Mission Statement

Gonzaga University is an exemplary learning community that educates students for lives of leadership and service for the common good. In keeping with its Catholic, Jesuit, and humanistic heritage and identity, Gonzaga models and expects excellence in academic and professional pursuits and intentionally develops the whole person -- intellectually, spiritually, physically, and emotionally.

Through engagement with knowledge, wisdom, and questions informed by classical and contemporary perspectives, Gonzaga cultivates in its students the capacities and dispositions for reflective and critical thought, lifelong learning, spiritual growth, ethical discernment, creativity, and innovation.

The Gonzaga experience fosters a mature commitment to dignity of the human person, social justice, diversity, intercultural competence, global engagement, solidarity with the poor and vulnerable, and care for the planet. Grateful to God, the Gonzaga community carries out this mission with responsible stewardship of our physical, financial, and human resources.

SUMMER SESSION
Introduction

What’s in a Name?

The University is named after the sixteenth-century Italian Jesuit saint, Aloysius Gonzaga. A descendant of a noble Renaissance family and a page at the court of Francesco de Medici, Aloysius Gonzaga entered the Society of Jesus (the Jesuit order) in 1585. Later, while a seminarian in plague-stricken Rome, he attended to the sick and dying; as a result of his heroic service, he died of exhaustion on June 21, 1591, only twenty-three years old. He was declared the patron saint of youth in 1726.

Quality That Earns National Recognition

U.S. News and World Report’s most recent America’s Best Colleges ranked Gonzaga among the top comprehensive regional universities in the West. Fiske Guide to Colleges, Kiplinger’s Best Colleges and The Princeton Review have also consistently praised the academic strength and quality of education provided at Gonzaga University.

Spokane and the Inland Northwest

Spokane, Washington, forms the hub of the “Inland Northwest,” a four-state region relying on this city’s businesses, services and transportation amenities. With a population exceeding 600,000 in the Spokane-Coeur d’Alene, Idaho corridor, Spokane offers many opportunities for work, service and relaxation for Gonzaga students.

Campus overlooks the Spokane River, where the Washington Centennial Trail extends 39-miles between northwest Spokane and Coeur d’Alene. Students enjoy biking, rollerblading, running and walking along the trail. Downtown Spokane is just a few blocks’ walk from the campus, providing easy access to shopping, dining and entertainment. The near-by 12,000-seat Spokane Veterans Memorial Arena, a multi-purpose entertainment venue, hosts concerts, sporting events and special programs such as Gonzaga’s undergraduate commencement ceremonies.

Spokane boasts many parks, including the 100-acre Riverfront Park in the heart of the city. In addition, there are 21 public golf courses within an hour’s drive, ice and roller skating rinks, theaters, and art galleries. A symphony orchestra, civic theatre and professional athletic teams add to the cultural and entertainment opportunities of the urban core.

Nearby recreational areas are easily accessible to students. Seventy-six lakes and five ski areas provide swimming, water skiing and winter sports activities. Spokane has consistently been lauded for its quality of life.

Students: The Center of the University

Total enrollment each semester at Gonzaga is approximately 7,567 of which about 5,160 are undergraduates and 2,407 are in graduate programs, including the School of Law, three doctoral programs, and master’s degree programs. Our student body represents nearly every state and over thirty foreign countries. More than fifty percent of the student body comes from homes at least 250
hundred miles from Spokane. The result is a diverse, welcoming campus community, where cultures and friendships are shared warmly.

There are a total of 745 regular Jesuit, lay, and religious faculty, and classes are taught by professors, not teaching assistants. The ratio of students to faculty is about 12 to 1. 69% of undergraduates ranked in the top quarter of their graduating class. Approximately 25% hold student leadership positions in Gonzaga student government, residence halls, clubs and organizations.

Finance: An Important Part of Your Education

As you begin your academic career, it is important to remember that although tuition at independent or private universities is typically higher than at public universities, the ultimate value of a degree from Gonzaga University is well recognized by members of business and industry.

Gonzaga is committed to assisting students in financing their college education. Over 95% of our students receive financial aid. The Financial Aid Office welcomes your inquiries and is prepared to provide assistance in the development of your financial aid award, assuring you the best package possible.

The Campus: Your Home Away From Home

Gonzaga’s campus has grown from one building which housed both students and Jesuit faculty in its early years to 105 buildings spread over 152 landscaped acres. The University site is along the north bank of the Spokane River and includes its own small lake and an attractive, well-kept campus. Some highlights of the campus include the following:

The Department of Housing and Residence Life provides living options for more than 3,000 undergraduate students, including men’s, women’s or coeducational residence halls with capacities ranging from 15 to 620. Residence halls are staffed by Resident Assistants who provide services ranging from personal advising to planning activities. Full-time first and second year students who are under age 21, unmarried, and not living at home, must live in on-campus residence halls. Upper-division, law and graduate students have access to apartment-style living units, and the University owns three apartment complexes and 12-18 houses in the neighborhood depending upon the year. The department also assists students in locating off campus housing if they are not required to live on campus.

John J. Hemmingson Center is over 167,000 square feet of contemporary space that supports a fun, healthy living and engaged community. It is a living and learning environment where students, faculty, staff, alumni and members of the larger community interact. Dining options include the COG with two floors of diverse resident dining with six restaurant-style platforms, Starbucks, Einstein Bros. Bagels, the Marketplace convenience store and The Bulldog, a full-service restaurant. A state-of-the-art rooftop hydroponic greenhouse grows organic produce that is served in resident dining. Additionally, the Hemmingson Center offers U.S. Bank, Next Gen Tech Bar, a grand ballroom, auditorium, meetings room and spaces for events, a reflection room, pop-up retail alcove, outdoor fire pit, and many places for students to meet and study. Administrative offices within the building include University Ministry (UMIN); Diversity, Inclusion, and Cultural Engagement (DICE) including Unity Multicultural Education Center (UMEC) and Lincoln LGBTQ+ Resource Center; Center for Community Action and Service-Learning (CCASL); Student Involvement and Leadership including Payne Center for Leadership
Development, Center for Student Involvement (140+ clubs and student governments), Gonzaga Outdoors (including bike and ski repair shop), Gonzaga Student Body Association (GSBA), and Transfer, Veteran and Returning Adult Services (TVRAS); Center for Global Engagement (CGE) including Study Abroad and International Student and Scholar Services (ISSS); and Gonzaga University Event Service Team (GUEST).

Gonzaga University Athletic Facilities

The Charlotte Y. Martin Centre is the home of Gonzaga volleyball. The gym, which is the birthplace of the Kennel, seats 2,000 fans. As a whole, the Martin Centre is 136,000 square feet and houses the volleyball gym, but is also the location of athletic offices and the recently renovated Academic Lab and Diedrick & DeLong Athletic Training Facility. The athletic training facility is a wonder on its own, covering nearly 5,000 square feet and featuring two state-of-the-art rehabilitation whirlpools.

The Rudolf Fitness Center is a 38,000 sq. ft. facility with cardiovascular and weight areas containing a full line of Olympic benches, dumbbells, Hammer Strength equipment, treadmills, elliptical machines, rowers, versaclimber, bikes, and steppers with 14 televisions. Also available are four racquetball courts, two aerobics rooms, a field house with three full basketball or volleyball courts, a (1/11 mile) rubberized running track, a six lane 25-yard swimming pool and a smoothie snack bar. The Rudolf Fitness Center also houses a majority of the physical education classes offered by the University and is open throughout the year for use by students, staff/faculty, and spouses.

The McCarthey Athletic Center is home to the Gonzaga men's and women's basketball teams as well as the Harry A. Green Indoor Rowing Facility. The facility, which features a 6,000-seat arena, is 144,000 square feet of screaming fans come basketball season and lives and breathes the legacy of past basketball greats, such as John Stockton.

Patterson Baseball Complex and Washington Trust Field became the home of Gonzaga baseball in the spring of 2007. The completion of the facility brought GU baseball back to the campus for the first time since 2003. The complex is named after benefactor and former Chairman of the Board of Trustees Mike Patterson, while Pete Stanton and Washington Trust Bank of Spokane were also major contributors.

Luger Field is home to Gonzaga’s Men’s and Women’s soccer programs. Phase I of the new facility was finished in fall 2008. Phase II of the facility was completed in the fall of 2015 with the addition of state of the art lighting which will allow our soccer teams to play their home games under the lights. The new facility provides not only a playing field, but a practice field for both the men's and women's teams as well as a press box and ticket booth. Phase III and IV will include the installation of permanent seating and a locker room for the home and visiting teams.

The Stevens Center, Gonzaga University’s new state-of-the-art indoor tennis and golf facility, opened in January 2014. This 72,000-square-foot facility includes six regulation tennis courts and a golf practice area with putting green, chipping area and four TrackMan simulators. Other prominent features include locker rooms, training rooms, team lounge, offices and balcony seating overlooking the tennis courts.
Campus Buildings

The Gonzaga University Campus includes 105 buildings and over 152 acres of landscaped grounds. Among these buildings are several new buildings, including a new tennis and golf practice facility and a new bookstore. A new University Center houses the Center for Global Engagement, the Campus Ministry offices, the Center for Community Action and Service Learning, the Unity Multicultural Education Center, a student leadership center, student government offices, multiple meeting rooms and lounges, a branch bank, a ballroom, as well as multiple food venues. Since 2000, twelve new buildings have been constructed, including the bookstore and parking facility, the Corkery and Kennedy Apartments; Coughlin, Dillon, Goller, and Twohy Residence Halls; the Law School; the McCarthey Athletic Center; the Paccar Center for Engineering; the Patterson Baseball Complex; and the Stevens Center for Tennis and Golf. A new fitness center was also added to the Martin Centre sports facility, and the Tilford Center for Nursing and Human Physiology, as well as Professional Studies, was created from a purchased facility. The Magnuson Theater was also renovated during this time frame.

Foley Center: This 20 million dollar library was opened in the fall of 1992, providing sophisticated on-line computer access to libraries across the United States. It also contains one of the finest rare book rooms in the country.

In addition to the library, Foley is now the home for the Writing Center, the Center for Teaching and Advising, the Center for the Virtual Campus digital Design and Production Center, and the Center for Academic Advising and Assistance, including the Disability Access, and Academic Testing Center.

Other Buildings: New buildings as well as historic ones grace the Gonzaga campus. The Jundt Art Center and Museum was completed in 1995. The Jepson Center for the School of Business was remodeled and expanded in 2004. The Rosauer School of Education building was completed in 1994. The historic Huetter Mansion was relocated to the University Campus and houses the Office of Campus Security and Public Safety, while the graceful 1902 Monaghan Mansion continues to house offices and practice rooms for the Music department. The Alumni Association along with the Division of University Advancement is now located in the BARC.

The University is planning the construction of a new Performing Arts Center, the Myrtle Woldson Performing Arts Center, scheduled to open in the fall of 2018. Additionally, the Volkart Center for Athletic Achievement as well as a new Jesuit residence are both slated to open in the Fall of 2017. A new integrated science and engineering facility is currently being contemplated.

St. Aloysius Church and the Student Chapel

The spires of St. Al’s Church are a landmark of the Spokane area. The chapel, located in College Hall, offers students a place for solitude and reflection as well as daily Masses.

A Century of Educational Leadership

After forty years of pioneer missionary efforts to bring Christian civilization and culture to the Pacific Northwest, the Rev. Joseph M. Cataldo, S.J., an Italian Jesuit missionary, initiated plans to build a mission school in Spokane Falls Territory. Out of the vision and courage of early Jesuits, Gonzaga College became a reality and admitted its first students in 1887, two years before Washington became a state.
The College became Gonzaga University with the opening of the School of Law in 1912. In 1916 the School of Philosophy of Letters for Jesuit Scholastics became part of the University. In 1921 the University opened the School of Business Administration and in 1928 the School of Education. The School of Engineering was established in 1934 and in 1975 the School of Continuing Education was established, now named the School of Professional Studies. Gonzaga is an independent, Roman Catholic and Jesuit university committed to ensuring our students an educational experience which encourages individual intellectual, moral, and spiritual development.

**Accreditation: The Mark of Excellence**

Gonzaga University is accredited by the Northwest Commission on Colleges and Universities (NWCCU), an institutional accrediting body recognized by the Secretary of the U.S. Department of Education. Gonzaga University holds specialized accreditations for specific degree programs through:

- The Council of the Section of Legal Education and Admissions to the Bar of the American Bar Association (ABA)
- The Association to Advance Collegiate Schools of Business (AACSB)
- The Commission on English Language Program Accreditation (CEA)
- The Commission on Collegiate Nursing Education (CCNE)
- The Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (EAC/ABET)
- The Computing Accreditation Commission of the Accreditation Board for Engineering and Technology (CAC/ABET)
- The National Council for Accreditation of Teacher Education (NCATE)
- The Council for Accreditation of Counseling and Related Education Program (CACREP)
- The Council of Accreditation of Nurse Anesthetists (COA)
- The British Columbia Ministry of Advanced Education and the Degree Quality Assessment Board (DQAB)
- The Alberta Ministry of Education and Technology and the Campus Alberta Quality Council (CAQC)
- The National Association of Schools of Music (NASM)

**GU Coat of Arms - The University Seal: The Mark of Distinction**

The University adapted the present form of its seal in 1914 from an earlier version used in the 1890’s. Beneath the eagle of the former seal is a shield; the order of precedence in this shield is dexter chief, sinister base, sinister chief, and dexter base.
In hatchment dexter chief are two gray wolves leaning on a black pot and chain; it represents the House of Loyola whose son, Ignatius, was the founder of the Jesuits; the pride of that House was that they kept the wolf away from the door of the poor.

In hatchment sinister base are the arms of the House of Gonzaga; a purple cross sustaining an escutcheon with the lions of Florence and three purple bars for the many ecclesiastical dignities given to the House of Gonzaga; the four falcons in the corners represent the hunting prowess of that family.

In hatchment sinister chief are the colors of Spain; seven red bars on a field of gold which were given to the House of Loyola-Onaz because seven brothers of that house distinguished themselves in service to the King of Spain. They form part of Ignatius of Loyola’s coat of arms.

In hatchment dexter base is a sunburst over Spokane Falls, a pine tree, and an Indian tepee; the Spokane Indians were so called because they were children of the sun.

The eagle in the crest is the American bald eagle which protects the university; above the eagle are found “IHS” of the name of Jesus, the cross, and the nails of His crucifixion all in black, surrounded by a halo of gold.

The escutcheon in the center of all is a royal blue field on which the white letter “G” stands for Gonzaga; the university’s colors are Royal Blue and Immaculate White. The scrolled A.M.D.G. stands for Ad Majorem Dei Gloriam, “For the Greater Glory of God,” the motto of the Society of Jesus. Below this is the date of incorporation of Gonzaga College. The wreath of bay leaves on the right represents classic renown, and the wreath of oak on the left signifies civic pride.

Our Commitment to Non-Discrimination

Gonzaga University subscribes to the principles and laws of the federal government and Washington State pertaining to civil rights and equal opportunity. The university does not discriminate against any person on the basis of race, color, religion, national origin, sex, marital status, sexual orientation, gender identity, age, disability, veteran status, or any other non-merit factor in employment, educational program, or activities that it operates. All university policies, practices, and procedures are consistent with Gonzaga’s Catholic, Jesuit identity and Mission Statement.

As a church-related institution, in conformity with federal and state law Gonzaga reserves the right to take religious faith into consideration where it is deemed appropriate. Gonzaga University’s Equal Employment Opportunity and Affirmative Action Plan is designed to further develop and maintain equal employment opportunity for all personnel and to insure the utilization of women, ethnic minorities, veterans and persons with disabilities at all levels and in all segments of the university, particularly where they are underutilized in relation to their availability in the work force.
Gonzaga University Strategic Planning Process

Vision Statement
Approved by the Board of Trustees on July 17, 2015

Gonzaga is a premier Liberal Arts based University recognized nationally for providing an exemplary Jesuit education that empowers its graduates to lead, shape, and serve their chosen fields and the communities to which they belong.

Institutional Priorities and Strategic Objectives

Gonzaga University is a complex organization that encompasses multiple channels of accountability, functions in a shifting competitive environment, serves a variety of constituencies and pursues a wide array of goals. Additionally, the University is increasingly being asked to become more sophisticated in how it makes decisions, delivers educational content, supports students and approaches its strategic planning. Meeting these expectations currently involves the work of more than 1,300 full-time employees, involves in excess of 2.6 million square feet of facilities and operates with a gross annual operating budget surpassing a quarter of a billion dollars.

At the beginning of the current administration, the President set forth three institutional priorities to guide decision-making and resource allocation:

- Gonzaga University an exemplar of American Jesuit higher education,
- of academic and educational excellence across all programs,
- with a commitment to institutional viability and sustainability.

In the current plan, these three institutional priorities have been further elaborated in the form of four “commitments” – an acknowledgment that we do our work in an active, relational context, possessed of mutual accountabilities.

Each commitment, in turn, contains strategic objectives that serve as declarations of continuous improvement. The objectives are distinct from, but related to, goals and strategic initiatives. Goals provide a means of defining institutional success in achieving the objectives, and strategic initiatives constitute specific activities undertaken in service of the goals.

A complete copy of the University Strategic Plan can be found on-line at
http://www.gonzaga.edu/About/mcculloh/university-strategic-plan.asp.
Student Services

University Ministry

University Ministry supports the faith development of all members of the Gonzaga community, regardless of religious affiliation and tradition. University Ministry provides opportunities and resources for spiritual growth and fellowship through retreats, service projects, liturgies, music ministry, small groups, spiritual direction, residence hall programs and more. These activities invite participants into a deeper understanding of Gonzaga’s Jesuit and Catholic identity as well as a profound respect for other religious and spiritual traditions.

Retreats: University Ministry’s retreat programs provide opportunities to practice reflection, leadership, fellowship and self-examination according to our Ignatian heritage. More than a thousand students participate in these retreats each year. We coordinate one Pilgrimage, two First Year Retreats, one Pre-Orientation First Year Retreat, four Search Retreats, one Men’s Retreat, one Women’s Retreat and two Montserrat Retreats every academic year. Each retreat is coordinated by a University Ministry staff member and many are led by student crews.

CLC/Life Groups: These are intentional small groups that meet weekly to reflect, share life, pray, laugh and grow. Each year, roughly 500 students gather in these small groups to deepen their relationship with God, form lasting relationships with others, and walk through the valleys and peaks of college life together. CLC/Life Groups also gather regularly for large-group activities, social events, and service projects.

Mass and Sacraments: As a Catholic university, we hold Masses on campus to unite us as a faith community. Two public liturgies are available each day in the Gonzaga community. People of all religious paths are welcome to join us in prayer and worship. In addition, we help students connect with other local churches and places of worship.

Not only are students invited to come to Mass, but they are also invited to take on leadership positions, such as Eucharistic Minister, Lector, Server, or Sacristan. University Ministry also offers students the Sacrament of Reconciliation through appointment or before Sunday evening Mass.

If you have questions about other University Ministry events and programs, please contact the office at (509) 313-4242 or umin@gonzaga.edu. University Ministry is located on the main floor of the Hemmingson Center (Suite 104) and online at www.gonzaga.edu/um.

Veterans

Gonzaga University’s academic programs of study are approved by the Washington State Higher Education Coordinating Board’s State Approving Agency (HECB/SAA) for enrollment of persons eligible to receive educational benefits under Title 38 and Title 10 USC.

For graduate students enrolled in academic programs offering courses in non-standard terms, the number of credits required to achieve a time status of “full time” shall be proportional to the number of weeks in that non-standard term divided by sixteen (e.g. 8 divided by 16, times 6 credits equals a full-time status of three (3) credits for a non-standard term of eight (8) weeks duration).
Eligible veterans needing to apply for their benefits, approved veterans needing certification of enrollment, or students with questions about possible veteran benefits should contact the University’s veterans advisor in Room 229 of College Hall.

**Disability Access**

Disability Access provides access services to Gonzaga University’s programs, services, activities and facilities for qualified students with disabilities in compliance with the Americans with Disabilities Act, Section 504 of the Rehabilitation Act of 1973 and Washington State laws. Disability Access serves students with permanent or temporary disabilities. Disability Access may arrange or provide appropriate and reasonable academic accommodations, auxiliary aids, assistive technology, physical/mobility aids and other types of accommodations for students with disabilities. Students should contact Disability Access to inquire about the procedure for requesting accommodations. The University recommends the student contact Disability Access at least four weeks prior to the semester for which they are requesting services. However, Disability Access continuously evaluates student documentation and requests for accommodation throughout the school year.

If at any time during the process of application, admission, and enrollment, individuals feel that they have been discriminated against because of disability, they are encouraged to notify Disability Access. Incidents which have occurred more than 120 days prior to making the complaint may or may not be given consideration. To obtain copies of GU’s Informal Complaint Process for Reasonable Accommodation or the Formal Grievance Procedure, please contact the Disability Access office.

Disability Access is located in Foley Center Library, 2nd floor, Room 209 and is at extension 4134. Visit the Disability Access website.

**Academic Testing Center**

If you need to use the ATC due to either accommodations or to take an exam outside of regularly scheduled course hours, please contact the ATC in advance. The Academic Testing Center is located in Foley Center Library, Second Floor, Room 203 and is at extension 5535.

**International Students**

Gonzaga welcomes applications from international students. Non-native English speaking students must present evidence of English proficiency sufficient for graduate-level work. Gonzaga University requires the Test of English as a Foreign Language (TOEFL) and that the official scores be sent from ETS. In lieu of the TOEFL, Gonzaga will accept satisfactory completion of Level 108 of the University’s English as a Second Language program with a grade point average of at least 3.00 and the recommendation of the ESL faculty. Applicants should submit transcripts in both their native language and an English translation. Photocopies are not accepted as official documents and may not be used for evaluation purposes.

In addition, Gonzaga University requests international applicants provide documentation of sufficient funds for academic and living costs while staying in the United States for at least the academic year (two consecutive full-time semesters) via the Financial Declaration form. On this form, students state that they have access to a certain amount of available funds as well as the source(s) for these funds. Students must provide documentation regarding the source of funding such as written notification from a sponsor or a certified bank statement.
In order to process an I-20 form, the University requires a completed Financial Declaration form and supporting documents. The University program director collects the information and accompanying documents; when the student is accepted, the program director forwards the documentation to International Student Programs, which prepares and mails the I-20 to the student. The student must report to the International Student Programs Office immediately upon arrival to receive a travel signature and to have immigration information collected.
Student Development

Mission Statement

Grounded by the University mission, the Division of Student Development provides educational opportunities and services that transform student’s lives.

We achieve this through shared priorities of:
  • Finding Purpose
  • Developing resilience
  • Cultivating intercultural competence
  • Promoting well-being and healthy living

As Student Development professionals we are committed to this work because we believe Gonzaga students, as individuals and in community, are on a quest for self-knowledge and character formation. We live out our calling to journey with them during this life-long transformation: “Transforming Together”

Student Development Vision Statement

We envision a community where students LIVE the University’s mission.

Offices

The Division of Student Development is led by the Vice President of Student Development and includes the Assistant Vice President for Career & Professional Development, Dean of Well-Being and Healthy Living, Dean of Student Engagement, and the Director of Campus Security & Public Safety. Health & Counseling Services
Health & Counseling Services functions as your private physician's office and counseling center. The Health & Counseling Services staff have a strong focus on wellness and want students to fully benefit from Gonzaga’s Jesuit education. Our Board Certified Family Physicians, Psychiatrist, Psychologist, Nurse Practitioners, Registered Nurses, Dietician, and Counselors are here to give you our expertise and care in a confidential setting. Our clinicians are able to diagnose and treat illnesses, prescribe medications, provide psychological counseling, and support students with long-term health concerns. For our hours, more details on available services, costs and billing, please visit our website.

Lincoln LGBTQ+ Resource Center
The Lincoln LGBTQ+ Resource Center at Gonzaga University is inspired and guided by the university mission and values of faith, service, justice, leadership, and ethics. It aims to serve as a center for supporting community, networking, research, and education related to concerns shared by students,
staff, and faculty of diverse sexual orientations, gender identities, and expressions. The center welcomes all to participate in upcoming events and programs in an effort to collectively learn and actively promote social justice. The Lincoln LGBTQ+ Resource Center is located in Hemmingson Center, Suite 315.

Center for Community Action and Service Learning (CCASL)

For over twenty years CCASL has been putting Gonzaga’s mission into action through a wide spectrum of volunteer and community-engaged learning projects. CCASL’s programs offer you the opportunity to develop a personal commitment to service, social justice, and leadership. We take seriously the Jesuit mission of forming, “women and men for and with others.” You can find our office in the Hemmingson Center. CCASL serves as a resource center for students, faculty, alumni, and community partners.

Housed within the Center are the following programs and initiatives:

Community-Engaged Learning
Gonzaga University has offered community-engaged learning (also known as service-learning) courses for over 20 years. These classes are taught across the curriculum and offered by the various schools, including the Law School. Over 1500 students are actively engaged in community-engaged learning each year. This office coordinates service fairs each semester which invite non-profit agencies to campus to share opportunities and recruit student volunteers.

Gonzaga’s Youth Programs & Initiatives
For over 20 years, the Center for Community Action and Service Learning (CCASL) has paired well-trained and passionate college students together with school-aged youth from the Spokane community. Started in 1995 with the creation of Campus Kids at Stevens and Logan Elementary, CCASL’s Youth Programs & Initiatives have expanded by leaps and bounds. Today, we run 7 distinct mentoring programs in 13 Spokane Public Schools, with approximately 350 Gonzaga students serving over 700 youth.

Weekly Student Engagement Volunteering
We have many ways for you to volunteer alongside other Gonzaga students addressing a variety of local community issues. You can serve meals with Campus Kitchens, form a community with adults with disabilities with Gonzaga University Specialized Recreation, or serve weekly at a local non-profit with your peers through the Zag Volunteer Corps Semester of Service program.

Zag Volunteer Corps (ZVC) Program
Join the ZVC Semester of Service program and serve weekly at a local non-profit organization. Partner organizations engage students in a range of projects serving youth, senior citizens, or members of the homeless community.

If you don’t have the ability to serve weekly throughout the semester, consider participating in a ZVC Saturday of Service project. You can serve once a month with a group of fellow students all over the city with our half-day Saturdays of service. This will give you a chance to work with various non-profits serving youth, helping construct homes, building trails, serving meals and much more.
**Wolff Fellowship Program**

Wolff Fellows co-design projects with local community-based organizations that build community capacity and strengthen partnerships between Gonzaga and the host agency. Projects are designed around CCASL’s six Arrupe Engagement Pathways: Advocacy & Awareness, Community-Engaged Learning & Research, Direct Service, Faith & Justice, Philanthropy, Policy & Politics, and/or Social Innovation. Through their unique projects, Wolff Fellows explore the connection between their disciplinary/career interests and public service, learn about community needs and assets, and partner with community organizations to build community capacity.

**Service Immersion Programs**

During winter or spring break, you can commit a week to serving in communities all over the country, from New York City to San Francisco and many in between. Our immensely popular service immersion programs, *Mission: Possible* and *Justice in January*, send groups of students across the country to serve, learn and engage in a diverse set of communities. We also provide an international immersion each summer.

**Unity Multicultural Education Center (UMEC)**

UMEC provides educational opportunities that cultivate mindfulness, intercultural development, and support the benefits of a pluralistic and inclusive environment. This office desires to meet the needs of a fluid demographic and provide the Gonzaga community with educational and social opportunities to raise cultural awareness. UMEC welcomes all to participate in upcoming events and programs in an effort to collectively learn and actively promote social justice. UMEC is located in Hemmingson Center, Suite 317

On-going programs throughout the year include:

- BRIDGE (pre-orientation)
- LEADS Mentoring
- Multicultural Honors Society
- Speakers Series
- Diversity Monologues
- Spring Break Alternatives (immersion programs)
- IGD

**Transfer, Veteran, and Returning Adult Services**

This office serves as your central point of information and provides you with the opportunity and resources to address any questions or concerns you may have about being a transfer, veteran, or returning adult student at Gonzaga University. We understand that transfer, veteran, and returning adult students face unique challenges when returning to college. We are committed to supporting your successful transition to college and to connecting you to the services available at Gonzaga to support your educational journey. We value and appreciate the diverse skills, talent, and knowledge that you bring to Gonzaga University.
Student Involvement and Leadership

The Department of Student Involvement is home to:

- The Graduate Student Council (GSC)
- The Gonzaga Student Body Association (GSBA)
- Student Clubs and Organizations
- Gonzaga Outdoors
- Payne Center for Leadership Development
- SpikeNites
- Student Media (formerly Student Publications)

The **Graduate Student Council (GSC)** is comprised of a president and council, who represent the various graduate programs at Gonzaga, the GSC acts as the conduit for voicing student (both on campus and online) concerns to the administration and seeks to improve graduate education and student life at Gonzaga University. The GSC encourages scholarship and professional development by administering scholarships to students attending and/or presenting at conferences. The GSC also organizes many academic and social events throughout the year.

The **Gonzaga Student Body Association (GSBA)** is committed to helping students. Through programs, sponsorships, events, and other academic and social activities, GSBA strives to meet the student’s needs. Gonzaga Activities Board (GAB) offers an array of events, from weekly coffeehouse artists, to guest speakers and lectures, and even big name concerts like Yellowcard and Ben Folds. GSBA also offers everyday programs like the Partnership in Education Readership Program, Safe Ride, the Wall, and much more! Most importantly, GSBA acts as the voice of the students to the administration. GSBA prides itself on a strong relationship with the faculty and administration which helps students’ voice their concerns and suggestions. Need more information, a GSBA form, curious about GSBA funding or painting the wall? Visit the GSBA website at http://gogsba.org/

**Student Clubs and Organizations**: Gonzaga currently has over 130 active and recognized student clubs that cover a wide range of interest. GSBA and the office of Student Involvement and Leadership work together to provide support and services for all student clubs and their members.

Visit the **Zagtivities** site to view all the clubs and organizations that are available, and to learn how to sign up! Curious about starting a club? Check out Gonzaga's Student Group Policy. If you have questions about guidelines, policies, processes and/or resources for Gonzaga University Student Groups, check out the Gonzaga University Student Group Manual. For more information visit our website at www.gonzaga.edu/getinvolved

**Gonzaga Outdoors** strives to keep the outdoors as accessible as possible by providing inexpensive gear rentals, subsidized outdoor adventures, and educational clinics. Their goal is to give as many students as possible the opportunity to enjoy the beautiful local surroundings. A few of the activities offered by Gonzaga Outdoors focus on: Skiing/snowboarding, snowshoeing, hiking, backpacking, kayaking, biking, fishing, rock climbing, and more.
The Gonzaga Outdoors office is located in lower Hemmingson. Contact us at 509-313-4189 or outdoors@gonzaga.edu

The **Terry Payne Leadership Resource Center** engages and supports all students seeking to develop their leadership potential and inspire positive change on campus and in their local and global communities. Our programs, services and resources offer students a deeper understanding of leadership in the Jesuit context of knowing self, building community, and impacting our world. We are also home to the Experiential Leadership Institute, a year-long leadership program for sophomore students.

Gonzaga's Community of Leaders is comprised of over 800 student leaders who facilitate, manage, and impact positive change for over 100 student clubs and organizations. The Payne Center helps students make meaning from their leadership experience and transform that learning into valuable lifelong leadership skills.

The Payne Center for Leadership Development offers a variety of services including:

- Student Leadership Summits
- SIL interns
- Leadership Workshops and Consulting
- Access to personal leadership inventories
- Guest speakers and professionals in the field
- Library of Leadership Resources

For more information visit our web-site at [www.gonzaga.edu/Student-Development/leadership-resource-center](http://www.gonzaga.edu/Student-Development/leadership-resource-center)

**SpikeNites** is the late night programming series in Hemmingson Center. Every Friday and Saturday from 10pm-2am SpikeNites will feature free movies, video game tournaments, comedians, special events and late night food options. Learn more about SpikeNites on Zagtivities.

**Career and Professional Development**
Career and Professional Development (CPD) helps students clarify and attain their educational and career goals by 1) developing a collaborative, community-wide network of career educators, 2) offering relevant and meaningful services and programs to foster and support their success, and 3) teaching them how to navigate lifelong career development

**CPD Services**

- **Individual Career Counseling & Advising**: Schedule an appointment over the phone, by email or online at [www.gonzaga.joinhandshake.com](http://www.gonzaga.joinhandshake.com). Open hours: 1-4pm Monday-Friday
- **RESUMANIA**: Monthly lunch hour resume review with free pizza!
- **Career Assessments**: Strong Interest Inventory, Myers Briggs Type Indicator
- **Etiquette Dinner**: Event highlighting proper dining and business etiquette
- **Speed Mock Interviews**: Practice your interview skills with employer representatives
• Workshops and Presentations: Representatives from Career & Professional Development regularly conduct workshops and seminars on career development around campus
• Internship Program: Learn how to prepare yourself, and find and develop internship opportunities related to your career goals
• Business Cards: Order Gonzaga branded student business cards through CPD

On-line Resources

• Career Beam: Job & internship posting board with career development guides and tools
• CareerShift: Job and internship posting board that facilitates communication with employers and serves as a job search document repository and disseminator
• GlassDoor: Online community that offers insight into employers based on employee generated content
• GoinGlobal: International job and internship posting board and database
• Handshake: Gonzaga’s online career tool kit that lists job openings and employers specifically for Gonzaga students and alumni
• What Can I do With This Major: Database of career paths related to academic major

Career Fairs

CPD hosts several career fairs throughout the year including:

• All Majors Career & Internship Fair (October)
• Engineering & Computer Science Career & Internship Fair (October)
• Partnership in Employment Career Fair (February/March)

Career Treks

CPD organizes regional career development and networking events in popular geographic areas. Treks include visits to employers and opportunities for students to network with alumni and parents in the following locations:

• New York City (September/October)
• Spokane (October)
• Portland (January)
• Seattle (January)
• San Francisco (March)
• Silicon Valley (March)
• Denver (May/June)

Gonzaga Alumni Mentor Program (GAMP) is a career development and networking resource for students and alumni. This award winning program assists students in exploring alternative career fields and in developing a personal network of contacts by matching them with alumni mentors. The program has almost 3000 participating alumni that represent a broad range of careers, experiences, and geographical locations. These mentors are willing to help students clarify academic and career decisions.
with real-world knowledge and experience. By taking part in this program students will gain realistic and current information from these Gonzaga graduates. They will also begin to develop the relationships they’ll need to help in the transition from school to the professional world of work. This program is intended for all majors and students are encouraged to use these services throughout their college experience.

Campus Security & Public Safety Department

This department facilitates the safety and security of students, staff, faculty, visitors and the property of the university. As part of the Division of Student Development, the Campus Security and Public Safety (CSPS) Department supports the educational and developmental missions outlined by the VP of Student Development. The department is open 24 hours a day, 365 days a year. Officers make regular checks of all university buildings and grounds with an emphasis on the residence halls and areas where students gather. Other services provided from this office are: safe escorts from location to location (on campus), jump starts, alarm checks, and suspicious activity investigations. CSPS works closely with the Spokane Police Department to coordinate criminal investigations and for requests of police services outside the authority of this department. They also work collaboratively with all local law enforcement and emergency service providers. To contact the office of Campus Security & Public Safety dial (509) 313-2222.

Office of Institutional Inquiry

"No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance". (Title IX 1972)

Students, faculty, and staff are protected from any sex-based discrimination, harassment or violence. Sexual violence includes attempted or completed rape or sexual assault, as well as sexual harassment, stalking, voyeurism, exhibitionism, verbal or physical sexuality-based threats or abuse, and intimate partner violence.

Title IX protects any person from sex-based discrimination, regardless of their real or perceived sex, gender identity, and/or gender expression.

The Office of Community Standards

The Office of Community Standards is responsible for the administration of the Student Code of Conduct. The office provides formative and developmental conduct processes and outcomes within the framework of Gonzaga's Jesuit identity and student conduct best practices. The Student Code of Conduct contains the University's standards of conduct and the accountability processes that address allegations of misconduct.

