F. Kuester, S. Nedderman, B. Semple
Assistant Professor: L. Garcia-Torvisco, B. Krause
Instructors: D. Birginal, S. Katsushima, S. Sow

The Department of Modern Languages and Literature offers the Bachelor of Arts degree with majors in French and Spanish, and cooperates in offering majors in Italian Studies, Latin American Studies, European Studies and Asian Studies, with the Departments of Art, History and Political Science; more information on these programs can be found elsewhere in this catalogue.

Minors are available in French, German, Italian, Italian Studies, and Spanish. Students interested in a minor in these languages are encouraged to consider a European Studies major. This major, along with its language skills, will provide an understanding of the changes in the new integrated Europe. It will also be a very marketable degree. All language majors are encouraged to become proficient in a foreign language through study abroad; secondary education language majors are required to study abroad. All language majors take a comprehensive exam or a thesis; content varies by language.

A waiver for lower division requirements may be granted by the chairperson of the department on recommendation of faculty according to the student's level of achievement or background. All majors need a minimum of 19 credits at the 300 level or above.

Three or six credits will be granted to students who achieve a score of four or five on the Advanced Placement Examination. Credit will not be given to native speakers of a language for their knowledge of that language. Native speakers or students with near-native fluency will not be allowed to enroll in first year language courses of their native language. They will be placed into an appropriate course level according to their skills. No course can be challenged for credit.

Gonzaga also offers a one-year or one-semester program of study in Paris, France. Courses taken at the Sorbonne and/or the Institut Catholique may be transferred to Gonzaga and applied to the major requirement. Gonzaga-in-Florence, Italy, admits students for a year or a semester of study. There is also a summer program in Florence. The department has a fall and spring semester program in Granada, Spain, plus a summer intensive program (up to 6 credits) in Cuernavaca, Mexico. Study abroad programs in Japan and China are also available through the University. Study in Germany with the Goethe-Institut is available during the summer. The Asian Studies, Latin American Studies, and European Studies Programs, which are part of the International Studies major, are fully described under International Studies.

B.A. Major in French: 35 Credits

or 19 credits at the 300 level and above

Lower Division
FREN 101 and 102 Elementary French I and II 8 credits
FREN 201 and 202 Intermediate French I and II 8 credits

Upper Division
FREN 330 Literary Genres 3 credits
FREN 331 Contemporary French Cinema 3 credits
FREN 333 Survey of French Literature 3 credits
FREN 350 French Civilization and Culture 3 credits
FREN - - - Electives 6 credits
FREN 499 Senior Comprehensive 1 credit
FREN 333 open to French minors by permission of the instructor only. Minors in French are encouraged to study abroad for one semester in Paris or in an approved summer program.

B.A. Major in Spanish: 35 Credits

or 19 credits at the 300 level and above

Lower Division
SPAN 101 Elementary Spanish I 4 credits
SPAN 102 Elementary Spanish II 4 credits
SPAN 201 Intermediate Spanish I 4 credits
SPAN 202 Intermediate Spanish II 4 credits

Upper Division
SPAN 301 Advanced Spanish 3 credits
SPAN 302 Conversation and Composition 3 credits
SPAN 303, 304, 307 or 308 6 credits
SPAN 409 or SPAN 410 3 credits
SPAN - - - Electives 3-9 credits
SPAN 499 Spanish Comprehensive 1 credit

(All upper division required courses for the Spanish major must be taken on the Gonzaga campus)
## Modern Languages

### Minor in French or German or Italian or Spanish: 28 Credits

or 20 credits from the 200 level and above, including 12 credits at the upper-division level

#### Lower Division

**German**

**Lower Division**

**GERM 101 Elementary German I**

This course aims to develop in the student the four language skills of oral comprehension, speaking, reading, and writing. Required of all majors in their fourth year.

**GERM 102 Elementary German II**

A continuation of GERM 101. Prerequisite: GERM 101 or permission from department.

**GERM 201 Intermediate German I**

Review and further training in the fundamentals of grammar and syntax; work in oral German and progressive exercises in reading and composition. Prerequisite: GERM 102 or permission from department.

**GERM 202 Intermediate German II**

A continuation of GERM 201. Prerequisite: GERM 201 or permission from department.

**GERM 290 Directed Study**

Topic to be decided by faculty.

**Upper Division**

**GERM 301 Advanced German**

Reading and discussion of short stories with writing and grammar review. Prerequisite: GERM 202 or permission from department.

**GERM 305 German Conversation**

Modern texts are the basis for structured conversations within a correct grammatical framework. Prerequisite: GERM 202 or permission from department.

**GERM 306 German Youth Literature**

This course focuses on popular texts written for children and young adults. Advanced grammar will be part of the course. Prerequisite: GERM 202 or permission from department.

**GERM 307 Contemporary Issues**

Reading and discussion of current social, political, economic and environmental issues of German speaking countries as represented by their media. Prerequisite: GERM 202 or permission from department.

**GERM 330 Literary Genres**

A study of examples of the major literary forms (prose, drama, and poetry) in their historical context. Prerequisite: GERM 202 or permission from department.

**GERM 480 Seminar**

Specific topic chosen by professor.

**GERM 491 Directed Reading**

Selected reading by arrangement.

**Italian**

**Lower Division**

**ITAL 101 Elementary Italian I**

Grammar, composition, verbal practice and oral comprehension form the basis of this course. Designed to provide the student with the fundamentals of the Italian language. Fall or Spring.

**ITAL 102 Elementary Italian II**

A continuation of ITAL 101. Fall (in Florence) and Spring. Prerequisite: ITAL 101.

**ITAL 105 Elementary Italian Conversation**

Students learn to use the language in a variety of everyday situations through focused practice in class and organized encounters with native speakers of Italian. Does not count toward the requirement of one year of Italian for the Florence program or the Arts and Sciences core requirement. Prerequisite or co-requisite: ITAL 101.

**ITAL 106 Elementary Italian Conversation II**

A continuation of ITAL 105. Vocabulary and grammar presented in Italian 102 are reinforced. Does not count toward the requirement of one year of Italian for the Florence program or the Arts and Sciences core requirement. Prerequisite or co-requisite: ITAL 102.

**Upper Division**

- Course Code: ITAL 201
  - Course Title: Intermediate Italian I
  - Credits: 4
  - Description: This course will build on existing skills in Italian, increase the ability to read, write, speak and understand the language, and introduce students to more refined lexical items, more complex grammatical structures, and more challenging cultural material. Fall (main campus) or Fall and Spring (Florence). Prerequisite: ITAL 102.
- Course Code: ITAL 202
  - Course Title: Intermediate Italian II
  - Credits: 4
  - Description: A continuation of ITAL 201. Spring. Prerequisite: ITAL 201.
- Course Code: ITAL 205
  - Course Title: Intermediate Conversation
  - Credits: 3
  - Description: Prerequisite or co-requisite: ITAL 201.
- Course Code: ITAL 206
  - Course Title: Intermediate Conversation II
  - Credits: 3
  - Description: Prerequisite or co-requisite: ITAL 202.
- Course Code: ITAL 280
  - Course Title: Special Topics I
  - Credits: 3-6
  - Description: Permission from department required.
- Course Code: ITAL 290
  - Course Title: Directed Study
  - Credits: 1-3
  - Description: Topic to be decided by faculty.
- Course Code: ITAL 301
  - Course Title: Advanced Italian I
  - Credits: 3
  - Description: Advanced review of grammatical structures through conversation, readings, compositions and oral comprehension. In Italian. Prerequisite: ITAL 202.
- Course Code: ITAL 302
  - Course Title: Advanced Italian II
  - Credits: 3
  - Description: Advanced review of grammatical structures through conversation, readings, presentations and oral comprehension. Can be taken alone or as a continuation of ITAL 301. In Italian. Prerequisite: ITAL 202.
- Course Code: ITAL 303
  - Course Title: Survey of Italian Literature I
  - Credits: 3
  - Description: An overview of Italian literature from the age of Dante through the Renaissance, including Petrarch, Boccaccio and Machiavelli. In English or Italian.
- Course Code: ITAL 304
  - Course Title: Survey Italian Literature II
  - Credits: 3
  - Description: An overview of Italian literature from the Renaissance through contemporary times. In English or Italian.
- Course Code: ITAL 306
  - Course Title: Advanced Conversation
  - Credits: 3
  - Description: Advanced conversation for students returning from Florence. In Italian. Prerequisite: ITAL 202.
- Course Code: ITAL 307
  - Course Title: Conversational Approach to Contemporary Issue
  - Credits: 3
  - Description: A course designed for those who wish to continue to improve their conversational skills. Taught in Italian. Prerequisite: ITAL 202.
- Course Code: ITAL 314
  - Course Title: Fascism in Film and Literature
  - Credits: 3
  - Description: This class examines the way fascism is presented in selected novels and films. An important objective of the course is to study the impact of Fascism on segments of the Italian population which did not conform to fascist ideals. In English. Special arrangements may be made for majors in Italian Studies and minors in Italian.
- Course Code: ITAL 315
  - Course Title: The Italian Cinema
  - Credits: 3
  - Description: This course aims at presenting aspects of Italian society through film. In English. Special arrangements may be made for majors in Italian Studies and minors in Italian.
- Course Code: ITAL 316
  - Course Title: The Italian Short Story I
  - Credits: 3
  - Description: The development of the Italian short story from its origin through the Baroque. Included are stories from the Novellino, the Decameron, the Novelliere, and the Pentameron. In Italian. Prerequisite: ITAL 202.
- Course Code: ITAL 317
  - Course Title: Italian Short Story II
  - Credits: 3
  - Description: The Italian short story through the works of the nineteenth and twentieth century authors. In Italian. Prerequisite: ITAL 202.
- Course Code: ITAL 319
  - Course Title: Mafia and Political Violence in Italian Film and Literature
  - Credits: 3
  - Description: A study of organized crime in Italian society. In English. Special arrangements may be made for majors in Italian Studies and minors in Italian.
- Course Code: ITAL 320
  - Course Title: The New Immigrants: Cultural Diversity in Italian Film and Literature
  - Credits: 3
  - Description: This course will explore the impact of immigration from Third World countries on Italian society through the study of novels, non fiction and film. In English. Special arrangements may be made for majors in Italian Studies and minors in Italian.
- Course Code: ITAL 322
  - Course Title: The Italian Historical Novel
  - Credits: 3
  - Description: This course will explore the development of the historical novel in Italy with emphasis on modern historical novels. In English. Special arrangements may be made for majors in Italian Studies and minors in Italian.
- Course Code: ITAL 330
  - Course Title: Literary Genres
  - Credits: 3
  - Description: A study of examples of the major literary genres (narrative, dramatic, and poetic). In Italian. Prerequisite: ITAL 202.
- Course Code: ITAL 335
  - Course Title: Italian Civilization and Culture
  - Credits: 3
  - Description: Readings and discussion of various aspects of Italian life such as art, cinema, politics, literature, history, fashions, etc. In Italian. Prerequisite: ITAL 202.
- Course Code: ITAL 336 (HIST 311)
  - Course Title: The Roman Republic
  - Credits: 3
  - Description: The political, social and cultural history of Rome from its origins to the end of the Republic in c 27 B.C., with special attention to internal social and political conflicts, involving such figures as the Gracchi, Pompey, and Julius Caesar, and to Rome's creation of a massive empire through conquest. In English.
- Course Code: ITAL 336 (HIST 312)
  - Course Title: The Roman Empire
  - Credits: 3
  - Description: The political, social and cultural history of Rome during the age of the Emperors, from Augustus' creation of the principate in c. 27 B.C. to the fall of the Roman Empire in the west in A.D. 476, with special attention to the workings of the Imperial system, daily life, the rise of Christianity, and Rome's ultimate demise. In English.
- Course Code: ITAL 336 (HIST 313)
  - Course Title: Medieval Europe
  - Credits: 3
  - Description: Developments in the first flowering of western European civilization, C.A.D. 500-1350, including feudalism, the rise of representative assemblies, the commercial revolution and the papal monarchy. Taught at both the main campus and Florence campus. In English.
- Course Code: ITAL 336 (HIST 315)
  - Course Title: Renaissance Europe
  - Credits: 3
  - Description: The history of western Europe 1350-1550, emphasizing the political, religious, social, and economic foundations for the cultural achievements of the age of Michelangelo, Henry VIII, and Joan of Arc. Taught at both the main campus and the Florence campus. In English.
- Course Code: ITAL 390-391
  - Course Title: Directed Study
  - Credits: 1-3
  - Description: Topic to be decided by faculty.
- Course Code: ITAL 440 (WOMS 427)
  - Course Title: Women in Italian Literature
  - Credits: 3
  - Description: This course examines the contribution of women novelists to Italian literature through the discussion of contemporary novels by women. In English. Special arrangements may be made for majors in Italian Studies and minors in Italian.
- Course Code: ITAL 498
  - Course Title: Italian Studies Thesis
  - Credits: 1
  - Description: Thesis permission from department only.

SPAN 401 Spanish Poetry 3 credits
This course studies the evolution of Spanish verse from origins to the present. Emphasis is on major poets and the effects of their writings on subsequent generations. Prerequisite: SPAN 302.

SPAN 403 Spanish Theater 3 credits
Spanish theater from its origins to the present. Emphasis on the significance of the Golden Age of theater to the evolution of this genre. Prerequisite: SPAN 302.

SPAN 404 Spanish-American Theater 3 credits
Spanish American theater from colonial period to the present. Emphasis placed on the contemporary period and the theater that evolved subsequent to the Modernist period. Prerequisite: SPAN 302.

SPAN 405 Narrative Fiction in Spain 3 credits
Analysis of the historical evolution of the novel and short story and their literary antecedents in Spain, from origins to the present. Prerequisite: SPAN 302.

SPAN 406 (INST 406) Narrative Fiction in Spanish America 3 credits
The novel and short story in Spanish America during the twentieth century. Prerequisite: SPAN 302.

SPAN 408 The Spanish American Essay 3 credits
Overview of the history of Spanish American thought as expressed in this specific genre. Essay of post-independence period stressed. Prerequisite: SPAN 302.

SPAN 409 Spanish Civilization and Culture 3 credits
A study of Spanish history and the historical development of the country's art, music, architecture, social customs and values. Prerequisite: SPAN 302.

SPAN 410 Spanish-American Civilization and Culture 3 credits
A study of Spanish American history and historical development of the region's art, music, architecture, social customs and values. Prerequisite: SPAN 302.

SPAN 411 Mexican Culture 3 credits
Summer session course in Mexico on Mexican society, art, history and literature. Prerequisite: SPAN 302.

SPAN 415 (INST 415) The Hispanic Cinema 3 credits
The course will focus on Spanish or Spanish American cinema, using representative films of these diverse countries to amplify student understanding of these complex societies. Prerequisite: SPAN 302.

SPAN 419 Translation 3 credits
Course offered in Granada, Spain only. Prerequisite: SPAN 301.

SPAN 420 Current Spanish Socio-Political Life 3 credits
Course offered in Granada, Spain only. Prerequisite: SPAN 301.

SPAN 425 Contemporary Spanish History 3 credits
Course offered in Granada, Spain only. Prerequisite: SPAN 301.

SPAN 427 Franco Era 3 credits
Course offered in Granada, Spain only. Prerequisite: SPAN 301.

SPAN 428 Modern Spanish History 3 credits
Course offered in Granada, Spain only. Prerequisite: SPAN 301.

SPAN 429 Latin American History 3 credits
Prerequisite: SPAN 301.

SPAN 431 Golden Age Literature 3 credits
Course offered in Granada, Spain only. Prerequisite: SPAN 301.

SPAN 433 Spanish Ancient and Medieval Art 3 credits
Prerequisite: SPAN 301.

SPAN 434 Spanish Contemporary Art 3 credits
Course offered in Granada, Spain only. Prerequisite: SPAN 301.

SPAN 436 19th and 20th Century Literature 3 credits
Course offered in Granada, Spain only. Prerequisite: SPAN 301.

SPAN 438 Contemporary Spanish Poetry 3 credits
Course offered in Granada, Spain only. Prerequisite: SPAN 301.

SPAN 440 Women Writers in Spanish Literature 3 credits
The topics of this course will change periodically. Works will be considered within their social and ideological context. We will raise questions of power, knowledge, and explore the ways power impinges on being/body/tongue. Taught in English/Spanish. Prerequisite: SPAN 302.

SPAN 442 20th Century Latin American Women Literature 3 credits
Studies and analyzes narrative fiction (short stories and novels) and essays written by or about Latin American women writers since 1970. Prerequisite: SPAN 302.

SPAN 446 Business Spanish 2-3 credits
Taught in Granada only

SPAN 447 European Union 2-3 credits
Taught in Granada only

SPAN 470 Special Topics Study Abroad 3 credits
Social outreach course: readings on and volunteer work with Hispanic community. Prerequisite: SPAN 302.

SPAN 480 Seminar 3 credits
Specific topics to be chosen by professor. Prerequisite: SPAN 302.

SPAN 481 Seminar 3 credits
Specific topics to be chosen by professor. Prerequisite: SPAN 302.

SPAN 482 Spanish Dialects 3 credits
Course offered in Granada, Spain only. Prerequisite: SPAN 302.

SPAN 490 Directed Study 1-3 credits
Readings and reports on selected topics. By arrangement. Prerequisite: SPAN 302.

SPAN 491 Directed Reading 1-3 credits
Readings and reports on selected topics. By arrangement. Prerequisite: SPAN 302.

SPAN 499 Comprehensive 1 credit
Required of all majors in their fourth year.
Music

Chairperson: Robert Spittal
Professors: E. Schaefer, J. K. Waters, S.J.
Associate Professors: K. Hekmatpanah, R. Spittal, G. Uhlenkott, S.J.
Instructor: D. Fague

The Music department offers the degrees of Bachelor of Arts in Music and the Bachelor of Arts in Music Education, as well as several minors in music. The Bachelor of Arts in Music has several possible emphases, including performance, composition, music literature, and liturgical music. The Bachelor of Arts in Music Education certifies the graduate to teach music in the elementary and secondary schools in the State of Washington and many reciprocating states. Students majoring in music education may elect one of two tracks, choral and general music or instrumental and general music, or they may combine the tracks. Students should consult the School of Education for additional course requirements to obtain teacher certification.

All music majors are required to be involved in a major ensemble (orchestra, wind ensemble, or choir) and applied lessons in their major instrument each semester after declaration as a music major. Majors in the performance track are required to enroll in applied lessons for two credits every semester beginning the sophomore year. Students must audition to enter upper-division applied lessons (MUSC 331). All music majors are also required to pass a functional keyboard proficiency examination. Those students who are awarded music scholarships are required to be involved actively in the department, maintain high academic standards, and participate in a major ensemble and applied lessons each semester.

The instrumental and vocal ensembles are open, some through audition, to all students regardless of major. Individual lessons are also available in voice, piano, organ, guitar, woodwinds, strings, brass, and percussion.

B.A. Major in Music: 39-50 Credits

Lower Division

MUSC 131 Applied Lessons 2 credits
MUSC 231 Applied Lessons 2 credits
(4 credits for performance emphasis)
MUSC 140, or 146, or 147 Ensembles 4 credits
MUSC 161 Music Theory I 3 credits
MUSC 162 Music Theory II 3 credits
MUSC 261 Music Theory III 3 credits
MUSC 262 Music Theory IV 3 credits

Upper Division

MUSC 390 Music History I 3 credits
MUSC 391 Music History II 3 credits
MUSC 461 18th Century Counterpoint 3 credits
MUSC 462 Orchestration 3 credits

Music Literature Emphasis: 39 Credits

One music elective from the following 3 credits
(MUSC 375, 345, 346, or 347)
MUSC 399 Research Methods and Materials 3 credits
MUSC 499 Senior Thesis 1 credit

Performance Emphasis: 44 Credits

MUSC 331 Applied Lessons 4 credits
MUSC 431 Applied Lessons 4 credits
MUSC 311 Conducting 2 credits
MUSC 325 Half Recital 0 credit
MUSC 425 Full Recital 0 credit

Composition Emphasis: 40 Credits

MUSC 364 Composition 2 credits
MUSC 464 Composition 4 credits
MUSC 311 Conducting 2 credits
MUSC 326 Composition Junior Portfolio 0 credit
MUSC 426 Composition Senior Portfolio 0 credit

Liturgical Music Emphasis: 50 credits

MUSC 331 Applied Lessons, primary instrument (keyboard or voice) 2 credits
MUSC 431 Applied Lessons, primary instrument (keyboard or voice) 2 credits
MUSC 131, 231 Applied Lessons, secondary instrument (keyboard or voice) 2 credits
MUSC 311 Conducting 2 credits
MUSC 325 Half Recital (primary instrument) 0 credit
MUSC 333 Applied Conducting 1 credit
MUSC 347 Music in the Catholic Church 3 credits
MUSC 451 Gregorian Chant 3 credits
MUSC 497 Internship 3 credits

Notes:
-at least two ensemble credits must be in MUSC 151 Gregorian Schola;
-students must attain at least upper elementary level proficiency on the second instrument (organ or voice);
-the internship must be structured in such a way that the student has some significant responsibilities in planning, preparing and executing music for a certain number of liturgies.

B.A. Major in Music Education: 48 - 55 Credits

Required Music Courses (all tracks)

Lower Division

MUSC 131 Applied Lessons 2 credits
MUSC 231 Applied Lessons 2 credits
MUSC 140, or 146, or 147 Ensembles 4 credits
MUSC 161 Music Theory I 3 credits
MUSC 162 Music Theory II 3 credits
MUSC 261 Music Theory III 3 credits
MUSC 262 Music Theory IV 3 credits

Upper Division

MUSC 311 Conducting 2 credits
MUSC 390 Music History I 3 credits
MUSC 391 Music History II 3 credits
MUSC 461 18th Century Counterpoint 3 credits
MUSC 462 Orchestration 3 credits

Required Music Education Courses (all tracks)

MUSC 354 Music Education Methods 3 credits
MUSC 133, 134, 135, 136 Brass, Woodwind, String, Percussion Methods 4 credits
MUSC 333 Applied Conducting 1 credit

Choral and General Track: 48 Credits

MUSC 140 Gonzaga University Choir 4 credits
MUSC 325 Half Recital 0 credit
MUSC 331 Applied Lessons (Voice) 2 credits

Instrumental and General Track: 48 Credits

One of the following two 4 credits
MUSC 146 Wind Ensemble
MUSC 147 Orchestra
MUSC 325 Half Recital 0 credit
MUSC 331 Applied Lessons (Instrument) 2 credits
Combined Choral, Instrumental and General Track: 54 Credits

- MUSC 131, 231 Applied Lessons 4 credits (second instrument)
- MUSC 140, 146 or 147 Ensembles 4 credits (second instrument)
- MUSC 140, 146 or 147 Ensembles 2 credits (second area)
- MUSC 325 Half Recital (primary instrument) 0 credit
- MUSC 331 Applied Lessons 2 credits

For the B.A. in Music Education degree additional credits of education courses are required. For required course information consult the School of Education and the Music department Handbook.

Minor in Music Performance: 20 credits

- MUSC 131, 231, or higher Applied Lessons 4 credits (one instrument)
- MUSC 140, 141, 146 or 147 Ensembles 4 credits
- MUSC 161 Music Theory I 3 credits
- MUSC 162 Music Theory II 3 credits
- MUSC 171 Music in the Humanities 3 credits
- Music Elective 3 credits

(MUSC 175, 245, 246, 247)

Minor in Jazz: 20 Credits

- MUSC 131, 231, or higher Applied Lessons 4 credits (one instrument)
- MUSC 142, 149, 152 Jazz Ensembles 4 credits
- MUSC 161 Music Theory I 3 credits
- MUSC 162 Music Theory II 3 credits
- MUSC 175 Jazz History 3 credits
- Music Elective 3 credits

(MUSC 171, 245, 246, 247)

Minor in Music Literature: 20 credits

- MUSC 131, 231, or higher Applied Lessons 4 credits (one instrument)
- MUSC 140, 141, 146 or 147 Ensembles 4 credits
- MUSC 171 Music in the Humanities 3 credits
- Music Elective 9 credits

(MUSC 175, 245, 246, 247)

Lower Division

- MUSC 121 Piano Class I 1 credit
  Designed for the pianist with no previous keyboard skills or note reading ability. Emphasis is on basic terminology, technique, and musical concepts. Literature includes classical to contemporary.

- MUSC 122 Piano Class II 1 credit
  A continuation of MUSC 121, designed for both the student with some past keyboard experience and music majors preparing for the keyboard competency exam. Includes review of basics, plus technique, sight-reading, harmonizing, transcription, improvisation, and literature. Prerequisite: MUSC 121.

- MUSC 123 Guitar Class I 1 credit
  Designed for the beginning guitarist. Emphasis on turning, position, chords, and basic reading skills.

- MUSC 124 Guitar Class II 1 credit
  A continuation of Guitar Class I. Prerequisite: MUSC 123.

- MUSC 125 Vocal Class 1 credit
  Designed for the beginning vocalist. Emphasizes the development of basic techniques of breath management, posture, tone quality, and diction. Includes study of vocal theory, exercise materials, and an introduction to standard vocal literature.

- MUSC 131A Applied Piano 1-2 credits
- MUSC 131B Applied Organ 1-2 credits
- MUSC 131C Applied Voice 1-2 credits
- MUSC 131D Applied Violin/Viola 1-2 credits
- MUSC 131E Applied Cello 1-2 credits
- MUSC 131F Applied Oboe 1-2 credits
- MUSC 131G Applied Guitar 1-2 credits
- MUSC 131H Applied String Bass 1-2 credits
- MUSC 131I Applied Clarinet 1-2 credits
- MUSC 131J Applied Saxophone 1-2 credits
- MUSC 131K Applied Flute 1-2 credits
- MUSC 131L Applied Trumpet 1-2 credits
- MUSC 131M Applied Low Brass 1-2 credits
- MUSC 131N Applied Percussion 1-2 credits
- MUSC 131O Applied Jazz Piano 1-2 credits
- MUSC 131P Applied Bassoon 1-2 credits
- MUSC 131Q Applied French Horn 1-2 credits
- MUSC 131R Applied Jazz Improvisation 1-2 credits
- MUSC 131S Applied Electric Bass 1-2 credits
- MUSC 131T Applied Conducting 1-2 credits
- MUSC 131U Applied Jazz Bass 1-2 credits
- MUSC 131V Applied Harp 1-2 credits
- MUSC 131W Applied Harpsichord 1-2 credits
- MUSC 131X Applied Jazz Guitar 1-2 credits
- MUSC 133 Brass Methods 1 credit
  Designed to formulate principles for teaching the brass instruments. Discussion, demonstration, and performance on the brass instruments. Includes development of proper embouchure, tone production, intonation, range and tone quality. Representative repertoire and teaching materials studied.

- MUSC 134 Woodwind Methods 1 credit
  Designed to formulate principles for teaching the woodwind instruments. Discussion, demonstration, and performance on the woodwind instruments. Includes development of proper embouchure, tone production, intonation, range and tone quality. Representative repertoire and teaching materials studied.

- MUSC 135 Strings Methods 1 credit
  Designed to formulate principles for teaching the string instruments. Discussion, demonstration, and performance on the string instruments. Includes development of proper bowing, tone production, intonation, range and tone quality. Representative repertoire and teaching materials studied.

- MUSC 136 Percussion Methods 1 credit
  Designed to formulate principles for teaching the percussion instruments. Discussion, demonstration, and performance on the percussion instruments. Includes development of snare drum technique, proper grip, striking action, and tone quality. Representative repertoire and teaching materials studied.

- MUSC 137 Choral Methods 1 credit
- MUSC 140 Gonzaga University Choir 1 credit
  Audition required.

- MUSC 141 Gonzaga Chorale 1 credit
  A choir open without audition to all members of the University and Spokane community. The Chorale sings works selected predominantly from the choral-orchestra repertoire.

- MUSC 142 Jazz Choir 1 credit
  Audition required. Prerequisite: MUSC 141.

- MUSC 143 Chamber Singers 1 credit
  Audition required. Prerequisite: MUSC 141.

- MUSC 145 Gonzaga Women’s Chorus 1 credit
  A choir open without audition to all students. The Women’s Chorus sings SSAA literature. May be repeated for credit.

An exploration of the high moments in the history of opera as well as an explanation of some common features of the genre constitute the principal ingredients of this course. By means of recordings and videotape, an ample sampling of opera productions punctuates the course through the semester.
Philosophy

Chairperson: Brian Steverson
Professors: M. Alfino, D. Kries, W. Pomerleau, T. Rukavina (Emeritus), R. Spitzer, S.J., R.M. Volbrecht, T. Jeannot
Assistant Professor: Kirk Besmer, T. DiMaria, D. Hutchins, E. Maccarone, E. Schmidt

Philosophy has played a central role in Jesuit education since its inception, a tradition that is reflected by the place of philosophy in the Gonzaga University core curriculum. Philosophy courses required as part of the University core curriculum for all undergraduate programs aid students in developing skills of thought and logical analysis (PHIL 101), introduce students to sustained reflection on basic questions of human nature and personhood (PHIL 201), and examine the practical and theoretical considerations relevant to human morality and value (PHIL 301). The 400-level elective requirement vitally contributes to a liberal arts education by giving the student critical distance, through philosophical reflection, from immediate involvement in career, professional, academic, and human concerns.

The Philosophy department also offers courses leading to the Bachelor of Arts degree with a major or minor in philosophy. Beyond courses required by the University core, students must complete an additional nine credits of upper-division course work for a philosophy minor, and twenty-seven additional upper-division hours for the philosophy major. Two special features of the philosophy major curriculum are the Philosophy Major Pro Seminar, which orients new philosophy majors to the main issues and problems in philosophy and offers practice in philosophical writing, and the Senior Seminar. Philosophy majors should register for the Pro Seminar as soon as possible after declaring a philosophy major, normally in the fall of their junior year; the Senior Seminar is a capstone course in the spring of the senior year.

An undergraduate major in philosophy is useful preparation for a variety of careers. The focus on logic, argumentation, and moral theory is valuable to students with career plans in business, law, public policy, or government service can benefit from the many courses which provide reflective analysis on the ways in which political, moral, and social values are embedded in social institutions. A degree in philosophy can be valuable when applying to a variety of professional schools which actively look for liberal arts majors and to employers who do the same.

Transfer students who have taken philosophy courses at other institutions may have some or all of the core courses substituted if, in the judgment of the department, they are equivalent to those courses required at Gonzaga and if a grade of "C" or better was earned.
**B.A. Major in Philosophy: 38 Credits**

**Lower Division**
- PHIL 101 Critical Thinking 2 credits
- PHIL 201 Philosophy of Human Nature 3 credits

**Upper Division**
- PHIL 301 Ethics 3 credits
- PHIL 400 Philosophy Major Pro seminar 3 credits
- PHIL 401 History of Ancient Philosophy 3 credits
- PHIL 405 History of Medieval Philosophy 3 credits
- PHIL 410 History of Modern Philosophy 3 credits
- PHIL 420 Contemporary Philosophy 3 credits
- PHIL 400 level Electives* (cannot include PHIL 402 or PHIL 412) 12 credits
- PHIL 499 Senior Seminar in Metaphysics/Epistemology 3 credits

* Majors in philosophy should choose their electives carefully in consultation with their advisors and in the light of their philosophical interests and academic objectives. PHIL 402 and 412 will not count for elective credit for philosophy majors.

**Minor in Philosophy: 20 Credits**

**Lower Division**
- PHIL 101 Critical Thinking 2 credits
- PHIL 201 Philosophy of Human Nature 3 credits

**Upper Division**
- PHIL 301 Ethics 3 credits
- PHIL 400 Level Electives 12 credits

**Lower Division**
- PHIL 101 Critical Thinking 2 credits
  - The philosophy component of the Thought and Expression sequence.
  - Focus on formal (syllactic, propositional) and informal (fallacies, induction, etc) logic. Fall and Spring.
- PHIL 102H Critical Thinking-Philosophy 3 credits
  - The philosophy component of the Thought and Expression sequence for Honors students. Fall.
- PHIL 190 Directed Study 1-6 credits
  - Topic to be decided by faculty.
- PHIL 201 Philosophy of Human Nature 3 credits
  - A systematic study of human nature and what it might involve. Focus on appetitive and cognitive processes, the problems of freedom, immortality, and personal integration. Fall and Spring. Prerequisite: PHIL 101.
- PHIL 201H Philosophy of Human Nature Honors 3 credits
  - A systematic study of human nature and what it might involve. Focus on appetitive and cognitive processes, the problems of freedom, immortality, and personal integration. Fall. For Honors students. Prerequisite: HONS 190.

**Upper Division**
- PHIL 301 Ethics 3 credits
  - A general theory of the goals of human life and the norms of moral behavior: the theory will be applied to several specific moral problems. Fall and Spring. Prerequisite: PHIL 201.
- PHIL 301H Ethics-Honors 3 credits
  - A general theory of the goals of human life and the norms of moral behavior: the theory will be applied to several specific moral problems. Fall. Prerequisite: HONS 190.
- PHIL 389 Ethics and Service Learning 1 credit
  - A service learning seminar that may be taken in conjunction with specified sections of PHIL 301. Students discuss and apply ways by which to communicate with Spokane-area youth (primarily middle- and high-school age) what they are learning about ethics and character. Prerequisite: PHIL 201.
- PHIL 390 Medical Ethics Internship 3 credits
- PHIL 400 Philosophy of Major Professional Seminar 3 credits
  - An introduction to the major topics in philosophy with a special emphasis on practice in philosophical writing. Fall. Prerequisite: PHIL 301.
- PHIL 401 History of Ancient Philosophy 3 credits
  - Non-philosophy majors can take course only with permission of Chair. Prerequisite: PHIL 301.
- PHIL 402 Ancient-Medieval Philosophy 3 credits
  - A study of important philosophers in the ancient and medieval periods. This course is designed for non-majors and cannot count towards a philosophy major. Prerequisite: PHIL 301.
- PHIL 403 Contemporary Ethical Theory 3 credits
  - This course will explore developments in ethical theory in the later twentieth century. Prerequisite: PHIL 301 or PHIL 301H or PHIL 301H.
- PHIL 405 History of Medieval Philosophy 3 credits
  - A survey of Christian philosophy in the Latin west focusing on such major figures as St. Augustine, St. Thomas Aquinas, and William of Ockham. Spring. Prerequisite: (PHIL 401 or WOMS 237C).
- PHIL 406 Philosophy of St. Augustine 3 credits
  - A study of St. Augustine's philosophy of God and the universe with special attention to Augustine's pivotal role in summing up Greek and Roman thought and laying the foundation for Medieval thought. Prerequisite: PHIL 301.
- PHIL 407 St. Thomas Aquinas 3 credits
  - Life, works, and selected texts and problems. Prerequisite: PHIL 301.
- PHIL 408 Just War Theory 3 credits
  - This course will be divided into two parts. The first will examine the rise and the development of what has come to be known as the "just war theory." Authors form Augustine to Vittoria will be treated. In the second part of the course, the applications of the "just war theory" to modern warfare will be treated. Conflicts from World War II to Bosnia and Afghanistan will be discussed. Prerequisite: PHIL 301.
- PHIL 409 Social Justice 3 credits
  - This course will critically consider famous theories of justice, as well as their applications to some social and moral problems. Prerequisite: PHIL 301.
- PHIL 410 History of Modern Philosophy 3 credits
  - A survey from Descartes through Hume. Philosophy majors are strongly urged to take this course only after completing PHIL 401 and PHIL 405. Prerequisite: PHIL 301.
- PHIL 412 Modern-Contemporary Philosophy 3 credits
  - A study of important philosophers in the modern and contemporary periods. Course is designed for non-majors and cannot count towards a Philosophy Major. Prerequisite: PHIL 301.
- PHIL 413 Philosophy of Mysticism 3 credits
  - What is mysticism? Is there a common element in all forms of mysticism? What is the connection between mysticism and mental health/disease? What is the relationship between mysticism and the paranormal? Prerequisite: PHIL 301.
- PHIL 416 Marxism 3 credits
PHIL 417 C.S. Lewis 3 credits
This course examines Lewis the Christian intellectual as his participation in the Christian Theistic Tradition and his philosophical training exhibit themselves in his fictional, philosophical and theological works. Prerequisite: PHIL 301.

PHIL 418 Walker Percy 3 credits
This course examines both fiction and non-fiction works by Walker Percy (1916-1990), with particular emphasis on his development of existential themes and C.S. Peirce's semiotics. We investigate Peter Augustine Lawler's description of Percy as a proponent of "post-modernism rightly understood." Prerequisite: PHIL 301.

PHIL 419 Happiness 3 credits
In one form or another, the nature of happiness has always been a central concern of philosophical reflection. In recent years, a new body of psychological research has made interesting contributions to our understanding of happiness. Specifically, Mihaly Csikszentmihalyi's work on "flow" and Martin Seligman's research on happiness will be considered. This course will sample some of this research and bring it into dialogue with traditional philosophical texts from western and eastern philosophy, such as Epicureanism, Stoicism, Taoism, and modern movements such as Existentialism, Liberalism, and Marxism. We will also consider very recent philosophical work on the nature of happiness. Along with this study, we will ask historiographic questions about how the philosophical problem of happiness is temporally and culturally conditioned. Prerequisite: PHIL 301.

PHIL 420 Contemporary Philosophy 3 credits
A survey of major figures from the post-Hegelian period to the present. Spring. Prerequisite: PHIL 410.

PHIL 421 American Philosophy 3 credits
A study of major figures in the American philosophical tradition. Prerequisite: PHIL 301.

PHIL 422 Post Modern Thought 3 credits
This course begins with a review of the meaning of philosophical and cultural modernism, covers several of the major founding thinkers of the postmodern movement: Jacques Derrida, Michel Foucault, and Francois Lyotard. From its beginnings in the revolutionary atmosphere of the French student rebellion, we move to post-modern thinkers in the analytic and post-analytic tradition, including the later Ludwig Wittgenstein and Richard Roty. This course concludes with a survey of postmodern culture, sampling specific developments in fields such as architecture, music and contemporary art.

PHIL 423 Process Philosophy 3 credits
Philosophers such as Bergson and Whitehead, who regard creative process as the essence of the real. Prerequisite: PHIL 301.

PHIL 424 Existentialism 3 credits
The movement from Kierkegaard to the present. Prerequisite: PHIL 301.

PHIL 425 Phenomenology 3 credits
Some proponents of phenomenological philosophy stemming from Husserl. Prerequisite: PHIL 301.

PHIL 426 Existential Psychology 3 credits
A study of important existentialist philosophers and their influence upon psychology and psychologists. Prerequisite: (PHIL 301.)

PHIL 427 Analytic Philosophy 3 credits
A survey of 20th century Anglo-American philosophy. Prerequisite: PHIL 301.

PHIL 428 Philosophical Hermeneutics 3 credits
Allied with phenomenology, philosophical hermeneutics struggles not only with interpreting patterns of meaning in classical philosophical texts, but also with interpreting patterns of meaning in human existence, based on the model of the text. Prerequisite: PHIL 301.

PHIL 429 African Philosophy 3 credits
This course provides an introduction to African philosophy. The course is divided into three parts. Part I will focus on recent debates about the nature and scope of African Philosophy. Issues to be examined here include: 1) philosophy and colonialism; 2) the significance of traditional African beliefs for contemporary philosophical practice; 3) individual thinkers and communal wisdom; and (4) writing, versus speech as vehicles for philosophical expression. In Parts II and III we turn more explicitly to philosophical issues concerning (5) science, technology, and modernization in Africa; and (6) African moral and political theory. Prerequisite: PHIL 301.

PHIL 430 Metaphysics 3 credits
A systematic ordering and development of the perennial questions concerning being and existence; unity, diversity, truth, value, causality, and transcendent reality: the existence and nature of God. Prerequisite: PHIL 301.

PHIL 432 Philosophy of Education 3 credits
Representative thought regarding educational agents, aims, and curricula. Prerequisite: PHIL 301.

PHIL 433 Philosophy of Psychology 3 credits
Systematic philosophical investigation of primary psychological phenomena such as the emotions, intentions, explanations of actions, motivational systems, the nature of self-deception, weakness of will, and the nature of the self. Consideration will be given to general theories of psycho-pathology, and to various major psychological schools of thought. Prerequisite: PHIL 301.

PHIL 434 (INST 396) Chinese Philosophy 3 credits
A survey of the history of Chinese philosophy focusing on the Confucian tradition and taking other traditions such as Taoism and Buddhism into account. Prerequisite: PHIL 301.

PHIL 437 Philosophy of Time 3 credits
This course looks at answering the question "What is time?" This is done by looking at ancient and modern arguments surrounding the structure, experience and models of time. Prerequisite: PHIL 301.

PHIL 438 Philosophy of Love and Friendship 3 credits
Survey and analysis of influential accounts of love and friendship, including treatments of erotic/romantic love, friendship, and charity, within a framework provided by C.S. Lewis classic study "The Four Loves". Special attention will be given to the relation between views of love and the nature of happiness, proper treatment of others, human desire and psychology, character, self-love, and religious devotion. Prerequisite: PHIL 301.

PHIL 439 Christian Metaphysics 3 credits
The course is divided into three parts: 1) the Metaphysics of Nature which studies the principles of created being and the necessity of divine being as its source 2) the Metaphysics of Being which studies being in its most generic characteristics, and 3) the Metaphysics of God which studies the nature of divine being as far as it can be understood by human beings. Among the topics to be considered are: act and potency, causality and chance, the cosmological argument, substance and accident, necessity and contingency, ontological participation, transcendentals, the analogy of being, divine simplicity, and the incarnation. Prerequisite: PHIL 301.
PHIL 440 Theory of Knowledge 3 credits
Problems, positions, and synthesis of the modes of human knowing. Prerequisite: PHIL 301.

PHIL 441 Symbolic Logic 3 credits
The study of modern symbolic logic (propositional and predicate). Metalogical issues - the syntax and semantics of formal systems - are discussed. Prerequisite: PHIL 301.

PHIL 443 Philosophy of Science 3 credits
Examination of recent developments in the philosophy of science and its treatment of the nature and methods of the physical, biological, and social sciences. Prerequisite: PHIL 301.

PHIL 444 Science, Technology, and Social Values 3 credits
Examines the relationship between science and technology, particularly modern technology, and the effect of science and technology on culture and values. Prerequisite: PHIL 301.

PHIL 445 Evolution and Creation 3 credits
Readings by scientists, theologians and philosophers on issues raised by the theory of evolution. Among the questions to be discussed are: How exactly are evolution and creation related? Are they rival explanations of the same thing? What evidence is there for evolution? How does evolution work? What implications does it have for our understanding of human nature and the place of human beings in nature? Prerequisite: PHIL 301.

PHIL 446 Philosophical Reflection on Christianity and Science 3 credits
Philosophical inquiry into the historical relationship between Christian religious doctrine and the knowledge imparted by the sciences, with focus on particular episodes such as the Galileo affair and the Darwinian revolution. Prerequisite: PHIL 301.

PHIL 447 Business Ethics 3 credits
The philosophic basis of business and its relation to social development. Responsibilities of the business community to society and the individual. The relationship between economic theories and philosophical approaches. Fall and Spring Prerequisite: PHIL 301.

PHIL 448 Philosophy of Mind 3 credits
Treatment of the nature and functional capacities of the mind, and the philosophical problems raised by analysis of the mind, including mind and body, materialistic reductionism, other minds, freedom, and personality. Prerequisite: PHIL 301.

PHIL 449 African American Philosophy 3 credits
This course will examine the core issues in African American philosophy. These issues will include: (1) the nature and purpose of African American philosophy; (2) questions concerning racial, cultural, and ethnic identity; (3) the varied forms, causes and consequences of racism; (4) "separatist" vs. "assimilationist" strategies for addressing racial injustice; and (5) debates concerning reparations and affirmative action.

PHIL 450 Native American Philosophy 3 credits
This course will study philosophy indigenous to Native America with an emphasis on the plateau region of Washington State through an examination of indigenous languages and cultural traditions. Prerequisite: PHIL 301

PHIL 451 Political Philosophy 3 credits
An examination of the nature and norms of political life, with attention to major historical themes in the light of contemporary relevance. Prerequisite: PHIL 301.

PHIL 452 Social Ethics 3 credits
A consideration of the moral implications of communal life, including such topics as Individual rights and distributive justice, issues such as pornography, capital punishment, and affirmative action are treated. Prerequisite: PHIL 301.

PHIL 453(INST 350) International Ethics 3 credits
The moral structure of the international community in the context of problems such as war, foreign aid, and transnational migration. Prerequisite: PHIL 301.

PHIL 454 Metaethics 3 credits
This course is an advanced study of contemporary disputes in ethical theory and metaethics. It will cover issues like the meaning and ontology of moral value and language, the realism-antirealism debate, concerns in moral psychology, and the impact of evolutionary theory on ethics. In addition the course will also examine a range of competing, twentieth-century ethical theories. Prerequisite: PHIL 301.

PHIL 455 Health Care Ethics 3 credits
Ethical concepts and issues in the medical field: personhood, relationship between health care professional and patient, experimentation, rights to health care, and allocation of health care resources. Prerequisite: PHIL 301.

PHIL 456 (WOMS 435) Feminist Ethics 3 credits
Explores women's experiences of oppression and some of the ways in which this has marginalized their concerns and their perceptions of the moral dimension. Feminist contributions to rethinking the concept of moral agency, the traditionally sharp distinction between the public and private domains, the relevance of personal relationships to ethics, and the process of moral development and moral decision-making are considered. Spring, odd years. Prerequisite: PHIL 301.

PHIL 457 Environmental Ethics 3 credits
The detailed philosophical study of humanity's understanding of its relationship to the natural environment, concentrating on historically prominent conceptions of that relationship, and the philosophical foundation of the contemporary 'environmental movement.' Prerequisite: PHIL 301.

PHIL 460 Gender and Health Care Ethics 3 credits
This course will explore ethical issues in health care with an emphasis on gender. The course will explore both traditional and feminist approaches to health care ethics, considering how a feminist ethics perspective challenges, expands, and sometimes transforms the discipline of health care ethics.

PHIL 462 Ethical-Social Issues in Engineering 3 credits
This course is designed for engineering majors. It will introduce them to some of the general ethical concerns facing the profession of engineering, some of the perennial as well as new social challenges facing engineers (e.g. the increasing impact of technology on society), and a number of the landmark cases of ethical concern in the history of engineering. The goal is to instill in the students both a genuine concern for the social/ethical dimension of their profession and work, as well as a set of basic intellectual tools to use when confronted with ethical dilemmas in their career. Prerequisite: PHIL 301.
PHIL 464 Magic/Mysticism Medieval Renaissance
Culture 3 credits
This course examines the philosophical and cultural understandings of magic and mysticism in the transition from Medieval to Renaissance culture, especially the emerging culture of scientific practices. We will begin by looking at some late Roman and early Christian attitudes toward magic and some aspects of mystical thought in the medieval period. The course considers magic and mysticism from a philosophical point of view and in connection with medieval Christian philosophy, as well as examining similarities and differences between magical practices and scientific practices. The class will learn about magical symbolism in renaissance art and visit museum sites for this purpose. Prerequisite: PHIL 301.

PHIL 465 Philosophy of Religion 3 credits
Philosophical investigation of the rational justification of religious faith. Prerequisite: PHIL 301.

PHIL 466 (RELI 491) Philosophy of God 3 credits
Philosophical views about God and our knowledge of God. Prerequisite: PHIL 301.

PHIL 467 Faith and Reason 3 credits
This course will address a cluster of fundamental problems of faith and reason- the nature of knowledge, especially in connection with religious claims, evidence for the existence of God, the relevance of recent advances in cosmology to the Christian world view, the problem of evil and suffering, and the challenge of atheism. Prerequisite: PHIL 301.

PHIL 470 Philosophy of Law 3 credits
The sources, structure, and function of human law and its relations to moral law. Prerequisite: PHIL 301.

PHIL 471 Philosophy of Literature 3 credits
What is literature and what is it for? This course considers a variety of answers to these questions by both philosophers and writers. This course is sometimes organized historically covering major developments in Western thought about literature including Platonic, Renaissance, Romantic and Contemporary. Other semesters the course is organized systematically with a heavy emphasis on theories of interpretation, each of which entails a view of the nature of literary language. Prerequisite: PHIL 301.

PHIL 472 (VART 466) Philosophy of Art 3 credits
An analysis of beauty, creativity, and taste according to the theories of Plato, Aristotle, Aquinas, and selected contemporary philosophers. Several representative works from all areas of the fine arts are examined in the light of the aesthetic principles of classical philosophy. Prerequisite: PHIL 301.

PHIL 473 Philosophy of History 3 credits
A study of the philosophical presuppositions of historical method and of the meaning or goal of historical process. Prerequisite: PHIL 301.

PHIL 474 Philosophy of Sport 3 credits
A study of sport as an important, unique, and fundamental activity of human beings, exploring how experiences encountered in athletic activity shed light on classical philosophical problems. Prerequisite: PHIL 301.

PHIL 475 Philosophy of the Visual Arts 3 credits
Examines contemporary applied theories of art in a variety of visual art media including painting, sculpture, film, and photography. Prerequisite: PHIL 301.

PHIL 476 Racism, Slavery, and Evil 3 credits
A study of events in the history of slavery, reconstruction, the Jim Crow era, the civil rights struggle in terms of different philosophers' accounts of the nature of human evil. In addition to the focus on evil, we will discuss philosophically the complexities and adequacy of some of the responses to the evils we study. This course satisfies the social justice requirement of the College of Arts and Sciences. Prerequisite: PHIL 301.

PHIL 485 Philosophy in Film 3 credits
Many current films raise first-order philosophical questions or issues, though few films are particularly good at solving those same problems or resolving the conflict underlying the issues. This course seeks to explore many contemporary films (none older than "Blade Runner") and the philosophical issues they raise, both by their explicit content and by their implicit content. Metaphysical issues about the mind and body relationship, the nature and extent of freewill, the nature of personal identity will be included. Some epistemological issues having to do with how well we can expect to have access to reality, and what might be among the impediments to the access, will also be included. The course generally avoids treating ethical or moral issues, but also takes an interest in the use of the emotions in films, the treatment of violence and human sexuality in films, the nature of comedy in films. Some attention will also be given to film techniques, especially from the point of view of the audience. Prerequisite: PHIL 301.

PHIL 486 Seminar 3 credits
Topics will vary. Prerequisite: PHIL 301.

PHIL 487 Seminar 3 credits
Topics will vary. Prerequisite: PHIL 301.

PHIL 488 Phenomenology of Mystical Conscious 3 credits
Topics will vary. Prerequisite: PHIL 301.

PHIL 489H Honors Seminar 3 credits
Topics and credit by arrangement. Prerequisite: Honors and permission from department. Spring or Fall.

PHIL 490 Directed Study 1-6 credits
Topics by arrangement. Prerequisites: PHIL 301 and permission from department.

PHIL 495 Study Abroad Special Topics 1-15 credits
For department use only.

PHIL 498 Research 1-3 credits
Course requires permission of instructor and department chair.

PHIL 499 Senior Seminar-Metaphysics: Epistemology 3 credits
Each student will present a number of short papers on metaphysical and/or epistemological topics. Students will develop and defend philosophical positions for discussion by the class. Prerequisite: Fourth year standing, philosophy major. Spring. Prerequisite: PHIL 301.
The Department of Physics offers Bachelor of Science and Bachelor of Arts degrees in physics. Students are expected to declare their major in this area in their freshman year; students in their sophomore year and students in the Florence program, however, can be accommodated by special arrangement with the department.

The Bachelor of Science degree is designed as a terminal degree. Students who are considering graduate school should plan on taking additional course work. Students should be able to work out a four-year course of study with their advisor that will satisfy graduate school requirements. Physics majors interested in careers in health sciences should discuss course requirements and potential accommodations with a physics faculty member. Majors in physics are expected to achieve a familiarity with computer programming.

Students planning on majoring in physics and attending medical school should meet with a physics faculty member as early as possible to discuss course scheduling and potential course substitutions for particular degree requirements. Students may rather elect to earn a B.A. Physics degree. The basic degree requirements for the B.A. Physics degree are essentially the same as the B.S. Physics degree except that rather than choosing two additional upper division PHYS courses, as the B.S. degree requires, the B.A. degree requires two courses from any area that are agreed upon by the department chair. The B.A. physics degree is intended to better allow College of Arts and Sciences students to complete double majors, therefore, students who earn a B.A. Physics degree must also be earning a B.A. degree in another College of Arts and Sciences department. More information is available on the department's website at http://www.phy.gonzaga.edu/

**B.S. Major in Physics: 53 Credits**

**Lower Division**

- PHYS 103 and 103L Scientific Physics I (4 credits)
- PHYS 204 and 204L Scientific Physics II (4 credits)
- PHYS 205 20th Century Physics (3 credits)
- PHYS 217 Modern Physics Lab (2 credits)
- CHEM 101 or 105 (with pertinent lab) (4 credits)
- CPSC 121 Computer Science I (3 credits)
- MATH 157, 258 (8 credits)
- PHYS 210 Linear Electronics (2 credits)

**Upper Division**

- PHYS 300 Mathematical Methods (3 credits)
- PHYS 301 Intermediate Mechanics (3 credits)
- PHYS 306 Electricity and Magnetism (3 credits)
- PHYS 310 Intermediate Laboratory (2 credits)
- PHYS 464 Quantum Physics (3 credits)
- MATH 350 Elementary Numerical Analysis (3 credits)

In addition, at least two of the following courses:

- PHYS 307 Optics (3 credits)
- PHYS 402 Advanced Mechanics (3 credits)
- PHYS 407 Electricity and Magnetism II (3 credits)
- PHYS 409 Nuclear and Particle Physics (3 credits)
- PHYS 450 Statistical Physics (3 credits)
- PHYS 465 Advanced Topics (3 credits)

Physics majors are also encouraged to take:

- MATH 259 Calculus III (4 credits)
- MATH 260 Ordinary Differential Equations (3 credits)
- MATH 339 Linear Algebra (3 credits)

and additional CPSC courses.

**Minor in Physics: 28 Credits**

**Lower Division**

- PHYS 103, 103L and 103R Scientific Physics I (4 credits)
- PHYS 204, 204L and 204R Scientific Physics II (4 credits)
- PHYS 205 Twentieth Century Physics (3 credits)
- MATH 157 and 258 (8 credits)

**Upper Division**

- PHYS--Electives (9 credits)

Courses that can be counted as a minor elective are any 300 or 400 level course other than PHYS 300. For chemistry and engineering students consideration of their course work for their major has led to credit for part of the minor. These students, after finishing PHYS 205, need only get the following PHYS credits:

- Chemistry (6 credits)
  (Assuming that physical chemistry is taken for the major.)
- Civil Engineering (8 credits)
- Mechanical Engineering (8 credits)
- Computer Engineering (9 credits)
- Electrical Engineering (5 credits)

( Electrical engineering students must take courses other than PHYS 306 to satisfy the minor elective.)

**Lower Division**

- PHYS 100 Conceptual Physics (3 credits)
  The basic principles of physics are covered in a descriptive (non-mathematical) manner. Designed for students not majoring in the natural sciences or those needing a very basic background in physics. Fall and Spring.
- PHYS 101L General Physics I Lab (1 credit)
  Taken concurrently with the lecture course PHYS 101. Three hours of laboratory. Fall and Spring.
- PHYS 101R General Physics I Recitation (0 credit)
  Must be taken concurrently with PHYS 101. Fall.
- PHYS 102 Gen Physics II (3 credits)
- PHYS 102L General Physics II Laboratory (1 credit)
  Taken concurrently with the lecture course PHYS 102. Three hours of laboratory. Fall and Spring. Prerequisites: PHYS 101L.
- PHYS 102R General Physics II Recitation (0 credit)
  Must be taken concurrently with PHYS 102. Spring.
- PHYS 103 Scientific Physics I (3 credits)
  Classical mechanics: dynamics, waves, and fluids. Three hours of lecture with experimental demonstrations and problems. Fall and Spring. Prerequisites: MATH 157.
- PHYS 103L Scientific Physics I Lab (1 credit)
  Taken concurrently with the lecture course PHYS 103. Three hours of laboratory. Fall and Spring.
- PHYS 103R Scientific Physics I Recite (0 credit)
  Must be taken concurrently with PHYS 103. Fall and Spring. Prerequisites: MATH 157.

