Course Description:
The purpose of the course is to meet the human and spiritual experience of one of the most significant theologians in 20th century in Europe. Born in 1906 and died in 1945, Dietrich Bonhoeffer's life crosses many of the critical events of the century: the two world wars, the crisis of the European upper-middle class and of its model of life, the spreading of modernity and ideologies, the Nazi regime, the Hebrew question, the effort in favour of peace.
Since his unexpected choice to study theology and to become a Lutheran minister, Bonhoeffer's life seems to be an exemplar tentative to understand the different challenges of his time and to give a new and free answer to each one of them: above all, to face them as a Christian. As he used to say, we live in an age in which it is impossible to fix a complete and clear project for our personal existence: our lives seem to be nothing else than a series of failed attempts, so that our inner life lasts unaccomplished. The only possibility we have to measure and understand the sense of our life seems to be to measure the value of each fragment of it.
Indeed, we can look to Bonhoeffer’s life as a collection of several precious and prophetic fragments through which we can face many challenges that still have a deep relevance for us today: the future of Christianity in a world come of age, the challenge of ecumenism and peace, the experience of Christian life together, the value of friendship, the opposition against Hitler.

Course Objectives
The course expects to put students in touch with the exemplary life of Dietrich Bonhoeffer, his choices, his point of view about some of the most relevant questions of human life. By the end of the course, students would have to get a clearer idea about the history of Europe during the first part of XX century and a personal comprehension of Dietrich Bonhoeffer’s human and Christian values.

Teaching Method
Since the course is based on the meeting with a witness, it will privilege Bonhoeffer’s voice and the decisive moments of his life in dialogue with history. The course will pass through lectures, debates, oral reports, film screening. Mostly, the course needs students involvement because it intends to be a possible answer, through the help of Bonhoeffer’s teaching, to some of our deeper questions about life. For this reason, students are also responsible for the success of the teaching method, as the pedagogical value of a method has to be enacted by each participant in the process.

Teaching Commitment
Education is possibly one of the most important and moving human task: to help new generations in understanding the world in which they live, hoping that they will be able to give their own contribution for the building of a better world. Culture is a matter of transmission: that’s why we even have a sort of duty in doing it!
Decorum
Cell-phones off; no food and beverages admitted, except for bottled water,
No technical devices are accepted (laptops, I pads, etc)
