The Purpose of GU's Staff Assembly is to:

Empower staff and give them a voice through community awareness

Represent staff by providing resource information, guidance & support

Ensure staff recognition and appreciation

Partner with staff in strengthening community

The Staff Assembly strives to foster and improve the professional atmosphere among all staff employees at Gonzaga University.

The Staff Assembly exists to contribute to the success of Gonzaga University, to the growth and welfare of its staff employees, and to the promotion of a positive and supportive work environment. As a constituent organization, along with the Faculty Senate and the Gonzaga Student Body Association (GSBA), the Staff Assembly shall operate as a recognized part of the University system to provide a forum for open communication and ongoing dialogue among staff and between staff and administration. The Assembly shall be a consultative and deliberative body with authority to make recommendations on all matters which have a significant bearing on the working environment of the staff. The Staff Assembly will serve as the official nominating body for staff representation to University committees that deal with topics which have an impact on staff employees and for other task forces and search committees as needed (e.g., Budget Committee).

The Staff Assembly Executive Council meets the first and third Wednesday of the month. The location and time are posted on the website (listed at the top of this page). Meetings are open: all staff members are invited to participate. E-mail staff-assembly@gonzaga.edu for information or to add agenda items to the next meeting.

Service Opportunities:

Community Service

Did you know that every staff member is encouraged to take a half day off of work, each calendar year, to do community service? In addition to supporting the University's mission statement, it is a great outreach for the University as well as for staff members. Also, the community sees Gonzaga takes its mission statement seriously and encourages its employees to demonstrate this mission. Prior to taking the time off, the employee obtains permission from his/her supervisor. The staff member contacts the Center for Community Action and Service Learning (CCASL), who provides a list of community organizations for the employee to serve. If there is an organization not on the list, for example, a child's elementary school, the University will work with CCASL for support as long as it fits the general guidelines.

It is the staff member's responsibility to make the arrangements with the organization. Following the volunteer service day, the employee would use the 'Community Service' code on his/her timesheet.

A list of the many projects within CCASL is included on the next page. If you have any questions, feel free to call the CCASL main desk at x6824.