**Minor in Physics: 28 Credits**

**Lower Division**

- PHYS 103, 103L and 103R Scientific Physics I (4 credits)
- PHYS 204, 204L and 204R Scientific Physics II (4 credits)
- PHYS 205 Twentieth Century Physics (3 credits)
- MATH 157 and 258 (8 credits)

**Upper Division**

- PHYS--Electives (9 credits)

Courses that can be counted as a minor elective are any 300 or 400 level course other than PHYS 300. For chemistry and engineering students consideration of their course work for their major has led to credit for part of the minor. These students, after finishing PHYS 205, need only get the following PHYS credits:

- Chemistry (6 credits)
  (Assuming that physical chemistry is taken for the major.)
- Civil Engineering (8 credits)
- Mechanical Engineering (8 credits)
- Computer Engineering (9 credits)
- Electrical Engineering (5 credits)

( Electrical engineering students must take courses other than PHYS 306 to satisfy the minor elective.)

**Lower Division**

- PHYS 100 Conceptual Physics (3 credits)
  The basic principles of physics are covered in a descriptive (non-mathematical) manner. Designed for students not majoring in the natural sciences or those needing a very basic background in physics. Fall and Spring.
- PHYS 101L General Physics I Lab (1 credit)
  Taken concurrently with the lecture course PHYS 101. Three hours of laboratory. Fall and Spring.
- PHYS 101R General Physics I Recitation (0 credit)
  Must be taken concurrently with PHYS 101. Fall.
- PHYS 102 Gen Physics II (3 credits)
- PHYS 102L General Physics II Laboratory (1 credit)
  Taken concurrently with the lecture course PHYS 102. Three hours of laboratory. Fall and Spring. Prerequisites: PHYS 101L.
- PHYS 102R General Physics II Recitation (0 credit)
  Must be taken concurrently with PHYS 102. Spring.
- PHYS 103 Scientific Physics I (3 credits)
  Classical mechanics: dynamics, waves, and fluids. Three hours of lecture with experimental demonstrations and problems. Fall and Spring. Prerequisites: MATH 157.
- PHYS 103L Scientific Physics I Lab (1 credit)
  Taken concurrently with the lecture course PHYS 103. Three hours of laboratory. Fall and Spring.
- PHYS 103R Scientific Physics I Recite (0 credit)
  Must be taken concurrently with PHYS 103. Fall and Spring. Prerequisites: MATH 157.
PHYS 110 Introduction to Astronomy 3 credits
This course is designed for the non-science major. A wide range of topics is covered in order to give an overview of what is currently known about the structure and evolution of the universe. Most areas of observational and theoretical astronomy do not go beyond basic high-school algebra.

PHYS 110L Introduction to Astronomy Lab 1 credit
This laboratory familiarizes students with the constellations and methods in amateur astronomy. The course meets once weekly for two hours with a majority of the lab work done outside the classroom. Mathematics involved does not go beyond basic algebra and trigonometry.

PHYS 123 Physics in Society and Culture 3 credits
Basic principles of physics are covered in a descriptive (non-mathematical) manner. Designed to satisfy the core science requirement for students not majoring in the natural sciences. Summer.

PHYS 123L Physics in Society Laboratory 1 credit
Taken concurrently with PHYS 123. Two hours of laboratory.

PHYS 125 Physics of Music and Sound 3 credits
The nature of vibrations and waves will be studied and investigated at the introductory level. Vibrations, properties of waves, addition of waves and the resulting wave phenomena will be covered with an emphasis on their relationship to sound production and interpretation via the ear. This class is designed for non-science majors. The required mathematics will no exceed high school algebra.

PHYS 125L Physics of Music and Sound Lab 1 credit
PHYS 125L is optional with concurrent enrollment in PHYS 125. The course will further investigate topics from PHYS 125 involving the behavior of waves. The required mathematics will not exceed high school algebra and trigonometry.

PHYS 130 Time 3 credits
The course presents a survey of physics with time as the unifying concept. Topics covered include mechanics, conservation laws, special relativity, thermodynamics, and chaos. This course is designed for non-science majors.

PHYS 130 L Time Lab 1 credit
Taken concurrently with PHYS 130. Mathematics is kept at a minimum level.

PHYS 140 Introduction to Geophysics 3 credits
This course will look at the basic principles of geophysics. Topics examined include earthquakes, tsunamis, land formations and erosion, geological exploration, and global warming. Mathematics is kept at a minimal level.

PHYS 140L Introduction to Geophysics Lab 1 credit
This is a lab course to accompany physics 140. Experiments involve examination of crater formation, angle of repose, wave motion, rock classification, and buoyancy.

PHYS 150 Applying Scientific Method 3 credits
Teaches the scientific method by applying it to current and familiar topics. Students move from relatively easy topics of investigation (e.g., the chances of being in an auto accident next year) to more in-depth investigations (e.g., whether global warming is a real phenomenon).

PHYS 170H Honors Physics 3 credits
Key physical theories and principles will be discussed from historical, societal, and physical perspectives. Prerequisites: HONS 190.

PHYS 170L Honors Physics Lab 1 credit
Laboratory to accompany PHYS 170H.
PHYS 402 Advanced Mechanics 3 credits  
A continuation of PHYS 301 and extension to dynamics of particles, rigid bodies, and fluids by the use of Lagrangian and Hamiltonian formalisms. Fall of even years  Prerequisites: PHYS 301.

PHYS 407 Electricity and Magnetism II 3 credits  
A continuation of PHYS 306; a study of advanced topics in E&M for graduate school preparation. Spring of odd years  Prerequisites: PHYS 306.

PHYS 409 Nuclear and Particle Physics 3 credits  
Study of experimental and theoretical aspects of nuclear interactions as they apply to nuclear structure and elementary particle characteristics. Spring of even years  Prerequisites: PHYS 205.

PHYS 450 Statistical Physics 3 credits  
Study of thermal properties from microscopic and statistical viewpoints. Topics include: probability distributions, entropy, density of states, blackbody radiation. Spring of odd years  Prerequisites: PHYS 204.

PHYS 464 Introduction to Quantum Physics 3 credits  
The development of the Schrödinger equation and its application to various potential energy functions. Fall of odd years  Prerequisites: PHYS 205 and PHYS 300.

PHYS 465 Advanced Topics 3 credits  
Advanced topics to be determined by the instructor. On sufficient demand. Prerequisites: Permission from department.

PHYS 490 Directed Reading 1-4 credits  
Directed reading in advanced topics. Requires completion of form, and department permission from department.

PHYS 491 Senior Project 2 credits  
This course satisfies the senior year requirement for the Applied Physics major.

PHYS 499 Senior Project 0 credit  
May be undertaken by B.S. physics majors in their senior year. Permission from department required.

**Political Science**

Chairperson: Robert Waterman
Professors: B. Garvin, M. Leiserson
Associate Professors: M. Connolly, S.J., M. Treleaven, S.J., R. Waterman
Assistant Professors: L. Brunell, M. Jones, J. Isacoff, J. Yi

Political science courses invite students to examine political thought and systems past and present. A Bachelor of Arts with a major or minor in political science provides an essential component of a liberal arts education, an enduring political education for citizens, a solid basis for graduate work, and a fine background for the study of law and the teaching or practice of politics.

Politics is both a science and an art. Hence, it is both an activity to be studied from the outside and an activity to be engaged in as a practitioner. Our faculty believes that public-spirited participation in civic affairs serves the department's mission and the mission of Gonzaga University. So we encourage majors to do politics in our public affairs internships as well as in the many forms of citizenship. In the fall or spring semester of their senior year, majors must take POLS 499, "Preparation for the Comprehensive," a one credit seminar that helps students review their departmental and related studies in preparation for comprehensive examination in November or April. Students base the exam on the special interests and thematic questions each has discovered in courses and the major.

The department also provides special counseling for all of the following: graduate school or law school, teaching or practice of politics at any level, governmental administration and international affairs.

Political science majors are encouraged to take more than 31 credits, especially if considering postgraduate study.

**B.A. Major in Political Science: 31 credits**

**Lower Division**

- POLS 101 American Politics 3 credits
- POLS 102 or 103 0-6 credits
  - if taken in the Freshman or Sophomore years

**Upper Division**

- POLS 300-329; 484 U.S. Government and Politics 6 credits
- POLS 330-349; 486 Political Thought 6 credits
- POLS 350-389; 487-88 Comparative Government/International Relations 6 credits
- POLS - - Electives 3-9 credits
- POLS 499 Preparation for Comprehensive 1 credit

**Minor in Political Science: 18 Credits**

**Lower Division**

- POLS 101 American Politics 3 credits
- POLS 102 or 103 0-3 credits
  - if taken in the Freshman or Sophomore years

**Upper Division**

- POLS 302-329; 484 U.S. Government and Politics 3 credits
- POLS 330-349; 486 Political Thought 3 credits
- POLS 350-389; 487-88 Comparative Government/International Relations 3 credits
- POLS - - - Electives 3-6 credits

**Lower Division**

- POLS 101 American Politics 3 credits
  - The American Constitution; the evolution of democracy; the structure of the national government; Congress; the Presidency; the courts. Political parties and interest groups. Public policy in domestic and foreign affairs. How to think about politics.

- POLS 102 Political Thinkers and Actors 3 credits
  - Treatment of six distinctive figures in political life--philosopher, saint, prince, revolutionary, statesman, and citizen-- in order to determine their characteristic contributions to an understanding of politics. Examples: Socrates, Thomas More, Machiavelli's Prince, Marx and Engels, the American Founding Fathers, and the students of the 1960's. Uses a variety of materials, including pamphlets, philosophical dialogues, essays, and dramas.
POLS 103 People and Politics World Wide 3 credits
Comparison of key political institutions, political attitudes, patterns of interaction, and long-term quarrels in France, Germany, Russia, China, Mexico, and Nigeria. How legal institutions, executive bodies, and political parties work and the influence of culture, structural ideology, and nationalism.

POLS 300 American National Politics 3 credits
An in-depth analysis of the five major institutions and processes of the U.S. government: Congress, President, Courts, Parties and Elections, and Bureaucracy.

POLS 304 Criminal Justice Amendments and Courts 3 credits
Study of the 4th, 5th, 6th and 8th amendments to the constitution and how they are applied in the criminal justice system. Focus on relevant case law, operation of the courts and law enforcement in the criminal justice system.

POLS 306 Congress and the Presidency 3 credits
The Congress, its rules and procedures, committee and party leadership, and the influence of Congress on national policy. The President and the executive office, its constitutional power and its evolution over the years. The "modern presidency" since Franklin Roosevelt. Conflict and cooperation between the Congress and the President.

POLS 311 State and Local Government 3 credits
Surveys state and local government: intergovernmental relations, finance, state sovereignty, shifts in federalism and social policy, politics of urban and rural regions. State election systems may be studied for their significance over national elections.

POLS 312 Urban Politics and City Life 3 credits
"Why aren't our cities like that," asks University of Pennsylvania Professor Witold Rubinstein? We begin by asking this question. Explores city life and all the elements that define it, the problems and pros and cons of the urban policy that surround, influence, constrain and color city life. A course in political science complemented with an interdisciplinary literature--history, political-economy, urban studies and planning, organization theory, social criticism, even architecture.

POLS 313 (WOMS 313) Think Globally, Act Locally 3 credits
Develops awareness that globalization precipitates changes in the nature of the American economy and in the nature of civic life: then consciously develops the civic skills and "habits of the heart" globalization demands. Features several learning modes: traditional academic reading, classroom discussions, and engagement in service, leadership training and community activism. Students work with locally based groups devoted to economic justice, community activism and service to women and children. We discuss the means available to bring about a more socially just form of globalization in our own communities as well as in the "global village," while at the same time developing the skills and knowledge needed for active citizenship in our era.

POLS 316 Church and State in U.S. Politics 3 credits
History of church-state separation in American government and constitutional law. Focus on religion and politics from the Puritans to the Bush administration, touching on everything in between. The latter portion of the course focuses on relevant Supreme Court cases.

POLS 317 Ecological Thought and Politics 3 credits
This Service Learning course focuses on the writings of seminal figures in American ecological thought, such as John Muir, Gifford Pinchot, and Aldo Leopold. Examines the history and politics of land use and wilderness planning. Class will go on field trips in partnership with the United States Forest Service (USFS) and local environmental groups to learn first-hand about the politics of local land use.

POLS 318 Administrative Law 3 credits
Shows how the laws and regulations governing federal, state, and local bureaucracies make up and fit into the politics of the country.

POLS 319 American Foreign Policy 3 credits

POLS 320 Bureaucracy and Citizens 3 credits
From a citizen's viewpoint, the need for public bureaucracy, its politics, improvement, and relations with citizens.

POLS 321 Politics and Public Administration 3 credits
The way American public bureaucracy operates.

POLS 322(WOMS 340) Gender and Politics 3 credits
Survey of feminist theories and their impact on the political position of women in America. History of the post-war women's movement in the U.S. Explores issues raised by women and places them in comparative context to further illuminate possible choices and consequences.

POLS 323 Constitutional Law 3 credits
Roles of law, politics, and ethics in our constitutional system; workings of the Supreme Court; constitutional development during the three major eras of our history, and how those experiences are relevant today; how to "brief" court opinions; six different but valid ways to interpret the Constitution (Most students find this difficult course easier after taking POLS 303.)

POLS 324 Participatory Democracy 3 credits
Examination of past town-meeting and recent theory and practice aimed at increasing direct use of political power by ordinary American citizens. Emphasis on the possibility of a new model of democratic government. On demand.

POLS 325 Selected Topics: American Politics 3 credits
The study of selected topics in American politics. On sufficient demand.

POLS 326 U.S. Race and Ethnicity Politics 3 credits
Examines America's identity and diversity politics, its benefits to society as well as the divisions it fosters and democratic ideals it undermines. Attention to new controversies surrounding various immigrant and religious groups—a historic dilemma with global security implications since 9/11—and to the challenges of integrating and governing a modern, plural society in a global era.

POLS 327(WOMS 344) American Social Policy 3 credits
Examines the origins, patterns, reforms, and criticisms of American social policy, the ties between knowledge and social policy; the impact of education, health care, and welfare policies on women, children, different racial and ethnic groups, and the middle class. Reviews normative claims for the proper role of the state and capitalism. Compares other western, capitalist societies and their policy regimes.
POLS 328 Politics of the Pacific Northwest 3 credits
State and society in the Pacific Northwest: government, parties, reform movements, regionalism, and social forces in the U.S. Pacific Northwest, and British Columbia and Alberta. Regional issues such as taxation, health care, urbanization, land use, education, the environment, and resource-based economics are addressed in a comparative Canadian-U.S. context.

POLS 329 North American Environmental Policies 3 credits
Study of local, regional, and international environmental policy, its challenges for not only administration and understanding, but also citizenship and accountability. Topics include water, ecosystem management and sustainability in the U.S., Canada and Mexico.

POLS 330 Classical and Medieval Political Thought 3 credits
Thorough examination of the most important texts from Plato’s Republic to The Prince and The Discourses of Machiavelli. Fall.

POLS 331 Modern Political Thought 3 credits
European political thought from Hobbes’s Leviathan to John Stuart Mill’s On Liberty. The development of liberalism in Britain and France between the 17th and 19th centuries. Spring.

POLS 332 American Political Thought of the Founding Era 3 credits
Political thought of the Puritan founders of Massachusetts; The American Revolution and the Constitution. Federalists and Anti-Federalists. Tocqueville’s Democracy in America.

POLS 333 American Political Thought Civil War and After 3 credits
Political thought from the Progressives through the rise of Neoconservatism and the newly emergent Republican majority. Relies on political documents such as speeches and essays, fiction with political overtones, and scholarly writing about American politics and thought.

POLS 334 Politics and Literature 3 credits
"Why are there so few political novels that are first rate as literature?" Political relations are abstractions; people live concretely. But literature can still bridge this gap. Comparing mediocre political novels with a great one teaches not only about literary quality but also about political reality. Truly great novels show how political realities appear even in private lives. Such "spectacles" express the shallowness of political ideology, and reveal the political features of ordinary lives as well as the personal meaning of politics. On demand.

POLS 335 Marxism 3 credits

POLS 336 Selected Texts in Political Thought 3 credits
Intensive look at a single writer or group of writers; designed to achieve greater understanding than is possible in a broad survey course. On sufficient demand.

POLS 337 Ethics and Politics 3 credits
Problem of "dirty hands" in politics and why it occurs. Three different ways politics can be ethical. How the separation of powers in the American Constitution is a distinction of moral authorities. Close reading of classic works including Machiavelli, Just War, the Lincoln-Douglas debates. Spring.

POLS 338 20th-Century Political Thought 3 credits
Treatment of 20th-century authors who examine the difficulties for democratic political life in contemporary mass society. Fall.

POLS 339 Liberalism and Conservatism 3 credits
Study of current liberal and conservative ways of thinking about American politics; exploration of possibly valid philosophical grounding for them; application of the views to current policy.

POLS 340 Christian Political Thought 3 credits

POLS 341 (WOMS 401) Feminist Thought 3 credits
Analyzes the contributions of feminist scholars to political theory and shows how feminist scholarship is transforming how we study politics and what we consider political. Reviews both the classics of feminist political theory and more current attempts to illuminate the gendered nature of state, economic and social power.

POLS 342 Law as a Vocation 3 credits
Can the practice of law be both a "profession" and a true "vocation"? Lawyer-statesman ideal and the realities of today's practice of law. Nature of a rule of law system and how it is ethical.

POLS 343 War and Peace 3 credits
Analyzes several political philosophers' writings about war and peace, such as Kant's Perpetual Peace; also looks into recent case studies about establishing peace in various parts of the world.

POLS 344 (FREN 435) European Relations 3 credits
Offered in Paris only.

POLS 345 Machiavelli and The Romans 3 credits
An extended examination of Machiavelli’s political thought. The course will focus on The Prince, The Discourses (including some treatment of Livy’s Discourses) and other relevant works (including Plutarch's Essays).

POLS 350 (INST 301) Survey of International Studies 3 credits
Contemporary global issues and background information for all courses in international studies. Studies the wisdom of the world’s major civilizations, comparative economic systems and ideas, international politics, and the potential for international integration.

POLS 351 (INST 342) International Relations 3 credits
Theory and practice of the international political system and the behavior of the nations within it.

POLS 352 (INST 385) Latin American Politics 3 credits
Impressive contributions and drawbacks of the caudillo or leader in Latin America’s history; culture, and society. In the range of contemporary forms of government-democratic, dictatorial, revolutionary. Some treatment of U.S. foreign policy.

POLS 353 Japan: Culture and Politics 3 credits
Historical and cultural context of Japanese politics today. Explains Japanese democracy and capitalism in terms of Confucian tradition, Buddhist spirituality, and indigenous aesthetics. Relations between these three, personal relations, and politics as seen through literature, film and other arts. Effects on Japan’s international relations.

POLS 354 (INST 395) Politics in Western Europe 3 credits
Survey of the parties, institutions, political processes, theories and policies of the major Western European industrialized nations. Special focus on England, France, and Germany, but coverage extends to the other European democracies as well.

POLS 355 (INST 325) Post-Soviet Russia and China 3 credits
Focus on the pre-1985 Soviet political system; how Gorbachev's six-year reform program led to the unraveling of the Soviet Union; and the difficult transition to democracy and a market economy in post-Soviet Russia. Similarly, contrasts Maoist China with the uneasy mixture of economic reform and political repression coexisting in China today.

POLS 356 Area Studies in Politics 3 credits
An analysis of selected foreign governments.
POL 370 (INST 310) Third World Development 3 credits
Focus on political development in the Third World. After examining the making of the Third World through imperialism and colonialism, analyzes key political institutions (the state, political parties, the military), the international economic context of dependency and vulnerability. Several case studies follow a common analytical framework to trace experiences with democratic and authoritarian rule and assess the underlying causes of democratic success and failure.

POL 371 (INST 345) International Law 3 credits
Examines the fundamentals of public international law by studying its sources, methods of dispute resolution, and current problems of interest to North Americans.

POL 372 (INST 367) Comparative Middle East Politics 3 credits
Shows the Middle East is more than a region fraught with violence, ethnic hatred and the struggle for control of oil by examining the modern Middle East's history and context, a diverse set of country case studies, and current issues including the role of women, Islamic fundamentalism, terrorism, and peace in Israel-Palestine.

POL 373 (INST 366) Arab-Israeli Conflict 3 credits
Is there an Arab-Israeli conflict? The question is much-discussed but not very often answered. Comprehensive effort to understand that question as well as the intense political debates surrounding it. Interdisciplinary, touching on the historical, political, and sociological origins and trajectory of the conflict.

POL 374 Democracy in the Middle East 3 credits
While the Middle East is not a wellspring of democracy, there are a diverse range of democratic institutions, ideas, and even states in the region. Examines in depth the four most democratic countries: Israel, Turkey, Iran, Lebanon, the prospective democracy in Iraq plus the regional and transnational issues crucial to Middle Eastern democracy.

POL 375 Global Environmental Politics 3 credits
Unique interdisciplinarity examination of the historical, philosophical, and moral consequences of human interaction with the global environment by focusing on the relevant local, national and international governments, national and indigenous peoples, non-governmental organizations (NGOs), regimes and industries.

POL 376 Service Learning in Public Affairs 1 credit
Field work by arrangement with a community organization. Must be taken together with a designated service learning course. Requires a comprehensive internship report. Normally limited to upper division students but, in special cases, first and second year students may be granted authorization.

POL 377 Government and Politics 3 credits
Selected topics.

POL 378 Independent Research or Study 1-3 credits
Usually features Canada but draws examples from Great Britain, New Zealand, India, and Australia.

POL 379 Politics of the Pacific Rim 3 credits
Focus on the role played by the East Asian capitalist development states (Japan, South Korea, Taiwan) in the economic and economic growth of the Pacific Rim; a consideration of the Philippines or Indonesia as a representative of ASEAN; analysis of the financial crisis and its impact on Hong Kong, USA, Russia, and China.

POL 380 African Politics and Development 3 credits
Examines contemporary sub-Saharan Africa in four key areas: (1) contemporary social, economic, and ecological conditions; (2) origins of the modern African state; (3) development strategies and post-independence decline; and (4) state and society after developmentalism.

POL 381 (INST 365) International Law 3 credits
Critical analysis of vital global issues from the different perspectives of realists, idealists, and system-transformers. Exploration of competing worldvies and value systems, weighing of evidence from differing ideological, cultural, and gender perspectives. Introduces major analytical perspectives and organizing concepts fashioned by scholars to make these issues comprehensible.

POL 382 Seminar in Comparative Politics 3 credits
Selected topics.

POL 383 Seminar in Political Economy 3 credits
Selected topics.

POL 384 Seminar in American Politics 3 credits
Selected topics.

POL 385 Seminar in International Relations 3 credits
Selected topics.

POL 386 Seminar in Political Thought 3 credits
Selected topics.

POL 387 Seminar in Political Theory 3 credits
Selected topics.

POL 388 Seminar in Comparative Politics 3 credits

POL 389 Topics in Political Science 3 credits
Selected topics.

POL 390 Independent Research or Study 1-3 credits
Credit by arrangement for directed reading and reports on selected topics. Requires completion of a form, department permission and cannot be registered for via Zagweb.

POL 391 Independent Research or Study 1-3 credits
Credit by arrangement for research or study. Requires completion of a form, department permission and cannot be registered for via Zagweb.

POL 392 Independent Research or Study 1-3 credits
Field work by arrangement with a public agency or political party. Requires a comprehensive internship report. Normally limited to upper division students; in special cases freshman and sophomores may be allowed. No student may earn more than nine credits. Requires completion of a form, department permission and cannot be registered for via Zagweb.

POL 393 Democratization: Eastern Europe 3 credits
Problems of and prospects for democracy in Eastern/Central Europe. Considers the history, movements, institutions, and politics of the nations the issue of democratization and economic reform.

POL 394 Topics in Political Science 3 credits
Selected questions in the discipline.

POL 395 Topics in Political Science 3 credits
Selected topics.

POL 396 Topics in Political Science 3 credits
Selected topics.

POL 397 Public Affairs Internship 1-9 credits
Field work by arrangement with a public agency or political party. Requires a comprehensive internship report. Normally limited to upper division students; in special cases freshman and sophomores may be allowed. No student may earn more than nine credits. Requires completion of a form, department permission and cannot be registered for via Zagweb.

POL 398 Topics in Public Affairs 1 credit
Required of all majors in their final year; students must register during regular registration.
The Department of Psychology offers courses that focus upon the scientific study of human and animal behavior; most courses offered in the department, however, stress observable and experiential aspects of human behavior. The department offers a Bachelor of Arts in Psychology. Because psychology is related to a wide variety of other disciplines, majors are encouraged to pursue studies in related fields such as sociology, biology, communication arts, literature, business, mathematics, education, and philosophy.

Beyond General Psychology, Statistics for the Social Sciences (PSYC 202, SOCI 202, POLS 202, MATH 121,) and Research Methods in Psychology (PSYC 207) are required for entry into most upper division courses. These two courses provide students with an initial understanding and appreciation of the scientific method in psychology. Majors are required to take a comprehensive examination (PSYC 499). Students usually complete the examination during their final year, once they have completed the majority of their course work. Majors are also encouraged to take additional upper division courses if they are planning on pursuing graduate studies.

Psychology majors are required to take at least one non-psychology course in satisfying the social science core requirement.

**B.A. Major in Psychology: 34 Credits**

**Lower Division**

- PSYC 101 General Psychology 3 credits
- PSYC 202 (MATH 121) Statistics 3 credits
- PSYC 207 Research Methods in Psychology 3 credits
- PSYC 207L Research Methods in Psychology Lab 1 credit

**Upper Division**

- PSYC 330 Social Psychology 3 credits
- PSYC 335 or PSYC 433 3 credits
- PSYC 380 Personality Theory 3 credits
- PSYC - - - Electives 15 credits
- PSYC 499 Comprehensive 0 credit

**Minor in Psychology: 22 Credits**

**Lower Division**

- PSYC 101 General Psychology 3 credits
- PSYC 202 (MATH 121) Statistics 3 credits
- PSYC 207 Research Methods in Psychology 3 credits
- PSYC 207L Research Methods in Psychology Lab 1 credit

**Upper Division**

- PSYC - - - Electives 12 credits

**Upper Division**

- PSYC 300 Educational Psychology 3 credits
- PSYC 312 Child Psychology 3 credits
- PSYC 322 Adolescent Psychology 3 credits
- PSYC 323 Development in Diverse Environments 3 credits

**Lower Division**

- PSYC 101 General Psychology 3 credits
- PSYC 202 (MATH 121) Statistics 3 credits
- PSYC 207 Research Methods in Psychology 3 credits
- PSYC 207L Research Methods in Psychology Lab 1 credit

**Upper Division**

- PSYC 330 Social Psychology 3 credits
- PSYC 335 or PSYC 433 3 credits

- Students will work with children at the education center at Chimfunshi Wildlife Sanctuary in Zambia, Africa. They will be responsible for organizing educational activities for local and visiting school children. Summer. Prerequisite: PSYC 207 and PSYC 207L or approval of instructor.
- An analysis of psycho-social endowment. The impact of individuals, groups, and social structure on the development of personality and interpersonal relations. Fall and Spring; Summer on sufficient demand. Prerequisites: (PSYC 207 and PSYC 207L) or SOCI 304 or EXSC 305.
- An exploration of the interaction between human behavior and the physical environment. Emphasis on perception, preference, and coping with less preferred environments. Spring. Prerequisite: PSYC 101.
- Human Flourishing will explore what is constructive, beautiful and healthy about human beings and their social interactions. This course will provide familiarity with the Positive Psychology movement and what it brings to the social psychology table that helps us understand and improve ourselves and the communities in which we reside (e.g., our relationships, workplaces). Some of the section topics will include: healthy relationships and their benefits, happiness as both a cause and an effect of positive outcomes, distinguishing positive emotions (e.g., awe, elevation, gratitude) and their outcomes, and the importance of personal well-being for the workplace and our economy. On sufficient demand. Prerequisites: PSYC 207.
- An exploration of the psychological research that seeks to understand differences and similarities in human behavior when compared across cultures and groups. On sufficient demand. Prerequisites: (PSYC 207 and PSYC 207L) or SOCI 304 or EXSC 305.
- Advanced psychology students participate in the tutoring and proctoring of students who can benefit from special assistance in a particular area of psychology, especially in research methods. It is assumed that tutors and proctors have an especially good command of the subject matter. Fall and Spring.
- An exploration of the psychological research which seeks to understand differences and similarities in human behavior when compared across cultures and groups. On sufficient demand. Prerequisites: PSYC 101.
- Students will engage in observational research of chimpanzees at the Chimfunshi Wildlife Sanctuary, in Zambia, Africa. They will learn skills of field and observational research; participate in guided observations and develop their own mini-project for which they will prepare ahead of time. Summer. Prerequisites: PSYC 207 and PSYC 207L or approval of instructor.
- The purpose of this course is to study and discuss how anatomy, chemistry, and physiology affect behavior, how biological processes impact everyday behavior, and how abnormalities in our biology can produce various conditions and disorders. Fall on sufficient demand. Prerequisites: PSYC 101 and MATH 121 and (PSYC 207 and PSYC 207L) or SOCI 304 or EXSC 305.
- A survey and critique of major theories of personality. Fall and Spring. Prerequisites: PSYC 101 and PSYC 207 and PSYC 207L.
- Topic to be decided by faculty.
- Emphasis on the theoretical aspects of psychological testing for administration, construction, and evaluation. On sufficient demand. Prerequisites: PSYC 207 and PSYC 207L.
- This class will examine both perceptual and cognitive errors, and their relation to technology, everyday life, and decision-making. Studying various perceptual illusions will lead to a greater understanding of how the senses work. For example, topics such as color television, stage magic, and 3-D glasses will heighten our understanding of the visual system; other illusions will likewise demonstrate the workings of other senses. In addition we examine common errors in decision making that have profound effects on individuals and society. Summer, on sufficient demand.
- This class will examine the relationship between mind and brain based upon current philosophical and empirical perspectives.
- The various systematic approaches to the understanding of psychological phenomena are surveyed in historical context; such schools as structuralism, functionalism, psychoanalysis humanistic psychology, and varieties of behaviorism and cognitivism, will be considered. Fall. Prerequisites: PSYC 101.
- This course introduces students to the theory and practice of family systems. We will compare and contrast various models of family systems including transgenerational, structural, strategic, and experiential approaches. This course is especially recommended for students considering a career in a clinical context as a therapist. We will apply family systems theories to clinical case studies and examine how family therapists try to bring about change. Students will have an opportunity to integrate these concepts as they begin to clarify and develop their own therapeutic framework. On sufficient demand. Prerequisites: PSYC 207 and PSYC 207L.
- Combines an emphasis on exploring alternative methods of providing mental health services in the community and the identification of conditions of risk to psychological adjustment and the prevention or lessening of risk factors. On sufficient demand. Prerequisites: (PSYC 207 and PSYC 207L) or SOCI 304 or EXSC 305.
- Survey of major emotional and behavior disorders; discussion of causation, symptomology, and treatment. Fall and Spring. Prerequisites: (PSYC 207 and PSYC 207L) or SOCI 304 or EXSC 305.
- Advanced survey of concepts and methods relevant to the scientific analysis of learning. Fall. Prerequisites: PSYC 101.
- Examines the transduction of sensory information, its processing by the human nervous system, and how these processes result in perceptual experience. On sufficient demand. Prerequisites: (PSYC 207 and PSYC 207L) or SOCI 304 or EXSC 305.
PSYC 441 Behavior Management 3 credits
A critical review of learning procedures used to effect behavioral change in the natural environment. Includes treatment of both normal and maladaptive behaviors. Spring. Prerequisites: PSYC 101.

PSYC 444 Behavior Analysis 4 credits
The attitudes, principles, and techniques which enter into the experimental analysis of behavior. Concentrated laboratory study and the communication of experimental findings. Spring. Prerequisites: PSYC 101.

PSYC 444L Behavior Analysis Lab 0 credit
To be taken concurrently with PSYC 444. Spring.

PSYC 450 Industrial-Organizational Psychology 3 credits
A survey of psychology applied to the work experience. Selection, evaluation, leadership, and work motivation are among the broad range of topics covered. Fall. Prerequisites: PSYC 101 and MATH 121.

PSYC 460 Health/Pediatric Psychology 3 credits
This course is designed to cover a survey of health/pediatric psychology (i.e., studying the interface between psychological and physical processes), while simultaneously providing in-depth analysis of various topic areas (e.g., psychosocial aspects of oncology; pain management in infants/toddlers, etc.). Classes will follow a seminar format incorporating discussion of assigned readings, presentation of new material, and an emphasis on written expression skills. Course content will emphasize many aspects of health/pediatric psychology including basic and applied research, consultation, clinical intervention, and health promotion strategies. Participation with ongoing research projects may be included. On sufficient demand. Prerequisites: (PSYC 207 and PSYC 207L) or EDSE 417 or SOCI 304 or EXSC 305 and MATH 121 and PSYC 101.

PSYC 465 Forensic Psychology 3 credits
This course is an introductory level course to the field of forensic psychology, the branch of psychology which focuses on the application of psychological research data and principles within the legal arena. Students will be introduced to the process of applying psychological knowledge, concepts, and principles within the civil and criminal court systems. This course will include an introduction to and overview of topics such as the history of forensic psychology, an overview of the legal system, consultation to legal parties, ethical issues, eye witness testimony, assessment, evaluation of malingered competency in criminal proceedings, civil commitment, child custody, psychologist testimony in courtroom settings, assessment of sexual offenders, assessment of violent and homicidal behavior, treatment of crime victims, police and investigative psychology, and careers within this field. A variety of formats will be used including lectures, readings, presentation by class members on selected topics, and guest speakers from within the legal arena.

Disclaimer:
This course by virtue of its topic will address issues related to criminal activity and the subsequent legal proceedings. Although it may seem obvious, each person should consider carefully whether the content is suitable before enrolling in the course as the lectures, readings, and other materials may at times involve topics related to violence and sometimes sexual material which may be offensive to some people. On sufficient demand. Prerequisites: PSYC 207 and PSYC 207L.

PSYC 470 Group Process 3 credits
This course is an introduction to the theory and practice of group counseling and psychotherapy. Students in this course study both historical and current literature regarding the theoretical and experiential understandings of group purpose, developmental stages, dynamics such as roles, norms, and therapeutic factors, leadership orientations and process, counseling theories, group counseling methods, and skills. On sufficient demand. Prerequisites: PSYC 207 and PSYC 207L.

PSYC 475 Clinical/Counseling Psychology 3 credits
An introduction to current theory and method in clinical and counseling psychology. On sufficient demand. Prerequisite: PSYC 380 or (PSYC 207 and PSYC 207L) or EDSE 320 or SOCI 304 or EXSC 305

PSYC 477 Psychology of Intimacy 3 credits
This course will explore the nature of attachment relationships from birth through the life span with a specific focus upon issues of intimacy. On sufficient demand. Prerequisites: PSYC 207 and PSYC 207L.

PSYC 478 Evolutionary Psychology 3 credits
Evolutionary psychology examines the adaptive significance of behavior as the result of universal processes that have shaped the functioning of life. Specific topics include mating strategies, sexual jealousy, cheater detection, pregnancy sickness, parental nurturance and negligence, spatial memory, landscape preferences, and aggression and violence. On sufficient demand. Prerequisites: PSYC 207 and PSYC 207L.

PSYC 479 Seminar: Psychology of Trauma 3 credits
This seminar style course is an introduction to the psychological aspects of individual’s exposure to traumatic experiences. This course will cover a variety of topics including historical and current literature regarding the effects, diagnosis, and treatments of trauma exposure throughout the lifespan. The course will place an emphasis on student participation in classroom discussions and presentations of course material. On sufficient demand. Prerequisites: PSYC 207 and PSYC 207L.

PSYC 480 Neuropsychology 3 credits
Neuropsychology is the study of the relationship between brain functioning and behavior. The course will incorporate an introduction to neuroanatomy, an overview of neuropsychological assessment, and clinical case studies. On sufficient demand. Prerequisites: PSYC 207 and PSYC 207L.

PSYC 481 Attachment Across the Lifespan 3 credits
Seminars course explores the basic principles of attachment theory and an analysis of attachment relationships (e.g., parent-child, romantic partners) at various points in the lifespan. May include a service-learning component. On sufficient demand. Prerequisite: (PSYC 207 and PSYC 207L) or EDSE 320 or SOCI 304 or EXSC 305.

PSYC 482 Psychology of Aging 3 credits
This course will explore the interaction and impact of the aging process on physiological, cognitive, and psychological changes within the individual. The course will include topics such as the diversity of aging experiences, retirement, widowhood, coping with illness, family care giving, and mental health issues. On sufficient demand. Prerequisites: PSYC 207 and PSYC 207L.

PSYC 483 Emotion 3 credits
On sufficient demand. Prerequisite: (PSYC 207 and PSYC 207L) or EDSE 320 or SOCI 304 or EXSC 305.

PSYC 484 Abnormal Child Psychology 3 credits
An overview of theory, research, and practice in developmental psychopathology. The major disorders of childhood are reviewed. On sufficient demand. Prerequisites: PSYC 207 and PSYC 207L.
PSYC 485 Ethics in Psychology 3 credits
Using the APA ethical guidelines for psychologists we will examine the aspirational goals, the standards themselves, the history of the current standards, and how to apply them in a variety of situations faced by psychologists. Prerequisites: PSYC 207 and PSYC 207L.

PSYC 486 Seminar 3 credits
Prerequisites: PSYC 207 and PSYC 207L.

PSYC 487 Seminar-Verbal Processes 3 credits
Prerequisites: (PSYC 207 and PSYC 207L) or SOCI 304 or EXSC 305.

PSYC 488 Psychology of Transcendence 3 credits
Utilizing perspective gained from developmental psychology, educational psychopathology, object relations theory, and attachment theory this course will explore both positive and defensive uses of the human quest for transcendence. Focusing on religious traditions throughout the world (Judaism, Christianity, Islam, Buddhism, Hinduism, etc.) this course will provide familiarity with common themes of transcendent experience (salvation, enlightenment, timeless grace, etc.). Prerequisites: PSYC 207 and PSYC 207L.

PSYC 489 Seminar: Infant Development 3 credits
Seminar involves an in-depth study of the research and theory on development from conception through infancy with special attention to the real-world application of knowledge gained. May include a service-learning component. On sufficient demand. Prerequisites: (PSYC 207 and PSYC 207L) or SOCI 304 or EXSC 305.

PSYC 490 Directed Reading in Psychology 1-3 credits
Directed reading of an advanced topic in the field of psychology; reports submitted, conferences attended, and examination taken at the judgment of the director. Prerequisites: PSYC 207 and PSYC 207L.

PSYC 496 Practicum in Psychology 1 credit
Supervised agency experiences in one or more of the applied aspects of psychology. Only one hour may be counted toward the requirements for the major. Prerequisites: PSYC 426 and PSYC 475.

PSYC 497 Group Research Topic 1-3 credits
Supervised research experience as a part of a research team working on a specific project under the direction and supervision of a faculty member.

PSYC 498 Individual Research Topics 1-3 credits
Supervised individual research on a topic of interest to the student and approved by and arranged with a faculty member. Prerequisites: PSYC 207 and PSYC 207L.

PSYC 499 Comprehensive 0 credit
Passing the Graduate Record Advanced Test in Psychology is required of all majors prior to receiving their degree.

The aim of the religious studies curriculum is to help students develop an informed, reflective, critical, and articulate consciousness of their own developing faith in relation to the development of the modern world. This aim is pursued through the study of scripture and Christian tradition and their application to major areas of contemporary life, especially the integration of religion and society. The Department of Religious Studies offers courses in the areas of scripture, historical and systematic theology, Church history, moral theology, spirituality, and ministry. Undergraduate students in all degree programs are required to take three religious studies courses (nine credits) sequenced as follows: one 100-level course, one 200-level course, and one 300-level course.
B.A. Major in Religious Studies 33 Credits

Lower Division
- RELI 110-112 Old Testament* 3 credits
- RELI 120 or 124 New Testament* 3 credits
  (REL 105 may substitute for either Old or New Testament)
- RELI 200-240 History/Theology 6 credits

Upper Division
- RELI 330 Principles of Christian Morality* 3 credits
- RELI 492 World Religions 3 credits
  (or other non-Christian Religions)
- RELI 110-112 Old Testament* 3 credits
- RELI 499 Senior Symposium 3 credits

Minor in Religious Studies 18 Credits

Lower Division Courses
- RELI 110-112 Old Testament* 3 credits
- RELI 120 or 124 New Testament* 3 credits
  (REL 105 may substitute for either Old or New Testament)
- RELI 200-240 History/Theology 3 credits

Upper Division Courses
- RELI 330 Principles of Christian Morality* 3 credits
- RELI 110-112 Old Testament* 3 credits
  * Upper level (400) advanced courses in this subject area may be substituted for this requirement. Prior approval from the chair is required. Students who have already taken an advanced course can submit an appeal.

Lower Division
- RELI 105 Old and New Testament 3 credits
  A study of both Old and New Testament as the scriptures of Christianity.
- RELI 110 The Old Testament 3 credits
  Examines the historical, literary and contemporary worlds of the Old Testament.
- RELI 111 (WOMS 251) Feminist Interpretations of the Old Testament 3 credits
  This course introduces students to the Old Testament with special attention given to texts dealing with women.
- RELI 112 Old Testament and Ecojustice 3 credits
  Examines the Old Testament in terms of its literary, historical, and cultural dimensions with special attention to the role Earth and all creation plays in the biblical materials.
- RELI 120 The New Testament 3 credits
  A study of the synoptic gospels and their inter-relationship and independent development.
- RELI 200 Religion and Human Experience 3 credits
  An exploration of some of the basic experiences, concepts, and challenges involved in being religious.
- RELI 205 History and Teaching of Christianity 3 credits
  Designed to give students of Christian and non-Christian backgrounds an introductory knowledge of the growth and development of Christianity from its beginnings to the present day.
- RELI 210 Christian Doctrine 3 credits
  An introduction to the academic discipline of Christian theology and the way in which the Christian community makes believing possible and meaningful for contemporary people of faith.

Upper Division
- RELI 211 (WOMS 252C) Feminist Christian Doctrine 3 credits
  Informed by the voices of contemporary feminist theologians and biblical scholars, this course examines the traditional understanding of what it means to live in a Christian faith in a pluralistic culture.
- RELI 215 Christian Diversity 3 credits
  An introduction to the history, beliefs, and practices of selected denominations within Christianity such as Orthodox, Lutheran, Anglican, Reform, Anabaptist, and others. Students will also examine the impact of culturally diverse expressions of Christianity within a North American context, e.g. African American and Hispanic.
- RELI 220 Catholicism 3 credits
  Exploration of the identity of the Roman Catholic tradition with emphasis on Catholicism's dialogue with the contemporary world.
- RELI 230 Contemporary Church 3 credits
  A theological and historical examination of the contemporary church from the perspective of the Second Vatican Council.
- RELI 231 (WOMS 255C) Women and Contemporary Church 3 credits
  The focus of this course is to examine the identity and mission of the church as an institution and a community of faith emerging from Vatican Council II. Feminist theology will provide the lens for examining the role of women in the church in both historical and contemporary situations.
- RELI 240 Core Seminar: Special Topics 3 credits
  Prerequisite: One 100 level course.

Upper Division
Note: Upper division 300-level courses have as a prerequisite one 100-level and one 200-level RELI course.
- RELI 310 Bible and Christian Morality 3 credits
  The role of Scripture in Christian moral choices, the relationship between current moral problems and biblical insights, and application of a critical biblical understanding to modern questions of justice and morality.
- RELI 330 Principles of Christian Morality 3 credits
  How are Christians to fashion moral choices, character, and communities? What are the sources, tools, and rules of Christian ethics? What kind of Justice does our faith demand?
- RELI 331 Christian Sexual Morality 3 credits
  A Christian perspective on the ethical dimensions of human sexuality and issues of gender.
- RELI 332 Christian Marriage 3 credits
  Catholic teachings in the area of marriage and family life in light of contemporary challenges.
- RELI 333 Christian Medical Ethics 3 credits
  How should Christians judge and respond to the technologies and dilemmas of modern medicine? What Christian principles should guide our medical and health care decisions and policies?
- RELI 334 Healing and Wholeness 3 credits
  A Christ-centered model and method for healing, transforming, transcending physical challenges, psychological wounds, addictive tendencies and for ongoing transfiguration of the whole person.
- RELI 335 Faith, Justice, and the Church 3 credits
  What does our Christian faith have to say about our economic, political, social and cultural structures and practices. An examination of the ways our Church calls us to practice a “faith that does justice.”
- RELI 336 Christian Ethics of Eating 3 credits
  Why biblical and Christian morality demands just and sustainable agricultural systems that feed the hungry, compensate and protect workers, and treat animals humanely.
- RELI 337 Vietnam: War-Christian Morality 3 credits
  An analysis of Christian moral teachings on war with a specific focus on the Vietnam War. Topics include peace, justice, killing, revolution, and protest.
RELI 343 Christian Leadership 3 credits
The scriptural and traditional foundations for religious leadership; contemporary leadership theories; the development and role of Christian leaders in the Church and world today.

RELI 350 Interreligious Dialogue 3 credits
Asks how Christianity and other world religions should engage in respectful dialogue, and explores practical issues such as moral responsibility, social structures, and spiritual engagement.

RELI 360 Liturgy 3 credits
A general survey of liturgy; the roots and contemporary manifestations of celebration, ritual, and symbol.

RELI 361 Worship in Western Christianity 3 credits
The historical evolution of worship in western Christianity to the twentieth century and how it has been understood theologically; contemporary Catholic and Protestant traditions of worship.

RELI 370 Christian Spirituality 3 credits
The sources, nature, and forms of Christian spirituality historically and within the contemporary context.

RELI 371 (WOMS 356) Women and Christian Spirituality 3 credits
An exploration of the themes, questions, and foundations of Christian spirituality with special focus on the experience of women.

RELI 385 (WOMS 355) Feminist Theologies 3 credits
Examines the tasks of feminist theologians and surveys the challenges and unique contributions they make to the integrity and vitality of contemporary Christianity.

RELI 390 Applied Theology: Special Topics 3 credits
Note: Upper division 400-level courses have as a prerequisite one 100-level, one 200-level and one 300-level RELI course.

RELI 401 Pentateuch 3 credits
An historical-critical and theological study of the documents which constituted Israel’s understanding of covenant with God.

RELI 402 Genesis 3 credits
RELI 404 Psalms Literature 3 credits
An examination of Israel’s Psalms that explores their poetic and theological elements, their history of interpretation in Judaism and Christianity, and their use in contemporary worship.

RELI 405 Wisdom Literature 3 credits
A study of the literary, theological, and historical dimensions of the books of Proverbs, Job, Ecclesiastes, Sirach, and the Wisdom of Solomon and their place in the development of Hebrew thought.

RELI 406 Prophets of Israel 3 credits
A survey of prophecy in ancient Israel that focuses on the nature of prophecy, the role and message of the prophets, and the parameters of contemporary prophetic ministry.

RELI 408 (WOMS 455) Women and the Bible 3 credits
Examines women’s depiction in Old Testament narratives, Ancient Israel’s patriarchal culture, and the Old Testaments role in supporting modern women’s full humanity. Engages feminist hermeneutics and scholarship.

RELI 409 Dead Sea Scrolls 3 credits
Matthew, Mark, and Luke in their interrelationship and their independent development.

RELI 410 Hebrew Scriptures: Special Topics 3 credits

RELI 411 Synoptic Gospels 3 credits

RELI 412 Johannine Literature 3 credits
The Gospel of John and the Johannine letters.

RELI 413 Letters of Paul 3 credits
Paul’s life and theology as reflected in his letters.

RELI 414 Revelation and General Epistles 3 credits
How to interpret the Book of Revelation and the Epistles of James, Hebrews, Jude, and 1 and 2 Peter.

RELI 417 Christians, Romans and Jews 3 credits

RELI 418 Apocalyptic Literature 3 credits
How to interpret the various books of Apocalyptic Literature in the Old and New Testaments.

RELI 419 New Testament: Special Topic 3 credits

RELI 420 Contemporary Trends in Theology 3 credits
A selective engagement of current themes and authors who are setting the course for theology in the 21st century.

RELI 422 Christology 3 credits
The key movements in Christology today in the light of scriptural and conciliar teachings on Christ.

RELI 424 Suffering God 3 credits
Can we really honor the reality of God and the concrete fact of human suffering at the same time? What is the relationship between suffering and God? The course investigates this ambiguous but classic religious experience as articulated in political and liberation theologies.

RELI 425 Political Theology 3 credits
The critical relationship of religious and political values as foundational; memory, narrative, and solidarity as theological categories. Special emphasis on the work of Johann Baptist Metz with some attention to J. Moltmann and D. Soelle.

RELI 426 Religion and Human Rights 3 credits
An introduction to the notion of universal human rights with special attention to the role of religion in the debate. The contribution of recent Christian theology to this conversation. Issues include the clash of cultures, cultural relativity and universal truths, the possibility of a global ethic, the use and abuse of religious language, and theological contributions to international political dialogue.

RELI 429 Systematic Theology: Special Topics 3 credits

RELI 430 Theological Ethics 3 credits
How does theological ethics inform a Christian understanding of our practical moral life? This course will examine the fundamental concepts of Christian theological ethics and study their application to specific ethical issues and problems.

RELI 431 Christian Sexual Morality 3 credits
Fundamental Christian moral principles and their application to the expression of human sexuality and issues of gender.

RELI 435 Church and Social Justice 3 credits
The issues of justice from a Church perspective as they affect society locally, nationally, and internationally.

RELI 437 The Ethics of Nonviolence 3 credits
An examination, through the writings of Mahandas Gandhi and Martin Luther King, Jr., of the sources, presuppositions, and goals of nonviolence as both a personal ethic and a movement for social change.

RELI 438 Death and Dying 3 credits
Study of the ethical issues that death and dying raise for human existence. Topics include definitions of death, truth-telling, termination of treatment, God and death, and war and death.

RELI 439 Ethics: Special Topics 3 credits
RELI 440 Ecclesiology 3 credits
Study of the Church’s ecumenical self-understanding of its nature and function in the contemporary world as reflected in official documents and theological writings.

RELI 444 Women in Ministry 3 credits
Women’s participation in the Church’s mission as expressed in scripture, history, tradition, and the contemporary life of the Church. Special emphasis on the development of skills which will enable a positive contribution to the issues.

RELI 445 Church History to the Reformation 3 credits
The historical origins of the Church and its development to the Reformation.

RELI 446 The Reformation 3 credits
The figures, ideas, and events that produced the religious challenge to medieval Christendom in the sixteenth century.

RELI 447 American Religious History 3 credits
The role of religion in the development of American culture from the colonial period to the present.

RELI 448 Church History: Special Topics 3 credits
A study of themes, issues, and selected classic texts in the history of Christian spirituality.

RELI 449 Ecclesiology: Special Topics 3 credits
A contemporary exploration of human relationships: self, community, world, and God through the lens of Christian spirituality.

RELI 450 Theology of Ministry 3 credits
Theological foundations for ministry in the church including historical roots and contemporary experience. Attention will be given to both the theory and practice of ministry. Skills of theological reflection will provide the method if inquiry and direction for collaborative pastoral response.

RELI 451 Pastoral Counseling 3 credits
Foundations of theological models, methodology, and practice crucial to pastoral counseling. Special attention to counseling theory and related pastoral issues with emphasis on theological reflection and evaluative methods.

RELI 452 Spiritual Direction 3 credits
A holistic approach to the history, theological, and psychological foundations and methods of spiritual direction. Personality types and prayer forms are also studied within the context of the director-directee relationship.

RELI 453 Program and Administration in Ministry 3 credits
Practical skills in church administration and collaborative ministerial leadership: skills for developing and administering ministry programs.

RELI 454 Program and Administration in Ministry 3 credits
Practical skills in church administration and collaborative ministerial leadership: skills for developing and administering ministry programs.

RELI 455 Sharing Faith 3 credits
This course propose foundations for a participatory and empowering approach to religious education and pastoral ministry. The curriculum is focused around five generative themes: the who, what, why, where, and how of Christian religious education. Within these themes the course examines particular topics and correlates with other issues in ministry.

RELI 457 Supervised Ministry 1-4 credits
Ministerial experience under supervision and assistance in theological reflection. Permission from department required. Prerequisite: RELI 450.

RELI 458 Practicum 3 credits
Field based experience involving demonstrated competence in ministry. Prerequisite: RELI 450.

RELI 459 Ministry: Special Topics 3 credits
A course on volunteer work with both classroom and volunteer fieldwork components.

RELI 460 Community Outreach 3 credits

RELI 461 Sacraments 3 credits
Theological study of the scriptural, doctrinal, and systematic presentation of sacramental life and worship.

RELI 462 Liturgical-Sacramental Spirit 3 credits
The interrelation of liturgical celebration, personal spirituality, and Christian living.

RELI 463 Sacraments of Initiation 3 credits
Christians are made, not born; a study of how this has been and is done sacramentally through baptism-formation and the Eucharist.

RELI 465 Eucharist 3 credits
Study of its Jewish origins, New Testament foundations and Catholic theology, including real presence, sacrifice, and ministry. The Eucharist as prayer and the Eucharist in ecumenical perspective.

RELI 469 Liturgy-Sacraments: Special Topics 3 credits

RELI 471 New Testament Spirituality 3 credits
The nature of biblical spirituality and a consideration of the spiritual teachings of the gospel writers.

RELI 472 Christian Spiritual Traditions 3 credits
A study of themes, issues, and selected classic texts in the history of Christian spirituality.

RELI 473 Contemporary Christian Spirituality 3 credits
A contemporary exploration of human relationships: self, community, world, and God through the lens of Christian spirituality.

RELI 474 Understanding Christian Mystic 3 credits
The lives of Teresa of Avila and John of the Cross; their works and relevance for today.

RELI 475 Spirituality and Social Justice 3 credits
Explores the interconnectedness of the Christian experience of God and the commitment to justice in society; the dialectic of the mystical and prophetic dimensions of Christian existence.

RELI 476 Prayer and Discernment 3 credits
Practical spiritual and personal development: contemplative prayer, discernment, spiritual direction, healing ministry.

RELI 479 Spirituality: Special Topics 3 credits

RELI 480 Spirituality and Ministry 3 credits
An exploration of spirituality as formative and foundational to contemporary ministry.

RELI 481 Ignatian Spirituality 3 credits
The personal spirituality and legacy of St. Ignatius Loyola.

RELI 482 Spirituality and Adult Life Cycle 3 credits
The dynamics of Christian growth in connection with contemporary life-cycle research.

RELI 485 Feminism and Christianity 3 credits
An investigation and critique of the dialogue between feminist theory and Christian theology. Specific issues and persons are selected for consideration.

RELI 486 (WOMS 457) Women and Spiritual Journey 3 credits
An exploration of the impact of the women’s movement on the understanding and experience of spirituality. Issues include God-imagery, scriptural approaches, expressions of prayer and ritual.

RELI 490 Directed Readings 1-6 credits
Prerequisite: Permission from department.

RELI 491 (PHIL 466) God and Philosophy 3 credits
Philosophical views about God and our knowledge of God.

RELI 492 (INST 330) World Religions 3 credits
The diverse non-Western religious beliefs and practices and various religious perspectives regarding world brotherhood and sisterhood. Includes an introduction to the religions of the world.
Sociology

Chairperson: Edward Vacha
Professors: B. Coughlin, S.J., J. Rinehart, E. Vacha
Associate Professors: M. Marin, A. Miranne, G. Weatherby
Assistant Professors: M. Bahr, A. Bertotti Metoyer, V. Gumbhir, W. Hayes
Instructor: Andrea Fellenstein

The Department of Sociology offers the Bachelor of Arts degree in sociology. The study of sociology helps students to develop an awareness of the connections between our individual experiences and the groups to which we belong. Learning the theories and methodologies of sociology provides students with an excellent foundation for a variety of careers, including law, government service, teaching, and business. The requirements for a major in sociology have been designed to facilitate the acquisition of skills in social scientific theorizing and research design. The student may use the credits available in electives to pursue an interest in a specific content area of the discipline such as social inequality, social psychology, social institutions, or deviance. Students have the opportunity to graduate with honors in the major if they have fulfilled all requirements, achieved a grade point average of at least 3.5 in their sociology courses, and written and defended a senior thesis (SOCI 498). In their fourth year, all sociology majors must complete SOCI 499 (Sociological Analysis).