Gonzaga University's expectations for conduct go beyond what is minimally required for maintaining public order, both on and off-campus; and our student conduct processes are educational in nature as we actively seek to create an environment conducive to living and learning together. Our processes are
not civil or criminal proceedings and our standard for determining a finding of misconduct is based upon what is "more likely than not" to have occurred.

By attending Gonzaga University, you agree to abide by University standards of conduct, expectations and policies. All students should be familiar with the Student Code of Conduct which is published at: www.gonzaga.edu/studentcodeofconduct.

The Center for Cura Personalis (CCP)
The Center for Cura Personalis (CCP) exists to empower students to be their best selves. Cura Personalis means care for the whole person; The programs offered through CCP are non-clinical and engage students in well-being education as well as responding to the immediate needs of students who may be struggling. CCP provides various services which include:

- **Well-Being and Prevention Education** - The professional staff of this area partner with student peer educators to provide student-centered, harm reduction approaches to living a healthy and balanced lifestyle.

- **Case Management** - Case managers are here to meet one-on-one with students, support them in dealing with life’s challenges and help connect them to useful offices and resources both on and off campus. Case managers aim to build self-advocacy skills and promote personal growth through individualized meetings in a comfortable, private setting. If you or a fellow student are struggling, but not sure where to start, Case Management is a great option for you.

- **Collegiate Recovery Community** - The mission of this program is to foster a common, collective sense of purpose for students in recovery from substance use disorders or those exploring sobriety. OUR House provides a safe, recovery-positive environment where students can get support from other students who have been through what they’ve been through.

Learn more by visiting Gonzaga.edu/CCP or calling us at 509-313-2227.
Programs of Study

College of Arts and Sciences
- Master of Arts in Philosophy
- Master of Arts in Theology and Leadership

School of Business Administration
- Master of Accountancy
- Master of Accountancy/Juris Doctor
- Master of Business Administration
- Master of Business Administration in American Indian Entrepreneurship
- Master of Business Administration/Bachelor of Science in Engineering
- Master of Business Administration/Juris Doctor
- Master of Science in Taxation

School of Education
- Master of Arts in Leadership and Administration
- Master of Arts in Sports and Athletic Administration
- Master of Arts in Clinical Mental Health Counseling
- Master of Arts in Marriage and Family Counseling
- Master of Arts in School Counseling
- Master of Arts in Teaching English as a Second Language
- Master of Counselling (site based)
- Master of Education in Educational Leadership
- Master of Education (School Administration) (Alberta)
- Master of Education in Leadership and Administration (British Columbia)
- Master of Education in Special Education
- Master of Initial Teaching
- Master of Initial Teaching, Special Education
- Doctor of Education in Educational Leadership

School of Engineering and Applied Science
- Master of Engineering in Transmission and Distribution Engineering

School of Nursing and Human Physiology
- Master of Science in Nursing
- Doctor of Nurse Anesthesia Practice
- Doctor of Nursing Practice

School of Professional Studies
- Master of Arts in Communication and Leadership
- Master of Arts in Organizational Leadership
- Doctor of Philosophy in Leadership Studies
Academic Citizenship

Academic Freedom of Students

Freedom of Expression: Students are free to take reasoned exception to the views offered in particular courses of study. They may, however, be required to know thoroughly the particulars set out by the instructor, but are free to reserve personal judgment as to the truth or falsity of what is presented. Knowledge and academic performance should be the norms by which students are graded.

Academic Honesty

Grade Appeal

Students must maintain standards of academic performance set forth by the University if they are to receive the certificate of competence implied by course credits and degrees. The instructor is the usual and competent judge of these matters. But students must be protected against the rare case of unjust grading and evaluation. Allegations of unfair or prejudiced grading may be brought to the attention of and reviewed by the department Chair, by the Dean of the appropriate school and, if necessary, by the Academic Vice President, whose decision is final.

Minimum/Maximum Course Loads

Full-Time Status: The normal course load of a regular full-time graduate student is six semester credits.

Good Academic Standing, Unsatisfactory Academic Progress, Probation, and Academic Dismissal

Students are on Academic Probation whenever the term and/or cumulative GPA earned falls below a 3.00. To be in Good Academic Standing with the University, students must maintain a term GPA of 3.00 as determined at the end of every semester, beginning with the completion of the student’s second semester at Gonzaga University. Good Academic Standing is required for all graduating students, and it may impact a student’s ability to receive financial aid, or to represent Gonzaga in extra-curricular activities.

Students with unsatisfactory progress, may be subject to academic dismissal from the University. A notation of “Academic Dismissal” will appear on transcripts. Dismissed students have an opportunity for appeal.

Those receiving financial aid also may be subject to Financial Aid Satisfactory Academic Progress Probation and/or Suspension, which may result in additional financial consequences.

Satisfactory Academic Progress for Veterans

Veterans failing to achieve minimum standards of academic progress are placed on probation for the following semester and notified via email by the University’s Veteran Advisor. Should satisfactory
academic progress not be achieved by the following term, certification of veteran benefits will be suspended and the VA Regional Processing Office will be notified. Certification of veteran benefits can resume once satisfactory progress standing is attained.

Class Attendance Policy

Students are presumed to have sufficient maturity to recognize their responsibility for regular class attendance. Since illness or other good reasons may prevent attendance, Gonzaga University has a standard policy on absences. However, students should check the syllabus for each course to confirm the instructor's specific attendance policy, which should be clearly delineated within each syllabus, and which cannot be more restrictive than the GU policy.

Gonzaga's policy on absences stipulates that the maximum allowable absence is two class hours (100 minutes) for each class credit. For three credit classes the maximum absence is, therefore, six class hours (300 minutes). Classes scheduled to meet for more than 50 minutes have more than one class hour for each meeting; for example, a class which meets for 75 minutes has one and one-half class hours for each scheduled meeting. Instructors may report absences to the Registrar's Office which will in turn notify the students. The grade given for excessive absences is a “V”, which has the same effect as “F” (Fail) and is counted in the GPA. This outcome can be appealed to the Dean of the College/School in which the course is offered. Instructors are encouraged to work with individual students to ensure academic success.

Participation in school activities or athletics does not exempt students from this standard policy on absences. The fact that a student has met the other course requirements (such as papers) is not sufficient to change a "V" to a passing grade. The University Class Attendance Policy may be modified for qualified students with documented short or long term disabilities. For more information or case consultation, contact Disability Resources, Education, and Access Management (DREAM).

Final Examinations

Final examinations are held at the end of each semester. Final examination times are listed for each semester on the Registrar’s Office web pages. Students making their travel arrangements for the end of each semester must take into account these final examination times.

Final examinations or their equivalent can be administered by instructors only on the day and at the time indicated in the Final Exam Schedule; any exceptions to this procedure must have the explicit approval of the appropriate Dean.

Enrollment Verifications

On average, once a month the Registrar’s Office transmits enrollment data to the National Student Clearinghouse for enrollment verification of students with federal and state loans. The Registrar’s Office, upon timely notice, will also provide to any student a letter verifying his/her enrollment status to any agency. Students may print out their verification for insurance providers by accessing the National Student Loan Clearinghouse link through ZAGWEB.
General Academic Information

Please refer to the specific programs for admission requirements, time requirements and advanced and transfer credit information. Information pertaining to the Law School is published in the School of Law Student Handbook and Catalogue available from the Law School Registrar.

Admission to Candidacy

Upon completion of 12 credit hours of approved graduate work, a student may be admitted to candidacy. Candidacy will be denied and the student dropped from the program if the GPA is less than 3.00 or if the student’s performance is unsatisfactory. Students who have not been fully admitted to a degree program may not earn beyond 12 credits without such admission. The Program Director will inform those students not admitted to candidacy. A student may not transfer to a new program if he/she has been admitted to candidacy. Exceptions can be made with the approval of the Program Director and the Dean.

Degree Requirements

- Earn a minimum cumulative grade point average of 3.00.
- Only degrees and courses from regionally accredited institutions will be accepted.
- For most programs undergraduate and post-baccalaureate level courses may not be counted toward a graduate or doctoral degree. Students majoring in the post-baccalaureate DNP degree program may use post baccalaureate coursework toward completion of the post-baccalaureate DNP degree unless the coursework was used toward completion of another academic credential (i.e. degree or certificate).
- Courses used in the completion of a previous degree program may not be reused.
- Fractional credit is never rounded on a cumulative GPA and major GPA. Credit is not waived toward the total minimum credits required for a Gonzaga degree.
- Course attendance is not allowed without official registration and financial confirmation.
- Payment of all indebtedness to Gonzaga University, the return of all equipment to the appropriate entity, and the return of all books to Foley Library are required prior to a prospective graduate’s departure from Gonzaga. Holds may be placed on transcripts and diplomas for any of these or other deficiencies.
- Formal application for graduation: students must file an application and pay the graduation application fee according to the instructions and dates published by the University Registrar. Degrees will be awarded upon completion of all requirements as of March, May, June, August, October, or December, with one public commencement ceremony held on the second Saturday in May.
- Once a student has graduated from the University and a degree has been posted, no further change can be made to the academic record (i.e. grade changes).
Time Requirements for Degrees

All work accepted toward a degree is to be completed within a five-year period from the date of acceptance into the program or from the first semester of graduate-level enrollment, or advanced credit, whichever comes first. Students who wish to appeal to use course work older than five years will need to appeal to their Dean.

The Doctor of Nursing Practice (DNP) program requires completion of the post-master’s DNP within a five-year period from the date of acceptance into the DNP program or from the first semester of enrollment into the DNP program. Students who wish to appeal to use course work older than five years will need to appeal to their Dean. Students in the post-baccalaureate DNP option have seven years from the date of acceptance into the DNP program or from the first semester of enrollment to complete degree requirements. Students who wish to appeal to use course work older than seven years will need to appeal to their Dean.

Challenge of Courses

Graduate-level courses may not be challenged.

Repeating Courses for Improved Grade

A graduate student can repeat any course with another course of the same designation, in an effort to improve the GPA. The original course and grade will remain recorded on the student's transcript but will not be counted into the student’s GPA. The cumulative credits and GPA will be adjusted to reflect the last credits and grade earned. Courses for which a student received a grade carrying no quality point value, such as W, (X prior to Fall 1996), and AU, may be re-taken in subsequent semesters; these grades are not included in the repeat course policy jurisdiction. Courses taken as direct instruction also do not qualify under this policy. Only courses re-taken at Gonzaga University qualify to improve the GPA.

Academic departments are permitted to have more restrictive policies regarding repeating and/or withdrawing from courses. Students are advised to work carefully with their academic advisors and departments regarding departmental policies.

Individualized Study

Students may undertake individualized study if it is considered necessary to complete their degree program. Application for an individualized study must be made on a form available from the Registrar’s Office. It is the responsibility of the student to demonstrate the relevancy of the proposed study and the ability to complete it within an agreed upon time line. For most master’s programs, the student is allowed a maximum of two individualized study courses (six credits) for degree completion.

Extension and Correspondence Courses

Courses taken in extension or by correspondence are not allowed as credit toward graduate degrees. In exceptional cases, the Academic Vice President may waive this regulation if recommended by the Program Director and Dean.
**Thesis Information**

Graduate students who are preparing their thesis for publication will work with their respective Program Directors.

**International Graduate/PhD students**

To comply with immigration and reporting regulations, graduate international students on an F-1 or J-1 visa who have completed all required coursework, but remain on campus to complete their dissertation/thesis are required to enroll in a 1-credit thesis or dissertation course every fall or spring semester until completion. Please contact the International Student & Scholar Services Office for more information.

**Grading**

A student’s scholastic standing in each subject is determined by the combined results of examinations, assignments, class participation, and general evidence of regular and consistent application. Due weight is given not only to the degree of subject mastery manifested by the student but also to the ability to communicate orally and in written form.

Faculty are expected to be able to explain how final grades are calculated through the accumulation of points or percentages assigned in the evaluation of graded work. To indicate a student’s qualify of achievement in a given subject, final grades, in the form of letters and plus/minus indicators, are used by all instructors in the University’s graduate programs. The letter grades A, A-, B+, B, B-, C+, C, C-, D+, D, F and V are assigned a “quality point value” for purposes of cumulative grade point average calculations, certification and consistency of grade assignment and reporting.

<td></td>
</tr>
</tbody>
</table>
V 0.0  Failing (computed in GPA)
Grade awarded to students who have not officially dropped or withdrawn from
a course and consequently have not met class attendance requirements or
participation in the course through the end of a semester. The grade is given at
the discretion of the professor. Students should not assume that professors will
automatically initiate course drops/withdrawals for non-attendance.

S (Satisfactory)  Passing  (not computed in GPA)
grade of B or higher

P (Pass)  Passing  (not computed in GPA)
grade of B or higher

NS (Non Satisfactory)  Failing  (computed in GPA)
grade of B- or lower

W (Withdrawal)  (not computed in GPA)

RD (Report Delayed)  (not computed in GPA)

AU - Audit
No credit hours earned; does not apply toward a degree; the “AU” grade is not an option for instructors.
Students must register for this grade mode no later than the close of the drop/add period.

I - Incomplete
May be given when a student with a legitimate reason (determined by the instructor) does not complete
all the work of the course within the semester that he/she is registered for the course. The faculty
member notifies the Registrar’s Office with the reason for the “Incomplete” grade, lists the missing
material, and assigns a provisional grade that will be assigned thirty (30) calendar days into the following
semester (summer sessions are not included). Requests for a date extension beyond the published date
for removing incompletes must be approved through the appropriate Dean’s Office and the Academic
Vice President’s Office and sent to the Registrar’s Office for processing. Forms for this action can be
obtained from the Registrar’s Office. If the instructor does not submit an extension or a new grade
before the published date or time extension lapses, the provisional grade will be recorded on the
student’s transcript. If a provisional grade has not been provided, the “I” grade becomes an “F” grade
and is recorded on the transcript as an “I/F”. Whenever an “I” grade has been assigned, the “I” grade
becomes part of the permanent record. i.e. “I/B”, etc.

IP - In Progress
Assigned for courses such as Research, Comprehensive, Thesis, Dissertation and Proposal Seminar and
for other courses recognized by a Program Director/Dean as eligible due to the nature of the course and
the need for more than a semester to complete the course work. Instructors must indicate the deadline
for completion of the work. If no grade is submitted within one year, an “IP” automatically becomes a
“W” (unofficial withdrawal). Requests for time extension beyond the deadline must be submitted by the
instructor to the Registrar’s Office by completing the Extension form and obtaining signatures from the
Dean of the school the course falls under as well as the Academic Vice President. Once the course is
complete and graded, the Change of Grade form needs to be processed and the grade will be entered on the student academic record by the Registrar’s Office.

**P - Pass**

Designated elective courses may be taken on the Pass/Fail grading option by student request, not that of the instructor. Students select this option before the add/drop registration period closes by completing the appropriate paperwork in the Registrar's Office. Letter grades assigned by instructors that are 'B' or higher are converted to 'P' grades at the end of the semester and grades of B- or below are converted to 'F' grades. The 'P' grade does not calculate into the grade-point average and the credits earned count toward the minimum number of credits required to graduate. The 'F' (fail) grade affects the cumulative GPA as a standard 'F' grade.

**S/NS - Satisfactory/Non Satisfactory**

Certain courses are designated by academic departments for Satisfactory (S)/Non Satisfactory (NS) grading only. This is not a grading option that students choose. This is the grade mode determined by a department/school. The “NS” grade has the same effect as an “F” (failing) on the GPA. An “S” grade does not affect the GPA, and the credits earned are counted toward the total needed to graduate. Courses using this grade mode will not be converted to a standard grade.

**RD - Report of Grade Delayed**

If an instructor fails to assign a grade for a course and the grade entry is left blank, the Registrar's Office will assign an “RD” and the “RD” will remain a part of the student record until the earned grade has been received by the Registrar’s Office. To submit the grade, a Change of Grade form is required along with the Dean’s signature.

**V - Unofficial Withdrawal**

Grade awarded to students who have not officially dropped or withdrawn from a course and consequently have not met class attendance requirements or participation in the course through the end of a semester. The grade is given at the discretion of the professor. Students should not assume that professors will automatically initiate course drops/withdrawals for non-attendance.

**W - Withdrawal**

No penalties incurred. Not included in the attempted or earned GPA.

**Grade Point Average**

Graduate programs require a 3.00 cumulative grade point average in course work approved for the degree program. Students failing to meet the minimum grade point average will be considered on probation for one semester, may lose veteran benefits, and may be dropped from the program. Credits which carry a letter of C-, D, F, AU, W, V, IP, I, or RD do not count toward a graduate degree. The grade point average is determined by dividing cumulative quality points earned in authorized courses by the cumulative credits attempted in authorized courses. Letter grades (AU, W, I, IP, and RD) do not count as credit hours attempted and quality points are not awarded.
Transfer of Credits

Graduate students may transfer credits into their program with the approval of their Program Director, the Dean of the student’s program, and the Registrar’s Office. A maximum of 1/5 of program credits (usually six credits for graduates, 12 credits for doctoral) may be transferred.

Course work must be advertised as distinctively graduate level by the transfer institution and must have been taken within the last five years from a regionally accredited institution. A minimum grade of a B (P grades must be defined as B or better) must be earned. Courses applied to a degree or certificate previously awarded are not transferable to the student’s current program. It is important to note that all credits converted to semester credits, are not rounded up and are awarded only after signature approval for transfer of the course have been obtained on the Permission to Transfer Graduate Credit form. Transfer credits are used in the calculation of the graduate grade point average but are not entered on the student’s transcript until the student has been admitted to candidacy.

Non-Gonzaga Transcripts

Based on standard institutional practice, copies of transcripts from other educational institutions attended by Gonzaga students and housed in student files, will not be provided back to the student upon their request. Students are asked to contact the issuing institutions directly to obtain further copies of their transcript records.

Change of Grade

A change of grade requires a Change of Grade form signed by both the instructor and the Dean of the school in which the course was offered. Grades are normally changed only because of calculation error or failure to take into account a significant amount of student work.

Full-Time Status

In general, students must be registered for a minimum of six credits per semester to be considered full-time.
Financial Aid

For those students who need assistance in meeting the expenses of a Gonzaga graduate education, the University strives to provide as much financial aid as possible on an equitable basis.

Applying for Admission

A student must be admitted to a graduate program before financial aid can be offered; however, a student may apply for admission and financial aid concurrently in order to expedite the process.

Financial Aid Application

The Free Application for Federal Student Aid (FAFSA) is the required application for financial aid programs. In order for Gonzaga to receive FAFSA data to determine eligibility for financial aid, applicants must list Gonzaga University, Spokane, Washington, federal school code “003778“ in the School section of the FAFSA. The FAFSA is available online at www.fafsa.ed.gov.

Application Deadlines

There is no established financial aid deadline for graduate students; however, it is recommended that a student complete the FAFSA by March 1st each year for the following fall semester.

The Financial Aid Package

Once financial need has been established and the student is accepted for admission, the Financial Aid Office makes an award offer to the student via email. This offer generally includes loan funds and any scholarships or graduate assistantships of which the Financial Aid Office has been notified.

Loans

Federal Direct Unsubsidized Student Loans: The Unsubsidized Stafford Loan is a non-need based loan where the student is responsible for interest that accrues. The interest may be paid while in school or capitalized by adding it to the principal balance. The maximum loan is $20,500 per year, but may be adjusted due to receiving other financial aid, or by the student’s total cost of attendance. The FAFSA and a separate promissory note are required. The interest rate for the Federal Direct Unsubsidized Loan is established each June, and starts accruing from the time funds are disbursed. The promissory note can be completed online at www.studentloans.gov.

Graduate Direct PLUS Loan: A federal loan available to graduate students who show an absence of a negative credit history. The maximum amount of a Graduate PLUS is the total cost of attendance less any other aid received for the academic year. The Graduate PLUS loan accrues interest from the date of disbursement at a rate established each June. Monthly payments may be deferred while the student borrower is enrolled as at least a half-time student. Students must first borrow from the Federal Direct Loan program before applying for a Graduate PLUS loan. The FAFSA and a separate application and promissory note are required. Students can apply for this loan and complete the promissory note at www.studentloans.gov around mid-April.
Federal Nursing Loans: These loans are available to graduate nursing students with financial need. The Federal Nursing loan carries a fixed interest rate of five percent, with no accrual of interest while enrolled at least half-time. Students have a nine-month grace period after their enrollment drops below less than half-time before monthly payments are required. Minimum monthly payments of at least $40 per month and interest begin after the grace period.

Alternative Loans: There are several non-need-based private loan programs for graduate students. These loan programs offer a choice of variable interest rates and repayment plans tailored to meet the student’s needs. Approval is subject to lender credit criteria. Approval of the private loans by the lender is based upon the creditworthiness of the student. For a list of lenders that have helped Gonzaga students in the past, please see our website.

**Graduate Assistantship Awards**

Graduate assistantships are offered in several departments and schools. Each department or school determines if the assistantship is paid as a scholarship (which reduces tuition charges), or as a work award (that is paid as wages). Students receiving their assistantship as wages may elect to have their salary directly transferred to their student account by arranging this transfer through the Payroll Office. Applications for assistantships should be directed to the school or department in which a student enrolls.

**Satisfactory Academic Progress**

The Higher Education Amendments of 1992 require that a student receiving federal assistance must demonstrate satisfactory academic progress (SAP). In general, SAP is defined as “proceeding toward successful completion of degree within a specified period.” The policies and procedures governing SAP and its relationship to financial aid are available online at [www.gonzaga.edu/SAP](http://www.gonzaga.edu/SAP).
Financial Information

Student Costs and Payment Options

The University’s cost of providing a Gonzaga education is not borne solely by student tuition and fees. The annual Jesuit community gift, endowment income, and gifts of many types from individuals, firms, and foundations constitute some of the other revenue sources essential for a balanced budget.

However, revenue from student charges constitutes most of Gonzaga’s income. Student charges (less verified financial aid) are payable in full in U.S. dollars on a per semester basis, no later than three weeks prior to the beginning of the term. Knowing that payment in full presents a burden for many parents and students, Gonzaga offers two installment plans which cover the academic year and spread payments over a period of eight or ten months.

Eight and Ten Month Installment Plans

With each of these payment options, estimated tuition, room, and board expenses for the academic year are set up in equal monthly installments. The plans require an application and fee. There is, however, no interest charged. Verified financial aid is deducted from the total amount due.

The application deadline for the 10 Month Installment Plan is June 1st. Payments begin July 1st and run through the following April.

The application deadline for the 8 Month Installment Plan is August 1st. Payments begin September 1st and run through the following April.

December graduates or students enrolling in the spring semester for the first time should contact Student Accounts for semester payment options.

Students who are admitted to the University after the application deadlines given above may apply within two weeks of their acceptance date.

Note: All charges are payable in U.S. funds. Student Accounts accepts cash and checks for payment on account. Electronic payment is also available which includes e-Check at no charge to the student and credit card payment through American Express, MasterCard, Discover and VISA with a 2.75% convenience fee. An international payment option is available through Western Union Business Solutions (WUBS). Billing statements are available ONLINE only. For additional information, go to: www.gonzaga.edu/studentaccounts and click on the ‘Billing and Payment’ link.

Third Party Sponsors

A student whose account will be paid by a corporate or foreign sponsor, a government agency, a religious institution, a scholarship foundation or trust account, requires proof of sponsorship in the Student Accounts Office to settle their account.
Refunds

Graduate level students completely withdrawing from the University must obtain a Complete Withdrawal form from the Registrar’s Office. Tuition adjustments are calculated in Student Accounts. Final adjustments are based on the effective dates of withdrawals and exclude non-refundable fees. Room and Board is prorated throughout the semester. Laboratory fees are not refunded after the first full week of classes. Financial aid funds are refunded in accordance with federal, state, and University regulations.

The tuition adjustment schedules for dropped courses and complete withdrawals is posted at www.gonzaga.edu/studentaccounts and is also available in the Student Accounts and Financial Aid Offices.
Tuition and Fees 2017 - 2018

Included in tuition is a $30 non-refundable Student Development Fee.

**Tuition, per credit:**

**Doctoral Programs: (per credit)**

- Doctor of Philosophy in Leadership Studies ................................................................. $1,015
- Doctor of Nursing Practice ............................................................................................ $1,000
- Doctor of Nurse Anesthesia Practice ........................................................................... $955

**Master’s Programs: (per credit)**

- Business
  - Accounting .................................................................................................................... $955
  - MBA .............................................................................................................................. $975
- Communications and Organizational Leadership ....................................................... $940
- Education
  - Sport and Athletic Administration ............................................................................ $970

- Teacher Education Student Teaching .............................................. $180

**School of Nursing and Human Physiology:**
- DNAP Program Delivery Fee ....................................................... $500
- DNP Immersion Fee ...................................................................... $100
- DNP Clinical Admin Fee .............................................................. $70
- Grad Clinical Admin Fee .............................................................. $70
- Grad Immersion Fee .................................................................... $100–340
- Grad Program Delivery Fee ......................................................... $150–550

**School of Professional Studies:**
- Doctoral Dissertation Fee ........................................................... $245
- Communication Leadership .......................................................... $79-$89
- Organizational Leadership ............................................................ $45-$96

### Other Fees:
- Fitness Center Fee optional (per semester) ....................................... $150
- Late Add/Drop Fee ......................................................................... $50
- Degree Application Fee ............................................................... $75
- Late Degree Application Fee ........................................................ $100
- Mandatory Accident Insurance and Wellness Fee, per year ............. $50
- Summer Session Administrative Fee .............................................. $45

### Technology Fees:
- Full-time Student, per semester .................................................... $130
- Part-time Student, per semester .................................................... $70
- All Students, Summer ................................................................. $64
- Transcript Fee, each copy ........................................................... $5
- Installment Plan Application ......................................................... $65-$100
Room and Board

For information contact the Student Accounts Office.

Miscellaneous

The University reserves the right to change any costs and/or provisions without notice. It further reserves the right to withhold student information, including transcripts of record and diploma’s, until said student’s account has been paid in full. No student will be allowed to register for an ensuing semester if a balance is owed for a prior semester.

A finance charge of 12% per annum pro rata (365 days) or a rebilling fee of 1% of the total amount due or $2.00, whichever is greater, will be added to a student’s account on any amount more than 30 days past due. A no payment/no arrangement fee of 3% of the total amount due will be charged to a student not meeting the established payment deadlines.
University Confidentiality of Records Policy

The Family Educational Rights and Privacy Act of 1974 (FERPA), also known as the Buckley Amendment, is a federal law regarding the privacy of student education records and the obligations of the institution, primarily in the areas of release of records and access provided to these records.

The intent of the legislation is to protect the rights of students, and to ensure the privacy and accuracy of education records. The Act applies to all institutions that are recipients of federal aid administered by the Secretary of Education.

Education Records

Any record maintained by Gonzaga that contains information that is personally identifiable to a student (in whatever format or medium) is considered to be an education record with some narrowly defined exceptions to include the following:

- Sole possession records or private notes held by a school official that are not accessible or released to other personnel.
- Law enforcement or campus security records created and maintained by a law enforcement agency for a law enforcement purpose.
- Employment records of an individual who is employed by the institution unless the employment is contingent on student status.
- Medical/psychological treatment records.
- Alumni records created after the student has graduated or left the institution.

Student Rights

At Gonzaga, FERPA rights belong to the student who is in attendance beginning with his/her first day of class regardless of age. The definition of a student applies to all students including continuing education students, students auditing a class, distance education students, and former students.

FERPA affords students the following basic rights in respect to their education record:

- Right to inspect and review their education record maintained by the school.
- Right to request an amendment to the record that the student believes are inaccurate or misleading.
- Right to consent to disclosure of personally identifiable information.
- Right to file a complaint with the U.S. Department of Education concerning alleged failures to comply with the requirements of FERPA.

Challenging the Content of Education Records

A student who wishes to challenge information in their records must submit, in writing, a request for a hearing to the appropriate office maintaining the record, listing the specific information in question and the reasons for the challenge.
Hearings will be conducted by a university official who has no direct interest in the outcome of the hearing.

Students shall be afforded a full and fair opportunity to present evidence relevant to the reasons for the challenge.

The hearing officer will render a decision, in writing, noting the reason and summarizing all evidence presented within a reasonable time frame after the challenge is filed.

Should the hearing be in favor of the student, the record shall be amended accordingly. Should the request be denied, an appeal may be made in writing, and submitted to the University Registrar within 10 days of the student’s notification of the decision of the hearing officer. The appeal shall be heard by an appeals board of three senior University officials and a decision rendered, in writing, within a reasonable period of time.

**Parent Rights**

Once a student reaches the age of 18 or begins their attendance at a postsecondary institution regardless of age, FERPA rights transfer from the parent to the student. Parents can obtain information from their child’s education record if the student has submitted a signed consent form to the Registrar’s Office or if proof of dependency status has been provided through the receipt of a copy of the most recent income tax statement by the Registrar’s Office.

**School Official**

A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted as its agent to provide a service instead of using University employees or officials (such as an attorney, auditor, or collection agent); a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. Upon request, the University also discloses education records without consent to officials of another school in which a student seeks or intends to enroll.

**Legitimate Educational Interest**

When a school official requires access to a student’s record in order to perform their instructional, supervisory, advisory, or administrative duties. FERPA allows universities to give school officials who have legitimate educational interest access to education records without the written and signed consent of the student.

**Directory Information**

Those data items that are generally not considered harmful or an invasion of privacy if disclosed. Each institution establishes what it considers to be directory information. Gonzaga University does not authorize distribution of listings of student names with addresses and/or telephone numbers to any entity outside of the University unless it is required by law or otherwise allowed by FERPA. Gonzaga has deemed the following information, at the top of the next page, as directory information:
• Student name
• Addresses & phone numbers
• E-mail addresses
• Place of birth
• Major field of study
• Dates of attendance
• Full or part time enrollment status
• Year in school (class)

• Degree(s) received
• Scholastic honors and awards received
• Other educational institutions attended
• Visual images (through photographs or videos)
• Height and weight of athletic team members

Directory information may be published in a student directory or event program and released to the media and to the public for enrolled students.

Every student is given the opportunity to have directory information suppressed from public release through their signed consent on a form available from the Registrar’s Office. With this agreement, the information will not be disclosed unless authorized under the Family Educational Rights and Privacy Act of 1974 (FERPA).

**Annual Notification**

Gonzaga notifies eligible students annually of their rights under FERPA. Gonzaga provides this notification to each student via e-mail and through publications such as the University catalogues.

College of Arts and Sciences

Dean: Elisabeth Mermann-Jozwiak  
Associate Deans: Matt Bahr, Patricia Terry

The College of Arts and Sciences offers graduate programs on both a full-time and a part-time basis. The Master of Arts degree is available in Philosophy. The Department of Religious Studies offers the Master of Arts degree in Theology and Leadership.

Philosophy

Chairperson: Jay Ciaffa  
Director of the Philosophy Graduate Program: David Calhoun  
Assistant Professors: M. Howard, C. Lassiter, T. Tritten, T. Weidel

Master of Arts in Philosophy

The Master of Arts program in Philosophy builds on the central place of philosophical study in Gonzaga's Jesuit, Catholic, humanistic identity. Through coursework, supervised study, examinations, and a thesis, the program stresses understanding of the main problems of philosophy as they emerge in the history of philosophy, knowledge of the major figures and movements of the history of philosophy, and attention to contemporary philosophy and social and applied ethics. The program’s focus on fundamental questions of reality, knowledge, and the good promotes skills of reflection and self-examination, and prepares students for critical engagement with and across human cultures. These goals reflect the mission of the Philosophy Department and the mission and identity of Gonzaga University, particularly the goals of intellectual inquiry, development and discipline of the faculties of intelligence and moral judgment, and intelligent and morally informed leadership. The program provides students with resources to make use of philosophical concepts and skills in a variety of career contexts, including Ph.D. studies in philosophy and related disciplines, such as theology, law, and politics, and philosophy teaching at the introductory university or community college level.

The Master’s degree is offered on a full-time or part-time basis during the regular session. While many courses offered in the Gonzaga Master of Arts program are cross-listed with undergraduate courses, a Graduate Seminar restricted to graduate students only is offered each fall and spring semester. A limited set of graduate-level philosophy courses is also available during summer.
Admissions

Each applicant must submit the following materials:

1. A completed application form and a non-refundable application fee.
2. Two official transcripts from each college or university attended (international applicants must submit foreign transcripts in the original language and an English copy). Only degrees and courses from a regionally accredited institution will be accepted.
3. Three letters of recommendation sent directly from the recommending individual.
4. The official score from the GRE general aptitude test or MAT (must be less than five years old), a requirement which may be waived if the applicant has an advanced degree.
5. Submission of an official TOEFL score of at least 100 ibt or 250 cbt or 600 pbt by each international applicant who has graduated from a foreign college or university and whose native language is not English.
6. Submission of a financial declaration form and supporting documentation by each international applicant.
7. Personal statement of philosophical background and interest.
8. A sample of philosophical writing (no more than 3500 words).

Prerequisite

B.A. with major (or acceptable background) in Philosophy from a regionally accredited college or university.

Requirements

Completion of the Master of Arts degree in Philosophy from Gonzaga University requires:

1. 30 credit-hours of philosophy: 24 hours of graduate level course work, six hours for the thesis (PHIL 699).
2. Registration in the Graduate Seminar each semester in which the student is taking course work.
3. Successful completion of a comprehensive examination (including written and oral components) (PHIL 697).
4. Successful completion of a logic exam, testing skills up to and including the predicate calculus (PHIL 695).
5. The M.A. program has no foreign language requirement, but a thesis director may require a student to have competency in translating texts from a foreign language into English depending on the student’s thesis topic.
Course Descriptions:

**PHIL 505 - History of Ancient Philosophy**
A survey of major figures and developments in ancient Greek and Hellenistic philosophy from Thales to Plotinus, using texts in translations. Fall.

**PHIL 510 - History of Medieval Philosophy**
A survey of the major philosophical movements in the Latin, Greek, and Arabic traditions from the seventh to the fourteenth centuries. Spring.

**PHIL 513 - Theory of Knowledge**
Problems, positions and synthesis of the modes of human knowledge.

**PHIL 516 - Marxism**
Some major writings of Marx, the social and intellectual history of Marxism, the relationship between Marxist theory and revolutionary practice, and contemporary problems in Marxism.

**PHIL 521 - American Philosophy**
A study of major figures in the American philosophical tradition.

**PHIL 525 - Phenomenology**
Some proponents of phenomenological philosophy stemming from Husserl.

**PHIL 528 - Philosophical Hermeneutics**
Allied with phenomenology, philosophical hermeneutics struggles not only with interpreting patterns of meaning in classical philosophical texts, but also with interpreting patterns of meaning in human existence based on the model of the text.

**PHIL 530 - Metaphysics**
A systematic ordering and development of the perennial questions concerning being and existence; unity, diversity, truth, value, causality, and transcendence; and the existence and nature of God.

**PHIL 534 - Chinese Philosophy**
A survey of the history of Chinese philosophy focusing on the Confucian tradition and taking other traditions such as Taoism and Buddhism into account.

**PHIL 535 - C.S. Lewis**
This course examines Lewis the Christian intellectual as his participation in the Christian theistic tradition and his philosophical training exhibit themselves in his fictional, philosophical and theological works.

**PHIL 536 - Walker Percy**
This course examines both fiction and non-fiction works by Walker Percy (1916-1990), with particular emphasis on his development of existential themes and C.S. Peirce's semiotics. We investigate Peter Augustine Lawler's description of Percy as a proponent of "postmodernism rightly understood."

**PHIL 538 - Philosophy of Love and Friendship**
Survey and analysis of influential accounts of love and friendship, including treatments of erotic/romantic love, friendship, and charity, within a framework provided by C.S. Lewis classic study 'The Four Loves'. Special attention will be given to the relation between views of love and the nature of happiness, proper treatment of others, human desire and psychology, character, self-love, and religious devotion.

**PHIL 541 - Symbolic Logic**
The study of modern symbolic logic (propositional and predicate). Metalogical issues (the syntax and semantics of formal systems) are discussed.

**PHIL 546 - Philosophical Reflections on Christianity and Science**
Philosophical inquiry into the historical relationship between Christian religious doctrine and the
knowledge imparted by the sciences, with focus on particular episodes such as the Galileo affair and the Darwinian revolution.