Students who are planning to obtain certification in elementary or secondary education while majoring in sociology must consult with advisors in the department and in the School of Education in order to insure that both sets of requirements may be met. These students are advised to choose a minor which will broaden and strengthen their knowledge of social science.

B.A. Major in Sociology: 34 Credits

Lower Division
- SOCI 101 Introduction to Sociology 3 credits
- SOCI 202 (MATH 121) Statistics for Social Science 3 credits
- SOCI - - - Lower-division electives (excluding SOCI 100) 0-3 credits

Upper Division
- SOCI 304 Research Methods 4 credits
- SOCI 311 Classical Social Theory 3 credits
- SOCI 312 Contemporary Social Theory 3 credits
- SOCI - - - Electives 12-15 credits
- SOCI 499 Sociological Analysis 3 credits

Minor in Sociology: 18 Credits

Lower Division
- SOCI 101 Introduction to Sociology 3 credits
- SOCI - - - Electives (excluding SOCI 100) 0-6 credits

Upper Division
- SOCI - - - Electives 9-15 credits

Lower Division
- SOCI 100 Culture, Ethnicity and Race: United States 3 credits
This course examines issues concerned with culture, ethnicity, and race as unique to the United States experience. The course will focus on the structures and circumstances that promote racial ideology; the nature of prejudice and discrimination, as well as survival and resistance strategies. This course is designed to serve non-majors and non-minors in sociology. This course does not count towards the sociology major or minor requirement.

- SOCI 101 Introduction to Sociology 3 credits
A general survey of the field of sociology and how human society works. Materials focus on an understanding of modern societies.

- SOCI 200 Social Problems, Solutions and Social Change 3 credits
This is a course on the study of major social problems. Specifically the course will demonstrate how sociology skills can be employed to bring about social change.

- SOCI 202 Statistics for Social Science 3 credits
An introduction to the basic concepts of descriptive and inferential statistics with an emphasis on social scientific applications. Prerequisite: SOCI 101.
SOCI 221 Sociology of South Africa 3 credits
A sociological analysis of South Africa within the context of race, power, leadership, justice struggle, forgiveness, healing and social transformation from mid-twentieth century to the present. Course required for students planning to participate in the South Africa study abroad program.

SOCI 244 (WOMS 201) Sex, Gender and Society 3 credits
Explores theories and research on the constructions of masculinity and femininity and how these influence our individual lives and social institutions.

Upper Division

SOCI 304 Research Methods 4 credits
Provides training and experience designing, conducting, and analyzing social research through projects using surveys, interviews, and observation. The course is useful for students contemplating careers in which knowledge concerning people (customers, clients, employees, students, etc.) is needed for testing theories, making decisions, targeting appeals, etc. Required for all majors.

SOCI 311 Classical Social Theory 3 credits
Analyzes the theories developed by Marx, Weber, Durkheim, and others during the nineteenth and early twentieth centuries and how these continue to influence the work of sociologists today. Invites students to examine their own practices of theorizing. Fall.

SOCI 312 Contemporary Social Theory 3 credits
Explores the major strategies for sociological theorizing developed during the twentieth century in America and western Europe. Considers how constructions of modernity and postmodernity are central to understanding what theorizing means and what it can contribute to our work as sociologists and as citizens. Spring. Prerequisite: SOCI 311.

SOCI 322 (INST 315) Latin American Society 3 credits
An overview of Latin American development. Several socio-economic factors are examined. Development issues are broadly conceptualized within economic, demographic, and cultural dimensions. These variables are viewed as overlapping forces influencing development.

SOCI 323 Race and Minority Relations 3 credits
A consideration, through theory and research, of the concepts of race; racial conflicts; ethnic, political, sexual, and religious minorities; and the modes of adjustment to such situations.

SOCI 325 Mexican American Experience 3 credits
Course will study the historical development of Mexican American society, culture and community from 1848 to the present. Sociological themes of assimilation and cultural pluralism will provide the foundation for the analysis of this ethnic group. Team-taught in English.

SOCI 326 East Asian Society 3 credits
As a socio-historical survey of China, Korea and Japan from 1800 to the present, this course examines the sociopolitical, economic, ideological and cultural transformations within East Asia through the transformative processes of imperialism, colonialism, modernization, war and revolution, and globalization. By exploring how cultural, social and political dimensions overlap and influence economic development, students gain insight into contemporary social change, representation and power in East Asia.

SOCI 327 Social and Economic Inequalities 3 credits
Examines the distribution of such social rewards as income, power, style of life, wealth, and prestige among members of a society. Also considers a variety of sociological explanations for the distribution of rewards: compares and contrasts stratification systems across societies.

SOCI 328 Social Change 3 credits
Studies change in both individual and social structures. Emphasis on change at the societal level, especially with regard to the emergence of the modern industrial order and the possible future of this type of society.

SOCI 329 Sociology of Culture 3 credits
Focus on analysis of rules and values that constitute American culture, especially in relation to how these are portrayed in mass media and the built environment.

SOCI 330 Society and the Individual 3 credits
Social psychology introduces novelty into the ancient pastime of speculating about human behavior and human groups by attempting to use scientific methods. This course focuses on the relationship between individuals and groups. It includes an examination of the impact of groups on individuals, and the impact of individuals on the groups to which they belong. Topics covered include friendship, leadership, influence, the self concept, prejudice, and morality.

SOCI 332 Small Groups 3 credits
Studies the structure of small groups and examines the social processes that go on within them. Topics covered include allocation of power and prestige, leadership, friendship, conflict, group productivity, and decision making.

SOCI 333 Popular Culture and Film 3 credits
This course deals with contemporary film and the five social institutions of religion, economy, family, politics and education. Images of God, depiction of the family historically and currently, the value of education by ethnicity, evolving gender roles and distinctions, political rights and governmental intervention, and other social issues will be explored in depth primarily through the use of film.

SOCI 334 Collective Behavior 3 credits
Crowds, mass behavior, public opinion, riots and social movements are forms of human behavior characterized by the spontaneous development of new norms that often contradict/reinterpret existing norms. The course examines the classical and recent research on this social behavior.

SOCI 336 Socialization 3 credits
Much of what makes human life interesting and exciting revolves around personality - the complex cluster of traits that makes each of us unique. This course focuses on the way our experiences with others in the family, school, and at work shape our personalities while preparing us to become a part of society.

SOCI 337 Subcultures 3 credits
This course examines a specific type of social group - the subculture - and the relationship between subcultures and the larger culture. Students will review the historical development of subcultural studies, with dual emphasis on theory and methodology.

SOCI 342 (WOMS 360) Gender, Family and Society 3 credits
Examines images and practices of family life in American society. Explores how family has become a significant political topic in contemporary America. Connects family issues to struggles about gender.

SOCI 348 Sociology of Death and Dying 3 credits
Presents perspectives on dying and death as cultural constructions and socially organized practices. Emphasizes the connections between how people live and die in America today, especially in terms of the differences due to gender, age, race, and ethnicity.

SOCI 350 Deviant Behavior 3 credits
Knavery, skulduggery, cheating, crime, malingering, cutting corners, immorality, dishonesty, betrayal, wickedness, and all other unconventional activities are forms of deviance. All known societies have members who become deviants. This course introduces students to several theories explaining deviance and examines the life styles of a variety of deviants.
SOCI 355 (CRIM 355) Elite and White Collar Crime 3 credits
This course examines organizational crimes and the crimes of the rich and powerful. The nature and extent of various types of white collar crimes are described, discussed, and analyzed, and methods of controlling this form of crime are presented. This course also provides a survey of various sociological explanations for white collar crime.

SOCI 380 Global Sociology 3 credits
This course examines the theoretical, methodological, and empirical significance of globalization and offers sociological perspectives on the political, economic, and cultural processes of globalization in varied regions of the world, including Asia, Latin America, North America, Africa, and the Middle East. Several key issues in the field of global sociology will be addressed, including the changing role of state sovereignty, the political and social implications of a global economy, the reordering of international relations and the changing features of warfare, the significance of new social movements and international organizations, the focus on environmental sustainability, and the fusion of cultural forms at local and global levels.

SOCI 381 Politics and Society 3 credits
An empirical analysis of the major theories which attempt to describe the actual distribution of power in America. The course is primarily concerned with how power in societies is contested, given legitimacy, and sustained; it also examines political behavior of the public focusing on voting behavior.

SOCI 382 Population and Society 3 credits
There are more people on this planet than ever before, and the problems associated with population growth seem to be everywhere. Urban crowding, disease, poverty, ethnic tensions, refugees, illegal immigration, environmental degradation, unemployment, aging and the social security "crisis" are just a few of these troubles. This course introduces students to the study of population and demography to help them better understand these issues. After learning how to measure and analyze population characteristics and trends, students will explore the relationship between population changes and contemporary social and political issues in the developing regions of the world.

SOCI 383 Environmental Sociology 3 credits
This course examines human relationships with the natural environment. It explores how power structures, social norms, ideologies, and politics affect our relationship and treatment of the environment.

SOCI 384 Sociology of Religion 3 credits
Studies works of classical and contemporary sociologists on the social and cultural aspects of religion. Examines how religion is influenced by social conditions and the role it plays in shaping society.

SOCI 385 Law and Society 3 credits
An examination of the legal process from the emergence of legal norms to the impact of legal sanctions from a sociological point of view. The course focuses on the social processes that influence the development of specific laws, the administration of the law, and the impact of legal sanctions.

SOCI 386 Sociology of Education 3 credits
This course examines the theoretical, methodological, and empirical significance of education and the interplay of education and occupation; how schooling in the U.S. today compares to schooling in other societies and to schooling in the past, and the debate concerning the quality of American schools.

SOCI 387 Sociology of Health and Illness 3 credits
This course provides an investigation of the nature and extent of juvenile delinquents in America. Special attention will be given to theoretical explanations; the effect of family, peers, and school; and the history of the juvenile justice system in handling juvenile offenders.

SOCI 388 Sociology of Mental Illness 3 credits
This course provides an analysis of the problems of mental health and illness from the sociological perspective. Sociological approaches on the definition of mental illness; the social epidemiology of mental illness; problems of recognizing and defining conditions of mental illness, and hospital and community treatment of mental illness will be covered.

SOCI 486-489 Seminar 1-3 credits
Specific topics to be selected by the professor. Offered at the undergraduate level. Specific topics to be selected by the professor. Offered at the undergraduate level.

SOCI 490 Directed Readings 1-3 credits
Supervised advanced reading in selected topics in sociology. Prerequisite: Permission from department.

SOCI 491 Directed Study 1-3 credits
Topic to be decided by faculty.

SOCI 492 Practicum in Sociology 1-3 credits
Supervised experience in a selected social agency. Credit by arrangement. Prerequisite: Fourth year sociology major or permission from department. Prerequisite: SOCI 101.

SOCI 493 Independent Research Project 1-3 credits
Approved directed experience in sociological research proposed by the student.

SOCI 494 Senior Honors Thesis 3 credits
Students with a 3.70 grade point average in their sociology courses who wish to be graduated with departmental honors in sociology must enroll in this course in the semester prior to the semester in which they are graduated. Work is done under the direction of a faculty member from the department. The student must pass an oral examination of the thesis administered by the department. The thesis may be theoretical or based upon empirical research.

SOCI 495 Independent Study 1-3 credits
Prerequisite: Fourth year sociology major or permission from department.

SOCI 496 Sociological Analysis 3 credits
Offers sociology majors the opportunity to review theories and research, and to consider how these might be useful for understanding current social issues. Required of all sociology majors and fulfills comprehensive examination requirement. Spring.
Women's Studies

Director: Jane Rinehart

Gonzaga's Women's Studies Program provides students with the tools and information they need to participate competently in our society's current conversation about gender. This multi-disciplinary program examines the historical and contemporary circumstances which shape the relationships between men and women. It raises fundamental questions about gender relations and identity, explores philosophical assumptions about human nature, and considers the possibility of new social practices which will bring about greater equality and mutual understanding. The program offers a twenty-one credit concentration in Women's Studies. There are three required courses: WOMS 201, 401, and 499. Students also select four electives courses in several disciplines, including English literature, history, modern languages, philosophy, political science, religious studies and sociology. A maximum of six elective credits may be lower-division courses with a WOMS number. Further, a maximum of six elective credits may be Component courses ("C" suffix), with the remainder of electives being full women's studies courses. Full women's studies courses systematically use the methods, themes, and approaches of feminist scholarship throughout the semester. (In component courses, one-third to one-half of the course material addresses gender issues and/or uses feminist perspectives.) A maximum of nine credits may be taken in any one discipline. WOMS 401 will not be included in this count. Students should also note the policy in this catalogue on multiple usage of courses for meeting degree requirements in the WOMS concentration and the core or major/minor.

Concentration in Women's Studies: 21 credits

Lower Division
- WOMS 201 Sex, Gender, and Society 3 credits
- WOMS 200 level Electives 0-6 credits

Upper Division
- WOMS 300 level and above Electives 6-12 credits
- WOMS 401 Feminist Thought 3 credits
- WOMS 499 Symposium 3 credits

Note: Component courses have a "C" suffix.

Lower Division
- WOMS 201 (SOCL 244) Sex, Gender and Society 3 credits
  Explores theories and research on the constructions of masculinity and femininity and how these influence our individual lives and social institutions.
- WOMS 220C (ENGL 201) Studies in Fiction 3 credits
  The elements of fiction through careful examination and discussion of short stories and novels. While not all authors read are female, the focus is primarily on female characters, gender roles, and feminist themes and issues. This course satisfies the ENGL 200 requirement. Prerequisites: ENGL 101 and ENGL 102.
- WOMS 237C (PHIL 301) Ethics 3 credits
  Explores several approaches to ethics, including a feminist perspective, considering how each theoretical approach is grounded. Examines the process of ethical decision-making and how gender affects how we approach ethical issues. Contemporary ethical issues are examined, some of which are gender-related. This course satisfies the PHIL 301 requirement. Prerequisite: PHIL 201.

Upper Division
- WOMS 251 (RELI 111) A Feminist Introduction to the Old Testament 3 credits
  This course will introduce students to the Old Testament with special attention given to texts dealing with women. After analyzing the literary types and social roles of biblical women, the course examines how their stories shaped attitudes toward women in American society. In addition to the biblical text, students read contemporary feminist and womanist commentators, and study what is involved and presumed by a feminist reading of the Bible. This course satisfies the RELI 100 requirement.
- WOMS 252C (RELI 211) Christian Doctrine from a Feminist Perspective 3 credits
  Informed by the voices of contemporary feminist theologians and biblical scholars, this course examines the traditional understanding of what it means to live Christian faith in a pluralistic world. This course satisfies the RELI 200 requirement.
- WOMS 255C (RELI 231) Women and Contemporary Church 3 credits
  An examination of the identity and mission of the church as an institution and a community of faith emerging from Vatican Council II, with feminist theology providing the lens for examining the roles of women in the church in both historical and contemporary situations. This course satisfies the RELI 300 requirement.
- WOMS 265 (BIOL 165) Biology of Disease 3 credits
  This course investigates how medicines work. It covers various affected organ systems (e.g., immune, endocrine, reproductive), the scientific method, development of effective medicines/treatments, and the potential sex/race/ culture bias of experimental results from drug trails. Various diseases (e.g., AIDS, cancer, diabetes) and treatments will be covered in the course. Designed for non-science majors. This course satisfies the natural science core.
- WOMS 270 (HIST 219) Sex and Gender in European History 3 credits
  An introductory survey of ideas about gender, sex, and the family in western culture, and women's experiences of and contributions to civilizations in the Mediterranean and western Europe from ancient times to the early modern period (circa 1600). Prerequisites: HIST 101.
- WOMS 313 (POLS 313) Think Globally, Act Locally 4 credits
  Studies the changes that globalization precipitates in the economy, in the capacity of the welfare state, and in civic activity. Develops new "habits of the heart" and political engagement, including advocacy; service learning through local organizations to perform all forms of household labor for women who are raising children alone.
- WOMS 321C (ENGL 310) American Literature I 3 credits
  This course examines a variety of genres in American literature through the 1840s: essays, novels, short stories, sermons, poems, women's captivity narratives, and autobiographies. The course will move from Spanish and Native American narratives of contact to the self-questions of Puritan writers and the mythologizing tendencies of Crevecoeur, Franklin, Cooper, and later writers. In exploring Native American and African American texts as well as works by Emerson and Hawthorne, students will consider the ways in which gender and race help to shape an American literary canon. Prerequisites: English core.
WOMS 323C (ENGL 311) American Literature II 3 credits
The course analyzes the development of American literature from the romanticism of the 1830s to the blooming of the American Renaissance of the 1850s and 1860s. Writers such as Hawthorne, Poe, Emerson, Whitman, Thoreau, and Dickinson will be read alongside less canonical writers such as Fuller, Davis, Douglass, Jacobs, and Stowe. This course seeks to broaden an understanding of American literature by reading works from a variety of genres (short stories, poems, essays, autobiographies, novels) and from writers of different races, classes, and geographical backgrounds. Prerequisites: English core.

WOMS 324C (ITAL 322) The Italian Historical Novel 3 credits
This course will explore the development of the historical novel in Italy with a strong emphasis on modern historical novels. Prerequisite: ITAL 301.

WOMS 325C (ENGL 318) African American Literature 3 credits
Examining both nineteenth- and twentieth-century literary works, African-American literature seeks to expose students to the historical, aesthetic, and cultural backgrounds of black writers and writing in America. Beginning with the classic slave narratives, late nineteenth- and early twentieth-century black intellectuals (e.g., Booker T. Washington, W.E.B. DuBois) will introduce the students to the social and political dissonance among advocates of black liberation. The course will sample the aesthetic flowering of writers of the Harlem Renaissance (e.g., Langston Hughes, Zora Neale Hurston) and twentieth-century plays and novels (e.g., Lorraine Hansberry, Ralph Ellison, Toni Morrison, August Wilson) Fulfills American literature requirement. Prerequisites: English core.

WOMS 326C (ENGL 312) American Literature III 3 credits
This course surveys American literature from the 1870s to 1950. We will discuss some of the following developments and authors of the 19th century: The rise of realism (James, Wharton) and naturalism (Crane, Dreiser), regional literature (Jewett, Freeman), and African American literature (Washington, DuBois, Chesnutt). The survey of 20th-century works includes works by several modern poets (Eliot, Frost, Hughes), novelists (Hurston, Faulkner, Welty), and dramatists (Odetts, O'Neill). Prerequisites: English core.

WOMS 330 (HIST 363) Women in U.S. History 3 credits
An examination of the roles, experiences, and activities of American women from the colonial period to the 1970s.

WOMS 331 (HIST 384) Women in Colonial Latin America 3 credits
An investigation of the lives of women in both the precontact and post-conquest societies. The activities of women and their roles in society among the Aztec, Inca, and Pueblo civilizations, followed by a study of their experiences after the Spanish Conquest and women's experiences and roles in the Spanish colonies, including a woman who fled a nunnery dressed as a man, served in the Spanish army and killed men in duels.

WOMS 340 (POLS 322) Gender and Politics 3 credits
Survey of feminist theories and their impact on the political position of women in America. The history of the postwar women's movement in the U.S. A variety of issues raised by women will be explored, and placed in comparative context to further illuminate possible choices and consequences.

WOMS 342 (INST 326/POLS 363) Women in Comparative Societies 3 credits
The course aims to develop awareness that globalization is precipitating changes in the nature of the American economy and in the nature of civic life, and to develop the civic skills and "habits of the heart" that globalization demands. Several learning modes are featured: exposure to traditional academic reading, engagement in classroom discussion, and involvement in service, leadership training, and community activism. Students work with locally-based groups devoted to economic justice, community activism, and service to women and children.

WOMS 343 (POLS 303) Civil Liberties: Race and Gender 3 credits
Civil liberties is the legal face of the fundamental issue of democratic politics: how can we combine majority rule AND cultural pluralism AND protection of individual rights? Beginning with a study of traditional civil rights: the tension between protection of individual rights and the power of the majority in a democracy, we then survey how that traditional understanding has been modified to protect "individuals" who are only in court because they belong to a non-mainstream group or subculture, focusing in depth on two such groups - African Americans and women - reading books which argue that the traditional individualistic understanding of civil rights fails to provide justice. We conclude with a mainstream defense of the traditional view.

WOMS 344 (POLS 327) American Social Policy 3 credits
This course examines the origins, patterns, reforms, and criticisms of American social policy. Consideration of ties between knowledge and social policy, and the particular impact of education, health care, and welfare policies on women, children, different racial and ethnic groups, and the middle class. A review of normative claims for the proper role of the state and capitalism as well as comparisons with other western, capitalist societies and their policy regimes. On sufficient demand.

WOMS 355 (RELI 385) Feminist Theologies 3 credits
Examines the tasks of feminist theologians and surveys the challenges and unique contributions they make to the integrity and vitality of contemporary Christianity. This course satisfies the RELI 300 requirement.

WOMS 356 (RELI 371) Women and Christian Spirituality 3 credits
Explores the major theological and spiritual foundations of Christian spirituality. Considers how women have, at different points in Christian history, lived the 'spiritual life.' Also considers new questions raised in recent years about women's experiences of God. This course satisfies the RELI 300 requirement.
WOMS 360 (SOCI 342) Gender, Family and Society 3 credits
Examines images and practices of family life in American society. Uses historical material to show how ideas about family life have developed. Discusses definitions of "family" as political, with a special emphasis on the politics of gender. Connects debates over how to define and understand family with decisions about social policies.

WOMS 384 Women's Studies Internship 2-3 credits
Opportunities to work as an intern with various agencies that assist women in Spokane. Students meet to discuss their experiences and write a paper integrating their internship experience with their women's studies coursework. Fall and Spring.

WOMS 401 (POLS 341) Feminist Thought 3 credits
Analyzes the contributions of feminist scholars to social theory and shows how feminist scholarship is transforming topics, methods, and goals. Reviews the major approaches to feminist theorizing and invites students to put these to work examining contemporary social and political issues. Spring. Prerequisites: WOMS 201 or SOCI 244

WOMS 416 (ENGL 436) 18th Century British Novel 3 credits
The British novel from Behn to Austen. Prerequisites: English core.

WOMS 417 (ENGL 434) Tudor and Stuart Drama 3 credits
Focuses on the varied dramatic traditions of Tudor and Stuart London besides Shakespeare. This is a period in which questions about gender roles were being openly debated, and in which literary and otherwise discursive interrogations of social roles, particularly the role of women, pervaded genres but were most vivid on stage.

WOMS 418 (ENGL 330) Shakespeare: Gender and Genre 3 credits
This course will discuss the language, themes, and preoccupations of Shakespeare, as well as his social, philosophical, and historical context. All the texts selected for our close reading will feature strong female figures, and we will pay particular attention to the construction, impact, and implications of these women on other characters, on the form of their texts, and on us, the inheritors of their literary and cultural tradition. Readings will include *Taming of the Shrew, Macbeth,* and *Anthony and Cleopatra,* in addition to secondary sources featuring feminist theory and literary criticism. Prerequisites: English core.

WOMS 420C (MTSL 304) Language and Cultural Identity 3 credits
This seminar is designed for students who are interested in socio-cultural perspectives on identity and language and their intersection in diverse cultural communities. Our goal will be to explore the theoretical and methodological issues and substantive findings surrounding current research focusing on identity and language. We will also examine related theoretical and empirical research on identity and language (multicultural education, literacy education, feminist pedagogy). Prerequisites: English core.

WOMS 422C (ENGL 413) 19th-Century American Novel 3 credits
This course explores the diverse literary themes, social contexts, and intellectual backgrounds of the American novel from its beginnings in romantic tradition through the realist and naturalist movements of the late nineteenth century. Works by Hawthorne, Melville, Stowe, Wharton, James, Twain, Harper, and others offer a rich opportunity to investigate issues not only of literary value but of race, class and gender in nineteenth-century America. In addition to analyzing each work's form and genre, we will ask the following questions: What accounts for the inclusion (or exclusion) of this work from the canon of American literature? In what ways does the work reflect, critique, or ignore its social context? Prerequisites: English core.

WOMS 423C (ENGL 414) 20th-Century American Novel 3 credits
Close reading of works by Edith Wharton, Ernest Hemingway, F. Scott Fitzgerald, William Faulkner, Eudora Welty, Ralph Ellison, EL Doctorow, and Toni Morrison. The course will also examine the novels against the backgrounds of social history, literary history, and race and gender in American literature. Students are expected to participate in class discussion, collaborate in group work, and write in-class exercises and formal critical essays. Prerequisites: English core.

WOMS 424C (ENGL 462) Studies in the Novel 3 credits
Focuses on thematically or historically-related novels (general topic/theme of the class varies). Through close examination of texts, critical background and theory, this course explores the way gender issues, among other issues, are portrayed by various English and/or American writers. Prerequisites: English core.

WOMS 427 (ITAL 440) Women in Italian Literature 3 credits
This course will analyze five novels by Italian women writers. The course will explore the forces that have historically disenfranchised and isolated women, and what is important and beautiful in women's writing.

WOMS 435 (PHIL 456) Feminist Ethics 3 credits
Explores women's experiences of oppression and some of the ways in which this has marginalized their concerns and their perceptions of the moral dimension. Feminist contributions to rethinking the concept of moral agency, the traditionally sharp distinction between the public and private domains, the relevance of personal relationships to ethics, and the process of moral development and moral decision-making are considered. Spring. Prerequisites: PHIL 301.

WOMS 455 (RELI 408) Women and the Bible 3 credits
Examination of primarily Old Testament narratives involving women, using literary, theological, and socio-historical categories of interpretation to critically reflect on the biblical views of women. Special attention to reading strategies of attending to women's speech, women's values, and narrative point of view so as to consider whether the depictions of women contribute to or denigrate the full humanity of women and how they may be used to subvert oppressive actions and attitudes toward women.
WOMS 457 (RELI 486) Women and the Spiritual Journey 3 credits
An exploration of the impact of the women's movement on the understanding and the experience of spirituality; issues include God-imagery, scriptural approaches, and expression of prayer and ritual.

WOMS 460 (ENGL 460) Studies of Women Writers 3 credits
This course will examine various literary works written in dialogue with or in response to other literary works, but not all of the texts we examine will illustrate women writers responding to earlier male authors. Prerequisites: English core.

WOMS 480 (NURS 460) Women's Health 2-3 credits
This course will address a broad range of health issues that are either unique women or of special importance to women. Summer.

WOMS 490 Directed Reading 1-3 credits
Supervised reading in one of the previously mentioned areas of study, not to replace existing courses but to provide an opportunity for advanced study not available within the regular curriculum. Prerequisites: WOMS 201 and WOMS 401.

WOMS 491 Directed Study Women's Studies 1-3 credits
Directed study requires completion of a form, department permission, and cannot be registered for via Zagweb.

WOMS 499 Symposium in Women's Studies 3 credits
The capstone course in the Women's Studies concentration provides an opportunity for a special kind of faculty and student conversation. Responsibility for organizing and structuring this course will rotate among women's studies faculty. Topics will vary. Regardless of the texts or topics, the goals will be to create a conversation in which students play active roles and in which they develop collaborative skills as well as analytic and writing skills. Students will share responsibility for initiating and facilitating class discussions. Students and faculty will work together to develop credible readings of assigned texts. Students will write regularly. Where possible, faculty and students will discuss implications of the course readings and conversation for the anticipated future work worlds of the students. Prerequisites: (WOMS 201 or SOCI 244) and (WOMS 401, SOCI 390 or POLS 341).
The School of Business was established in 1921 and is accredited by AACSB International - The Association to Advance Collegiate Schools of Business. As stated in its Mission, the School "strives to develop professionally competent graduates who exemplify the humanistic, ethical, and moral values of a Jesuit institution. A personal learning environment, quality students, and a faculty dedicated to teaching and advising, scholarship, and service will mark our excellence. As part of a dynamic business environment, we will strengthen relationships with the regional, national, international and scholarly communities." To support the mission of the School of Business, the learning objectives of the programs prepare students to:

- apply fundamental business theories and practices to any organization;
- analyze challenges and opportunities critically and arrive at a best solution;
- understand diverse perspectives and the global reach of business decisions;
- communicate ideas and information effectively;
- approach decision-making ethically and with a commitment to the common good; and
- adapt readily to the changing demands of a high-technology market.

Required courses in literature, fine arts, religious studies, philosophy, mathematics, history, natural and social sciences, and communication skills are an integral part of the business curriculum. These courses foster the development of critical thinking, creative problem-solving, and interpersonal communication skills that are vital to the education of future leaders.

**Admission Requirements**

School of Business courses numbered 300 and above may be taken by students who have: a) attained junior standing, and b) achieved a cumulative grade point average of 2.50 in the following lower division business core courses: ACCT 260-261 (Principles of Accounting I and II), BUSN 230 (Business Statistics), BMIS 235 (Management Information Systems), and ECON 201-202 (Microeconomics and Macroeconomics). Third year transfer students who have not completed all the lower division business core courses listed above should consult their advisors.

**Degree Requirements of the School of Business**

In addition to the general degree requirements of the University, the Bachelor of Business Administration degree requires the following:

1. Completion of the core curriculum of the School of Business.
2. Completion of the requirements for a major course of study in the School of Business.
3. Completion of a comprehensive exam (BUSN 499) in the last year prior to graduation.
4. Earn a minimum 2.00 grade point average in all course work taken in the major field.
5. Complete 55 credits of the 128-credit BBA degree requirement outside the School of Business.
6. Complete at least 50 percent of all business courses (core and major requirements) at Gonzaga.

Except for internships, courses that fulfill business core, major, concentration, and minor requirements, may not be taken on a satisfactory/non-satisfactory basis.

**The Core Curriculum of the School of Business Administration**

In addition to the University core curriculum, the School of Business Administration core consists of 63 credit hours which are common to, and required of, the undergraduate B.B.A. degree programs. The remaining credit hours consist of specific upper division requirements in a business major program and general electives.

University and Business School core courses listed below are required of all business majors. Business courses at the 100- and 200-level should be completed by the end of the sophomore year.

I. Thought and Expression (7 credits): ENGL 101, SPCO 101, and PHIL 101 (preferably taken in the same semester).
II. Philosophy (9 credits): PHIL 201, PHIL 301, and PHIL 400-level elective.
III. Religious Studies (9 credits): RELI 100, 200, and 300-levels: one course from each level.
IV. Mathematics (3-4 credits): One MATH (not CPSC) 100-level course or above; business students must take MATH 114, MATH 146, or MATH 157.
V. English Literature (3 credits): ENGL 102, 103H, 105, or 106.
VI. Business Composition (1 credit): BUSN 270.
VII. History (3 credits): HIST 101 or HIST 102 or HIST 112.
VIII. Social Sciences (3 credits): one course in CRIM, HIST, POLS, PSYC, or SOCI.
IX. Science (3 credits): BIOG, CHEM, or PHYS.
X. Fine Arts (3 credits): any VART, MUSC or THEA.
XI. Economics (6 credits): ECON 201 and ECON 202.
XIII. Accounting (6 credits): ACCT 260 and ACCT 261.
XIV. Business Computing (2 credits): BUSN 111.
XVI. Marketing (3 credits): MKTG 310.
XVII. Finance (3 credits): BFIN 320.
XVIII. Management (4 credits): MGMT 350 and MGMT 351.
XIX. Business Law (3 credits): BUSN 283.
XX. General Business (5 credits): BUSN 101 and BUSN 481 and BUSN 499.
XXI. Non-business electives (9 credits).

Transfer students are not required to take BUSN 101 if, prior to enrolling at Gonzaga University, they have completed the equivalent of four of the following courses: ACCT 260-261, BUSN 230, ECON 201-202 and BMIS 235. In addition, students admitted with more than 45 semester credits may receive a waiver of one of the following School of Business core requirements: HIST 101, 102, or 112; social science elective; science elective; or fine arts elective.

**Associate Professors:** T. Chuang, T. Korkeamaki, P. Loroz, M. Shrader, W. Teets.

Honors Program.
The B.B.A. is also offered with an Honors designation.

Major Programs of Study in Business
The degree of Bachelor of Business Administration (BBA) is offered with a major in Accounting or a major in Business Administration.

Major Programs of Study in Business

The degree of Bachelor of Business Administration (BBA) is offered with a major in Accounting or a major in Business Administration.

The Accounting major requires completion of 21 credits, as described in the Accounting section of this catalogue.

The Business Administration major requires completion of 18-21 upper division credits including:

1) Six credits selected in consultation with the advisor from the following:

   a) Integrative courses: BUSN 490 (which may be repeated for up to 6 credits), ENTR 491.
   b) International courses: BFIN 327, ECON 311, ECON 404, MGMT 352, MKTG 417, OPER 440 (not more than 3 credits).
   c) Experiential courses: BUSN 494, BUSN 497 Internship, or ENTR 495 (not more than 3 credits).

2) Twelve to fifteen credits from a designated concentration.

  Requirements of concentrations in Economics, Finance, Human Resource Management, Management Information Systems, Marketing, and Operations and Supply Chain Management are described in the respective sections of this catalogue. Also offered are interdisciplinary concentrations in International Business, and Law and Public Policy. Students may also design an interdisciplinary individualized concentration with the approval of a faculty advisor.

   A second concentration in the School of Business may be earned by completing 12 to 15 credits required in the area. Only one course may be double-counted between two concentrations.

   Students in the School of Business may also earn minors from other colleges of the University.

   The B.B.A. is also offered with an Honors designation. Interested students should contact the Director of the Honors Program.

Hogan Entrepreneurial Leadership Program
The Hogan Entrepreneurial Leadership Program is a four-year undergraduate concentration that immerses students in the fundamentals of creating and managing new ventures in the private and public sectors. The Hogan Program seeks students who have the desire and ability to be leaders in creating new ventures that make a positive difference in society.

Four features distinguish the program:

1) An Honors program model that attracts outstanding students;
2) Rigorous curriculum combined with any academic major;
3) Immersion in entrepreneurial contexts; and
4) Based on Jesuit educational ideals and commitment to the common good.

Admission to the Hogan Entrepreneurial Leadership Program is competitive and is based on the student's entrance exam scores, grade point average, demonstrated leadership creativity, and service to others. Requirements are listed on page 188 of this catalogue.

Student Internships
An internship program is available to eligible juniors and seniors in the School of Business. This program for academic credit provides work experience in a field directly related to the student's major or area of concentration. Interns are selected by the Internship Director and are matched with participating firms which are expected to provide the resources for adequate exposure to business practices in the area of the student's major and concentration. Internship guidelines are available from the School of Business Internship Director.

Bachelor of Arts in Economics
In cooperation with the College of Arts and Sciences, a Bachelor of Arts in Economics is offered. This integrated curriculum combines the objectives of humanistic education with a concentration in economics.

Interested students should refer to the College of Arts and Sciences section for specific requirements of this degree program. Students should note two things: 1) this degree requires completion of at least 104 of the minimum 128 credits required for graduation in the College of Arts and Sciences; and, 2) the core curriculum of the College of Arts and Sciences must be fulfilled.

Pre-Law Students
Students who intend to pursue the study of law are encouraged to enroll in business courses that will provide a solid understanding of the integral relationship between law and business.

Core courses such as Principles of Accounting I and II (ACCT 260 and 261), Microeconomics and Macroeconomics (ECON 201 and 202) are recommended for pre-law students with majors outside the School of Business Administration.

Accounting provides basic skills to prepare and analyze financial statements and to complete case analysis; economics gives an understanding of how economics affects government fiscal policies, international trade, labor and other resource markets, political decisions, etc.

In addition, a pre-law student in the School of Business Administration will benefit from courses in the Law and Public Policy concentration. This concentration includes various courses which address legal issues such as corporate taxation, regulation of securities trading, business ethics, mergers and acquisitions, and antitrust policy and regulation. All of these courses provide pre-law students a unique insight into how business functions within the framework of the legal system.
### Validation of Transfer Courses
Transfer students who took lower division business courses at another school or university that are equivalent to required upper division business courses at Gonzaga, or who took upper division business courses as a freshman or sophomore at another university, must have these courses validated for transfer.

Validation must be completed during the student’s first year at Gonzaga. Validation of lower division courses may be completed by taking one of the following:

1. An advanced course, if available, in the same discipline to demonstrate competence. A minimum grade of "C" must be earned in the advanced course.
2. An equivalent CLEP exam or a departmental exam, if available, and earning a passing score. No credits are given for these validation exams.

### Minors for Non-Business Majors

The School of Business offers General Business, Analytical Finance, Economics, Management Information Systems and Promotion minors to non-business students. These minors are recommended to students who wish to pursue a degree in another school of the University but wish some background in the business field. Students in the College of Arts and Sciences, however, are reminded that they must earn 104 credits in that College. Except in the case of B.A. Economics majors, non-business majors may not take more than 32 semester credits from the School of Business Administration.

#### General Business Minor: 24 credits
Completion of ACCT 260-261 (or ACCT 263), ECON 201-202 (or ECON 200) and one three-credit course in statistics with a minimum GPA of 2.50 must be earned to enroll in 300-level business courses required in the minor program. Enrollment applications are available in the School of Business Administration.

#### Lower Division
- ACCT 263 Accounting Analysis 3 credits
- or ACCT 260-261 6 credits
- ECON 200 Economic Analysis 3 credits
- or ECON 201-202 6 credits
- BUSN 230 Business Statistics or MATH 121 3 credits

#### Upper Division
- MKTG 310 Principles of Marketing 3 credits
- BFIN 320 Principles of Finance 3 credits
- MGMT 350 Management and Organization 3 credits
- Electives 0-6 credits
- BMIS 235, BUSN 283 or OPER 340

#### Minor in Economics: 18 credits

**Lower Division**
- ECON 201 Microeconomics 3 credits
- ECON 202 Macroeconomics 3 credits

**Upper Division**
- ECON 302 Intermediate Macroeconomics 3 credits
- Two of the following: 6 credits
  - ECON 304, 305, 310, 312, 403 or 411
  - ECON - - - Any upper division elective 3 credits

#### Minor in Analytical Finance: 27-28 credits
The minor in Analytical Finance is intended for students with a secondary interest in either general corporate finance or investments. This field of study may be particularly useful to two groups of students: 1) Mathematics majors interested in actuarial science careers and 2) Those interested in a more finance-oriented minor than the General Business Minor program offers. Completion of ECON 201-202, ACCT 260-261, and one three-credit course in statistics with a minimum GPA of 2.50 is required to enroll in upper division courses required in the minor. Enrollment applications are available in the School of Business Administration.

#### Lower Division
- ECON 201 Microeconomics 3 credits
- ECON 202 Macroeconomics 3 credits
- ACCT 260 Principles of Accounting I 3 credits
- ACCT 261 Principles of Accounting II 3 credits

One of the following two courses 3-4 credits
- MATH 114 Mathematical Analysis for Business
- MATH 157 Calculus and Analytical Geometry

One of the following three courses: 3 credits
- BUSN 230 Business Statistics
- MATH 121 Introductory Statistics
- MATH 321 Statistics for Experimentalists

#### Upper Division
- BFIN 320 Principles of Finance 3 credits
- BFIN 322 Intermediate Finance 3 credits
- BFIN 422 Investment Analysis 3 credits

### Minor in Management Information Systems: 17 credits
The world has moved into the Information Age. Information technology and its applications affect every walk of life by improving the productivity of individuals. As a result, the social, economic, and organizational structures change rapidly. The minor in MIS is intended for all non-business students, especially those in computer science and engineering degree programs, to have a basic understanding of how business operates and how information systems affect today's organizations.

#### Lower Division
- BUSN 111 Business Computing* 2 credits
- BMIS 235 Management Information Systems 3 credits

#### Upper Division
- BMIS 331 Problem-Solving and Programming Techniques 3 credits
- BMIS 342 Web-Based Applications and Architecture 3 credits
- BMIS 441 Business Database Systems 3 credits
- BMIS 444 Information Systems Analysis and Design 3 credits

*BUSN 111 may be waived if students have equivalent background and approved by the MIS faculty.

### Minor in Promotion: 18 credits
The minor in Promotion is offered to non-business majors.

The focus is how to communicate effectively and efficiently through a variety of methods with any target audience. Students must complete three required courses as well as three courses from the approved elective courses listed below.

#### Required Courses
- MKTG 310 Principles of Marketing 3 credits
- MKTG 315 Consumer Behavior 3 credits
- MKTG 335 Marketing Communications 3 credits

#### Approved Elective Courses
- PRLS 305 Writing for Public Relations 3 credits
- MKTG 330 Market Research 3 credits
- MKTG 342 Graphic Design 3 credits
- MKTG 411 Advertising 3 credits
- MKTG 418 Sales Management 3 credits
- PRLS 467 Advanced Public Relations 3 credits
- MKTG 490 Promotion Project* 3 credits

* with marketing faculty approval

Also note that an advertising minor is offered to communication arts majors through the Communication Arts department. See that section of this catalogue under the College of Arts and Sciences.
Accounting

The Accounting program is designed to enable students to develop an understanding of, and proficiency in, accounting concepts and techniques. Building on the principles of accounting students study financial reporting, auditing, taxation, income determination, account valuation, accounting systems, and the role of accounting in the allocation and use of resources. The program offers several career options leading to employment in business, government, and public accounting.

CPA Certificate Track
To sit for the CPA examination, Washington State requires candidates to obtain 150 semester credit hours of acceptable educational preparation. Gonzaga offers a Masters of Accountancy (MAcc) degree tailored for students who desire to fulfill the 150-hour requirement and earn a graduate degree at the same time. A student pursuing this track will, during the junior, senior, and graduate years, acquire the technical competence in the 300-level and 400-level Accounting courses, while more fully developing research, communication, and presentation skills offered in graduate classes. A student planning to obtain both undergraduate and graduate degrees should work closely with a faculty advisor for proper course sequencing.

Gonzaga's Accounting majors may apply for the MAcc program during the second semester of the junior year. If accepted into the program, nine credit hours of graduate-level courses may be taken during the senior year with the permission of the Accounting Program Coordinator. Before applying for admission, a student should have completed 75 credit hours (including ACCT 360) with a cumulative GPA of 2.5 and a grade no lower than C in any upper division accounting courses. The student must be admitted to the MAcc program before enrolling in any graduate courses.

Non CPA Track
A student who does not wish to obtain CPA certification can earn the BBA degree in Accounting. With this degree, a student might find employment in governmental agencies, financial institutions, and industrial firms such as Boeing and Avista. The student pursuing this track is encouraged to obtain an Accounting major accompanied by elective course work in information systems. Both the Certified Internal Auditor (CIA) and Certified Managerial Accountant (CMA) designations are available to students with this degree.

ACCT 368 Not-For-Profit Accounting 3 credits
An investigation of accounting principles and procedures as applied to governmental and not-for-profit organizations such as universities, health care agencies, and health and welfare organizations. On sufficient demand. Prerequisite: ACCT 261.

ACCT 460 Advanced Accounting 3 credits
Advanced topics in financial accounting, theory, and practice. Subjects include inter-corporate investments, consolidated financial statements, international accounting, partnerships, and accounting for governmental and nonprofit entities. Fall. Prerequisite: ACCT 361.

ACCT 464 Auditing 3 credits
A study of auditing concepts and practices. Includes audit planning and procedures, EDP auditing, statistical sampling, ethical considerations, and report writing. Fall. Prerequisites: ACCT 361 and ACCT 362.

ACCT 466 Accounting Integration I 3 credits
An intensive study of accounting theory and practice for corporations and not-for-profit organizations, including integration of financial and managerial analysis and control. Spring.

ACCT 467 Accounting Integration II 3 credits
A continuation of ACCT 466 and taken concurrently with ACCT 466. Spring. Prerequisite: ACCT 466.

ACCT 468 Personal Financial Planning 3 credits
A study of financial analysis and planning for individuals, with an emphasis on retirement planning, including applications of federal tax law. Topics include: mission and goal-setting, budgeting, present value analysis of fund accumulations and withdrawals, investment allocations, risk management, estate tax planning. Students prepare a comprehensive personal financial plan. This course satisfies the integrative course requirements for those with BA majors. On sufficient demand. Prerequisite: ACCT 261.

ACCT 489 Special Topic Seminar 1-3 credits
Topics and credit by arrangement.

BUSN 101 The World of Business 2 credits
This course provides an overview of the role of business in society and of the global economic, political, social and other environments in which businesses and other organizations operate. Students will be introduced to concepts and applications of the various business functions, including management, marketing, finance, economics, accounting, production and service, operations management, and information systems. The course is designed to encourage students' curiosity and critical thinking about the world of business. Students will prepare a business proposal. Business majors in the Hogan Entrepreneurial Leadership Program will take ENTR 101 (2 credits) instead of this course. Fall and Spring.

BUSN 111 Business Computing 2 credits
This course introduces students to an integrated set of software tools to solve business problems and to communicate results. Students learn to use spreadsheets, database systems, presentation software, Internet facilities (e.g., e-mail, newsgroups, FTP's, and Web browsers) to help improve problem-solving skills. Additionally, students will learn about file management systems, operating systems, and how to incorporate Visual BASIC (VBA) for applications with Microsoft Office Suite. Classroom lectures and hands-on computer use are employed to enhance learning. Fall and Spring.

BUSN 230 Business Statistics 3 credits
This course introduces business students to the terminology, uses and underlying theory in the areas of data summarization and description, basic probability concepts and distributions, sampling methods and sampling distribution, hypothesis testing, analysis of variance, regression and correlation, and nonparametric methods. The course improves the student's awareness and ability in incorporating statistical considerations into the decision-making process and provides them with experience in using statistical software to assist in the quantitative analysis of business problems. Fall and Spring. Prerequisites: BUSN 111 and MATH 114.

BUSN 270 Business Communication 1 credit
Concepts and applications of effective communication in a business context. Fall and Spring. Prerequisite: ENGL 101 or ENGL 200

BUSN 283 Business Law 3 credits
This course addresses the legal fundamentals in running a business with particular attention to contracts, partnerships, corporations, property, commercial paper, securities, and the regulatory environment. Fall and Spring.

BUSN 290 Directed Study 1-3 credits
Topic to be decided by faculty.

BUSN 489 Special Topics Seminar 1-3 credits
Topics and credit by arrangement.

BUSN 490 Integrative Perspectives 3 credits
This course focuses on integrating advanced topics and/or best practices from different disciplines. The course content varies over time to reflect leading-edge concepts and practices (e.g., business ethics, quality management and international standards, technology infrastructure, e-business strategy, etc.). Courses often involve a large-scale team project. May be repeated up to a maximum of six credits. Permission from department required.

BUSN 491 Directed Study 1-3 credits
Directed study requires completion of an application form and departmental permission. Zagweb registration is not available. Summer only.
The mission of the Economics program is to give students a broad background and knowledge of domestic and international economic systems that are essential for business managers in today's competitive global economy. Graduates can apply economic theory to problems relating to market structures, resource markets, employment, and fiscal and monetary policies. Economists occupy a wide range of positions in profit and non-profit enterprises as well as in government. The economics concentration is highly recommended for pre-law students, as well as for students aiming for careers in banking, finance, government, or industry.

Students in the College of Arts and Sciences may also pursue a major or minor in this field. The requirements for the B.A. and B.S. degrees in Economics can be found under the College of Arts and Sciences in this catalogue. Students expecting to pursue graduate studies in economics are encouraged to pursue the B.S. degree.

</tbody>
</table>
ECON 302 Intermediate Macroeconomics 3 credits
Analysis of the determinants of the levels of national output and prices and the effects of monetary and fiscal policies. Spring. Prerequisite: ECON 202.

ECON 304 Economics of Environmental Protection 3 credits
Explores the economic dimensions of environmental topics such as air and water pollution, deforestation, nonrenewable resource depletion, recycling, and global warming. The course studies the extent of environmental problems and alternative solutions. Spring. Prerequisite: ECON 201.

ECON 305 Public Finance 3 credits
Develops economic tools used to analyze government expenditures and taxation. Discussion of public policy issues such as welfare reform, health care, Social Security, tax reform, and fiscal problems of state and local governments. Fall. Prerequisite: ECON 201.

ECON 306 Comparative Economic Systems 3 credits
Economic analysis of various systems of economic organization, including Capitalism, Socialism, and Communism. Historical development of the theoretical basis and description of the institutional organization of each system. Florence campus only. Prerequisite: ECON 201 or ECON 202.

ECON 310 Antitrust Policy and Regulation 3 credits
Examines the rationale for and effects of various government policies toward business. Analyzes the economic consequences of market power. Emphasis is placed on antitrust policy as a response to market power. Fall. Prerequisite: ECON 201.

ECON 311 (INST 343) Global Economic Issues 3 credits
This course is a presentation of a broad range of global economic issues and policies relevant to a number of disciplines including business, political science, and international studies. Topics include: why nations trade, international trade and economic growth, protectionism, discriminatory trade policies, the foreign exchange market, factor mobility, and comparative economic systems. Fall and Spring. Prerequisite: ECON 201.

ECON 312 Work, Wages, and Inequality 3 credits
An economic perspective on labor market issues. Explores recent controversial topics such as inequality in earnings, race and sex discrimination in labor markets, immigration, minimum wage laws and labor unions, and health and safety regulations in the work place. Fall. Prerequisite: ECON 201.

ECON 401 Adam Smith and Karl Marx 3 credits
A course focused on reading and discussing the works of two opposite but highly influential economic thinkers, Smith and Marx. Supplemented with material on other important economic thinkers from 1500 to 1870. Spring, even-numbered years. Prerequisites: ECON 202.

ECON 402 Currents in 20th Century Economics 3 credits
Emphasis on the works of Thorstein Veblen and neoclassical, Austrian, Keynesian, post-Keynesian and Chicago School economists. Spring, odd-numbered years. Prerequisite: ECON 202.

ECON 403 Managerial Economics 3 credits
The primary goal of this course is to apply the economic way of thinking to the business decision-making process. The course emphasis is on preparing students to become architects of business strategy. Topics include: demand analysis, production and cost analysis, profit maximization in various market structures, and advanced topics in managerial decision-making. Fall. Prerequisites: ECON 201 and MATH 114 or MATH 157.

ECON 404 Economics Integration of the European Community 3 credits
A survey of the origins and development of the European Community; its relation to GATT (General Agreement on Trade and Tariffs); monetary coordination, monopoly, competition, and the balances of payments. Florence campus only.

ECON 411 International Economics 3 credits
The focus of this course is on international trade theory and macroeconomic issues related to international finance. Topics include: economic analysis of the basis for international specialization and trade; gains from trade; the balance of international payments; tariffs; international monetary problems; exchange rate adjustments; capital movements; and international economic organizations. Spring, even-numbered years. Prerequisite: ECON 201 or ECON 101.

ECON 489 Special Topic Seminar 1-3 credits
Topics and credit by arrangement. Prerequisite: ECON 201.

ECON 491 Directed Study 1-3 credits
Individually designed course at the upper division level appropriate to the student's major. Directed Study requires completion of a form, and permission from department. Zagweb registration is not available. Summer.

ECON 497 Internship 0-3 credits
Work experience directly related to the student's major area of study. Internship requires completion of an application form, a 3.0 GPA, permission from department. Zagweb registration is not available. Fall, Spring, and Summer.

Human Resource Management

This concentration provides students a broad background in the management of human resources as well as an awareness of the functional specialties within the field of human resource management. In addition to qualifying students for specific careers in human resources management and general management, this concentration also provides an excellent entry to a variety of professional positions that demand effective direction of people.

Human Resource Management Concentration

12 Credits

- MGMT 400 Recruiting and Selection 3 credits
- MGMT 405 Assessing and Compensating Employee Performance 3 credits
- MGMT 410 Developing People and Organizations 3 credits
- MGMT 415 Employment Law and Employee Relations 3 credits

Upper Division

- MGMT 350 Management and Organization 3 credits
This course studies the theory and practice of management and behavior in organizations. Topics covered include motivation, leadership, workplace diversity, conflict, decision-making, employment law, and global management as applied to managerial functions of planning, organizing, leading, and controlling. Requires completion of admissions prerequisite courses with a 2.50 minimum GPA. Fall and Spring. Prerequisite: Admission to junior-level business courses.

- MGMT 351 Developing Managerial Skills 1 credit
This is an experiential, skill-building course to enhance students' management and interpersonal skills. The course will engage students in various exercises to improve self-awareness, and the application of management concepts to situations that managers face in supervising employees. The course will focus on developing skills such as: problem solving, creative thinking, supportive communication, motivating others, managing conflict, stress, delegation and team building. Fall and Spring.

- MGMT 352 International Management 3 credits
This course is designed to provide students with the information and skills necessary to operate in an international setting. This requires a thorough understanding of international cultures in order for one to communicate, negotiate, lead, and motivate individuals from diverse backgrounds. An array of topics will be covered from international human resource management to motivating a multicultural workforce. Case studies and simulations will be used to explore the international dimensions of management. Fall. Prerequisite: MGMT 350.

- MGMT 400 Recruitment and Selection 3 credits
This course examines recruitment and selection as essential components of strategic human resource planning. Emphasis is on productivity factors (such as the use of technology) and quality factors (such as legal, ethical, and validity issues). Topics include international as well as domestic concerns and considerations of multiple staffing levels. Fall. Prerequisite: MGMT 350.

- MGMT 405 Assessing-Compensating Employee Performance 3 credits
This course examines the central role of job analysis in designing effective human resource management systems. Methods of job evaluation and various approaches to designing compensation and benefits systems within the context of strategic human resource management are also presented. The course also covers the evaluative dimensions of performance appraisal. Fall. Prerequisite: MGMT 350.

- MGMT 410 Developing People and Organizations 3 credits
The course describes techniques and strategies for improving the fit between the individual and the organization and between the organization and its environment. The focus will be on developing guidelines for designing and implementing development programs and understanding the change processes that empower individuals through involvement. These programs and processes will be discussed in the context of strategic human resource management. Spring. Prerequisite: MGMT 350.

- MGMT 415 Employment Law-Employee Relations 3 credits
This course examines the legal issues affecting the strategic management of human resources. Unionization and collective bargaining processes are presented, safety and health, and other employee rights issues are also discussed. Spring. Prerequisite: MGMT 350.

- MGMT 489 Special Topic Seminar 1-3 credits
Credit by arrangement. Fall or Spring. Prerequisite: MGMT 350.

- MGMT 491 Directed Study 1-3 credits
Directed study requires completion of an application form, and departmental permission. Zagweb registration not available. Summer only.

BFIN 327 International Finance 3 credits
A study of the financial management considerations inherent in international business operations. Topics covered include foreign currency exchange and foreign exchange forecasting, hedging methods and strategies, and international financial markets. Attention will be given to the ways in which legal, political, and policy differences affect trade and economic integration. Fall. Prerequisite: BFIN 320.

BFIN 422 Investment Analysis 3 credits
Basic principles and fundamentals of securities markets. Introduction to alternative investment choices and economic factors influencing these choices. Fall. Prerequisite: BFIN 320.

BFIN 423 Financial Management Cases 3 credits
Case problems in corporate financial management. Topics include working capital, raising long-term capital, capital budgeting, cost of capital, and asset structure. Spring. Prerequisite: BFIN 322.

BFIN 424 Real Estate Principles 3 credits
A study in the principles and practices of real estate marketing and financing. On sufficient demand.

BFIN 426 Mergers and Acquisitions 3 credits
Merger types and characteristics, theoretical motivations for mergers, and principles of valuation are covered within the corporate finance framework. Spring. Prerequisite: BFIN 320.

BFIN 429 (A,B,C) Portfolio Management 1-3 credits
This is a course that runs for three consecutive semesters beginning in the Spring semester of the student's junior year. The class will initially consist of lectures on financial theory and portfolio management from the finance faculty and local investment analysts, followed in the senior year with the actual management of an equity portfolio. Prerequisites: BFIN 320, 3.25 GPA, and permission of the instructor.

BFIN 489 Special Topic Seminar 1-3 credits
Credit by arrangement. On sufficient demand. Prerequisite: BFIN 320.

BFIN 491 Directed Study 1-3 credits
An individually designed course appropriate to the student's concentration. Summer. Prerequisites: Junior or senior standing, minimum 3.00 GPA, and dean's permission.
Management Information Systems

Since the term "Information Age" came into existence, information technology has profoundly changed the way we conduct business and live our lives. Knowing how management information systems can improve the productivity and the quality of life is therefore imperative. Information systems (IS) are more than just computer hardware and software. IS managers are concerned with the planning, use, and control of organizational information. IS are used in systems design as well as managing day-to-day transactions; they are also used as a strategic weapon to improve an organizational competitive advantage. Software, such as database management systems (DBMS), decision support systems (DSS) and computer-aided software and systems engineering tools (CASE), are part of the tool package. To be in the MIS concentration, students are required to have their own computers. They are also encouraged to pursue professional certification in A+ (Computer Competency), Certified Data Processors (CDP) or numerous Microsoft Certificate Programs before graduation.

Management Information Systems
Concentration: 12 credits

BMIS 331 Problem Solving and Programming Techniques 3 credits
BMIS 342 Web-Based Applications and Architecture 3 credits
BMIS 441 Business Database Systems 3 credits
BMIS 444 Information Systems Analysis and Design 3 credits

Lower Division

BMIS 235 Management Information Systems 3 credits
This course introduces fundamental concepts of information systems and develops essential skills and techniques for using information technology (IT). The emphasis is on the role of information systems in today's organizations, including how IT changes individual work, impacts organizational structure and processes, and shapes competition in the business environment. Topics include the system concept, hardware, software, communication tools, database management systems, components of information systems, e-commerce (EC), technologies for developing EC, and systems development approaches. Advanced software tools are employed to develop students' ability to apply information technology to business problems. Spring, Fall and Summer. Prerequisite: BUSN 111.

BMIS 245 Web Page Design 3 credits
This course explores the use of various application packages for developing interactive web pages. Beginning with a short history of the Internet and the World-Wide-Web, the course introduces students to the way web-based information systems are developed. Using the system development life cycle (SDLC) as a framework, a variety of tools and techniques for planning and creating a well-designed and well-functioning web site are introduced. Topics include the structure of web pages, web page language (XHTML), and introductions to: cascading style sheets (CSS), graphics, animation, audio, and script languages (such as JavaScript and ActionScript). On sufficient demand. Prerequisite: BMIS 235.

BMIS 289 Special Topic in Business (Application) Programming 3 credits
This course teaches the development of business information systems using a business-oriented programming language such as Visual Basic, ASP and XML. Students will learn programming concepts and systems development processes to develop business applications. On sufficient demand. Prerequisite: BMIS 235.

Upper Division

BMIS 342 Web-Based Applications and Architecture 3 credits
The course is intended to introduce the architecture and development of web-based applications. The course presents an overall introduction to major components of web-based applications, including communication protocols, web servers, database servers, programming (script) languages, and development tools for web-based applications. The course provides a general coverage of alternative platforms and their associated technologies for developing web-based applications. Popular web languages and standards are introduced as a vehicle to familiarize students with practical skills and development techniques. Spring. Prerequisite: BMIS 235.

BMIS 441 (BUSN 490) Business Database Systems 3 credits
This course helps students understand, through practice, the concepts of database management. Text reading provides a broader view in aspects of system modeling, project life cycle, data structure, data normalization, and data administration. Research projects demand students have in-depth knowledge of databases that are in use. Computer projects are used to give students hands-on experience developing a workable system in a PC environment. Fall. Prerequisite: BMIS 235.

BMIS 443(BUSN 490) Electronic Commerce Strategy and Applications 3 credits
An interdisciplinary course, the course is designed to provide students with some of the most exciting concepts, business models, and technologies that are emerging in the field of electronic commerce (EC) and which are expected to shape both consumer and business applications (e.g., accounting, supply chain, marketing, finance, and human resource management) and decision-making in the coming decade. EC is not just about technology, it is also about business. Students study real-world cases and business models and learn how to apply EC strategy to transform and redefine organizations and ultimately to improve or create a company's competitive advantage. Appropriate software may be used for applications development. Spring. Prerequisite: BMIS 235.

BMIS 444 Information Systems Analysis and Design 3 credits
The full range of business software development is covered in this course, including problem definition, analysis and design, testing, documentation, and implementation strategies. Students will gain experience working with the main tools and techniques utilized throughout the Systems Development Life Cycle (SDLC). Topics include strategic planning, system development methodologies, project management, requirements development, data and process modeling using a software engineering CASE tool, object modeling using UML, application architecture, installation and evaluation. Spring. Prerequisite: BMIS 441.

BMIS 489 Special Topic Seminar 3 credits
Students must have their own PCs. Fall, Spring and Summer. Prerequisite: BMIS 235.

BMIS 491 Directed Study 1-3 credits
Directed study requires completion of an application form, and departmental permission. Zagweb registration not available. Summer only.
# Marketing

Marketing emphasizes satisfying needs and wants through the facilitation of the exchange process between and among organizations and customers. Marketing concepts and techniques apply to all types of organizations, whether they are for profit or non-profit and whether providing goods, services, experiences or ideas to their customers. An organization's long-term success is determined by understanding customer preferences and perceptions as well as how they change. Marketing is also a critical link between organizations and their environment.

The topics studied include: gathering and interpreting market information, understanding customer decision processes and the influencers of these processes, target market decisions involving segmenting markets and positioning market offerings, marketing promotion and advertising, product design and modification, pricing, distribution of products, and effective managerial decision-making and planning.

Marketing is an essential, universal activity common to all individuals and organizations around the world, whether pursuing personal employment, seeking clients for an accounting firm, or in marketing supertankers or soap. Marketing knowledge and skills may lead to challenging and satisfying careers in nearly any field including such activities as sales and sales management, advertising and promotion management, retail management and buying, product development and management, public relations, industrial marketing, marketing research, and international marketing.

A Promotion minor is offered to non-business majors through the School of Business Administration. An Advertising minor is also offered to majors in communication arts through the Communication Arts Department. See that section of this catalogue under the College of Arts and Sciences.

## Upper Division

### MKTG 310 Principles of Marketing

- **This course provides an overview of the dynamics of marketing. The focus is the study of exchange and its facilitation for all types of products, both tangible and intangible. The functions, institutions, problems and philosophies of modern marketing are presented in survey form. The major areas of marketing decision-making are examined including: selecting and working with target markets, product development and management, promotion and marketing communication, pricing, and distribution. Fall and Spring. Prerequisite: Admission to junior-level business courses.**

### MKTG 315 Consumer Behavior

- **Consumer behavior is the study of human responses to products and services and to the marketing of those products and services. The focus of the course is on achieving a deeper understanding of the psychological, social, cultural, and economic dimensions of consumer judgment and decision-making. Influence factors such as attitudes, personality, memory, motivation, perception, and reference groups are explored. In addition, ethical concerns in the field are considered. Fall and Spring. Prerequisite: MKTG 310.**

### MKTG 330 Marketing Research

- **This course provides a general overview of marketing research. Students will be introduced to the analytical procedures and technology most widely employed by marketing professionals. Students will acquire an appreciation of the marketing research process and become knowledgeable users of information provided by this form of inquiry. Specific topics covered include: alternative methods of obtaining information, problem identification, research design, measurement scales, questionnaire construction, validity and reliability issues sampling error, sampling procedures, statistics, computer data analysis, research reporting, and ethical dilemmas. Fall and Spring. Prerequisite: BUSN 230.**

### MKTG 335 Marketing Communications

- **This course examines the strategic use of various marketing communication elements including advertising, sales, promotion, public relations, personal selling, and direct marketing to build and maintain broad equity. Analysis will focus on topics such as selecting among alternative promotional tools, budgeting and allocation decisions, determining appropriate message strategy, and developing media schedules for a given product/market selection. Particular attention will be paid to the effective integration of elements across the promotional mix. Fall and Spring. Prerequisite: MKTG 315.**

### MKTG 342 Graphic Design

- **A survey of recent developments, styles, techniques and theory of graphic design as a commercial art form is the focus of this course. The class incorporates the use of professional computer software as a means to create effective visual communications. Fall or Spring. Prerequisite: MKTG 310.**

### MKTG 411 Advertising

- **This course explores the role of advertising in marketing strategy. Key topics include the communication process as well as basic practices and procedures of modern media. In addition, the course focuses on the application of advertising principles to the development of advertising objectives, strategy formulation, budgeting, media selection, copy testing, and evaluating advertising results. Regulatory, social, and ethical dimensions of advertising are also explored. Fall or Spring. Prerequisite: MKTG 310.**

### MKTG 417 International Marketing

- **This course provides an introduction to international marketing concepts and their application to various business situations. The course emphasizes principles and practices of marketing in the contemporary global environment. It is designed to enhance students' knowledge about current developments in international business. The material covers both U.S. and foreign companies doing business in various countries around the world. The course considers the marketing perspectives that allow increased interaction with global markets. Techniques, operations, and ethical dilemmas that are unique to international marketing will be discussed. Fall or Spring. Prerequisite: MKTG 310.**

### MKTG 418 Sales Management

- **This class examines two different aspects of the selling process. An introduction to basic principles underlying all types of selling and the practical applications of these principles to various selling situations is provided. In addition, an introduction to problems in the management of a sales force such as recruiting, selection, training, motivation, compensation, sales analysis, and control procedures is pursued. Fall or Spring. Prerequisite: MKTG 310.**
Operations and Supply Chain Management

The growth of e-commerce, heightened global competition and advances in information technology are some of the forces behind the ongoing need to eliminate waste and add value throughout a product's supply chain. The Operations and Supply Chain Management (OSCM) concentration examines how a firm can establish and enhance the operational core competencies required by demanding consumers in a dynamic marketplace.

This concentration prepares students for the challenges of tomorrow's business environment by providing them with the technical, informational and managerial skills needed to manage and improve an integrated system of productive processes. Career opportunities exist with organizations that provide or are dependent on fast, low-cost, accurate and uniform flows of products, information and services. Examples of career opportunities in the Pacific Northwest include consulting, logistics, manufacturing, health services, government, retail and insurance, and banking.

Operations and Supply Chain Management Concentration: 12 credits

Four courses selected from the following 12 credits
- OPER 343 Spreadsheet Modeling for Managers
- OPER 345 Service Operations
- OPER 346 (BUSN 490) Project Management
- OPER 347 (BUSN 490) Lean Thinking
- OPER 348 (BUSN 490) Quality Management and International Standards
- OPER 440 Global Operations and Supply Chain Management
- OPER 445 (BUSN 490) Process Management and Improvement
- BMIS 443 e-Commerce and Infrastructure Development

Upper Division

OPER 340 Operations Management 3 credits

This core course provides an understanding of the strategic and tactical role of operations management in building and maintaining a firm's core competencies. A significant emphasis is placed on discussing the impact of technology and globalization on creating and enhancing value from both the producer and consumer's perspective. This hybrid course uses a combination of lectures, Blackboard.com exercises, computer lab projects and group projects to ensure an understanding of basic concepts. Upon completion of the course students will possess the requisite skills to create and sustain the operational core competencies required to compete in a global marketplace. Fall and Spring. Prerequisite: Admission to junior-level business courses.

OPER 343 Spreadsheet Modeling for Managers 3 credits

This course involves building, solving and interpreting analytical models of managerial problems from operations, finance, marketing, and statistics using Microsoft Excel, specialized add-ins, and the Visual Basic for Applications programming language. This is a hands-on course where students will learn advanced Excel skills and how to create spreadsheet models of business processes and solve them to generate quality solutions. Fall. Prerequisite: OPER 340.

OPER 345 Service Operations 3 credits

This course introduces business students to service operations and attempts to familiarize them with the distinctive characteristics of service organizations and how to successfully manage them. Discussion includes, but is not limited to, such topics as the role and nature of services; competitive environment of services and competitive service strategies; service design, managing service operations, and globalization of services. Summer and on sufficient demand. Prerequisite: OPER 340.

OPER 346 Project Management 3 credits

This operations skills course provides students with the requisite skills necessary to manage a wide range of projects including: project planning, task scheduling, resource management, and project reporting. The course provides students the knowledge of how to use MS Project to plan and control multiple projects utilizing finite resources. Summer and on sufficient demand. Prerequisite: OPER 340.
INTERDISCIPLINARY CONCENTRATIONS

OPER 347 Lean Thinking 3 credits
This operations strategy course extends the benefits of lean thinking outward from the factory floor to encompass the entire global supply chain. The principles of lean thinking are applied to each stage of supply chain management including the make-vs.-buy decision, sourcing, product and process design, facility location and management, and relationship management. Practical methods for enhancing a firm’s core competencies by identifying and eliminating waste are presented along with recommendations for building an integrated supply chain through the use of Internet-based strategies and software solutions. Summer and sufficient demand. Prerequisite: OPER 340.

OPER 348 Quality Management and International Standards 3 credits
This course provides an introduction to management practices aimed at quality improvement and international quality standards as applied to productive systems throughout a product’s global supply chain. Topics include product and process design for quality and reliability, vendor selection and quality defect prevention throughout the supply chain, control and improvement of process capability for all supply chain processes, ISO 9000 and ISO 14000 standards, and customer relationship management. Fall. Prerequisite: OPER 340.

OPER 440 Global Operations and Supply Chain Management 3 credits
This course examines the role of technology and the impact of globalization on creating and enhancing value from both the producer and consumer’s prospective. Learning objectives include understanding how culture and contextual differences in management practice affect the efficiency and effectiveness of global operations and how developing a global supply chain creates a sustainable competitive advantage. The course uses a combination of lectures, Internet exercises, case analysis, field research and group projects. Summer and on sufficient demand. Prerequisites: Admission to junior-level business courses and OPER 340.

OPER 445 Process Management and Improvement 3 credits
All organizations have business processes that produce and deliver products and services to customers. This course examines the design and management of key business processes by focusing on the process flow, key performance measures, and the management of levers that lead to process improvement. The student will be introduced to process management tools as part of the course. Spring. Prerequisite: OPER 340.

OPER 489 Special Topic Seminar 1-3 credits
Prerequisite: OPER 340
OPER 491 Directed Study 1-3 credits
Directed study requires completion of a form and departmental permission.

Law and Public Policy

Government regulation and legislation have a major impact on business, creating a need for public policy makers to understand the workings of business and for people in the private sector to understand the public sector. This is especially relevant for people pursuing careers in corporate public affairs and professional study in law, public administration, and public policy analysis.

Law and Public Policy Concentration: 12 credits
Four courses selected with advisor approval from the following, with not more than six credits from one department:
- ACCT 365 Federal Taxation
- ECON 304 Economics of Environmental Protection
- ECON 305 Public Finance
- ECON 310 Antitrust Policy and Regulation
- BFIN 426 Mergers and Acquisitions
- MGMT 415 Employment Law and Employee Relations
- POLS 303 Civil Liberties
- POLS 311 Local, Tribal and State Government
- POLS 318 Administrative Law
- POLS 320 Bureaucracy and Citizens
- POLS 321 Politics and Public Administration
- POLS 323 Constitutional Law
- POLS 327 American Social Policy
- POLS 432 Law as a Vocation

International Business

The opportunities and threats presented by today’s global economy affect businesses, large and small. The International Business concentration is designed for students who want to prepare themselves to meet the challenges associated with globalization. The concentration aims to expose students to global practices and related issues in the areas of economics, finance, human resource management, marketing and operations and supply chain management. It is recommended that students selecting this multidisciplinary concentration also complete a functional concentration in tandem.

International Business Concentration: 12 credits
Four courses selected from the following:
- ECON 311 Global Economic Issues 3 credits
- BFIN 327 International Finance 3 credits
- MGMT 352 International Management 3 credits
- MKTG 417 International Marketing 3 credits
- OPER 440 Global Operations and Supply Chain Management 3 credits

Course descriptions are found under the respective disciplines.

Students with a concentration in International Business may not double-count any of the above courses to satisfy the International elective (3 credits) in the Business Administration major. Students in this concentration may count one three or four credit foreign language course to satisfy the International elective. (A course in a student’s native language is not counted as an international course elective.)

Individualized Program

Students may design an interdisciplinary concentration of courses related to their individual goals and interests. This concentration must include twelve credits of upper division courses approved by a faculty advisor. A student might focus on courses geared toward financial management or consumer behavior issues. For example:
- ACCT 363 Cost Accounting 3 credits
- BFIN 322 Intermediate Finance 3 credits
- MGMT 352 International Management 3 credits
- MKTG 315 Consumer Behavior 3 credits
School of Education

Dean: Jon D. Sunderland
Professors: J. Abi-Nader (Emerita), J. Burcalow (Emerita), M. Derby, D. Mahoney, T. F. McLaughlin, J. Nelson, R. Williams
Assistant Professors: J. Brougher, M. Brown, B. Foster, S. Koffman, C. Salina
Instructors: L. Embrey, S. Girtz, J. Traynor

School of Education Mission Statement
The mission of the School of Education is to prepare socially responsive and discerning practitioners to serve their community and profession.
We model and promote leadership, scholarship and professional competence in multiple specializations.
We support an environment that is challenging, inclusive, reflective, and collegial.
We foster inquiry, intellectual creativity, and evidence-based decision making to accept the challenges facing a global society.
We provide academic excellence in teaching, advising, service, and scholarship.
We promote, support and respect diversity.
The School of Education upholds the tradition of humanistic, Catholic, and Jesuit education.

Programs of Study
The School offers two undergraduate degrees. The Department of Special Education offers the Bachelor of Education (B.Ed.) in Special Education and the Department of Sport and Physical Education offers the Bachelor of Education (B.Ed.) in Sport Management and Bachelor of Education (B.Ed.) in Physical Education. Additionally there is a Teacher Certification program that enables students to obtain initial (Residency) certification. The School also offers initial and advanced certification for school counselors, and school administrators at the graduate level. More information on these programs can be found in the graduate catalogue.

Core Curriculum of the School of Education
The core curriculum or common body of knowledge of the School of Education consists of 47 credits which are common to and required of all undergraduate degree programs: the first 31 credits are from the University core; the remaining 16 credits are specific to the School of Education. Transfer students should consult the General Degree Requirements and Procedures section of this catalogue for possible modifications to the philosophy and religious studies core requirements.

University Core
I. Thought and Expression (7 credits): ENGL 101, SPCO 101, and PHIL 101 (preferably taken in the same semester)
II. Philosophy (9 credits): PHIL 201, PHIL 301, and PHIL elective
III. Religious Studies (9 credits): RELI 100, 200, and 300 levels: one course from each level
IV. Mathematics (3 credits): MATH 100 level or above. Students pursuing teaching certification should consult their education advisor for a math course that will count toward certification and satisfy this core requirement.
V. English Literature (3 credits): ENGL 102, 103H, 105 or 106

School of Education Core
VI. Fine Arts (3 credits): at least a total three credits in VART, MUSC, or THEA
VII. Laboratory Science (4 credits): one course with laboratory in either BIOL, CHEM, PHYS, EXSC, or EDPE (Physical Education majors must take EDPE 376/376L)
VIII. Social Science (6 credits): A History course plus an elective from the following: ECON, SOCI, POLS, PSYC, HIST: as recommended by your education advisor
IX. Social Justice: Social Justice is a common component of all education coursework. This requirement can only be met by completing any course designated by the College of Arts & Sciences as a social justice course on Zagweb.
The Department of Special Education offers a major in special education which emphasizes learning experiences in applied settings. Public and private schools, as well as a variety of non-school settings, provide students the opportunity to combine academic training with practical experience. Students who earn the Bachelor of Education degree in special education are prepared to work with individuals with mild to severe disabilities, such as learning disabilities, pervasive developmental disabilities, and behavior disorders. The major focuses on skills needed to function in a resource room, a self-contained classroom, or an inclusionary model. The Department of Special Education also individualizes for students who plan to work outside the school setting.

The Department of Special Education offers two teaching endorsements for the State of Washington: an endorsement in special education and an endorsement in early childhood special education, either or both of which may be completed in the Department of Special Education. Most students also choose to complete an endorsement in elementary education (K-8). In doing so, the student will have to meet the certification requirements of the Department of Teacher Education. All students majoring or minoring in special education who wish to become endorsed to teach special education in the State of Washington must complete:

1. The coursework.
2. Special education practica (EDSE 306 and 406).
3. Apply and be accepted into teacher certification.
4. Student teaching in a special education classroom.
5. State of Washington certification requirements.

Students who wish to become endorsed in early childhood special education must complete:

1. The special education major.
2. The in-school practica (EDSE 306 and 406).
3. Application for and acceptance into Teacher Certification.
4. Student teaching in an early childhood special education classroom.
5. A series of four courses specifically addressing critical issues, background, and pedagogy for early development, methodology, physical development, and communication (EDSE 345, 350, 351, and 352).

In the early childhood special education program students are taught to serve young children with disabilities from birth through early school years. All Gonzaga University students may enroll in EDSE 150, 306, 307, 320, 340, 406, or 407. All other upper division courses require official acceptance into the major or minor in special education. Acceptance and continuance in the major or minor are dependent on an overall Gonzaga GPA of at least a 3.0; a 3.0 average or higher in EDSE 150, 320, 340; a minimum of 3.0 in EDSE 320; a pass and positive evaluations in EDSE 306, 307, 406, or 407; recommendation by the advisor; and approval by the faculty in the Department of Special Education.
EDSE 335 Autism                          3 credits
EDSE 320 Applied Behavior Analysis       3 credits
EDSE 307 Special Education Application   1 credit
EDSE 306 In School Experience Elementary        1 credit
EDSE 225 Advanced Signing Exact English       3 credits
EDSE 155 Signing Exact English           3 credits
EDSE 150 Psychology of Child with
Exceptionalities                         3 credits
This course covers litigation and legislation affecting stu-
dents with special needs, the basic handicapping condi-
tions and how they relate to the education process. Basic
remediation strategies will be discussed, as well as his-
torical, medical, and psychological perspectives of the
various disabilities.
EDSE 155 Signing Exact English            3 credits
A basic SEE signing course where the student acquires
the initial signs to help in working with students with
hearing impairments and other disabilities.
EDSE 225 Advanced Signing Exact English    3 credits
An advanced course in SEE signing. Specific techniques
in teaching with special populations who require signing
as a form of total communication. Prerequisite: EDSE
155 or permission from department.
EDSE 306 In School Experience Elementary   1 credit
Students spend 30 hours assisting a Special Education
teacher at the elementary or preschool level. Arrangements
are made with the instructor.
EDSE 307 Special Education Application     1 credit
Students complete 30 supervised hours working directly
with the individuals with disabilities in non-school set-
tings. Arrangements are made with the instructor.
EDSE 320 Applied Behavior Analysis         3 credits
The basic principles of learning and procedures of
Applied Behavior Analysis are presented. Techniques of
Behavior Analysis such as effective teaching of diverse
populations, objective measurement, experimental
design, evaluation, and social validity are discussed in
detail. A variety of real-life situations are examined. Co-
requisites: EDSE 101L and EDSE 320L.
EDSE 320L Applied Behavior Analysis Lab    0 credit
This lab course is a co-requisite of EDSE 320. There are
two primary components of the lab. One is to remediate
and assist students with difficult concepts presented in
EDSE 320 and the other is to focus on the development,
implementation, write-up, and presentation of an applied
research project. Co-requisites: EDSE 101L and EDSE
320.
EDSE 335 Autism                          3 credits
This course presents the etiology, diagnosis, and treat-
ment of autistic behavior. Emphasis is placed on the vari-
ous successful remediation techniques with such chil-
dren and youth.
EDSE 340 Special Education Policies and
Procedures                                 3 credits
The legal and ethical questions regarding mainstreaming
are examined in detail. Emphasis is placed on develop-
ing individualized education programs, communicating
with parents and staff, and issues of due process.
Recent research in mainstreaming is reviewed.
EDSE 344 Psychology of Child Behavior
Disorders                                  3 credits
This course examines various behavior disorders in chil-
dren. The various viewpoints as to cause and remediation
are outlined. Practical solutions to behavior and emo-
tional disorders are discussed in detail. Prerequisites: Admission to the program.
EDSE 345 Development of Child with
Exceptionalities                         3 credits
This course examines normal child development and eti-
ology of exceptionalities from infancy through age six.
History and philosophy of early childhood special educa-
tion, as well as relevant legislation, are studied. Applied
experience is provided in an integrated preschool set-
ting. Prerequisites: Admission to the program.
EDSE 346 Teacher Students with Learning
Disabilities                              3 credits
The various practical classroom techniques to measure
and remediate learning disabilities are presented. The course focuses on techniques of practical use for the special and regular classroom teacher. Prerequisite: Admission to the program.
EDSE 350 Early Childhood Special Education 3 credits
This course overviews the principles and practical proce-
dures involved in integrated preschool services for chil-
dren with disabilities. Applied experience is provided in
an integrated preschool setting. Prerequisite: Admission to the program.
EDSE 351 Physical Development           3 credits
This course examines normal physical and neuro-motor
development with an emphasis on methods for identifying
and treating delayed or dysfunctional development.
Applied experience is provided in an integrated preschool setting. Prerequisite: Admission to the program.
EDSE 352 Language And Communication     3 credits
This course examines the principles of normal language
development as well as educational guidance for facilit-
ting functional language development in infants, tod-
dlers, and preschoolers. The focus is on intervention pro-
grams designed for enhancing generalization of function-
al language usage. Applied experience is provided in an
integrated preschool setting. Prerequisite: Admission to the program.
EDSE 400 Tutoring and Proctoring         1-3 credits
This course provides students the opportunity to work
collaboratively and gives experience in teaching adults.
Students may assume leadership roles and develop
strategies for later application in training situations. In
addition, teaching recently learned material reinforces
the extension and generalization of their knowledge.
Prerequisite: Admission to the program.
EDSE 406 In School Experience Secondary   1 credit
The student spends 30 hours working in a special edu-
cation classroom at the secondary level with emphasis in
math and reading.
EDSE 407 Special Education Applications with
Adults                                    1 credit
The student spends 30 hours working in environments
serving adolescents or adults with developmental disabili-
ties. Settings include group homes, sheltered work-
shops, supported work programs, and institutions.
EDSE 410 Precision Teaching               3 credits
This class covers the basic techniques and procedures of
Precision Teaching (e.g., pinpointing, movement
cycles, charting, etc.). Emphasis is placed on using
the techniques of precision teaching to remediate and eval-
uate learning and behavior problems. Prerequisite: Admission to the program.
EDSE 415 Psychology of the Child with ADHD 3 credits
This class covers the historical and present treatment techniques dealing with the child with attention deficits and hyperactivity in the classroom and at home. Various assessment devices to determine ADHD are examined. Practical procedures that can be implemented in the school or home are strongly emphasized. Prerequisite: Admission to the program.

EDSE 417 Assessment-Special Education 3 credits
This course deals with various assessment procedures, such as psychometric testing, teacher constructed tests, achievement tests, and observational scoring. Emphasis is placed on using assessments to identify instructional interventions that can be carried out in the classroom setting to remediate learning and behavior problems. Prerequisite: Admission to the program.

EDSE 427 Teaching Persons with Developmental Disabilities 3 credits
This course provides students with an understanding of state-of-the-science practices for serving individuals who have mental disabilities. The focus is on development of intervention within community, school, vocational, domestic, and social settings for both school-age students and adults. Prerequisite: Admission to the program.

EDSE 451 Direct Instruction-Reading 3 credits
This course covers how to teach special education and regular education pupils beginning through intermediate reading skills directly. Particular emphasis is placed on instructing teachers to use reading techniques which have had research supporting their effectiveness. Prospective teachers are taught how to teach, monitor, assess, and remediate various reading skills. Prerequisite: Admission to the program.

EDSE 452 Direct Instruction-Mathematics 3 credits
This course covers how to teach basic mathematical skills directly to special education and regular education elementary pupils. Emphasis is placed on instructing teachers to use mathematical techniques which have research supporting their effectiveness. Prospective teachers are taught how to teach, monitor, assess, and remediate various mathematical skills. Prerequisite: Admission to the program.

EDSE 452L Direct Instruction-Mathematics Lab 0 credit
This lab course is a co-requisite of EDSE 452. This lab provides supplemental instruction and also remediation for students having difficulty with math concepts presented in EDSE 452. Co-requisite: EDSE 452.

EDSE 465 Classroom Management 3 credits
Principles and procedures are presented to promote effective classroom discipline and teaching in either a self-contained or resource center setting. Emphasis is placed on practical techniques that can be employed by one teacher. Prerequisite: Admission to the program. Co-requisite: EDSE 465L.

EDSE 465L Classroom Management Lab 0 credit
This course provides supplemental information to benefit students taking EDSE 465. Content of the course includes APA format for project completion, computer instruction on creating graphs and tables, review of difficult content from class, directed information regarding action research, and ethical standards information. Co-requisite: EDSE 465.

EDSE 470 Functional Analysis Seminar 3 credits
This course reviews functional analysis methodologies for systematically identifying environmental variables that serve to maintain aberrant behavior. The course includes a detailed overview of functional analysis procedures and treatment packages that can be implemented based on the results of functional analyses. Particular emphasis is placed on reinforcement-based interventions and dimensions of reinforcement. Prerequisite: Admission to the program.

EDSE 490 Directed Readings 1-3 credits
This course is an individualized study based on readings approved by the professor. The student develops a selected bibliography.

EDSE 491 Directed Study 1-3 credits
This course is an individualized study that is designed by the professor. Students follow a prescribed course outline.

EDSE 492 Independent Study 1-6 credits
This course is an individualized study that is designed by the student in consultation with the professor. Self-directed learning in a selected area of interest is the process employed. Professor serves as resource.

EDSE 494 Special Projects 1-3 credits
This course is an individualized study that is project-based. The study requires the practical application of educational theory. The project or a written report of the project is submitted to the professor for evaluation.

EDSE 495 Extended Special Education Experience 3-9 credits
This practicum is designed to provide students with an intensive applied experience in community settings. The student works under the supervision of a University supervisor and a community professional. Prerequisites: Admission to the program, EDSE 417 and EDSE 465.

EDSE 496 Special Education Teaching Practicum 9 credits
This is an intensive field experience in which the student assumes the full responsibility of a special education teacher under the direction of a University supervisor and a cooperating teacher. Prerequisites: Admission to the program, acceptance to teacher certification, and acceptance to student teaching.

EDSE 497 Extended Special Education Teaching Practicum 12 credits
This is an intensive field experience in which is at least 12 weeks in duration (12 credits). The student will systematically take over the responsibilities of the special education teacher under the direction of the University supervisor and the cooperating Special Education teacher. Prerequisites: Admission to the program, acceptance to teacher certification, and acceptance to student teaching.
The Department of Sport and Physical Education Program offers two program options: The Bachelor of Education in Physical Education (B.Ed.) with an emphasis in teaching physical education and the B.Ed. in Sport Management. The B.Ed. prepares students to pursue careers and/or graduate study in physical education (pedagogy or administration) or sport management (professional opportunities in sport-related professions and business). Teacher certification in physical education (health and fitness) K-12 is available to physical education majors who fulfill the certification requirements of the teacher certification program in addition to the requirements for the B.Ed. in Physical Education. A minor in physical education or sport management is also available, as is a health and fitness endorsement for students whose primary area of teaching certification lies in an area other than physical education. Students in sport management follow a curriculum that includes pursuing a minor or approved concentration in business, communications studies, or other specialty areas of study. This track prepares students to enter the sport/athletic management field or pursue graduate studies in sport management.

Physical Education also offers a large number of activity courses each semester (EDPE 101-185) which are open to students throughout the University. Activity courses may be repeated for credit.

B.Ed. Major in Physical Education: 52 -64 credits
Program Director:  D. Tunnell

**Lower Division**
- EDPE 190 Foundations of H.S.P.E. 3 credits
- EDPE 201-204 Professional Activity Labs 8 credits
- EDPE 210 Community CPR, First Aid and Safety Education 3 credits
- EDPE 220 Athletic Training 3 credits
- EDPE 222 Health and Human Movement 3 credits
- EDPE 224 Nutrition for Health and Fitness 3 credits
- EDPE 276 and 276L Anatomical and Physiological Principles of Health and Fitness 4 credits

**Upper Division**
- EDPE 311 Health, Fitness, and Physical Education Teaching Procedures 3 credits
- EDPE 312 Methods in Health Education 3 credits
- EDPE 315 Adapted Physical Education 3 credits
- EDPE 340 Psycho-Social Aspects of Sport and Exercise 3 credits
- EDPE 377 and 377L Scientific Principles of Health and Physical Education 4 credits
- EDPE 413 Student Evaluation and Management 3 credits
- EDPE 496A/496B/496C Practicum 2-3 credits

B.Ed. Major in Sport Management: 38 credits
Program Director: J. Sunderland

**Lower Division**
- EDPE 190 Foundations of H.S.P.E. 3 credits
- EDPE 210 Community CPR, First Aid and Safety Education 3 credits
- EDPE 202-207 Professional Activity and Officiating Labs 8 credits
- EDPE 222 Health and Human Movement 3 credits

**Upper Division**
- EDPE 340 Psycho-Social Aspects of Sport and Exercise 3 credits
- EDPE 400 Sport Promotions 3 credits
- EDPE 412 Administration of Sport/Athletics 3 credits
- EDPE 414 Trends and Issues in Sport/ Athletics 3 credits
- EDPE 421 Facilities in Sport/Athletics 3 credits
- EDPE 496D Practicum in Sport Management 6 credits
- EDPE 499 Comprehensive Senior Exam 0 credit

Minor in Physical Education: 32 credits

**Lower Division**
- EDPE 190 Foundations of H.S.P.E. 3 credits
- EDPE 201-204 Professional Activity and Officiating Labs 8 credits
- EDPE 222 Health and Human Movement 3 credits
- EDPE 224 Nutrition for Health and Fitness 3 credits
- EDPE 276 and 276L Anatomical and Physiological Principles of Health and Fitness 4 credits

**Upper Division**
- EDPE 311 Health, Fitness, and Physical Education Teaching Procedures 3 credits
- EDPE 315 Adapted Physical Education 3 credits
- EDPE 377 and 377L Scientific Principles of Health and Physical Education 4 credits
- EDPE 413 Student Evaluation and Management 3 credits
- EDPE 496A/496B/496C Practicum 2-3 credits

Minor in Sport Management: 18 Credits

- EDPE 190 Foundations of H.S.P.E. 3 credits
- EDPE 340 Psycho-Social Aspects of Sport and Exercise 3 credits
- EDPE 400 Sport Promotions 3 credits
- EDPE 412 Administration of Sport/Athletics 3 credits
- EDPE 414 Trends and Issues in Sport and Athletics 3 credits
- EDPE 496D Practicum in Sport Management 3 credits
Activity Courses
Note: All students may enroll in the activity courses listed below. No more than eight credits, however, in any combination of activity courses can be earned towards a bachelor's degree and no more than one of these courses can be taken in each semester. Majors in sports management and physical education, however, may take up to 12 credits from these activity courses.
Activity courses can only be taken on standard or pass/fail grading modes, and cannot be taken on audit grading mode or any "no credit" program.

EDPE 101 Tai Chi 1 credit
EDPE 102 Basketball and Softball 1 credit
EDPE 103 Basketball and Flag Football 1 credit
EDPE 104 Varsity Basketball 1 credit
EDPE 105 Varsity Basketball Condition 1 credit
EDPE 106 Varsity Cheerleading 1 credit
EDPE 107 Novice Crew Conditioning 1 credit
EDPE 108 Beginning Bowling 1 credit
EDPE 109 League Bowling 1 credit
EDPE 110 Beginning Backpacking 1 credit
EDPE 111 Intermediate Backpacking 1 credit
EDPE 112 Crew Conditioning 1 credit
EDPE 113 Archery 1 credit
EDPE 115 Aerobics 1 credit
EDPE 116 Cardio Pump 1 credit
EDPE 117 Social Dance 1 credit
EDPE 120 Varsity Baseball 1 credit
EDPE 121 Baseball Conditioning 1 credit
EDPE 122 Varsity Track 1 credit
EDPE 123 Varsity Cross Country 1 credit
EDPE 124 Beginning Fencing 1 credit
EDPE 125 Intermediate-Advanced Fencing 1 credit
EDPE 126 Beginning Golf 1 credit
EDPE 127 Intermediate-Advanced Golf 1 credit
EDPE 128 Varsity Golf 1 credit
EDPE 129 Self Defense/Judo 1 credit
EDPE 130 Training the Triathlete 1 credit
EDPE 131 Beginning Karate 1 credit
EDPE 132 Intermediate Karate 1 credit
EDPE 133 Advanced Karate 1 credit
EDPE 134 Reserve Soccer Conditioning 1 credit
EDPE 136 Scuba 1 credit
EDPE 137 Ski Conditioning 1 credit
EDPE 138 Alpine Skiing 1 credit
EDPE 139 Ski Racing 1 credit
EDPE 140 Snowboarding 1 credit
EDPE 142 Snowsport Inst Training 1-2 credits
This course is designed to prepare students to be alpine ski and/or snowboard instructors in accordance with the Professional Ski Instructors (PSIA) and American Association of Snowboard Instructors (AASI) certification standards. Course will consist of classroom activities and simulations with additional, optional, on hill training, and Level I or II, PSIA/AASI certification exams.
EDPE 143 Reserve Baseball Conditioning 1 credit
EDPE 144 Swimmers 1 credit
EDPE 145 Varsity Soccer 1 credit
EDPE 146 Soccer and Volleyball 1 credit
EDPE 147 Softball and Volleyball 1 credit
EDPE 148 Varsity Tennis 1 credit
EDPE 149 Varsity Tennis Conditioning 1 credit
EDPE 150 Varsity Weight Training 1 credit
EDPE 152 Racquetball and Tennis 1 credit
EDPE 153 Tennis and Badminton 1 credit
EDPE 154 Varsity Volleyball 1 credit
EDPE 155 Soccer/Basketball 1 credit
EDPE 156 Pilates 1 credit
EDPE 157 Yoga 1 credit
EDPE 158 Fitness and Conditioning 1 credit
EDPE 159 Aqua Aerobics 1 credit
EDPE 160 Weight Training 1 credit
EDPE 162 Tennis and Volleyball 1 credit
EDPE 163 Lacrosse Team 1 credit
EDPE 164 Fly Fishing 1 credit
EDPE 165 Beg Horseback Rdg 1 credit
EDPE 166 Inter English Horseback Riding 1 credit
EDPE 167 Adv English Horseback Riding 1 credit
EDPE 168 Begin Western Horseback Riding 1 credit
EDPE 169 Inter Western Horseback Riding 1 credit
EDPE 170 Ice Skating 1 credit
EDPE 173 Badminton and Racquetball 1 credit
EDPE 175 Beginning Gymnastics 1 credit
EDPE 176 Int Gymnastics 1 credit
EDPE 178 Racquetball 1 credit
EDPE 179 Beginning Winter Handball 1 credit
EDPE 181 Volleyball Conditioning 1 credit
EDPE 182 Soccer Conditioning 1 credit
EDPE 185 Dance Team 1 credit
EDPE 186 GU Out of Bounds Rafting 1 credit

A basic introduction to river rafting, campsite preparation, and organization. Students must participate in the Gonzaga sponsored "Out of Bounds" adventure orientation to be eligible for this activity course.

EDPE 186 GU Out of Bounds Rafting 1 credit

A basic introduction to river rafting, campsite preparation, and organization. Students must participate in the Gonzaga sponsored "Out of Bounds" adventure orientation to be eligible for this activity course.

Lower Division
EDPE 190 Foundations of Health, Sport, and Physical Education 3 credits
Overview of the historical and philosophical foundations of health, sport, and physical education. Introduction to careers in related fields and professional preparation and development.
EDPE 191 Directed Study 1-3 credits
Topic to be decided by faculty.
EDPE 195 New Athlete Orientation 1 credit
This course is designed to support the student athlete with academics and Division I regulations.
EDPE 201 PL: Team Sports and Aquatics 3 credits
Exposure to the basic skills, terminology and concepts, rules, and strategies necessary to participate in selected team sports and aquatics as well as teaching techniques appropriate for instruction in team sports and aquatics.
Emphasis will be placed upon both traditional and non-traditional team sports commonly taught in the public schools. Prerequisite: EDPE 190 and second year standing.
EDPE 202A PL: Strength and Aerobic Condition 3 credits
Provides sport management majors/minors the background and knowledge to prepare for programming issues in supervising fitness programs, fitness trainers, and facilities. Participants will gain an understanding of the foundations, design and oversight of strength/aerobic conditioning programs; the elements of fitness and appropriate terminology; qualifications of fitness leaders; and an appreciation for the many aspects of fitness program leadership. Prerequisite: EDPE 190.
EDPE 202B PL: Strength and Aerobic Conditioning 3 credits
Trains educators in the delivery of effective and appropriate lessons in health-related fitness activities for P-12 students. This course utilizes the Physical Best Specialist training program, including Fitnessgram Test administration. Students learn to design and deliver health fitness curricula and teach health related fitness lessons. Prerequisite: EDPE 190.
EDPE 203 PL: Individual Sports and Dance 3 credits
Exposure to basic skills, terminology and concepts, rules, and strategies necessary to participate in selected individual sports; and exposure to several types of dance, dance terminology, positions, and movements, as well as teaching techniques appropriate for instruction in individual sports and dance. Emphasis will be placed upon both traditional and non-traditional activities commonly taught in the public schools. Prerequisite: EDPE 190.
EDPE 204 PL: Leisure Sports and Games  3 credits
Exposure to basic skills, terminology and concepts, rules, and strategies necessary to participate in selected leisure activities and a variety of activities appropriate for elementary age youth. In addition, teaching techniques appropriate for instruction in leisure activities and elementary activities will be emphasized. Emphasis will be placed upon both traditional and non-traditional activities commonly taught in the public schools. Prerequisite: EDPE 190.

EDPE 205A PL: Officiating I  3 credits
Provides sport management majors/minors a background in the rules, methods and administrative requirements needed to effectively officiate selected team and individual sports. Emphasis will also be given to the skills and knowledge necessary for professional certification in the selected sports. Prerequisite: EDPE 190.

EDPE 205B PL: Officiating II  3 credits
 Provides sport management majors/minors a background in the rules, methods and administration requirements needed to effectively officiate selected team and individual sports. Emphasis will also be given to the skills and knowledge necessary for professional certification in the selected sports. Prerequisite: EDPE 190.

EDPE 206 PL: Technology/Professional Readings  3 credits
A course designed for Sport Management majors to explore career paths, vita and interview preparation, sources for employment opportunities and professional sport related literature. In addition, procedures and methods for utilizing technological skills and software appropriate to sport leadership presentations, research, and management will be covered. Prerequisite: EDPE 190.

EDPE 207 Community CPR and First Aid  3 credits
Red Cross Certification in Community First Aid and CPR is offered through a class that prepares students to recognize and respond to illness/injury situations. Learn basic skills for CPR and first aid, including cardiopulmonary resuscitation and rescue breathing for infants, children and adults, as well as care for musculoskeletal injuries. Using Automatic External Defibrillators is covered. Class includes hands-on lab skill application. This class does not meet the majors' requirement for Physical Education and Sports Management who must take EDPE 210.

EDPE 210 CPR, First Aid, and Safety Education  3 credits
This course provides preparation in the basic knowledge and skills involved in recognizing and responding to a variety of emergencies and life-threatening situations, individual training in how to evaluate and provide basic care for victims of injury and/or sudden illness until professional medical help arrives (CPR and first aid). Additionally, students receive instruction and practice in the prevention of common injuries. Safety and health education issues are studied with their application to prevention in the community, home and workplace settings. Students receive American Red Cross Certification in Community First Aid and CPR.

EDPE 211 Aerobic Exercise Instruction  1-3 credits
Development and perfection of skills necessary to participate in aerobic exercise activities, along with techniques of instructing the specifics of these skills. On sufficient Demand. Prerequisite: EDPE 115 and second year standing.

EDPE 220 Athletic Training  3 credits
Knowledge and procedures surrounding the prevention, recognition, and care of common athletic injuries. Basic taping techniques for coaches are covered.

EDPE 222 Health and Human Movement  3 credits
Investigation of the factors affecting healthful living and wellness, including mental, emotional, physical, and environmental health; with a focus on how movement and physical fitness affect and are affected by other aspects of health.

EDPE 223 Lifeguard Training  3 credits
Prepares individuals to assume the duties and responsibilities of lifeguards at swimming pools and at protected (non-surf) open water beaches. Prerequisite: Successful completion of pre-course skill test. On sufficient demand.

EDPE 224 Nutrition for Health and Fitness  3 credits
A basis for understanding the current research and advances that promote healthy lifestyles and fitness through proper nutrition. Emphasis will be given to how food, metabolism, and lifestyle choices interact in humans to increase or reduce poor health and risk of disease.

EDPE 276 Anatomy and Physiology Principles of Health and Fitness  3 credits
An introduction course emphasizing an understanding of anatomical and physiological structure and function of the major systems. Primary focus will be on the musculoskeletal, nervous, circulatory, and respiratory, systems as they relate to fitness, health, and disease in the human body. Must be concurrently enrolled in EDPE 276L.

EDPE 276L Anatomy and Physiology Principles of Health and Fitness Lab  1 credit
Laboratory experience dealing with the structure and function of tissues, organs, and organ systems in the human body. Must be taken concurrently with EDPE 276.

EDPE 290 Directed Study  1-3 credits
Topic to be decided by faculty.

Upper Division

EDPE 311 Health, Fitness, and Physical Education Teaching  3 credits
Introduction to and application of a variety of teaching styles and strategies, appropriate for health, fitness and physical education. Emphasis will be placed on daily and yearly planning, organizational components and reflection in educational settings. Particular attention will be given to national and state objectives and standards. Prerequisite: EDPE 190.

EDPE 312 Methods in Health Education  3 credits
This course emphasizes the development of student outcomes and assessments for health related content and material in the K-12 educational environment. Prerequisite: EDPE 190.

EDPE 315 Adapted Physical Education  3 credits
A course dealing with postural defects, body mechanics and other muscular and structural handicaps that affect the physical and emotional development of children. Physical activities for all levels of handicapped conditions, along with the technique of instructing these activities will be presented. Prerequisite: EDPE 190.

EDPE 316 Water Safety Instruction  3 credits
Analysis, methods of instruction and evaluation for all age levels. Course conducted to meet the requirements of the American Red Cross Instructor's Course. Certificate will be awarded to those who qualify. On sufficient demand.

EDPE 340 Social-Psychological Aspect of Sport Activity  3 credits
The application of psychological principles and research to the areas of physical activity and coaching. Topics of discussion will include: personality, motivation, aggression and interaction as they relate to athletics and athletes. Prerequisite: EDPE 190.

EDPE 343 Coaching Basketball  3 credits
Principles of defense and offense; fundamentals, special drills, rules, officiating, and equipment. On sufficient demand. Prerequisite: Third year standing.

EDPE 346 Coaching Baseball  3 credits
Principles of coaching competitive baseball with an emphasis on strategy, drills for skill attainment, skill evaluation and coaching philosophy. On sufficient demand.
EDPE 347 Coaching Football 3 credits
Principles of coaching competitive football with an emphasis on offensive and defensive strategy, position drills, and coaching philosophy. On sufficient demand.

EDPE 349 Coaching Soccer 3 credits
Principles of coaching competitive soccer with an emphasis on offensive and defensive strategy, position drills, and philosophy. On sufficient demand.

EDPE 355 Wilderness Survival 3 credits
Education in the priorities, skills, and procedures necessary for survival in emergency wilderness situations, including planning and prevention, orienting, first aid, shelter, navigation, construction, signaling, and survivor theory through readings, case studies, and field experience. This course will help build self-confidence in one's ability to participate safely in and lay a foundation for organizing safe outdoor recreational experiences.

EDPE 377 Scientific Principles: Physical Education and Health 3 credits
Study of principles and concepts of kinesiology and exercise physiology. Emphasis on movement patterns—basic analyses of activity motions—functions of our physiological systems as they respond to various stimuli and evaluation of an individual's response for the purpose of enhancing performance. Concurrent enrollment with EDPE 377L required. Prerequisite: EDPE 376.

EDPE 377L Scientific Principles Lab: Physical Education and Health 1 credit
Laboratory experience designed to allow the student to put into practice the principles studied in EDPE 377. Concurrent enrollment with EDPE 377 required. Prerequisite: EDPE 376.

EDPE 390 Directed Study 1-3 credits
Topic to be decided by faculty.

EDPE 400 Sports Promotion 3 credits
Study of policies and procedures in managing relations with external and internal publics associated with the sport and athletic industry. Prerequisite: EDPE 190.

EDPE 412 Administration of Sport and Athletics 3 credits
Introduction to organizational theories and practices with an emphasis on the sport industries. Leadership styles and theories, organizational development, personnel, fiscal, and legal issues will be introduced. Prerequisite: EDPE 190.

EDPE 413 Student Evaluation and Management 3 credits
A continuation of EDPE 311 paying special attention to principles and procedures for student evaluation, discipline and management techniques in the classroom and gymnasium. Prerequisite: EDPE 190.

EDPE 414 Trend and Issues in Sport, Physical Education and Athletic Recreation 3 credits
Current issues, ideas, and trends in physical education, and their role in the educational process; special attention to the expanding role of the instructor, and to the new areas of curriculum and instruction. Prerequisite: EDPE 190.

EDPE 415 Elementary Physical Education 1 credit
Introduction to a variety of teaching styles and strategies, curriculum planning and evaluation methods appropriate for teaching elementary physical education (K-8). Prerequisite: EDTE 221.

EDPE 416 Health Methods 1 credit
Introduction to a variety of teaching styles and strategies, curriculum planning and implementation, and evaluation methods appropriate for teaching health education at the elementary level (K-8). Prerequisite: EDTE 221.

EDPE 417 Abuse Prevention 1 credit
Awareness of the incidence of abuse and how to deal with abuse problems within the school (K-12). Prerequisite: EDTE 221A, EDTE 221B or EDPE 311.

EDPE 420 Motor Development 3 credits
Introduction to the biological basis of human movement phenomena, changes in motor behavior across the life span, and principles and factors affecting the development and acquisition of motor abilities and skills. Prerequisite: EDPE 190.

EDPE 421 Facilities in Sport and Athletic 3 credits
The planning, instruction, maintaining, scheduling, and in-depth administrative procedures associated with indoor and outdoor sport and athletic facilities. Prerequisite: EDPE 190.

EDPE 490 Directed Readings 1-3 credits
Individualized study based on readings approved by the professor. Students will develop a selected bibliography.

EDPE 491 Directed Study 1-3 credits
Individualized study that is designed by the professor. Students will follow a prescribed course outline.

EDPE 492 Independent Study 1-3 credits
Individualized study that is designed by the student in consultation with the professor for self-directed learning in a selected area of interest.

EDPE 494 Special Projects 1-3 credits
Individualized study that is project based. The study will result in a practical application of educational theory. The project or a written report of the project will be submitted to the professor for evaluation.

EDPE 495 Student Teaching Health and Physical Education 12 credits
Prerequisite: Permission from department only.

EDPE 496A Practicum: Physical Education 3 credits
Practical experience in the area of physical education either at the elementary or secondary level. Prerequisite: third year standing and permission from department.

EDPE 496B Practicum: Coaching 3 credits
Practical experience in the area of athletic coaching either at the elementary or secondary level. Prerequisite: third year standing and permission from department.

EDPE 496C Practicum: Health and Fitness 3 credits
Practical experience with in a health/fitness related environment (clubs, clinics, Health Department, etc.). Prerequisite: third year standing and permission from department.

EDPE 496D Practicum: Sport Management 3 credits
Practical Experience in the area of sport management either in a public or private organization. Prerequisites: Third year standing and permission from department.

EDPE 497A In School Experience I- Health and Fitness 1 credit
This field experience emphasizes instructional strategies and technology practices in the educational environment. Students will spend a minimum of 30 hours assisting a physical education teacher with instruction and assessment. Must be taken concurrently with EDPE 311. Prerequisite: EDPE 190.

EDPE 497B In School Experience II- Health and Fitness 1 credit
This field experience emphasizes curriculum and assessment models in the educational environment. Students must spend a minimum of 30 hours assisting a health or physical education instructor with instruction and assessment. Must be taken concurrently with EDPE 413. Prerequisite: EDPE 190.

EDPE 497C In School Experience III- Health and Fitness 1 credit
This field experience emphasizes curriculum and assessment models in the educational environment. Students must spend a minimum of 30 hours assisting a health or physical education instructor with instruction and assessment. Must be taken concurrently with EDPE 413. Prerequisite: EDPE 190.

EDPE 499 Comprehensive Examination 0 credit
Required of all EDPE majors after completion of major coursework.
Teacher Education

Chairperson: Diane Tunnell and Kimberly Weber

The Teacher Education Program at Gonzaga University:

Offers a thorough preparation in academic subject matter and professional teaching at both the undergraduate and graduate levels.

Provides teacher candidates with the opportunity to become reflective learners and practitioners of elementary or secondary education.

Teacher candidates enrolled in one of the academic majors of the University. For secondary teacher candidates, the academic major is generally selected from disciplines commonly taught at the middle or secondary level.

As a community of reflective learners, faculty, staff, and teacher candidates are involved in a supportive relationship which encourages service for others and responsibility to one another.

The Teacher Education program is advised by a Professional Education Advisory Board composed of area teachers, school administrators, representatives of professional organizations, teacher candidates, and faculty from the following programs: Teacher Education, Special Education, Physical Education, and Teaching English as a Second Language.

The teacher certification program meets standards specified by the Washington State Office of the Superintendent of Public Instruction (OSPI), The National Council for Accreditation of Teacher Education (NCATE), and the Northwest Association of State Directors of Teacher Education and Certification (NASDTEC).

Requirements for Formal Admission to Teacher Certification

1) Level I course work successfully completed.
2) Cumulative GPA of 2.50 or higher.
3) Passing score on all three sections of WEST-B test (contact Teacher Education department, for current standards).
4) Character and Fitness Form on file.
5) FBI/Washington State Patrol Fingerprint Clearance.
6) No uncorrected dispositions from each respective department.

The teacher candidate is assigned an advisor in Teacher Education during the Teacher Orientation (EDTE 101L). The role of this advisor is to guide the teacher candidate through the certification program. The teacher candidate's academic advisor (assigned when admitted to the University) will advise the teacher candidate regarding degree requirements.

Applicants seeking Elementary Education Certification are advised by a Professional Education Advisor (assigned when admitted to the University). The advisor (assigned when admitted to the University) will advise the teacher candidate regarding degree requirements. It is the applicant's responsibility to obtain all necessary information regarding certification. For certification information, please check with the Certification Office, School of Education advisors, and the Certification Advisement Handbook.

No student teacher candidate will be allowed to take part in any type of Teacher Education Field Experiences, (EDTE 221L, EDTE 301L, EDTE 401L, and EDTE 454L) without a current Character and Fitness form, and FBI/Washington State Patrol fingerprint clearance on file.