**PHIL 551 - Political Philosophy**
Credits: 3
An examination of the nature and norms of political life with attention to major historical themes in the light of contemporary relevance.

**PHIL 554 - Existentialism**
Credits: 3
The movement from Kierkegaard to the present.

**PHIL 563 - Social Justice**
Credits: 3
This course will critically consider famous theories of justice, as well as their applications to some social and moral problems.

**PHIL 565 - Philosophy of Religion**
Credits: 3
A study of the nature of religious experience and practice, and how religious language and belief relate to science, morality and aesthetics. Included is also a study of what is meant by 'God,' divine attributes and proofs for and against God's existence.

**PHIL 567 - Faith and Reason**
Credits: 3
This course will address a cluster of fundamental problems of faith and reason--the nature of knowledge, especially in connection with religious claims, evidence for the existence of God, the relevance of recent advances in cosmology to the Christian world view, the problem of evil and suffering, and the challenge of atheism.

**PHIL 577 - Graduate Seminar**
Credits: 3
A seminar will be scheduled for graduate students in philosophy each fall and spring semester. Topics will vary. Class size is limited to allow for greater student participation and writing.

**PHIL 578 - Philosophy of Technology**
Credits: 3
This course in applied philosophy involves reflection and self-understanding of our technology-saturated world. Examinations of well-known philosophers' writings on technology will be covered. Course goals include a deeper, more reflective understanding of the nature of technology, its role in our lives, its ethical implications, its political ramifications and its relation to society.

**PHIL 579 - Graduate Seminar**
Credits: 3
A seminar will be scheduled for graduate students in philosophy each semester. Topics will vary. Class size is limited to allow for greater student participation and writing.

**PHIL 585 - Philosophy in Film**
Credits: 3
Many current films raise first-order philosophical questions or issues, though few films are particularly good at solving those same problems or resolving the conflict underlying the issues. This course seeks to explore many contemporary films (none older than "Blade Runner") and the philosophical issues they raise, both by their explicit content and by their implicit content. Metaphysical issues about the mind and body relationship, the nature and extent of free will, and the nature of personal identity will be included. Some epistemological issues having to do with how well we can expect to have access to reality, and what might be among the impediments to the access, will also be included. The course generally avoids treating ethical or moral issues, but also takes an interest in the use of the emotions in films, the treatment of violence and human sexuality in films, the nature of comedy in films. Some attention will also be given to film techniques, especially from the point of view of the audience.

**PHIL 586 - 588 - Seminar**
Credits: 1-3
Topics will vary.

**PHIL 611 - Continuing Research**
Credit: 1
PHIL 690 - Directed Study  
Credits and material to be arranged. Must have form completed before registering.  
PHIL 695 - Logic Requirement  
PHIL 697 - Comprehensive Examination  
Students must register via ZAGWEB for comprehensive exams.  
PHIL 698 - Research  
PHIL 699 - Thesis  
Students must register via ZAGWEB for Thesis credits.

Master of Arts in Theology and Leadership

The Department of Religious Studies at Gonzaga University offers the Master of Arts in Theology and Leadership degree to meet the needs of persons seeking greater understanding and practical knowledge of theology and leadership. This program is designed as a terminal degree or as preparation for doctoral studies. Students enter the program as members of a cohort and progress through the program together. Students gather on campus during the summer for two residency experiences. Courses usually required for a degree can be waived by a Graduate Program Director when these areas have been previously studied in depth.

This program provides graduate theological education and leadership formation for teaching, consulting, research, and development of theological resources for ministry, adult education programs, and other services to the church and the wider civic community. Graduates of these programs have combined their theological work with diverse career commitments, including church ministry, journalism, medicine, community service, chaplaincy, business and law, among others.
Admissions

Applicants must submit the following materials:

1. A completed Gonzaga University Master of Arts in Theology and Leadership application.
2. $50.00 non-refundable application fee.
3. Two confidential letters of recommendation sent by the recommending persons directly to Gonzaga University using the official Religious Studies Confidential Recommendation Form.
4. A three to five page piece of the applicant's written academic work (in English). A complete paper is not required; it should be a piece of what the applicant considers a good example of his/her writing/research ability.
5. A one page statement of purpose (in English) responding to the following:
   a. Describe your interests in Theology and Leadership.
   b. Assess your current strengths and describe what you hope to gain from the Master of Arts in Theology and Leadership program.
6. The official score from either the Miller Analogies Test or the GRE general aptitude test (must be less than five years old). This requirement may be waived at the discretion of the Program Director.
7. Two official transcripts from each college or university attended. **International applicants must submit foreign transcripts in the original language and also in English. Only degrees and courses from a regionally accredited institution will be accepted.

International students must also provide the following:

1. Proof of English proficiency which can be satisfied by one of the following options:
   a. TOEFL score of 550 or more if graduated from foreign college and where the native language is not English.
   b. Proof of undergraduate studies (transcript) in the United States
2. Completed Financial Declaration with original supporting bank statements.

Prerequisites

An application is not complete and will not be evaluated until all materials have been received by the Office of the Dean of the Virtual Campus. Materials or fees submitted to another party do not constitute application to the program.

Applicants should have a B.A. in Religious Studies, Theology, or related area. Applicants may be eligible for advanced standing of up to 6 credits for related graduate work as determined by the graduate Program Director(s). Applicants seeking advanced standing must petition the graduate director(s) in writing at the time of application.

Program Requirements

Students enter the program as members of a cohort and register for six credits per semester. All work accepted toward a degree is to be completed within a five year period from the date of acceptance into the program, or from the date of the earliest course accepted transfer credits, whichever occurs first.
Students in a degree program are required to maintain a minimum grade point average of 3.0. Students who fail to maintain a 3.0 cumulative grade point average may be put on probation or dismissed from the program. Credits which carry a letter grade of C-, D, F, AU, X, V, IP, RD or I, will not be counted toward a graduate degree.

Only authorized courses for a degree will be counted in computing the grade point average. Courses not authorized will appear on the transcript with a letter grade awarded but will not affect the graduate grade point average.

Residency Experiences

1. Students will participate in two residency experiences during the summer.
2. During the first residency experience students will participate in the intensive residency portion of the 3-credit Christian Leadership foundational course.
3. During the second residency experience students will participate in a 1-credit Leadership Seminar of their choice.

Comprehensive Exam

1. Students who have completed their core courses will take a comprehensive exam.
2. The comprehensive exam will be based on a bibliography developed in consultation with the student's advisor. The exam will be administered online, and assessed by a three person faculty committee including the student's advisor, and graded pass/fail.
3. Students who fail the exam will have one opportunity to retake the exam within six months.

Financial Aid

The department has a limited amount of financial aid in the form of scholarships. They are based on financial need and academic performance.

RELI 505 - Introduction to Christian Leadership  credits: 3
Taken during summer orientation at the beginning of the student’s entry into the program, this course
provides an introduction to foundational theological questions related to Christian leadership and
organizational theory. Summer.

Restrictions:
Must be in the following field(s) of study: Theology and Leadership

RELI 506 - Systemic Theology I: God, Humanity, and Christ  credits: 3
The first of a two course sequence, this course explores systematic questions regarding the nature of
God, God's relationship with humanity, and the person and mission of Christ. Beginning with a
consideration of theological method, the course introduces students to both classical texts and
contemporary approaches to theological reflection, with a special emphasis on theologies of liberation
and social justice. Fall.

Restrictions:
Must be in the following field(s) of study: Theology and Leadership

RELI 507 - Systemic Theology: Spirit, Church, and World  credits: 3
The second in a two course sequence, this course explores systematic questions regarding the mission
of the Spirit in the church and the world, including theologies of history and eschatology, but with
special attention to the liturgical life of the church. The course provides a foundation for further studies
in ecclesiology, liturgical theology, and ministry through an examination of classical and contemporary
texts, paying particular attention to theological methods. Spring.

Restrictions:
Must be in the following field(s) of study: Theology and Leadership

Pre-requisites: RELI 506

RELI 509 – Foundations of Theology-Special Topics  credits: 3
RELI 510 - Hebrew Bible/ Old Testament  credits: 3
Examines the theological issues, major themes and development of the Hebrew scriptures.

Restrictions:
Must be in the following field(s) of study: Theology and Leadership

RELI 514 - Hebrew Scriptures Special Topics  credits: 3
RELI 519 - New Testament-Special Topics  
**Restrictions:**
Must be in the following field(s) of study: Theology and Leadership

RELI 520 - Trends in Contemporary Theology  
credits: 3
A selective engagement of current themes and authors who are setting the course for theology in the 21st century.

RELI 526 - Comparative Theologies  
credits: 3
This course explores comparative theologies as ‘faith seeking understanding’ in the context and presence of the persons, texts and wisdom of one or more other religious traditions, with the aims of enacting solidarity with others and encountering fresh theological insights. The course rehearses the history of Christian views of other traditions (Theologies of Religions) and promptly moves forward with concrete experiments in comparison. Possible dialogue partners include Hindu, Buddhist, Jewish and Muslim texts and persons.

RELI 529 - Systemic Theology Special Topics  

RELI 530 - Christian Moral Theology  
credits: 3
How does theological ethics inform a Christian understanding of our practical moral life? This course will examine the fundamental concepts of Christian theological ethics and study their application to specific ethical issues and problems.

**Restrictions:**
Must be in the following field(s) of study: Theology and Leadership

RELI 539 - Contemporary Ethical Issues  
credits: 3
RELI 545 - Church History  
credits: 3
The historical origins of Christianity and its development to the Reformation.

**Restrictions:**
Must be in the following field(s) of study: Theology and Leadership

RELI 549 - Church-Special Topics  
credits: 3
RELI 569 - Liturgy-Sacrament - Special Topics  
credits: 3
RELI 579 - Spirituality - Special Topics  
credits: 3
RELI 581 - Ignatian Spirituality  
credits: 3
The personal spirituality and legacy of St. Ignatius Loyola.

**Restrictions:**
Must be in the following field(s) of study: Theology and Leadership

RELI 606 - Mission Leadership Seminar  
credit: 1
This seminar brings together graduate faculty and professionals in the field of mission leadership to discuss the challenges and strategies for mission integration in complex mission-based organizations including Health Care, Education, and Non-profit organizations. Students earning credit for the seminar will produce a major paper during the following Fall semester in consultation with the instructor. Summer.

**Restrictions:**
Must be in the following field(s) of study: Theology and Leadership

Pre-requisites: RELI 505 and RELI 506 and RELI 507 and (RELI 510 or RELI 519)

RELI 607 - Ministry Leadership Seminar  
credit: 1
This seminar brings together graduate faculty and ministry professionals to explore challenges and opportunities in ministry leadership in the fields of liturgical ministry, parish ministry, and teaching. Students earning credit for the seminar will produce a major paper during the following Fall Semester in consultation with the instructor. Summer.

Pre-requisites: RELI 505 and RELI 506 and RELI 507 and (RELI 510 or RELI 519)
RELI 611 - Continuing Research  credit: 1
RELI 690 - Directed Readings  credits: 1-3
RELI 698 - Thesis  credit: 1
The Thesis will be either a substantial work of theological scholarship or a detailed project (e.g., curriculum, program grant, mission integration initiative) related to the student’s particular interest in ministry or leadership in the community. During fall semester, the student will develop a thesis/project outline in consultation with a faculty advisor.

Restrictions:
Must be in the following field(s) of study: Theology and Leadership

RELI 699 - Thesis  credits: 2
The Thesis will be either a substantial work of theological scholarship or a detailed project (e.g., curriculum, program grant, mission integration initiative) related to the student’s particular interest in ministry or leadership in the community. During spring semester, students will complete their thesis/project and participate in an online peer review forum.
Graduate School of Business Administration

Dean: Kenneth Anderson  
Director of Graduate Accounting Programs: Gary Weber  
MBA Programs Director: Christopher Stevens  
Associate Dean for Undergraduate Programs: Molly Pepper  
John L. Aram Chair of Business Ethics: B. Steverson  
Erwin Graue Professor of Economics: K. Henrickson  
Kinsey M. Robinson Professor of Business Administration: P. Buller  
Pigott Professor of Entrepreneurship: T. Finkle  

Assistant Professors: A. Brajcich, S. Hedin, M. Hoag, J. Morschecck, T. Olsen, M. Tackett  

Lecturers: C. DeHart, M. Joy, C. Lipsker  

The School of Business was established in 1921 and is accredited by AACSB International - The Association to Advance Collegiate Schools of Business. As stated in its Mission, the School “develops professionally competent and intellectually curious graduates who exemplify the humanistic, ethical, and moral values of a Jesuit institution. We provide a challenging and supportive learning environment, with quality students and faculty marking our excellence. As part of a global environment, we promote relationships with regional, national, and international business and scholarly communities.” To support the mission of the School of Business, the Graduate School of Business strives to develop in graduates the following competencies and qualities:

1. An ability to appropriately apply the advanced technical and analytical skills required for effective managerial decision-making.  
2. An ability to integrate ethical perspectives and principles as well as a commitment to the common good into their conception of how business decisions ought to be made.  
3. An ability to possess the interpersonal and organizational skills required to effectively manage within organizations.  
4. An ability to understand diverse perspectives and the global reach of business decisions.  

The majority of graduate classes are offered in the evening with some offerings in the early morning and late afternoons. Students can complete degree requirements on either a part-time or full-time basis.
Degrees Offered

Master of Accountancy (MAcc)
Master of Accountancy/Juris Doctorate (MAcc/JD)
Master of Business Administration (MBA)
Master of Business Administration in American Indian Entrepreneurship (MBA/AIE)
Master of Business Administration/Juris Doctorate (MBA/JD)
Master of Business Administration/Master of Accountancy (MBA/MAcc)
Master of Business Administration/Master of Taxation (MBA/MTax)
Master of Science in Taxation (MTax)
Master of Science in Taxation/Juris Doctorate (MTax/JD)

For more information visit: www.gonzaga.edu/MBA, www.gonzaga.edu/MAcc, or www.gonzaga.edu/MTax to access information on your specific program.

Admission Requirements

Admission decisions are based on the evaluation of the following factors: cumulative grade point average (GPA), Graduate Management Admission Test (GMAT) score, three short essays, two confidential recommendation letters, and resume with relevant work experience. Each applicant must submit the following materials to the Graduate School of Business:

1. A completed application form and a non-refundable application fee.
2. Two online recommendations from professors, supervisors or managers.
3. One official set of transcripts from each college or university attended. International students must submit foreign transcripts in the original language and an English copy. A course-by-course report from ECE (Educational Credentials Evaluators) or WES (World Education Services) is to be sent directly to the Graduate School of Business. Only degrees and courses from a regionally accredited institution will be accepted. We will accept e-scrip transcripts.
4. Official Graduate Management Admissions Test (GMAT) score.
5. A professional resume detailing relevant work experience and professional objectives.
6. Answers to the three essay questions on the application.

International Applicants must also submit:

7. An official TOEFL score of at least 88 (IBT), 230 (CBT), 570 (PBT) or an IELTS score of 6.5 or above by each international applicant who has graduated from a foreign college or university and whose native language is not English.
9. In addition, the Graduate School of Business may require a personal interview with incoming international applicants. A deficiency in written or spoken English may be remedied by the successful completion of English and speech courses, which may be required for securing admission.
10. A virtual interview may be required.
Graduate business programs are open to qualified holders of a baccalaureate degree from an accredited institution regardless of undergraduate major field of study. The goal of the admission policy is to select degree candidates who demonstrate high potential for academic and professional success. Students of promise normally exhibit a GMAT score in excess of 500 and at least a 3.00 cumulative grade point average.

A prospective student may enroll for one semester as a non-matriculated student for a maximum of one to two graduate business courses. The Graduate Program Director can elect to confer non-matriculated status to a student of demonstrated potential that has applied for admission but who may not have been able to complete the application process prior to the start of classes.

Tuition refunds are dependent upon the relevant Academic Calendar. Courses offered outside of the advertised semester-long schedule are subject to a refund of tuition that may be different from the standard University schedule.

**Prerequisite Requirements**

**MBA Requirements**

In order to enroll in all MBA course content, MBA students are required to complete the following prerequisite coursework:

- Microeconomics
- Macroeconomics
- Principles of Management
- Principles of Marketing
- Operations Management
- Financial Accounting
- Managerial Accounting
- Business Law
- Management Information Systems
- Principles of Finance

Many prerequisites can be completed alongside MBA level course content.

To be waived out of each of the eight prerequisites below, students must have completed equivalent coursework in the past seven years with a minimum grade of a "C" or have significant work experience in the field.

- Microeconomics
- Macroeconomics
- Principles of Management
- Principles of Marketing
- Operations Management
- Managerial Accounting
- Business Law
- Management Information Systems

To be waived out of the two quantitative prerequisites below, students must have completed them in the past four years with a minimum grade of a “B” or have significant work experience in the field.

- Principles of Finance
- Financial Accounting

Admitted students must consult with their advisor before registering for their first semester in order to evaluate their prerequisites and to develop a plan for completing them. Prerequisites can be fulfilled by:
• Successfully completing the appropriate three credit pre-requisite course.
• Successfully completing the appropriate one credit review course (only available for pre-requisites in Statistics, Principles of Finance, and Financial Accounting - must be pre-approved by the advisor).
• Successfully completing a proficiency exam offered by Gonzaga’s School of Business or CLEP exam.

Pre-requisite course credits are not counted toward the graduate degree program credits. They must be taken in addition to the 33 credits required for the MBA degree.

**MAcc Pre-Requisite Requirements**

Prior to enrolling in graduate coursework required for the degree program, MAcc students are required to complete the following pre-requisite coursework:

- Microeconomics
- Macroeconomics
- Principles of Management
- Principles of Marketing
- Operations Management
- Financial Accounting
- Managerial Accounting
- Business Law
- Management Information Systems
- Statistics
- Principles of Finance
- Intermediate Financial Accounting 1 & 2
- Cost Accounting
- Principles of Taxation
- Auditing

To be waived out of these pre-requisites, students must have completed equivalent coursework in the past four years with a minimum grade of a "C." Alternatively, students must have completed equivalent coursework in the past seven years with a minimum grade of “B,” or have significant work experience in the field.

Admitted students must consult with their advisor before registering for their first semester in order to evaluate their pre-requisites and to develop a plan for completing any that are needed. Pre-requisites

- Successfully completing the appropriate three credit pre-requisite course.
- Successfully completing the appropriate one credit review course (only available for pre-requisites in Statistics and Principles of Finance - must be pre-approved by the advisor).
- Successfully completing a proficiency exam offered by Gonzaga’s School of Business or CLEP exam.

Pre-requisite course credits are not counted toward the graduate degree program credits. They must be taken in addition to the 31 credits required for the MAcc degree.

**MBUS Pre-Requisite Grading Policy:**

All 500 level MBUS courses are graded as Satisfactory/Non-Satisfactory. If a student fails the MBUS 500 level course, it will be treated as an "F" and will calculate into the overall graduate GPA on the transcript. If a
student re-takes the MBUS 500 level class and successfully passes it, then the fail grade "NS" will remain on the transcript, but will be removed from the overall graduate GPA calculation.

**MACC Pre-requisite Grading Policy:**

The MACC 500 pre-requisite courses are not Satisfactory/Non-Satisfactory. The grading policy will remain the same with traditional letter grades. If a student earns a "C-" or lower in a MACC 500 level course, it will be treated as an "F" and no credit will be given. The failing grade will be calculated into the overall graduate GPA on the student transcript. If a student re-takes the MACC 500 level class and successfully passes it the second time, then the failing grade will remain on the transcript, but will be removed from the overall graduate GPA calculation and credit will be given.

**MBA Proficiency Exams Grading Policy**

A "C" or better is required to receive a passing grade (professor discretion or 75%)

**CLEP Exam Grading Policy**

A 50 scaled score is required to pass (75%)

---

**Master of Accountancy (MAcc)**

The Gonzaga Master of Accountancy program provides a strong framework of courses promoting development and enhancement of the intellectual, technical, and interpersonal skills which are critical in today's business environment. The MAcc program is intended for those who are looking to pursue a career in the audit function of public accounting or in industry.

Current Gonzaga undergraduate accounting majors may apply for the MAcc program during the second semester of their junior year. If accepted into the program, they may take up to nine credits of graduate-level courses during their senior year with the permission of their graduate advisor. Before applying for admission, students should have completed 75 credit hours (including ACCT 360) with a cumulative GPA of 3.20 and at least 2.30 in each upper-division accounting course. Students must be admitted to the MAcc program before enrolling in any graduate-level class.

**Foundation Courses**

The foundation (pre-requisite) courses for the MAcc degree include both business and accounting courses. In addition to the business foundation courses required for the MBA degree, specific accounting foundation courses include the following:

- MACC 560 Intermediate Accounting I
- MACC 561 Intermediate Accounting II
- MACC 563 Cost Accounting
- MACC 565 Federal Taxation
- MACC 564 Auditing
Degree Requirements

A total of thirty-one (31) credits of graduate coursework is required for the Master of Accountancy degree. Students must maintain a 3.00 or better grade point average.

MACC 600 Orientation Workshop 0 credit
MACC 603 Financial Accounting for Income Taxes 3 credits
MACC 640 Accounting Research and Practice 2 credits
MACC 641 Financial Statement Analysis 3 credits
MACC 661 Professional Writing Workshop 1 credits
MACC 663 Accounting Theory 3 credits
MACC 664 Professional Ethics 2 credits
MACC 665 Audit Research and Practice 3 credits
MACC 669 Integrating U.S. GAAP and IFRS 3 credits
MACC 672 Law and Regulation 3 credits
One of the following two courses 3 credits
   MACC 670 Fraud and Forensic Exam
   MACC 671 Forensic Accounting Lab
Electives* 5 credits

*Electives must be approved by the graduate advisor

Course Descriptions:

**MACC 560 - Intermediate Accounting I**
credits: 3
An intensive study of financial accounting theory and practice. Topics include recognition, measurement, and reporting and assets, liabilities, corporate equity, revenues and expenses; preparation and analysis of the principal financial statements. Fall and Summer.

**Restrictions:**
Must be in the following College(s): School of Business

**Pre-requisite(s):** MBUS 560

**MACC 561 - Intermediate Accounting II**
credits: 3
Continuation of MACC 560. Spring and Summer.

**Restrictions:**
Must be in the following College(s): School of Business

**Pre-requisite(s):** MACC 560

**MACC 563 - Cost Accounting**
credits: 3
An examination of the mechanics and application of accounting principles and concepts for planning, control, and decision making. Topics include cost behavior, job, process, and standard cost systems; budgeting and control; and activity-based costing. Fall and Summer.

**Restrictions:**
Must be in the following College(s): School of Business

**Pre-requisite(s):** MBUS 560

**MACC 564 - Auditing**
credits: 3
A study of auditing concepts and practices. Includes audit planning and procedures, EDP auditing, statistical sampling, ethical considerations, and report writing. Fall.
Restrictions:
Must be in the following College(s): School of Business
Pre-requisite(s): MACC 561

MACC 565 - Federal Taxation I
Fundamentals of federal taxation with emphasis on individual taxation and tax planning. Topics include income, deductions, losses, and credits in addition to capital asset and other property transactions. Spring.
Restrictions:
Must be in the following College(s): School of Business

MACC 590 - Independent Study
Restrictions:
Must be in the following College(s): School of Business

MACC 600 - Orientation
This zero credit Orientation is held one evening per semester just prior to the start of classes. It must be taken during the student's first semester in either the Master of Accountancy or Master of Business Administration programs. Topics include an orientation to the Graduate School of Business programs, University facilities available to students, team-building, communications, and case analysis. Fall, Spring, and Summer.
Equivalent(s): MBUS 600, MTAX 600
Restrictions:
Must be in the following College(s): School of Business

MACC 603 - Financial Accounting for Income Taxes
Tax professionals are frequently called upon to review the income tax accrual contained in audit work papers. This course focuses on the basic and some of the more common complexities encountered in accounting for income taxes under FASB Statement No. 109, Accounting for Income Taxes, and FIN 48, Accounting for Uncertainty in Income Taxes. In addition, specialized topics such as tax periods and methods are discussed.
Equivalent(s): MACC 603
Restrictions:
Must be in the following College(s): School of Business

MACC 634 - Behavior Issues in Managerial Accounting
Equivalent(s): MBUS 634
Restrictions:
Must be in the following College(s): School of Business
Pre-requisite(s): MBUS 560

MACC 635 - Business Behaving Badly
This course examines the psychological and behavioral problems faced by managers. Students will study job burnout, budgetary slack, and the potential unintended consequences of using accounting numbers in incentive systems.
Equivalent(s): MBUS 635
Restrictions:
Must be in the following College(s): School of Business
Pre-requisite(s): MBUS 560

MACC 640 – Financial Accounting Research and Practice
This course emphasizes the development of research and professional writing skills in the context of the financial accounting standards and relevant interpretations. Fall.
Restrictions:
Must be in the following College(s): School of Business

MACC 641 - Financial Statement Analysis
This course provides an overview of the use of financial statement information in business analysis. As such, it
will attempt to increase comprehension of financial statements in their related footnotes, introduce several tools and procedures common to financial statement analysis, expand understanding of the relationship between business transactions, environmental forces (e.g., political, economic, social) and reported financial information, examine how financial statement information can help solve certain business problems, and encourage logical and creative thinking about the strengths and weaknesses of information available to decision-makers.

**Restrictions:**
Must be in the following College(s): School of Business

**MACC 660 - Advanced Financial Accounting**
Credits: 3

Advanced topics in financial accounting, theory and practice. Subjects include incorporate investments, consolidated financial statements, international accounting, partnerships, and accounting for governmental and NFP entities. Fall.

**Restrictions:**
Must be in the following College(s): School of Business

**Pre-requisite(s):** MBUS 561

**MACC 661 - Professional Writing Workshop**
Credit: 1

This course will emphasize the fundamentals of business writing in a professional accounting environment. Fall and Spring.

**Equivalent(s):** MACC 661

**Restrictions:**
Must be in the following College(s): School of Business

**Pre-requisite(s):** MACC 560 and MACC 561 and MACC 565 and MACC 564

**MACC 662 - Advanced Managerial Accounting**
Credits: 3

A study of managerial accounting topics using the case methods. Students are required to apply analytic reasoning in designing and evaluating management accounting systems.

**Restrictions:**
Must be in the following College(s): School of Business

**Pre-requisite(s):** MACC 563

**MACC 663 - Accounting Theory**
Credits: 3

This course examines the hypothetical, conceptual, and pragmatic principles which form the general frame of reference for financial accounting and reporting. Fall.

**Restrictions:**
Must be in the following College(s): School of Business

**Pre-requisite(s):** MACC 560 and MACC 561 and MACC 564 and MACC 565

**MACC 664 - Professional Ethics**
Credits: 2

This course examines the literature of general and business ethics as well as codes developed specifically for practicing accountants. Attention is given to challenges faced by accounting professionals in both public and corporate practice. Case studies are used extensively to challenge and sensitize students to the issues they are likely to encounter in practice; various methods of understanding and solving ethical dilemmas are considered. Fall and Summer.

**Equivalent(s):** MACC 664

**Restrictions:**
Must be in the following College(s): School of Business

**Pre-requisite(s):** MACC 560 and MACC 561

**MACC 665 - Audit Research and Practice**
Credits: 3

This course examines various theoretical and practical applications of the changing auditing discipline. Authoritative attestation and auditing literature is studied as well as recent PCAOB pronouncements. Case studies are used to consider risk assessment, independence issues, internal control evaluation, and audit processes. This course also emphasizes the development of research and professional writing skills in the
context of the assurance function. Spring.

Restrictions:
Must be in the following College(s): School of Business

Pre-requisite(s): MACC 564

MACC 666 - Advanced Federal Taxation
This course covers corporate, partnership, estate and gift, and international taxation. Current issues in taxation relating to both business and individual taxation will be discussed, along with an examination of tax procedure and tax practice. Fall.

Restrictions:
Must be in the following College(s): School of Business

Pre-requisite(s): MACC 564
MACC 666 - Advanced Federal Taxation
This course covers corporate, partnership, estate and gift, and international taxation. Current issues in taxation relating to both business and individual taxation will be discussed, along with an examination of tax procedure and tax practice. Fall.

Restrictions:
Must be in the following College(s): School of Business

Pre-requisite(s): MACC 564

MACC 666 - Advanced Federal Taxation
This course covers corporate, partnership, estate and gift, and international taxation. Current issues in taxation relating to both business and individual taxation will be discussed, along with an examination of tax procedure and tax practice. Fall.

Restrictions:
Must be in the following College(s): School of Business

Pre-requisite(s): MACC 565
MACC 668 - Not-For-Profit Accounting
This course investigates accounting principles and procedures as applied to governmental and not-for-profit organizations such as universities, health care agencies, and health and welfare organizations. Spring.

Restrictions:
Must be in the following College(s): School of Business

Pre-requisite(s): MACC 564
MACC 669 - IFRS and U.S. GAAP
This course builds on intermediate-level coverage of various U.S. Generally Accepted Accounting Principles (GAAP) theory and practice issues dealing with accounting for business, adding coverage of selected advanced topics, then helping students integrate into their understanding of financial accounting similarities and differences between U.S. GAAP and International Financial Reporting Standards (IFRS). Related financial and managerial analysis and control topics will also be covered. Spring.

Restrictions:
Must be in the following College(s): School of Business

Pre-requisite(s): MACC 561 and MACC 563
MACC 670 - Fraud and Forensic Examination
This class provides prospective auditors, accountants, and managers with an awareness of the extent and significance of fraudulent activity, and an understanding of the methods and techniques of prevention and detection. Consideration is given to (1) asset misappropriations and other fraud against the company, committed by employees, suppliers, and others, (2) consumer fraud, and (3) fraudulent financial reporting, along with the role of ethics and corporate governance in minimizing fraud. Fall.

Equivalent(s): MBUS 670

Restrictions:
Must be in the following College(s): School of Business

Pre-requisite(s): MACC 564
MACC 671 - Forensic Accounting Lab
Called the "Justice for Victims Project," this class is a joint program with members of the community (law enforcement, prosecutors, and local certified fraud examiners), that provides a select group of students with an opportunity to investigate real cases of suspected fraud that are referred by local law enforcement. Students are assigned to teams and are supervised by faculty and by mentors from the Spokane Chapter of the Association of Certified Fraud Examiners. The cases are selected based on financial need of the victim (primarily local small businesses and non-profit organizations). Student teams must complete a written forensic accounting report on their case, an internal control recommendation report for the client, and a formal presentation to law enforcement outlining their results. Enrollment is by application only. Fall and Spring.

Restrictions:
Must be in the following College(s): School of Business

Pre-requisite(s): MACC 564
MACC 672 - Law and Regulation
This course will include coverage of current legal and regulatory issues applicable to practicing accountants.
Common law and statutory liability, UCC and contracts, partnership taxation, and antitrust regulation are some of the topics which will be discussed. Spring.

Restrictions:
Must be in the following College(s): School of Business

Pre-requisite(s): MACC 560 and MACC 561 and MACC 563 and MACC 564 and MACC 565

MACC 679 - International Accounting
This course will compare and contrast accounting and financial reporting under International Financial Reporting Standards and U.S. GAAP, using official pronouncements, cases, and problems.

Restrictions:
Must be in the following College(s): School of Business

Pre-requisite(s): MACC 560 and MACC 561

MACC 690 - Directed Study
Guidelines are available in the Graduate School of Business Office. Requirements must be met before registration. Summer.

Restrictions:
Must be in the following College(s): School of Business

MACC 694 - Team Building Intensive
This intensive, 2-credit course combines the highly interactive, challenge activities and in-class and outside assignments. Summer.

Equivalent(s): MBUS 694

Restrictions:
Must be in the following College(s): School of Business

MACC 695 - Management Consulting
Practicum in providing management assistance to businesses and non-profit organizations in marketing, management, finance, accounting, information systems, operations and related case problems. The course will also examine the management of the consulting process and the role of the consultant as an agent of organizational change.

Equivalent(s): MBUS 696

Restrictions:
Must be in the following College(s): School of Business

MACC 696 - New Venture Lab
The New Venture Lab (NVL) Internship provides graduate students with a venue to apply the skills they have developed during their educational endeavors by allowing them to collaborate with local entrepreneurs on a variety of consulting projects. Students can choose to do the internship for 1 to 3 credits; each credit requires 60 hours of work. The NVL is an unpaid internship. As with any internship, students must complete an application and interview process in order to be considered for the NVL Internship Program.

Equivalent(s): MBUS 696

Restrictions:
Must be in the following College(s): School of Business

MACC 697 - Internship
Relevant work experience is required that is commensurate with a student's professional interests. Guidelines and criteria are available from the School of Business Administration Internship Director.

Restrictions:
Must be in the following College(s): School of Business

MACC 699 - Special Topics
These seminars offer coverage of current topics of importance to the accounting profession. This course may be repeated for credit with a change in subject matter.
Master of Business Administration (MBA)

The MBA of Choice

Gonzaga’s MBA of Choice offers a comprehensive graduate education for professional management in a dynamic and complex economic environment. The program allows students the opportunity to choose among a large selection of electives to design a curriculum which will best satisfy their individual educational and career goals. The program prepares graduates for leadership roles in business and other organizations. The curriculum provides students opportunities to apply concepts, techniques, and practice in the functional disciplines of business. Students are intellectually challenged and taught to develop an appreciation of human behavior in organizations and the responsibilities facing entrepreneurs and managerial decision-makers.

Degree Requirements

To complete the MBA degree program, thirty-three credit hours of 600-level graduate business administration courses are required beyond the pre-requisite courses. Students are expected to maintain a minimum grade point average of 3.00. Degree requirements consist of 23 credit hours of core courses and 10 hours of graduate-level electives.

MBA Concentration

In addition to the MBA of Choice, the Graduate School of Business offers the MBA with concentration in Finance (nine credits). The MBA concentration permits a student to tailor coursework to match career and educational goals and interests. The core courses are the same for the concentration as they are for the MBA of Choice. Instead of 10 hours of electives, however, this program substitutes additional course requirements. These courses are offered on a two year cycle.
Finance Concentration

9 finance credits + 1 general elective/non-finance

Two of the following three courses: 4 credits
- MBUS 660  Investments
- MBUS 662  Advanced Corporate Finance
- MBUS 665  Mergers and Acquisitions

Five credits from the following courses:
- MBUS 660  Investments  2 credits
- MBUS 662  Advanced Corporate Finance  2 credits
- MBUS 665  Mergers and Acquisitions  2 credits
- MBUS 683 * Current Issues in Ethics  1 credit
- MBUS 689 * Current Issues in Finance  1 credit
- MBUS 690 * Current International Issues  1 credit
  (International Finance Only)

* Current issues courses covering different finance topics may be taken multiple times with the approval of your MBA advisor. Additional 600-level elective courses may be offered that count towards the finance concentration – please check with your MBA academic advisor.

MBA in American Indian Entrepreneurship (MBA - AIE)

The MBA - AIE program prepares leaders to effectively manage and support sustainable business critical to the growth of sustainable economies in Indian Country and independent communities throughout Native America. The MBA in AIE program expands student’s analytical skills, critical thinking, and tribal leadership skills in order to successfully address the unique demands facing tribal organizations and communities in a global economy.

The MBA in AIE is a two-year cohort program that requires students come to campus for six weeks in the summer and one weekend during the fall and spring semesters. The remaining course work is completed via distance learning.

Admissions Requirements

An admission decision* is based on our evaluation of the following factors: cumulative grade point average (GPA), Graduate Management Admission Test (GMAT) score, three short essays, two confidential recommendation letters, and resume with relevant work experience. Each applicant must submit the following materials to the Graduate School of Business:

1. A completed application form and a non-refundable application fee (see www.gonzaga.edu/MBA-AIE).
2. Two online recommendations from professors, supervisors or managers.
3. One official set of transcripts from each college or university attended. Only degrees and courses from a regionally accredited institution will be accepted. We now accept e-scrip transcripts.
4. Official Graduate Management Admissions Test (GMAT) score.
5. A professional resume detailing relevant work experience and professional objectives.
6. Answers to three essay questions.
7. Copy of Tribal Enrollment Verification Card (unless teaching at a tribal college)

*To be eligible students must be an enrolled member of a federally recognized American Indian tribe unless they are non-natives working at tribal colleges or native owned businesses.