Elementary Certification requirements

Level I: Admission/Acceptance to Teacher Certification

*Fulfills University Core requirements

EDTE 101 Foundations of American Education 3 credits
EDTE 101L Teacher Certification Orientation 0 credit
EDTE 121 Educational Technology 2 credits
EDSE 150 Psychology of the Exceptional Child* 3 credits
(Physical Education majors equivalent EDPE 315)
EDTE 201 Learning Theories 3 credits
ENGL 101 English Composition 3 credits

The following courses must be taken prior to Level III:

Level III: Admission to Methods

EDTE 301L Field Experience II 1 credit
(Physical Education majors equivalent EDSE 406)
EDTE 303 Math Methods 3 credits
(Special Education majors equivalent EDSE 452)
EDTE 331 Instructional Methods Reading, Writing, Communication I 3 credits

Level IV: Specific Teacher Education Course Work

EDTE 221E Elementary Differentiated Instruction and Assessment 3 credits
EDTE 221L Field Experience I 1 credit
(Physical Education majors equivalent EDSE 311 and 413)
EDTE 231 Instructional Methods Reading, Writing, Communication I 3 credits

EDPE 415 Physical Education Methods 1 credit
(Physical Education majors equivalent EDPE 497, Special Education majors equivalent EDSE 406)
EDTE 400 Music Methods 1 credit
(Physical Education majors equivalent EDSE 451)
EDTE 400 Music Methods 1 credit
(Physical Education majors equivalent EDSE 451)
EDTE 401L Field Experience III 1 credit
(Physical Education majors equivalent EDPE 496)
EDTE 402 Social Studies Methods 3 credits
EDTE 403 Art Methods 1 credit
EDTE 404 Science Methods 3 credits
EDPE 415 Physical Education Methods 1 credit
(Physical Education majors equivalent EDPE 204)
EDPE 416 Health Education Methods 1 credit
(Physical Education majors equivalent EDPE 312)
EDPE 417 Abuse Prevention 1 credit
EDTE 460E Classroom Management and Communication 3 credits
(Special Education majors equivalent EDSE 465)
EDTE 462 Child and Adolescent Literature 3 credits
(Required for an English endorsement)
Level IV: Approval to Enter Student Teaching
Criteria for Admission to Student Teaching

1) Minimum overall GPA of 2.50.
2) Minimum GPA in professional education courses of 3.00.
3) A completed major within a degree program/GPA in major determined by academic department.
4) Completion of prerequisite professional education courses.
5) Two satisfactory evaluations from faculty or K-12 professionals.
6) Assessment of the student teacher candidate’s potential for success as a teacher by teacher education faculty who have knowledge of the student teacher candidate’s work.
7) A completed application for student teaching.
8) State standardized content testing required (West E/Praxis II).
9) FBI/Washington State Patrol Fingerprint Clearance.
10) Character and Fitness form completed.

EDTE 496E Elementary Student Teaching 12 credits
The student teaching experience must be completed within a 35 mile radius of Spokane, Washington.

Level V Certification
*Fulfills University Core requirement

Secondary Certification requirements
Level I: Admission/Acceptance to Teacher Certification
*Fulfills University Core requirements

EDTE 101 Foundations of American Education 3 credits
EDTE 101L Teacher Certification Orientation 0 credit
EDTE 121 Educational Technology 2 credits
EDSE 150 Psychology of the Exceptional Child 3 credits (Physical Education majors equivalent EDPE 315)
ENGL 101 English Composition* 3 credits
SPCO 101 Introduction to Speech* Communication 2 credits
EDTE 201 Learning Theories 3 credits
EDTE 221S Differentiated Instruction and Assessment 3 credits
(Physical Education majors equivalent EDPE 311/413)
EDTE 221L Field Experience I 1 credit
(Physical Education majors equivalent EDPE 497)
EDTE 241 Teaching in the Middle School 3 credits

Level III: Admission to Methods
EDPE 417 Abuse Prevention 1 credit
EDTE 418 Reading and Writing Across the Curriculum 3 credits
Secondary Specific Methods (one methods course is required for each endorsement area)
EDTE 454D Theater Arts Methods 3 credits
EDTE 454E English/Language Arts Methods 3 credits
EDTE 454F History/Social Studies Methods 3 credits
EDTE 454M Math Methods 3 credits
EDTE 454S Science Methods 3 credits
EDTE 454T World Language Methods 3 credits
(Music Education and Physical Education majors will take methods in their degree program)
EDTE 454L Secondary Field Experience II 2 credits
(Physical Education majors equivalent EDPE 497). Requires current fingerprints throughout the semester and a Character and Fitness form on file.
EDTE 460S Secondary Classroom Management and Communication 3 credits

Level III: Admission to Student Teaching
All EDTE prerequisite coursework completed:
1) Cumulative GPA of 3.00 in all EDTE courses (minimum of 2.00 in each course).
2) All endorsement coursework completed (minimum of a 2.00 in each endorsement course).
3) A completed major within a degree program/GPA in major determined by academic department.
4) Minimum overall GPA of 2.50 in all Gonzaga University courses.
5) Two satisfactory evaluations from faculty or K-12 professionals.
6) Assessment of the student teacher candidate’s potential for success as a teacher by teacher education faculty who have knowledge of the student teacher candidate’s work.
7) A completed application for student teaching.
8) State standardized content testing required (West E/Praxis II).
9) FBI/Washington State Patrol Fingerprint Clearance.
10) Character and Fitness form completed.
11) No uncorrected disposition concerns.

EDTE 496S Secondary Student Teaching 12 credits
The student teaching experience must be completed within a 35 mile radius of Spokane, Washington.

Level IV: Certification
*Fulfills University Core requirement

Special Offerings: Available to all teacher candidates
EDTE 469 The Five Themes of Geography 3 credits
EDTE 491 Directed Study Variable credits
EDTE 492 Independent Study Variable credits
EDTE 494 Special Project Variable credits

Descriptions of courses from other departments are listed elsewhere in this catalogue under the particular program which offer them (EDPE is Physical Education and EDSE is Special Education).

Lower Division
EDTE 101 Foundations of American Education 3 credits
This course provides an overview of the teaching profession. It is designed as an exploration of teaching as a career choice, serving as an introduction to various philosophical positions regarding education, the laws that affect students and teachers, the global and historical background of our current educational systems, and the issues concerned with recognizing, accepting, and affirming diversity.

EDTE 101L Teacher Certification Orientation 0 credit
Student teacher candidates have an opportunity to learn about the professional requirements needed to become an effective educator. Successful completion of this lab course is prerequisite for admission to the teacher education program and further advancement through other EDTE classes. This course should be taken concurrently with EDTE 101.

EDTE 121 Educational Technology 2 credits
This course addresses the nature of contemporary school curriculum and the need for the professional educator to gain a basic understanding of computers and computer technology and explores a variety of computer applications and evaluation of their uses in the classroom.
EDTE 201 Learning Theories 3 credits
This course is designed to introduce the undergraduate student teacher candidate to theories of learning. The contributions of behaviorism, humanistic psychology, and cognitive psychology will be examined in order to give a basis for critically analyzing how and why human development and growth occur in the teaching/learning act. Based on the dynamics of respect for individual differences within the learning community, prior learning, and authentic scholarly exploration of historical and current literature, student teacher candidates will be able to articulate, develop, and seek alternatives to their theories-in-use. Prerequisite: EDTE 101L.

EDTE 221E Elementary Differentiated Instruction and Assessment 3 credits
This course is designed to develop student competencies and strategies for successful teaching across the content areas and with a wide range of student learning at the elementary level. The major focus of this course will be meeting the learning needs of a diverse population which includes students from different racial, ethnic, ability, socio-economic status, language and sexual orientation backgrounds. This course must be taken concurrently with EDTE 221L.

EDTE 221S Secondary Differentiated Instruction and Assessment 3 credits
This course is designed to integrate the planning, implementation, and assessment of instruction across content areas at the secondary level with a special emphasis on diversity. The major focus of this course will be meeting the learning needs of a diverse population which includes students from different racial, ethnic, ability, socio-economic status, language and sexual orientation backgrounds. This course must be taken concurrently with EDTE 221L.

EDTE 221L Field Experience I 1 credit
This is a lab course to be taken concurrently with EDTE 221E or 221S and may be taken concurrently or after EDTE 201. Teacher candidates will have the opportunity to explore firsthand the instruction, assessment, and technology practices that are at work in schools. The course will aid the student candidate to focus and integrate learning by observing, reflecting, and analyzing instructional events in the school site. The course will enable teacher candidates to observe and participate in instructional decision-making, strategies for differentiation, and various assessment models. Teacher candidates are required to complete a Field Experience Request form prior to taking this course and also attend two seminars during the semester.

EDTE 231 Instructional Methods: Reading/Writing/Communication 3 credits
The primary purpose of this course is to provide understanding and opportunities for teacher candidates to understand theoretical constructs related to reading, writing, and communication in classroom curriculum. Teacher candidates will develop pedagogy from an analysis of the processes of natural learning, language acquisition, multiple intelligence, and learning styles. This knowledge will become the framework for instructional methodology for reading, writing, and communication skills.

EDTE 241 Teaching in the Middle School 3 credits
The purpose of this course is to help the prospective middle level/secondary teacher develop in-depth knowledge and understanding of early adolescents. The developmental characteristics and needs of adolescents provide a framework for this course.

Upper Division

EDTE 301L Field Experience II 1 credit
This is a lab course to be taken concurrently with EDTE 331. Teacher candidates will have the opportunity to explore firsthand the instruction, assessment, and technology practices that are at work in schools. This course will aid the teacher candidate to focus and integrate learning by observing, teaching, reflecting, and analyzing instructional events occurring at the school site. The course will enable teacher candidate to observe and participate in instructional decision making, strategies for differentiation, and various assessment modes. Teacher candidates are required to complete a Field Experience Request form prior to taking this course and also attend two seminars during the semester. Prerequisites: EDTE 101, EDTE 101L, EDTE 121, EDSE 150, EDTE 201, EDTE 221E or EDTE 221S, EDTE 221L, and EDTE 231.

EDTE 303 Elementary Methods: Math 3 credits
The primary purpose of this course is for teacher candidates to develop knowledge of mathematics, techniques for instruction and assessment in mathematics, as well as skill in the use and integration of technology in meeting the needs of all learners in the general education classroom. Teacher candidates will develop and implement instructional plans, within the framework of the EALRs and WASL, that will include a variety of strategies for large and small group instruction as well as individualized learning. Assessment skills will emphasize performance-based and developmental assessments. Prerequisites: Math 121 and Math 203

EDTE 304 Concepts in Science 3 credits
This course presents earth, physical, and space science concepts for non-science majors.

EDTE 331 Instructional Methods: Reading/Writing/Communication II 3 credits
The purpose of this course is twofold: one, to prepare teacher candidates to create appropriate lesson plans for teaching literacy which provide opportunities for children to become involved with literacy in a purposeful and meaningful manner and second, to become aware of available literary resources, including technology for thematic teaching. An emphasis of this course will be the compatibility of methods of instruction and assessment with regard to the EALRs and WASL. Prerequisite: EDTE 231. EDTE 301L is taken as a co-requisite with this course.

EDTE 400 Elementary Methods: Music 1 credit
This course presents theories and techniques appropriate to teaching Music in the elementary school.

EDTE 401L Field Experience III 1 credit
This is a lab course to be taken concurrently with EDTE 404. Teacher candidates will have the opportunity to explore firsthand the instruction, assessment, and technology practices that are at work in schools. This course will aid the teacher candidate to focus and integrate learning by observing, teaching, reflecting, and analyzing instructional events occurring at the school site. The course will enable teacher candidate to observe and participate in instructional decision making, strategies for differentiation, and various assessment modes. Teacher candidates are required to complete a Field Experience Request form prior to taking this course and also attend two seminars during the semester. Prerequisites: EDTE 101, EDTE 101L, EDTE 121, EDSE 150, EDTE 201, EDTE 222E or EDTE 222S, EDTE 221L, and EDTE 231.
EDTE 402 Elementary Methods: Social Study 3 credits
This course presents theories and techniques appropriate to teaching Social Studies in the elementary school. Fall, Spring, and Summer.

EDTE 403 Elementary Methods: Art 1 credit
Theories and techniques appropriate for teaching Art in the elementary school.

EDTE 404 Elementary Methods: Science 3 credits
This course presents theories and techniques appropriate to teaching science in the elementary school. EDTE 401 is taken as a co-requisite with this course.

EDTE 418 Reading and Writing Across the Curriculum 3 credits
This course presents the theory and practice for developing inter-disciplinary literacy in secondary classrooms, including the structure and development of language and its effective expression in specific disciplines.

EDTE 454L Field Experience II 2 credits
This is a lab course to be taken concurrently with EDTE 454A-T. Teacher candidates will have the opportunity to explore firsthand the instruction, assessment, and technology practices that are at work in schools. This course will aid the teacher candidate to focus and integrate learning by observing, teaching, reflecting, and analyzing instructional events occurring at the school site. This course will enable teacher candidates to observe and participate in instructional decision-making, strategies for differentiation, and various assessment models. Teacher candidates are required complete a Field Experience request form prior to taking this course and attend two seminars during the semester. Prerequisites: EDTE 101, EDTE 101L, EDTE 121, EDSE 150, EDTE 201, EDTE 221S, EDTE 221L, and EDTE 241.

Secondary Specific Methods
EDTE 454D Secondary Methods-Theater Arts 3 credits
EDTE 454E Secondary Methods-English 3 credits
EDTE 454F Secondary Methods-Social Studies 3 credits
EDTE 454M Secondary Methods-Math 3 credits
EDTE 454N Secondary Methods-Music 3 credits
EDTE 454S Secondary Methods-Science 3 credits
EDTE 454T (MTSL 454) Secondary Methods-World Languages 3 credits

EDTE 460E Elementary Classroom Management and Communication 2 credits
Teacher candidates are provided with strategies to manage the elementary classroom, create a motivating classroom climate, communicate with teacher candidates, parents, school, and community agencies, and to deal effectively with problem situations, management, instructional approaches, and corrective measures. Teacher as leader will be the primary metaphor which requires candidates to investigate the role of power and communication in teaching.

EDTE 460S Secondary Classroom Management 3 credits
Student teacher candidates are provided with strategies to manage the secondary classroom, create a motivating classroom climate, communicate with student teacher candidates, parents, school, and community agencies, and to deal effectively with problem situations.

EDTE 461 Reading Diagnosis 3 credits
This course provides a wide range of reading assessment tools which are examined and applied to identify and diagnose reading strengths and deficiencies of K-12 students. Appropriate instructional strategies for remediation and extension are developed. This class incorporates field experience components.

EDTE 462 Child And Adolescent Literature 3 credits
This course surveys classical and contemporary literary works for children and youth, preschoolearly adolescent. Assessment and teaching strategies for the utilization of literature across the K-12 curriculum are presented. Required for English endorsement.

EDTE 463 Reading in the Content Area 3 credits
The application of reading and writing strategies particularly suitable to content areas in the elementary grades K-8 is presented in this course. Strategies include use of readability assessments, schema theory, motivation techniques for reading, and study skills.

EDTE 464 Practicum-Reading 1 credit
This course creates and applies literacy instruction assessment strategies in K-12 classroom setting. A school location is arranged. 1 credit = 30 contact hours.

EDTE 469 The Five Themes of Geography 3 credits
This course is an introduction to the five themes of geography, location, place, human environment interaction, movement, regions. This course fulfills the geography requirement for a social studies endorsement.

EDTE 490 Directed Reading 1-4 credits
Directed reading requires completion of a form, and department permission.

EDTE 491 Directed Study 1-3 credits
Individualized study that is designed by the professor. Student teacher candidates follow a prescribed course outline.

EDTE 492 Independent Study 1-4 credits
Individualized study that is designed by the student teacher candidate in consultation with the professor. Self-directed learning in a selected area of interest is the process employed. Professor serves as resource.

EDTE 494 Special Project 1-6 credits
Individualized study that is project-based. The study results in a practical application of educational theory. The project or a written report of the project is submitted to the professor for evaluation.

EDTE 496E Elementary Student Teaching 12 credits
This is an intensive field experience in which the student teacher candidate assumes the full responsibility of an elementary teacher under the direction of a University supervisor and a co-operating teacher. Concurrent seminars are provided for student interaction, problem solving, certification requirements, and informational support. Five evening seminars will be conducted in conjunction with this course. Student teaching must be completed within a 35 mile radius of Spokane, Washington. Prerequisite: Completion of certification program and passing WEST E/Praxis II.

EDTE 496S Secondary Student Teaching 12 credits
This is an intensive field experience in which the student candidate assumes the full responsibility of a secondary teacher under the direction of a University supervisor and a co-operating teacher. Concurrent seminars are provided for student interaction, problem solving, certification requirements, and informational support. Five evening seminars will be conducted in conjunction with this course. Student teaching must be completed within a 35 mile radius of Spokane, Washington. Prerequisite: completion of certification program and passing WEST E/Praxis II.
Engineering is the profession in which a knowledge of natural sciences and mathematics is applied with judgment to develop ways to utilize, economically and with concern for the environment and society, the materials and forces of nature for the benefit of humankind. Engineers and scientists pursue a common goal of introducing new knowledge through research. The new knowledge is applied by the engineers to create new devices and systems. Engineers enjoy a unique professional satisfaction: they can usually point to tangible evidence of their efforts. For example, every bridge, skyscraper, television set, computer, robot, airplane, steam or hydro-electric plant, or automobile is a lasting testimonial to the engineers responsible for it.

It is difficult, maybe impossible, to imagine contemporary civilization without computing machines and the software that brings them to life. The Department of Computer Science trains students to meet the expanding quantitative needs of society and provides them with the theoretical structures from which practical applications derive. Majors in this department are well-prepared for positions in industry and government demanding quantitative techniques or computer science, and for graduate work.

The goal of the undergraduate programs in the School of Engineering and Applied Science (SEAS) at Gonzaga University is to provide an education that prepares the student with a baccalaureate degree to be a professional engineer or computer scientist. In addition, the programs provide a base both for graduate study and for lifelong learning in support of evolving career objectives, which include being informed, effective, and responsible participants in the profession and society.

The Engineering departments within the school share a common engineering mission of equipping graduates to enter professional practice. This common mission is summarized in the four broad program objectives. These objectives are:

- Graduates will be able to competently apply mathematics, science, and engineering analyses to the design and analysis of engineered solutions;
- Graduates will be able to competently apply basic experimental techniques to engineering design and analysis;
- Graduates will be able to competently design engineered solutions;
- Graduates will have a complement of skills necessary for professional practice.

These four objectives encompass the skills we believe our graduates need to enter engineering practice. Further, the suitability of these objectives, and the coursework to attain them, are assessed and evaluated by each department on a three-year cycle. As such, these skills embody the intent of the “specialized competence” as described in our University mission statement.

The SEAS undergraduate programs at Gonzaga University are designed specifically to emphasize:

a) An education that prepares students to become competent practicing professionals;
b) An education that prepares the students to attend graduate school and ultimately join academia as teachers and researchers or to join industry, and government research facilities and;
c) An education that is designed to challenge the intellect of the student and help her/him learn the value and reward of analytical and logical thinking.

A concerned and well-trained faculty, small class size, easy access to faculty outside the classroom, and modern facilities provide Gonzaga University students with the knowledge and skills to become productive engineers or computer scientists and to assume leadership roles in business, industry, and government. A unique feature of the program is the strong emphasis on liberal arts education. A strong and rigorous technical curriculum combined with a broad liberal arts education emphasizing communication skills, critical thinking, and ethics enables Gonzaga graduates to adapt to an ever-changing computing, engineering, social, political, and business environment.
Degree Programs and Accreditation
SEAS offers four-year Bachelor of Science degrees in Civil Engineering (BSCE), Computer Engineering (BSCpE), Electrical Engineering (BSEE), General Engineering (BSGE), Mechanical Engineering (BSME), and Computer Science (BSCS). The civil, electrical, computer, and mechanical engineering degree programs are accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (EAC/ABET), and the computer science degree is in the process of seeking accreditation.

Center for Engineering Design and Software Engineering Senior Group Design
Engineering and computer science are rapidly changing professions. The fast pace of technological advances and new approaches to organizing the work place are requiring engineers and computer scientists to continually update their training. In addition to having a broad range of technical knowledge, today's engineers and computer scientists are expected to possess excellent interpersonal skills. They must be able to deal with open-ended design problems, to work cooperatively in a team environment, to communicate effectively, and to understand the technical, economical, environmental, and managerial aspects of projects.

The diverse skills required of modern engineers cannot be learned solely in a classroom or from a textbook. Design skills are best learned through a combination of observation, emulation, analysis, and experimentation (this demands a high degree of interaction between the student and experienced designers). Interpersonal skills are best developed through team work. Industry has discovered that the give-and-take process that characterizes a well motivated team is a key element to a project's success. The motivation for learning new skills is further enhanced by working on problems that have real value to business, industry, non-profit organizations and government.

The Center for Engineering Design and Software Engineering Senior Group Design are structured to enhance the design content and experience of the engineering and computer science programs at Gonzaga University by promoting interaction between the industrial and academic communities. The capstone project missions are to organize, support, and provide guidance to student teams. These teams undertake design projects defined by sponsors in both the private and public sectors. A project team typically consists of three to five students practicing a diversity of knowledge and experience that best suits the project. Together they must make effective use of their available resources to perform and manage the project activities. By working on a real-world problem, each student has the opportunity to make decisions under risk, to work as part of a team, and to interact with professionals in the private and public sectors. Gonzaga faculty members, who advise the student teams, are ideally suited as advisors. More than half of them have at least five years of industrial experience. A faculty advisor lends knowledge and experience to the project team by guiding and counseling the students in the technical and managerial decisions required by the project.

A liaison from the sponsoring organization provides technical direction and advice to the student team, monitors the project's progress, and ensures that the project meets the needs of the sponsor. The liaison also assists the team in making the best use of the sponsor's resources and facilities.

Design projects related to all the SEAS disciplines are sought throughout the year. Sponsors who are supportive of SEAS education provide ideas, resources, and funds for projects. By identifying project topics and the technical areas that are of interest to them, they help direct students to realistic problems that are important to their operations. At the end of the spring semester, a day is dedicated to the presentation of projects, during which the student design teams present their projects and reports, and demonstrate models and prototypes. Industrial sponsors, faculty members, prospective students, and members of the community are invited to attend the event and to interact with the project teams.

The Herak Engineering Computer Center
The Herak Engineering Computer Center (HECC), located in the Herak Center for Engineering, is the central facility for general purpose computing in SEAS. This fully staffed center is available to students seven days a week, and provides general computing services over and above the extensive and diverse computer systems found in the SEAS departmental laboratories.

The center's computer facilities include over forty CAD/CAE workstations. All systems are connected to the University network which makes them able to access Internet, the computing resources of the Computer Information Services department, and the Foley library system. The Center also contains numerous plotters and printers.

Software is available to support all aspects of SEAS disciplines taught at Gonzaga University. Computer aided drafting and solid modeling programs are available to support the engineering graphics portion of our curriculum. Finite element, hydrologic and hydraulic structural, and mechanism analysis programs are available for the mechanical and civil engineering programs. Electrical and Computer Engineering are supported by programs for controls analysis, schematic and circuit board layout and simulation, and VLSI design layout and simulation. The Center also supports several general purpose programs, including language compilers, a spreadsheet, a data base manager, three mathematics programs, a word processor, and a project management package. A separate computer science laboratory includes additional workstations, servers, and other specialized software.

Degree requirements include
1) Fulfillment of the general degree requirements of the University including the University Core Curriculum.
2) Completion of SEAS common core courses for all engineering programs.
3) Completion of a separate set of core courses for the computer science program (see the computer science program description).
4) Completion of the specific program requirements.
5) Attainment of an average cumulative grade point of 2.00 in all SEAS course work taken at Gonzaga University.
6) No SEAS or core courses can be taken under the Pass/Fail Option.
Civil Engineering

Chairperson: Noel Bormann
Professor: N. Bormann, S. Dar (Emeritus), D. Horn (Dean), W. Ilgen (Emeritus), A. Khattak, P. Nowak
Associate Professors: S. Ganzerli, B. Striebig

Civil engineers are problem solvers who utilize sophisticated technologies to find solutions to a huge variety of challenges facing society. A civil engineer plans, designs, and supervises construction of numerous infrastructure facilities required by modern society. These facilities exist in both the public and private sectors, and vary in scope and size. Examples of civil engineering projects include space satellites and launching structures, offshore drilling platforms, bridges, highways, buildings, transportation systems, dams, irrigation systems, water supply and treatment systems, wastewater collection and treatment systems, flood control facilities, solid and hazardous waste management, and environmental restoration. Civil engineers have important roles in analysis, design, management, regulatory enforcement, and policy development. To participate effectively in this broad scope of activities, civil engineers acquire technical and problem solving skills, and the ability to communicate clearly and effectively. Students completing the requirements for a degree in civil engineering have a choice of technical electives from four areas: environmental engineering, geotechnical engineering, structural engineering, and water resources engineering.

The department of Civil Engineering, in conjunction with its various constituencies, has clearly defined program objectives. These engineering program objectives are listed in the School of Engineering and Applied Science section of this catalogue, and by the Gonzaga University Mission Statement that may be found at the beginning of the catalogue.

University requirements

I. Thought and Expression (7 credits): ENGL 101, SPOC 101, and PHIL 101 (preferably taken in the same semester).

II. Philosophy (9 credits): PHIL 201, PHIL 301, and PHIL 400 level elective.

III. Religious Studies (9 credits): RELI 100, 200, and 300 levels: one elective from each level.

IV. Mathematics (4 credits): one MATH (not CPSC) course at the 100 level or above: engineering students must use MATH 157.

V. English Literature (3 credits): ENGL 102, 103H, 105

Civil Engineering

The Core Curriculum of the School of Engineering and Applied Science

The SEAS core curriculum represents a common body of knowledge. The engineering programs core consists of fifty-three credits which are common to and required of all engineering degree programs in the school: the first thirty-two credits of which there is a more complete description in the General Degree Requirements and Procedures section of this catalogue) form the University core requirement while the remaining twenty-one credits are required by engineering degree programs.

All undergraduate students are subject to the provisions of this core; transfer students, however, should consult the General Degree Requirements and Procedures section of this catalogue for possible modifications to the philosophy and religious studies requirements listed below. Substitutions for discontinued courses are required and authorized by the proper University authorities.

The University and School core requirements are grouped into the following categories

University requirements

I. Thought and Expression (7 credits): ENGL 101, SPOC 101, and PHIL 101 (preferably taken in the same semester).

II. Philosophy (9 credits): PHIL 201, PHIL 301, and PHIL 400 level elective.

III. Religious Studies (9 credits): RELI 100, 200, and 300 levels: one elective from each level.

IV. Mathematics (4 credits): one MATH (not CPSC) course at the 100 level or above: engineering students must use MATH 157.

V. English Literature (3 credits): ENGL 102, 103H, 105 or 106.

Civil Engineering

B.S. in Civil Engineering: 135 Credits

First Year

Fall

ENSC 100 Engineering Seminar* 0 credit
MATH 157 Calculus and Analytical Geometry I 4 credits
CHEM 101 General Chemistry I (or CHEM 105) 3 credits
CHEM 101L General Chemistry I Lab (or 105L) 1 credit
CPSC 121 Computer Science I 3 credits
ENGL 102-106 Introduction to Literature 3 credits
RELI 1XX Scripture Elective 3 credits

Spring

ENSC 205 Statics 3 credits
MATH 258 Calculus and Analytical Geometry II 4 credits
PHYS 103 Scientific Physics I 3 credits
PHYS 103 Scientific Physics I Lab and Recitation 1 credit
ENGL 101 English Composition 3 credits
SPOC 101 Introduction to Speech Communication 2 credits
PHIL 101 Introduction to Critical Thinking 2 credits

Second Year

Fall

CENG 261 Introduction to Surveying 2 credits
ENSC 101 Engineering Graphics 2 credits
MATH 259 Calculus and Analytical Geometry III 4 credits
PHYS 204 Scientific Physics II 3 credits
PHYS 204L Scientific Physics II Lab 1 credit
CENG 270 Technical Writing 2 credits
PHIL 201 Philosophy of Human Nature 3 credits

Spring

ENSC 301 Mechanics of Materials I 3 credits
ENSC 306 Dynamics 3 credits
MATH 260 Ordinary Differential Equations 3 credits
MATH 321 Statistics for Experimentalists 3 credits
RELI 2XX Religion Elective 3 credits

### Third Year

#### Fall
- **CENG 302 Construction Materials Lab** 2 credits
- **CENG 301 Structural Analysis I** 3 credits
- **CENG 331 Soil Mechanics** 3 credits
- **CENG 331L Soil Mechanics Lab** 1 credit
- **ENSC 352 Fluid Mechanics** 3 credits
- **ENSC 303 Environmental Engineering** 3 credits
- **PHIL 301 Ethics** 3 credits

#### Spring
- **ENSC 300 Economics** 2 credits
- **RELI 3XX Religion Elective** 3 credits
- **CENG 340 Contracts, Specifications and Law** 2 credits
- **CENG 351 Hydrology** 4 credits
- **CENG 352 Water Resources Engineering** 3 credits
- **CENG 304 Environmental Chemistry** 3 credits
- **CENG 305 Environmental Engineering Lab** 1 credit

#### Fourth Year

#### Fall
- **CENG 411 Steel Design** 3 credits
- **CENG 473 Foundation Design** 3 credits
- **CENG 491 Senior Design Project I** 2 credits
- **PHIL 4XX Philosophy Elective** 3 credits
- **- - - Technical Elective ** 3 credits
- **- - - Technical Elective** 3 credits

#### Spring
- **CENG 412 Concrete Design** 3 credits
- **CENG 492 Senior Design Project II** 3 credits
- **POLS 3xx: Political Science Elective** 3 credits
- **- - - Technical Elective** 3 credits
- **- - - Technical Elective** 3 credits
- **ENSC 400 Fundamentals of Engineering Exam*** 0 credit

*ENSC 100, is not required of transfer students nor of students enrolled in the Honors Program or the Hogan Entrepreneurial Leadership Program.

** Civil engineering students enrolled in the Hogan Entrepreneurial Program can waive one technical elective.

*** The Washington State Fundamentals of Engineering Examination must be taken as part of the ENSC 400 course.

### Technical Electives
Courses from the following list satisfy the technical elective requirements. Before selecting technical electives, students should consult with their advisor. To aid in course selection, the discipline(s) covered in each course are identified as follows: environmental engineering (E), geotechnical engineering (G), structural engineering (S), and water resources engineering (W).

- **CENG 390 Structural Analysis II** (S)
- **CENG 413 Groundwater** (E, G, W)
- **CENG 414 Waste Management** (E)
- **CENG 415 Masonry and Timber Design** (S)
- **CENG 420 Structural Dynamics** (S)
- **CENG 424 Physicochemical Treatment Processes** (E)
- **CENG 444 Air Pollution** (E)
- **CENG 454 Biological Treatment Processes** (E)
- **CENG 455 Open Channel Hydraulics** (W)
- **CENG 463 Pavement Design** (G, S)
- **ENSC 401 Mechanics of Materials II** (S)
- **ENSC 405 Engineering Project Management** (E, W, G, S)
- **MENG 434 Vibration Engineering** (S)
- **MENG 435 Applications in Vibrations** (S)
- **MENG 465 Introduction to Finite Elements** (G, S)
- **MENG 467 Designing with Polymers and Composites** (S)
- **MENG 480 Advanced Fluid Mechanics** (W)

### Lower Division

- **CENG 261 Introduction to Surveying** 1 credit
- **CENG 261L Introduction to Surveying Lab** 1 credit
- **CENG 270 Technical Writing** 2 credits
- **POLS 350 Survey of International Studies**
- **POLS 374 Democracy in the Middle East**
- **POLS 375 Global Environmental Politics**

### Upper Division

- **CENG 301 Structural Analysis I** 3 credits
- **CENG 302 Construction Materials** 2 credits
- **CENG 303 Environmental Engineering** 3 credits
- **CENG 304 Water Resources Engineering** 3 credits
- **CENG 351 Hydrology** 4 credits
- **CENG 424 Physicochemical Treatment Processes** (E)
- **CENG 420 Structural Dynamics** (S)
- **CENG 415 Masonry and Timber Design** (S)
- **CENG 414 Waste Management** (E)

### Technical Electives
Courses from the following list satisfy the technical elective requirements. Before selecting technical electives, students should consult with their advisor. To aid in course selection, the discipline(s) covered in each course are identified as follows: environmental engineering (E), geotechnical engineering (G), structural engineering (S), and water resources engineering (W).

- **CENG 390 Structural Analysis II** (S)
- **CENG 413 Groundwater** (E, G, W)
- **CENG 414 Waste Management** (E)
- **CENG 415 Masonry and Timber Design** (S)
- **CENG 420 Structural Dynamics** (S)
- **CENG 424 Physicochemical Treatment Processes** (E)
- **CENG 444 Air Pollution** (E)
- **CENG 454 Biological Treatment Processes** (E)
- **CENG 455 Open Channel Hydraulics** (W)
- **CENG 463 Pavement Design** (G, S)
- **ENSC 401 Mechanics of Materials II** (S)
- **ENSC 405 Engineering Project Management** (E, W, G, S)
- **MENG 434 Vibration Engineering** (S)
- **MENG 435 Applications in Vibrations** (S)
CENG 331 Soil Mechanics 3 credits
In this course the properties and behavior of soils (sand, gravel, silt and clay) are studied under various environmental conditions. The study includes weight-volume relations, soil classifications, soil compaction, see page through porous media, normal effective stress concept, consolidation, shear strength, lateral pressures and slope stability. Laboratory and Field methods for evaluating pertinent properties, generally used for analysis and foundation design. Three hours of lecture and three hours of laboratory per week. Fall. Prerequisite: ENSC 301.
CENG 331L Soil Mechanics Lab 1 credit
Three hours of laboratory per week.
CENG 340 Contracts Specifications and Law 2 credits
Study of how contracts, specifications, and law are related to the engineering profession. Topics include contract types, formation and conditions of contracts, contractual obligations, and termination of contracts. Specific contract clauses, incorporating general conditions, financial considerations, and the contractor selection process will be addressed. Preparation of specifications for engineering projects will highlight workmanship and materials. Engineering drawings will be integrated with specification requirements. Professional and ethical responsibilities of engineering professionals will be covered. Issues of intellectual property, liability, lawsuits, and arbitration will be addressed. Spring.
CENG 351 Hydrology 3 credits
Causes and occurrence of precipitation, analysis of infiltration and runoff using watershed characteristics, basic groundwater flow. Statistical treatment of information in water resources, frequency analysis, confidence intervals for predictions, risk. Applications to common engineering projects in surface and subsurface situations. Experimental investigation of the dynamic behavior and properties of water, turbulent flow of water in pipes and open channels. Flow measurement. Three hours of lecture and three hours of laboratory each week. Spring. Prerequisite: ENSC 352.
CENG 351L Hydrology Lab 1 credit
See CENG 351. Prerequisite: ENSC 352.
CENG 352 Water Resources Engineering 3 credits
CENG 390 Structural Analysis II 3 credits
Theory and application of approximate for statically indeterminate trusses and frames. Matrix methods of structural analysis for 2-D and 3-D structures. Prerequisite: CENG 301.
CENG 411 Steel Design 3 credits
Application of basic principles of mechanics applied to the design of steel members. Design of structural members and connections using the current American Institute of Steel Construction specifications. Load and Resistance Factor Design and Allowable Stress Design procedures. Fall. Prerequisite: CENG 301.
CENG 412 Concrete Design 3 credits
Theory and application of analytical procedures applied to the design of reinforced concrete structural members. Proportioning of beams, columns, footings, and walls in concrete structures is approached using current American Concrete Institute code specifications. Ultimate Strength Design Procedures. Spring. Prerequisite: CENG 301.
CENG 413 Groundwater 3 credits
Principles of fluid motion in porous media. Techniques for design and construction of groundwater components in water resources systems. Introduces contaminant movement in the sub-surface and the mitigation of groundwater contamination. Computer applications. Prerequisites: CENG 351, CENG 352 and CENG 303.
CENG 414 Waste Management 3 credits
An overview of solid, hazardous, and industrial waste management. Topics include regulations, contaminant transport, waste sources, waste minimization, recycling, treatment and remediation technologies, landfill design and risk assessment. Prerequisite: CENG 303.
CENG 415 Masonry - Timber Design 3 credits
Analysis and design of masonry and timber structures. Sizing of members in masonry and timber according to applicable building codes. Prerequisite: CENG 301.
CENG 420 Structural Dynamics 3 credits
The analysis and response of structures to dynamic loads. Emphasis is given to dynamic loads due to earthquakes. Basic principles of the seismic design of structures. Fall. Prerequisites: CENG 301 and ENSC 306.
CENG 424 Physicochemical Treatment Processes 3 credits
The theory and design of physical and chemical treatment processes for water and wastewater. Topics include coagulation/flocculation, sedimentation, filtration, disinfection, adsorption, ion exchange, air stripping, and membrane processes. Prerequisite: CENG 303.
CENG 432 Quantitative Risk Analysis 3 credits
Quantitative Risk Analysis provides engineers with a basis to improve decisions for design and operation of complex projects by incorporating effects of uncertainty. Applications to a variety of engineering problems. Prerequisite: MATH 321.
CENG 444 Air Pollution 3 credits
An introduction to the field of air pollution and its control. Topics include regulations, air pollution sources, health effects, meteorology, and the theory and design of control techniques. Prerequisite: CENG 303.
CENG 454 Biological Treatment Processes 3 credits
The theory and design of biological processes for waste treatment. Topics include basic microbiology, activated sludge, trickling filters, rotating biological contactors, aerated lagoons, stabilization ponds, constructed wetlands, and small on-site treatment systems. Prerequisite: CENG 303.
CENG 455 Open Channel Hydraulics 3 credits
Analysis of flow characteristics, and design for the conveyance of, water in open channels. Gradually varied, flow, rapidly varied flow, sewers, gates, transitions, spillways, bank protection, and flood routing. Addresses the many functions of open channels in water resource systems. Computer applications. Prerequisite: CENG 352.
Computer Science

Chairperson: Daniel Hughes
Professors: R. Bryant, P. De Palma, K. Yerion
Associate Professors: D. Hughes, C. Smith
Assistant Professor: P. Crowley

The computer science program at Gonzaga University is built upon a solid foundation of mathematics, intensive programming, and computer architecture. The program offers a B.S. in Computer Science achieved through a broad range of advanced computer science topics. All students study software engineering or group research during their senior year. The software engineering senior group design sequence involves students working in groups to develop a substantial system under the guidance of a faculty member and project sponsor. The research project involves working in groups with a faculty member on a research project.

The department has a student chapter of the Association for Computing Machinery which sponsors lectures and social events for department majors. Computer Science majors may participate in the Annual ACM Programming Contest held every November. The department has its own extensive computing laboratory which includes a network of microcomputers running Windows and Linux. In addition, the department has a Linux server used in many courses. All computer labs on campus, as well as the dormitory rooms, are connected to the campus-wide network and from there to the Internet.

The Computer Science Degree requires 128 credits distributed among six categories:
- Mathematics: 17 credits
- Science: 12 credits
- Computer Science Core Requirements: 33 credits
- Computer Science Electives: 12 credits
- Humanities/Social Science Requirements: 49 credits
- Other electives: 5 credit

Electrical Engineering and Computer Engineering

Chairperson: V.A. Labay
Professors: G. Allwine (Emeritus), J. Bala, R. Birgenheier (Emeritus), G. Braileanu, C. Tavora
Associate Professors: V.A. Labay, S. Schennum

The purpose of the electrical engineering (EE) and computer engineering (CpE) programs is to develop knowledgeable and competent engineering professionals who exemplify the humanistic, Catholic, and Jesuit tradition of education, and who are committed to social justice, service to others, lifelong learning, ethical and moral responsibility, and concern for the environment. The integration of the Gonzaga University core curriculum as an essential part of the EE and CpE curricula gives the programs their distinct and desirable characteristics.

The University core curriculum includes a structured program in theology, philosophy, thought and expression, written and oral communication skills, and English literature. Roughly half of the credits in either the EE or the CpE program are devoted to engineering topics, including at least 16 semester credits devoted to engineering design. Both programs include four technical electives to allow students to pursue specialization in one or more areas of electrical engineering and/or computer engineering. During their final year, students complete a design project, which involves both technical and non-technical aspects of an engineering problem, under faculty supervision. The senior design project culminates in a comprehensive written report and an oral presentation.

Program Educational Objectives
It is the twofold goal of the University, its School of Engineering and Applied Science, and the department of Electrical and Computer Engineering to develop men and women who are both competent engineers and educated, responsible human beings. The student’s development of these two characteristics is affected by course work from both the liberal arts and the profession. Thus, the two aspects of this goal are interwoven, being a single, integrated fabric having many threads contributed by many curricula. This synthesis is expressed by the Engineering Program Objectives that are listed in the School of Engineering and Applied Science Section of this catalogue, and by the Gonzaga University Mission Statement that may be found at the beginning of the catalogue.

Career Opportunities
Graduates of our EE and CpE programs are well prepared to embark on careers in electrical engineering or computer engineering, or to further their education at graduate schools of their choice. Our graduates find employment with a broad segment of industry, as well as with governmental agencies. Employment opportunities include the design of electronic products, design of electrical systems, development of computer, hardware, software/firmware, computer applications, research and development, engineering consulting, electrical utilities, manufacturing, marketing, operations and maintenance, administration, and teaching. Moreover, electrical and computer engineers traditionally engage in interdisciplinary fields, such as aerospace engineering, national defense systems, global communication systems, biomedical engineering, instrumentation, transportation systems, energy conversion, robotics, and industrial automation. Many of our graduates have distinguished themselves at some of the best graduate schools in the USA. Moreover, a substantial number of our graduates have achieved high positions in academia, business, and government.
Electrical Engineering

Electrical engineering is the profession that applies mathematics, the basic sciences, technology, and problem-solving skills to the design, construction, operation, and maintenance of electrical and electronic products, equipment, services, and information systems. Electrical engineers find innovative ways to use electricity, information, computers, and electronics to make people’s lives better. Traditionally, electrical engineering involves the areas of communication systems, computer systems, control systems, electric power systems, electronics, and signal processing.

Communication systems process and transfer information from one point to another. This information includes audio and video data, as well as digital data used in computers. Computer systems include computer design, as well as the areas of hardware and software used to control processes and equipment. Control systems use electronic circuits to regulate processes to meet specific objectives and requirements. Electric power systems generate, transmit, and distribute electricity to residential, commercial, and industrial establishments. Electronics engineers design and develop devices, components, and circuits that are used in computers, appliances, automobiles, and countless other areas. Signal processing systems transform electrical and electromagnetic signals to more usable form in such applications as computerized tomography (CT) scan and magnetic resonance imaging (MRI).

B.S. in Electrical Engineering: 132 credits

First Year

Fall
- CHEM 101 General Chemistry I 3 credits
- CHEM 101L General Chemistry I Lab 1 credit
- CPSC 121 Computer Science I 3 credits
- ENGL 102 Introduction to Literature 3 credits
- MATH 157 Calculus and Analytical Geometry I 4 credits
- RELI 1XX Religion elective 3 credits

Spring
- ENGL 101 English Composition 3 credits
- ENSC 205 Statics 3 credits
- MATH 258 Calculus and Analytical Geometry II 4 credits
- PHYS 103 Scientific Physics I 3 credits
- PHYS 103L Scientific Physics I Lab 1 credit
- PHYS 103R Scientific Physics I Recitation 0 credit
- PHIL 101 Introduction to Critical Thinking 2 credits
- SPCO 101 Introduction to Speech Communications 2 credits

Second Year

Fall
- CPEN 230 Introduction to Digital Logic 3 credits
- CPEN 230L Introduction to Digital Logic Lab 1 credit
- ENSC 300 Engineering Economics 2 credits
- MATH 259 Calculus and Analytical Geometry III 4 credits
- PHYS 204 Scientific Physics II 3 credits
- PHYS 204L Scientific Physics II Lab 1 credit
- PHYS 204R Scientific Physics II Recitation 0 credit
- PHIL 201 Philosophy of Human Nature 3 credits

Spring
- EENG 201 Circuit Analysis I 3 credits
- EENG 201L Circuit Analysis I Lab 1 credit
- PHYS 205 Ordinary Differential Equations 3 credits

Third Year

Fall
- EENG 301 Electromagnetic Fields and Materials 4 credits
- EENG 302 Circuit Analysis II 3 credits
- EENG 303 Electronics Design I 3 credits
- EENG 303L Electronics Design I Lab 1 credit
- PHIL 301 Ethics 3 credits
- RELI 3XX Christian Doctrine elective 3 credits

Spring
- EENG 304 Electronics Design II 3 credits
- EENG 304L Electronics Design II Lab 1 credit
- EENG 311 Signals and Systems 4 credits
- EENG 322 Probabilistic Methods for Electrical Engineering 3 credits
- EENG 340 Introduction to Electric Power Engineering 3 credits
- EENG 340L Introduction to Electric Power Engineering Lab 1 credit
- EENG 391 Engineering Design 1 credit

Fourth Year

Fall
- EENG 411 Introduction to Control Systems 3 credits
- EENG 421 Introduction to Communication Systems 3 credits
- EENG 425 Communication and Controls Lab 1 credit
- EENG 491 Senior Design Project I 2 credits
- Technical elective 1 3 credits
- Technical elective 1 3 credits

Spring
- EENG 492 Senior Design Project II 3 credits
- ENSC 355 Thermal Science 3 credits
- ENSC 400 Fundamentals of Engineering Examination 0 credit
- PHIL 4XX Philosophy elective 3 credits
- Technical elective 1 3 credits
- Technical elective 1 3 credits

Note 1: Approved EENG or CPEN elective courses

Areas of Specialization in Electrical Engineering

(Required and elective courses)

The following list includes both required and elective courses. Only 300 and 400 level courses that are not required in the degree plan can be used to satisfy the technical elective requirements. The selection must be approved by the student’s advisor, and the total package of electives must contain at least four credits of design.

Electromagnetics, Circuits, Electronics and Filters
- EENG 201/201L Circuits Analysis I (Fall and Summer)
- EENG 301 Electromagnetic Fields and Materials (Fall)
- EENG302 Circuit Analysis II (Spring)
- EENG 303/303L Electronics Design I (Fall)
- EENG 304/304L Electronics Design II (Spring)
- # EENG 401 Advanced Electronics (on demand)
- # EENG 402 Electromagnetic Waves and Materials (on demand)
- # EENG 403 Passive and Active Filter Design (on demand)
- # EENG 406 Introduction to Integrated Circuit Engineering (Spring, on demand)
Control Systems and Automation
  EENG 411 Introduction to Control Systems (Fall)
  # EENG 412 Digital Control Systems (Spring, on demand)
  # EENG 413/413L Automation (on demand)

Communication Systems and Signal Processing
  EENG 311 Signals and Systems (Spring)
  EENG 322 Probabilistic Methods for Electrical Engineering (Spring)
  EENG 421 Introduction to Communication Systems (Fall)
  # EENG 422 Digital Communication Systems (Spring, on demand)
  # EENG 424 Digital Signal Processing (Fall, on demand)
  EENG 425 Communication and Controls Laboratory (Fall)
  # EENG 427 Wireless Systems (Fall, on demand)

Electric Power and Power Systems Engineering
  EENG 340/340L Introduction to Electric Power Engineering (Spring)
  # EENG 441 Analysis of Power Systems (Fall, on demand)
  # EENG 442 Electric Power Distribution System Engineering (on demand)
  # EENG 443 Analysis of Electrical Machines (on demand)
  # EENG 444 Computational Methods for Power Systems (Spring, on demand)

Computer Engineering
  CPEN 230/230L Introduction to Digital Logic (Fall and Spring)
  CPEN 231/231L Microprocessor Architecture and Assembly Programming (Fall and Spring)
  # CPEN 321/321L Introduction to System Software (Fall)
  # CPEN 342/342L Embedded Computer Systems (Spring)
  # CPEN 423 Object-Oriented Modeling and Design (Fall, on demand)
  # CPEN 428 Real-Time Computer Systems Engineering (Spring, on demand)
  # CPEN 430/430L Digital System Design (Fall)
  # CPEN 431 Computer Architecture (Spring)
  # CPEN 447 Data Communications (Fall, on demand)

Note: # Approved technical elective courses.

Computer Engineering

Computer Engineering (CpE) combines the disciplines of electrical engineering and computer science. It encompasses computer hardware, software, and systems. The study of computer engineering is not limited to general purpose computers, but also covers embedded computer systems that control a vast multitude of devices and functions from automotive ignitions to cellular phones and various industrial controls, medical instruments, robotics, consumer electronics. Computer hardware design involves logic design, digital electronics, computer architecture, and integrated circuit design. Computer software design involves the design of programs in various languages using structured and object-oriented techniques to control devices and systems. Computer systems involve the combination of hardware, software and operating system that will provide the most effective realization of a system.

Computer engineers are continually developing newer and faster computers, and they find new applications for computers every day to fill the needs of society. The computer engineer must have a broad understanding not only of computer systems, but also of basic engineering fundamentals to apply computer technology to the solution of real engineering problems.

The courses and laboratories offered in the CpE program are organized into the three disciplines of hardware, software, and system design. Technical electives that are chosen from various fields of specialization (e.g., communications, computers, controls, electronics, and power) enable CpE seniors to apply their computer engineering knowledge in selected areas in their professional career.

Notes: * Course description under Computer Science. #
Approved technical elective courses.

Lower Division
EENG 201 Circuit Analysis I
Fundamental electrical laws; network theorems. Basic
circuit elements: resistance, inductance, capacitance,
independent and controlled sources, and op-amps.
Techniques of circuit analysis; steady-state and transient
responses; first-order and second-order circuits; com-
plex numbers; sinusoidal analysis. Three hour lectures
per week. Prerequisites: MATH 258 and PHYS 103.
Note: EENG 201 must be passed with at least a C (2.00)
grade for a student to proceed to a subsequent course
for which EENG 201 is a prerequisite.
EENG 201L Circuit Analysis I Lab
Three hours laboratory per week. Co-requisite: EENG
201.

Upper Division
EENG 301 Electro Fields and Materials
Application of vector calculus to static time-varying elec-
tric and magnetic fields; electromagnetic properties of
conductors, insulators, dielectrics, and ferromagnetic
materials; Maxwell’s equations; electromagnetic waves;
transmission lines. Four hours of lecture per week.
Prerequisites: EENG 201 and PHYS 204 and MATH
EENG 302 Circuit Analysis II
Continuation of EENG 201. Sinusoidal steady-state
analysis; RMS value; real, reactive, and complex pow-
ers; balanced three-phase circuits; frequency response;
Bode plots; resonance; complex frequency; transfer
functions; two-port circuits; magnetically coupled circuits;
transformers. Three hours lecture per week. Prerequisite: EENG 201.

EENG 427 Wireless Systems 3 credits
Fundamentals of RF stages of modern wireless systems including antennas, propagation, fading, noise, receiver design, modulation methods and bit error rates. Components of wireless systems, including filters, amplifiers, mixers, oscillators, and phase-locked loops. Initial coverage includes transmission lines, S-parameters, impedance matching, and random processes. Three lecture hours per week. Prerequisites: EENG 311 and EENG 322.

EENG 441 Analysis of Power Systems 3 credits
Per unit system; transmission line parameters; power system models; generators, transformers, lines, loads; power flow problem and solution methods; symmetrical components; symmetrical and unsymmetrical fault analysis; use of computer software package to solve power flow and short-circuit problems. Three hours lecture per week. Prerequisite: EENG 340.

EENG 442 Electric Power Distribution System Engineering 3 credits
Distribution system planning; load characteristics; distribution transformer applications; design of sub-transmission lines, substations, primary and secondary distribution systems; voltage regulation; capacitor applications; protection. Three hours lecture per week. Prerequisite: EENG 340.

EENG 444 Computational Methods for Power Systems 3 credits
Power system matrices;-bus and Z-bus matrices; computer programming considerations: sparsely, triangular factorization; computer solutions of power flow fault calculations; protective relays; protection of generators, transformers, and transmission lines; stability concepts; transient stability, computer simulations. Three hours lecture per week. Prerequisite: EENG 441.

EENG 481 Special Topics in Electrical Engineering 1-3 credits
Courses of special interest may be offered from time to time. Prerequisites will depend on the nature of the material offered and will be announced.

EENG 482 Directed Study 1-3 credits
Courses of special interest may be offered from time to time. Prerequisites will depend on the nature of the material offered and will be announced.

EENG 491 Senior Design Project I 2 credits
Students work as a team to produce a project proposal. The proposal must describe the project requirements, conceptual design, management plan and project cost. Prerequisites: EENG 391, EENG 304 and EENG 311.

EENG 492 Senior Design Project II Lab 3 credits
Implementation, management, and completion of the project proposed in EENG 491; use of resources within and outside of the team to accomplish the project objectives; project documentation; demonstration of compliance with requirements; presentation of results and submission of comprehensive written report. Prerequisite: EENG 491. Co-requisite: ENSC 400.

Computer Engineering
Lower Division
CPEN 230 Introduction to Digital Logic 3 credits
Number systems and codes, Boolean Algebra, Logic gates and flip-flops. Verilog HDL. Combinational and sequential Logic Design using CPLDs. Three hours lecture per week.

CPEN 230L Introduction to Digital Logic Lab 1 credit
Three hours lab per week. Concurrent with CPEN 230.

CPEN 231 Microcomputer Architecture and Assembly Programming 3 credits
Study of components of simple computer systems: CPU's memory, registers, busses, computer control, microprogramming, assembly language programming. Three hour lecture per week. Prerequisites: CPEN 230 and CPSC 121.

CPEN 231L Microcomputer Architecture and Assembly Programming Lab 1 credit
Three hours of lab per week. Concurrent with CPEN 231.

Upper Division
CPEN 321 Introduction to System Software 2 credits
Design of software that meets specific real-time requirement using a 68HC11 based microcomputer. Implementation of system and application software using C and assembly language. Software design considerations for optimizing memory utilization. Structure of an executive program and I/O drivers. Use of debuggers, ROM emulators and simulators to troubleshoot hardware and software. Two hour lectures per week. Prerequisites: CPEN 231 and CPSC 121.

CPEN 321L Introduction to System Software Lab 1 credit
Three hours of lab per week. Concurrent with CPEN 231.

CPEN 342 Embedded Computer Systems 3 credits

CPEN 342L Embedded Computer Systems Lab 1 credit
Three hours lab per week. Taken concurrently with CPEN 342.

CPEN 423 Object-Oriented Modeling and Design 3 credits
Introduction to modeling as a design technique; object modeling; dynamic modeling; functional modeling; analysis; system design; object design; implementation; use of CASE tools for software development; introduction to Windows programming. Three hour lectures per week. Prerequisite: CPSC 223.

CPEN 428 Real-Time Computer System Engineering 3 credits
Review of computer hardware used in real-time systems; utilization of real-time operating systems and real-time kernels to design and implement multitasking/multiprocessing embedded programs; programs will also include intern task communication and synchronization; vxWorks RTOS; introduction to real-time scheduling theory. Three hour lectures per week. Prerequisite: CPEN 321.
Mechanical Engineering

Chairperson: Massimo "Max" Capobianchi
Professors: K. Ansari, A. Aziz, M. Capobianchi
Associate Professors: J. Marciniak, P. Appel
Assistant Professor: S. Zemke

Mechanical Engineering is that branch of engineering that encompasses the study of forces, motion, energy, materials, manufacturing, and design in order to apply them to the creation of mechanical devices and systems that serve society (e.g., engines, refrigerators, machines, tools, etc). Thus, the principles discovered by scientists and engineers are used to turn envisioned concepts into real physical objects that solve problems. This is accomplished through a process of problem description, creative idea generation, design, analysis, judgment, planning, and production that typically involves a host of professionals who may all have been educated as mechanical engineers. For example, mechanical engineers may be involved in product design, analysis, and testing, in developing manufacturing processes, in defining product requirements and trouble-shooting customer problems, in project management, and in research and education.

The profession serves many diverse fields and industries such as the aerospace, pharmaceutical, automotive, and power generation industries, to name just a few. In fact, any device or system that involves energy or movement probably involved one or more mechanical engineers in its creation. Some exciting, rapidly developing fields and emerging technologies of interest to mechanical engineers include: fuel cells (the use of chemical fuel and an oxidant to directly produce electricity), rapid prototyping (the use of computer-controlled machines to fabricate complete objects in one step directly from computer models), mechatronics (the integration of mechanical systems and electronic sensing and control), biomedical engineering (the application of engineering to problems in medicine and biology), nanoengineering (the creation of materials and devices at the nanometer level, i.e., at the atomic, molecular, or supramolecular levels), and MEMS (Microelectromechanical Systems-the integration of mechanical, chemical, and/or electronic systems at the chip level).

It is the twofold goal of the University, its School of Engineering and Applied Science, and the department of Mechanical Engineering to develop men and women who are both competent engineers and educated, responsible human beings. The development of these two characteristics in students is affected by course work from both the liberal arts and the profession. Thus, the two aspects of this goal are interwoven, being a single, integrated fabric having many threads contributed by many curricula. This synthesis is expressed by the engineering program objectives that are listed in the School of Engineering and Applied Science Section of this catalogue, and by the Gonzaga University Mission Statement that may be found at the beginning of the catalogue.

Diversity of opportunity and professional breadth are hallmarks of the mechanical engineering profession. This translates into a need for a thorough grounding in a variety of mathematical, scientific, and engineering fundamentals. Thus, the mechanical engineering program at Gonzaga University prepares the student in the areas of mathematics, chemistry, physics, mechanics, thermodynamics, fluid mechanics, heat transfer, materials, manufacturing, design, control theory, experimentation, and economics. These fundamentals are enhanced with exposure to important engineering tools such as: mathematical techniques; computer programming; computer applications tools including computer aided design (CAD), computer aided manufacturing (CAM), finite element analysis (FEA), and computational fluid dynamics (CFD); and the use of equipment, instruments, and software typically found in manufacturing and laboratory situations. Since teamwork is an essential aspect of the modern practice of mechanical engineering, the mechanical engineering program gives considerable attention to building personal communication skills through team design projects, reports, and presentations, as well as through communication skills courses in the University Core Curriculum. Furthermore, as a critical component of the program, all students engage in design courses beginning in their Sophomore year and continuing throughout the curriculum, culminating in a two-semester capstone design experience in the Senior year. That experience entails requiring student design teams, led jointly by Faculty and practicing Engineers, to solve real industrial design problems. Finally, the degree requirements also include the opportunity for breadth as well as concentration in particular engineering applications through a group of technical electives taken in the senior year (the list of allowable technical electives is given below). The department also has a five-year plan available for students wishing to proceed at a slower pace or for those planning to add a minor in business or in a liberal arts subject such as physics, music, or art. Information and suggested course packages are also available for students planning to work in the closely allied but more specialized fields of aerospace or biomedical engineering.
The following curriculum details the course requirements for each semester. In addition to these courses, all students must take the Washington State Fundamentals of Engineering Examination prior to graduation (see ENSC 400, “Fundamentals of Engineering Exam” course in the Spring semester of the Senior year). Finally, students who follow a curriculum sequence other than that listed below should meet with their Academic Advisors at their first opportunity in order to resolve any scheduling conflicts that may arise due to off-schedule course availability and/or course pre- and co-requisite structure. In all cases, students must comply with the pre- and co-requisite requirements in order to be granted admission into courses.

B.S. in Mechanical Engineering: 136 credits

First Year

Fall
- ENSC 1001 Engineering Seminar 0 credit
- MATH 157 Calculus and Analytical Geometry I 4 credits
- CHEM 101 General Chemistry I (or CHEM 105) 3 credits
- CHEM 101L General Chemistry I Lab (or 105L) 1 credit
- CPSC 121 Computer Science I 3 credits
- ENGL102-106 Introduction to Literature 3 credits
- RELI 1XX Scripture electives 3 credits

Spring
- ENSC 2052 Statics 3 credits
- MATH 258 Calculus. and Analytical Geometry II 4 credits
- PHYS 103 Scientific Physics I 3 credits
- PHYS 103L/R Scientific Physics I Lab and Recitation 1 credit
- ENGL101 English Composition 3 credits
- SPCO 101 Introduction to Speech Communication 2 credits
- PHIL 101 Introduction to Critical Thinking 2 credits

Second Year

Fall
- MENG 221 Materials Engineering 3 credits
- MENG 291 Introduction to Mechanical Engineering Design 2 credits
- MENG 291L Introduction to Mechanical Engineering Design Lab 1 credit
- MATH 259 Calculus and Analytical Geometry III 4 credits
- PHYS 204 Scientific Physics II 3 credits
- PHYS 204L/R Scientific Physics II Lab and Recitation 1 credit
- PHIL 201 Philosophy of Human Nature 3 credits

Spring
- ENSC 244 Computer Methods for Engineering 3 credits
- ENSC 306 Dynamics 3 credits
- MATH 260 Ordinary Differential Equations 3 credits
- MATH 321 Statistics for Experiment 3 credits
- RELI 2XX Christian Doctrine Elective 3 credits
- PHIL 301 Ethics 3 credits

Third Year

Fall
- MENG 3212 Thermodynamics I 3 credits
- ENSC 3003 Engineering Economics 2 credits
- ENSC 301 Mechanics of Materials I 3 credits
- ENSC 311 Electrical Engineering Science 3 credits

Fourth Year

Fall
- MENG 411 Measurements and Instrumentation I 3 credits
- MENG 411L Measurement Measurements and Instrumentation I Lab 1 credit
- MENG 434 Vibration Engineering 3 credits
- MENG 461 System Dynamics and Control 3 credits
- MENG 491 Mechanical Engineering Design I 2 credits
- - - - - - Technical Elective 3 credits
- PHIL 4XX Philosophy elective 3 credits

Spring
- MENG 412 Measurements and Instrumentation II 3 credits
- MENG 412L Measurements and Instrumentation II Lab 1 credit
- MENG 492 Mechanical Engineering Design II 3 credits
- - - - - - Technical Elective 3 credits
- - - - - - Technical Elective 3 credits
- ENSC 4004 Foundations of Engineering Exam 0 credit

1ENSC 100 is not required of students transferring from another institution nor of students enrolled in the Honors program or the Hogan Entrepreneurial Leadership program.

2This course must be passed with at least a C- (1.7) grade in order for a student to proceed to a subsequent course for which this course is a prerequisite. This grade requirement may be waived as a requirement for registering in subsequent courses if approved by the student’s Academic Advisor and the Department Chair. The waiver may require the completion of certain additional course work or may require that the student repeat the prerequisite course out of sequence.

3ENSC 300 is waived under the following circumstances:

   Students Enrolled in the Hogan Entrepreneurial program: ENSC 300 is waived after completing ENTR 490B.

   Students Pursuing the General Business Minor: ENSC 300 is waived after completing both ECON 200 and BFIN 320.

   Students Pursuing the B.S. in Engineering and M.B.A. program: ENSC 300 is waived after completing both ECON 200 and BFIN 320.

The above courses are not intended to be options for the ENSC 300 course. Hence, students who are not in one of the above programs are required to take ENSC 300. Also, students who comply with one of the above criteria must complete all of the courses required to waive ENSC 300 prior to enrolling in any course for which ENSC 300 is a pre-requisite.

4The Washington State Fundamentals of Engineering Examination must be taken as part of the ENSC 400 course.
Technical Electives
The courses used to satisfy the technical elective requirements must normally be selected from the following list. However, students may take other courses for technical elective credits, but only with the prior approval of both the student’s academic advisor and the chair of the department of Mechanical Engineering. The actual technical elective courses offered from the list below varies from year to year, and the department may on occasion offer one or more pre-approved technical elective courses that are not listed below. Courses other than MENG courses may have pre- and/or co-requirements that are outside of the normal mechanical engineering curriculum. Students wishing to take these courses should plan well in advance in order to comply with all admission requirements prior to enrolling in the course.

Lower Division
MENG 221 Materials Engineering 3 credits
Introduction to the structure-property-processing relationship in metallic, ceramic, and polymeric materials, and to the atomic structure of materials and its influence on mechanical, electrical, and thermal properties. Introduction to materials selection to meet engineering design constraints. Students explore how alloying and manufacturing processing modifies structure, and consequently changes the properties of materials. Prerequisites: (CHEM 101 and CHEM 101L) or (CHEM 105 and CHEM 105L).

MENG 291 Introduction to Mechanical Engineering Design 2 credits
Introduction to mechanical engineering design, with emphasis on communication of design ideas. Graphics topics include hand sketches of concepts, CAD (computer aided design) 2-D dimensioned drawings and 3-D models, and use of perspective views in written documents. Writing topics include simple business letters, proposals, product reports, product specifications, and product descriptions. Oral presentations include structuring presentations and verbal delivery. Student design projects form a major portion of the class. Co-requisite: MENG 291L.

MENG 291L Introduction to Mechanical Engineering Design Lab 1 credit
Hands-on use of CAD systems, collaborative work with peers, and individual mentoring by the instructor. Lab projects and lecture are integrated with each other both in content and class time. Co-requisite: MENG 291.

Upper Division
MENG 301 Manufacturing Processes 2 credits
Overview of the most common manufacturing processes and how they influence design decisions. Emphasizes design for manufacturability, process comparison, and process specification. Prerequisite: MENG 221. Co-requisite: MENG 301L.

MENG 301L Manufacturing Processes Lab 1 credit
Project-based laboratories that provide Students with hand-on experiences with common machine tools, including manual and CNC machining centers. Lab emphasizes design-to-finished product approach to manufacturing. Co-requisite: MENG 301.

MENG 321 Thermodynamics I 3 credits
The first and second laws of thermodynamics; thermophysical properties of matter, ideal gases and their mixtures; concept of entropy as applied to thermal systems. Prerequisite: MATH 259.

MENG 322 Thermodynamics II 3 credits
Second Law analysis, power and refrigeration cycles, mixtures, combustion, and high speed flow. Applications of first and second law analysis to engineering systems. Prerequisite: MENG 321.

MENG 330 Machine Design 3 credits
Application of stress analysis and theories of failure to basic machine elements. Design of elements under static and fatigue loading. Design involving mechanical elements such as shafts, columns, flywheels, springs, and welds. Prerequisite: ENSC 301.

MENG 341 Heat Transfer 3 credits
One and multidimensional steady conduction, transient conduction, internal and external forced convection, natural convection, radiation heat transfer, boiling and condensation, heat exchangers. Prerequisites: MENG 321 and ENSC 352.

MENG 391 Mechanical Engineering Design Fundamentals 1 credit
Intermediate level design course introducing the fundamentals of the engineering design process in a team environment. Topics include typical design cycles found in industry, open-ended problem solving, and teamwork fundamentals. Team design projects are a major component of the class. Prerequisites: MENG 291, MENG 321, ENSC 301. Co-requisites: MENG 301/301L, MENG 391L and MENG 341.

MENG 391L Mechanical Engineering Design Fundamentals Lab 1 credit
Presentation of typical problems and skills found in industrial practice of engineers. All projects are completed on small engineering teams. Lab projects and lecture sare integrated with each other both in content and class time. Co-requisite: MENG 391.

MENG 411 Measurements and Instrumentation I 3 credits
Basic concepts of measurements and analysis of measurement uncertainties and experimental data. Study of transducers and investigation of data acquisition, signal conditioning, and data processing hardware typically utilized in performing mechanical measurements. Prerequisites: ENSC 311, ENSC 244, ENSC 371, and MATH 321. Co-requisite: MENG 411L.

MENG 411L Measurements and Instrumentation I Lab 1 credit
Laboratory exercises supporting the topics covered in MENG 411. Co-requisite: MENG 411.
MENG 412 Measurements and Instrumentation II  3 credits  
Study of the techniques used for measuring displacement, velocity, acceleration, force, pressure, flow, temperature, and strain. Investigation of the proper application and the associated limitations of the techniques and of the required instruments. The topics are studied within the context of obtaining experimental solutions to engineering problems in thermodynamics, heat transfer, fluid mechanics, mechanics, and strength of materials. Prerequisites: MENG 411 and MENG 341. Co-requisite: MENG 412L.

MENG 412L Measurements and Instrumentation II Lab  1 credit  
Laboratory exercises supporting the topics covered in MENG 412. Co-requisite: MENG 412L.

MENG 434 Vibration Engineering  3 credits  

MENG 435 Applications in Vibrations  3 credits  

MENG 442 Advanced Heat Transfer  3 credits  
Advanced topics in conduction, contact resistance, multidimensional transients, periodic heat transfer, non-uniform heat generation, freezing and melting processes, fin heat transfer, radiation in absorbing media, and design of shell-and-tube heat exchangers. Prerequisite: MENG 341.

MENG 445 Heating, Ventilating and Air Conditioning  3 credits  
Introduction to the techniques used in the analysis and design of heating, ventilating, and air conditioning (HVAC) systems. Topics include the arrangement of typical air conditioning systems (i.e. all air systems, air and water systems, etc.), moist air processes, comfort and health criteria for indoor air quality, heating and cooling loads, piping system design, building air distribution, and operational principles and performance parameters of typical components (i.e., cooling towers, air washers, heating and cooling coils, etc.) Prerequisite: MENG 341.

MENG 446 Mechanical Design and Cooling of Electrical Systems  3 credits  
Introduction to the fundamentals of mechanical design and analysis of electronic systems. Topics will include packaging architectures, component and subcomponent design (i.e., chip packaging technologies, printed circuit boards, interconnections and connectors, etc.), thermal management techniques, thermomechanical analysis and design, design for dynamic environments, and design techniques for humid and/or corrosive environments. Prerequisites: MENG 341, ENSC 306, and ENSC 311.

MENG 450 Topics in Machine Design  3 credits  
Continuation of material presented in MENG 330. Design topics involving mechanical elements such as bolts, spur and helical gears, journal bearings and flexible mechanical elements. Prerequisite: MENG 330.

MENG 461 System Dynamics and Control  3 credits  

MENG 462 Gas Dynamics  3 credits  

MENG 463 Simulation and Optimization  3 credits  
Steps in engineering design, workable systems, economic evaluation, mathematical modeling, curve fitting, system simulation, Lagrange multipliers, search techniques, dynamic programming, linear programming, geometric programming, optimization software, engineering case studies. Prerequisite: ENSC 244.

MENG 465 Introduction to Finite Elements  2 credits  
Development of the stiffness matrix method applied to bar and beam elements. The plane problem is discussed and plane elements are presented. The isoperimetric formulation is introduced. Modeling and accuracy in linear analysis is considered. Utilizes a commercial finite element program in problem solving. Prerequisite: ENSC 301. Co-requisite: MENG 465L.

MENG 465L Introduction to Finite Elements Lab  1 credit  

MENG 467 Design w/Polymers-Composites  3 credits  
Background of composites, stress-strain relations for composite materials, extension and bending of symmetric laminates, failure analysis of fiber-reinforced materials, design examples and design studies, nonsymmetric laminates, micromechanics of composites. Prerequisites: ENSC 301, ENSC 371, MENG221.

MENG 480 Advanced Fluid Mechanics  3 credits  

MENG 484 Manufacturing Systems  2 credits  
A course designed to familiarize the student with manufacturing decisions required in the industrial sector. Developing manufacturing strategies, integrating process alternatives, equipment, selection, analysis, process costs, and total integration of manufacturing systems are assessed quantitatively and qualitatively to maximize outcomes. Project-based laboratories provide opportunities to integrate manufacturing processes with a perspective on automation and production systems. Prerequisite: MENG 301.
ENGINEERING SCIENCE

MENG 484L Manufacturing Systems Lab 1 credit
Laboratory exercises supporting the topics covered in MENG 484. Co-requisite: MENG 484.

MENG 491 Mechanical Engineering Design I 2 credits
Application of procedures and practices of engineering design to a comprehensive design project. Oral and written technical presentations. Completion of a design proposal under faculty supervision involving both technical and non-technical aspects of an engineering problem. Culminates in a project plan and preliminary design work. Prerequisites: MENG 330, MENG 391/391L, and ENSC 300.

MENG 492 Mechanical Engineering Design II 3 credits
Continuation of MENG 491. Completion of the design project proposed in MENG 491. Culminates in the completion of all required deliverables and a comprehensive written report and oral presentation. Prerequisite: MENG 491. Co-requisite: ENSC 400.

ENSC 311 Electrical Engineering Science 3 credits
An introduction to electric circuit theory for non-electrical engineering students: electrical network theorems applied to DC, transient, and AC steady-state circuits; polyphase circuits and power. Prerequisite: MATH 259. Co-requisite: ENSC 311L.

ENSC 311L Electrical Engineering Science Lab 1 credit
Laboratory exercises supporting topics covered in ENSC311. Co-requisite: ENSC 311.

ENSC 352 Fluid Mechanics 3 credits
Fluid properties, fluid statics, fluids in motion, momentum and energy equations, dimensional analysis, boundary layers, flow in conduits, drag and lift. Prerequisite: ENSC 205.

ENSC 355 Thermal Science 3 credits
First and second law of thermodynamics applied to closed and open systems; introduction to conduction, convection, and radiation heat transfer. For non-mechanical engineering majors only.

ENSC 371 Advanced Engineering Math 3 credits
Application of advanced mathematical techniques to problems of interest to engineers and scientists. Analytical methods involving topics such as algebraic equations, ordinary and partial differential equations, complex variables and special functions. Prerequisite: MATH 260.

ENSC 390 Directed Study 1-3 credits
Topic to be decided by faculty.

ENSC 400 Fundamentals of Engineering Exam 0 credits
Proctoring of the practice examination for Students in preparation for the Fundamental of Engineering Exam (1st exam toward professional licensing), and of the School of Engineering and Applied Science assessment surveys (dates and times are announced during the semester). Also requires Students to take the Washington State Fundamentals of Engineering (FE) Examination. Co-requisites: EENG 492, MENG 492, ENSC 492 or CENG 492.

ENSC 401 Mechanics of Materials II 3 credits
Unsymmetrical bending, curved flexural members, shearing stress in beams, shear flow in thin webbed sections, Saint Venant's theory of torsion, thick-walled cylinders and rotating disks, and use of finite elements in analysis. Prerequisite: ENSC 301.

ENSC 405 Engineering Project Management 3 credits
Current tools used to manage engineering and technical projects. Topics covering both theory and practice: definition of a project; management and organization; project planning, including chartering, project scope management, project time (schedule) management, project cost management, quality management, communications, project risk management, and procurement/contract management; project control; and project completion/termination. Prerequisite: MATH 321.

Engineering Science

The following Engineering Science courses are service courses for all majors within the School of Engineering and Applied Science:

Lower Division
ENSC 100 Engineering Seminar 0 credit
A course to introduce freshman engineering students to the engineering curriculum and the engineering profession. A broad introduction to the study and practice of engineering, professional development, academic success strategies, and orientation to the engineering education system. One class meeting per week. Fall.

ENSC 101 Engineering Graphics 2 credits
An introduction to geometrical methods used in civil engineering practice. The ability to comprehend three-dimensional objects is stressed. A major portion of the course involves the utilization of computer aided drafting (CAD) with an emphasis on civil engineering applications. Two three-hour problem lab sessions per week.

ENSC 205 Statics 3 credits
A vector treatment of systems of forces and moments in equilibrium. Topics include centroids, distributed loads, effects of friction; analysis of trusses and frames and calculations of moments of inertia. Co-requisite: PHYS 103.

ENSC 244 Computer Methods For Engineers 3 credits

ENSC 290 Directed Study 1-3 credits
Topic to be decided by faculty.

Upper Division
ENSC 300 Engineering Economics 2 credits
Techniques of evaluating engineering decisions in the economic realm. Selected topics include: annual cost, present worth, future worth, rate of return, and benefit cost ratio analysis in engineering project alternatives. Prerequisite: MATH 258.

ENSC 301 Mechanics of Materials I 3 credits
Behavior of materials, elementary theories of stress and strain, generalization of these theories to stress distribution, and deformation and instability in structural members. Prerequisite: ENSC 205.

ENSC 306 Dynamics 3 credits
A vector treatment of kinematics and kinetics. General motion of a particle, energy and momentum methods for particles and rigid bodies. Prerequisite: ENSC 205.

ENSC 311 Advanced Engineering Math 3 credits
Analytical methods involving topics such as algebraic equations, ordinary and partial differential equations, complex variables and special functions. Prerequisite: MATH 260.
ENSC 413 Automation 2 credits
Use of programmable controllers to automate manufacturing processes and equipment. Ladder logic and state based control languages. Controller architecture and system software. Structured design using Grafcet. Interactive graphic operator interface design. Safety considerations. Sensors and instrumentation. Single Loop Controllers Prerequisites: ENSC 244 and (EENG 411 or MENG 361).

ENSC 413L Automation Lab 1 credit
Must be taken concurrently with ENSC 413. Three hour lab per week. Prerequisite: ENSC 104.

ENSC 481 Special Topics in Engineering 1-6 credits
Special topics in engineering. Admission is based on satisfying any specified prerequisite, co-requisite and/or restrictions particular to that special topic course. Fall and Spring.

ENSC 482 Special Topics 1-6 credits
Special topics in engineering. Admission is based on satisfying any specified prerequisite, co-requisite and/or restrictions particular to that special topic course. Fall and Spring.

ENSC 483-484 Independent Study 1-3 credits
Directed study of a specific topic in engineering. Admission is based on satisfying any specified prerequisite, co-requisite and/or restrictions particular to that topic in this course. Fall and Spring.

ENSC 490 Directed Study 0-3 credits
Directed study of a specific topic in engineering. Admission is based on satisfying any specified prerequisite, co-requisite and/or restrictions particular to that topic in this course. Fall and Spring.

ENSC 491 Engineering Design Project 2 credits
Elective senior design project of an interdisciplinary or specialized nature involving both technical and non-technical aspects of an engineering problem for students in any of the engineering majors. Course usually runs two semesters. Prerequisite: Fourth year standing. Fall.

ENSC 492 Engineering Design Project 3 credits
Ongoing completion of an elective senior design project of an interdisciplinary or specialized nature involving both technical and non-technical aspects of an engineering problem for students in any of the engineering majors. Course usually runs two semesters. Prerequisite: fourth year standing. Spring. Prerequisite: ENSC 491.

**General Engineering**

Coordinator: Paul S. Nowak, Associate Dean

General Engineering, like all engineering programs, is for the individual who possesses the dreams and aspirations to create a better world; it is especially suited to those whose talents and interests are broader than conventional engineering design and analysis.

A graduate with a B.S. in General Engineering will have the ability to understand and converse in general engineering principles and processes. This program contains an engineering core that provides the student with a foundation in engineering sciences. It leads to a B.S. in General Engineering with a business minor. It provides sufficient preparation for entry into the M.B.A. program which can be completed in one additional calendar year.

For information on this M.B.A. option, see "Integrated General Engineering and M.B.A." immediately following the General Engineering program description.

Students graduating from this program will be conversant in the basic scientific and engineering principles, both qualitatively and quantitatively. The successful graduate will be able to formulate concepts, develop system designs, and apply engineering problem solving skills to their solutions. They will be able to see the "big picture" and interact with other engineers to develop practical, technologically achievable solutions within the constraints of time, cost and resources. Graduates may pursue careers in management, sales, or marketing. They will also be able to mediate between design team members, particularly in their ability to interpret requirements, explain designs and describe features for the non-technical members of the team.

The curriculum provides the same foundation in physics, chemistry, and mathematics as found in the other engineering programs. During the following years, the student completes fundamental engineering courses and develops a focus area through the selection of 18 credits of technical electives. These electives are chosen by the students from consultation with their advisors. This selection draws from a wide selection of interests within each engineering discipline, including: structures, geotechnical, the environment, water resources, power, computers, manufacturing, automation, mechanics, fluid flow, and energy, so students may custom-tailor a program that ideally fits their needs and career interests.

The General Engineering program is not intended to provide an opportunity for students majoring in other engineering programs to earn a second engineering degree. Therefore, this degree will not be awarded in conjunction with any other engineering degree.

The department of General Engineering, in conjunction with its various constituencies, has clearly defined program objectives. These engineering program objectives are listed in the School of Engineering and Applied Science section of this catalog, and by the Gonzaga University Mission Statement that may be found at the beginning of the catalog.

### B.S. in General Engineering 130 credits

**General Focus**

#### First Year

**Fall**

* Technical electives must be approved by the program coordinator

B.S. in Engineering and M.B.A.

Director: Kay Carnes, Director for Graduate Studies, School of Business Administration

To meet the need for business knowledge and skills as an enhancement to the technical engineering degree, students with an aptitude for engineering and the capacity to assume management responsibilities may complete a program which leads to the B.S. in one of the disciplines of engineering and Master of Business Administration (M.B.A.). The joint degree program takes five years of full-time study with a General Engineering degree but longer for other engineering programs.

Students choosing this program must complete their bachelor's degree in engineering and the required preparatory courses in business before being admitted to the Graduate School of Business. Provisional admission may be available to students who do not complete the preparatory business courses prior to receiving a B.S. in Engineering.

Preparatory Business Courses: 24 Credits

*Only need two of these three classes.

Engineering students who complete BFIN 320 and ECON 200 may have ENSC 300 waived.

The M.B.A. degree program requires 33 semester hours of 600-level coursework beyond the required preparatory business courses. Additional information about the M.B.A. program is contained in the Graduate Catalogue.
Mission
The School of Professional Studies strives to create, educate, and support leaders; contribute to the health of people, communities, and organizations; and to be of service in meeting the learning needs of a complex society. Our programs embody the University’s Mission and the Ignatian spirit on which Gonzaga University is founded. Ethics, excellence, spirit, and community are guiding values for all aspects of the School. Faculty scholarship and research contribute positively to the professions, the global community, and the classroom.

Through a spirit of inquiry and lifelong learning, our students expand their capacity to transform thinking, and engage in ethical problem solving and decision making. New knowledge is acquired in a learning environment of respect and high standards. Our teaching strategies meet the needs of diverse student groups by utilizing dynamic program delivery formats, including technology and flexible scheduling. Traditional age undergraduate students, as well as adults returning to complete graduate and undergraduate degrees enrich our learning environment. Non-credit offerings complement the goals of lifelong learners.

Undergraduate Degree Programs in the School of Professional Studies

Exercise Science (B.S.)
Bachelor of General Studies (B.G.S.)
Nursing (B.S.N. and R.N. to M.S.N.)

Exercise Science
Chairperson: Daniel J. McCann
Professors: C. Geithner, D. McCann

The Department of Exercise Science offers courses that provide students with an opportunity for specialized work in and original investigation of human physiological responses and adaptations to activity and exercise. The Bachelor of Science (B.S.) degree program provides preparation for graduate or professional study in a variety of areas including allied health professions; careers in health, fitness, and human performance; and research and teaching in exercise science. Laboratory experiences are emphasized to introduce students to the methods of investigation, evaluation, and remediation of human function. The program is unique within the University because it emphasizes the scientific basis and mechanisms of human function and adaptation in growth and aging, health and disease, and performance.

The B.S. in Exercise Science is designed for students planning to pursue graduate study in clinical allied health fields (e.g., physical therapy, occupational therapy, etc.) or subdisciplines of exercise science such as exercise physiology, biomechanics, motor behavior, or ergonomics. The degree provides an introduction to the physical and biological sciences, a concentrated study of the acute responses and chronic adaptations to exercise, laboratory research in exercise science, and course work which fulfills a number of graduate program prerequisites. The curriculum also includes applied work in exercise testing and prescription and is designed to furnish the basic knowledge and skills necessary for students to pursue certification options offered by the American College of Sports Medicine and the National Strength and Conditioning Association. Students must complete the University core requirements in addition to the program requirements of the B.S. in Exercise Science.

Minor in Exercise Science: 22-23 credits**

- **EXSC 241, 241L Human Anatomy and Physiology I** 4 credits
- **EXSC 242, 242L Human Anatomy and Physiology II** 4 credits
- One of the following two courses:
  - **EXSC 202 Essentials of Strength Testing and Conditioning** 3 credits
  - **EXSC 301, 301L Exercise Testing and Prescription** 4 credits
- **EXSC 305 Experimental Research: Methods and Design** 3 credits
- **EXSC 474, 474L Kinesiology** 4 credits
- **EXSC 476, 476L Physiology of Exercise** 4 credits

*Requires a University core requirement

**Please note that BIOL 101 and 101L, CHEM 101 and 101L, MATH 112, MATH 121, and PHYS 101 and 101L are pre-requisites for some of the courses required for the minor.

The minimum acceptable grade in a pre-requisite course for an EXSC course is a "C" or 2.00.

Courses recommended for Exercise Science majors pursuing career paths requiring graduate study:

Because prerequisites for admission to different graduate programs vary, students are advised to obtain the specific prerequisites from programs and schools of interest as early in their academic career as possible.

**Lower Division**

- **EXSC 190 Directed Study** 1-3 credits
  - Topic to be decided by faculty. Fall, spring, summer. By permission from department only.
- **EXSC 202 Essentials of Strength Test and Conditioning** 3 credits
  - Students will review the muscular system before examining basic concepts of technique, design, and organization of a safe and effective strength training program.
  - Students will develop the knowledge necessary to complete the American College of Sports Medicine's Certified Strength and Conditioning Specialist exam. Pre-requisite: EXSC 241 (minimum grade "C").
- **EXSC 224 Nutrition** 3 credits
  - An introduction to the study of the roles of carbohydrates, fats, protein, vitamins, minerals, and water in the diet and the body; and the digestion, absorption, metabolism and storage of these substances.
  - Energy balance and weight control, nutrition and physical activity, and nutrition and disease prevention are also addressed. Spring. Pre-requisite: EXSC 241 (minimum grade "C").
- **EXSC 241 Human Anatomy and Physiology I** 3 credits
  - An introduction to the fundamentals of anatomical and physiological science, emphasizing the role of basic physical and chemical principles in establishing the complementary relationship of biological structure and function. Topics include cells, tissues, muscle tissue, the nervous system, and the endocrine system. Fall. Prerequisites: BIOL 101 (minimum grade "C") and CHEM 101 (minimum grade "C").
- **EXSC 241L Human Anatomy and Physiology Lab I** 1 credit
  - This laboratory covers the gross anatomy of the skeletal and muscular systems as well as neuromuscular physiology. Taken concurrently with EXSC 241. Fall.
- **EXSC 242 Human Anatomy and Physiology II** 3 credits
  - A continuation of EXSC 241. Topics include: the cardiovascular system; the respiratory system; metabolism; body temperature regulation; the urinary system; fluids, electrolyte and acid base balance; and the reproductive system. Spring. Prerequisite: EXSC 241 (minimum grade "C").

**Exercise Science Specializations**

- **EXSC 242L Human Anatomy and Physiology Lab II** 1 credit
  - This laboratory may include coverage of the cardiovascular system, the respiratory system, metabolism, body temperature regulation, the urinary system, fluid, electrolyte and acid base balance, and/or the reproductive system. Taken concurrently with EXSC 242. Spring.
- **EXSC 290 Directed Study** 1-3 credits
  - Topic to be decided by faculty. Fall, spring, summer. By permission from department only.
- **EXSC 301 Exercise Testing and Prescription** 3 credits
  - The relationship among physical activity, fitness, and disease provide the basis for developing a knowledge and understanding of the purposes, methods, and guidelines related to fitness assessment and exercise program design. Students will learn the principles of exercise prescription and how to individualize exercise programs for the purposes of reducing disease risk, improving health and/or fitness, and meeting a client's goals. Fall. Prerequisite: EXSC 242 (minimum grade "C").
- **EXSC 301L Exercise Testing and Prescription Lab** 1 credit
  - Students will earn how to perform and administer multiple field and laboratory tests to assess different components of health-related fitness. Along with EXSC 301, this course will provide students with the knowledge and skills necessary to pursue the American College of Sports Medicine's Health/Fitness Instructor certification exam. Taken concurrently with EXSC 301. Fall.
- **EXSC 302 Exercise Prescription for Special Populations** 3 credits
  - This course extends the content of EXSC 301 to non-traditional clients with special needs and/or physically limiting conditions such as children, the elderly, and those with known disease (e.g., cardiovascular disease, diabetes, obesity, arthritis, cancer, etc.). Therapeutic applications of exercise for various physical conditions will be emphasized. Spring, Even years. Prerequisite: EXSC 301 (minimum grade "C").
- **EXSC 304 Practice in Lab Teaching** 1 credit
  - Students gain experience in the scheduling, directing, and quizzing of Exercise Science laboratory sections. May be repeated with departmental permission. Fall and Spring.
- **EXSC 305 Experimental Research Methods and Design** 3 credits
  - This course introduces students to the research process and peer-reviewed literature in exercise science. It also provides them with the knowledge and skills necessary to understand, interpret, and design experimental research studies. Fall. Prerequisites: MATH 121 minimum grade C, MATH 112 minimum grade C, and EXSC 242 (minimum grade C).
- **EXSC 378 Physiology of Aging** 3 credits
  - An introduction to normal structural and functional changes that occur in the body from cellular to organ-levels over time (with aging). Relevant terminology, methodologies used to study aging, and theories of aging will be covered. Aging-disuse-disease interactions and the effects of physical activity and exercise on the aging process will also be discussed. Spring, Odd years. Prerequisites: EXSC 242 (minimum grade "C") and EXSC 305 (minimum grade "C").
- **EXSC 390 Directed Study** 1-3 credits
  - Topic to be decided by faculty. Fall, spring, summer. By permission from department only.
**EXSC 399 Advanced Topics** 2-3 credits
Elective that can only be taken concurrently with EXSC 399 to gain practical experience directory related to a specific topic in exercise science (e.g., with rehabilitation therapies, special populations, special environments, etc.) when opportunities are available. Prerequisite: EXSC 242 (minimum grade "C").

**EXSC 476L Physiology of Exercise Lab** 1 credit
Laboratory techniques and exercises dealing with the evaluation of physiological capacities involved in exercise: neuromuscular interactions, metabolism, respiration, and circulation. Taken concurrently with EXSC 476. Fall.

**EXSC 478 Human Growth and Maturation** 3 credits
An introduction to human growth (i.e., an increase in size of the body or is parts, including changes in proportions, body composition, motor abilities, etc.) and maturation (timing and tempo of progress toward the mature biological state), and the physiological mechanisms underlying these processes. Impact of biological and physiological changes on physical activity and performance will be addressed. Spring. Prerequisites: EXSC 301 (minimum grade "C") and EXSC 305 (minimum grade "C").

**EXSC 478L Human Growth and Maturation Lab** 1 credit
Laboratory techniques and exercises focused on the analysis of human motion. Basic concepts in cinematography and two-dimensional motion analysis will be covered. Taken concurrently with EXSC 474. Fall.

**EXSC 490 Directed Reading** 1-3 credits
Reading materials will be selected by the student after consultation with a faculty member in the department. Course content will vary with instructor. Course may be repeated to total no more than 6 credits. Fall, spring, summer. By permission from department only.

**EXSC 492 Research Techniques** 1-3 credits
An introduction to some of the experimental techniques used in research in exercise science. Course content will vary with instructor. Course may be repeated to total not more than 6 credits. Fall, spring, summer. By permission from department only.

**EXSC 499 Culminating Experience** 1 credit
Required of all EXSC majors in their senior or final year. Spring.
Bachelor of General Studies (BGS)

Director: Melissa Lowdon, M.A.

Designed for adults and working professionals, the BGS degree is for the motivated student who is age 25 or older. Students in the BGS program are subject to all Gonzaga requirements and policies for a bachelor's degree, with the exceptions of a separate core pattern and the substitution of an area of concentration instead of a major.

BGS Graduation Requirements

Bachelor of General Studies (BGS) degree requires a total of 128 semester credits with a GPA of at least 2.00. The last 30 semester credits prior to graduation must be Gonzaga University courses and taken within the BGS program.

A BGS student chooses an area of concentration rather than a major. BGS students complete a minimum of 21 semester credits in one of the pre-designed concentrations or in an individually designed concentration. Each BGS student develops a personal degree plan in consultation with the BGS advisor. A tuition scholarship is offered for qualified students enrolled in the Bachelor of General Studies degree program.

Policies and procedures for graduation with a BGS degree are the same as for any other Gonzaga undergraduate degree. BGS students are eligible for honors if they meet the standards prescribed by the University. Just as for a major or minor in other Gonzaga schools and colleges, BGS candidates must have a cumulative GPA of 2.00 as well as a GPA of 2.00 in the concentration.

BGS Core Requirements

The BGS core consists of 40 semester credits, 35 of which must be distributed in the categories defined below. The remaining five credits may be in any of the categories below. All students must satisfy the BGS core either by Gonzaga coursework or substantively equivalent transfer courses. Only English composition, mathematics, philosophy, and religious studies core courses are required for BGS students who have earned an AA degree.

1) English Composition (3 credits): A course in written English and composition is required. Gonzaga courses meeting this requirement are ENGL 101 and ENGL 200.

2) Speech (2 credits): A speech course in public speaking is required. BGS students normally will satisfy this requirement by taking Gonzaga courses SPCO 201 or SPCO 101 with departmental permission. Courses that do not emphasize public speaking (e.g., 'Persuasion' or 'Interpersonal and Small Group Communication') do not meet the speech core requirement.

3) Mathematics (3 credits): A course in mathematics beyond intermediate algebra is required in the BGS core. At Gonzaga, any math course with a 100 level or higher meets the requirement. Computer science, business math or social science statistics courses do not meet the math core requirement. Math for elementary teachers only satisfies the core requirement if a student earns a Teacher Certificate in Elementary Education.

4) Natural Science (3 credits): The BGS core requires a course in one of the natural sciences (such as biology, chemistry, or physics). A lab section is not required of BGS students.

5) Social Sciences (6 credits): Two courses must be completed in the social sciences (economics, history, political science, psychology, or sociology).

6) Humanities (6 credits): Two courses must be completed in the humanities (art, English, foreign culture, language, history, music, philosophy, religion, or theatre arts).

7) Religious Studies (6 credits): Two courses are required in religious studies, preferably with one of the two in scripture. To meet the BGS requirement, courses transferred from other institutions must have a religion or theology department code (thus, 'Sociology of Religion' or 'Philosophy of Religion' would not meet the core requirement).

8) Philosophy (6 credits): BGS students must satisfy the philosophy core requirement by completing two philosophy courses, preferably Gonzaga courses PHI 201 and PHI 301 or by transfer. Critical thinking (or logic, rhetoric) does not satisfy the philosophy core.

The BGS Concentration

The BGS concentration consists of a minimum of 21 semester credits. The concentration is individually designed or is selected from one of the pre-designed concentrations. Individually designed concentrations must be approved by the Director of the BGS program and the BGS academic advisor. Concentrations may be interdisciplinary and interdepartmental.

1) There is no minor in General Studies.

2) BGS students complete a concentration which appears on the graduation transcript. The concentration title need not be the name of an academic discipline or department.

3) A BGS concentration is individually designed or selected from one of the pre-designed concentrations and may include undergraduate courses from many of the academic disciplines. Instructor permission may be required of some courses. While concentrations may be interdisciplinary, the advisor, the director of the BGS program, and the Dean of the School of Professional Studies must determine in each case that the concentration has academic coherence and intellectual integrity.

4) Transfer credits may apply toward completion of a concentration. The total number of such transfer courses is determined on a case by case basis. 12 of the 21 credits counted toward a concentration must be taken at Gonzaga.

5) Of the minimum 21 credits counting toward a concentration, 9 of the credits must be taken as upper division courses. Exceptions must be submitted in writing to the Registrar's Office by the Director of the BGS program.

6) A second or third concentration may be earned. The same rules are required for other concentrations as for the first one. The same courses may not be used for more than one concentration.

7) A concentration in a BGS degree as a second baccalaureate degree must meet the above criteria plus these standards:

   a) Courses taken as part of a first degree do not transfer to a second degree.

   b) Courses which satisfy the BGS core but which were taken as part of a first baccalaureate degree at an accredited institution are not repeated.

   c) Waiver forms must be completed and filed with the Registrar for core requirements in philosophy and religious studies which were satisfied as part of a first degree.
d) A concentration as part of a BGS degree as a second baccalaureate may not duplicate a major or minor completed as part of the first degree.
e) No more than nine semester credit units of the concentration may be waived in recognition of relevant elective course work taken as part of a first degree.
f) There is no second degree in BGS with an education concentration.
8) A tuition scholarship is offered for BGS students enrolled in 12 credits or less. Student seeking an education concentration are eligible of a tuition scholarship if enrolled in 18 credits or less. The BGS tuition is in effect only while the student is a BGS student.

Transfer of Credit
University policies on transfer of credit from other accredited higher education institutions generally apply to BGS candidates. However, in recognition of the Northwest Association of Schools and Colleges accreditation guideline XXIV that transfer "policies and procedures should provide maximum consideration for the individual who has changed institutions or objectives," the following criteria apply to transfer of credit for the BGS degree:

1) At the time of admission to Gonzaga, the academic advisor shall complete a transfer evaluation, notifying both the student and the Admissions Office of the specific credits accepted in transfer to Gonzaga.

2) The Dean of the School of Professional Studies or his/her designee may accept up to a maximum of 16 semester credits of coursework which is not otherwise transferable into Gonzaga:
   a) Such credit shall be noted on the student's transcript as "transfer credit accepted toward the BGS degree".
   b) Such credit is not transferable to another Gonzaga school or to another institution.
   c) Such credit cannot meet a core requirement.
   d) Such credit does not count toward the minimum 21 credits for a concentration.
   e) Such credit may include transcripted courses from non-accredited institutions which are determined by the Dean of Professional Studies to be equivalent to college level work, or which the dean determines is appropriate to an individual student's degree and career objectives.

3) No "experiential learning credit" is granted for the BGS degree, nor does such credit on the transcript of another institution transfer into the BGS program.

The BGS and Other Professional Schools
1) No more than one-fourth (32 credits) of a BGS student's total undergraduate credits may be in business administration courses, or in courses normally taught in an AACSB accredited business school. This includes any business credits transferred to Gonzaga from another institution. There is no BGS concentration possible in business programs accredited by AACSB. A BGS student may not take more than 6 credits from any single upper division business field beyond the business core curriculum. Economics and Business Statistics do not count as part of the 32 credits.

2) BGS candidates may simultaneously seek a teacher's credential, provided that:
   a) The student has the approval of the School of Education.
   b) A credential advisor is assigned by the Gonzaga Department of Teacher Education.
   c) Courses taken toward a credential must be part of the student's BGS degree plan.

3) BGS candidates may enroll in engineering courses with the permission of the Dean of Engineering; however, there is no concentration possible in engineering fields accredited by ABET.

BGS Accelerated Program
Director: Melissa Lowdon, M.A.

The BGS Accelerated Program allows transfer students over the age of 25 to complete requirements for a Bachelor's degree. Admission requires a minimum of 56-64 transferable credits from an accredited institution. The BGS Accelerated program consists of eight week sessions with breaks between spring, summer and fall sessions. Students can complete their bachelor degree with courses offered through a combination of Saturday and Internet courses. Completion of this program will result in a concentration in Organizational Leadership (see page 183-184 for ORGL course descriptions). A significant tuition reduction scholarship is offered to each admitted student. Once the leadership concentration requirements have been fulfilled, students can attain a second approved concentration at the accelerated rate of tuition and under the traditional university academic calendar. Students must work with the BGS advisor to develop this additional concentration. All other requirements pertaining to the traditional BGS program must be fulfilled. Students must apply through the Admissions Office after meeting with the BGS advisor for the accelerated program.
Nursing

Chairperson: Mary Sue Gorski
Professors: S. Norwood, M. McFarland
Associate Professor: G. Ray Springer
Assistant Professors: D. Abendroth, S. Berg, C. Fitzgerald, M. Gorski, D. Smith, N. Beckham
Instructors: C. Hollenback, J. Tiedt

Introduction
Grounded in Jesuit and Nursing traditions, the pre-licensure BSN nursing program offered by the Department of Nursing at Gonzaga University focuses on the values of servant leadership, social justice, community and reflective practitioner. The nursing program embraces the framework of Complex Adaptive Systems (CAS) which includes nurses work, nursing roles, complexity of health care, organizations, individuals, families, communities and populations.

BSN Program Outcomes
Upon completion of the program, the graduate will:
Integrate knowledge of research, communication skills, and theory and technological tools to implement the professional nursing roles with and in a complex adaptive system.
Create a therapeutic and collaborative environment that facilitates culturally sensitive healthcare for individuals, families, organizations, communities, and populations.
Assume professional accountability and responsibility through reflective practice, critical thinking, and use of ethical and legal standards of practice.
Promote change in current and future health care practices through the use of servant leadership principles and knowledge of complex adaptive systems.
Promote the nursing profession and advance social justice for the underserved through the use of nursing and Jesuit values.

Program Overview
During their first two years at Gonzaga University, students complete their GU core classes and nursing prerequisites. At the end of their sophomore year, students apply for admission to the upper division nursing program. Admission to the upper division BSN program is competitive and selective. Not all students who apply can be accommodated. Completed applications for admission to the upper division nursing program must be received by the Nursing Department by February 1st for fall admission. Students should meet with a Department of Nursing advisor prior to or upon entering Gonzaga University to ensure proper selection and sequencing of prerequisite courses for the BSN program.

Admission to the BSN program is competitive and selective. Not all who apply can be accommodated. Students will be admitted to the upper division, pre-licensure nursing program once a year. Completed applications for admission must be received by the Department of Nursing by February 1st for fall admission. Students should meet with a Department of Nursing advisor prior to or upon entering Gonzaga University to ensure proper selection and sequencing of prerequisite courses for the BSN program.

The decision to admit a student to the upper division nursing program will be based on the overall portfolio of the applicant that includes the following admission criteria:
1) Completed a minimum of 45 semester credits (meaning that eligible applicants will have completed at least three semesters of coursework).
2) Completed GU nursing prerequisites or be able to complete them by the end of the spring term.
3) A minimum cumulative GPA of 2.90 (4.00 scale) for all attempted coursework.
4) Earned a grade of "C" or better in all nursing prerequisite courses.
5) Pre-requisite nursing courses may have been repeated one time only.

Evaluation Criteria
To be considered for admission to the BSN program, applicants must:
1) Submit a typewritten personal statement addressing the following:
a) Desire for achieving a BSN degree and interest in Gonzaga's nursing program.
b) Professional goals in nursing after graduation.
c) Strengths, leadership, work experiences, community service, and significant accomplishments relevant to your success in the BSN program.
2) Resume (follow format outlined in the application packet).
3) Submit two professional recommendations from people who can attest to the applicant's ability to succeed in nursing school. A form for this purpose is included in the BSN application packet. At least one recommendation must be from a college professor/instructor.

Bachelor of Science in Nursing (BSN) designed exclusively for individuals who have already earned a diploma or associate degree in nursing and are presently licensed as a RN. This program is called the RN-BSN program. The RN-BSN program is designed to meet the needs of working registered nurses in their hometown. The program is offered through a flexible combination of on-campus and distance learning components. Clinicals are arranged through Gonzaga in the student's home community. The program emphasizes individualized advising and can be completed through part-time or full-time study. A BSN degree is awarded from Gonzaga University, and all courses are offered through Gonzaga.

Transfer Student Admission Criteria
Eligible transfer students will be admitted to Gonzaga University and are eligible to apply to the GU nursing major. They must complete GU nursing prerequisites or they must be completed by the end of the spring term in which application is submitted. (Admission to the university does not guarantee progression to the nursing major). To be eligible for admission to the GU nursing major, students:

The Gonzaga University Department of Nursing offers two plans of study to earn a BSN degree:
Bachelor of Science in Nursing (BSN) for individuals seeking initial preparation and licensure as a Licensed Practical Nurse (LPN). Students complete the general education requirements of Gonzaga University and the courses prerequisite to nursing, then apply for admission to upper division nursing courses. They complete the majority of their nursing coursework during the last two years of study.

Instructors: C. Hollenback, J. Tiedt
1) Must meet all Gonzaga University admission requirements for transfer students.
2) Must have a minimum cumulative GPA of 2.90 on a 4.00 scale from all college coursework.
3) Must have a “C” or better in all nursing prerequisite coursework.
4) Must have met algebra proficiency requirement at the community college level either through proficiency testing or completion of an intermediate algebra course.

Transfer applicants from other colleges and universities to the nursing major should note that all credits submitted for transfer approval must have a grade of at least 2.00 on a 4.00 scale, must represent college-level coursework, and must be academic in nature for acceptance by the University.

Students may not transfer more than 64 semester credits or 96 quarter credits from a two year college.

Students transferring to GU with 64 semester credits from a community college may not return to a two year college for any additional transfer credit.

All transfer students must complete at least 30 semester credits at Gonzaga University immediately preceding their graduation from the University.

Bachelor of Science in Nursing

(For Registered Nurses) 128 credits

This program is designed exclusively for registered nurses with a diploma or associate degree in nursing. The central objective of the program is to build upon existing knowledge and expertise to promote a new level of excellence in nursing. The curriculum stresses critical inquiry and analysis in an environment conducive to adult learning. Students apply theoretical concepts and research-based knowledge in a variety of practice settings. The BSN program is accredited by the Commission on Collegiate Nursing Education.

The BSN program is designed to meet the needs of working registered nurses. The program emphasizes individualized advising and can be completed through part-time or full-time study. The program is offered through both on-campus and distance learning formats.

The distance learning (DL) format was launched in 1987 to assist registered nurses living in rural areas and other sites without access to University programs to further their education. The distance learning format is designed to reduce obstacles inherent in traditional educational programs, yet insure quality education. The distance learning format combines a variety of formats including DVD, of actual current class sessions and clinical experiences in geographical locations within reasonable commuting distance to students’ home communities, participation on campus at scheduled intervals each semester, and web-based learning activities. This format allows nurses to continue to reside in their own communities, be active family members, and maintain concurrent employment. A cornerstone of the on-campus program format is non-traditional scheduling of nursing classes to allow continued employment with minimal disruption.

Distinctive features of the BSN program for registered nurses include an emphasis on the Jesuit-inspired values of knowledge, sensitivity, excellence, integrity, and justice; pursuit of humanistic and ethical alternatives to address contemporary nursing and health care problems; critical reasoning; leadership, communication and management skills; integration of theory and clinical practice; on-campus and distance learning formats; and course load individualized according to personal circumstances and program capability.
Admission Requirements
Admission decisions are based upon an applicant's total profile. Selection is based on:
1) Completed University application.
2) An earned diploma or associate degree in nursing from a state approved or nationally accredited nursing program.
3) Current unencumbered Registered Nurse license.
4) Minimum grade point average of 2.25 on a 4.00 scale.
5) Current professional vita.
6) Typewritten statement describing:
   a) Interest in the program and purpose of achieving a BSN degree.
   b) Professional goals.
   c) Strengths.
   d) Professional experiences.
7) Satisfactory letters of reference.

Degree Requirements
The Bachelor of Science in Nursing degree requires a total of 128 semester credits. Many of these credits have already been earned in prior educational experiences and transfer to fulfill several of the degree requirements. Up to 64 semester credits earned in associate degree and diploma programs can be transferred. All credits submitted for transfer approval must have a grade of at least 2.00 on a 4.00 scale. All transfer students must complete at least 30 credits at Gonzaga University immediately preceding graduation from the University. Most registered nurses enter with third year status (60-95 transfer credits).
The BSN curriculum is comprised of four major components. Nursing requirements must be completed within seven years after acceptance into the program. An asterisk (*) denotes requirements that are frequently fulfilled or partially fulfilled with transfer credit. The curriculum is dynamic and changes may occur on a regular basis.

I. Core Requirements: 50 credits
   ENGL 101 English Composition* 3 credits
   SPCO 101 Introduction to Speech Communication* 2 credits
   PHIL 201 Philosophy of Human Nature 3 credits
   PHIL 301 Ethics 3 credits
   PHIL 445 Health Care Ethics 3 credits
   RELI 1XX 3 credits
   RELI 2XX/3XX 3 credits
   NURS 320 Statistics for the Health Care Profession 3 credits
   ENGL 102-106 English Literature 3 credits
   Biological/Life Sciences* 12 credits
   Social/Behavioral Sciences* 12 credits

II. Lower Division Nursing: 28 credits*

III. Upper Division Nursing Requirements: 35 credits
   NURS 335 Professional Concepts I 3 credits
   NURS 340 Professional Communication 2 credits
   NURS 360 Holistic Health Assessment 3 credits
   NURS 365 Client-Centered Health Care 3 credits
   NURS 380 Research Concepts 3 credits
   NURS 400 Systems Concepts in Health Care 3 credits
   NURS 405 Client-Based Health Care Delivery 2 credits
   NURS 411 Systems-Based Health Care Delivery 3 credits
   NURS 435 Professional Issues 3 credits
   NURS 441 Professional Internship 4 credits
   NURS___Nursing Electives 6 credits

IV. Electives* up to 15 credits
   * Nursing or non-nursing courses
Total: 128 credits (including transfer credits)

RN to MSN Program
(for Registered Nurses)
The RN to MSN Program prepares professional nurses with the knowledge, skills, and values essential for advanced nursing practice and leadership in current and evolving future health care systems. The program is grounded in the theme “Leadership in Nursing.” Theory and research in nursing and related fields are integrated to provide a broad base for advanced nursing practice. Graduates may function as nurse practitioners or clinical nurse specialists, managers/administrators, educators, consultants, and/or evaluators/researchers in a variety of specialties and settings.
Particular emphasis is given to meeting the needs of underserved populations. Students taking graduate level courses should consult the Graduate Catalogue for additional policies and procedures.
The RN to MSN Program is designed to meet the needs of working registered nurses. The program can be completed on a full-time or part-time basis and is offered through flexible delivery formats. A cornerstone of the format is non-traditional block and cluster scheduling that allows students to continue employment with minimal disruption. Some courses also include DVD recordings of current campus classes sent to students to view at home. Students complete their clinical experiences at sites within commuting distance from their home community, and participate in on-campus classes at regularly scheduled intervals each semester.

Distinctive features of the RN to MSN Program include a dual emphasis on role preparation and advanced clinical preparation; emphasis on the Jesuit-inspired values of knowledge, sensitivity, excellence, integrity, and justice; the development of critical reasoning and ethical decision-making skills; flexibility; and the ability to earn a master's degree in less time and with fewer credits than would be needed if separate BSN and MSN degrees were earned.

Admission Requirements
Admission decisions are based upon an applicant’s total profile and space availability. Selection is based on:
1) Complete Gonzaga University application for admission.
2) One official transcript from every college and university or nursing school attended with documentation of:
   a) An associate degree in nursing from an accredited college or diploma in nursing from a state approved program.
   b) GPA of 2.75 or other evidence of potential to pursue graduate level study.
3) Photocopy of current unencumbered RN license.
4) Typewritten statement (maximum 500 words) which describe the applicant's:
   a) Interest in the RN to MSN program and what he/she hopes to gain from achieving the RN to MSN degrees.
   b) Professional goals.
   c) Personal and professional strengths.
   d) Professional experiences.
5) Current professional Vita.
6) Satisfactory letters of recommendation from two individuals who can evaluate the applicant's leadership, interpersonal skills, professional practice, critical thinking and judgment, and potential for advanced study (e.g., employer, professional colleague, professor).
7) Satisfactory score on the Miller Analogy Test.

Students are admitted to the program when accepted into the RN to MSN, however, progression into the graduate level courses requires a second review of credentials. Students who have earned a 3.00 GPA in their course work at Gonzaga and have a satisfactory faculty recommendation and MAT score are guaranteed progression.
Degree Requirements
The MSN degree earned through the RN to MSN Program requires a total of 153 credits. Many of the undergraduate credits have already been earned in prior educational experiences and transfer to fulfill several of the degree requirements. Up to 64 semester credits earned in associate degree or diploma programs can be transferred. All credits submitted for transfer must have a grade of at least 2.00 on a 4.00 scale.

(See the Graduate Catalogue for specific program description)

Lower Division
NURS 100 Nursing Perspectives 1 credit
Designed for students who are considering nursing as a career. Exploration of career opportunities in nursing, education options and planning considerations, and facets of nursing. Provides a forum for support and sharing for pre-nursing students at Gonzaga University.
Spring.
NURS 190 Directed Study 1-5 credits
Topic to be decided by faculty.
NURS 200 Professional Nursing Practice in a Complex Adaptive System 3 credits
This course is designed to provide an introduction to professional nursing. It provides an overview of the nature and scope of nursing practice, considering its domain of practice, evolution, opportunities, and context for practice. The definition of nursing, the phenomena of concern to nurses, basis for practice, and models of nursing are explored. This course introduces students to complex adaptive systems (CAS) and their implications for nursing work. The primacy of the caring relationship, from both consumer and provider perspectives, is discussed. The regulation of nursing, with emphasis on professional regulation is discussed. Nursing and Jesuit values and nursing code of ethics as well as servant leadership are emphasized. The demands of care giving and strategies for self-care are examined. Increasing self-awareness and crystallizing personal beliefs and goals for professional practice are stressed.
NURS 210 Growth and Development 3 credits
Examines multiple dimensions of individual and family growth and development across the lifespan. It includes physical, psychological, cognitive, and moral development. Gender and cultural influences are considered.