For more information, visit: www.gonzaga.edu/mba-aie

**Degree Requirements**

To complete the MBA - AIE degree program, thirty-five credit hours of 500 and 600-level graduate business administration courses are required beyond the pre-requisite courses. Students are required to maintain a minimum grade point average of 3.00.

**Curriculum: 35 credits**

**Summer 1 - Delivered On-Campus**
- MBUS 500T Economic Analysis 3 credits
- MBUS 560T Accounting Analysis 3 credits
- MBUS 683T Legal Environment: Indian Country 2 credits
- MBUS 617 Tribal Leadership 1 credit

**Fall 1 – Delivered On-Line**
- MBUS 520T Financial Analysis 3 credits

**Spring 1 – Delivered On-line**
- MBUS 510T Marketing Analysis 3 credits
- MBUS 647T Entrepreneurship 1 credit

**Summer 2 – Delivered On-Campus**
- MBUS 628 Managerial Accounting 2 credits
- MBUS 624 Finance Theory and Practice 2 credits
- MBUS 615T Small Business Marketing 3 credits
- MBUS 616T Tribal Strategic Management 1 credit
- MBUS 699T Tribal Seminar 1 credit

**Fall 2 – Delivered On-Line**
- MBUS 626 Information Systems Theory and Practice 3 credits
- MBUS 614 Business Ethics 2 credits

**Spring 2 – Delivered On-Line**
- MBUS 625 Operations Theory & Practice 3 credits
- MBUS 612 Mgmt. Skills Development 2 credits
Course Descriptions:

**MBUS 500 - Economic Analysis**
credits: 3
Key micro and macroeconomic models which are critical to the development of modern economics are explored. Analysis includes theories of supply and demand, theory of the firm, pricing, employment, monetary and fiscal policy, and international trade and finance. Fall.

**Restrictions:**
Must be in the following College(s): School of Business

**MBUS 500T - Economic Analysis**
credits: 3
To familiarize the student with the concepts and tools of microeconomics and macroeconomics.

**MBUS 501 - Review of Statistical Concepts**
credit: 1
The purpose of this course is to review basic statistical concepts, such as descriptive statistics, probability distributions (binomial and normal), sampling distribution, inferences (point estimates and confidence intervals), hypotheses testing (one-sample tests, two-sample tests), Analysis of Variance (ANOVA), as well as simple linear regression analysis. Furthermore, the course will provide students with hands-on experience in using statistical software (MegaStat) to assist in making effective decisions.

**Restrictions:**
Must be in the following College(s): School of Business

**MBUS 502 - Review of Financial Accounting Concepts**
credit: 1
The review will begin with business transaction analysis, including both non-accounting and technical accounting treatments, leading to a discussion of the accounting cycle and the resulting major financial statements (income statement and balance sheet). The class will then drill down and examine in more detail accounting for (1) accounts receivable and bad debt expense; (2) inventory and cost of goods sold; (3) property, plant, and equipment, and depreciation expense; (4) current liabilities and accrued expenses; (5) bonds payable and interest expense; and (6) transactions with owners. The class will conclude with a discussion of the statement of cash flows.

**Restrictions:** Must be in the following College(s): School of Business

**MBUS 510T - Marketing Analysis**
credits: 3
This course explores the "process of exchange." Class lecture, readings and assignments acquaint students with important marketing concepts that any organization can use to effectively satisfy consumer needs while also achieving internal objectives.

**MBUS 520 - Financial Management**
credits: 2
The purpose of this course is to provide students with a basic theoretical foundation and tools to employ in financial decision-making. Of primary importance is provision for the necessary mathematical and analytical methods needed to continue into advanced finance courses. These techniques are commonly encountered by professionals in all areas of business management. Also, the thought process and techniques introduced in this class can be readily applied to everyday personal decision-making situations.

**Restrictions:**
Must be in the following College(s): School of Business

**MBUS 520T - Financial Analysis**
credits: 3
The purpose of this course is to provide students with a basic theoretical foundation and tools to employ in financial decision-making. Of primary importance is provision for the necessary mathematical and analytical methods needed to continue into advanced finance courses. These techniques are commonly encountered by professional in all areas of business management. Also, the thought process and techniques introduced in this class can be readily applied to everyday personal decision making situations.

**MBUS 560 - Accounting Analysis**
credits: 3
This course is intended as an introduction to financial and managerial accounting concepts. Students successfully completing the class will have: a) a general knowledge of accounting concepts and techniques; b)
a familiarity with the accounting procedures used to account for most business transactions; c) the ability to prepare basic financial reports; d) an understanding of the uses and limitations of accounting information; e) an understanding of some of the ethical issues in accounting; and f) the ability to provide at least an elemental interpretation of the information contained in a set of financial statements. Spring.

Restrictions:
Must be in the following College(s): School of Business

MBUS 560T - Accounting Analysis
credits: 3
Professionals in many disciplines are likely to confront accounting and financial management issues regularly in their careers. This course is intended as an introduction to financial and managerial accounting concepts.

MBUS 590 - Directed Study
credits: 1-3
Guidelines are available in the Graduate School of Business office. Requirements must be met before registration. Summer.

MBUS 600 - Orientation
credit: 0
This zero credit Orientation is held one evening per semester just prior to the start of classes. It must be taken during the student’s first semester in either the Master of Accountancy or Master of Business Administration programs. Topics include an orientation to the Graduate School of Business programs, University facilities available to students, team-building, communication skills, and students will receive pertinent information regarding academic honesty, professional standards, and networking. Fall, Spring, and Summer.

Equivalent(s): MACC 600, MTAX 600

Restrictions:
Must be in the following College(s): School of Business

MBUS 610 - Econ Environment of the Firm
credits: 2
Managers must understand the nature and objectives of the firm in the economy. This course emphasizes how firms are affected by their market structure and how they interface with society, government and the global economy. Topics are selected from: competitive markets, market imperfections, pricing strategies, game theory, the economic model of human behavior, compensation and incentives, government regulation, fiscal and monetary policy, foreign exchange, and trade policy. Spring.

Restrictions:
Must be in the following College(s): School of Business

MBUS 612 - Managing People and Performance
credits: 2
This course focuses on understanding behavioral concepts necessary for the effective management of people in organizations. Current literature, case studies and simulations will be used to demonstrate application of concepts. Topics covered include perception, motivation, leadership, managing teams and conflict, supportive communication, leveraging diversity and performance management. Fall and Spring.

Restrictions:
Must be in the following College(s): School of Business

MBUS 613 - Quantitative and Stats Analysis
credits: 3
This course is designed to expose students to the use of spreadsheet-based models and the scientific research process to support problem solving and decision making in a business environment. Basic statistical concepts will be reviewed, such as descriptive statistics, probability distributions, sampling distribution, inferences, hypotheses testing, Analysis of Variance (ANOVA), as well as simple linear regression analysis. Students will also gain hands-on experience in using statistical software (MegaStat) to assist in making effective decisions. Emphasis is on the acquisition, analysis, and interpretation of data to solve business problems. Case problems may be used to provide practical experience in data analysis and interpretation. Fall and Spring.

Restrictions:
Must be in the following College(s): School of Business
**MBUS 614 - Business Ethics**

Credits: 2

In general, business ethics is the study of ethical concerns that arise in connection with business as it is currently practiced, typically in a capitalist setting. This particular course, given the audience, will focus on a handful of basic points of interest that relate essentially to the business lives of managers, especially entrepreneurial managers.

**Restrictions:**
Must be in the following College(s): School of Business

**MBUS 615T - Small Business Marketing**

Credits: 3

This course presents practical marketing techniques with a strong theoretical basis. Students will acquire an understanding of how marketing techniques may be adapted effectively for efficient use in small business environments. Issues in buyer behavior and marketing research will be discussed.

**Restrictions:**
Must be in the following College(s): School of Business

**Pre-requisites:** MBUS 510 minimum grade: C

**MBUS 616 - Strategic Management**

Credits: 2

This is a capstone course designed to apply and integrate concepts and analytical tools that students have studied in their MBA or MAcc coursework. This course adopts a general management perspective to analyze complex business situations, identify critical issues, and develop effective solutions. Consideration is given to ethical dimensions of strategic decision making. The emphasis throughout is on developing strategic thinking skills and understanding the fundamentals for achieving competitive advantage in a dynamic global environment.

Completion of the functional core courses required prior to registration and is preferably taken in the student’s final semester. Fall and Spring.

**Restrictions:**
Must be in the following College(s): School of Business

**MBUS 616T - Tribal Strategic Management**

Credit: 1

This course adopts a general management perspective to analyze complex business situations, identify critical issues, and develop effective solutions. Consideration is given to ethical dimensions of strategic decision making. The emphasis throughout is on developing strategic thinking skills and understanding the fundamentals for achieving competitive advantage in a dynamic global environment. Completion of the functional core courses required prior to registration and is preferably taken in the student’s final semester. Summer.

**Restrictions:**
Must be in the following College(s): School of Business

**MBUS 617 - Tribal Leadership**

Credit: 1

This course offers an interdisciplinary and cross-cultural examination of leadership in tribal communities. It will examine the cultural and business implications of the leadership challenge in tribal economic and political systems by addressing the fundamental questions: What are distinguishing theories and practices of effective tribal leadership that define its cultural acumen in postmodern times? Using critical pedagogical strategies, students will study the history causes, structures and consequences of this notion called “tribal leadership.”

**Restrictions:**
Must be in the following College(s): School of Business

**Pre-requisite(s):** MBUS 600

**MBUS 624 - Finance Theory and Practice**

Credits: 2

This course is designed to develop students’ understanding of financial theory and how it can be applied to financial decisions a business must make. Included are such topics as cost of capital, capital budgeting, capital
structure and working capital management. Fall and Spring.

Equivalent(s): MACC 624

Restrictions:
Must be in the following College(s): School of Business

Pre-requisite(s): MBUS 520

MBUS 625 - Operations Theory and Practice credits: 2-3
The main purpose of this course is to help graduate business students understand the impact of operations in determining the best strategies for the business as a whole. The course covers the main principles and concepts pertaining to such issues as the development of a manufacturing strategy, order winners and order qualifiers, lean manufacturing/thinking and six sigma, process choice and product profiling, supply chain management, manufacturing planning and control systems (MPC), etc.

Restrictions:
Must be in the following College(s): School of Business

Pre-requisite(s): MBUS 613

MBUS 626 - Information Systems Theory and Practice credits: 2-3
This course introduces information system theories and explores issues related to managing and using IS functions and resources from a managerial perspective. The course also investigates the overall information resources of an organization and the strategic role of IS in improving/creating competitive advantages. Real world cases that show how companies have put ideas into practice are examined and discussed.

Restrictions:
Must be in the following College(s): School of Business

MBUS 627 - Marketing Theory and Practice credits: 2
The emphasis in this course is on marketing decision-making based upon an evaluation of the market, the product, promotion effort, price, and channels of distribution. The course provides essential knowledge of marketing needed by the modern executive. Fall and Spring.

Restrictions:
Must be in the following College(s): School of Business

Pre-requisite(s): MBUS 560 or MBUS 502

MBUS 628 - Managerial Accounting credits: 2
The principal objective of this course is to explain how accounting data can be interpreted and used by managers in planning, organizing, and controlling organizational activities. The basic processes of cost behavior, product costing, and the use of accounting numbers for performance evaluation will be covered. The intent is not to dwell on accounting procedures; however, a basic understanding of financial accounting and organizational procedures will be necessary to fully understand the concepts covered in this course.

Restrictions:
Must be in the following College(s): School of Business

Pre-requisite(s): MBUS 560 or MBUS 502

MBUS 629 - Corporate Financial Reporting credits: 2
Corporate financial accounting theory and reporting practice will be studied. The emphasis will be on the analysis and use of corporate financial reports in business decision-making. Ethical dimensions of corporate financial reporting will be considered, as well as more traditional technical topics, which may include receivables, inventory, long-lived assets, investments, leases, pensions, revenue, recognition, fair value measurements, stock option accounting, or financial derivatives.

Restrictions:
Must be in the following College(s): School of Business

Pre-requisite(s): MBUS 560 or MBUS 502

MBUS 641 - Sports Economics credits: 2
Explores the economic incentives present in professional and amateur sports. Specifically, the business of sports is examined including: revenue maximization, ticket pricing, league structure, stadium financing,
advertising, labor relations/player pay, federal anti-trust exemptions, and Title IX.

Restrictions:
Must be in the following College(s): School of Business

MBUS 647T - Entrepreneurship  
credit: 1
The primary objective of this course is to give the student an understanding of the entrepreneurial process. This includes: An understanding of the entrepreneur, an analysis of the role of the entrepreneurial process in the economy, business plan development, financing concerns, strategic issues. This objective will be accomplished with a special emphasis on the process as it applies to the American Indian community.

Restrictions:
Must be in the following College(s): School of Business

MBUS 660 - Investments  
credits: 2
This course covers the fundamentals of security valuation and analysis, market efficiency, the scientific evidence surrounding investment strategies, and the relationship between risk and return. Trading mechanics, types of trades, and alternative investment vehicles will be discussed.

Restrictions:
Must be in the following College(s): School of Business

Pre-requisite(s): MBUS 624

MBUS 661 - Sustainable Business  
credit: 1
This class includes both the evaluation of financial performance via financial statement and ratio analysis as well as planning for growth and external financial requirements. The derivation of pro-forma statements, cash budgets, and credit analysis and policy, will be covered as will means for evaluating financial alternatives available for meeting a corporation's funding requirements.

Restrictions:
Must be in the following College(s): School of Business

Pre-requisite(s): MBUS 520

MBUS 662 - Advanced Corporate Finance  
credits: 2
The course covers both the theoretical background and practical implications of the central issues in corporate financial management, including capital structure decisions, dividend payout decisions, and asset valuation. Real options are considered as an enhancement to traditional capital budgeting methods. Also, issues related to security design are covered.

Restrictions:
Must be in the following College(s): School of Business

Pre-requisite(s): MBUS 520

MBUS 664 - Derivatives  
credit: 1
The class focuses on futures, forwards, and options on common stock and foreign currencies. Institutional aspects of derivatives markets, as well as factors influencing the value of these contracts are studied. In option valuation, the Black-Scholes-Merton option pricing model and the Binomial tree model of option valuation are covered in detail. Various portfolio strategies using combinations of call and put options to exploit investors' expectations of future asset prices are also covered.

Restrictions:
Must be in the following College(s): School of Business

Pre-requisite(s): MBUS 520

MBUS 665 - Mergers and Acquisitions  
credits: 2
This class includes coverage of merger types, their characteristics, and motivations for mergers. The market for corporate control will be introduced, as will the agency problem and how it relates to merger activity. Principles of valuation will be applied to takeovers and some examination of merger law, corporate governance reform, and the scholarly research of M and A's will also be included in the course.
Restrictions: Must be in the following College(s): School of Business
Pre-requisite(s): MBUS 520

**MBUS 680 - Current Issues in Operations**
credit: 1
This course will address a variety of topics related to the subject of Operations. Subjects may include, but will not be limited to: logistics, supply chain management, process flow, project management, quality and operational research methods. The subject of Current Issues in Operations will vary between the Fall and Spring semesters of each year.

Restrictions: Must be in the following College(s): School of Business

**MBUS 681 - Current Issues in Information Systems**
credit: 1
This course will address a variety of topics related to the subject of Information Systems. Subjects may include, but will not be limited to: the use of systems in decision making, information systems design, the use of data in organizations, and e-commerce and information tools. The subject of Current Issues in Information Systems will vary between the Fall and Spring semesters of each year.

Restrictions: Must be in the following College(s): School of Business

**MBUS 682 - Current Issues in Managerial Acct**
credit: 1
This course will address a variety of topics related to the subject of Managerial Accounting. Subjects may include, but will not be limited to: accounting decision-making tools, the accounting behavior of organizations, forensic accounting, and the communication of accounting information. The subject of Current Issues in Managerial Accounting will vary between the Fall and Spring semesters of each year.

Restrictions: Must be in the following College(s): School of Business

**MBUS 683 - Current Issues in Ethics**
credit: 1
This course will address a variety of topics related to the subject of Ethics. Subjects may include, but will not be limited to: ethical decision-making, the application of ethics in disciplinary or cultural contexts, and case studies in ethical and unethical business practices. The subject of Current Issues in Ethics will vary between the Fall and Spring semesters of each year.

Restrictions: Must be in the following College(s): School of Business

**MBUS 683T - Legal Environment: Indian Country**
credits: 2
This course provides an introduction to the basic principles of the legal environment within which business operates. The course will cover the historical and cultural development of law, as well as practical applications to current business issues. Although the readings will be highlighted in class, students will bear the major responsibility for text assignments. Classroom discussions should focus more on specific legal issues involving doing business on Indian reservations.

Restrictions: Must be in the following College(s): School of Business

**MBUS 684 - Current Issues in Marketing**
credit: 1
This course will address a variety of topics related to the subject of Marketing. Subjects may include, but will not be limited to: buyer behavior, new product promotion, advertising, digital media, creativity, and marketing communications. The subject of Current Issues in Marketing will vary between the Fall and Spring semesters of each year.

Restrictions: Must be in the following College(s): School of Business

**MBUS 685 - Current Issues in Financial Reporting**
credit: 1
This course will address a variety of topics related to the subject of Financial Reporting. Subjects may include,
but will not be limited to: the use of financial reporting systems, communication of financial data to
stakeholders, and financial strategy. The subject of Current Issues in Financial Reporting will vary between
the Fall and Spring semesters of each year.

Restrictions:
Must be in the following College(s): School of Business

**MBUS 686 - Current Issues in Management**  
credit: 1

This course will address a variety of topics related to the subject of Management. Subjects may include, but
will not be limited to: strategic decision-making, human resources, performance appraisal, negotiations,
organizational effectiveness, and conflict resolution. The subject of Current Issues in Management will vary
between the Fall and Spring semesters of each year.

Restrictions:
Must be in the following College(s): School of Business

**MBUS 687 - Current Issues: Entrepreneurship**  
credit: 1

This course will address a variety of topics related to the subject of Entrepreneurship. Subjects may include,
but will not be limited to: idea development and appraisal, entrepreneurial decision-making, new venture
strategy, sales, small business management, and not-for-profit organizational development. The subject of
Current Issues in Entrepreneurship will vary between the Fall and Spring semesters of each year.

Restrictions:
Must be in the following College(s): School of Business

**MBUS 688 - Current Issues in Economics**  
credit: 1

This course will address a variety of topics related to the subject of Economics. Subjects may include, but will
not be limited to: emerging economies, global markets, economic analysis, economic behavior, and economic
models of industries and cultures. The subject of Current Issues in Economics will vary between the Fall and
Spring semesters of each year.

Restrictions:
Must be in the following College(s): School of Business

**MBUS 689 - Current Issues in Finance**  
credit: 1

This course will address a variety of topics related to the subject of Finance. Subjects may include, but will
not be limited to: real estate, investments, financial markets, the use of financial modelling tools, valuation,
and the role of risk. The subject of Current Issues in Finance will vary between the Fall and Spring semesters of each year.

Restrictions:
Must be in the following College(s): School of Business

**MBUS 690 - Current International Issues**  
credit: 1

This course will address a variety of topics related to the subject of International Business. Subjects may
include, but will not be limited to: international markets, the impact of government and culture on business,
doing business internationally, global logistics, international finance, and ethical decision making in a global
economy. The subject of Current International Issues will vary between the Fall and Spring semesters of each year.

Restrictions:
Must be in the following College(s): School of Business

**MBUS 691 – Directed Study**  
credits: 1-3

Topic to be determined by instructor.

**MBUS 694 - Team Building Intensive**  
credits: 2

This intensive, 2-credit course combines the highly interactive, challenge activities and in-class and outside
assignments. Summer.

Equivalent(s): MACC 694
Restrictions:
Must be in the following College(s): School of Business

**MBUS 695 - Small Business Consulting**
credits: 1-3
Practicum in providing management assistance to small business and nonprofit organizations in marketing, management, finance, accounting, information systems, operations, and related business areas. Student teams will meet with clients and develop a proposal outlining specific objectives and expected outcomes to be achieved. A final written report will be presented to the client outlining their analyses and recommendations along with implementation strategies. The course will also examine the management of the consulting process, and the role of the consultant as an agent for organization change.

Restrictions:
Must be in the following College(s): School of Business

**MBUS 697 - Internship**
credits: 1-3
Relevant work experience is required that is commensurate with a student's professional interests. Guidelines and criteria are available from the School of Business Administration Internship Director.

Restrictions:
Must be in the following College(s): School of Business

**MBUS 698 - Research Project**
credits: 1-3
Research guidelines are available in the School of Business Administration Office. Research Project requires completion of a form, and department permission and cannot be registered for via ZAGWEB.

Restrictions:
Must be in the following College(s): School of Business

**MBUS 699 - Special Topics**
credits: 1-3
These seminars cover topics of importance to business professionals. This course may be repeated for credit with a change in subject matter.

Restrictions:
Must be in the following College(s): School of Business

**MBUS 699T - Tribal Seminar Topics**
credit: 1
This course will bring Native American Entrepreneurs and Business Leaders together in the summer to meet with and talk about the issues in tribal business and learn about their successes and obstacles.

Restrictions:
Must be in the following College(s): School of Business
Master of Science in Taxation

The Gonzaga Master of Science in Taxation (MST) program is designed to equip students with a strong technical skill set, enhanced communication skills and a framework with which to approach the complex problems and issues faced by taxpayers in today’s global economy. Significant emphasis is placed on issue identification, problem solving, and tax planning. The program also seeks to assist students in the preparation for the CPA examination.

Current Gonzaga undergraduate accounting majors may apply for the MST program during the second semester of their junior year. If accepted into the program, they may take up to nine credits of graduate-level courses during their senior year with the permission of their graduate advisor. Before applying for admission, students should have completed 75 credit hours (including ACCT 360) with a cumulative GPA of 3.20 and at least 2.30 in each upper-division accounting course. Students must be admitted to the MST program before enrolling in any graduate-level class.

Foundation Courses

The foundation (pre-requisite) courses for the MST degree include both business and accounting courses. In addition to the business foundation courses required for the MBA degree, specific accounting foundation courses include the following:

- MACC 560 Intermediate Accounting I
- MACC 561 Intermediate Accounting II
- MACC 563 Cost Accounting
- MACC 565 Federal Taxation
- MACC 564 Auditing

Degree Requirements

A total of thirty-one (31) credits of graduate coursework is required for the Master of Science in Taxation degree. Students must maintain a 3.00 or better grade point average in order to progress through and to graduate from the program.

- MTAX 600 Orientation Workshop 0 credit
- MTAX 603 Financial Accounting for Income Taxes 3 credits
- MTAX 604 C Corporation Taxation 2 credits
- MTAX 605 Partnership Taxation 3 credits
- MTAX 606 Wealth Transfer Taxation 2 credits
- MTAX 607 Taxation of Property Transactions 3 credits
- MTAX 608 State & Local Tax Concepts 1 credit
- MTAX 610 International Taxation 2 credits
- MT AX 612 Tax Theory 2 credits
- MTAX 614 S Corporation Taxation 1 credit
- MTAX 616 Income Tax of Estates and Trusts 1 credit
- MTAX 620 Tax Planning for Business Transactions 3 credits
Course Descriptions:

MTAX 600 - Orientation  
This zero credit Orientation is held one evening per semester just prior to the start of classes. It must be taken during the student's first semester in either the Master of Accountancy or Master of Business Administration programs. Topics include an orientation to the Graduate School of Business programs, University facilities available to students, team-building, communications, and case analysis. Fall, Spring, and Summer.  
Equivalent(s): MACC 600, MBUS 600

MTAX 603 - Financial Accounting for Income Taxes  
Tax professionals are frequently called upon to review the income tax accrual contained in audit work papers. This course focuses on the basic and some of the more common complexities encountered in accounting for income taxes under FASB Statement No. 109, Accounting for Income Taxes, and FIN 48, Accounting for Uncertainty in Income Taxes. In addition, specialized topics such as tax periods and methods are discussed.  
Pre-requisite(s): MACC 561 and MACC 565

MTAX 604 - C Corporation Taxation  
This course explores the federal taxation of subchapter C corporations, including the tax consequences of corporate formation, operations, distributions, liquidations and tax-free reorganizations.  
Equivalent(s): MACC 604
Co-requisites: MTAX 614
Pre-requisite(s): MACC 565

MTAX 605 - Partnership Taxation  
This course deals with the federal Income tax fundamentals of partnership and limited liability company taxation. The course covers formation of, operation of, and distribution from partnership and LLC’s, and provides contrast to the problems associated with corporate operations.  
Equivalent(s): MACC 605
Pre-requisite(s): MACC 565

MTAX 606 - Wealth Transfer Taxation  
This course explores the taxation of gratuitous transfers of wealth during life and at death, including the federal estate, gift and GST tax as well as the Washington state estate tax.  
Equivalent(s): MACC 606
Pre-requisite(s): MACC 565

MTAX 607 - Taxation of Property Trans  
This course will survey several important areas related to the federal income taxation of property transactions. Emphasis will be on federal income tax treatment of sales and other dispositions of property, including deferred payment sales and non-recognition transactions. Potential specific topics include depreciation, the effect of debt on basis and amount realized calculations, characterization, limitations on
loss allowances, like kind exchanges, involuntary conversions, installment sales and leasing.

**Equivalent(s):** MACC 607

**Pre-requisite(s):** MACC 565

**MTAX 608 - State and Local Tax Concepts**
credit: 1
This course focuses on the basics of state income taxes, property taxes, and other state and local taxes, with an emphasis on the state of Washington tax structure. In addition, the effect of state and local taxes on multi-state operations is discussed.

**Equivalent(s):** MACC 608

**Pre-requisite(s):** MACC 565

**MTAX 610 - International Tax Concepts**
credits: 2
This course covers the basics of the taxation of foreign income of U.S. citizens and corporations, and of U.S. source income of foreign persons and corporations. In addition, there is discussion of planning for organization of foreign operations under the tax laws.

**Equivalent(s):** MACC 608

**Pre-requisite(s):** MACC 565

**MTAX 612 - Tax Theory**
credits: 2
This course examines some of the key tax doctrines and concepts that underpin the taxation of businesses and individuals, as well as the court cases that created them. Emphasis will be on how those concepts and theories affect taxpayers today.

**Equivalent(s):** MACC 612

**Pre-requisite(s):** MACC 565

**MTAX 613 - IRS Practice and Procedure**
credits: 2
This course studies a wide range of tax procedure and IRS practice, including an analysis of the laws pertaining to tax procedure and how the IRS interprets and applies those laws. The course will include descriptions of how the IRS operates. Suggested techniques for representing clients before the IRS are also presented.

**Equivalent(s):** MACC 613

**Pre-requisite(s):** MACC 565

**MTAX 614 - S Corporation Taxation**
credit: 1
This course explores the federal taxation of subchapter S corporations and shareholders.

**Co-requisites:** MTAX 604

**MTAX 616 - Income Tax of Estates and Trusts**
credit: 1
This course explores the federal income taxation of estates and trusts, including the fundamentals of fiduciary accounting.

**Co-requisites:** MTAX 606

**MTAX 620 - Tax Plans for Business Trans**
credits: 3
This course examines the tax and business planning aspects of taxable and nontaxable transfers of businesses and real estate. Particular attention will be given to planning whether to use asset sales or stock sales, structuring financing for acquisitions and techniques for compensating investors. The course will also explore the taxation of partnerships, S corporations and limited liability companies and their special application to corporate and real estate acquisitions.

**Pre-requisite(s):** MACC 565

**MTAX 621 - Tax Periods and Methods**
credit: 1
This course examines timing issues related to the Federal income tax, including adoption of the changes in accounting periods, cash and accrual methods of accounting, tax consequences of changing from one method of accounting to another, installment methods of accounting, time value of money issues (original issue discount), the Uniform Capitalization Rules, and accounting for long-term contracts.

**Pre-requisite(s):** MACC 565
MTAX 661 - Professional Writing Workshop  
This course will emphasize the fundamentals of business writing in a professional accounting environment.  
Equivalent(s): MACC 661  
Pre-requisite(s): MACC 560 and MACC 561 and MACC 563 and MACC 564 and MACC 565

MTAX 664 - Professional Ethics  
This course examines the literature of general and business ethics as well as codes developed specifically for practicing accountants. Attention is given to challenges faced by accounting professionals in both public and corporate practice. Case studies are used extensively to challenge and sensitize students to the issues they are likely to encounter in practice; various methods of understanding and solving ethical dilemmas are considered.  
Equivalent(s): MACC 6664  
Pre-requisite(s): MACC 560 and MACC 561

MTAX 667 - Tax Research and Practice  
This course encompasses a study of tax research methodology, tax policy, and tax practice. Topic areas include various tax research techniques, tax administration and professional responsibilities, as well as international taxation.  
Equivalent(s): MACC 667  
Pre-requisite(s): MACC 565

MTAX 685 - Federal Tax Clinic  
The Federal Tax Clinic course offers students an exciting opportunity to become engaged in federal tax controversies involving the Internal Revenue Service and in the United States Tax Court. Students represent low-income clients in IRS examination and collection matters, including audits, offers in compromise, penalty abatements, innocent spouse claims, appeals, Tax Court cases, etc. Through case work and clinic experience, the students will have the opportunity to develop and refine skills in client interviewing, negotiations, research and advocacy. Fall, Spring, Summer.

MTAX 690 - Directed Study  
Directed Study requires permission of Program Director. Zagweb registration is not available. Summer only.

MTAX 697 - Internship  
Relevant work experience is required that is commensurate with a student's professional interests. Guidelines and criteria are available from the School of Business Administration Internship Director.
Dual Degree Programs

Master of Business Administration/Master of Accountancy (MBA/MAcc)

Students who wish to pursue both the MBA and MAcc degrees may do so through the dual MBA/MAcc program. Students must apply to both programs. Nine credit hours earned in either the MBA or MAcc program may be transferred into the other program. The result is that the total credit hours required for both the MBA and MAcc degrees will be reduced by nine. Consequently, the total graduate level credit hours required for both degrees would be reduced from 64 (33 plus 31) to 55.

Master of Accountancy/Juris Doctor (MAcc/JD)

Master of Business Administration/Juris Doctor (MBA/JD)

Master of Taxation/Juris Doctor (MTax/JD)

The Graduate School of Business, in conjunction with the School of Law, offers programs leading to the combined Master of Accountancy/Juris Doctorate, the Master of Business Administration/Juris Doctorate, or the Master of Taxation/Juris Doctorate degrees. These dual degree programs are designed to meet a two-fold need. On the one hand, there is need for lawyers who are trained in business and in accounting. A legal education may sufficiently equip a person for general law practice or even for certain legal specializations, but the role of the lawyer in relation to business and other institutional needs demands preparation beyond the scope of a legal education. On the other hand, a successful accountant or business executive, skilled in financial and practical decision-making processes, will benefit from a thorough knowledge of the law.

The applicant for either of these dual programs must meet the admission requirements of both the School of Law and the Graduate School of Business. These requirements and the application procedures are contained in the catalogues of each school.

Degree Requirements

Normally, the student will complete one year of Law School before beginning MBA or MAcc/MTax classes. The total combined credits must be 112 for the MAcc/JD or MTax/JD and 114 for the MBA/JD. In both cases, this represents a reduction of nine credits from the 121 or 123 which would be required if the student were to take both degrees separately. No more than six of these nine credits may be waived from the student’s law or business program of study. With the exception of the reduction in the total number of credits described, all requirements of both schools must be satisfied.

Master of Business Administration and B.S. in Engineering

To meet the need for business knowledge and skills as an enhancement to the technical engineering degree, students with an aptitude for engineering and the capacity to assume management responsibilities may complete a program which leads to the B.S. in one of the disciplines of engineering and Master of Business Administration (MBA). The dual degree program takes five years of full-time study with a Engineering Management degree, but longer for other engineering programs. Students choosing this program must complete their Bachelor’s degree in engineering and the required pre-requisite courses in business before being admitted to the Graduate School of Business. Undergraduate students are encouraged to take the
MBA pre-requisite courses during their sophomore, junior and senior years and apply for the MBA program during their senior year.

Undergraduate students will not be accepted into the MBA program until they have completed their undergraduate degree and are not allowed to take any 600 level courses until their undergraduate degree is granted. Foundation courses required for the MBA program are:

- ACCT 263 Accounting Analysis
- ECON 200 Economic Analysis
- BUSN 230 Business Statistics
- MKTG 310 Principles of Marketing
- BFIN 320 Principles of Finance
- OPER 340 Operations Management
- MGMT 350 Management and Organization
- BUSN 283 Business Law
- BMIS 235 Management Information Systems

Engineering students who complete BFIN 320 and ECON 200 may have ENSC 300 waived. Additional information about the B.S. in Engineering can be found in the undergraduate catalogue.
School of Education

Dean: Vincent C. Alfonso
Associate Dean: Diane C. Tunnell
Professors: A. Barretto, E. Bennett, M. Derby, D. Mahoney, T. F. McLaughlin, K. Weber
Assistant Professors: J. Abi-Nader (Emerita), J. Burcalow (Emerita), A. Fein (Emeritus), J. Nelson (Emerita), R. Williams (Emeritus)
Lecturers: C. Caniglia, C. Dieter, J. Neyman, K. Nitta
Emeritus/Emerita

School of Education Mission Statement

The mission of the School of Education is to prepare socially responsive and discerning practitioners to serve their community and profession.

- We model and promote leadership, scholarship and professional competence in multiple specializations.
- We support an environment that is challenging, inclusive, reflective, and collegial.
- We foster inquiry, intellectual creativity, and evidence-based decision making to accept the challenges facing a global society.
- We provide academic excellence in teaching, advising, service, and scholarship.
- We promote, support and respect diversity.

The School of Education upholds the tradition of humanistic, Catholic, and Jesuit education and this tradition and mission are embodied in our theme statement: Preparing socially responsible professionals who serve with care, competence, and commitment.

Accreditation

All teacher preparation degree programs and elementary, secondary, and advanced certification programs in the School of Education are accredited by the National Council for Accreditation of Teacher Education (NCATE), a specialized accrediting board recognized by the Council for Higher Education Accreditation and the Secretary of the U.S. Department of Education, and fully approved by the Washington State Professional Educators Board (PESB).

The School Counseling, Clinical Mental Health Counseling, and Marriage and Family Counseling master’s programs are accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). CACREP is an accrediting board recognized by the Council for Higher Education Accreditation and the Secretary of the U.S. Department of Education.
Master’s programs offered in British Columbia, Canada have received consent from the British Columbia Ministry of Advanced Education and the Degree Quality Assessment Board (DQAB). Master’s programs offered in Alberta, Canada have been approved by the Alberta Ministry of Advanced Education and Technology, and the Campus Alberta Quality Council (CAQC).

While this catalogue provides students with the most current information regarding School of Education graduate programs, students are advised that programmatic changes are a common occurrence in the field of education and are usually the result of directives from the State Office of Superintendent of Public Instruction (OSPI), and outside accreditation agencies. The School of Education takes seriously its responsibility to communicate all changes to students. Students must be sure to meet with their advisors regularly to be in compliance with current regulations.

The School is organized into five departments. Following are the graduate degrees offered:

**The Department of Counselor Education**
- Master of Arts in Clinical Mental Health Counseling
- Master of Arts in Marriage and Family Counseling
- Master of Arts in School Counseling
- Master of Counselling (site-based, Canada)

**The Department of Educational Leadership and Administration**
- Master of Arts in Leadership and Administration (site-based, Washington)
- Master of Education (School Administration) (site-based, AB Canada)
- Master of Education in Leadership and Administration (site-based, BC Canada)
- Doctor of Education in Educational Leadership

**The Department of Special Education**
- Master of Education in Special Education

**The Department of Sport and Physical Education**
- Master of Arts in Sport and Athletic Administration (site-based and online)

**The Department of Teacher Education**
- Master of Arts in Teaching English as a Second Language
- Master of Initial Teaching
- Master of Education in Literacy
Graduate Admission

The School of Education Graduate Admissions Office processes the applications for all SOE graduate and certification programs offered on-campus and site-based. Refer to the program section in the catalogue for specific admission requirements. Program application deadlines are listed on the School of Education Website http://www.gonzaga.edu/soe.

The application process for School of Education online graduate programs can be found on the Virtual Campus website http://online.gonzaga.edu/online-masters-sport-and-athletic-administration

Time Requirements for Degrees

All work accepted toward a degree is to be completed within a five-year period from the date of acceptance into the program or from the first semester of graduate-level enrollment, or advanced credit, whichever occurs first.

Advanced Credit

Credit for graduate-level courses completed at Gonzaga prior to admission to a graduate program may be accepted for advancement into the program upon recommendation of the academic advisor. Such recommendation is forwarded to the Dean of the School of Education for final approval. Advance credits are limited to twelve.

Transfer Credit

The School of Education may accept up to one-fifth of the total number of credits required for a degree from another accredited college or university, six credits for most master’s programs. Courses must be clearly graduate level as defined by the granting institution. The subject matter of courses transferred must be relevant to the degree in question, which is determined by the academic advisor. The date of each course considered needs to be within five years of the beginning semester at Gonzaga. No course for which a grade less than “B” has been awarded may be accepted. Classes graded on a Pass/Fail scale will not be considered unless Pass is equivalent to “B”. Transfer credits are used in the calculation of the graduate grade point average. The School of Education Dean gives final approval for transfer credits. Forms are available from the academic advisor.
Department of Counselor Education

Degrees:

- Master of Arts in Clinical Mental Health Counseling
- Master of Arts in Marriage and Family Counseling
- Master of Arts in School Counseling
- Master of Counselling—Site Based (Canada Only)

Mission Statement for the Department of Counselor Education

The Counselor Education Department is grounded in a rich tradition and history. Aware of the potential for personal, professional, and global transformation, we create and sustain relationships that facilitate excellence in the development of professionalism, service, and growth. Therefore, with intention, we embrace the strengths of all individuals; we invest in services that promote the greater good; we depend on and contribute to the research and practical foundations of the profession; we develop counselors who enter human services and educational environments.

Department Theme Statement

We are practitioners who are intentional in the development of relationships that honor the strengths of all individuals and the promotion of transformational growth.

Admissions

Each applicant must submit the following materials to the School of Education Graduate Admissions office prior to one of the two admission period deadlines for campus classes—

- Early admissions deadline: January 15th
- Regular admissions deadline: March 15th
- Site Based Program deadline (Canada): March 15th

1. A completed application form (see the School of Education Website: http://www.gonzaga.edu/soe/grad) and non-refundable fee.

2. A written statement of purpose addressing the following two topics (one typed page, single spaced):
   a. a description of interests in graduate studies in counseling and relation to the desire to become a counselor; and
   b. an assessment of current strengths as a potential counselor and description of benefits in gaining a counseling master’s degree.

3. A minimum of two letters of recommendation to be sent directly from the recommending persons (your employer, professor, supervisor, or colleague) to the School of Education Graduate Admissions Office using the Confidential Recommendation forms (see the School of Education website: http://www.gonzaga.edu).
4. One official transcript from each college or university attended (international applicants must submit foreign transcripts in the original language and an English copy), final transcripts must bear a posted bachelor’s degree. Only degrees and courses from a regionally accredited institution will be accepted.

5. Official scores from the Graduate Record Exam (GRE) or the Miller Analogies Test (must be less than five years old), a requirement which may be waived if the applicant has an advanced degree.

6. Submission of an official TOEFL score of at least 550 (minimum score of 80 if taken via Internet) by each international applicant who has graduated from a foreign college or university and whose native language is not English.

7. Submission of a financial declaration form and supporting documentation by each international applicant.

8. Final acceptance will be based on selected candidates’ interviews.

9. Site-Based: Although a bachelor’s degree in psychology is not a pre-requisite for admission to the site-based Master of Counseling program, it is highly recommended. For applicants without said degree, a reading list will be provided and students must pass a knowledge-based competency exam prior to advancement to candidacy.

Credit Transfer Information

With departmental permission a student may be permitted to take graduate courses up to 12 semester credits in a non-matriculated manner before full admission to the program. No more than six graduate credits from another accredited university (less than five years old) are applicable toward the degree before admission. Ask your advisor for transfer credit information.

Master of Arts in Clinical Mental Health Counseling

Clinical Mental Health Counseling Mission

The Clinical Mental Health Counseling Program models ethical, moral, and professional leadership as counselor educators to promote development of a solid knowledge base, a sound skills set, and an experienced understanding of the process of personal transformation. Clinical mental health counseling students are prepared to live as creative, productive, morally grounded, socially just, service-oriented leaders in the profession.

This program offers preparation for professional counselors within community agencies, hospitals, college settings, private practice, and clinics. All counselor candidates attain a core of competencies with individualization taking place through supervised internship settings. Emphasis is placed on translating theory and research from coursework into services for clients. A major focus of the program is the development and operationalization of the student’s personal theory of counseling.

Program Description

The Master of Arts in Clinical Mental Health Counseling is designed to train professional counselors for a variety of employment settings, including family counseling, social service and mental health agencies,
college counseling centers, and private practice. Qualified candidates are screened, using standard graduate school admissions and comprehensive interviews. Candidates are introduced to theoretical and practical academic teachings, which are woven together throughout the program to ensure a rich educational experience. Upon completion of the program, they are reintroduced to the community as qualified counselors who will enhance their community through service and leadership.

A major focus of the program is in developing and operationalizing the student’s personal theory of counseling. Emphasis is placed on translating theory and research from course work to services for clients. Counselor training utilizes personal as well as multi-media instruction, carefully balanced to include didactic and experiential teaching. Diverse internships are available in community agency settings with 100 hours of practicum (40 hours of direct service) and 600 hours (240 hours of direct service) of internship required. Approximately 200 hours of supervision are provided by onsite and University supervisors. Core competencies are individualized to each internship setting.

Another major focus of the program is personal growth and development. It is the belief of the faculty that students must possess insight and awareness and must be clear about the boundaries between personal issues and those of the client. To that end, students are presented with a number of opportunities for self-discovery and process and are referred outside the program for counseling when

A primary goal of Gonzaga’s counseling program is to identify and select students who present the highest potential for success as counselors. Indicators of counselor success are demonstrations of skills, emotional intelligence, conflict resolution, consistent interpersonal behaviors, recognition of strengths and weaknesses, a clear grasp of goals, and increasing knowledge of one’s impact on others.

The following skills are essential for successful counseling:

- **Counselor-Client Communication**
  - Counselors must be able to demonstrate paraphrasing, reflection of feelings, clarification, silence, attending, minimal verbal response, and identification of affect. The counselor must recognize the congruence of the client’s communication as demonstrated by verbal, non-verbal, and extra-verbal cues.
- **Recognition of Impact**
  - Counselors must be aware of how their actions may affect the client. This not only includes communication, but also confidentiality and professional standards. The counselor must take professional responsibility for providing the best possible counseling environment to assist a client’s progress.
- **Personal Growth**
  - Counselors should take responsibility for their own personal growth and must be able to deal with personal issues in healthy ways.
- **Conflict Resolution**
  - Counselors should be able to use productive methods for resolving conflicts with and between others.
- **Approach**
  - Client issues may be accessed cognitively, affectively, spiritually, and/or behaviorally. Counselors should be aware of traditional and innovative counseling methods.
• Cultural Differences
• Counselors should be sensitive to the needs of multicultural populations in providing counseling intervention.
• Consultation and Referral
• Counselors must be able to identify their areas of expertise and know when and how to consult and refer clients to specialized resources.

Program Outline: 60 credits

Core Required Courses:

FIRST YEAR:
Fall Semester
EDCE 560 Critical Issues in Counseling  3 credits
EDCE 570 Special Issues in Counseling  1 credit
EDCE 639 Counseling Theories  3 credits
EDCE 695 Counseling Pre-Practicum  4 credits
EDCE 698 Research and Statistics  4 credits
EDCE 586 Introduction to Clinical Mental Health Counseling  2 credits

Spring Semester
EDCE 588 Human Growth and Development  3 credits
EDCE 616 Psychopathology and Psychopharmacology  4 credits
EDCE 650 Group Process  2 credits
EDCE 696 Counseling Practicum  4 credits
One of the following:  3 credits
   EDCE 589 Marriage and Family Counseling
   EDCE 587 Child-Adolescent Counseling

Summer Semester
EDCE 565 Assessment in Counseling  3 credits
EDCE 605 Occupational Choice and Career Development in Counseling  2 credits

SECOND YEAR:
Fall Semester
EDCE 697A Counseling Internship  5 credits
EDCE 664 Group Facilitation  2 credits
EDCE 581 Chemical Dependency in Counseling  2 credits

Spring Semester
EDCE 697B Counseling Internship  5 credits
EDCE 550 Multicultural Counseling  3 credits

Summer Semester
EDCE 689 Professional Seminar  3 credits
EDCE 699 Comprehensive Oral Examination  0 credits
Elective Courses
EDCE 690 Directed Readings variable credit
EDCE 691 Directed Study variable credit
EDCE 692 Independent Study variable credit
EDCE 694 Special Project variable credit

Students must complete an additional two elective credits to complete the required 60 credits. Electives can be taken in courses offered in Marriage and Family or School Counseling programs, summer practicum/internship course, optional electives offered through the department, or directed study in an area pertinent to the student’s needs.

Master of Arts in Marriage and Family Counseling

Marriage and Family Mission

The Marriage and Family Counseling Program promotes excellence in the practice of couples and family counseling through specialized training in the development of professionalism, service, and growth. Marriage and family counseling students possess the knowledge, skills, and practices necessary to address a wide variety of issues in the context of relationships and families and are prepared to serve as advocates, educators, and leaders in strengthening individuals, families, and communities.

This program offers preparation for professional counselors within community agencies, hospitals, college settings, private practice, and clinics. All counselor candidates attain a core of competencies with individualization taking place through supervised internship settings. Emphasis is placed on translating theory and research from coursework into services for clients. A major focus of the program is the development and operationalization of the student's personal theory of counseling.

Program Description

The Master of Arts in Marriage and Family Counseling is designed to train professional counselors to specialize in providing marital, couple, and family counseling for a variety of settings, including family counseling, social service and mental health agencies, college counseling centers, and private practice. Qualified candidates are screened, using standard graduate school admissions and comprehensive interviews. Candidates are introduced to theoretical and practical academic teachings, which are woven together throughout the program to ensure a rich educational experience. Upon completion of the program, they are reintroduced to the communities as qualified counselors who will enhance their community through service and leadership.

A major focus of the program is developing and operationalizing the student's personal theory of counseling. Emphasis is placed on translating theory and research from coursework to services for clients. Master of Arts in School Counseling

School Counseling Mission

The mission of the School Counseling Program is to facilitate the development of excellence in professional competence and personal growth. School Counseling graduates are prepared for distinguished service particularly in the areas of leadership, advocacy, social justice, and a respect for diversity in support of the educational achievement and life success skills of all students.
This program offers preparation for professional counselors who will serve in the K-12 school setting. School counselor candidates are competent in core knowledge, skills, and practice based on Washington State and CACREP standards. They participate in a supervised practicum (100 hours) and internship (600 hours) in the schools. The uniqueness of the program is embodied in its cohort model, the development and application of the student’s personal theory of counseling, a transformational personal and professional growth process, and the teaching of comprehensive, state of the art school counseling best practices.

Program Description

The Master of Arts in School Counseling is designed to train professional counselors to work with students, staff, parents, and the community to support student achievement in the areas of personal, social, academic, and career development in K-12 schools. The successful school counseling graduate receives Washington State Residency Certification as an Educational Staff Associate (ESA).

Qualified candidates are screened using standard graduate school admissions and comprehensive interviews. Candidates are introduced to theoretical and practical academic teachings which are woven together throughout the program to ensure a rich educational experience. Upon completion of the program, they are reintroduced to the communities as qualified counselors who will enhance the educational community through service and leadership.

A major focus of the program is developing and operationalizing the student’s personal theory of counseling. Emphasis is placed on translating theory and research from course work to services for school students. Counselor training utilizes personal as well as multi-media instruction, carefully balanced to include didactic and experiential teaching. Internships are available in school settings with 100 hours of practicum (40 hours of direct service) and 600 hours (240 hours of direct service) of internship are required. Approximately 200 hours of supervision are provided by onsite and University supervisors. Core competencies are individualized to each internship setting.

Another major focus of the program is personal growth and development. It is the belief of the faculty that graduate students must possess insight and awareness and must be clear about the boundaries between personal issues and those of the school student. To that end, students are presented with a number of opportunities for self-discovery and process. Solid mental health is the foundation to providing professional counseling services in schools.

A primary goal of Gonzaga’s counseling program is to identify and select graduate students who present the highest potential for success as counselors. Indicators of counselor success are demonstration of skills in emotional intelligence, conflict resolution, leadership, consistent interpersonal behaviors, recognition of strengths and weaknesses, a clear grasp of goals, and increasing knowledge of one’s impact on others.

The following skills are essential for successful counseling:

- Counselor-Student Communication
  - Counselors must be able to demonstrate paraphrasing, reflection of feelings, clarification, silence, attending, minimal verbal response, and identification of affect. The counselor must recognize the congruence of the student’s communication as demonstrated by verbal, nonverbal, and extra-verbal cues.
- Recognition of Impact
• Counselors must be aware of how their actions may affect the student. This not only includes communication, but also confidentiality and professional standards. The counselor must take professional responsibility for providing the best possible counseling environment to assist a student’s progress and support academic achievement.

• Personal Growth
• Counselors should take responsibility for their own personal growth and must be able to deal with personal issues in healthy ways.

• Conflict Resolution
• Counselors should be able to use productive methods for resolving conflicts with and between others.

Master of Counselling (Site Based)

Master of Counselling, Site-Based Program Mission Statement

The Master of Counselling program provides counsellor education for students, reflecting ethical and cultural aspects of Canadian life with focus on province-related needs and trends. The program promotes the development of a solid knowledge base and strong clinical skills, while fostering personal growth and transformation. Students are prepared to be ethical, competent, service-oriented counsellor practitioners.

This program offers preparation for professional counsellors within community agencies, schools, and clinics in Canada. Candidates attain a core of competencies, with individualization taking place through supervised internship settings. Emphasis is placed on translating theory and research from course work to services for clients. A major focus of the program is the development and operationalization of the student's personal theory of counselling. This degree is a two-year program for students and is provided in a cohort model.

Notice for Students and Public (site-based Alberta):

This program is offered pursuant to the written approval of the Minister of Advanced Education and Technology effective September 1, 2009, having undergone a quality assessment process and been found to meet the criteria established by the Minister. Nevertheless, prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (for example, acceptable to potential employers, professional licensing bodies, or other educational institutions).
Notice for Students and Public (site-based British Columbia):

This program is offered under the written consent of the Minister of Advanced Education effective June 2012, has undergone a quality assessment process and been found to meet the criteria established by the minister. Nevertheless, prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (for example, acceptable to potential employers, professional licensing bodies, or other educational institutions).

Program Outline: 43 credits

Core Required Courses:
- EDCE 525 Introduction to Canadian Counselling 1 credit
- EDCE 551 Diversity in Counselling 2 credits
- EDCE 558 Canadian Counselling Issues and Ethics 3 credits
- EDCE 567 Career Development and Assessment in Counselling 4 credits
- EDCE 584 Counselling Across the Life Span 3 credits
- EDCE 590 Marriage and Family Counselling 3 credits
- EDCE 616 Psychopathology and Psychopharmacology 3 credits
- EDCE 640 Counselling Theories 3 credits
- EDCE 658 Group Process and Facilitation 3 credits
- EDCE 684 Pre-Practicum A in Counselling 2 credits
- EDCE 685 Pre-Practicum B in Counselling 4 credits
- EDCE 686 Practicum in Counselling 5 credits
- EDCE 689 Professional Seminar 3 credits
- EDCE 698 Research and Statistics 4 credits
- EDCE 699 Comprehensive Oral Examination 0 credits

Elective Courses
- EDCE 690 Directed Readings variable credits
- EDCE 691 Directed Study variable credits
- EDCE 692 Independent Study variable credits
- EDCE 694 Special Project variable credits

Course Descriptions:

EDCE 525 - Introduction to Canadian Counselling credit: 1
This course provides information and insight into the roles and functions of various counselling specialties within the provinces of British Columbia and Alberta. This course serves as a prerequisite for EDCE 640 Counselling Theories and EDCE 558 Canadian Counselling Issues and Ethics. Summer.

EDCE 550 - Multicultural Counseling credits: 3
This course provides an opportunity for students to gain insight into the significance of culture and how it relates to behavior and mental health. This course includes readings and discussions of culturally sensitive diagnostic and treatment issues with respect to race, ethnicity, gender, sexual orientation, physical status, age, socioeconomic status and religion. It is essential for future counselors to understand the unique nature
of interpersonal distress and happiness on pathogenesis and health functioning. Diagnosis and treatment without consideration of such factors may constitute unethical behavior.

**EDCE 551 - Diversity in Counselling**

Students gain an understanding of behavior and mental health given the cultural context of relationships, issues and trends, and between multicultural and pluralistic national and international societies related to such factors as attitudes, beliefs, understandings, and acculturative experiences of culture, ethnicity, nationality, age, gender, sexual orientation, mental and physical characteristics, education, family values, religious and spiritual values, socioeconomic status, and unique characteristics of individuals, couples, families, ethnic groups, and communities. Through learning the theories of multicultural counseling, theories of identity development, and multicultural competencies, students will understand the advocacy process needed to address institutional and social barriers that impede access, equity, and success of clients. Spring.

**EDCE 558 - Canadian Counselling Issues and Ethics**

Content will focus on Canadian and specifically provincial (British Columbia and Alberta) issues and ethics of the Canadian Counselling and Psychology Association (CCPA) with accompanying texts and other materials that are regional and province specific. Gonzaga graduates in the counselling profession are expected to be at the forefront as leaders in the profession by role modeling the highest ethical standards possible. Through discussion, assigned reading, and written work, students develop and present their personal understanding of and response to critical issues in the counselling field. Specifically, students will study ethical and legal considerations, roles in social justice, advocacy, and conflict resolution, cultural self-awareness, the nature of biases, prejudices, processes of intentional and unintentional oppression and discrimination, and other culturally supported behaviors that are detrimental to the growth of the human spirit, mind, or body. Other issues to be discussed include professional roles, functions, and relationships with other human service providers; public and private policy processes, including the role of the professional counsellor in advocating on behalf of the profession; advocacy processes needed to address institutional and social barriers that impede access, equity, and success of clients; the ethical standards of CCPA and related entities; and applications of ethical and legal considerations in professional counseling. Fall.

**EDCE 559 - Critical Issues in School Counseling**

This course introduces students to ethical and legal considerations specifically related to school counseling. Students become familiar with school law, including policies and procedures related to Student Rights and Responsibilities, students with disabilities education, child abuse prevention, and mandatory reporting. Students are exposed to both the American Counseling Association and the American School Counseling Association, codes of ethics, and the application of such in a school setting. An emphasis is placed on helping students examine and become aware of their beliefs and values and the potential impact these might have on the way they provide counseling.

**EDCE 560 - Critical Issues in Counseling**

Graduates of the Master of Arts Program in Counseling at Gonzaga University are expected to be at the forefront in demonstrating the highest ethical standards possible in the counseling profession. In a time when the helping profession is increasingly being held accountable for the behavior of its members, the development and implementation of personal and professional standards that exemplify the best in role models and leadership are imperative. Through discussion, assigned reading, and written work, students develop and present their understanding of and response to critical issues in the counseling field.

**EDCE 564 - Assessment in School Counseling**

This course is designed to provide students with an understanding and working knowledge of test and non-test methods of individual appraisal, including the selection, administration, scoring, interpretation, and
application of various assessments. Individual and group measures used in schools will be reviewed and discussed. This course is not intended to qualify students to perform psychological assessments or to otherwise provide assessment services to the general public. Rather, this course is intended to familiarize students with appraisal methods and instruments used in school counseling.

EDCE 565 - Assessment in Counseling
credits: 3
This course is intended to familiarize students with test and non-test methods of appraisal, including administration, scoring, and interpretation of tests. Individual and group tests and clinical procedures widely used to appraise intelligence, aptitudes, interests, achievement, development, personality, and learning approaches are surveyed. It is stressed that this course is not intended to qualify students to perform psychological assessments or to otherwise perform assessment services to the public. Its purpose is to familiarize students with appraisal methods and instruments typically used in counseling and to assist students in the process of performing assessments appropriate to the counseling profession.

Pre-requisites: EDCE 588 and EDCE 616

EDCE 567 - Career Development and Assessment in Counselling
credits: 4
This course is designed to acquaint students with the theories, practice, and pragmatic aspects of vocational and life planning counselling. Students will develop their own synthesis of theoretical assumptions regarding vocational development and choice, integrate their theory into counselling practice, become familiar with information systems and centers, and prepare a comprehensive life planning program appropriate for use in the students' employment setting. Students will also become familiar with test and non-test methods of appraisal, including technical and methodological principles, administration, scoring, and interpretation of tests used in counselling with a particular focus on career assessment tools. This course is not intended to qualify student to perform assessments using psychological testing or to otherwise perform assessment services to the public without further education, training, and supervision. Rather, this course is intended to familiarize students so that they can identify and understand instruments typically used in counselling and have more expertise in the application of career assessment tools.

EDCE 570 - Special Issues in Counseling
credit: 1
This course is designed to provide students with specific education regarding the following five specialty topics in relation to the profession of counseling via a monthly seminar: 1) Suicide Prevention and Assessment, 2) Consultation, 3) Trauma Response and Crisis Intervention, and 4) Models of Supervision.

EDCE 581 - Chemical Dependency and Addiction
credits: 2
This class is designed to provide students with specific education regarding chemical dependency recognition, diagnosis, co-occurring disorders, and impact on medical and mental health issues. Specifically, as a result of this course and in accordance with the CACREP standards, students will know the disease concept and etiology of addiction and co-occurring disorders. They will learn appropriate counseling strategies when working with clients with addiction and co-occurring disorders. They will learn to identify standard screening and assessment instruments for substance use disorders and process addictions, as well as know the impact of co-occurring substance use disorders on medical and psychological disorders.

EDCE 583 - Introduction Marital Couple Family
credits: 2
This course serves as an introduction to couples and family theories and therapy. General principles of family development and systems theory are explored. The student is asked to think in relationship or systems terms regarding family behavior. Through participation in experiential assignments, students will acquire an understanding of family development and couple and family theories.

Restrictions:
Must be in the following field(s) of study: Clinical Mental Health Counseling, Marriage and Family Counseling.
School Counseling

**EDCE 584 - Counselling across Lifespan**  
credits: 3  
This course is designed to provide students with an in-depth exploration of the mental health issues specific to various populations across the lifespan. This course will thoroughly represent human growth and development with specific and current interventions appropriate to different developmental levels and stages. Special emphasis is placed on 'normal' development compared to 'pathological' development. Students study human behavior, including an understanding of developmental crises, disability, exceptional behavior, addictive behavior, psychopathology, and situational and environmental factors that affect both normal and abnormal behavior. There is special sensitivity to the issues of child abuse, multicultural awareness, and at-risk populations. Students are introduced to a variety of counseling procedures and interventions appropriate to both agency and school settings. Spring.

**EDCE 585 - Introduction to School Counseling**  
credits: 2  
This course introduces the field of school counseling and provides an overview of the profession, role and function of the counselor in the school, history and trends, and school counselor professional identity. A basic framework for comprehensive school counseling programs is introduced. Student achievement and personal/social and career development are discussed in relation to current societal and educational issues, barriers, and opportunities that may affect student success. Education reform and structure of school, guidance lesson planning and delivery, social advocacy, and counselor as consultant are among other topics covered.

**EDCE 586 - Introduction to Clinical Mental Health Counseling**  
credits: 2  
This course includes an orientation to Clinical Mental Health Counseling and familiarization with role and function, standards of care, professional ethical guidelines, and an understanding of the historical, philosophical, and social roots of counseling and consultation practices of the counseling profession.

**EDCE 587 - Child and Adolescent Counseling**  
credits: 3  
This course is designed to provide students with an in-depth exploration of the mental health issues specific to this population. Special emphasis is placed on "normal" development compared to "pathological" development, and there is special sensitivity to the issues of child abuse, multicultural awareness, and at-risk populations. Students are introduced to a variety of counseling procedures and interventions appropriate to both agency and school settings.

**EDCE 588 - Human Growth and Development**  
credits: 3  
Through this course, students review, analyze, and interpret theories of individual and family development and transitions across the life-span; theories of learning and personality development and human behavior, including an understanding of and ability to evaluate developmental crises, disability, addictive behaviors, and environmental factors as they affect both normal and abnormal behavior. Human Growth and Development involves aspects of cognitive, behavioral, social, spiritual, physical, and emotional realms. Ethical and legal concerns will be examined, and students will be asked to assess these as they relate to human growth and development. Students will also identify and evaluate aspects at different times across the life span. This course will also explain and interpret the effects of crisis, disaster, and trauma across the life span. Effects of situational versus enduring influences will be assessed, and students will be expected to defend their judgments. Associated with human growth and development will be discussions and interpretations of resiliency in a multicultural world. Application, summary, and evaluation to those we serve will be an emphasis and will receive constant attention.

**EDCE 589 - Marriage and Family Counseling**  
credits: 3  
Students examine the major contemporary theories and approaches in Marriage and Family Counseling.
Major theories and concepts of family dynamics, family life cycle, and lifestyles are examined.

**EDCE 590 - Marriage and Family Counselling**
Credits: 3
Students examine the major contemporary theories and approaches in Marriage and Family Counseling. Concepts of family dynamics, family life cycle, and lifestyles in general are presented. Students will explore systems theories and related interventions as well as processes for selecting appropriate modalities for family assessment and counseling. Role and function, ethical and legal considerations, the structure and operations of professional organizations and credentialing bodies, and the implications of professional issues unique to marital, couple, and family counseling are discussed as are pertinent roles of racial, ethnic, cultural heritage, nationality, socioeconomic status, family structure, age, gender, sexual orientation, religious and spiritual beliefs, occupation, physical and mental status, and equity issues. Fall.

**EDCE 592 - Advanced Family Systems**
Credits: 3
Students will engage in an advanced theoretical study with an emphasis on researched applications of family counseling.

**Restrictions:**
Must be in the following field(s) of study: Clinical Mental Health Counseling, Marriage and Family Counseling, School Counseling

**EDCE 594 - Special Topics MCF Systems**
Credits: 1-3
The effects of violence, chemical dependency, and related family concerns on family dynamics and their impact on couple and family counseling. Students will understand family development and the family life cycle and the impact of specific problems and challenges on family functioning.

**Restrictions:**
Must be in the following field(s) of study: Clinical Mental Health Counseling, Marriage and Family Counseling, School Counseling

**EDCE 595 - Special Issues in School Counseling**
Credit: 1
This course extends the knowledge and skill introduced in EDCE 585 as students begin the application of learning in their practicum. Emerging issues in the school setting are covered in a discussion format. Instructional and counseling strategies (multiple intelligences, solution focused counseling, resilience research, and other related topics) that support student academic and personal/social success are taught. Spring.

**Co-requisites:** EDCE 696

**EDCE 600 – Trauma, Crisis, and Grief**
Credits: 2
This course is designed to give school counselors a theoretical and practical background in crises, grief, and trauma as it relates to students and school communities. Crisis prevention and response, including suicide risk assessment, will also be addressed.

**EDCE 603 - Human Sexuality**
Credits: 2
Students will learn a basic understanding of human sexuality. Normal psycho-sexual development, sexual functioning and its physiological aspects and sexual dysfunction along with its treatment will be covered.

**Restrictions:**
Must be in the following field(s) of study: Clinical Mental Health Counseling, Marriage and Family Counseling, School Counseling

**EDCE 604 - Prevention and Parent Education**
Credits: 3
Current prevention programs for relationship enhancement and parent education. Students will examine research effectiveness, counselor/leader roles and program formats.

**Restrictions:**
EDCE 605 – Occupational Choice and Career Development in Counseling  credits: 2
This course is designed to acquaint students with the theory, practice, and pragmatic aspects of vocational and life planning counseling. Students develop their own theoretical assumptions regarding vocational development and choice, integrate their theory into counseling practice, become familiar with information systems and centers, and prepare a comprehensive life planning program appropriate for use in future employment settings.

EDCE 610 – Classroom Management in the Schools  credits: 2
This course will provide an understanding of the role of the counselor in managing classroom behavior, including how to establish positive counselor-student relationships and peer relationships that help meet the student’s basic psychological needs while building a community of support within the classroom.

EDCE 611 - Continuing Research  
EDCE 616 - Psychopathology and Psychopharmacology  credits: 3-4
This course is designed to provide a cognitive foundation in theoretical and treatment perspectives on psychopathological disorders of adults, including an understanding of the application of these perspectives in clinical settings for diagnostic and treatment purposes. Attention is given to identifying the specific symptoms associated with common psychological disorders, the multi-axial evaluation system of the DSM IV, differential diagnostic considerations, and psychopharmacological issues and interventions. The issues of severity of psychosocial stressors as well as the importance of actual adaptive functioning levels associated with each disorder are covered.

EDCE 638 - Theories in Couples Counseling  credits: 2
The study of the development of the couple-counseling field and the issues and theories related to its practice.

Restrictions:
Must be in the following field(s) of study: Clinical Mental Health Counseling, Marriage and Family Counseling, School Counseling

EDCE 639 - Counseling Theories  credits: 3
Students in this course will have the opportunity to examine historic and current cognitive, affective, spiritual, and behavioral theoretical orientations to counseling psychology and the application of theory to counseling service, case conceptualization, and counseling interventions. From this historical and current exploration, students will begin to develop a personal model of counseling, a general framework for understanding and practicing counseling. Additionally, students will examine the historical development of consultation, explore the stages of consultation and the major models of consultation, and apply the theoretical material to case presentations. Students will also begin to develop a personal model of consultation. Fall.

EDCE 640 - Canadian Counselling Theories  credits: 3
Canadian students will have the opportunity to examine historic and current cognitive, affective, spiritual, and behavioral theoretical orientations to counselling psychology and the application of theory to counselling service, case conceptualization, and counselling interventions. From this historical and current exploration, students will begin to develop a personal model of counselling, a general framework for understanding and practicing counseling. Additionally, students will examine the historical development of consultation, explore the stages of consultation and the major models of consultation, and apply the theoretical material to case presentations. Canadian students will also begin to develop a personal model of consultation. Fall.
EDCE 650 - Group Process  
This course was designed to prepare students for the potential ethical and legal dilemmas that may arise in the counseling profession. This two credit graduate level course is intended to assist students with developing knowledge about the ethical standards associated with this profession. Additionally, the identification of core values is essential to personal development. Exploration of these core values, in combination with the development of an ethical decision making model, will challenge students to be prepared for the various dilemmas they may encounter in the workforce. In order to provide the required experiential component to this course, it is offered in conjunction with EDCE 664 Group Facilitation.

EDCE 658 - Group Process and Facilitation  
This course is an introduction to the theory and practice of group counseling. Students will gain experience in developing and refining group leadership techniques with emphasis on group process and dynamics. This course will focus on both historical and current literature regarding the theoretical and experiential understandings of group purpose, developmental stages, dynamics such as roles, norms, and therapeutic factors, leadership orientations and styles, process, counseling theories, group counseling methods, and skills. Students will refine their theory and skills, and they will integrate the theoretical and experiential understandings of group theory and practice.

EDCE 664 - Group Facilitation  
This course provides experience in developing and refining group leadership techniques with emphasis on group simulations and demonstrations. Students experience a minimum of 10 clock hours of membership in small group activity as well as experience in leaders of small group.

Pre-requisites: EDCE 650

EDCE 684 - Counselling Pre-practicum (A)  
Prior to beginning the full fall semester pre-practicum, students are introduced to the basic counselling skills of attending. Students are prepared to begin the placement experience, primarily by shadowing and observing clinical practice and receiving supervision at their site. This course serves as prerequisite for 685 Counselling Pre-practicum (B). Summer.

EDCE 685 - Counselling Pre-Practicum (B)  
Through this course, students develop skills, techniques, and the process critical to counseling. The historical development of counseling theories will be discussed with an exploration of affective, behavioral, and cognitive theories; essential interviewing and counselling skills that assist the student in creating appropriate professional boundaries therapeutic relationships, establish appropriate counseling goals, design intervention strategies, evaluate client outcome, and successfully terminate the counselor-client relationship. Students will learn and begin to personalize a general framework for understanding and practicing counseling and consultation. EDCE 685 Pre-Practicum requires 100 hours of field placement work during the fall semester immediately preceding the spring semester EDCE 686 Practicum. Those 100 hours shall be a combination of experiences including such activities as: orientation, shadowing, co-counselling (if permitted). In general, the pre-practicum placement is a time to get acclimated to the agency placement, learning the protocols, paperwork requirements, and other needs. Students may begin to accrue supervised hours. With Program Director approval and Site-Supervisor permission, some experience may be applied to the direct contact hours criteria—generally done during EDCE 686 Practicum in the spring semester (or 250 total hours). This course serves as a pre-requisite to Counselling Practicum (EDCE 686). Fall.

EDCE 686 - Counselling Practicum  
This course is designed to serve as the transition between the Pre-practicum phase of the counselor’s professional development and preparation for entry level practice by providing for the continued
development of counseling skills on site and under direct supervision. Students continue to gain working knowledge of record keeping, resources, and office protocol. They will regularly observe and receive feedback from the Field Supervisor and begin to carry a full caseload of clients representing the diversity of the community. Students must complete supervised practicum experiences that total a minimum of 350 clock hours (100 hour prepracticum plus 250 hour practicum). The practicum includes all of the following: a minimum of 250 hours of direct service with clients, including experience in individual counseling and group work, weekly interaction with an average of one hour per week of individual and/or triadic supervision with an onsite supervisor. Forty hours of class time in the spring semester consists of group supervision and other further didactic experiences. Also, an evaluation of the student's performance throughout the practicum, including a formal evaluation at the conclusion of the practicum will be required.

Pre-requisites: EDCE 685 minimum grade: B-

EDCE 689 - Professional Seminar credits: 3
This course is designed to prepare students for the culminating experiences in the Masters of Arts Program, the final Professional Seminar and Oral Examination. Students work with their primary professoors and with their small groups to revise and refine their personal theories of counseling. Students are given the opportunity to "defend" this personal theory in a format similar to that of the actual final oral.

Pre-requisites: EDCE 697B minimum grade: C or EDCE 686 minimum grade: C

EDCE 690 - Directed Reading credits: 1-4
Directed Reading requires completion of a form, and departmental permission and cannot be registered for via ZAGWEB.

EDCE 691 - Directed Study credit: 1-5
Directed Study requires completion of a form, and departmental permission and cannot be registered for via ZAGWEB.

EDCE 692 - Independent Study credit: 1-5
Independent Study requires completion of a form, and departmental permission and cannot be registered for via ZAGWEB.

EDCE 693 - Comprehensive Orals for School Counselors credit: 0

EDCE 694 - Special Project credits: 1-4
Special Project requires completion of a form, and departmental permission and cannot be registered for via ZAGWEB.

EDCE 695 - Counseling Pre-Practicum credits: 3-4
Students develop their own counseling style and begin integrating their theories of counseling into a personal process of counseling. Through this course, students develop skills, strategies, and techniques critical to counseling.

EDCE 696 - Counseling Practicum credits: 3-4
This course is designed to serve as the transition between the pre-practicum phase of the counselor's professional development and the internship experience. Students gain working knowledge of record keeping, resources, and office protocol. They will regularly observe and receive feedback from the Field Supervisor and begin to carry a case load of clients by the middle of the semester.

EDCE 697 - Counseling Internship credit: 1-5
A minimum of 600 hours (240 hours minimum of direct service). Internship requires completion of a form, and departmental permission and cannot be registered for via ZAGWEB.