Upper Division
NURS 310 Complexity of the Health Care System 3 credits
This course focuses on health of individuals within families/communities within a dynamic, contemporary health care system. The impact of social, economic, political, and cultural dimensions are identified and related to healthcare quality.
NURS 311 Professional and Therapeutic Communication 2 credits
This course is designed to provide the learner a theoretical foundation for effective communication. Using the lens of complex adaptive systems and servant leadership, selected models of communication, health and illness, health communication, conflict resolution and negotiation are explored for their implications for nursing practice. Diversity issues affecting perception of health/illness and influencing verbal and nonverbal communication are examined. Media and internet influence on health care and the profession of nursing are included. Theory-based strategies to improve communication skills throughout the health care continuum are stressed.
NURS 313 Pathophysiology and Pharmacology I 2 credits
This course is designed to improve the learner’s ability to understand cellular physiology and alterations in structure and function resulting from the action of stressors on the human body at the cellular level. Physiological, pathophysiological, psychobiological, and pharmacological concepts that provide a foundation for understanding the pathophysiology of disease and the rationale for treatment that serve as a basis for critical thinking and decision making in the planning and managing of care for individuals are examined.
NURS 314 Assessing and Promoting Wellness 4 credits
Development of skills in the health assessment of individuals and families within the context of community using complex adaptive systems as a guiding framework. Theoretical and research-based content in individual and family health and development throughout the life span from a multicultural perspective will be emphasized. Knowledge of functional health patterns and family concepts will be used as a basis to conceptualize problems and plan for care. The nursing role in health promotion and health education will be emphasized.
NURS 315 Practicum I: Provider of Care for Healthy Individuals and Families in Communities 5 credits
Using complex adaptive systems as a guiding framework, students will use knowledge of functional health patterns and family in performing health assessments of individuals and families within the context of community. Theoretical and research-based content in the planning for care of individuals and families throughout the life span are emphasized. Fundamental concepts related to health promotion and health education are discussed. This course celebrates the body, mind, and spirit of the student in nursing and recognizes that learning transforms. In the process of transformation, reflection provides the key to understanding. (15 hrs/week – 240 clinical hours, 2hrs/wk – 32 conference hours).
NURS 320 Statistics for the Health Professions 3 credits
This course provides an introduction to descriptive and inferential statistics. It includes the statistical procedures used most frequently to analyze quantitative group data for health science and nursing research. Emphasis is on the conceptual understanding and correct application of statistical tests and procedures and correct interpretation of results. Some mathematical calculation will be necessary but the ultimate goal will be for the learner to understand statistical reasoning and become an informed consumer of the correct use and interpretation of statistics.
NURS 335 Professional Concepts I 3 credits
Considers the domain of nursing practice and its evolution. Stresses systems theory and the content of health care delivery, as well as ramifications and implications for nursing practice, providers of nursing care, and the profession of nursing. Fall and Spring.
NURS 340 Professional Communications 2 credits
Writing and speaking skills for a variety of professional audiences and situations. Considers information science and technology as vehicle for communication. Stresses interpersonal dynamics in client/nurse, intra professional, and interprofessional relationships. Emphasizes negotiation, collaboration, and conflict resolution. Prerequisites: NURS 335
NURS 350 Complexity within Healthcare Organizations 3 credits
This course addresses organizations as complex work environments that have implications for workplace safety and health care errors. The nursing role in the delivery and maintenance of safe, quality care is emphasized.
NURS 351 Care of Individuals and Families within Healthcare Organization 4 credits
Focuses on the development of nursing competence in planning and managing care for individuals and families with alterations in health status. Stresses the integration of physiological, pathophysiological, psychological, and pharmacological concepts as foundations for professional nursing practice. Emphasis is placed on continued development of focused assessment skills needed to provide care of individuals and families with health care needs related to the reproductive, urinary tract/renal, musculoskeletal, and digestive systems.

NURS 352 Practicum II: Care of Individuals and Families within Healthcare Organizations 5 credits
Focuses on the provision of care for individuals and families with health care needs related to the reproductive, urinary tract/renal, musculoskeletal, and digestive systems. Emphasis is placed on the development of self-discovery and the meaning of experience as a reflective practitioner. Students participate in learning activities in the Learning Resource Center, in a variety of clinical settings within healthcare organizations, and in post-clinical conferences.

NURS 353 Pathophysiology and Pharmacology II 2 credits
This course is designed to extend the learner's ability to understand cellular physiology and alterations in structure and function resulting from the action of stressors on the human body at the cellular level. Physiological, pathophysiological, psychobiological, and pharmacological concepts that provide a foundation for understanding the pathophysiology of chronic, complex disease and the rationale for treatment and that serve as a basis for critical thinking and decision making in the planning and managing of care for individuals are examined.

NURS 360 Holistic Health Assessment 3 credits
Integrated approach to assessment of health status of individuals and families taking into consideration lifespan similarities and differences. Emphasizes diagnostic reasoning and clinical decision-making. Stresses implications for care delivery. Spring. Prerequisites: NURS 335 and NURS 340

NURS 365 Client Concepts in Health Care 3 credits
Focuses on planning and managing care for individuals. Stresses physiological, pathophysiological, psychobiological and pharmacological concepts. Emphasizes cellular and bio-chemical processes. Spring. Prerequisite: NURS 335

NURS 380 Research Concepts 3 credits
Introduction to quantitative and qualitative research principles and methodologies, including evaluation of research studies and application to practice. Emphasizes critical analysis of nursing and health care research. Stresses research design, sampling, data collection strategies, and ethical considerations in research.

NURS 400 Systems Concepts in Health Care 3 credits
Focuses on planning and managing care for families, groups, communities, and aggregates. Stresses epidemiological concepts, population-based care, evidence-based practice, policy development, program planning and evaluation, and integration of financial considerations with client management. Fall.

NURS 401 Designing, Managing and Coordinating Health Care in Complex Adaptive Systems 3 credits
This course analyzes the role of the nurse in designing, managing, and coordinating health care for individuals, groups, and communities in a complex adaptive system.

NURS 402 Care of Individuals and Families with Acute Exacerbations and Chronic Alterations in Health Status 4 credits
Focuses on the continued development of nursing competence in planning and managing care for individuals and families with complex alterations in health status. Stresses integration of physiological, pathophysiological, psychological, and pharmacological concepts as essential to professional nursing practice. Emphasis is placed on development of focused assessment skills needed to provide care of individuals and families with health care needs related to the cardiovascular, neurological, endocrine, pulmonary and renal mental health systems.

NURS 403 Practicum III: Care of Individuals and Families with Acute Exacerbations and Chronic Alterations 6 credits
This course focuses on the providing care for individuals and families with chronic and complex health care needs related to the cardiovascular, neurological, endocrine, pulmonary, renal, and mental health systems. Examines internal resources (such as faith or spiritual health) as a source of nourishment when making decisions—especially those involving ethics, urgency, reaction, and immediacy. Students participate in learning activities in the Learning Resource Center in a variety of clinical settings within healthcare organizations, and in post-clinical conferences. (18hrs/week – 228 clinical hours, 2hrs/wk – 32 conference hours).

NURS 404 Research and Information Management 3 credits
Provides an introduction to quantitative and qualitative research principles and methodologies, including evaluation of research studies and application to practice. Critical analysis of nursing and health care research is emphasized. Stresses research design, sampling, data collection strategies, and ethical considerations in research.

NURS 405 Client-Based Health Care Delivery 2 credits
Clinical practice emphasizing planning, delivering, managing, and evaluating cost effective quality care of individuals in a variety of settings. Emphasizes intra- and interdisciplinary collaboration and supervision. Prerequisite: NURS 365, 380B. Fall, Spring, Summer - On sufficient demand.

NURS 411 Systems-Based Health Care Delivery 3 credits
Clinical practice emphasizing planning, delivering, managing, and evaluating cost effective quality care for individuals, groups, and communities, and aggregates in a variety of settings. Emphasizes interdisciplinary collaboration and evidence-based practice. Prerequisite: NURS 335, 340. Prerequisite or concurrent: NURS 380B, 400. Fall, Spring, Summer, on sufficient demand.

NURS 430 Dying With Dignity 2-3 credits
Emphasizes psychological, spiritual, and socio-cultural aspects of death and dying in various situations encountered by nurses. Considers variations across the age span and perspectives in caring for individuals, families, and groups. Stresses identification of own values, attitudes, and feelings regarding death and dying to prepare self to assist others.

NURS 435 Professional Concepts II 3 credits
Prerequisites: NURS 405 and NURS 411

NURS 437 Exercise and Health 2-3 credits
Analyzes impact of physical activity and inactivity on health and disease. Examines physiological changes occurring in cardiovascular conditioning, utilization of metabolic measures in assessment of exercise response, physiological limitations to exercise, and benefits and risks of various types of exercise for selected patient populations. Stresses strategies for devising exercise programs for selected patient groups.
NURS 441 Professional Internship 4 credits  
Prerequisites: NURS 405 and NURS 411 and NURS 435  

NURS 450 Policy and Political Action 2-3 credits  
Prerequisite: 300-Level Nursing  

NURS 460 (WOMS 460) Women's Health 2-3 credits  
This course will address a broad range of health issues that are either unique to women or of special importance to women.  

NURS 463 Geriatric and Long Term Care Nursing 2-3 credits  
This course will have two distinct elements presented in discrete modules: The geriatric pharmacological principles and the comprehensive geriatric assessment. Pharmacological principles specific to the elderly individual will be discussed including alterations in drug clearance, adverse reactions, drug interactions, and polypharmacy. Each of the pharmacological principles will be discussed as they relate to the elderly in the community as well as those in long term care settings. The second component of the course is comprehensive geriatric assessment. Normal aging changes will be presented as a foundation for the discussion of common diseases, abnormalities, and symptomatology in the elderly population. There will be an emphasis on physical and functional assessment with appreciation for expected decline, quality of life and ethical principles.  

NURS 465 Professional Nursing Practice within a Complex Adaptive System 3 credits  
Considers nursing leadership roles within a CAS and examines transition to the professional role. Servant leadership principles are connected to nursing leadership.  

NURS 466 Community and Populations as Clients 4 credits  
This course focuses on planning and managing care for families, groups, communities, and populations. From a community perspective, epidemiological concepts, population-based care, program planning and evaluation are analyzed. Ethical and financial considerations of community health care are addressed.  

NURS 467 Practicum IV: Provider of Care for Communities and Populations 3 credits  
Clinical practice emphasizing planning, delivering, managing, and evaluating cost effective quality care for families, groups, communities, and aggregates in a variety of settings. Emphasizes interdisciplinary collaboration and evidence-based practice. (9hrs/week-144 clinical hours, 1hrs/wk-16 conference hours).  

NURS 468 Practicum V: Member of the Nursing Profession 3 credits  
This capstone course is designed to assist students to synthesize knowledge and skills gained in the Bachelor of Science in Nursing (BSN) program and to apply their knowledge and skills in a clinical setting of choice. It provides the opportunity to practice nursing leadership roles within a CAS and examines transition to the professional role. The analysis of reflective practice glean patterns of insight to support a safe, client centered, and high quality practice. This course aligns the interface between reflection and effective, ethical, leadership. The course mirror is servant leadership. (9hrs/week – 144 clinical hours, 1hrs/wk – 16 conference hours).  

NURS 473 Legal Tort and Malpractice 2-3 credits  
NURS 480 Writing For Publication 2-3 credits  
Examines the process of writing and marketing articles for professional publication. Considers each step from conception through publication. Includes preparation of manuscript for submission.  

NURS 485 Diabetes Management 2-3 credits  
This on-line course offers BSN and MSN students an opportunity to develop competence in on-going management of patients with diabetes mellitus in a variety of healthcare settings. Students will explore strategies for incorporating disease state management models into clinical practice. Management of medication and blood glucose monitoring, goal setting, motivational strategies, teaching/educational techniques, reducing the incidence of long-term complication will be emphasized. Course content will include current pharmacological principles and selection of oral agents and insulin therapies.  

NURS 490 Clinical Internship 3 credits  
Assists nurses in period of transition from nursing student to registered nurse or from one practice setting to another. Adaptation to role transition fostered through preceptorship with expert clinical RN and through interaction with faculty. Opportunities to both practice and master current knowledge and skills and acquire new ones.  

NURS 492 Independent Study 1-5 credits  
Opportunity to pursue a nursing project or topic of choice with guidance of a faculty member.  

NURS 495 Senior Capstone 3 credits  
This course is designed to provide baccalaureate nursing students preparing to graduate the opportunity to integrate and synthesize their total nursing program into a comprehensive whole that will guide their practice as professional nurses. Opportunities are provided for each student to reflect upon his/her educational experiences-- both theory and clinical, focus professional goals, and collaborate with course faculty to identify activities to strengthen identified areas of need. The unique perspectives of Jesuit nursing are examined. Increasing self awareness, articulating personal and professional beliefs and values, developing a personal model for nursing and crystallizing future professional plans are stressed. Prerequisites: NURS 415, NURS 450 and NURS 476.  

NURS 496 Independent Practicum 1-4 credits  
Opportunity to explore a clinical field or an expanded nursing role with guidance of a faculty member and a clinical preceptor.  

NURS 498-499 Special Topics 1-3 credits  
Seminars designed to address special topics in nursing and health care, based on student and faculty interests. Prerequisite: Permission from department. Fall, spring, summer - On sufficient demand.  

The course descriptions above give a brief overview of the curriculum and suggest how the content builds over four semesters. A more detailed view of the content intended for each course as well as the expected skills and clinical experiences by semester, ACN BSN Essentials and WAC requirements can be obtained directly from the Nursing Department.
The Department of Organizational Leadership offers a unique BGS concentration through the BGS Accelerated program. The Organizational Leadership concentration lays the foundation for the development of leadership abilities applicable to diverse organizational settings. Learning opportunities encourage self-appraisal, exploration, and development of leadership potential.

Upper Division

ORGL 400 Leadership Theory 3 credits
This course provides an overview of basic leadership theory, including trait, behavior, situation, power, and transforming and servant leadership. Special emphasis is given to integrative vision and shared leadership.

ORGL 401 Leadership Practice 3 credits
This course provides an overview of basic leadership skills, including successful organizational diagnosis, organizational architecture, and use of power, change processes, and approaches to motivation. Special emphasis is given to methods of empowerment and collaboration.

ORGL 402 Organizational Behavior 3 credits
This course provides an examination of the interface between organizations and human behavior, addressing issues such as learning, motivation, communication, personality, job satisfaction, and leadership and groups will be discussed.

ORGL 403 Organizational Change 3 credits
This course provides an overview of change theories applied to individuals, groups, and organizations.

ORGL 404 Organizational Development 3 credits
This course will explore the understanding of organizational behavior, using the concept of framing for the purposes of organizational improvement. Understanding change process and specifically focusing on resistance to change as it impacts organizational reform.

ORGL 405 Supervision and Evaluation 3 credits
This course is an examination of the dynamics of supervision and evaluation within a variety of leadership situations.

ORGL 407 Leadership and Change 3 credits
This course is an examination of the dynamics of individual, group, and organizational change.

ORGL 410 Leadership and Art 3 credits
This course provides an examination of leadership through the perspectives of the liberal arts, specifically fine arts. Special emphasis is given to the role of imagination in the fine arts as a metaphor for leadership imagination.

ORGL 411 Leadership and Music 3 credits
This course provides an examination of leadership through the perspectives of the liberal arts, specifically music. Special emphasis is given to the role of imagination in the creation of music as a metaphor for leadership imagination.

ORGL 412 Leadership and History 3 credits
This course provides an examination of leadership through the perspectives of the liberal arts, specifically history. Special emphasis is given to the role of imagination in the analysis of historical events as a metaphor for leadership imagination.

ORGL 413 Leadership and Literature 3 credits
This course provides an examination of leadership through the perspectives of the liberal arts, specifically literature. Special emphasis is given to the role of imagination on the writing process as a metaphor for leadership imagination.

ORGL 414 Leadership and Science 3 credits
This course provides an examination of leadership through the perspectives of the liberal arts, specifically science. Special emphasis is given to the role of imagination in scientific method as a metaphor for leadership imagination.

ORGL 420 Leadership and Values 3 credits
This course provides an introduction to the nature and dynamics of the creative processes involved on leadership and organizational life.

ORGL 421 Leadership and Imagination 3 credits
This course provides an examination of the interface between the individual and communal search for truth and the vocation of the organizational leader.

ORGL 422 Servant Leadership 3 credits
This course provides an examination of the ethical and legal responsibilities of people in organizations toward society and individuals.

ORGL 423 Leadership and Health 3 credits
This course provides an introduction to the need and importance of health and health care issues from personal, social, cultural, political, and economic viewpoints, with a focus on personal and community-wide health concerns as they relate to broader health care policy issues.

ORGL 431 Conflict and Negotiation 3 credits
This course provides an examination of the causes, types, benefits, and management of conflict in a variety of organizational situations with a focus on the difference between constructive and destructive conflict.

ORGL 432 Political Action 3 credits
This course provides an examination of the need and strategies for influencing systems and policies, both formally and informally, with a focus on lobbying, using the media, building coalitions, and handling opposition.

ORGL 433 Technology and the Organization 3 credits
This course provides an exploration of various technologies and an analysis of how they can affect individual productivity, communication, education, social interaction, and other facets of individual organizational life.

ORGL 434 Community Building 3 credits
This course provides an introduction to the need and strategies for building community in civic, organizational, and small group settings.

ORGL 435 Supervisory Ethics and Law 3 credits
This course is an examination of the ethical and legal issues facing leaders in a variety of situations.
ORGL 436 Economics and Leadership 3 credits
The course is designed for community and organization leaders to achieve an enhanced understanding of economics. Basic economic principles and current economic trends are explained by application to community and organizational settings. The effects of globalization and national economic policies on families, organizations, and communities are examined.

ORGL 437 Women and Leadership 3 credits
This course is designed to facilitate a discussion around the dynamics of women in leadership roles in variety of settings, but primarily in the for-profit business sector. Students will gain a stronger understanding of feminine leadership styles and attributes and their effectiveness in the workplace. Power, political, economic, gender and family issues that impact a woman's ability to gain access to leadership positions will be discussed.

ORGL 440 Organizational Administration 3 credits
This course provides an overview of the theory and methods of program administration in a variety of organizational settings.

ORGL 441 Organizational Supervision 3 credits
This course provides an overview of the theory and methods of employee supervision in a variety of organizational settings.

ORGL 442 Fiduciary Responsibility and Leadership 3 credits
This course provides an overview of the theory and analytical techniques of financial decision-making in a variety of organizational settings, with a focus on the role of the leader in resource allocation.

ORGL 443 Organizational Evaluation 3 credits
This course provides an overview of the key elements of high performing teams in a variety of organizational settings.

ORGL 444 Organizational Teams 3 credits
This course provides an overview of the key elements of high performing teams in a variety of organizational settings. Prerequisites:

ORGL 445 Team Building and Leadership Intensive 1 credit
This highly interactive intensive course is designed to increase students knowledge and understanding of leadership and team development through a combination of information sessions and active participation in cooperative challenging activities.

ORGL 445B Advanced Team Building and Leadership 1 credit

ORGL 445C Team Building and Leadership III 1 credit

ORGL 446 Organizational Planning 3 credits
This course provides an overview of concepts and strategies for strategic planning and change in organizations.

ORGL 449 Career Planning 3 credits
The basic purpose of this course is to educate students on principle elements of career development and provide an opportunity for students to learn how to maneuver and develop the necessary skills that will assist in all areas of life/career planning.

ORGL 450 Leadership Practicum 3 credits
This integrative course examines leadership practices in contemporary situations, using actual leadership experience as the focus of critical seminar discussions.

ORGL 490 Readings in Leadership 1-5 credits
Selected readings in leadership

ORGL 491 Special Topics in Leadership 1-3 credits
Selected topics in leadership studies.

ORGL 497 Leadership Internship 1-3 credits
This course provides a student with a supervised and evaluated experience in an organizational setting. Student must fill out “internship” forms to register.

ORGL 498 Leadership Capstone Seminar 3 credits
The capstone provides an integrative experience of the theory, methods, and questions of organizational leadership.

Summer Session

Gonzaga University's summer session for the College of Arts and Sciences, School of Engineering and Applied Science, MATESL, and the School of Professional Studies is administered by the School of Professional Studies. Courses available during the various summer terms are designed to meet diverse student interests and needs. Offerings range from doctoral to graduate to undergraduate, credit to non-credit, and traditional to innovative. More detailed information on the courses available and alternative session terms may be obtained from the Office of the Dean of the School of Professional Studies or the Registrar. Admission to or attendance at a summer session neither presupposes nor implies acceptance into a degree program.

Students from other colleges and universities have an opportunity to take summer session courses at Gonzaga that may not be available to them at their home campus or fulfill requirements that can be transferred to that institution. Gonzaga undergraduate students may take classes that meet core curriculum requirements and other courses required for their degree programs. Graduate students will typically find several classes applicable to their program of study and in some instances will find complete academic programs offered in the summer session. Attendance in graduate-level courses for summer students who have not been accepted into a Degree Program requires permission from the appropriate department chairperson. Courses, institutes, and workshops are also available to students who are interested in continuing their education. Select courses are offered on-line in the summer.
University Courses

The University offers courses that are not subject to any one discipline, college, or school, but recommended for all students. Students are encouraged to participate in these courses which elaborate on essential parts of University life.

Lower Division

UNIV 099 Strategies for Success 1 credit
This course is for selected students who find themselves on Academic Probation or are not in good Academic Standing. This course is a creative and dynamic mechanism by which students can assist themselves back into good academic standing. UNIV 099 is a requirement for students in need of academic intervention, as determined by the Committee on Academic Standing. Students who are required to take the course will be registered automatically and notified of the course in an individualized letter. Fall and Spring.

UNIV 104 Gonzaga Pathways 1 credit
An introductory course for first-time freshmen seeking to understand why this Jesuit University is distinctive, where its roots are, what its resources and opportunities are, and how to use them effectively. Pathways provides the speedy connection of the academic, spiritual, and social life of Gonzaga through readings, discussions, and activities relating to leadership, ethics, diversity, and mission. Fall.

UNIV 109 University Writing for International Students 3 credits
Designed to prepare non-native English speaking undergraduate students for ENGL 101, the focus of the course is on standard academic writing, with an emphasis on note-taking, library research, reference materials, and other outside resources. Content material will address orientation to American university study, educational standards, and expectations. Four major (5-7 pages) papers are required: compare/contrast, classification, expository, and research/argumentation. Other writing assignments will be determined by the instructor.

UNIV 110 Step Basics 1 credit
STEP (UNIV 110) requires admission to program; no Zagweb registration.

UNIV 110L Step Basics Lab 1 credit
Taken concurrently with UNIV 110.

UNIV 115 The Strategy of College 1 credit
An introductory course for first-time college students interested in honing academic strategies such as note and test-taking, study habits, reading and writing efficiency, and a knowledge of university resources. Students spend time in readings and reflective writing, in combination with major/area of interest and career assessment instruments in an effort to maximize opportunities and academic success in college. Summer.

UNIV 116 Strategy of College Lab 1 credit
This course is a two-day outdoor teamwork leadership experience designed to be taken concurrently or separately from UNIV 115, and is exclusive to GUST students. This intensive program is designed to increase the student’s knowledge and understanding of leadership and team development through a combination of problem solving sessions and active participation in an outdoor environment. Summer, on sufficient demand.

UNIV 120 ACE: First Word of Knowing 0 credit
This course focuses on self-knowledge and the practical significance of knowing self as a multicultural being, as a leader, and as a community activist and the notion of a Medicine Wheel or the framework for analyzing the four dimensions of what it means to be a human being. Therefore, particular emphasis is placed on students discovering and developing the physical, emotional, mental and spiritual dimensions of their multicultural leadership style. Fall.

UNIV 121 ACE: Second Word of Knowing 0 credit
This course focuses on content knowledge associated with the sociological, psychological, pedagogical and spiritual issues in diversity education. Students examine the socio-political context of diversity and social justice issues. Particular emphasis is placed on studying the nature and causes of prejudice, oppression, identity politics, stereotyping, privilege and power. ACE students are introduced to effective practices in intercultural competency, equity education and intervention strategies. Prerequisite: UNIV 120.

UNIV 200 ACE: Third Word of Knowing 0 credit
This course focuses on the facilitation knowledge concerning how to effectively implement group process consultation techniques in diversity training environments. Particular emphasis is placed on how to lead a group discussion that is inclusive, encourages reflective discernment, and provides an opportunity for transformative thinking. Prerequisite: UNIV 121.

UNIV 201 ACE: Fourth Word of Knowing 0 credit
This course focuses on the practical knowledge critical to becoming a servant leader in diversity education. Students are given the opportunity to learn how to plan, organize, implement, and evaluate a cultural educational campus-based event. ACE students are also given a field internship experience in the Spokane community. The internship is designed to provide a hands-on experience with assisting in facilitating a diversity training program. These internships occur in partnership with local businesses, schools, governmental agencies, community-based social service agencies and faith communities. Spring. Prerequisite: UNIV 200.
The Hogan Entrepreneurial Leadership Program is a four-year undergraduate concentration founded on the Jesuit educational philosophy of educating the whole person. Its purpose is to prepare students to create new ventures that make a positive difference in society. This student-centered program is designed for promising individuals who demonstrate academic excellence, leadership, creativity, and a commitment to serve others. The Hogan program embraces students from all academic majors, tailoring the entrepreneurial curriculum and co-curriculum to complement the students' major fields of study, and providing them with the concepts, tools, and experiences to responsibly create successful new commercial and social enterprises.

Four features distinguish the program:
1) Honors program model that attracts outstanding students.
2) Rigorous concentration combined with any major.
3) Immersion in entrepreneurial contexts.
4) Foundation on Jesuit educational ideals of ethical leadership and commitment to the common good.

Admission to the Hogan Entrepreneurial Leadership Program is competitive based on the student's entrance exam scores, grade point average, and demonstrated leadership, creativity, and service to others.

Requirements

Students in the Hogan Entrepreneurial Leadership Program complete the requirements for a bachelor's degree in business, engineering, the arts and sciences, or education, along with a concentration in entrepreneurial leadership. Students must satisfy the University and college core curriculum relevant to their major. Note: business administration majors do not need to fulfill the six credit integrative/experiential requirement for the major, because these types of courses are integral to the Entrepreneurial Leadership concentration.

The Hogan Program curriculum is designed flexibly so that students with any major can graduate in four years. Waivers and substitutions for department requirements may be granted to meet special academic needs. In addition, the University waives the fees for credits in excess of the usual eighteen-credit per semester limit, provided the student is in good academic standing, as defined by the Hogan Program's Performance Policy.

In addition to the course work below, entrepreneurial leadership students participate in a variety of co-curricular activities introducing them to entrepreneurial organizations, leaders, and practices. These activities include regular lectures by entrepreneurs, site visits, internships, mentor relationships, New Venture Lab, and business plan competition. Students are expected to participate in these co-curricular activities and events.

The following course requirements for the Entrepreneurial Leadership concentration amount to 20 credit hours for business administration majors and 26 credit hours for all other majors.

First Year
- ENTR 101 The World of Entrepreneurship 2 credits
- One of the following three courses * 2 credits
  - ECON 200 Economic Analysis
  - (for non-business majors)
  - ECON 201 Microeconomics (for any major)
  - ECON 270H Honors Economics (for any major)

* These count towards core social science requirements for arts and sciences majors. Can be taken in second year if necessary.

Second Year
- ENTR 201 Seminar in Entrepreneurship 1 credit
- ACCT 260 Principles of Accounting I * 3 credits
- ACCT 261 Principles of Accounting II * 3 credits

* Engineering students take ACCT 263 Accounting Analysis (3 credits) in lieu of ACCT 260 and ACCT 261. All non-business majors have the option of taking ACCT 263 in lieu of ACCT 260 and ACCT 261 and are encouraged to do so.

Third Year
- ENTR 490 New Venture Creation 6 credits
- ENTR 497 Internship 0-3 credits

Fourth Year
- ENTR 494 Incubation Project 5 credits
- ENTR 481 Entrepreneurial Leadership 3 credits

Students are encouraged, but not required, to take an applied ethics course to fulfill their 400 level PHIL core requirement. Examples include PHIL 443, PHIL 444, PHIL 446, PHIL 452, PHIL 453, PHIL 455, PHIL 457, PHIL 458, PHIL 460, PHIL 462, PHIL 470.

Lower Division
- ENTR 101 The World of Entrepreneurship 2 credits
- An introduction and overview of the world of entrepreneurship including an introduction to economics, the role of society and government, legal and ethical issues, fundamentals of entrepreneurship, creating and managing new ventures in the commercial or non-profit sectors, and the various functional areas of business. Students prepare a business plan as part of the requirements. This course substitutes for BUSN 101 for business and accounting majors. Fall.

- ENTR 201 Seminar in Entrepreneurship 1 credit
- A seminar in entrepreneurship that builds on concepts presented in ENTR 101 and examines the theoretical and empirical foundations of creating and managing new ventures. It also focuses on ethical issues in creating and growing new ventures. Students prepare a feasibility analysis for a commercial or social enterprise as part of the course requirements. Fall. Prerequisite: ENTR 101.

Upper Division
- ENTR 481 Entrepreneurial Leadership 3 credits
- A capstone course that examines the personal characteristics of the successful entrepreneur and the fundamentals of ethical leadership. The course emphasizes the critical need for entrepreneurs to understand themselves and how they can contribute to the common good. Spring. Senior standing.

- ENTR 490A New Venture Creation 1 credit
- This segment of the course focuses on marketing research and planning for new ventures. Topics include: idea generation, estimation of demand, segmentation analysis, competitor analysis, using secondary and primary data in marketing research, and marketing strategies for new ventures. Fall. Prerequisite: ENTR 201.
ENTR 490B New Venture Creation 1 credit
This segment of the course focuses on financial analysis and management of new ventures. Topics include: capital budgeting, time value of money, net present and future value, cash flow, risk/return, valuation, and approaches to financing new ventures. Fall. Prerequisite: ENTR 490A.

ENTR 490C New Venture Creation 1 credit
This segment of the course focuses on computer modeling tools that can be applied to creating and managing new ventures. Topics include: spreadsheet modeling of the start-up costs and future operations planning, pro forma analysis, cash flow analysis, and project management. Spring Prerequisite: ENTR 490B

ENTR 490D New Venture Creation 3 credits
This course integrates material from ENTR 490A, 490B, and 490C, and includes the following topics: organizational life cycle, industry analysis, entrepreneurial strategy, creating and sustaining a competitive advantage, attracting and maintaining an effective leadership team, and managing growth. Summer Session I. Prerequisites: ENTR 490A, 490B, and 490C

ENTR 494A Incubation Project 2 credits
First semester of an applied incubator experience in which students apply entrepreneurial concepts and analytical tools to the creation of an actual new commercial or social venture. Students can develop their own project or work on projects for local incubators or entrepreneurs. The end result of this project is to produce a fundable business plan. Fall. Senior Standing.

ENTR 494B Incubation Project 3 credits
Second semester of an applied incubator experience in which students apply entrepreneurial concepts and analytical tools to the creation of an actual new commercial or social venture. Students can develop their own project or work on projects for local incubators or entrepreneurs. The end result of this project is to produce a fundable business plan. Spring. Senior Standing.

ENTR 495 New Venture Lab 1-3 credits
This experiential course provides "hands-on" experience in developing ideas for new commercial and/or social enterprises. Students work on teams to develop their own or other entrepreneurs' ideas. Projects typically include feasibility analysis, market research, and business planning. Students receive one credit for each 60 hours worked in the New Venture Lab. Course requirements include keeping a journal, completing assigned project tasks, and submitting a final report detailing learning outcomes. This course counts towards the experiential requirement for business majors. Open to any major at the University (for Hogan Program students and those not in the Hogan Program). Fall, Spring, Summer. Prerequisites: BUSN 101, ENTR 101 or ENTR 491 is preferred. Junior standing and permission of instructor are required.

ENTR 497 Internship 0-3 credits
An approved internship is required for completion of the concentration in entrepreneurial leadership. The ideal internship allows the student to apply concepts and analytical tools from the curriculum in an entrepreneurial context. Approved internships consist of a minimum work requirement of 180 hours and completion of a written report summarizing the learning experience. Junior standing.
The Honors Program

Director: Tim Clancy, S.J.

For fifty years Gonzaga University has offered a challenging and inspiring four-year honors curriculum for academically gifted, and highly motivated students who desire to discover and develop their calling.

Academics
The program consists of two parts: annual honors colloquia and honors seminar sections for much of the general core curriculum. The honors colloquium classes introduce students to interdisciplinary study in areas of concrete interest and value.

The freshman colloquium introduces students to issues of class, race, gender and sexual orientation. The course includes a twenty hour service learning component in one of these four categories. In class students learn the social genealogy of each category, hear from a local activist how the category appears in the Spokane area and watch and discuss a movie that tackles some of the issues involved.

The sophmore colloquium is a multimedia, interdisciplinary course on American Christianity, particularly as it is practiced in the United States. This course runs in tandem with the sophomore honors religion seminar. Both classes are taught by a priest, the director, and a professor from the religious studies department.

The junior colloquium involves a study of philosophical issues surrounding electronic culture. In the senior colloquium the student writes an interdisciplinary honors thesis. Each student works with a mentor chosen by the student. The thesis is then publicly presented in April to fellow students in the program.

The second part of the academic program consists of a number of honors seminar sections of core classes. They break down as follows:

Philosophy: There are four honors philosophy seminars mirroring the general philosophy core: Phil 102H, Phil 201H, Phil 301H and finally a senior honors philosophy seminar (Phil 489H). The topic for the senior seminar varies from year to year.

Literature: There are three honors literature seminars: a two semester history of western literature, ENGL 103H, and ENGL 104H and ENGL 206H whose content varies from semester to semester, but focuses either on a period or a genre.

Math and Science: One honors science course is required in addition to a laboratory science and one semester calculus (Math 157).

Social Science: Two social sciences courses from psychology, political science, sociology or economics;

History: One of the two required history courses must be an honors seminar in American history.

Religious Studies: There are honors seminars offered for two of the three religious studies requirements: RELI 110H and 215H Christian Diversity.

Fine Arts Honors Students are required to take 6 credits in music, art or drama, 3 of which may be performance credits.

Speech: There is an honors Rhetoric seminar (SPCO 270H).

Foreign Language: Two year college proficiency in a modern language or one year in classical Greek or Latin.

Honors students are also strongly encouraged to spend a semester abroad (typically in their junior year). The Honors program has a wide experience with a number of study abroad programs catering to every possible field of interest, including engineering, the physical sciences and business.

Student Life
One of the most popular features of the Honors program is Hopkins House, where students can rest and relax, gather in study groups and take many of the honors classes. Hopkins has a warm living room, kitchen and the director's office on the first floor; an electronic seminar room and two study rooms with computers on the second floor and a third study area and an entertainment center in the attic. Hopkins has five computers with high speed internet connections available for student use, as well as copier, scanner and fax capabilities. Hopkins is also wireless so that students can connect their own laptops to the internet from anywhere in the house.

The Honors program also sponsors a number of social outings. This begins with a weekend away in early September to begin to know one another, followed by progressive dinners, a Christmas party, and a second weekend away in the spring. All this is funded through a lab fee for the honors colloquia. This lab fee and books are offset by a $500 annual honors scholarship.

A hallmark of the program is its emphasis on leadership and service. Many continue their service learning in the freshman year to engage in a wide array of volunteer opportunities. Upon graduation, a sizable number of students end up deciding to enter the Jesuit Volunteer Corps and other service programs before heading off to graduate school. Honors students are awarded their diploma's with a special honors designation and are granted special recognition at commencement ceremonies.

Admission
Approximately twenty members of the entering freshman class are accepted into the program. Acceptance is based on test scores, high-school rank, extra-curricular interests and involvements, independent intellectual achievement, skill in effective expression, letters of recommendation, personal interview, and the quality of the essay on the Honors application form. For more information one can contact the Honors program office at 509-323-6702.

Lower Division
HONS 190 Freshman Honors Colloquium 3 credits
For Honors students.

HONS 290 Sophomore Honors Colloquium 3 credits
For Honors students. Prerequisite: HONS 190.

Upper Division
HONS 390 Junior Honors Colloquium 3 credits
For Honors students. Prerequisite: HONS 190.

HONS 490 Senior Honors Colloquium 3 credits
For Honors students. Prerequisite: HONS 190.

HONS 497 Honors Leadership Internship 1-3 credits
Internship requires completion of a form, and department permission and cannot be registered for via Zagweb. For Honors students. Prerequisite: HONS 190.
The mission of Gonzaga-in-Florence is a direct extension of the mission of Gonzaga University as a humanistic, Catholic, and Jesuit community of higher education. Since 1963, Gonzaga-in-Florence primarily serves junior undergraduates in a year long core program and welcomes both Gonzaga and non-Gonzaga students. While the program is designed as a full year academic study abroad experience, fall and spring semester options are available, although space is limited.

The city of Florence, long recognized as the intellectual and artistic center of both the Middle Ages and the Renaissance, was also the student home of Saint Aloysius Gonzaga. Its libraries, museums, churches, and monuments provide today’s students with unique opportunities for understanding the forces which shaped European civilization. The program is located in the heart of the old city near the University of Florence. Housing is provided for students in nearby Italian boarding hotels.

While proficiency in the Italian language is not a requirement for acceptance into the general Florence program, students are required to complete two semesters of Italian either before leaving for Florence or while in the year long program. Students are strongly encouraged to study Italian before going to Florence as this will allow a much smoother transition into Florentine life.

Academic Program: Designed as a junior year abroad, the courses offered in this program cover a wide range of subjects in business and the humanities including: art history, drawing, economics, English literature, fresco, medieval and Renaissance history, beginning through advanced Italian language, philosophy, political science, sculpture, sociology, and religious studies, as well as business courses such as management, marketing, finance and business law. Courses offered in Florence can be found in the departmental listings for Italian Studies and in individual departments where Florence courses are so noted. Students and their advisors should consult the Study Abroad Office in Spokane for specific courses offered each year in Florence. Gonzaga students should work closely with their academic advisors during their freshman and sophomore years to ensure that they will be able to fully utilize the Florence courses in order to complete their degree requirements within four years. The Florence faculty is composed of professors both from Gonzaga and from Italian universities in Florence and in Bologna. Classes are held Monday through Thursday. In order to supplement and enrich the academic and cultural experience, optional organized three-day weekend trips are offered throughout the program.

Financial Information: The basic cost includes:

1) A $500 deposit, applied to program charges but otherwise non-refundable.
2) The Opening Tour in September through Germany, Austria, and northern Italy.
3) Tuition, room, board (breakfast every day and seven other meals per week), and general fees in Florence.
4) The Christmas Tour, including transportation, lodging, and most meals. Basic charges do not cover transportation to or from Europe, books, medical insurance, or personal expenses.

Study Abroad

Director: Wanda L. Reynolds
Tel: 509.323.3549
Email: studyabroad@gonzaga.edu
Website: www.gonzaga.edu/studyabroad

Gonzaga University encourages students to enhance their undergraduate program with a summer, semester, or academic year of international study. Studying outside of the United States allows students to immerse themselves in other cultures and better appreciate the diversity of peoples throughout the world. In this unique learning environment, students often develop proficiency in other languages, become familiar with new customs and beliefs, and gain access to great historical monuments and works of art. While abroad, students also have a unique opportunity to reflect upon the United States and its traditions from a new perspective. Students return transformed.

Studying abroad is highly regarded by both educators and employers and is seen as a strong indication of intellectual curiosity and emotional maturity. Students who acquire foreign language proficiency are especially esteemed and sought after by graduate schools, businesses, and organizations of all kinds. Gonzaga University offers a variety of study abroad opportunities for qualified students. Sponsored programs include a full year of study at Gonzaga-in-Florence or Gonzaga-in-Paris and various semester programs in British West Indies, Costa Rica, London, The Netherlands, Oxford, Spain, Mexico, China, and Japan. Usually designed for participation during the junior year, these programs differ in admission requirements, location, course offerings, emphasis on language proficiency, and housing arrangements. In addition, there are a variety of sponsored summer programs available after freshman year. Program charges are listed under "Financial Information" in this catalogue.

Students are encouraged to start planning for studying abroad at the beginning of their freshman year. Course lists for each Gonzaga program are available in the Study Abroad Office. By working with the Study Abroad Office and their academic advisor early in their college career, students are able to select programs appropriate to their personal interests and major.

The Study Abroad Office regularly updates materials on approved programs, and maintains an extensive library of other study abroad opportunities. In addition, the Office provides orientation and support services to students going overseas.

All students planning to study abroad, whether through a sponsored or non-sponsored program, must apply through the Study Abroad Office or designated director and have the approval of the director of study abroad. For additional information or a copy of the individual program brochures, please visit the Study Abroad Office and check the website.

SPONSORED PROGRAMS:

Gonzaga-in-Florence Program

Florence Dean: J. Patrick Burke, Ph.D.
Website: http://www.gonzaga.edu/gonzagainflorence

The basic cost includes:

1) A $500 deposit, applied to program charges but otherwise non-refundable.
2) The Opening Tour in September through Germany, Austria, and northern Italy.
3) Tuition, room, board (breakfast every day and seven other meals per week), and general fees in Florence.
4) The Christmas Tour, including transportation, lodging, and most meals. Basic charges do not cover transportation to or from Europe, books, medical insurance, or personal expenses.
Gonzaga-in-Florence Summer Program
The Gonzaga-in-Florence summer program is an excellent opportunity for anyone who has completed their freshman year to have a fascinating European experience. The program begins in mid-May with an Opening Tour (location varies), followed by six-weeks of course work ending in late June. Selected Florence faculty and Gonzaga professors are invited to teach art, history, philosophy, religion, and business. Other subjects depend on the expertise of visiting faculty. An Italian language course is provided, with all other classes in English. Classes are four days per week allowing ample travel time. Guided weekend trips are offered. The program fee includes the Opening Tour, tuition for two courses, housing in Italian hotels, and some meals.

The London Centre Program
The London Centre offers either a fall or spring semester of study right in the heart of London. The program, which includes courses in history, political science, sociology, art, theatre and English literature, is enriched with weekly field trips and frequent nights attending the London theatre. In order to fully experience British culture, students are housed in private homes in and around London. The minimum grade point average for selection is 3.00. The London Centre program is coordinated by ILACA, a consortium arrangement of five Northwest institutions including Pacific Lutheran University, University of Portland, University of Puget Sound, Willamette University, and Gonzaga. Gonzaga is the chief academic sponsor. Students outside the consortium are also recruited for the program.

Granada Program
A fall or spring semester in Granada, Spain is available through the ILACA consortium (see London) with preference given to Spanish majors. Classes are held at the University of Granada’s Centro de Lenguas Modernas, and are taught entirely in Spanish. A Spanish placement test determines which courses students are allowed to select. The semester begins with orientation and a group excursion to Madrid. Students have full university privileges and access to libraries, study areas, sports, cultural and recreational services, and other activities. Home stays are selected from families who live on an economic level which provides a relatively comfortable standard of living and modern home facilities. All meals are provided. Students are required to have a 3.00 grade point average and two letters of recommendation, as well as the equivalent of 5 semesters of college level Spanish.

Gonzaga-In-Paris Program
Gonzaga offers a one-semester or one-year program in Paris. Students interested in developing fluency in French take courses at the Sorbonne or the Catholic Institute and can receive 15 to 30 credits. Courses include language, French civilization, the arts, music, and much more, and are taught in French by professors from the Academy of Paris. Two full years of college-level language preparation are required to enter this program. This strong academic program leads to fluency, but it is also a program which promotes travel through France and Europe. Students interested in the program should start taking French in their freshman year. They will receive complete financial and academic information in their first semester at Gonzaga. Apply through the Modern Languages Department.

School for Field Studies Programs
The School for Field Studies programs provide opportunities for students to gain “hands-on” field work experience in science throughout the world. Students may apply for either a summer session, fall or spring semesters at the following sites:
- The British West Indies at The Center for Marine Resource Studies
- Australia at The Center for Rainforest Studies in Queensland
- Baja, Mexico at The Center for Coastal Studies
- Costa Rica’s Central Valley at The Center for Sustainable Development Studies

The cost of each program pays for instruction, room and board, and ground transportation during the course. It also covers group equipment, medical supplies, scientific instruments and material. It does not include transportation to and from the departure point. Admission requires prerequisite courses and permission. Apply through Study Abroad.

The Beijing Center
This Jesuit program, known as The Beijing Institute of Language and Culture, is sponsored by Loyola University Chicago and offers a unique mix of study and travel in China. Humanities and business courses are taught by professors trained in the U.S. education-based adventure. Program trips take students to places of historic and cultural significance where few travelers ever visit. Except for the Chinese language, all courses are taught in English. One year of Chinese is required. Students choose either a semester or full-year option. Apply through Study Abroad.

Casa de la Solidaridad Program
This Jesuit program, sponsored by Santa Clara University, offers an intense fall or spring semester of study in San Salvador, El Salvador. Students may attend during either their junior or senior years. Courses in literature, language, politics, religion, and selected other disciplines emphasize a community service component. Candidates are selected by a committee and must have extensive community service experience and two years of college level Spanish. Apply through Study Abroad.

Brazil Exchange Program
Gonzaga University, through a shared three-year grant (2006-2008) from the U.S. Department of Education, is participating in a student exchange program focused on environmental research. The grant involves a consortium of three U.S. Jesuit universities and two Brazilian universities including Gonzaga, Regis University in Denver, the University of San Francisco, and the Brazilian institutions Universidade Federal Minas Gerais and Universidade Federal de Alagoas. The project will send three Gonzaga students each year to Brazil in July 2006, July 2007 and July 2008. The goal of the program is to increase intercultural exchange and improve postsecondary education by making grants to institutions in support of reform and innovation. The Gonzaga students, who will attend a Brazilian university and conduct research in Brazil from July to mid-December, need not have a particular major but must have taken a year of Portuguese, have a strong science background, and be prepared to do environmental research. For more information, contact Gonzaga biology Professor Hugh Lefcourt. Apply through Study Abroad.
Service Learning

Erasmus Exchange Program
This fall or spring semester exchange program between Erasmus University in Rotterdam, The Netherlands and Gonzaga University began in 2006. The courses, taught in English, focus primarily in political science, but other options are available. For more information, contact Gonzaga political science Professor Laura Brunell. Apply through Study Abroad.

Sophia Exchange Program
Gonzaga University and Sophia University in Tokyo exchange three students for either a semester or full year. Except for language classes, all courses are taught in English and include many liberal arts and business options. Students pay tuition at their home campus; room and board is paid at the exchange university and students live in dormitories or with Japanese families. Gonzaga students must have one year of college-level Japanese to be accepted. Apply through Study Abroad.

Cuernavaca Summer Program*
The Summer Spanish Intensive Program in Cuernavaca, Mexico offers two three-week sessions for Gonzaga students beginning in late May and ending in early July. Classes, taught by Mexican instructors, include Mexican art, history, literature, anthropology, politics, and all levels of Spanish. Guided tours to various sites of historic interest are an integral part of the program. A resident director from Gonzaga's Spanish program accompanies the students and monitors their academic performance. The program cost includes tuition, room and board with Mexican families, and tours. Students must have a 3.00 cumulative grade point in all of their University course work. Apply through the Spanish department of modern languages.

Literary London Summer Program*
This five-week program operates May – June and is lead by selected faculty from Gonzaga or other universities. The combination of upper division English literature courses with excursions in greater London and beyond provides a unique opportunity for English majors.

Teaching in Tuscany (TESOL Summer Institute in Florence)*
Students enroll in a four credit course which explores past and current methods and materials used in teaching languages to non-native English speakers during a two-week language camp designed for EFL students. Apply through the English Language Center.

*Operation of these programs is dependent upon minimum enrollment and they may not operate on a yearly basis.

Research indicates that service learning participants achieve higher levels of academic excellence (grading and degree aspirations) than do non-participants. It reveals that service reinforces and strengthens learning and that learning reinforces and strengthens service. Students learn to fulfill unmet needs in the community as well as have cross-cultural experiences.

The service learning program is guided by the Service Learning Advisory Board, comprised of interested faculty and staff. The Office of Service Learning operates under the umbrella of the Center for Community Action and Service Learning and provides resources for students and faculty, placements in the community, and a network of campus and community connections.
The Military Science program at Gonzaga University is an element of the United States Army Reserve Officers' Training Corps (ROTC). This highly decorated and nationally recognized program is a cooperative effort between the U.S. Army, Gonzaga University, and Whitworth University. It provides training and qualification for leadership positions in the Regular Army, the U.S. Army Reserve, or the Army National Guard. Qualified students earn a commission as an Army Second Lieutenant while achieving a college degree in the academic discipline(s) their choosing. Cadets incur no obligation during their first two years of ROTC and are not members of the U.S. Army (unless they are ROTC scholarship winners). Lower-division courses are open to all Gonzaga students, but the associated leadership labs and physical fitness courses may be restricted if students are in a participating rather than enrolled status.

The objectives of the program are to prepare academically and physically qualified scholar/athlete/leaders for the challenge of serving as commissioned officers in the world's best Army. To that end, the program strives to build leaders of character and competence to serve their country and community.

Description of the Program

The program meets the country’s requirement for officer-leaders in the Army (active duty, National Guard, and reserves). It is, therefore, multifaceted, with distinctive sub-elements to meet individual needs and requirements. For example, ROTC is traditionally a four-year program, but individuals with prior service, members of reserve or National Guard units, participants of JROTC in high school and summer Leaders’ Training Course (LTC) participants may receive advanced-placement credit and may complete the program in two years. Normally, all students enroll in one military science class, leadership laboratory and the Military Physical Fitness course per semester. The program consists of two phases: the basic course (lower division), normally taken during the freshman and sophomore years or completed through advanced-placement credit, and the advanced course (upper division).

Basic Course

First-year and second-year courses, MILS 101, 102, 201, and 202, designed for beginning students who want to qualify for entry into the advanced course and for those students who may want to try military science without obligations. In addition to their academic requirements, basic-course cadets may participate in a variety of extracurricular activities. Placement credit for the basic course may be granted to students who have completed initial entry training for the armed forces, three years of Junior ROTC in high school or the ROTC leaders’ training course. MILS 101 and 102 concentrate on fundamental skills, concepts, values, and problem solving and provide an overview of how the military fits into society. MILS 201 and 202 more thoroughly address problem solving, critical thinking, communications and conflict-resolution skills.

Advanced Course

The advanced course consists of MILS 301, 302, 401, and 402. It is open only to students who have completed the basic course or earned placement credit (see above).

Students must also enroll in leadership labs (301L, 302L, 401L, or 402L) and Military Physical Fitness (303, 304, 403, or 404). Students also attend the five-week ROTC Leader Development and Assessment Course (LDAC) during the summer between their junior and senior years. In addition to their academic requirements, advanced-course cadets provide student leadership for the Gonzaga Bulldog Battalion. Completion of the basic course, advanced course and LDAC, coupled with a bachelor's degree from the college, qualifies the cadet for a commission as a Second Lieutenant in the United States Army.

Financial Assistance

Advanced-course students receive a subsistence allowance. Junior cadets receive $450 a month for up to 10 months and senior cadets receive $500 a month for up to 10 months. Freshman and sophomore cadets who are on scholarship and contracted will receive $300 and $350 a month, respectively, for up to 10 months each year.

Scholarships: Freshman-level and sophomore-level students may compete for Army ROTC campus-based scholarships. These scholarships are applied to tuition and fees plus an allowance for books. A student need not be enrolled in ROTC to be eligible to compete for two-year or three-year scholarships. No commitment is made until a scholarship is accepted, the student meets all administrative and physical criteria, and the oath for contracting is administered. High-school seniors interested in applying for a four-year scholarship normally submit applications by January 1st of their senior year.

Fees, Uniforms, and ROTC Texts:

A lab fee is the only fee associated with participation in the ROTC program. Uniforms, text, and other equipment are furnished without charge. Students are responsible for and must return all government property issued to them.

Extracurricular Activities

Color Guard: The Gonzaga University Color Guard participates in a variety of school and civic functions where precision drill or presentation of the U.S. flag is appropriate. Intramural Sports: The ROTC program sponsors teams that participate in flag football, volleyball, basketball, softball and other sports of the Gonzaga University intramural leagues. The program sponsors special event teams at both Gonzaga and Whitworth and sponsors cadet intramural teams as coordinated by the Gonzaga cadets with the professor of military science.

Special Qualification Training: Advanced-course and select basic-course cadets may participate in confidence-building courses such as Air Assault School, Airborne School, Northern Warfare Training Center, and Cadet Troop Leadership Training at locations around the world.

Lower Division

MILS 101 Leadership and Personal Development 3 credits Develop self-confidence and review basic life skills of fitness and communication through team study and activities in basic drill, physical fitness, rappelling, leadership reaction courses, team-building exercises, first aid, giving presentations and basic rifle marksmanship. Learn fundamental concepts of leadership, including organization and role of the Army, Army values, and expected ethical behavior in a profession, in both classroom and outdoor laboratory environments. Weekly requirements: three hours for class and a required leadership lab, MILS 101L, plus required participation in a minimum of three one-hour sessions for physical fitness (MILS 103). Participation in all off-campus exercises is required.
MILS 101L, 102L, 201L, 202L Leadership Laboratory 3 credits
Open only to (and required of) students in the associated Military Science course. Learn and practice basic skills. Gain insight into the ROTC’s advanced course in order to make an informed decision about whether to apply. Build self-confidence and team-building leadership skills that can be applied throughout life. Prerequisite: permission of the professor of military science.

MILS 102 Introduction to Tactical Leadership 3 credits
Learn and apply principles of effective leading. Reinforce self-confidence through participation in physically and mentally challenging exercises with upper-division ROTC students. Develop communication skills (including active listening and feedback skills) and examine factors that influence leader and group effectiveness to improve individual performance and group interaction. Practice basic skills that underlie effective problem solving. Examine the officer experience. Weekly requirements: three hours for class and a leadership lab, MILS 102L, plus required participation in a minimum of three one-hour sessions for physical fitness (MILS 104). Participation in all off-campus exercises is required.

MILS 103, 104, 203, 204 Physical Military Fitness 1 credit
Intensive military physical-fitness program designed to raise the level of individual physical fitness to its highest potential, with emphasis on the development of an individual fitness program and the role of exercise and fitness in one’s life. Participate in and learn to lead a physical-fitness program. Prerequisite: permission of the professor of military science.

MILS 190, 191 Directed Readings 3 credits
Incorporates readings in a variety of subject areas such as military history, leadership development, basic military skills, and related topics. Prerequisite: permission of the professor of military science.

MILS 201 Innovative Team Leadership 3 credits
Learn and apply ethics-based leadership skills including communication, feedback, and conflict resolution that develop individual abilities and contribute to the building of effective teams of people. Develop skills in problem solving, critical thinking, oral presentations, writing concisely, planning of events, and coordination of group efforts, advanced first aid, land navigation and basic military tactics. Learn fundamentals of ROTC’s Leadership Development Program. Weekly requirements: three hours for class and a leadership lab, MILS 201L, plus participation in a minimum of three one-hour sessions for physical fitness (MILS 203) and in two mandatory weekend exercises.

MILS 202 Foundations of Tactical Leadership 3 credits
Challenge current beliefs, knowledge, and skills. Prepare for the ROTC advanced course with an introduction to individual and team aspects of military tactics in small-unit operations. Includes use of radio communications, making safety assessments, movement techniques, planning for team safety/security, and methods of pre-execution checks. Practical exercises with upper-division ROTC students. Learn techniques for training others as an aspect of continued leadership development. Weekly requirements: three hours of class and a leadership lab, MILS 202L, plus participation in a minimum of three one-hour sessions for physical fitness (MILS 204) per week and two mandatory weekend exercises.

MILS 290, 291 Directed Readings 3 credits
Incorporates readings in a variety of subject areas such as leadership assessment, comparative military systems, basic military skills, and related topics. Prerequisite: permission of the professor of military science.

Upper Division

MILS 300 Ranger Challenge 1 credit
ROTC’s “varsity sport,” designed to familiarize students with the tactical and technical aspects of the professional soldier through hands-on training. Enhance leadership traits and build teamwork skills in an exciting and competitive atmosphere. The competition includes a 10k ruck-sack run in combat gear or forced march, building a one-rope bridge, a grenade assault course, M-16 rifle marksmanship, orienteering or military land navigation, a physical-fitness test and weapons assembly. Prerequisite: permission of the professor of military science.