Pre-requisites: EDCE 696
EDCE 697A - Internship  credits: 5
This course provides a minimum of 300 hours on-site counseling experiences (120 hours of which must be in direct service) under direct supervision for advanced students. Students integrate their personal theory of counseling into practice and function as a full staff member in the school or agency counseling setting, demonstrate professional ethics and standards of care, and demonstrate professional counseling skills, strategies, and techniques.
Pre-requisites: EDCE 695 and EDCE 696

EDCE 697B - Internship  credits: 5
A second semester continuation of 697A. A further 300 hours of field experience, with 120 hours of direct service is required.
Pre-requisites: EDCE 697A

EDCE 698 - Research and Statistics  credits: 4
This course is designed to acquaint students with the language and tools of research and statistics as they serve to inform the counseling practitioner. Students often do not come to this course with a strong background in research and, as a result, have a real fear of this subject area. A specific goal of this course is to make research and statistics a subject with which students become comfortable and find application value in professional practice. Students will review and abstract research articles, present the outcomes of this review at a professional conference, and develop a research proposal. Statistical theory and techniques will be developed in the areas of descriptive statistics (e.g., scales of measurement, distribution, central tendency) and inferential statistics (e.g., variance, confidence intervals, tests of hypotheses, t-tests, ANOVA, correlation and regression, chi square). This course requires a minimal math background of basic arithmetic, beginning algebra, use of square roots, and order of operations. Having a personal calculator that adds, subtracts, multiplies, divides, and computes square roots (X2) can be helpful and save time.

EDCE 699 - Comprehensive Oral Examination  credit: 0
Permission of Chairperson
Pre-requisites: EDCE 697B or EDCE 685
Department of Educational Leadership and Administration

Chairperson: Cynthia S. Johnson, Ed.D.

The Department of Educational Leadership and Administration bases its graduate degree programs on the premise that the education profession must be composed of knowledgeable, skilled, and committed leaders who operate from a strong value base. At the master’s level, leadership is defined as possessing the knowledge, abilities, and commitment to facilitate transformation in educational settings.

This department offers four Master’s and one doctoral degree programs:

- Master of Arts in Leadership and Administration - Washington State
- Master of Education in Leadership and Administration - British Columbia, Canada
- Master of Education (School Administration) - Alberta, Canada
- Master of Education in Educational Leadership – On-line (Begins Summer 2018)
- Doctor of Education in Educational Leadership (Begins Summer 2018)

Admissions

Selection of candidates is based on the information gathered from the materials identified below. Each applicant should submit the following materials to the School of Education Graduate Admissions Office:

1. A completed application form (see the School of Education website: http://www.gonzaga.edu/soe/grad)
2. A $50.00 non-refundable fee.
3. A written statement of purpose. Gonzaga University belongs to a long and distinguished tradition of humanistic Catholic, and Jesuit education. The School of Education upholds the University tradition and exemplifies it through its dedication to preparing socially responsive professionals who serve with competence, commitment, and care. Additionally, the department’s mission is to prepare reflective educational leaders who promote student, professional, and organizational learning to address challenges and opportunities inherent in a changing world. With these perspectives in mind, please submit a typed statement of purpose that:
   a. Briefly describes your background.
   b. Describes why you are interested in the Gonzaga graduate program.
   c. Describes and gives examples of the strengths that you bring to the program that will help you as an educational leader.
   d. Describes leadership experiences that you have had in or out of the school setting.
   e. Describes and gives examples of your personal commitment to working with students, service to others, and advocating for all students.
   f. Shares with us what you expect to accomplish in acquiring a master’s degree and what you hope you will accomplish once you have received your degree.
4. Two letters of recommendation, from recent supervisors sent directly from the recommending persons to the School of Education Graduate Admission Office with the Confidential Recommendation forms attached (see the School of Education website).
a. **Written Recommendation:**
   Please write your letter of recommendation on school or district letterhead. It is crucial that you address all of the items; we score the candidate’s likelihood of success in graduate work and “fit” to our program against all of these criteria.
   i. Describe and give examples of the candidate’s ability to lead, or leadership experiences in the school setting.
   ii. Describe and give examples of the candidate’s commitment to serving students.
   iii. Describe and give examples of the candidate’s teaching ability.
   iv. Describe and give examples of the candidate’s commitment to diversity and ability to advocate for the success of all students.

b. **Professional Dispositions**
   Please rate the candidate according to the scale five (5) strongly agree to one (1) strongly disagree. The last column on the rating sheet may be checked if you’re feel you have “insufficient knowledge” of the candidate to make a judgment.

5. One official transcript from each college or university attended. International applicants must submit foreign transcripts in the original language and an English copy. Final transcripts must bear a posted Bachelor’s degree. Only degrees and courses from a regionally accredited institution will be accepted.

6. A résumé that shows career history and highlights leadership experiences. List and describe any specific training and / or experiences you have had as a group / project leader, co-coordinator of change initiatives, or trainer. Please include length of service. Applicants, please structure your vita as shown below and explicitly address each of the bulleted items:
   a. **Work Experience**
      Describe your work history (most recent first), including location, length of service, and position
   b. **Professional Development/Training**
      List career related training and professional development programs completed within the past four years. Include the source of training, and the duration and year completed.
   c. **Technology Training**
      Briefly describe your level of training and experience in using information technology including computers, software, and telecommunications networks as tools for business, education, teaching, and personal use.
   d. **Volunteer/unpaid service**
      List and describe and voluntary/unpaid post-secondary employment and/or community service experience. Please include name of organization, length of service, and a brief description of duties.
   e. **Leadership Experience**
      Please describe any specific training and/or experiences you have had as a group/project leader, co-coordinator of change initiatives, or as a trainer.

7. An official TOEFL score of at least 550 (minimum score of 80 if taken via Internet) by each international applicant who has graduated from a foreign college or university and whose native language is not English.
Master of Arts in Leadership and Administration - Washington State

The Master of Arts in Leadership and Administration Program is an integrated program for educators who aspire to be effective teacher leaders or administrative leaders. We believe that educational teams become stronger when greater understanding exists about the roles of each of its members. Because the program integrates content and professional standards appropriate to both teachers and administrators, candidates also may elect to complete their principal or program administrator certification in conjunction with the master’s program. Theory and practice are explored from the perspective of both teachers and administrators, and coursework is differentiated depending on the candidates’ career goals.

The program is designed for working educators with a focus on linking theory and research to practical issues in teaching and leadership using candidates’ local districts as the context for their study. Candidates are admitted into a cohort of educators from their local areas and experience the benefits of a collaborative learning community. Faculty travel to the candidates’ location. Courses are held in the evenings or on weekends depending on the needs of the cohort. As candidates work on assignments for each of the program courses, they have the opportunity to explore issues important to them in their own classrooms, schools, and districts. Each cohort is assigned a faculty advisor who works with them through the entire program. Currently, the program is approved to be delivered in the state of Washington.

Prerequisite

A Bachelor’s degree from an accredited college or university is required and a minimum of three (3) years of teaching experience is preferred.

Program Outline: 34 credits

Master of Education (School Administration) Alberta, Canada

The Master of Education (School Administration) Program is an integrated program for educators who aspire to be effective educational leaders. The program is designed for working educators with a focus on linking theory and research to practical issues in leadership using candidate's local districts as the context for their study. Candidates are admitted into a cohort of educators from their local area and experience the benefits of a collaborative learning community. Faculty travel to the candidates' location. Courses are held in the evenings or on weekends depending on the needs of the cohort. As candidates work on assignments for each of the program courses, they have the opportunity to explore issues important to them in their own classrooms, schools, and districts. Each cohort is assigned a faculty advisor who works with them through the entire program. Currently, the program is approved to be delivered in the province of Alberta, Canada.

Notice for Students and Public:

This program is offered pursuant to the written approval of the Minister of Advanced Education and Technology effective September 2009, having undergone a quality assessment process and been found to meet the criteria established by the Minister. Nevertheless, prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (for example, acceptable to potential employers, professional licensing bodies, or other education institutions).

Prerequisite

A Bachelor’s degree from an accredited college or university is required and a minimum of three (3) years of teaching experience is preferred.

Program Outline: 34 credits

Beginning in the Summer of 2018, The Department of Educational Leadership and Administration will begin offering a 30 credit online program.

**Master of Education in Educational Leadership**

**On-line Master’s Degree Program**

The Department of Educational Leadership and Administration develops reflective, educational leaders who are committed to a spirit of inquiry and social justice and who guide their communities toward a rich, equitable, and comprehensive education for all students. The on-line Master of Education in Educational Leadership program is designed for practicing educators who aspire to become more effective formal and informal leaders in the K-12 environment. An educational leader’s key task is to foster learning for everybody in that environment. The 30-credit program consists of 10 courses delivered across four consecutive semesters. The 10 courses in this program are designed to help educators develop the knowledge and skills that will help them create a school environment in which everyone can realize their potential. This on-line master’s program is, at heart, a community of learners. To enhance this community of learners, this program is designed as a cohort model. Members of the cohort will begin the program through a front-loaded on-line course, then meet during the last few days in June and the first week in July on the Gonzaga campus in Spokane. While in Spokane, members of the cohort will meet each other, their cohort advisor, and their instructors. They will participate in orientation activities and some face-to-face instruction. They will then return to their homes to complete the rest of the program through on-line courses. The on-line coursework will be enhanced by personal one-to-one support via Blackboard, e-mail, telephone, and teleconferencing throughout the program. By opening doors to people across the region and around the world, this program will enrich the lives of participants as we bring together people from different social, cultural, and ethnic backgrounds.

The Department offers the following certification program:

**Principal Certification**

The Department of Educational Leadership and Administration understands that school leaders face many challenges, including legislated learning, under-funded programs, and the demands of a global economy, and increasing pressures for school reform, assessment, and accountability. School leadership programs begin with the assumption that school leaders do more than provide effective supervision. Today’s school leaders also work with peers, administrators, and parents to achieve school, district, and state goals. Research on school leadership indicates that student achievement is heavily influenced by the ethos of the school. An effective school ethos is characterized by faculty collegiality, collaboration, and a sense of community in which leaders demonstrate the courage to address tough issues, the commitment and care to improve conditions for everyone in the community, and the individual, personal and technical competence to be effective.

**Admissions**

Selection of candidates is based on the information gathered from the materials identified below. Each applicant should submit the following materials to the School of Education Graduate Admissions Office:

1. A completed application form (see the School of Education website: http://www.gonzaga.edu/soe/grad)
2. Two letters of recommendation from Principal / Colleague
3. Two nomination letters from Superintendent and Principal
4. A copy of your résumé
5. A written statement of purpose
6. A copy of your teaching or ESA certificate from WA State
7. A copy of your abuse course taken.
8. One official transcript all colleges or universities attended, one must be degree barring. International applicants must submit foreign transcripts in the original language and an English copy. Final transcripts must bear a posted bachelor's degree from an accredited university.

**Prerequisites**

A master’s Degree from an accredited institution, a valid teaching or ESA certificate, currently employed in a K-12 setting in the state of Washington, and a minimum of (three) 3 years of K-12 experience.

The Principal Certification Program consists of 12 credits:

This department offers a Doctor of Education in Educational Leadership (EdD) program:

**Doctor of Education in Educational Leadership (EdD)**

The Doctor of Education in Educational Leadership program consists of 51 distributed across 7 semesters. The program is delivered through three summer semesters of traditional face-to-face classes in Spokane, supplemented by four semesters of on-line courses that support candidates throughout two academic years, and supported by regular contact and coursework with doctoral advisors and field-based mentors. Candidates will develop a capstone project in which they effectively leverage data to deal with a problem of practice in their professional setting. This hybrid program will enable candidates to continue working in their professions as they complete their doctoral studies. The EdD program includes the completion of a capstone project that will demonstrate a synthesis and culmination of the candidate’s work. The candidate will engage in scholarly inquiry to analyze, evaluate, and effectively leverage data in order to deal with a problem of professional practice.

**Admissions**

In making our admission decision, we consider the applicant’s leadership qualities, character, motivation, commitment to social justice through pre-K-12 education, ability to work independently and in teams, academic ability, and writing ability. A master’s degree or its equivalent and have at least five (5) years of professional experience in the pre-K-12 school (or closely related) environment.

We gather this information through the following required application materials:

1. Evidence of a minimum of five years of relevant professional experience in the pre-K-12 environment or other relevant educational experience.
3. Two official transcripts from the university at which highest degree was earned.
4. Evidence of an earned master’s degree with a minimum 3.0 GPA on a 4.0 scale.
5. Three letters of recommendation (two from current or recent supervisors, one from other stakeholder such as board member, university instructor, or community member, but NOT to include faculty who will teach in Gonzaga’s EdD program), all three of which are included in the EdD Application Packet. Please ensure that these three letters of recommendation adhere to Department guidelines and are submitted directly from the recommending persons to the SOE Graduate Admission office using the confidential recommendation forms (SOE website: [www.gonzaga.edu](http://www.gonzaga.edu)).
6. A current CV or résumé that adheres to Department guidelines.
7. A personal written statement of no more than 500 words. In this written statement, do these four things:
   a. Articulate your professional mission and purpose.
   b. Articulate what you expect to learn that will support you in your mission and purpose.
   c. Identify a problem of professional practice that you would like to address.
   d. Tell how addressing that problem will help you realize your mission and purpose.
8. An interview, via telephone, skype, or in person, with the Department Chair, Program Director, and another member of the EdD faculty.
9. A $50.00 non-refundable fee.
Gonzaga welcomes applications from international students. If you are an international student, please complete and include a Financial Declaration form, the Form I-20, a financial declaration form, and a copy of your passport picture page. Non-native English speaking students must present evidence of English proficiency sufficient for graduate-level work. Gonzaga University requires the Test of English as a Foreign Language (TOEFL) and that the official scores be sent from ETS. In lieu of the TOEFL*, Gonzaga will accept satisfactory completion of Level 108 of the University’s English as a Second Language program with a grade point average of at least 3.0 and the recommendation of the ESL faculty. Applicants should submit transcripts in both their native language and a professional, certified English translation. Photocopies are not accepted as official documents and may not be used for evaluation purposes.

Course Descriptions:

EDLA 501 - Professional Development  credits: 1-5
This course is designed for experienced teachers. The course involves both in-class and field-based learning.

EDLA 520 - Computers in School Curriculum  credits: 3
The nature of contemporary school curriculum and the need for the professional educator to gain a basic understanding of computers and computer technology are discussed. The course also explores a variety of computer applications and evaluates their uses in the classroom.

EDLA 540 - Ethical Dimensions in Education  credits: 3
This course presents a review of ethical theory and an examination of ethical decision-making that affects the daily life of students, teachers, administrators, staff, and parents involved in the pre-K-12 education system. This course also explores important elements of practical and professional ethics and the culture of pre-K-12
EDLA 546 - Advanced Learning Strategies  credits: 3
This course is designed to identify for teachers, principals and curriculum developers a range of teaching models and instructional approaches for creating learning environments. The course provides a systematic exploration of interactions among educational objectives, pedagogical strategies, curricular designs, social and psychological theory. The course emphasizes the wide range of options teachers may adopt and adapt to their unique teaching situation. The course assists students in developing a basic repertoire of teaching models through analysis of the underlying theoretical structures, principles and procedures of four different groups of approaches to teaching. Students will have the opportunity to participate in the "coaching" process designed to assist with the acquisition of new teaching behaviors.

EDLA 548 Educational Leadership & School Improvement  credits: 3
This course will examine the beliefs, knowledge, and skills that promote collaboration with all stakeholders toward creating a school improvement plan that promotes student success. The course will address practical elements of dynamic school leadership applied to research based practices regarding change, team building, staff development models, and supervisory processes that foster the improvement of schools.

EDLA 553 - Teaching Thinking Skills  credits: 3
This course presents a practical introduction to strategies that develop thinking skills: theory as well as practical applications to use in the classroom. Emphasis is on how to integrate thinking skills development into the existing classroom curriculum.

EDLA 554 - Cooperative Learning  credits: 3
This course provides a treatment of collaborative learning strategies. Course topics include recognizing elements of cooperative learning, diagnosing and grouping for a cooperative classroom environment, utilizing eight applied teaching techniques, and promoting responsible evaluation techniques for collaborative learning.

EDLA 555 - Teaching Thinking Skills  credits: 3
This course presents a practical introduction to strategies that develop thinking skills: theory as well as practical applications to use in the classroom. Emphasis is on how to integrate thinking skills development into the existing classroom curriculum.

EDLA 564 - Art and Science of Teaching  credits: 3
This course examines frameworks for enhancing student learning from the perspectives of leadership in the classroom and at the building or district level. The course will build on the educational applications of brain research and on strategies for creating safe and effective learning environments. Candidates will be asked to apply course content at the classroom level and school leadership level.

EDLA 565 - Assessment and Learning  credits: 3
This course is designed to help candidates extend their expertise in applied educational measurement at the classroom, building, district, state, provincial, and national levels. The philosophical, cultural, ethical, and political issues surrounding assessment and evaluation will be examined from the perspectives of classroom practitioners and school leaders. Candidates will also focus on involving students in a variety of rigorous assessment methods to promote a fair, supportive, and reciprocal learning environment.

EDLA 597 - Instructional Practicum  credits: 3
This is a field-based experience for practicing teachers. The focus is on the development and documentation of growth standards from research on teaching. Teachers use peer coaching, effective schools research, climate expectations, and goal setting strategies. Some application of specific models, social styles, and positive growth strategies may be involved.

EDLA 600 - Program Administrator Intern  credits: 3
The internship is planned for candidates contemplating a calling to central office administration. This two semester course field experience places the candidate-administrator in a firsthand work experience in which academic knowledge can be applied in the educational setting. The candidate's experience is aligned to Washington State Program Administrator Certification requirements.

EDLA 609 - Program Administrator Role Seminar  credits: 2
This course is delivered through a series of five seminars during the candidates' internship year. Attendance of each seminar in the specific sequence is mandatory. Seminar topics include budget allocation and
distribution, staffing, ASB funds, special education law, personnel, public relations and the job search process.

EDLA 610 - Program Administrator Internship credits: 3
The internship is planned for candidates contemplating a calling to central office administration. This two semester course field experience places the candidate administrator in a firsthand work experience in which academic knowledge can be applied in the educational setting. The candidate's experience is aligned to Washington State Program Administrator Certification requirements.

EDLA 611 - Continuing Education credit: 1
This is an individualized study designed by the student in consultation with the professor. It requires self-directed learning in a selected area of interest; the professor serves as resource.

EDLA 612 - Leadership Role Seminar credits: 3
This course is delivered through a series of five seminars during the candidate's internship year. Attendance of each seminar in the specific sequence is mandatory. Seminar topics include budget allocation and distribution, staffing, ASB funds, special education law, personnel, public reflections and the job search process. Fall.

EDLA 613 - Leadership Role Seminar credits: 3
This course is delivered through a series of five seminars during the candidate's internship year. Attendance of each seminar in the specific sequence is mandatory. Seminar topics include budget allocation and distribution, staffing, ASB funds, special education law, personnel, public reflections and the job search process. Spring.

EDLA 620 - Principal Internship credits: 3
The internship is planned for the candidate's second year in the program. The field experience places the candidate-administrator in a firsthand experience in which academic knowledge can be applied to the educational setting. The candidate's experience is aligned to Washington State principal certification requirements.

EDLA 623 - Risk and Protective Factors credits: 3
This course addresses the interdependency of family, school and community as they impact the school-aged child. Risk factors are addressed, as well as protective factors that can support family, school, and community in fostering resiliency in children.

EDLA 625 - Classroom Intervention Skills credits: 3
This course offers teachers the opportunity to learn communication and counseling skills that can be used within the instructional settings. Supportive classroom management techniques that result in logical consequences and assist the child in accepting responsibility for behavior are addressed. This course focuses on a multitude of methods and modalities in order to address various learning styles to reduce non-academic stressors.

EDLA 626 - Culture and Diversity credits: 3
Candidates will examine issues concerning accepting, respecting, appreciating, and accommodating all members of society who are entitled to enjoy the benefits of education, regardless of their race, color, national origin, gender, native language, age, social or economic status, family structure and lifestyle, sexual orientation, religious perspective, or ability level. Candidates will explore diversity from a global perspective.

EDLA 627 - Teacher as Counselor credits: 3
This introductory course addresses the metacognitive aspects of the teacher as person and counseling skill development for classroom teacher use. Areas of emphasis will include self-awareness, awareness of impact on others, recognizing and attending to different learning styles and personality types, maintaining healthy relationships with others, and creating a vision for the future. It will focus on personal and academic growth.

EDLA 628 - Manage-Enhance Instructional Culture credits: 3
This course includes methods and strategies teachers can use to match pedagogy to the various learning styles of students. Teachers translate theory into practice through experiences within the classroom as well
as collaborate with families and community agencies. The course focuses on practical application of theory by the creation of curricula using methods, strategies, and resources that have been designed to facilitate child resiliency, involve family, and utilize school and community resources.

**EDLA 630 - Principal Internship**

credits: 3

The internship is planned for the candidate's second year in the program. The field experience places the candidate-administrator in a firsthand experience in which academic knowledge can be applied to the educational setting. The candidate's experience is aligned to Washington State Principal Certification requirements.

**EDLA 633 - Educational Leadership and Organizations**

credits: 3

This course is designed to enhance candidates’ understanding of organizations and to build their capacity as leaders with and without authority to help their organization achieve its goals. Candidates will apply leadership theories in an analysis of their problem of practice.

**EDLA 635 - Principalship**

credits: 3

This course explores the role of the building administrator. It examines the nature of school leadership in today’s schools; core values and beliefs; and the relationships of the principal with students, teachers, parents, and the community.

**EDLA 638 - Educational Leadership: Change, Management, and Supervision**

credits: 3

This course is designed to provide an overview of the school leader’s role in developing a shared vision, mission, and set of core values for continuous school improvement. Candidates will study fundamental leadership and management principles and skills to explore methods of effective school operations such as financial, human resources, and technology. Candidates will also study and describe the processes and practices of effective school supervision and evaluation methods embedded in trust and professional growth.

**EDLA 641 - Educational Leadership and Community**

credits: 3

This course will explore the multiple, complex ways that our schools and society shape each other, with special attention devoted to school leadership issues. Theory, research, and models of effective practice will in from the educational leader's role as a bridge between school and community. This bridging role includes being actively involved in building reciprocal relations within and between school and community, facilitating understanding and communication among and between various interest groups as they impinge on the school, and developing mutually beneficial linkages and partnerships for the benefit of the school, particularly as they enhance the mission of promoting powerful and equitable learning for students, professionals, and the organization.

**EDLA 646 - Staff Development**

credits: 3

This course provides the professional teacher with an understanding of the concepts of adult learning and development and an awareness of some of the components, processes, and techniques of staff development programs. The focus is on the underlying theme of staff development programs that the professional teacher perceives learning and the acquisition of new competencies as a life-long process.

**EDLA 648 - Teacher Leadership**

credits: 3

This course focuses on the skills of promoting effective cooperation between community and school. It also includes discussion of communication strategies, team building, and meeting patron need. Prerequisite: Postgraduate standing or permission. (Canada only)

**Restrictions:**
Must be enrolled in one of the following Campus(s): Off-Campus

**EDLA 651 - Supervision of Instruction**

credits: 3

This course is designed to support the position that the primary purpose of supervision is to provide the means for teachers and supervisors to increase their understanding of the teaching-learning process through collaborative inquiry that can increase classroom effectiveness and student learning. The primary assumption on which this course rests is given a democratic setting; all teachers have the potential for growth and are
capable of making appropriate instructional decisions based on relevant classroom data. Teachers are perceived as active constructors of their own knowledge about learning and teaching and supervision is viewed as a collaborative means in creating this knowledge. The emphasis is on multiple methods of collecting objective data during instruction that can be used to make inferences and interpretations regarding the effectiveness of the teaching process.

**EDLA 653 - Curriculum Development**
This course addresses the basic approaches to planning and modifying school curricula and places these in historical, ideological, and political contexts. Topics include the diagnosis of needs, selection and organization of learning experiences, evaluating curricular systems, and the elements of the change process that promote equity and access to learning. Candidates will explore the implications of course concepts at the classroom, school, and district levels.

**EDLA 662 - Leadership and Finance**
This course presents a thorough overview of the economics and financing of education. This course also presents, and prepares participants for using, standard budgeting procedures for managing schools and school systems.

**EDLA 663 - Leadership and Law**
The course is designed for graduate students in education without prior formal training in school law, but who have experience working in schools. Through multiple activities students are expected to be able to identify legal issues which may arise in their jobs in school, be familiar with the legal rules which govern these issues, and be able to make an educated guess about how a court might apply these legal standards to their situation.

**EDLA 670 - Leadership and Change Planning**
This course consists of one module that can be taken in either the fall or spring semesters. The module topic addresses planning for school change. The course is designed for those candidates that already hold a master's degree in the field of education and is primarily developed for those individuals that have a Principal or Program Administrator Certification.

**EDLA 671 - Leadership and Capacity Building**
This course consists of one module that can be taken in either the fall or spring semesters. The module topic addresses Leadership and Building Capacity in others. The course is designed for those candidates that already hold a master's degree in the field of education and is primarily developed for those individuals that have a Principal or Program Administrator Certification.

**EDLA 689 - Professional Seminar**
In this course, candidates will demonstrate the integration of the knowledge and skills gained throughout the program. They will also articulate their translation of theory into continuous improvement of professional practice.

**EDLA 690 - Directed Readings**
This is an individualized study based on readings approved by professor. Student develops a selected bibliography.

**EDLA 692 - Independent Study**
This is an individualized study designed by the student in consultation with the professor. It requires self-directed learning in a selected area of interest; the professor serves as resource.

**EDLA 694 - Special Project**
This is an individualized and project-based study, which results in a practical application of educational theory. The project or written report of project is submitted to the professor for evaluation.

**EDLA 695 - Professional Experience**
This is a planned series of field experiences in settings related to education, junior colleges, court services, social agencies, etc.
EDLA 698 - Research and Data Analysis  
The research course continues from the Educational Leadership and Inquiry course and focuses on helping candidates understand and apply methodological, ethical, and writing formatting issues related to the research process. The course is designed to prepare the candidates to plan and report on self-selected research projects.

EDLA 698A - Research Project  
This is a research project for a master's degree.

EDLA 698C - Research Seminar  
An analysis of basic elements of research proposal design.

EDLA 699 - Comprehensive Oral Exam  
The Oral Exam is the opportunity to demonstrate your knowledge acquisition, your ability to use knowledge to solve problems, and a chance to focus on yourself as a leader: how you believe you have grown—in response to each program outcome or goal. Review your work from the program that you think provides evidence of meeting the program outcomes and come prepared to discuss what you have done to meet these outcomes. You may bring notes or evidence that support your self-assessment. Bring a hard copy of the Oral Exam Reflection and email a copy to your advisor in advance of the Oral Exam. (Note: One project/assignment/experience may provide evidence for several of the outcomes or goals).

EDPC 911 - All but Certified (ABC)  
This professional development course is required for all principal and program administrator certification candidates that have not completed the certification program on time. This course is repeatable each semester until the program is complete. All candidates who have not finished the program and want to continue working towards their principal or program administrator certificate must register for this course until they have finished all requirements for certification.

EDPC 912 - Leadership Role Seminar  
This on-line course delivery consists of six modules. The on-line module topics include vision for learning, instructional leadership, organizational management, school/community relations, ethical leadership, and political issues and awareness. Post-masters Administrative Certification Candidates are required to sign up for the course two consecutive semester as directed by the program director and/or internship supervisor. The first three modules of the seminar are completed in the fall and the final three modules completed in the spring.

EDPC 913 - Leadership Role Seminar  
This on-line course delivery consists of six modules. The on-line module topics include vision for learning, instructional leadership, organizational management, school/community relations, ethical leadership, and political issues and awareness. Post-masters Administrative Certification Candidates are required to sign up for the course two consecutive semester as directed by the program director and/or internship supervisor. The first three modules of the seminar are completed in the fall and the final three modules completed in the spring.

EDPC 920 - Certification Internship  
The internship is a two-semester field experience that places the student-administrator in a first-hand experience in which academic knowledge can be applied to the education setting.

EDPC 930 - Certification Internship  
The internship is a two-semester field experience that places the student-administrator in a first-hand experience in which academic knowledge can be applied to the education setting.

EDPC 970 - Leadership & Change Planning  
The on-line professional development course consists of one module that can be taken in either the Fall or Spring semesters. The module topic addresses planning for school change. The course is designed for those candidates that already hold Master's Degree in the field of education and is primarily developed for those individuals that have a principal for program administrator certificate.
EDPC 971 - Leadership & Capacity Building  
credits: 3
The on-line professional development course consists of three modules that can be taken in either the Fall or Spring semesters. The module topics address Leadership and Building Capacity in others. The course is designed for those candidates that hold a Master’s Degree in the field of education and is primarily developed for those candidates that have a principal or program administrator certificate.

Beginning in Summer 2018 - for the 30 credit On-line Master of Education in Educational Leadership Program (MEEL)

EDLA 626 - Cultural Competence Development  
credits: 3
This course addresses culture and diversity from local and global perspectives and explores various life/world views with practical application for educators. Candidates will develop cultural competencies that support effective and appropriate interaction in a variety of educational and community cultural contexts. These competencies involve developing knowledge, skills and attitudes that promote human rights, celebrate human differences, and accommodate students from diverse cultural backgrounds.

EDLA 628 - Educational Leadership and Inquiry  
credits: 3
This course creates opportunity for personal reflection on one’s role as a leader in the classroom and the broader educational culture. Because schools are centers of inquiry, candidates will develop the capacities to lead a process of evidence-informed decision-making. Candidates will examine leadership theory, practice, and the skills associated with professional inquiry.

EDLA 633 - Educational Leadership and Organizations  
credits: 3
This course is designed to enhance candidates’ understanding of organizations and to build their capacity as leaders with and without authority to help their organization achieve its goals. Candidates will apply leadership theories in an analysis of their problem of practice.

EDLA 638 - Educational Leadership: Change, Management, and Supervision  
credits: 3
This course is designed to provide an overview of the school leader’s role in developing a shared vision, mission, and set of core values for continuous school improvement. Candidates will study fundamental leadership and management principles and skills to explore methods of effective school operations such as financial, human resources, and technology. Candidates will also study and describe the processes and practices of effective school supervision and evaluation methods embedded in trust and professional growth.

EDLA 641 - Educational Leadership and Community  
credits: 3
The purpose of this course is to advance candidate understanding of school and community relationships by applying and promoting a culture of learning that is respectful of all stakeholders. The course will address the significant aspects of developing school and community partnerships that create supports for the academic, social, and emotional needs of students.

EDLA 653 - Educational Leadership: Curriculum, Instruction and Assessment  
credits: 3
This course addresses how formal and informal leaders can promote alignment between curricular design, pedagogical decisions, and assessment methods while attending to historical, ideological, and political contexts. Emphasis will be placed on promoting equity and access to learning through classroom-based diagnosis of student needs and student involvement, and through school-based tiers of support.

EDLA 688 - Evidence-Informed Decision Making  
credits: 3
In this course, candidates will create an action plan specific to their problem of professional practice. This action plan will apply leadership practices to promote school growth by addressing systems change. Strategies that enhance educators’ collaborative school improvement processes will be explored. Spring or Summer depending on cohort.

EDLA 689 - Professional Seminar  
credits: 3
In this course, candidates will demonstrate the integration of the knowledge and skills gained throughout the program. They will also articulate their translation of theory into continuous improvement of professional
practice.

**EDLA 698 - Research and Data Analysis**  
credits: 3
This course will address research processes and system-wide data collection. Emphasis will be placed on critically evaluating educational research and on analyzing data as a way to mobilize action steps towards improved student learning or school environments. Data from a variety of sources will be summarized in graphs, tables, and oral or written narrative.

**EDLA 699 - Comprehensive Oral Exam**  
credit: 0
The Oral Exam is the opportunity to demonstrate your knowledge acquisition, your ability to use knowledge to solve problems, and a chance to focus on yourself as a leader: how you believe you have grown-in response to each program outcome or goal. Review your work from the program that you think provides evidence of meeting the program outcomes and come prepared to discuss what you have done to meet these outcomes. You may bring notes or evidence that support your self-assessment. Bring a hard copy of the Oral Exam Reflection and email a copy to your advisor in advance of the Oral Exam. (Note: One project/assignment/experience may provide evidence for several of the outcomes or goals).

**Beginning in Summer 2018 - for the Doctor of Education in Educational Leadership (EdD)**

**EDLD 701 - Framework for Effective Leadership**  
credits: 3
This course presents the conceptual framework for the Doctorate of Educational Leadership. Candidates will develop an understanding of the change process that is grounded in the principles of relational trust, academic press, and social support. Candidates will analyze and create a personal model for leadership based upon the needs of the organization.

**EDLD 702 - Culture and Identity**  
credits: 3
This course defines culture and identity from local and global perspectives. It involves understanding one’s culture, the culture of groups one belongs to, and the culture of others. Candidates will explore various life/world views with practical application for educators, as they develop knowledge, skills, and attitudes that promote self-understanding and student success.

**EDLD 703 - Research Methods and Data Collection**  
credits: 3
This course presents the research process through the development of a research proposal that includes identifying a topic that is specific to their problem of professional practice, analyzing the relevant literature, choosing an appropriate research design, following ethical and legal procedures for conducting human research, and determining the appropriate method to analyze the data. By the end of the course, candidates will be able to evaluate research designs in terms of validity, apply qualitative and quantitative data collection methods, understand the role of hypothesis testing in inferential statistics, and identify appropriate data analysis procedures for a variety of quantitative and qualitative studies.

**EDLD 704 - Data Sources, Priorities, & Planning**  
credits: 3
This on-line course focuses on evidence-based practices and the development of knowledge that is necessary for gathering and analyzing relevant data. Doctoral candidates will identify various forms of data and organizational evidence with an emphasis on utilizing the findings for school improvement and change.

**EDLD 705A - Review of Literature on Problem of Practice**  
credits: 3
Integrated with EDLD 705b lab: Problem of Practice Internship I (13-week Field-based Internship)
This course is designed to help candidates enhance their skills as school leaders by gathering and marshaling relevant data to solve specific problems of practice. This course is an individualized study based on readings that are approved by the Doctoral Mentor and are related to the candidate’s problem of professional practice. Working closely with their Doctoral Mentor and Field-based Internship Supervisor, candidates will examine the literature specific to their problem of practice and then prepare an APA-format review of that literature. This course contributes to the development of the capstone project and will reflect the candidate’s ability to engage in scholarly and organizational inquiry, to read and evaluate the relevant literature, to
analyze a problem of professional practice, collect the relevant data and evidence, and to leverage that evidence for change.

**705B - lab: Problem of Practice Internship I**  
(Integrated with EDLD 705A: Review of Literature on Problem of Practice)  
This course is a 13-week internship with the student’s Field-based mentor.

**EDLD 706 - Leveraging Fiscal Resources**  
This on-line course is designed to help candidates learn how to navigate and influence state and federal governmental structures that impact the financial well-being of the system and local school initiatives. Candidates will also develop a foundation of knowledge to guide them in aligning resources at all levels of the organization so that systematic change supports the academic and professional needs at the building level.

**EDLD 707A - Action Plan for Problem of Practice**  
(Integrated with EDLD 707B lab: Problem of Practice Internship II (13-week Field-based Internship))  
In this course, candidates will build upon the work they did in the EDLA 705a Review of the Literature on Problem of Professional Practice course. This course is an individualized study in which the candidates will work closely with the Doctoral Advisor and the field-based mentor to analyze the findings from the review of the literature, identify what new data or evidence is required, and to make a plan to collect that new evidence. This course contributes to the development of the capstone project and will help candidates develop the skills necessary to lead a process of evidence-based decision making.

**707B – Lab: Problem of Practice Internship II**  
(Integrated with EDLD 707a: Action Plan for Problem of Practice)  
This course is a 13-week internship with the student’s Field-based mentor.

**EDLD 708 - School Improvement: People, Data, Processes**  
The purpose of this course is to provide candidates a foundation in the systems approach for change based upon evidence that promotes a culture for learning. Candidates will learn about an integrated approach in creating school structures that are grounded in achievement and the social, emotional, and behavioral needs of students. Candidates will analyze information and create a plan, based upon the processes learned, that is informed through data and promotes action in supporting teaching and learning.

**EDLD 709 - Ethics: A Higher Standard of Leadership**  
This course provides an understanding of, and an appreciation for, the function of philosophical inquiry and ethical analysis in the field of educational leadership. This course also provides a practical orientation to the understanding of forces that affect the ethical decision-making of school leaders. Candidates will analyze the ethical frameworks that bound their professional practice. Through critique of philosophy, theory, and personal practice, as well as classroom situation and analysis, candidates will broaden their understanding of a variety of divergent frameworks of ethical decision-making and relate what they have learned to their professional practice. Particularly in an era of increasing regulatory mandates and decreasing availability of both human and institutional resources, an understanding of the function of ethical analysis is of critical importance in the identification, elucidation, and resolution of controversies in school systems.

**EDLD 710 - Data Analysis**  
This course builds upon the skills developed in EDLD 705 Data Sources, Priorities, and Planning, EDLD 706 Review of Literature on Problem of Practice, and EDLD 708 Action Plan for Problem of Practice. In collaboration with the instructor of the research course and the Doctoral Mentor, along with appropriate faculty, candidates will act on the evidence-based plan and leverage the evidence they have gathered to improve student learning or the professional environment. This course contributes to, and will be documented in, the candidate’s capstone project.

**EDLD 711 - Building Capacity: Continuous Improvement (On Line)**  
This on-line course is designed to help candidates align the strengths, interests, and needs of the people they serve with the mission of the organization. Candidates will develop and articulate their mission in a way that strengthens the competence and commitment of the people they serve. Candidates will also learn how to
develop and put systems in place that enhance others in a way that builds their competence and commitment in promoting learning for all stakeholders.

**EDLD 712A - Leadership Integration for Problem of Professional Practice**  credits: 3

Integrated with EDLD 712B Lab: Problem of Practice Internship III (13-week Field-based Internship)

This course builds upon the other courses and contributes to the development of the capstone project by helping candidates integrate principles of leadership, data collection, and leveraging relevant data for meaningful change specific to their problem of practice.

**712B – Lab: Problem of Practice Internship III**  credit: 1

(Integrated with EDLD 712a: Integration for Problem of Practice)

This course is a 13-week internship with the student’s Field-based mentor.

**EDLD 713 - System-wide Curriculum and Assessment**  credits: 3

This on-line course is designed to help school leaders develop a practical knowledge of the professional, political, and organizational issues surrounding the design, implementation, and evaluation of curriculum, and to increase their ability to lead, direct, and support the learning process and continuing education for everyone in the school system. This course will help doctoral candidates develop an understanding of the various contexts in which curriculum improvement efforts occur, an understanding of the roles of various individuals and groups in curriculum improvement, and the skills necessary to lead the curriculum improvement process. This course is also designed to help school leaders develop the skills to lead the curriculum improvement cycle and the process of curricular evaluation.

**EDLD 714 - Capstone Completion**  credits: 3

The EdD program culminates in the successful completion of a scholarly project that demonstrates a synthesis of the doctoral candidate’s work specific to a significant problem of professional practice. The EdD doctoral capstone is a tangible, academic, and professional product, such as an action plan, a publication in a professional journal, or a result that can be developed from professional practice. The capstone project will reflect the candidate’s ability to engage in scholarly and organizational inquiry to analyze a problem of professional practice, read and evaluate the relevant literature, collect the relevant data and evidence, and solve that problem of professional practice or transform a relevant aspect of professional practice. This substantive project should make a significant, evidenced-based contribution to existing knowledge in the field of educational leadership. The doctoral project may take on many forms, and it will be specific to the candidate’s area of specialization or professional interest. The topic and format of the doctoral project will be reviewed and evaluated by a committee that consists of the candidate’s Doctoral Mentor and the faculty of the Department of Educational Leadership and Administration. The candidates will design, develop, and implement the doctoral project in collaboration with the Doctoral Mentor, the instructors of the research course, along with recommendations from the field-based internship personnel.

**EDLD 715 - Organizational Analysis: Overcoming Systemic Barriers**  3 credits

Candidates will explore classic, modernist, and postmodernist organizational theory in the context of educational organizations. Organizations are explored through the frames of power, culture, structure, and intrapersonal and interpersonal perspectives.

**EDLD 799: Doctoral Conference and Oral Exam***  credits: 3

The Oral Exam is the final, formal interaction among the doctoral candidate, the Doctoral Mentor, and the faculty of the Department of Educational Leadership and Administration. The oral exam is a time for the candidate to share reflections and to articulate the level of integration of the knowledge, skills, and dispositions gained as a participant in the doctoral program. The oral exam consists of three areas of focus: 1) The capstone project, 2) The integration of specific leadership skills, 3) Enhanced professional practice.

* Program Completion: EDLA 799 Doctoral Conference and Oral Exam after all coursework and capstone are finished.
Department of Special Education

Chairperson: Deborah Nieding

Master of Education in Special Education

Program Director: Anjali Barretto

The Department of Special Education offers preparation for special educators within schools and other agencies. Candidates gain core competencies and then specialize in areas of interest. Individual field experiences are available to meet specialized needs. Three tracks of study are offered: Track One in Functional Analysis, Track Two in Early Childhood Special Education, and Track Three in General Special Education (usually completed for candidates who have an endorsement in another area and are seeking to add an endorsement in special education). The Department of Special Education offers teaching endorsements in Special Education (pre-school-12) and Early Childhood Special Education (birth-3). After successfully completing nine credits of the program with a 3.00 GPA or higher in each course, candidates submit an application for candidacy. This application requires an advisor recommendation and faculty review.

Admissions

Each applicant must submit the following materials to the School of Education Graduate Admissions Office:

1. A completed application form (see the School of Education website: http://www.gonzaga.edu/soe/grad) and non-refundable fee.
2. A written statement of purpose addressing the applicant’s interest in graduate studies that relates to some area in the field, assessing the applicant’s current strengths, and describing what the applicant hopes to gain from a master’s degree program.
3. Two letters of recommendation sent directly from the recommending persons to the School of Education Graduate Admissions Office using the Confidential Recommendation form (see the School of Education website).
4. A resume.
5. An official transcript from each college or university attended (international applicants must submit foreign transcripts in the original language and an English copy), final transcripts must bear a posted bachelor’s degree. Only degrees and courses from a regionally accredited institution will be accepted.
6. The official score from the Graduate Records Exam (GRE) general aptitude test or the Miller Analogies Test (must be less than five years old). This requirement may be waived if the applicant has an advanced degree, or graduated from the undergraduate special education program at Gonzaga University, or graduated from another program at Gonzaga University earning a GPA of 3.00 or higher.
7. Submission of an official TOEFL score of at least 550 (minimum score of 80 if taken via internet) by each international applicant who graduated from a foreign college or university and whose native language is not English.

8. Submission of a financial declaration form and supporting documentation by each international applicant.

9. An interview with the special education faculty.

**Prerequisite**

A bachelor’s degree from an accredited college or university is required.

**Program Outline: 32 credits**

**Core: 18-20 credits**

- EDSE 520  Applied Behavior Analysis  3 credits
- EDSE 545  Special Education Policies and Procedures  3 credits
- EDSE 575  Advanced Classroom Management  3 credits
- EDSE 604  Assessment in Special Education  3 credits
- EDSE 689  Professional Seminar  3 credits
- EDSE 698  Research in Special Education  3 or 5 credits

(Three (3) credits for Track One and five (5) credits for Tracks Two and Three)

- EDSE 699  Oral Comprehensive Examination  0 credit

**One of the three following tracks:**

**Track One: 14-17 credits (Functional Analysis)**

- EDSE 670  Advanced Seminar in Functional Analysis  3 credits
- EDSE 671  Behavioral Treatment in Clinical Settings  4 credits
- EDSE 672  Behavior Interventions in Natural Settings  4 credits
- EDSE 673  Supervision and Consultation  3 credits

For those seeking BCBA certification the following additional courses must be taken to meet course content requirements:

- EDSE 669  Ethics on Behavior Analysis I  1 credit
- EDSE 674  Ethics on Behavior Analysis II  2 credits

**Track Two: 12 credits (Early Childhood Special Education)**

- EDSE 560  Early Childhood Special Education  3 credits
- EDSE 561  Physical Development  3 credits
- EDSE 562  Language and Communication  3 credits
- EDSE 565  Development of Children with Exceptionalities  3 credits

**Track Three: 12 credits (General Special Education)**

- EDSE 501  Psychology of Children with Exceptionalities  3 credits
- EDSE 522  Precision Teaching  3 credits
- EDSE 551  Direct Instruction: Reading  3 credits
- EDSE 552  Direct Instruction: Mathematics  3 credits
Students wishing to add an endorsement in Special Education must take:

EDSE 520  Applied Behavior Analysis  3 credits
EDSE 545  Special Education Policies and Procedures  3 credits
EDSE 575  Advanced Classroom Management  3 credits
EDSE 604  Assessment in Special Education  3 credits

All track three courses: 12 credits

EDSE 500  Graduate Teaching Certification  0 credit
EDSE 505  Special Education Applied Classroom Experience: Elementary  1 credit
EDSE 506  Special Education Applied Classroom Experience  1 credit
EDSE 507  Special Education Applied Classroom Experience: Secondary  1 credit

One of the following early childhood special education courses: 3 credits

EDSE 560  Early Childhood Special Education
EDSE 561  Physical Development
EDSE 562  Language and Communication
EDSE 565  Development of Children with Exceptionalities

One of the following two courses: 6 credits

EDSE 696  Student Teaching in Special Education
EDSE 697  Extended Student Teaching in Special Education (if student is not certified previously)

Certification requirements for the State of Washington frequently change. It is the applicant’s responsibility to contact the certification officer in the School of Education for the most current information regarding state certification.

Additional requirements will include:

1. Completion of the Character and Fitness form.
2. WSP/FBI clearances.
3. Passing the Washington State West B (basic competency test) if the student is not already certified in the State of Washington.
4. Acceptance into teacher certification.
5. Completion of all other State of Washington certification requirements, such as passing the WEST E in each endorsement area the candidate is completing.

Electives

If a student previously took the equivalent of a core course or a course from the chosen track, then an elective course from the following special education courses may be substituted with the approval of the academic advisor, chairperson, and the dean.

Certification

In order to be eligible to receive an endorsement, the graduate candidate must be accepted into teacher certification. The candidate must also take and pass the necessary content course requirements, pass the WEST E in the specified content area of special education to obtain a Washington State teaching certificate and an endorsement to teach special education (P-12).
Course Descriptions:

EDSE 500 - Graduate Teaching Certification Orientation  
This course is required for candidates pursuing an endorsement to teach special education in the State of Washington. Basic requirements for Washington State certification including Washington State Patrol and FBI clearances, West B competency testing, Praxis II/West E competency testing, professional standards and expectations of special education teacher candidates, including residency and professional certification are covered.

Co-requisites: EDSE 520

EDSE 501 - Psychology of Children with Exceptions  
The purpose of this course is to provide candidates with an overview of special education. Etiology, characteristics, and treatment of major disabling conditions will be covered. Philosophical, political, and pedagogical implications of past, current, and future services are analyzed.

EDSE 505 - Special Education Applied Classroom Experience Elem  
Graduate candidates obtain experience in applied special education classroom settings at the elementary/preschool level. Appropriate clearance is required prior to entering the school setting. A minimum of 30 hours of supervised work in school setting is required to meet course standards.

EDSE 506 – Special Education Applied Classroom Experience  
Graduate candidates obtain experience in applied special education classroom settings either at the elementary/preschool level or at the middle/high school level. Opportunities to provide experiences in inclusive settings with special needs students will be sought. Appropriate clearance is required prior to entering the school setting. A minimum of 30 hours of supervised work in school setting is required to meet course standards.

EDSE 507 - Special Education Applied Class Experience Secondary  
Graduate candidates obtain experience in applied special education classroom settings at the middle/high school level. Appropriate clearance is required prior to entering the school setting. A minimum of 30 hours of supervised work in school setting is required to meet course standards.

EDSE 520 - Applied Behavior Analysis  
An advanced introduction to the basic principles of learning and effective and practical procedures based upon those principles. Students read seminal articles in the field of behavior analysis and conduct and write up their own applied research study, implementing some of the procedures to remediate socially significant problems of children.

EDSE 522 - Precision Teaching  
This course covers basic procedures of precision teaching (e.g., movement cycles, pinpointing behaviors, setting aims, charting, planning curricula development for precision teaching, and methods of remediating learning disabilities).

Pre-requisites: EDSE 520 minimum grade: B- or EDSE 320

EDSE 523 - Theory of Instruction  
This course covers a detailed analysis of direct instruction principles and their application to curriculum development. Requires an in-depth knowledge of and experience with direct instruction curriculum materials.

EDSE 535 - Autism  
This course overviews the major characteristics of persons with autism, with focus on effective treatment, functional goals and curricula, objective assessment, teacher/parent training, classroom integration, and generalization and maintenance of treatment gains. Particular emphasis is placed on developing effective applied skills through course work, practicum, and an applied research study and write-up.

EDSE 545 - Special Education Policies and Procedures  
This course covers issues involved in providing I.E.P. provisions including goals, strategies, and legal and
ethics implications.

**EDSE 551 - Direct Instruction-Reading**
This course trains prospective teachers how to teach special education and regular education pupils to read. Content covers beginning through intermediate reading. Particular emphasis is placed on instructing teachers to use reading techniques that have research supporting their effectiveness. Prospective teachers are taught how to teach, monitor, assess, and remediate reading deficits regarding various reading skills.

**EDSE 552 - Direct Instruction-Mathematics**
This course focuses on the teaching of mathematics directly to students with special needs and regular education elementary pupils. Emphasis is placed on procedures with a strong research base supporting their effectiveness. Prospective teachers are taught how to teach, monitor, assess, and remediate skill deficits regarding various mathematical skills.

**EDSE 560 - Early Childhood Special Education**
This course overviews the principles and practical procedures involved in infant and preschool services integrating children with disabilities. Applied experience is provided in an integrated preschool setting.

**Pre-requisites:** EDSE 520 minimum grade: B-

**EDSE 561 - Physical Development**
This course examines the principles of normal physical and neuromotor development with an emphasis on methods for identifying and treating delayed and dysfunctional development. Treatment approaches address designing interventions and adapting the environment. Applied experience is provided in an integrated preschool setting.

**Pre-requisites:** (EDSE 520 minimum grade: B- or EDSE 320 minimum grade: B-)

**EDSE 562 - Language and Communication**
This course examines the principles of normal language development as well as guidance for facilitating functional language development in infants, toddlers, and preschoolers. The focus is on intervention programs designed for enhancing generalization of functional language usage. Applied experience is provided in an integrated preschool setting.

**Pre-requisites:** (EDSE 520 minimum grade: B- or EDSE 320 or EDSE 330)

**EDSE 565 - Development of Children with Exceptions**
This course emphasizes normal child development and etiology of exceptionalities from infancy through age six. History and philosophy of early childhood special education, as well as relevant legislation, are studied. Applied experience is provided in an integrated preschool setting.

**Pre-requisites:** EDSE 520 minimum grade: B- or EDSE 320 or EDSE 330

**EDSE 575 - Advanced Seminar in Classroom Management**
This course examines strategies of applied behavior analysis for controlling various inappropriate behaviors that interfere with the learning process. The emphasis is on practical procedures that can be implemented by a single teacher in a special education or regular classroom setting.

**Pre-requisites:** EDSE 520 or EDSE 320

**EDSE 576 - Consultation in the Classroom**
This course covers advanced information and skills required to consult effectively with educators and parents regarding the development and implementation of educational programs within the least restrictive environment.

**EDSE 577 - Examine Youth with Behavior Disorders or ADHD**
This course overviews practical strategies to deal with children's behavioral and emotional disturbances in the classroom. Etiology of behavior disorders and emotional problems in children and youth are discussed.

**EDSE 580 - Technology for Teaching the Learning Disabled**
This course examines various techniques and approaches to remediate learning disabilities in school settings. Emphasis is placed on successful treatment and diagnostic procedures.

**EDSE 604 - Assessment in Special Education**
This course covers various methods of assessing student progress and social behaviors as well as actual.
classroom observations and assessment. Data gathered in assessment are used to develop an individualized program for special students.

EDSE 611 - Continuing Research Education  
信用: 1

EDSE 669 - Ethics on Behavior Analysis I  
信用: 1

This course was designed to provide students an understanding of the expectations of ethical behavior required by the Behavior Analyst Certification Board (BACB). The course will cover content found in the ‘Professional and Ethical Compliance Code for Behavior Analysis.’ Specific content areas included but are not limited to responsible conduct, responsibility to clients, assessing behavior, and individualized behavior change programs. This course will focus on client centered ethical responsibilities.

EDSE 670 - Functional Analysis Seminar  
学分: 3

This course reviews functional analysis methodologies as developed by Iwata et. al (1982) for systematically identifying environmental variables that serve to maintain aberrant behavior. This course includes a detailed overview of functional analysis procedures and treatment packages that can be implemented based on the results of functional analysis. Particular emphasis is placed on reinforcement-based interventions and dimensions of reinforcement.

前修课程: EDSE 520 学分: B 或 EDSE 320 学分: B

EDSE 671 - Behavior Treatment in a Clinical Setting  
学分: 4

This course is experimental in nature and requires students to apply the functional analysis methodologies studied in EDSE 670 in a "hands on" manner. Under direct supervision of faculty, students will conduct weekly assessments to determine the environmental variables maintaining children's inappropriate behavior (EDSE 671L=1 credit). Students will also collect and graph data, write reports that summarize their findings, and meet regularly with faculty and classmates to discuss their findings and their relationship to the literature. Students will be required to use and discuss single case design in the evaluation of treatment components.

前修课程: EDSE 670

EDSE 672 - Behavior Interventions in a Natural Setting  
学分: 4

This course is experiential in nature and should be taken in the semester immediately following EDSE 671. Students in this course will implement behavioral interventions designed in the clinical settings. Students will also collect and graph data, write reports that summarize their findings, and meet regularly with faculty and classmates to discuss their findings and their relationship to the literature. Students will be required to use and discuss single case design in the evaluation of treatment components.

前修课程: EDSE 671

EDSE 673 - Supervision and Consultation  
学分: 3

This course is experimental in nature. Students in this course provide supervision of functional analysis procedures to others wishing to learn about functional analysis procedures. Students consult with classroom teachers and others as they provide instruction on assessment methodologies and procedures, data collection, graphing, report writing, and intervention recommendations. Students meet regularly with faculty to discuss teaching, supervision, and consultation techniques and issues.

前修课程: EDSE 672

EDSE 674 - Ethics on Behavior Analysis II  
学分: 2

This course was designed to provide students an understanding of the expectations of ethical behavior required by the Behavior Analyst Certification Board (BACB). It is imperative that professionals conduct themselves in ways that highlight the highest ethical standards. This course will cover a portion of the content found in the ‘Professional and Ethical Compliance Code for Behavior Analysis.’ Specific content areas included but are not limited to supervision, ethical responsibility to the profession, ethical responsibility to colleagues, public statements, research, and responsibility to BACB. This course will focus on the behavior analysis’ ethical responsibilities.
EDSE 675 - Advanced Applied Behavior Analysis  
credits: 3
The most recently developed and refined principles and data-based effective procedures developed within the field of Applied Behavior Analysis are discussed. This course promotes graduate students’ analytic and practical skills in teaching and management procedures in a variety of settings. The course focuses on state-of-art advancements through recently published applied research studies and reviews.

EDSE 680 - Best Practices  
credits: 3
This course provides students with the rationales and strategies for implementing intervention technologies for research-based educational best practices. Best practices include precision teaching, cooperative learning, direct instruction, self-management, class wide peer tutoring, and opportunities-to-respond.

EDSE 689 - Professional Seminar  
credits: 1-3
A culminating course where the student develops and conducts and writes an applied research study or completes and writes a comprehensive review of the literature. The formal write-up must be in APA style and format and ready for submission to a journal outlet.

EDSE 690 - Directed Readings  
credits: 1-3
This course is an individualized study based on readings approved by the professor. Each student develops a selected bibliography.

EDSE 691 - Directed Study  
credits: 1-3
This course is an individualized study that is designed by the professor. Students follow a prescribed course outline.

EDSE 692 - Independent Study  
credits: 1-3
This course is an individualized study that is designed by the student in consultation with the professor. Self-directed learning in a selected area of interest is the process employed. Professor serves as a resource.

EDSE 694 - Special Project  
credit: 1-6
This course is an individualized study that is project based. The study results in a practical application of educational theory. The project or written report of project is submitted to the professor for evaluation.

EDSE 696 - Special Education Teaching Practicum  
credits: 6.00
This is an intensive field experience which is at least eight weeks in duration. The graduate student will systematically take over the responsibilities of the special education teacher for at least three weeks under the direction of the University supervisor and the cooperating special education teacher.

Restrictions:
Must be in the following College(s): School of Education
Pre-requisites: EDSE 551 and EDSE 552 and EDSE 575

EDSE 697 - Extended Advanced Special Education Teaching Practicum  
credits: 6.00
This is an intensive field experience which is at least 12 weeks in duration. The graduate student will systematically take over all the responsibilities of the special education teacher for at least five weeks under the direction of the University supervisor and the cooperating special education teacher.

Restrictions:
Must be in the following College(s): School of Education
Must be in the following field(s) of study: Initial Teaching Special Education, Special Education
Pre-requisites: EDSE 551 and EDSE 552 and EDSE 575

EDSE 698 - Research in Special Education  
credits: 3-5
This course presents the various procedures for carrying out classroom research by the teacher in order to evaluate the effectiveness of various classroom intervention strategies. The course teaches students ways to collect data, examine data for functional relationships, graph, and write up a research report in APA style.

EDSE 699 - Comprehensive Oral Examination  
credit: 0
This course requires the student to present orally and in a professional manner a summary of the major research project.
Department of Sport and Physical Education

Chairperson: Karen Rickel

Master of Arts in Sport and Athletic Administration

Gonzaga University’s M.A. in Sport and Athletic Administration (MASAA) program prepares candidates to be leaders in sport, athletic, and health related professions. This campus based and online program is designed as an interdisciplinary curriculum, grounded in the liberal arts, drawing on studies in educational and organizational theory. An integral part of the program is the internship, in which candidates acquire skills and experience under the supervision of an advisor and a site administrator. The emphasis is on training candidates to administer programs in accordance with best professional practices. Graduates of the program earn a degree from an academically respected university with a top 10 NCAA brand.

Students move through the program as a cohort, with a new cohort starting each fall. The on-campus curriculum is designed as a 31 semester credit program with an average five semesters completion time for full time students. The online program differs as classes are offered in an accelerated fashion with two courses (approximately 8 weeks in duration) taken each semester. Students can usually complete the program in six semesters, provided they follow the recommended course sequence schedule.

During the past few years, some of the institutions and organizations which have hired our alumni, include: The University of Oklahoma Athletics, Georgetown University, Washington State University, University of Arizona, Illinois State University, Boise State University, Drake University, Ohio University, Texas State University, Lewis and Clark State College, North Idaho College, Lake Forest College, Gonzaga University, Oregon School Activities Association (OSAA), Whitworth University, Dixie State College of Utah, Spokane Community Colleges, Washington Nationals (MLB), Hillsboro Hops (Minor League Baseball), Spokane Indians (Minor League Baseball), Spokane Chiefs (Western Hockey League), Lethbridge Hurricanes (Western Hockey League), Mizuno, Spokane Regional Sport Commission, Spokane Youth Sports Association (SYSA), Volleyball of the Rockies, The Dirty Dash, and more.

Admissions

Campus and Online Admissions Guidelines

You can also find this information at the following link: https://online.gonzaga.edu/online-masters-sport-and-athletic-administration/apply-now-masaa2

1. Complete the online application and pay the $50 application fee (pay at the end of the online application). See the MASAA “Apply Now” button at online.gonzaga.edu and follow the instructions.
2. Provide official transcript from each college or university attended. A cumulative grade point average (GPA) must be above a 3.0 on a 4.0 scale.
3. If your GPA falls below a 3.0, please include an explanation of GPA statement.
4. If you previously attended Gonzaga or are a current student, please note that Gonzaga University transcripts are ordered by the Graduate Admissions Office on your behalf.
5. Mail official transcripts to:
   Gonzaga University
   Virtual Campus Admissions
   502 E. Boone Avenue
   Spokane, WA 99258-0068

6. Provide a minimum of two letters of recommendation through the online application. Your references will be contacted directly by us, via email, with directions for submitting their letters of recommendation and evaluation checklist on your behalf. Your recommenders will be asked to evaluate your leadership potential, interpersonal skills, critical thinking, judgment, professional practice, and your ability and capacity to complete a graduate degree. Please note: recommendations from family members are not accepted. Additional details regarding recommendations can be found at https://online.gonzaga.edu/online-masters-sport-and-athletic-administration/apply-now-masaa2.

**International Students**

International students must submit the above documentation and the following items:

1. Submission of foreign transcripts in the original language and a certified English copy
2. An official TOEFL score of 88 ibt, 580 (written) OR an IELTS score of 6.5 or higher OR successful completion of Gonzaga University’s ESL program
3. Copy of passport

**Prerequisite**

A bachelor’s degree from an accredited college or university is required.

**Program Outline: 31 credits**

*The online program only consists of one internship (696A) and the other 3 credits are replaced with special topic classes that are decided at the beginning of each new cohort.
Course Descriptions:

**EDPE 500 - Sport and Athletic Promotions**
credits: 3
Study of policies and practices in managing relations with external and internal publics associated with the sport and athletic industry. Media relations, publicity for both print and broadcast press, marketing strategies, advertising and campaign development, sponsorships and marketing ethics are some of the main topics to be covered.

**EDPE 501 - Sport Media and Communication**
credits: 3
This course will examine today's world of communication by examining the converging industries of journalism, public relations, marketing and advertising as expressed in the new commercial reality of sport. The student will be provided with a history of the sport media and the changes the media has undergone in recent years. The students will also have the opportunity to be placed in the media chair and produce written material as a reporter covering an athlete program or sporting event.

**EDPE 514 – Ethical and Legal Aspects in Sport**
credits: 3
To familiarize students with the legal and ethical aspects surrounding sport organizations. Topics such as tort law, contract law, agency law, constitutional law, Title IX and IX, ethical theories within the work place are thoroughly covered.

**EDPE 515 - Elementary Physical Education**
credit: 1
This course will provide students both theoretical and practical experience in learning how to design and implement a physical education program at an elementary level. It will introduce the students to objectives of physical education, activities that can be implemented at specific grade levels, general fitness concepts, and techniques of teaching in a physical activity environment, assessment protocol, and the importance of physical education as an integral part of general education. An experimental and cross disciplinary approach will be taken to developing and implementing effective learning experiences in physical education for students K-8. Permission only; On Demand.

**EDPE 516 - Elementary Health Methods**
credit: 1
This course will provide students both theoretical and practical experience in learning how to design and implement a health education program at an elementary level. It will introduce the students to objectives of health education, activities that can be implemented at specific grade levels, teaching strategies, assessment protocol, and the importance of health education as an integral part of general education. An experimental and cross disciplinary approach will be taken to developing and implementing effective learning experiences for students K-8. Permission only. On demand.

**EDPE 517 - Abuse Prevention**
credit: 1
This course will provide students an awareness of the incidence of abuse and the knowledge and skills needed to execute their professional roles and responsibilities, as K-12 educators, in dealing with children who have suffered abuse and neglect. Reporting mandates and legal protection afforded in executing these mandates will also be covered.

**EDPE 518 – Health and Fitness Methods**
credits: 3
This course will provide students both theoretical and practical experience in learning how to design and implement a health and fitness education program at an elementary level. It will introduce the students to objectives of health and fitness education, activities that can be implemented at specific grade levels, teaching strategies, assessment protocol, and the importance of health and fitness education as an integral part of general education. An experimental and cross disciplinary approach will be taken to developing and implementing effective learning experiences for students K-8. Permission only; on demand.

**EDPE 525 - Sport and Athletics in Social Context**
credits: 3
An analysis of historical sport and athletic events, the structure of sport in societies, and the social factors influencing the positive and negative outcomes of those events. Topics such as diversity, economics, politics, media, and religion will be covered and investigation of the social impact of these issues on sport and athletic
EDPE 565 - Research Methods and Statistics in Sport and Athletics  credits: 3
This course focuses on the research methods, statistical techniques and applications of social research and evaluation process using SPSS in the context of sport and athletics. Students are required to complete his/her individual research proposal by the end of semester consisting of three chapters (introduction, review of literature, and methodology) and also are given the opportunity to learn and practice SPSS, statistical computer software for social science.

EDPE 571 - Sport and Athletic Finance  credits: 3
Analysis of budget techniques and strategies for financial planning and decision making in sport and athletic programs. Emphasis will be given to revenue productions and fundraising relevant to both community and school supported sport programs.

Restrictions:
Must be in the following College(s): School of Education

EDPE 590 - Directed Readings  credits: 1-3
Directed readings requires completion of a form, and department permission and cannot be registered for via ZAGWEB.

EDPE 591 - Directed Study  credits: 1-4
Directed Study requires completion of a form, and department permission and cannot be registered for via ZAGWEB.

EDPE 592 - Independent Study  credits: 1-4
Independent Study requires completion of a form, and department permission and cannot be registered for via ZAGWEB.

EDPE 594 - Special Projects  credits: 1-3
Special Projects requires completion of a form, and department permission and cannot be registered for via ZAGWEB.

EDPE 611 - Continuing Research  credit: 1
Required of all graduate students to maintain continuous enrollment in the program while completing their final project.

EDPE 613 - Administration in Sport and Athletics  credits: 3
Students will study organizational theories and practices with an emphasis on the sport industries. Leadership styles and theories, organizational development, personnel, fiscal, and legal issues will be covered.

EDPE 621 - Facilities Management in Sport and Athletics  credits: 3
This course covers theories, policies, principles, and practical applications of facility management and operations with the special emphasis on designing, planning, operating, maintaining of the sport facility. Students will develop and utilize a variety of materials reflective of sport event and venue operations such as an event bidding proposal, a facility review evaluation report, area of expert papers and case studies.

EDPE 689 - Master's Research Project  credits: 3
This course involves the identification and in-depth exploration of a topic or issue in physical education, athletics, or sports administration in preparation for the final oral presentation. The project must be completed and submitted in a written form or manuscript suitable for publication.

Pre-requisites: EDPE 565

EDPE 696A - Sport and Athletic Administration: Internship I  credits: 3
An intensive field supervised experience in a sport or athletic related organization approved by the instructor of record.

EDPE 696B - Sport and Athletic Administration: Internship II  credits: 3
A continuation of EDPE 696A. An intensive field supervised experience in a sport or athletic related
organization approved by the instructor of record.

**Pre-requisites:** EDPE 696A minimum grade: C

**EDPE 696C - Sport and Athletic Administration: Internship III**

A continuation of 696B. An intensive field supervised experience in the sport or athletic organization approved by the instructor of record.

**Pre-requisites:** EDPE 696B minimum grade: C

**EDPE 699 - Capstone Experience**

This is a student's final experience demonstrating competency in content knowledge through an oral or written project. The student will prepare a final portfolio of work accomplished throughout the program and present it to a designated audience.

**The Department of Teacher Education**

**Chairperson:** Deborah Nieding  
**Elementary Program Director:** Deborah Nieding  
**Secondary Program Director:** Kathy Nitta

**Master of Initial Teaching**

Directed by our Jesuit mission, the School of Education develops socially responsible professionals who serve with care, competence, and commitment. The department of teacher education offers a thorough preparation in professional teaching at the graduate level. It is committed to the development of exemplary educators through the integration of knowledge, skills, and dispositions necessary for teaching and learning in a global and democratic society. The program utilizes a cohort group structure in which entering candidates proceed through a prescribed sequence of classes together. The Masters of Initial Teaching program leads to an elementary or secondary teacher certification in a one (1) or two (2) year program.

Applicants seeking elementary education certification will receive an elementary endorsement and teach grades K-8 as generalists in a self-contained classroom. Secondary education certification candidates teach grades 5-12 and choose a specific content area (endorsement) to teach. The content areas must be selected from one of the following approved endorsements offered at Gonzaga: biology, chemistry, physics, English language arts, social studies, health and fitness, mathematics, music, and designated world languages. Additional endorsements are encouraged. For additional endorsements, visit the certification office for requirements.

The Teacher Education program is advised by a Professional Education Advisory Board (PEAB) composed of area teachers, school administrators, educational staff associates, representatives of professional organizations, teacher candidates, and faculty.
The teacher certification program meets standards specified by the Washington Professional Education Standards Board (PESB), The National Council for Accreditation of Teacher Education (NCATE) and the Northwest Association of State Directors of Teacher Education and Certification (NASDTEC).

Washington State certification requirements may change, so it is the applicant’s responsibility to stay current by checking with their School of Education advisors and the Certification Office.

**Admission Requirements**

Each applicant must submit the following materials to the School of Education Graduate Admissions Office:

1. A baccalaureate degree from an accredited institution.
2. A completed application form (see the School of Education website: [http://www.gonzaga.edu/soe/grad](http://www.gonzaga.edu/soe/grad)).
3. A $50.00 non-refundable application fee.
4. One (1) official transcript from all colleges or universities attended. Transcript analysis for endorsement is required. International applicants must submit foreign transcripts in the original language and an English copy. Only degrees and courses from a regionally accredited institution will be accepted.
5. A written statement of purpose addressing the applicant’s: a) commitment to becoming a K-12 educator, b) past and present academic experiences and, c) ability to work with children or youth.
6. Two (2) confidential letters of recommendation from individuals who have current knowledge of the applicants’ teaching capabilities. Gonzaga University Recommendation forms are required. Individuals recommending the applicant should be selected with care and be able to attest to the qualities listed on the Confidential Recommendation forms (see the School of Education website).
7. A completed declaration of endorsement form.
8. A personal interview with the MIT admissions committee.
9. Passing score for the Basic Skill Requirement in each category: Reading, Writing, and Math with minimum scores in either the WEST B, SAT, ACT or CBEST test.
10. Passing score for the WEST E or NES test in the applicant’s primary content area.
11. Submission of an official TOEFL score of at least 550 (minimum score of 80 if taken via internet) by each international applicant who has graduated from a foreign college or university and who native language is not English.
12. Submission of a financial declaration and supporting documentation by each international applicant.

Master of Education in Literacy (MEd)

Program Director: Deborah Nieding - This program is currently unavailable. It may be offered in the future.

The Master of Education in Literacy is designed to expand the knowledge and skill base of the classroom teacher and other education professionals. This program meets the requirements for adding a K-12 reading endorsement in the State of Washington and the national standards for a reading specialist described by the International Reading Association. The emphasis of this 34 credit program is an effective instructional strategies and models, reading diagnosis and remediation, and working with at-risk readers and writers at all grade levels.

This two-year program utilizes a cohort group structure in which entering students proceed in a prescribed sequence of classes together. Course offerings are scheduled during evening hours to accommodate the working professional.

Course Descriptions:

EDTE 505 - Field Experience I  credit: 1
Teacher candidates will have the opportunity to explore firsthand the instruction, assessment, and technology practices that are at work in schools. The course will aid the teacher candidate to focus and integrate learning by observing, reflecting and analyzing instructional events in the school site. The course will enable teacher candidates to observe and participate in instructional decision-making strategies for differentiation, and various assessment models. Teacher candidates are required to submit a Field Experience Request form to the Field Experience Office a minimum of a month prior to the semester they are taking the course. This form can be found on Blackboard under Teacher Certification & Field Experience Materials Course. The field experience requires a minimum of 30 hours in the classroom and travel by car may be required. In addition, current fingerprint clearance from the WSP and FBI throughout the semester and Pre-Residency Clearance is on file.
EDTE 506 - Field Experience II
Teacher candidates will have the opportunity to explore firsthand the instruction, assessment, and technology practices that are at work in schools. The course will aid the teacher candidate to focus and integrate learning by observing, reflecting and analyzing instructional events in the school site. The course will enable teacher candidates to observe and participate in instructional decision-making strategies for differentiation, and various assessment models. Teacher candidates are required to submit a Field Experience Request form to the Field Experience office a minimum of a month prior to the semester they are taking the course. This form can be found on Blackboard under Teacher Certification & Field Experience Materials Course. The field experience requires a minimum of 30 hours in the classroom and travel by car may be required. In addition, current fingerprint clearance from the WSP and FBI throughout the semester and Pre-Residency Clearance is on file.