MILS 301 Tactical Leadership 3 credits
A series of practical opportunities to lead small groups and receive personal assessments during execution of the Leadership Development Program in situations of increasing complexity. Analyze military missions and plan military operations using squad and small-unit battle drills and tactics and opportunities to plan and conduct training for lower-division students, both to develop skills and to function as vehicles for practicing leadership. Analyze the role officers played in the transition of the Army from Vietnam to the 21st century. Weekly requirements: three hours for class and a required leadership lab (MILS 301L) plus required participation in a minimum of three one-hour sessions for physical fitness (MILS 303) per week and two mandatory weekend exercises. Prerequisite: permission of the professor of military science.

MILS 301L, 302L, 401L, 402L Leadership Laboratory 1 credit
Open only to students in the associated Military Science course only. Involves leadership responsibilities for the planning, coordination, execution and evaluation of various training activities with basic-course students and the ROTC program. Students develop, practice and refine leadership skills by serving and being evaluated in a variety of responsible positions. Prerequisite: permission of the professor of military science.

MILS 302 Applied Leadership 3 credits
Develop cadet leadership competencies. Prepare for success at National Advanced Leadership Camp: analyze tasks, prepare written or oral guidance for team members to accomplish tasks, delegate and supervise tasks, and plan for and adapt to the unexpected while under stress. Examine importance of ethical decision-making in setting a positive climate that enhances team performance and accommodates subordinate spiritual needs. Weekly requirements: three hours for class and a required leadership lab (MILS 302L), plus participation in a minimum of three one-hour sessions for physical fitness (MILS 304) per week and two mandatory weekend exercises. Prerequisite: MILS 301.

MILS 303, 304, 403, 404 Military Physical Fitness 1 credit
Open only to (and required of) students in MILS 301,302,401,402, of which this program is an integral part. Participate in, plan and lead physical-fitness programs. Develops the physical fitness required of an officer in the Army. Emphasis on the development of an individual fitness program and the role of exercise and fitness in one’s life. Prerequisite: permission of the professor of military science.

MILS 390,391 Directed Readings 1-3 credits
Incorporates readings in a variety of subject areas such as leadership dynamics in small units, offensive and defensive tactics, and studies in leadership characteristics and traits. Prerequisite: permission of the professor of military science.
MILS 395 Leader Development and Assessment  3 credits
A five-week leadership practicum conducted at an active Army installation. Open only to (and required of) students who have completed MILS 301, 302. The student receives pay. Travel, lodging and most meal costs are defrayed by the U.S. Army. The advanced-camp environment is highly structured and demanding, stressing leadership at small-unit level under varied, challenging conditions. Individual leadership and basic skills performance are evaluated during the camp. The leadership and skills evaluations at the camp weigh heavily in the subsequent selection process that determines the type of commission and job opportunities given to the student upon graduation from ROTC and the college. Prerequisite: MILS 301, 302 and permission of the professor of military science.

MILS 401 Developmental Leadership  3 credits
Plan, conduct and evaluate activities of the ROTC cadet organization. Understand and execute staff organization, functions, and processes by articulating goals and putting plans into action to attain them. Assess organizational cohesion and develop strategies to improve organization, including leader responsibilities and methods of counseling. Develop confidence in skills to lead people and manage resources, examine principles of subordinate motivation and organizational change. Apply leadership and problem-solving principles to a complex case study/situation. Weekly requirements: three hours for class and a required leadership lab (MILS 401L), plus participation in a minimum of three one-hour sessions for physical fitness (MILS 403) and two mandatory weekend exercises. Prerequisite: MILS 302 and permission of the professor of military science.

MILS 402 Adaptive Leadership  3 credits
Examine leader responsibilities that foster an ethical command climate. Refine counseling and motivating techniques. Examine aspects of tradition, law, and legal aspects of decision making and leadership. Prepare for a future as a successful Army lieutenant by performing platoon-leader actions, analyzing the Army organization for operations from the tactical to strategic level, and assessing administrative and logistics management functions. Discuss reporting and PCS functions. Weekly requirements: three hours for class and a required leadership lab (MILS 402L), plus participation in a minimum of three one-hour sessions for physical fitness (MILS 404) and two mandatory weekend exercises. Prerequisite: MILS 401 and permission of the professor of military science.

MILS 490,491 Directed Readings  1-3 credits
Incorporates readings in a variety of subject areas to prepare the cadet to become an officer. Prerequisite: permission of the professor of military science.

Graduate Programs

Gonzaga University offers graduate degree programs in the following academic areas:

College of Arts and Sciences
- Master of Arts in Philosophy
- Master of Arts Religious Studies
- School of Business Administration
- Master of Business Administration
- Master of Business Administration/Bachelor of Science in Engineering
- Master of Business Administration/Juris Doctor
- Master of Accountancy
- Master of Accountancy/Juris Doctor
- School of Education
- Master of Arts Anesthesiology Education
- Master of Arts in Leadership and Administration
- Master of Arts in Sports and Athletic Administration
- Master of Arts in Community Counseling
- Master of Arts in School Counseling
- Master of Arts in Counseling (site based)
- Master of Initial Teaching
- Master of Arts in Teaching
- Master of Education in Literacy
- Master of Education in Special Education
- Master of Educational Administration
- Principal/Superintendency Certification Program
- School of Professional Studies
- Master of Arts in Communication and Leadership
- Master of Arts in Organizational Leadership
- Master of Science of Nursing
- Doctor of Philosophy in Leadership Studies
- English Language Center
- Master of Arts in Teaching English as a Second Language

Although graduate study involves a quantitative extension of knowledge, it is not a mere continuation of undergraduate or professional training. Intellectual achievement at the graduate level is different in kind, for the graduate student is expected to deepen and master knowledge by a personal and independent grasp of it in its sources and evidence, in its basic meanings and interrelationships.

In addition to offering the previously noted graduate degrees, the Academic Vice President may periodically approve a new or interdisciplinary graduate degree within an academic specialty. For detailed information on any graduate program, such as curriculum, tuition and admission procedures, students should consult the graduate catalogue and contact the academic area responsible for that specific graduate program.
Comprehensive Leadership Program

Director: Josh P. Armstrong, Ph.D.
Program Coordinator: Katie Herzog

The Comprehensive Leadership Program (CLP) at Gonzaga University is a program designed to offer students curricular and co-curricular learning opportunities to develop knowledge and skills for leadership. The CLP fosters the development of men and women who lead for the common good. The program offers a unique scholarly environment that provides transformational and reflective student experiences focused on three dimensions: self-awareness, relationships with others, and community action for the common good. Students participate in this undergraduate leadership studies program in conjunction with the major they have chosen.

The courses and activities are organized around three distinct dimensions:

- **Leadership in the Context of Self-Identity:** Construction of a personal definition of leadership on the basis of knowledge of self, exploration of lives of leaders and the acquisition of concepts in formal academic leadership theory.

- **Leadership as Relationship:** Development of knowledge and skills in key leadership areas including empathy, cross-cultural communication, influence and conflict resolution.

- **Community Action for the Common Good:** Building upon a foundation of leadership and service, this theme involves options such as mentoring opportunities, community and campus-based servant leadership activities and academic coursework.

The CLP consists of a set of six academic courses and a series of co-curricular leadership opportunities. First-year students are invited to apply to the CLP in the fall of their freshman year, with approximately forty students admitted into the program within a given academic year. The introductory course, LDRS 220, begins in the spring semester of the freshman year with students taking one course per term through their senior year. In addition to the coursework below, CLP students participate in a variety of co-curricular activities designed to complement the classroom leadership experience. These include: A Leadership Conversation with CLP, Annual Leadership Seminar (fall), Annual Two-Day Leadership Retreat (spring), CLP Spring Break Service Trip, Twohy Hall Leadership Living/Learning Community, Zambia Servant-Leadership Summer course, and Leadership Internship program. To fulfill the CLP requirements, a student must complete the following courses:

- **LDRS 220 Introduction to Leadership**
- **LDRS 320 Foundations of Leadership and Teams**
- **LDRS 321 Dynamics of Leadership**
- **LDRS 330 Profiles in Leadership**
- **LDRS 489 Leadership Seminar**
- **LDRS 440 Servant Leadership**

**Lower Division**

**LDRS 220 Introduction to Leadership** 1 credit

This course is designed to serve as an introduction to the dynamic and growing field of study in leadership. Through discussion, lecture, research, readings and activities students will review basic myths and principles of leadership, trait theory, great man theory, the role of self-understanding in effective leadership, the notion of relational leadership, ethics, power, and learn some basic leadership skills in groups. Students will be responsible for crafting their own leadership model that reflects the material covered in the course. Spring, freshman year.

**Upper Division**

**LDRS 320 Foundations of Leadership and Teams** 1 credit

This course focuses on leadership as relationships emphasizing the development of key leadership skills including (a) communication, (b) empathy and emotional intelligence, (c) conflict management, (d) team building and team leadership, and (e) vision and goal setting. The course will also emphasize continued student engagement with the following leadership models: (a) charismatic leadership and female approaches to leadership, (b) transformational and transactional leadership, (c) situational leadership, and (d) servant leadership. Fall, sophomore year.

**LDRS 321 Dynamics of Leadership** 1 credit

This course is designed to be a practical application of previous course work in leadership. The focus of this class is on developing key leadership skills such as managing conflict, team building, group decision making and communication. Students will study group dynamics involving gender and other diversity topics. The class will include exercises, simulations, case studies and discussion, designed to give students opportunities to practice and develop leadership skills. Spring, sophomore year.

**LDRS 330 Profiles in Leadership** 1 credit

Using the context of historical leaders, this course is designed to answer the question, "What is it that makes someone a leader?" Students will examine various leadership theories such as trait theory, charisma, methods of influence, and other appropriate areas of leadership study. Examining the lives of various historical leaders students will develop an analysis of the key themes and traits that capture the essence of the individual being studied. Fall, junior year.

**LDRS 440 Servant Leadership** 2 credits

This course is designed to expose students to Greenleaf’s concepts regarding servant leadership. The course is an inquiry into the nature and dynamics of servant leadership, and includes a focus on the concepts of empowerment, collaboration and dialogue. Through study, self-awareness and mentoring, students will grow to be future servant leaders within the community. Students will model servant leadership by creating and/or participating in an on-campus or community project. Fall, senior year.

**LDRS 489 Leadership Seminar** 1-3 credits

Electives will be offered by faculty on a yearly basis based on student learning objectives and faculty expertise. Elective courses may include such courses as Outdoor Leadership, Service and Leadership, Leadership Internship, Student Leadership and Governance, and Leadership Instruction. Elective options will be available fall semester prior to spring registration and are open to all undergraduate students. Fall and spring.

**LDRS 490 Independent Study** 1-3 credits

**LDRS 497 Leadership Internship** 1-2 credits

This course is designed to give students a hands-on experience in leadership. The course affords students the opportunity to use the skills and knowledge learned through the CLP in a real-world internship context. The course materials covers theories behind experiential education, mentorship and internship education. The class time allows opportunity to process and reflect on the students’ internship experience.
The School of Law

Dean: Earl F. Martin

Gonzaga University School of Law was established in 1912 by the Trustees of Gonzaga University with the active support of many prominent members of the bench and bar in Washington State. The School of Law has produced many exceptional lawyers. It is fully accredited by the American Bar Association, which entitles Gonzaga School of Law graduates to take the bar exam in any state. The School of Law is also a member of the Association of American Law Schools.

Objectives of Gonzaga University School of Law

Gonzaga School of Law belongs to a long and distinguished tradition of humanistic, Jesuit education. The school is committed to preserving that tradition and communicating it to the students. Accordingly, the School of Law seeks to challenge its students to incorporate knowledge of the past with the innovations of the present in order to better serve society. The education and development of the whole person is emphasized and an effort made to instill in the students a strong commitment to social justice and to encourage them to assume personal responsibility for and take individual initiative in the betterment of society.

The school recognizes its responsibility not only to the students, but also to the public and to the legal profession. As a result, the School of Law endeavors to graduate attorneys who, as capable problem-solvers, will be able to translate their thoughts into effective, productive action on behalf of their clients. Toward this end, an emphasis is placed on providing students with personal, individual attention. One of the school's greatest strengths is the dedication and commitment the faculty and staff. Gonzaga takes pride in providing students with a quality legal education which includes practical, hands-on experience that will ease their transition from the academic world to the world of legal practice.

Full and Part-Time Programs

The School of Law offers a full-time, three-year, 90 semester credit degree along with a part-time, four- or five-year, 90 semester credit degree. Flexible scheduling allows working students to successfully balance their legal education with their personal and professional lives. Of the 90 units necessary for graduation, 44 are required: the remaining units may be selected from electives and seminars. All degree credits must be completed within five years of matriculation.

Curriculum

Gonzaga's legal education program is deliberately and delicately balanced. The rigorous, rounded curriculum focuses on legal analysis, problem-solving, values, and ethics. Equally important is the emphasis on practical experience enabling students to develop real-world lawyering skills. As a complement to this innovative approach to legal education, the School of Law offers concentrations in public interest law, environment/natural resource law, and business law (including tax law). Other elective courses include labor law, family law, criminal law, international law, and civil liberties.

Dual Degree Programs

The School of Law and the Graduate School of Business offer dual-degree programs leading to the Juris Doctor/Master of Business Administration (JD/MBA), and the Juris Doctor/Master of Accountancy (JD/MACC). These programs train attorneys with a business background to provide skilled leadership in the sophisticated and challenging world of modern business transactions. Application must be made to the Graduate School of Business as well as to the School of Law.

There is also a JD/MSW dual-degree program which is designed to prepare law and social work professionals to practice either profession competently, and to enable them to use this unique amalgamation of skills in new and enriched ways. This four-year program (three years for students with “Advanced Standing” in Social Work) will lead successful students to a J.D. from Gonzaga University School of Law, and a Master’s in Social Work from Eastern Washington University. Graduates of the JD/MSW dual-degree program will be skilled professionals who can make significant contributions in areas such as public benefits, mental health services, children’s services, services for people with disabilities, education, elder law and services, and public health. The program meets all applicable American Bar Association and Council on Social Work Education accreditation guidelines. Admission to the JD/MSW program is highly selective, and is currently limited to a maximum of four students per year. Students must apply and be admitted to both Gonzaga University School of Law and the Eastern Washington University School of Social Work, and must meet each school’s established admissions criteria. This includes qualifying scores on standardized tests, such as the Law School Admissions Test (LSAT). A candidate's application must be approved by both institutions before they are considered for this dual-degree program.

Center for Law and Justice

Gonzaga School of Law also offers its students the opportunity to practice law while in school. Rule 9 of the Washington State Bar Association allows students who have completed two years of course work (60 semester credits) to practice law under the supervision of a licensed attorney. Clinical experiences are available through an on-campus clinic and through externship offerings in legal settings such as criminal prosecution and defense, child dependency, juvenile court, and legal services work. On-campus clinical offerings include a general practice clinic and specific subject area clinics in family law, criminal defense, elder law, and tax law.

Physical Facilities and Library

Rising from the banks of the beautiful Spokane River, the Gonzaga Law Center, which opened in May 2000, provides a stunning setting for research and learning. The law center offers a variety of classroom and library environments which support today’s interactive teaching methods. Features throughout the building encourage students to greet each other and linger to talk and debate ideas in beautiful outdoor spaces, roof plazas and balconies, and comfortable lounges. Miles of state-of-the-art voice, data and video cable and a school-wide wireless network provide the “highway” for audio-visual, computer, and telecommunications technology throughout the building. The mix of classrooms, rooms for simulations of various sizes, and clinical teaching spaces provide flexibility which preserves the best of trad-
tional law teaching while encouraging the introduction of new methods. The law library is designed to accommodate more than 250,000 volumes, and reflects the changing patterns of legal research. The library is a warm and inviting environment filled with natural light. Gonzaga’s fine traditions of advocacy training and moot court competitions are promoted in the impressive Barbieri Courtroom.

Co-Curricular Activities
Students find it easy to become involved in a broad range of co-curricular activities at the School of Law. Gonzaga continually fields highly competitive teams who participate in numerous national moot court competitions. The student-run Gonzaga Law Review in existence more than thirty years circulates throughout the country. The award-winning Student Bar Association is a strong, active organization that encourages student involvement. Students also have an opportunity to participate in the Linden Cup, Gonzaga’s prestigious intra-school moot court competition, a client counseling competition, a negotiation competition, legal fraternities, the Gonzaga Public Interest Law Project, the Women’s Law Caucus, the International Law Society, Heidelberg, the Environmental Law Caucus, the Asian Pacific Islander Law Caucus, and various other organizations and lecture committees. All law students are invited to join together in the Multi-Cultural Law Caucus to create a community that celebrates the diversity at Gonzaga and within the Spokane community.

Admissions
The School of Law endeavors to attract students with ambitious minds, professional motivation, and commitment to the highest ethics and values of the legal profession. A faculty committee reviews all applications, and does not restrict their consideration to impersonal statistics. An applicant’s unique qualities, such as work and life experiences, personal accomplishments, and the opinions of others as reflected in letters of recommendation, will also be considered.

The School of Law seeks to enroll a diverse student body to ensure that the school and the legal profession are enriched through the participation of people from different cultural and ethnic backgrounds. Those individuals who want the admission review committee to consider diversity factors in their application process should provide information about their experiences and background in their applications.

Students who are in good standing at another ABA law school may apply for admission to the School of Law with advanced standing.

Special Admission Program
The Summer Academic Resource Program at Gonzaga grants admission to a limited number of applicants whose application file suggests there may be a potential for success beyond normal statistical prediction. Those accepted attend a ten-week summer program consisting of a graded course and a legal research and writing seminar. There is no special application procedure for this program and all applicants are considered candidates for the program.

Students admitted directly to the fall program also have the opportunity to attend classes during the summer and complete one first-year course. The Early Start Summer Program offers an excellent opportunity to transition into law school and to lessen the course load during the subsequent fall and spring semesters.

For admission information, write or call:

Since 1978, the University’s English Language Center (ELC) has addressed the needs of students whose native language is not English. In that time, Gonzaga’s ELC has served nearly 3,000 students from other countries, introducing them to higher education in the United States, and providing Gonzaga’s American students with the opportunity to meet, live with and exchange ideas with the young people from over seventy nations who have made up the ELC student population.

Instructional policies and program guidelines of the Gonzaga University ELC are in accordance with the Commission on English Language Program Accreditation (CEA), the national professional organization in this field, which approved Gonzaga ELC accreditation in September, 2002.

The ELC, with a faculty of eight full-time instructors, offers year-round intensive classes in ten levels of instruction in English as a Second Language (ESL). These courses are designed to meet the needs of foreign students seeking undergraduate and graduate admission to Gonzaga, as well as to assist international professionals in improving their English language ability. In addition to the academic ESL Program, the ELC offers special short-term language programs for contracted groups of students and foreign visitors during the spring and summer sessions.

Applications and inquiries for the ELC may be directed to the International Student Programs Office (Please see the International Student Program section of this catalogue). While admission to the intensive language program does not in itself imply admission to the regular degree programs of the University, satisfactory completion of the program fulfills the English language proficiency requirement for admission to regular programs of study. Students wishing to learn English for their own personal or professional reasons are also welcome to apply for admission to the ELC.

In 1998, the ELC also initiated a Master's degree program in Teaching English as a Second Language (MA/TESL). Certain cross listed courses taught in the Teaching English as a Second Language program also fulfill the requirements necessary for a Washington State ESL endorsement. The student population of the ESL Program serves as a site for practica in MA/TESL and ESL endorsement, and ESL faculty members also teach in the graduate program. Please also see the Gonzaga University graduate catalogue for details of the program.

The following students are automatically exempted from taking the writing test:
1) Those having achieved a score of 600 or higher on the TOEFL examination;
2) Those holding a Bachelor’s degree from an institution whose primary language of instruction is English and;
3) Those who have completed a standard English composition course (e.g., ENGL 101) with a grade of “B” or better in a post-secondary U.S. institution of higher learning.

Unless exempt (see above), all non-native speakers of English entering matriculate undergraduate programs at Gonzaga University are required to complete UNIV 109 with a grade of “B” or higher. This includes post-baccalaureate registrants and second Bachelors degree candidates.

Matriculating Gonzaga students may receive three course credits each for UNIV 109, the combination of ELCT 105 and ELCT 106, and/or the combination of ELCT 107 and ELCT 108 upon petition (maximum nine credits). These credits are only elective credits and while not satisfying any University core, major, minor or concentration requirement, may be used as three credits toward the total of the 128 semester credits required to graduate.

### ESL K-12 Endorsement

In conjunction with Gonzaga’s School of Education, the MA/TESL Program also offers a 15 Credit ESL endorsement which consists of a combination of the asterisked courses shown above. In consultation with an advisor, the K-12 teacher candidate will design a hands-on course of study that examines the following:

- **Contexts and orientations for TESOL and bilingual education**
- **An introduction to fundamental concepts of first and second language acquisition**
- **Ideas for teaching language through content and developing materials for the content-based classrooms**
- **Strategies for working with English language learners in classrooms**
- **Cross-cultural training for working with diverse populations**
- **Strategies for incorporating state standards into instruction and assessment for English language learners**

#### Teaching English as a Second Language Endorsement and Undergraduate Courses

- **MTSL 304 Immigrant and Refugee Perspectives** 3 credits
- **MTSL 312 Language and Cultural Identity** 3 credits
- **MTSL 454 (EDTE 454) World Languages** 3 credits
- **MTSL 401 Theory and Practice of Language Teaching** 4-5 credits
- **MTSL 404 Introduction to Sociolinguistics** 3 credits
- **MTSL 408 Principles of Second Language Acquisition** 3 credits
- **MTSL 414 Literacy and English Language Learner** 3 credits
- **MTSL 480 ESL Language Camp** 1 credit

Those courses that are asterisked are courses that fulfill the requirements necessary for a Washington State ESL endorsement.
Lower Division

ELCT 099 English Language Workshop 0-2 credits
ELCT 099A Entry Level Oral Communication 5 credits
   Students are faced with immediate social and survival needs. Therefore, they learn the vocabulary and skills needed to communicate in the classroom and in other everyday situations and activities. There is an emphasis on basic English functions and hands-on application.
ELCT 099B Entry Level Grammar Support 5 credits
   In this class, students are taught the basic grammatical structures necessary to speak and write about daily routines, past events, and future plans. Emphasis is on speaking and using English with a communicative competence, not accuracy. Practical application is also emphasized.
ELCT 099C Entry Level Reading 5 credits
   Reading classes stress survival reading objectives: applications, forms, notes, and letters.
ELCT 099D Entry Level Writing 5 credits
   This class develops students' ability to communicate in simple written English. Basic literacy skills are incorporated into the teaching: letter formation, sound-symbol relationships. Emphasis is on the integration of writing with other skills. Emphasis is on communicative intent, not accuracy.
ELCT 100A Entry Level Oral Communication 5 credits
   Students are faced with immediate social and survival needs. Therefore, they learn the vocabulary and skills needed to communicate in the classroom and in other everyday situations and activities. There is an emphasis on basic English functions and increasing basic fluency.
ELCT 100B Entry Level Grammar Support 5 credits
   In this class, students are taught the basic grammatical structures necessary to speak and write about daily routines, past events, and future plans. Emphasis is on speaking and using English with a communicative competence, not accuracy.
ELCT 100C Entry Level Reading 5 credits
   Reading classes stress survival reading objectives: applications, forms, notes, and letters.
ELCT 100D Entry Level Writing 5 credits
   This class develops students' ability to communicate in simple written English. Basic literacy skills are incorporated into the teaching: letter formation, sound-symbol relationships. Emphasis is on the integration of writing with other skills. Emphasis is on communicative intent, not accuracy. Students are introduced basic sentence structure.
ELCT 101A-D 5 credits
   Student must take initial placement test.
ELCT 101E Special Topics 1-10 credits
ELCT 102A-D 5 credits
   Student must take initial placement test or complete level 101.
ELCT 102E Special Topics 1-10 credits
ELCT 103A-D 5 credits
   Student must take initial placement test or complete level 102.
ELCT 103E Special Topics 1-10 credits
ELCT 104A-D 5 credits
   Student must take initial placement test or complete level 103.
ELCT 104E Special Topics 1-10 credits
ELCT 105A-D 5 credits
   Student must take initial placement test or complete Level 104.
ELCT 105E Special Topics 1-10 credits
ELCT 106A-D 5 credits
   Student must take initial placement test or complete level 105.
ELCT 106E Special Topics 1-10 credits
ELCT 107A-E 5 credits
   Student must take initial placement test or complete level 106.
ELCT 107F Special Topics 1-10 credits
ELCT 108A-E 5 credits
   Student must take initial placement test or complete level 107.
ELCT 108F Special Topics 1-10 credits
ELCT 109 University Writing for International Students 3 credits
   Designed to prepare non-native English speaking undergraduate students for ENGL 101, the focus of the course is on standard academic writing, with an emphasis on note-taking, library research, reference materials, periodicals, and other outside resources. Content material will address orientation to American university study, educational standards, and expectations. Four major (5-7 pages) papers are required: compare/contrast, classification, expository, and research/argumentation. Other writing assignments will be determined by the instructor.
ELCT 180 Special Topics 1-20 credits
ELCT 190 Directed Study 1-20 credits
UNIV 106 Advanced Language Preparation 3 credits
UNIV 108 University Preparation 3 credits
UNIV 109 University Writing for International Students 3 credits
   Designed to prepare non-native English speaking undergraduate students for ENGL 101, the focus of the course is on standard academic writing, with an emphasis on note-taking, library research, reference materials, periodicals, and other outside resources. Content material will address orientation to American university study, educational standards, and expectations. Four major (5-7 pages) papers are required: compare/contrast, classification, expository, and research/argumentation. Other writing assignments will be determined by the instructor.

Upper Division

MTSL 304 (WOMS 420C) Immigrant and Refugee Perspectives 3 credits
   A hands-on introduction to the lives of immigrants and refugees in the local area, with emphasis on second language learning and teaching. Students also visit local refugee and immigrant organizations.
MTSL 312 Language and Cultural Identity 3 credits
   Explores the meanings and practices of various discourse communities, the relationship between language, culture and identity, and the significance of the linguistic and cultural identity in the 21st century, particularly as the themes relate to English language learners and non-standard varieties of English. (cross listed with Women's Studies)
MTSL 400 Methods and Materials for English as a Second Language Teachers 3 credits
   Includes familiarity with approaches, methods and materials used in ESL and EFL instruction. Assists students in developing criteria for evaluating and choosing appropriate materials and techniques. (MTSL Summer Institute 4 credits can substitute for this course)
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>MTSL 401</td>
<td>Theory and Practice of Language Teaching</td>
<td>3 credits</td>
<td>This intensive course investigates current theories in second language acquisition and ESL/EFL methodology. While observing, assisting and teaching in MA/MA Language Camp, students focus on their particular teaching situations, areas of interest, or research field.</td>
</tr>
<tr>
<td>MTSL 402</td>
<td>Pedagogical Grammar</td>
<td>3 credits</td>
<td>Focuses on language analysis, dealing with issues of interlanguage development, contrastive analysis, and discourse analysis. Students learn how to approach grammar from a variety of pedagogical perspectives.</td>
</tr>
<tr>
<td>MTSL 404</td>
<td>Introduction to Sociolinguistics</td>
<td>3 credits</td>
<td>This course will examine how communication in ESL education shape relationships with non members and members of a community. In particular, it will examine how the control of communication in bilingual and ESL education affects cognitive, social-cultural, affective, and linguistic development in bilingual and ESL classrooms. Theories studied in this course will help build an understanding of how to observe and analyze the effects of communication patterns on learning opportunities for ESL students.</td>
</tr>
<tr>
<td>MTSL 408</td>
<td>Principles of Second Language Acquisition</td>
<td>3 credits</td>
<td>Examines major theoretical concepts in the field, such as input and interaction, language learner strategies and routines, negotiating meaning, L2 motivation and investment, and linguistic, cognitive and social developmental processes within sociocultural contexts.</td>
</tr>
<tr>
<td>MTSL 414</td>
<td>Literacy and English Language Learners</td>
<td>3 credits</td>
<td>This course examines literacy practices as complex activities related to English as second language learners. Students will create classroom materials for K to adult learners to support multiple literacies.</td>
</tr>
<tr>
<td>MTSL 417</td>
<td>Phonology</td>
<td>1 credits</td>
<td>Introduces the International Phonetic Alphabet and covers basic techniques for improving second-language learners' pronunciation, using recording analysis to plan strategies and design materials.</td>
</tr>
<tr>
<td>MTSL 454</td>
<td>(EDTE 454T) World Languages</td>
<td>3 credits</td>
<td>This course presents theories and methods appropriate to teaching a foreign language in the secondary school. (Fulfills Methods requirements for K-12 Endorsement)</td>
</tr>
<tr>
<td>MTSL 480</td>
<td>Language Camp</td>
<td>1 credits</td>
<td>An integral feature of the Institute is a one-credit Language camp. In conjunction with Spokane Public Schools, the Camp provides a unique opportunity for its participants to work with ESL students of various ages, nationalities, and proficiency levels. Included in this enhanced hands-on experience are opportunities for observation, teaching, and participation in social activities with ESL students.</td>
</tr>
<tr>
<td>MTSL 490</td>
<td>Independent Study</td>
<td>1-6 credits</td>
<td></td>
</tr>

A single date following the name indicates the beginning of service in the University. When two dates are given, the second, in parentheses, is the date of promotion to the present academic rank.

DALE ABENDROTH, 1989, Assistant Professor of Nursing - A.A., Los Angeles Valley College, 1972; B.S.N., California State University at Los Angeles, 1976; M.N., University of California at Los Angeles, 1985; Ph.D., Gonzaga University, 2005.

JOSEPH F. ALBERT, 1994, Assistant Professor of Organizational Leadership - B.S., St. Joseph's University, 1974; M.A., Gonzaga University, 1984; Ph.D., Gonzaga University, 1993.

MARK ALFINO, 1989 (2001), Professor of Philosophy - B.A., George Washington University, 1981; M.A., University of Texas at Austin, 1984; Ph.D., University of Texas at Austin, 1989.

KHRYUDDIN AKBAR ANSARI, 1985, Professor of Mechanical Engineering - B.S.E.E., Osmania University, 1964; M.S.M.E., University of California at Berkeley, 1965; Ph.D., University of Texas at Arlington, 1972.

MATTHEW S. BAHR, 2004, Assistant Professor of Sociology - B.S., Brigham Young University, 1992; M.S., Brigham Young University, 1994; Ph.D., Purdue University, 2002.

ANJALI BARRETTO, 2001 (2006), Associate Professor of Special Education - B.A., Goa University, 1991; M.A., Gonzaga University, 1997; Ph.D., University of Iowa, 2001.

JOHN H. BECK, 1988 (2003), Professor of Economics and Program Director of Economics in the College of Arts and Sciences - B.A., Michigan State University, 1971; M.A., Michigan State University, 1973; Ph.D., Michigan State University, 1976.

CHERYL A. BECKETT, 1991, Associate Professor of Legal Research and Writing and Director, Research and Writing Program - A.B., Rutgers University, 1974; J.D., Gonzaga University, 1981.

NANCY BECKHAM, 2004, Assistant Professor of Nursing - B.S.N., Mary College, 1980; M.S.N., Idaho State University, 1997; Ph.D., University of Utah, 2003.

JULIE BECKSTEAD, 2002 (2007), Associate Professor of Biology - B.S., Brigham Young University, 1991; M.S., Brigham Young University, 1994; Ph.D., University of Illinois at Urbana-Champaign, 2001.

EILEEN BELL-GARRISON, 1981, Assistant Professor, Foley Center Library, and Dean of Library Services, Foley Center Library - B.A., Wittenberg University, 1975; M.A., University of Cincinnati, 1977; M.L.S., University of Kentucky, 1979; Ph.D., Gonzaga University, 1991.

ELISABETH D. BENNETT, 1998 (2006), Associate Professor of Counselor Education - B.S., Brigham Young University, 1983; M.S., University of Utah, 1989; Ph.D., University of Utah, 1994.

JAMES K. BERRY, 2001; Adjunct Instructor of Educational Leadership and Administration - B.S., Montana State University, 1968; M.A. Whitworth College, 1972.

MARIA E. BERTAGNOLLI, 1993 (2000), Associate Professor of Biology - B.S., Gonzaga University, 1987; Ph.D., University of Utah, 1993.

KIRK M. BESNER, 2003, Assistant Professor of Philosophy - B.A., University of Dallas, 1993; M.A., University of Notre Dame, 1995; Ph.D., University of Notre Dame, 2002.

ROBERT C. BIALOZOR, 1975, Associate Professor of Educational Leadership and Administration - B.S., University of Wisconsin, 1964; M.S.Ed., Northern Illinois University, 1966; Ed.D., Northern Illinois University, 1970.

RAYMOND A. BIRGENHEIER, 1980 (1999), Professor Emeritus of Electrical Engineering - B.S., Montana State University, 1963; M.S., University of Southern California, 1965; Ph.D., University of California at Los Angeles, 1972.

THOMAS BOURKE, 2000, Adjunct Lecturer of International Relations, Gonzaga in Florence - B.A., University College Dublin, 1983; Ph.D., European University Institute, 1996.

M. LISA BRADLEY, 1999, Associate Dean for Student Affairs, Academic Resource Coordinator, and Assistant Professor of Legal Research and Writing - B.A., University of Montana, 1980; J.D., Gonzaga University, 1991.

DALE A. BROWN, SFC, 2001, Senior Military Instructor.

PATRICIA B. BULLER, 1999; Adjunct Instructor of Sport and Physical Education - B.S., University of Utah, 1975; M.A., Gonzaga University, 1992.

JANET BURCALOW, 1866 (2001), Professor Emerita of Teacher Education - B.S., Winona State University, 1969; M.S., Winona State University, 1977; Ph.D., University of Minnesota, 1982.

ASSIMO CAPOBIANCHI, 1996 (2005), Professor of Mechanical Engineering - B.E., State University of New York at Stony Brook, 1981; M.S., State University of New York at Stony Brook, 1991; Ph.D., State University of New York at Stony Brook, 1996.

JOHN S. CAPUTO, 1990, Professor of Communication Arts - B.A., California State University at Long Beach, 1969; M.A., California State University at Long Beach, 1971; M.A., Claremont Graduate School and University Center, 1976; Ph.D., Claremont Graduate School and University Center, 1977.

MICHAEL LIEBERMAN CAREY, 1987 (1992), Associate Professor of Organizational Leadership - B.A., Loyola Marymount University, 1974; M.A., Gonzaga University, 1984; Ph.D., Gonzaga University, 1987.

CHOU-HONG JASON CHEN, 1985 (2001), Professor of Management Information Systems - B.S., National Taiwan Normal University, 1975; M.S., Eastern Washington University, 1981; Ph.D., University of Texas at Austin, 1985.

GORDON ALLEN COCHRANE, 1999; Adjunct Assistant Professor of Counselor Education - B.A., Simon Fraser University, 1984; M.A., Gonzaga University, 1994; Ph.D., University of Calgary, 1998.

BERNARD J. COUGHLIN, S.J., 1974, Professor of Sociology and Chancellor of the University - A.B., Saint Louis University, 1946; Ph.L., Saint Louis University, 1949; S.T.L., Saint Louis University, 1956; M.S.W., University of Southern California, 1959; Ph.D., Brandeis University, 1963.

JONAS A. COX, 2001 (2006), Associate Professor of Teacher Education - B.S., Oregon State University, 1983; M.A.T., Lewis and Clark College, 1989; Ph.D., University of Iowa, 1997.

JEFF CRONK, 2001, Assistant Professor of Chemistry - B.S., University of Washington, 1988; Ph.D., University of California-Berkeley, 1996.

PATRICIA E. CROWLEY, 2006, Assistant Professor of Computer Science – B.A., Duke University, 1990; M.S., University of New Mexico, 1996; Ph.D., University of New Mexico, 2005.

SIDIQ M. DAR, 1964 (1999), Professor Emeritus of Civil Engineering - B.S., University of Illinois, 1957; M.S., Kansas State University, 1959; Ph.D., University of Oklahoma, 1964.

RaGENA DeARAGON, 1983 (1991), Associate Professor of History - B.A., University of Santa Clara, 1974; M.A., University of California at Santa Barbara, 1977; Ph.D., University of California at Santa Barbara, 1982.
MARK De FORREST, 2001, Assistant Professor of Legal Research and Writing - B.A., Western Washington University, 1992; J.D., Gonzaga University School of Law, 1997.

THEODORE DiMARIO, Jr., 1999, Assistant Professor of Philosophy - B.A., Northern Illinois University, 1986; M.A., Northern Illinois University, 1988; Ph.D., Marquette University, 1999.

HELEN DONIGAN, 1979 (1989), Professor of Law - B.S., University of Nebraska, 1963; J.D., Gonzaga University, 1976.

ROBERT C. DONELLY, 2004, Assistant Professor of History - B.S., Western Oregon State College, 1992; M.A., Portland State University, 1997; Ph.D., Marquette University, 2004.

ERIN DORSEY, 2001, Assistant Professor of Communication Arts and Program Director of Public Relations - B.S., Washington State University, 1982; M.S., Eastern Washington University, 1990.

SHERI ENGELKEN, 2003, Assistant Professor of Law - B.A., University of Missouri, 1980; J.D., University of Chicago Law School, 1983.

PHILLIP FASSIEUX, 2006, Assistant Professor of Military Science – B.A., Gonzaga University, 2003; Captain, United States Army.

LELAND G. FELLOWS, 2004, Visiting Assistant Professor of Legal Research and Writing - B.S., University of Illinois, 1973; J.D., Gonzaga University, 1984.

SHANN R. FERCH, 1996 (2005), Professor of Leadership Studies (Doctoral) - B.A., Pepperdine University, 1990; M.A., Pepperdine University, 1993; Ph.D., University of Alberta, Edmonton, 1995.

BOYD FOSTER, 2001, Assistant Professor of Sport and Physical Education - B.S., Judson College, 1983; M.S., University of South Alabama, 1984; M.S., United States Sports Academy, 1985; Ph.D., Arizona State University, 1999.

LEE FOUST, 2002, Adjunct Lecturer in English, Gonzaga in Florence -- B.A., San Francisco State University, 1992; M.A., New York University, 1996; Ph.D Candidate, New York University.

PATSY S. FOWLER, 2002 (2007), Associate Professor of English - B.S., University of Alabama, 1990; M.Ed., Middle Tennessee State University, 1996; Ph.D., Auburn University, 2002.

STEPHEN FREEDMAN, 2002, Academic Vice President, Professor of Biology, and Professor of Leadership Studies - B.S., Loyola of Montreal, 1971; M.S., York University, 1974; Ph.D., University of California-Irvine, 1978.

SARA GANZERLI, 1999 (2005), Associate Professor of Civil Engineering - Laurea (B.S./M.S.), University of Pavia, Pavia, Italy, 1995; Ph.D., University of Utah, 1999.

LUIS GARCIA-TORVISO, 2006, Assistant Professor of Modern Languages – B.A., Autónoma University, Madrid, 1995; Ph.D., Georgetown University, 2005.

DAN GARRITY, 2002, Assistant Professor of Communication Arts and Program Director of Broadcast Studies & Educational Television - B.S., Northern Arizona University, 1990.

CHRISTINA A. GEITNER, 1994 (2007), Professor of Exercise Science - B.S., West Chester State College, 1979; M.A., University of Maryland, 1985; Ph.D., The University of Texas at Austin, 1995.

P. TERRY GIEBER, 1983 (1994), Professor of Art - B.S., Fort Hays State University, 1970; M.A., Fort Hays State University, 1971; M.A., University of Iowa, 1982; M.F.A., University of Iowa, 1983.

ANDREA GIUNTINI, 1994, Adjunct Professor of Economics, Gonzaga in Florence - Dottore in Storia Economica, Universita' degli Studi, Firenze, 1979; M.A., University of Pavia, 1995; Ph.D., University of Utah, 1999.

BRIAN G. GOSLINE, 1999, Adjunct Assistant Professor of Business Law-B.B.A., Gonzaga University, 1985; J.D., Gonzaga University, 1989.

ALLAN J. GREER JR., 1996 (2005), Professor of Physics - B.S., Moravian College, 1987; M.S., College of William and Mary, 1989; Ph.D., College of William and Mary, 1994.

VIKAS K. GUMBHIR, 2005, Assistant Professor of Sociology – B.A., Regis University, 1995; M.S., University of Oregon, 2002; Ph.D., University of Oregon, 2005.

DONALD D. HACKNEY, 2006, Assistant Professor of Business – B.A., Gonzaga University, 1969; J.D., Gonzaga University School of Law, 1974; M.B.A., Gonzaga University, 1980.

RONALD L. HARRIS, 1980 (2001), Assistant Professor of English as a Second Language - B.A., University of California at Los Angeles, 1965; M.A., University of California at Los Angeles, 1967; Ph.D., University of California at Los Angeles, 1969.

CLEDWYN (CLED) HAYDN-JONES, 1986; Adjunct Assistant Professor of Educational Leadership and Administration - B.S., Honours Degree, The University of London, 1969; B.Ed., The University of Saskatchewan, 1977; M.A., Gonzaga University, 1986; Ph.D., Somerset University, 1997.

JOSEPH HAYDOCK, 1999 (2006), Associate Professor of Biology - B.S., University of New Mexico, 1981; M.S., University of New Mexico, 1984; Ph.D., Purdue University, 1993.

FRANCOISE D. KUESTER, 1977 (1991), Associate Professor of Modern Languages, Program Director of French Studies, and Program Director of the Paris Program - Bac 182, University of Nancy (France), 1959; B.A., Western Washington University, 1977; M.A., Washington State University, 1979.

LADA KURPIS, 2004, Assistant Professor of Marketing-B.S., Ursals State University of Economics, 1989; Master of Science, Marketing, Ursals State University of Economics, 1995; Ph.D., University of Oregon, 2004.

VLADIMIR A. LABAY, 2000 (2005), Associate Professor of Electrical Engineering -- B.S., University of Manitoba, 1987; M.S., University of Manitoba, 1990; Ph.D., University of Victoria, 1995.

DEAN S. LARSON, 1988, Assistant Professor of Mathematics - B.A., Hamline University, 1982; Ph.D., University of Minnesota, 1988.

SAM M. LEIGLAND, 1987 (1997), Professor of Psychology - B.A., Western Washington University, 1972; M.A., University of New Mexico, 1977; Ph.D., University of New Mexico, 1981.

QUANHUA LIU, 1995 (1999), Associate Professor of Philosophy - B.A., Beijing University, 1982; M.A., Beijing University, 1984; Ph.D., Duke University, 1994.

MARC MANGANARO, 2007, Professor of English and Dean of the College of Arts and Sciences, B.A., University of Nebraska at Omaha, 1977; M.A., San Francisco State University, 1979; Ph.D., University of North Carolina at Chapel Hill, 1985.

JOHN J. MARCINIAK, 1983, Associate Professor of Mechanical Engineering - B.S., University of Notre Dame, 1966; Ph.D., University of Illinois, 1975.

MARGUERITE MARIN, 1986 (1991), Associate Professor of Sociology - B.A., California State University at Long Beach, 1973; M.A., California State University at Long Beach, 1975; Ph.D., University of California at Santa Barbara, 1980.

ELIZABETH F. MARTIN, 2005, Professor and Dean of the School of Law – B.A., University of Kentucky College of Communications, 1984; J.D., University of Kentucky College of Law, 1987; LL.M., Yale Law School, 1996.

MICHAEL J. McBRIDE, 1978 (1993), Associate Professor of Psychology - A.B., Saint Louis University, 1969; M.S., Saint Louis University, 1975; Ph.D., Saint Louis University, 1980.

THAYNE M. McCULLOH, 1990, Assistant Professor of Psychology and Vice President for Administration and Planning, and Dean of Student Financial Services - B.A., Gonzaga University, 1989; D.Phil., Oxford University, 1998.

JAMES R. McCURDY, 1982 (1992), Professor of Law - B.B.A., University of Houston, 1970; J.D., University of Texas School of Law, 1974.

MARY McFARLAND, 1998, Professor and Dean of the School of Professional Studies - B.S.N., University of Iowa, 1978; M.S., University of Portland, 1984; Ph.D., Gonzaga University, 1993.

THOMAS McKENZIE, 2002, Associate Professor of Mathematics - B.A., Clark University, 1985; M.S., University of Oregon, 1988; Ph.D., University of Oregon, 1992.

DENNIS G. McMinn, 1974 (1985), Professor of Chemistry - B.S., University of Alberta, 1966; Ph.D., University of Minnesota, 1970.

MATTHEW Q. McPherson, 2004, Assistant Professor of Economics-B.S., West Virginia University, 1994; M.S., West Virginia University, 1996; M.A., West Virginia University, 2001; Ph.D., West Virginia University, 2003.

ANNA MARIE MEDINA, 2003, Assistant Professor of Psychology - B.A., Stanford University, 1989; M.A., California State University, 1996; Ph.D., University of Southern California, 2002.

SARA R. MELENDY, 2005, Assistant Professor of Accounting - B.S., Cornell University, 1990; Ph.D., The State University of New York at Buffalo, 2005.

MARGARET R. MEYERS, 2006, Clinical Faculty of Nursing - B.A., Gonzaga University, 1980; R.N., Sacred Heart Hospital, 1973; M.A.E., Gonzaga University, 1981.

JEFFREY W. MILLER, 2006, Assistant Professor of English - B.A., Indiana University-Purdue University, 1994; M.A., University of Cincinnati, 1996; Ph.D., University of Cincinnati, 2002.

ALFRED C. MIRANNE, 1989 (1992), Associate Professor of Sociology and Criminal Justice - B.S., University of Southwestern Louisiana, 1973; M.S., Texas A&M University, 1976; Ph.D., Washington State University, 1981.

DANIEL J. MORRISSEY, 2001, Professor of Law - A.B., Georgetown University, 1971; J.D., Georgetown University, 1974.

KAY L. NAKAMAYE, 1970 (1979), Dr. Scholl Distinguished Professor of Chemistry - B.S., University of Utah, 1963; Ph.D., University of California at Berkeley, 1967.

PAUL S. NOWAK, 1993 (1997), Professor of Civil Engineering and Associate Dean of Engineering - B.S., State University of New York at Buffalo, 1980; M.S., University of Illinois, 1981; Ph.D., California Institute of Technology, 1989.

LEWIS H. ORLAND, 1950 (1976), Associate Dean of the School of Law and Professor Emeritus - B.A., University of Idaho, 1937; J.D., Harvard University, 1940; LL.D., Gonzaga University, 1967.

ALBERT A. (TONY) OSBORNE, 2002, Associate Professor of Communication Arts - B.A., University of Michigan, 1975; M.S., Columbia University, 1985; M.A., Ohio State University, 1990; Ph.D., Ohio State University, 1995.

SHANNON OVERBAY, 2001, Assistant Professor of Mathematics - B.S., Gonzaga University, 1992; M.S., Colorado State University, 1994; Ph.D., Colorado State University, 1998.

SHALON D. PARKER, 2002 (2003), Assistant Professor of Art - B.A., University of California, Santa Cruz, 1993; M.A., University of California, Berkeley, 1996; Ph.D., University of California, Berkeley, 2003.

ALESSANDRO PAZZAGLIA, 2002, Adjunct Lecturer in Business and Office Manager, Gonzaga in Florence -- Dottorato in Economia e Commercio, Università Commerciale L. Bocconi (Milan), 1996.

VIVEK H. PATIL, 2005, Assistant Professor of Marketing -- M.M.S., Birla Institute of Technology and Science, 1997; M.E., Birla Institute of Technology and Science, 2000; Ph.D., University of Kansas, Lawrence, 2006.

MOLLY PEPPER, 2003, Assistant Professor of Management-B.A., Texas A&M University, 1987; M.B.A. University of Southern Mississippi, 1997; Ph.D., Arizona State University, 2004.

MARK PONTIF, 2006, Assistant Professor of Military Science – B.A., University of Massachusetts, 1997; Captain, United States Army.

GAIL J. RAY SPRINGER, 1989, Associate Professor of Nursing - B.S.N., University of Cincinnati, 1966; M.S.N., Catholic University of America, 1969; Ph.D., Gonzaga University, 1986.

RAYMOND F. REYES, 1988, Assistant Professor of Teacher Education and Associate Vice President for Diversity - B.A., Eastern Washington University, 1977; M.A., Baruch College of the City University of New York, 1984; Ph.D., Gonzaga University, 2002.

LIN ROGERS, 2004, Assistant Professor of Nursing - B.S.N., St. Louis University, 1970; M.S.N., St. Louis University, 1972; Ph.D.(c), Gonzaga University.

CHARLES PHILLIP ROSE, 1994, Adjunct Assistant Professor of Educational Leadership and Administration - B.Ed. University of Alberta at Calgary, 1965; M.A., University of Calgary, 1989; Ph.D., University of Alberta, 1997.

THOMAS F. RUKAVINA, 1958 (1999), Professor Emeritus of Philosophy - Ph.L., Gregorian University, 1944; M.A., Indiana University, 1957; Ph.D., Indiana University, 1959.

GIOVANNA RUSSO, 1985, Adjunct Associate Professor of Italian, Gonzaga in Florence - Dottore in Sociologia, Università degli Studi, Trento, 1973.

ROBERTO SABBADINI, 2005, Adjunct Lecturer in History, Dottore in Lettere e Filosofia , Università degli Studi di Venezia “Cà Foscari”, 1988; Ph.D., European University Institute, 1995.

CHARLES (CHUCK) V. SALINA, 2005, Assistant Professor of Educational Leadership and Administration - B.A., University of Washington, 1975; M.A., Gonzaga University, 1985; Ph.D., Gonzaga University, 1991.

D. J. SCHAFFER, 2003; Adjunct Assistant Professor of Educational Leadership and Administration - B.A., University of Akron, 1968; M.A., University of Akron, 1982; Ph.D., Gonzaga University, 2002.

ROBERT E. SCHEBOR, 1999; Adjunct Instructor of Sport and Physical Education - B.A., Pittsburg State University, 1984.

ERIK SCHMIDT, 2003, Assistant Professor of Philosophy - B.A. Wheaton College, 1993; Ph.D., Syracuse University, 2003.

BRUNO SEGATTA, 1982, Adjunct Lecturer in Art and Assistant to the Director for Student Affairs, Gonzaga-in-Florence - S.T.B., Pontificio Ateneo Salesiano, 1972; B.F.A., Boise State University, 1976; M.S., California State University at Northridge, 1981.

JOHN B. SEVERINGHAUS, 1999; Adjunct Assistant Professor of Counselor Education - B.A., Indiana University, 1976; M.A., University of Idaho, 1979; Ph.D., Washington State University, 1991.

KEVIN G. SHELLEY, 1994, Associate Professor of Legal Research and Writing - B.A., Auburn University, 1983; J.D., University of Alabama, 1988.

JENNIFER N. SHEPHERD, 1998 (2006), Associate Professor of Chemistry - B.S., Oregon State University, 1993; M.S., University of California at Los Angeles, 1995; Ph.D., University of California at Los Angeles, 1998.

MAUREEN M. SHERIDAN, 1977, Director of the Counseling Center - A.B., Gonzaga University, 1968; M.A., Gonzaga University, 1971; Ph.D., Purdue University, 1977.

MARK J. SHRADER, 1988 (2002), Associate Professor of Finance - B.B.A., University of Texas at Austin; Ph.D., Texas Tech University, 1988.

CHRISTOPHER E. SMITH, 2006, Associate Professor of Computer Science – B.S., Lake Superior State College, 1984; M.S., University of Michigan, 1987; Ph.D., University of Minnesota, 1996.

ROBERT SPITTAL, 1992 (1999), Associate Professor of Music - B.M.E., The Ohio State University, 1985; M.M., Baylor University, 1990; D.M.A., University of Cincinnati, 1995.

ROBERT SPITZER, S.J., 1998, Professor of Philosophy and President of the University - B.B.A., Gonzaga University, 1974; M.A., Saint Louis University, 1978; M.Div., Gregorian University, 1983; Th.M., the Weston School of Theology, 1984; Ph.D., Catholic University of America, 1989.

BRIAN K. STEVERSON, 1992 (1996), Associate Professor of Philosophy - B.S., Francis Marion College, 1984; M.A., Tulane University, 1987; Ph.D., Tulane University, 1991.

JON D. SUNDERLAND, 1979 (2007), Associate Professor of Sport and Physical Education and Dean of the School of Education - B.A., California Polytechnic State University, 1968; M.A., California Polytechnic State University, 1971; Ph.D., University of Oregon, 1981.

BROOK O. SWANSON, 2006, Assistant Professor of Biology – B.S., Florida Institute of Technology, 1999; Ph.D., Northern Arizona University, 2004.

CARLOS J. TAVORA, 1988, Professor of Electrical Engineering - B.S., Instituto Tecnologico de Aeronautica, 1960; M.S., University of Houston, 1963; Ph.D., University of California at Berkeley, 1970.

ASHISH THATTE, 2006, Assistant Professor of Operations Management – B.E., University of Pune, India, 1996; M.B.A., University of Pune, India, 1999; M.S., The University of Toledo, 2001; Ph.D., University of Toledo, 2006.

JAMES D. THAYER, 2002, Assistant Professor of English - B.A., California State University, Sacramento, 1992; M.A., California State University, Sacramento, 1997; Ph.D., University of Oregon, 2002.

KONNY THOMPSON, 1994, Assistant Professor, Foley Center Library - B.A., Drake University, 1982; M.L.S., University of Iowa, 1990.

MICHAEL TRELEAVEN, S.J., 1990 (2003), Associate Professor of Political Science - A.B., Gonzaga University, 1977; M.A., University of Toronto, 1979; M.Div., University of Toronto (Regis College), 1983; Th.M., University of Toronto (Regis College), 1986; Ph.D., University of Toronto, 1993.

DIANE C. TUNNELL, 1987 (1991), Associate Professor of Sport and Physical Education - B.S., Northeastern Oklahoma State University, 1975; M.S., Northeastern Oklahoma State University, 1976; Ed.D., Oklahoma State University, 1987.

GARY D. UHLENKOTT, S.J., 1986 (1993), Associate Professor of Music - A.B., Gonzaga University, 1974; Diploma, Berklee College of Music, 1986; M.S., Syracuse University, 1975.

EDWARD F. VACHA, 1981 (1992), Professor of Sociology and Program Director of Criminal Justice - B.A., University of California at Santa Cruz, 1968; M.A., University of California at Santa Barbara, 1970; Ph.D., University of California at Santa Barbara, 1975.

JOHN VANDER BEEK, 1985, Associate Professor of Mathematics - B.A., Dordt College, 1965; M.S., Oregon State University, 1970; Ph.D., Oregon State University, 1970.

JOHN VILLALPANDO, 2003, Assistant Professor of Mathematics - B.S., Eckerd College, 1996; M.S., Clemson University, 1999; Ph.D., Clemson University, 2002.

BRIAN VOGL, 2006, Assistant Professor of Military Science – Master Sergeant, United States Army.

The publication of a catalogue at a given date obviously does not (and cannot be allowed to) stop the evolution of academic programs. The present catalogue depicts the current status of the programs offered by Gonzaga University, but only as of the January 1st of the year of its publication. Changes in programs do and necessarily must occur; and the University maintains a master catalogue on file in the Registrar's Office which constitutes the official status of university programs at all times. Any questions regarding changes since January 1, 2007, may be directed to the Registrar’s Office or to the Academic Vice President’s Office.

Address all correspondence regarding this catalogue to:
University Registrar
Gonzaga University
AD Box 83
Spokane, Washington 99258-0001
Area Code 509-323-6592

Equal Opportunity Policy: Gonzaga is an equal opportunity, affirmative action university. The University does not discriminate against any person on the basis of race, religion, sex, national origin, age, marital or veteran status, sexual orientation, physical or mental impairment that limits a major life activity, or any other non-merit factor in employment, educational programs or activities which it operates. All University policies, practices, and procedures are consistent with Gonzaga’s Catholic, Jesuit identity and Mission Statement.

504 Policy: Federal law prohibits us from making preadmission inquiry about disabilities. Information regarding disabilities, voluntarily given or inadvertently received, will not adversely affect any admission decisions. If you require special services because of a disability, you may notify the Dean of Students’ Office. This voluntary self-identification allows Gonzaga University to prepare appropriate support services to facilitate your learning. This information will be kept in strict confidence and has no affect on your admission to the University.