EDTE 507 - Field Experience III
Teacher candidates will have the opportunity to explore firsthand the instruction, assessment, and technology practices that are at work in schools. The course will aid the teacher candidate to focus and integrate learning by observing, reflecting and analyzing instructional events in the school site. The course will enable teacher candidates to observe and participate in instructional decision-making strategies for differentiation, and various assessment models. Teacher candidates are required to submit a Field Experience Request form to the Field Experience Office a minimum of a month prior to the semester they are taking the course. This form can be found on Blackboard under Teacher Certification & Field Experience Materials Course. The field experience requires a minimum of 30 hours in the classroom and travel by car may be required. In addition, current fingerprint clearance from the WSP and FBI throughout the semester and Pre-Residency Clearance is on file.

EDTE 509 - Mathematics Methods
This course is designed to prepare teacher candidates for teaching mathematics to elementary students. The course will present current theory and practice in mathematics education. Specifically, candidates will develop the knowledge, skills and disposition to teach mathematics to all children.

EDTE 510 - Science Methods
This course is designed to prepare teacher candidates for teaching science to elementary students. The course will present current theory and practice in science education. Specifically, candidates will understand how students develop understanding of scientific concepts and learn and apply science specific pedagogy in instructional planning assessment. Spring.

EDTE 511 - Instructional Foundations
This course examines the philosophical social, historical and theoretical foundations of learning, intelligence, and instruction in the context of culturally diverse populations. The course also addresses issues and needs pertaining to contemporary American society from both ethical and legal perspectives. Themes include learning theory and human development, philosophy and history of education, cultural competency, ethics, and law as they relate to the classroom teacher.

EDTE 512E - Elementary Differential Instruction and Assessment
This course is designed to engage student teacher candidates in developing competencies and strategies for successful teaching within multiple content areas and with a range of student learning abilities: race, color, national origin, gender, native language, age, social or economic status, family structure and lifestyle, religious preference, or disability. The course will cover the essential elements of K-8 instruction: planning, implementation, accommodations, differentiation and assessment of instruction, and the integration of technology to meet the Washington State's Common Core.

EDTE 512S - Secondary Differential Instruction and Assessment
This course is designed to engage student teacher candidates in developing competencies and strategies for successful teaching within multiple content areas and with a range of student learning abilities: race, color, national origin, gender, native language, age, social or economic status, family structure and lifestyle, religious preference, or disability diverse learners. The course will cover the essential elements of 6-12 instruction: planning, implementation, accommodations, differentiation and assessment of instruction, and
the integration of technology to meet the Washington State's Common Core.

**EDTE 518 - Discipline Specific Literacy**  
credits: 3  
This course presents the theory and practice for developing interdisciplinary literacy in secondary classrooms including the structure and development of language and its effective expression in specific disciplines are presented in this course. In particular, students gain competencies in working with texts, supporting academic language development, and adapting instruction to make it accessible to English language learners.

**EDTE 520 - Teaching in the Middle School**  
credits: 3  
The purpose of this course is to help the prospective middle level/secondary teacher candidate develop in-depth knowledge and understanding of early adolescents. The middle school reform movement and the developmental characteristics and the needs of adolescents provide a framework for this course.

**EDTE 531 - Instructional Methods: Reading, Writing, and Communication II**  
credits: 3  
The purpose of this course is twofold: one, to prepare teachers to create appropriate methods for teaching literacy which provide opportunities for children to become involved with literacy in a purposeful and meaningful manner and, second, to become aware of available literary resources, including technology for thematic teaching.

**EDTE 537 - Integrated Instruction**  
credits: 2  
Candidates will become proficient in creating appropriate opportunities for children to engage in a meaningful way with authentic literature through a variety of methods. Students will develop an integrated curriculum for classroom implementation at a designated grade level, K-12 which appeals to different learning styles and is compatible with state mandates. This integrated curriculum will be in a thematic format which will connect the content areas through the fine arts and the language arts.

**EDTE 540 - Foundations of Reading and Language**  
credits: 3  
This course provides candidates with the opportunity to investigate theories and practices supporting reading and language arts instruction in K-8 schools. Teacher candidates develop a repertoire of instructional practices to plan for student learning in reading development, writing, grammar, and spelling. Practical approaches to assessment incorporated in the lesson plan.

**EDTE 550 - Social Studies Methods**  
credits: 2  
This course presents a global approach to the teaching of social studies at the elementary level with an emphasis on age appropriate strategies for teaching major concepts in the variety of social science disciplines.

**EDTE 553 - Methods for Teaching English Language Learners**  
credits: 3  
This course is designed to prepare elementary and secondary candidates to effectively plan, adapt and design instruction to support English Language Learners' linguistic and academic development. Candidates will explore, analyze, and enact a variety of ELL teaching and assessment methods that can be applied across grade levels, classroom contexts, and content areas.

**EDTE 554A – Secondary Methods – Theatre Arts**  
credits: 3  
Discipline Specific Methods address strategies, assessment, and student activities in the academic areas approved for endorsements.

**EDTE 554E - Secondary Methods-English**  
credits: 3  
Discipline Specific Methods address strategies, assessment, and student activities in the academic areas approved for endorsements.

**EDTE 554F – Secondary Methods-Social Studies**  
credits: 3  
Discipline Specific Methods address strategies, assessment, and student activities in the academic areas approved for endorsements.

**EDTE 554L - Field Experience: Add-On Endorsement**  
credit: 1  
This is a lab course which will accommodate teacher candidates who add-on and additional endorsement. Teacher candidates are required complete a Field Experience Request form prior to taking this course which can be found on the Gonzaga School of Education website under Field Experience. This course must be taken concurrently with an EDTE 554A-T Discipline Specific Methods course. Requires current fingerprint clearance throughout the semester and Character and Fitness form on file. Fall only.
EDTE 554M - Secondary Methods-Math  
Discipline Specific Methods address strategies, assessment, and student activities in the academic areas approved for endorsements

EDTE 554S - Secondary Methods-Science  
Discipline Specific Methods address strategies, assessment, and student activities in the academic areas approved for endorsements

EDTE 554T - Secondary Methods-World Language  
Discipline Specific Methods address strategies, assessment, and student activities in the academic areas approved for endorsements

EDTE 555E - Classroom Environment: Elementary Management, Procedure and Retention  
Teacher candidates are provided with strategies to manage the elementary classroom to create a motivated classroom climate, communicate with teacher candidates, parents, school, and community agencies, and to deal effectively with problem situations, management, instructional approaches, and corrective measures. Teacher as leader will be the primary metaphor which requires candidates to investigate the role of power and communication in teaching.

EDTE 555S - Classroom Environment: Secondary Management, Procedure and Retention  
Teacher candidates are provided with strategies to manage the elementary classroom to create a motivated classroom climate, communicate with teacher candidates, parents, school, and community agencies, and to deal effectively with problem situations, management, instructional approaches, and corrective measures. Teacher as leader will be the primary metaphor which requires candidates to investigate the role of power and communication in teaching.

EDTE 561 - Reading Diagnosis  
The course provides teacher candidates with the in-depth skills and knowledge to identify and diagnose reading strengths and deficiencies of K-12 students. Appropriate instructional strategies for remediation and extension are developed and implemented. This class incorporates field experience components and is intended for the reading endorsement.

EDTE 562 - Child and Adolescent Literature  
Survey of classical and contemporary literary works for children and youth, preschool-early adolescent. Assessment and teaching strategies for the utilization of literature across K-12 curriculum. This course is intended for the reading endorsement.

EDTE 564 - Practicum Reading  
This course creates and applies literacy instruction/assessment strategies in a K-12 classroom setting. School location arranged. Practicum requires completion of a form, and Dept. permission and cannot be registered for via ZAGWEB. This course is intended for the reading endorsement.

EDTE 566 - Literacy and English Language Learner  
This course provides literacy knowledge related to working with English learners. Teacher candidates and tutors will create classroom materials for English language learners to support their learning of literacy knowledge. Teacher candidates will take theoretical knowledge that will be translated into practical application through the creation of lesson plans, stories and tutoring. This course is intended for the reading endorsement.

Equivalent(s): MTSL 514

EDTE 590 - Directed Readings  
Directed Readings requires completion of a form, and department permission and cannot be registered for via ZAGWEB.

EDTE 591 - Directed Study  
Directed Study requires completion of a form, and department permission and cannot be registered for via ZAGWEB.
EDTE 592 - Independent Study credits: 0-6
Independent Study requires completion of a form, and department permission and cannot be registered for via ZAGWEB.

EDTE 594 - Special Project credit: 1-6
Independent Study requires completion of a form, and departmental permission and cannot be registered for via ZAGWEB.

EDTE 611 - Continuing Thesis Education credit: 1
EDTE 631 - Educational Research Introduction credit: 1
This introduction to practitioner based research will lay the groundwork and expectation for a master’s level research project to be completed by the end of the MIT program. Content to be introduced include: characteristics of practitioner research, applicable research terminology, qualitative and quantitative methodologies, topic selection, teacher-as-researcher skills and the literature review structure.

EDTE 632 - Educational Research and Assessment credits: 2
This course, a two-credit continuation of educational research, is the second of four research classes offered to Masters of Initial Teaching (MIT) candidates over the span of one year. It is designed to provide the knowledge and skills in qualitative/action research and continue to explain the components of the Student Impact Project (SIP), as well as their connection to the Teacher Performance Assessment, especially the Assessment Task. Course topics to include examples of practitioner-based research, activities to further clarify professional identity and knowledge of students, opportunities to collect and analyze study work samples and assignments to integrate artifacts into a personalized research plan.

EDTE 633 - Educational Research and Data Eval credits: 2
This course, a two-credit continuation of EDTE 631 and EDTE 632, is the third of four research courses offered to Masters of Initial Teaching (MIT) candidates over the span of one year. It is designed to provide a review of the knowledge and skills in qualitative/action research, an overview of data analysis methodologies.

EDTE 689 - Professional Seminar credit: 1
This seminar focuses on the final preparation and presentation of a capstone performance project. It provides the opportunity for critical review by peers and professors. The Professional Seminar is the formal presentation of the completed project. Graduate students present their project before a committee of graduate faculty, peers, and members of the community. Successful completion of the project is required for granting of the MIT degree.

EDTE 696A - Student Teaching - Elementary credits: 6
This is a culminating 16 week capstone experience in which the teacher candidate assumes the full responsibility of an elementary teacher under the direction of a University supervisor and a co-operating teacher. Concurrent seminars are provided for student interaction, problem solving, certification requirements and informational support. Current fingerprint clearance from the WSP and FBI throughout the semester and Pre-Residency Clearance is on file.

EDTE 696B - Student Teaching - Secondary credits: 6
This is a culminating 16 week capstone experience in which the teacher candidate assumes the full responsibility of a secondary teacher under the direction of a University supervisor and a co-operating teacher. Concurrent seminars are provided for student interaction, problem solving, certification requirements and informational support. Current fingerprint clearance from the WSP and FBI throughout the semester and Pre-Residency Clearance is on file.

EDTE 699 - Comprehensive Oral Exam credit: 0
Master of Arts in Teaching English as a Second Language

Chairperson: Deborah Nieding
Director of Graduate Program: James D. Hunter

The Master of Arts in Teaching English as a Second Language (MA/TESL) program offers courses and a practicum for students who are interested in the learning and teaching of English to speakers of other languages. The MA/TESL degree is designed to prepare professional and knowledgeable ESL teachers as well as language specialists who help students develop linguistic and intercultural communication skills. In addition to persons interested in pursuing TESL education preparation, current and future teachers of foreign languages are also invited to enroll in coursework dealing with language acquisition and language teaching methodology, which have broad applicability in a variety of settings.

The MA/TESL knowledge base examines these areas:

- Knowledge about language, language use and culture and their interrelationship; understanding of how the target language is taught.
- Knowledge of both the theoretical and practical bases for language teaching and learning in schools and communities.
- Knowledge of the process of language acquisition as it concerns first and subsequent language learning and an understanding of the principles of language pedagogy.

In the Gonzaga University MA/TESL program, theory and practice are integrated rather than sequenced. Courses and projects aim to provide authentic, holistic, and integrated opportunities to plan, teach, reflect, research and lead in the schools, community and within the university.

MA/TESL courses and experiences are rich and complex enough to support students from diverse backgrounds, with diverse goals, at varying stages of development. In addition, students from the diverse cultures and perspectives represented in the program are important resources, helping us to better understand issues of second language acquisition and learning and teaching in a pluralistic world.

Students and faculty work together to explore new ideas on learning and teaching. Students work with ESL faculty members on classroom projects. Students are introduced to, and encouraged to participate in professional organizations, and other ESL programs and schools.

In consultation with a faculty advisor and peers, students select experiences and courses that will meet their own goals, the stated goals of the MA/TESL program, and the University requirements for a master’s degree.

The program encourages the students and faculty to engage in research and critical reflection on the form and substance of language learning and teaching in order to understand the factors of communication and community building.

Prerequisites

Applicants are required to have a Bachelor’s degree from an accredited U.S. college or university. Students from other countries must have the equivalent of an American Bachelor’s degree. The undergraduate GPA should be at least a 3.00 on a 4.00 scale. Applicants should also have two years of successful university-level instruction in a modern language, or other evidence of second language competence deemed satisfactory by
the program director. This requirement is waived for students whose first language is not English. Students may be admitted without this language background, but they will be required to gain it while enrolled in the program.

Admissions

Each applicant must submit the following materials:

1. A completed application form (see appendix) and a nonrefundable fee.
2. A written statement of purpose (750-1000) words addressing the applicant’s interest in graduate studies, outlining the applicant’s current strengths and what the applicant hopes to gain from MA/TESL study.
3. Two letters of recommendation sent directly from the recommending persons using the official confidential recommendation form (see appendix).
4. Two official transcripts from each college or university attended (International applicants must submit foreign transcripts in the original language and in English).
5. International students must also provide:
6. An official TOEFL score of 88 iBT (580 written) OR an IELTS score of 6.5 or higher or a recommendation from Gonzaga University’s English Language Center if English is not the student’s native language.
7. Completed Financial Declaration form (see appendix) with original supporting bank statements.
8. Passport Copy

Program Outline: 35-36 credits

Required Courses: 30-31 credits

One of the following two options:

- MTSL 500  Methods and Materials for ESL Teachers*  3 credits
- MTSL 501 and MTSL 580  Summer Institute*  4 credits
- MTSL 502  Pedagogical Grammar*  3 credits
- MTSL 504  Introduction to Sociolinguistics*  3 credits
- MTSL 508  Principles of Second Language Acquisition*  3 credits
- MTSL 510  Course Design, Evaluation and Assessment in English as a Second Language  3 credits
- MTSL 514  (EDTE 566) Literacy and the English Language Learners*  3 credits
- MTSL 517  Phonology  1 credit
- MTSL 600  Research Perspectives in Second Language Education  3 credits
- MTSL 610  Practicum in Teaching English as a Second Language  3 credits
- MTSL 680  Professional Seminar  1 credit

One of the following two courses:

- MTSL 602  Thesis  3 credits
- MTSL 604  Master’s Portfolio  3 credits

Elective  6 credits

Students are required to take 6 credits of elective courses and can choose from the following or other by arrangement with the MATESL Director.

MTSL 503 - Immigrant and Refugee Perspectives  credits: 3
MTSL 505 - Intercultural Competence Development  credits: 3
MTSL 509 - Academic Writing for Graduate Students  
(International Students Only) credits: 3
MTSL 516 - Technology in Second Language Education credits: 3
MTSL 570 - History of the English Language credits: 3

**ESLK-12 Endorsement * **

In conjunction with Gonzaga’s School of Education, the MA/TESL Program also offers a 15 credit ESL endorsement which consists of a combination of the asterisked (*) courses shown above. In consultation with an advisor, the K-12 teacher candidate will design a hands-on course of study that examines the following:

1. Contexts and orientations for TESOL and bilingual education.
2. An introduction to fundamental concepts of first and second language acquisition.
3. Ideas for teaching language through content and developing materials for the content-based classrooms.
5. Cross-cultural training for working with diverse populations.

**TESL Summer Institute**

In conjunction with the public schools, Gonzaga MA/TESL also offers a three-week intensive Summer Institute each year. The institute consists of coursework (MTSL 501) and a language camp for ESL students (MTSL 580). Students receive a certificate of attendance at the completion of this institute.

**Course Descriptions:**

**MTSL 501 - Theory and Practice of Language Teaching**  
credits: 3
This course investigates current theories in second language acquisition and ESL/EFL methodology. Students learn how to apply these methods to the specific needs of language learners while observing, assisting and teaching. The summer offering is an intensive 4 week course where students apply specific methods during a language camp practicum co-requisite course (MTSL 580).

**MTSL 502 - Pedagogical Grammar**  
credits: 3
This course will focus on language analysis for ESL teachers. Issues and insights of interlanguage development, contrastive analysis, discourse, analysis, and pedagogical grammar will be interwoven throughout this course. Students will apply this knowledge to some of the tasks of teaching a second or foreign language including providing corrective feedback, selecting and designing presentation materials, and form-focused activities.

**Pre-requisites:** MTSL 550 minimum grade: B

**MTSL 503 - Immigrant and Refugee Perspectives**  
credits: 3
Designed for students interested in sociocultural perspectives on identity and language and their intersection in diverse cultural communities, this course looks at the experience of immigrant populations in the USA and in the Spokane area, through the lens of their cultural and linguistic adjustment. An average of one hour of service per week is expected of all participants in this course.

**MTSL 504 - Introduction to Sociolinguistics**  
credits: 3
This course will examine how communication in ESL education shape relationships with non-members and members of a community. In particular, it will examine how the control of communication in bilingual and
ESL education affects cognitive, social-cultural, affective, and linguistic development in bilingual and ESL classrooms. Theories studied in this course will help build an understanding of how to observe and analyze the effects of communication patterns on learning opportunities for ESL students.

**MTSL 505 - Intercultural Competence Development**  
Credits: 3  
This course addresses social justice by introducing students to a developmental process of acquiring cultural self-awareness, developing knowledge and skills that build intercultural competence, and engaging in meaningful reflective self-evaluation. This process begins with recognizing new perspectives about personal cultural beliefs, values, and assumptions; and exploring others’ cultures and worldviews.

**MTSL 508 – Principles of Second Language Acquisition**  
Credits: 3  
This course will investigate some of the major theoretical concepts that have developed in the field of second language learning and teaching with emphases on the concepts of interaction, learner strategies, routines, negotiating meaning, motivation and developmental processes within sociocultural contexts.

**MTSL 509 - Academic Writing for Graduate Students**  
Credits: 3  
This course addresses social justice by introducing students to a developmental process of acquiring cultural self-awareness, developing knowledge and skills that build intercultural competence, and engaging in meaningful reflective self-evaluation. This process begins with recognizing new perspectives about personal cultural beliefs, values, and assumptions; and exploring others’ cultures and worldviews.

**MTSL 510 - Design, Evaluation and Assessment in ESL**  
Credits: 3  
This course will familiarize students with the principles of test design and construction for all language skills at various levels including both standardized and teacher made tests for a variety of purposes. The course will include reading and testing theories and opportunities to create and administer testing instruments and practice in interpreting the results.

**MTSL 512 - Language and Cultural Identity**  
Credits: 3  
Students will explore the relationship between language and cultural identity.

**MTSL 514 - Literacy and English Language Learner**  
Credits: 3  
This course will involve discussion and review of relevant research in second-language reading and writing. It also includes a critical investigation of research to implementation in the language classroom.

**MTSL 516 - Technology in Second Language Education**  
Credits: 3  
This course explores current trends in technological approaches to second-language teaching and learning. It familiarizes students with tools available on the Internet and World Wide Web. Hands on components will enable students to practice searching and retrieving information for classroom use. Student projects include student produced web pages and materials.

**MTSL 517 - Phonology**  
Credit: 1  
Introduces the International Phonetic Alphabet and covers basic techniques for improving second-language learners’ pronunciation, using recording analysis to plan strategies and design materials.

**MTSL 550 - Language Awareness**  
Credit: 1  
This course will cover the basics of syntax along with the common metalanguage that enables teachers to talk about grammar, as well as broader issues of language structure in general.

**MTSL 570 - History of the English Language**  
Credits: 3  
This course will provide background in basic concepts of linguistics, principles of language change and historical linguistic study and the development of the English language.

**MTSL 580 - TESL Language Camp Practicum**  
Credit: 1  
An integral feature of the Summer Institute (MTSL 501) is the TESL Language Camp which provides a unique opportunity for its participants to work with ESL students of various ages, nationalities, and proficiency levels. Included in this enhanced hands-on experience are opportunities for observation, teaching, and participation in social activities with ESL students.

**MTSL 600 - Research Perspective in Second Language Education**  
Credits: 3  
Introduces research methods and resources in the discipline with a focus on qualitative classroom-based approaches. A required prerequisite for MTSL 602 and MTSL 604.

**MTSL 602 - Thesis**  
Credits: 3  
This course involves the identification and in-depth exploration of a topic or issue in TESL. The thesis will include a comprehensive literature review, statement of purpose, description of methodology, presentation of findings, and discussion of implications and relevance of the research.
MTSL 604 - Master's Portfolio  
This course involves the identification and in-depth exploration of a topic or issue in TESL for the final oral presentation. The project is one that contributes to TESL, multicultural, multilingual development. The project must be completed and submitted in written form or as a manuscript suitable for publication.

MTSL 610 - Practicum in TESL  
The culminating experience of MA/TESL study, the Practicum is a 10 to 14 week exercise in applied TESL. Having completed all prerequisites, students are assigned to a Gonzaga University ESL faculty member for the duration of the practicum. Following a period of observation, the intern moves to increased levels of responsibility for planning and teaching.

MTSL 611 - Continuing Research  
This course (ProSem) is a complementary course to either MTSL 610 (Practicum) or MTSL 602 (Thesis) or 604 (Project). Students meet to discuss practical and theoretical issues related to their teaching or research site. Students also develop a professional portfolio consisting of a philosophy of teaching, a videotape of lesson, an ESOL curriculum unit with assessments and evaluations.

MTSL 690 - Independent Study  
MTSL 691 - Independent Study
School of Engineering & Applied Science

Dean: Stephen Silliman

The School of Engineering & Applied Science (SEAS) was established in 1934 and offers both a Master of Engineering in Transmission & Distribution (T&D) Engineering degree and a 15-credit T&D Certificate for engineers in the power industry.

The School of Engineering & Applied Science produces broadly educated and capable engineers ready to contribute innovative solutions for a better world. The T&D program exemplifies this mission statement by offering online, graduate level courses to utility engineering professionals who are interested in pursuing an advanced degree but are unable to participate in traditional (on-site) graduate programs.

The multi-disciplined program has been designed in collaboration with power industry experts to provide students with necessary technical and managerial skills for advancement in their engineering careers. The courses are taught by experienced engineering faculty and power industry engineers to ensure students learn the most relevant design and maintenance standards. The multi-disciplined program blends academic rigor with engineering practicum in a series of courses that include civil, electrical, and mechanical engineering, along with engineering leadership topics, to form an advanced degree or Certificate in Transmission and Distribution Engineering.

Transmission and Distribution Program

Director: Peter McKenny
Assistant Director: Jilliene McKinstry

Master of Engineering - Transmission & Distribution Engineering

Gonzaga University's School of Engineering and Applied Science (SEAS) offers an on-line Master of Engineering degree and a Graduate Certificate in Transmission and Distribution (T&D) Engineering. All courses are offered on-line over an eight-week period by industry experts and Gonzaga University faculty. Students may register and take courses from anywhere in the world and have immediate access to high quality instruction from industry leaders.

Admissions:

Admission to the program will be administered by faculty and staff of the School of Engineering and Applied Science. For the M.E. degree, an undergraduate degree in engineering, two letters of recommendation (preferably from immediate managers/supervisors in a power-related industry), and a letter of intent expressing the student's qualifications, professional goals, and employment experience will be required to enter the program. Preferred consideration for admission will be given to applications with industry experience that have completed the T&D Certificate Program.
Admission Checklist:

1. Letter of intent
2. Transcripts of all relevant university coursework. Only degrees and courses from a regionally accredited institution will be accepted.
3. GRE test score (waived for those with a T&D Certificate or current PE license)
4. Two letters of recommendation
5. Application form submitted
6. Application fee
7. Professional Resume

Prerequisites:
B.S. Degree in Civil, Mechanical, Electrical or other engineering field. Employment in electric utility or related industry recommended.

Course Requirements:
Thirty-six (36) credits total:

- 33 in T&D courses, Students may substitute six credits from pre-approved graduate courses.
- TADP 556 Capstone - 3 credits.

Degree Requirements:
The Master of Engineering in T&D Engineering is a 36-credit hour degree program. Students are required to complete a total of 36 credits- three from the TADP 556 capstone course and at least 27 credits from other T&D courses. The final six credits may be from the T&D program, approved courses from GU’s Business or Organizational Leadership programs, or approved graduate courses from other universities. Once admitted to the T&D degree program students will be given six years to complete their degree.

To receive an M.E. Degree in T&D Engineering the student must have an average cumulative grade point of 3.0 or better in the T&D program. Prior to being awarded their degree, each student is encouraged to participate in the campus visit associated with the Engineering Leadership capstone course.

Basic requirements for completion and award of the degree are 36 credits of graduate coursework including:

1. A cumulative grade point average of at least 3.0 in the program
2. TADP 556 Engineering Leadership Capstone course
3. At least 27 credits of T&D coursework
4. Six credits of electives from either T&D coursework or other pre-approved graduate courses
5. A portfolio of final projects is required as the culminating project

Transmission Track Courses:
TADP 540 Transmission Line Design-Introduction  3 credits
TADP 543 Electric Grid Operations  3 credits
TADP 544 Project Development & Construction Methods  3 credits
TADP 547 Underground System Design  3 credits
TADP 548 Transmission Line Design-Electrical Aspects 3 credits
TADP 640 Transmission Line Design-Advanced* 3 credits

**Distribution Track Courses:**
TADP 541 Distribution System Design 3 credits
TADP 542 Substation Design 3 credits
TADP 545 System Protection** 3 credits
TADP 547 Underground System Design 3 credits
TADP 553 System Automation 3 credits
TADP 641 Power System Analysis 3 credits

**Capstone Course:**
TADP 556 Engineering Leadership 3 credits

**Note to Students:**
*Prerequisite TADP 540

** Prerequisite TADP 641 or Program Director permission

**Graduate Certificate in T&D Engineering:**
The 15 credit T&D Engineering certificate program consists of any five (3 credit) Gonzaga T&D graduate courses. Each course may be taken individually, or students may take any sequence of five (3-credit) courses that fit their professional needs to obtain the graduate level certificate in T&D Engineering. A cumulative GPA of 3.00 from the T&D Program and good standing with the University will be required for the award of the certificate. Admission is administered through the T&D program with director approval needed for registration in TADP 545 and TADP 640.

**Courses:**
These courses are an ideal fit for engineers looking for utility related professional development opportunities at the graduate level. The courses also offer engineers the technical insight they will need to be successful in the utility field. Course topics include transmission line design and construction, project management and construction methods, power system analysis, protective relaying, distribution system design, and power system design (including regional and national power infrastructure and regulations).

Each course has been split into modules with a different industry expert assigned to develop and teach each module. Students, therefore, receive instruction from multiple industry experts and have access to course material which is directly focused on current transmission and distribution design practice and procedures. In addition, the online format allows students to attend "class" each week whenever it is convenient to their work schedules without the need to travel to campus.

For more information about this program and current courses offerings, please visit our website at: http://eng.gonzaga.edu/tandd/.
Course Descriptions:

TADP 521 - Utility Communications  
This course is an introduction into the world of communications, with an emphasis on applications in the electrical utility space. The course is intended for those whose specialty is not communications engineering but need an overview of the evolving communications technology as a pre-requisite for the future Smart Grid; this includes power-track engineers, project managers, etc.

TADP 540 - Introduction Transmission Line Design  
Introduction to structures, conductors, insulation, survey techniques, terrain modeling, computer-aided design, NESC code requirements. Each major step in an overhead line design process will be analyzed and discussed using data from a recently constructed line. Advantages and disadvantages of some modern design tools will be established.

TADP 541 - Elec Distribution System Design  
Network planning, protection/fusing, conductor sizing, transformer specification and connections, arrestors, reactive compensation, underground cabling, substation overview. Students will learn the characteristics of distribution devices and how to select devices which contribute to the desired system performance. The course will cover the requirements of acceptable power quality and how to identify the different types of loads and their requirements for service.

TADP 542 - Substation Design  
System overview, design principles, types of substations, components, utilization, reliability, metering, voltage, protection, project plan, site, scheduling, major equipment, control houses, communication, SCADA, foundations, structural design, grounding.

TADP 543 - Electrical Grid Operations   
NERC/WECC reliability standards, control area operation, outage coordination planning, switch theory and devices, reactive load balancing, generation load balancing, economic dispatch, transmission marketing (OASIS), seasonal ratings. The student will acquire the expertise needed for the inner-workings of a large, interconnected utility system. In addition, the students will develop a skill set that includes knowledge of how electricity is generated, transmitted, and consumed, as well as the ability to analyze complex transmission operational situations and make qualified judgments and recommendations to mitigate transmission related problems.

TADP 544 - Project Development and Construction Method  
System planning and project development, project proposals to management, project initiation, scheduling, cost management, resource management, permitting authority, land rights acquisition, overview of contracts, contractor selection, Gantt tracking. Students will study conductor types and uses, and learn strategies for developing and describing competing transmission projects. Given a specific transmission line project, the students will be able to develop a detailed project description in the form of a project plan.

TADP 545 - System Protection  
General concepts, symmetrical faults, asymmetrical faults, voltage and current transformers for protection, classification and functionality of relays, overcurrent protection, distribution feeder protection, transmission line protection with communications independent distance relaying, introduction to differential protection, and disturbance analysis.

TADP 547 - Underground System Design  

TADP 548 – Transmission Line Design - Electrical Aspects  
This course covers the electrical aspects of transmission line design which ensure acceptable reliability, safety and code compliance for transmission facilities. Topics include an introduction to the electrical aspects of a
transmission line design, rules and requirements, design criteria and voltage levels, conductor selection and
ratings, required clearances, REA manual, insulation, voltage flashover, EMF fields, corona, induction
coordination, grounding requirements, pole grounding, guy wire grounding, and grounding measurements.

**TADP 549 - TLD: Structures and Foundations**

The course covers in-depth design of steel poles, concrete poles, and associated foundations. The major
topics include: review of steel pole specifications, development of loading trees, design of steel poles
including arms, attachment details, base plate, anchor bolts and connections, manufacturing process,
inspections of weld details, testing of steel poles, review of concrete pole specifications, design of concrete
poles, comparison of steel vs. concrete poles, associated industry national standards, direct embedment and
pier foundations, foundation optimization, and anchor foundations.

**TADP 553 - System Automation**

Students will learn economic benefits, reliability, safety, equipment costs, communication, transmission
automation, distribution automation, under frequency load shedding, radial overhead, radial loop
underground, demand side management, remote connect/disconnect, SmartGrid, consumer automation,
and network design aspects.

**TADP 556 - Engineering Leadership**

Four broad areas of leadership will be covered: leadership roles and responsibilities (sponsor appreciation);
communication; systems thinking and breakthrough leadership; leadership, change and ethics.

**TADP 640 - Advanced Transmission Line Design**

The course further develops strategies covered in T-Line course and introduces advanced concepts for
designing overhead transmission lines.

**TADP 641 - Power System Analysis**

This course will begin with a review of basic concepts of power systems, their components and how they are
inter-related. An overview of the topology and members of the North American power grid will then be
covered. The main portion of the course will refer to modeling of power systems, short circuit calculations,
and load flow algorithms and methods. Students will learn how to apply the algorithms and methods using
case studies in topics such as voltage regulation, VAR control, and relay setting and coordination. The course
will wrap up with a brief segment on harmonic analysis and filter design.

**TADP 680 - Special Topics**

Topic to be determined by instructor.
School of Nursing and Human Physiology

Dean: Lin Murphy
Assistant Dean: Jennifer Towers

Welcome to the School of Nursing and Human Physiology (SNHP), which was established in 2013 in response to a growing need, and builds on three departments with long histories at Gonzaga. Consistent with the mission of Gonzaga University, our message is that of making a difference through excellence in education and scholarly pursuits in the Jesuit, Catholic tradition.

Students choosing to enroll in one of our graduate programs will be taught by faculty with exemplary records in teaching, research and service. Many faculty maintain clinical schedules to enrich their integration of theory and practice in the classroom. Their research and scholarly work inform and enhance their teaching and result in improvements in individual and population health. Service is an important component of what we do as it provides the school with the opportunity to fulfill the Jesuit commitment to social justice through helping others.

Through the Virtual Campus we make educational programs available to nurses who wish to advance their education but require flexible scheduling. With courses delivered in an online, interactive format, Gonzaga makes it possible for nurses to pursue advanced degrees without having to leave their communities. Students can pursue advanced roles as Health Systems Leaders, Family Nurse Practitioners, Psychiatric Mental Health Nurse Practitioners, or Nurse Anesthetists.

Graduate Degree Programs in the School of Nursing and Human Physiology

- M.S. Nursing (R.N. to M.S.N., M.S.N., Second Master's Degree Programs)
- Doctor in Nursing Practice
- Doctor of Nurse Anesthesia Practice
Master of Science in Nursing

Chairperson: Jeffery Ramirez
Professors: N. Crogan, S. Boysen, M. McFarland
Associate Professors: N. Beckham, L. Murphy, J. Ramirez, J. Tiedt
Assistant Professors: N. Dhanaswar, J. Isaacson, C. Kottwitz, J. Owens, B. Senger
Senior Lecturer: D. Smith
Lecturers: M. DeNysschen, J. Derzay, J. Garrity, K. Manion, J. Miller, D. Ogorek, K. Slater, L. Torretta

Introduction

The Department of Nursing offers three options for obtaining a Master of Science in Nursing: the accelerated RN to MSN (Master of Science in Nursing), the MSN, and a second Master’s in Nursing options. These programs emphasize leadership, the integration of theoretical concepts from nursing and related disciplines, and the application of these theories to practice. Both role development and preparation in a specialty focus area are emphasized. Grounded in Jesuit and nursing values, the MSN program prepares Registered Nurses to assume roles as Family Nurse Practitioners, Adult/Gerontology Nurse Practitioners, Psychiatric-Mental Health Nurse Practitioners, Nurse Educators, or Health Systems Leaders. With Complex Adaptive Systems (CAS) as the organizing framework for the curriculum, the program builds on the themes of servant leadership, social justice, community, and reflective practice.

Gonzaga’s MSN program is offered in an online distance delivery format with scheduled on-campus immersions. This format enables nurses in geographically isolated areas and those who would not be able to attend an on-campus program to pursue advanced nursing education and still continue to provide much-needed nursing services in their home communities while completing graduate studies. Graduates are qualified to take the national certification examinations for their areas of specialization. National certification is a requirement for licensure as a nurse practitioner in most states. Students are responsible for checking state mandates for practice while in the student role and in an advanced nursing role.

Program Overview

Students who enter the master's program through the accelerated RN to MSN pathway complete a total of five courses (15 credits) that “bridge” them to the graduate-level courses. After completing these “bridge” courses, they progress directly to the core courses in the MSN program provided they have successfully completed all bridge courses with a grade of “C” or better and have maintained a minimum GPA of 3.0. They then matriculate to the Health Systems Leader MSN option.

Students with a Bachelor of Science in Nursing degree are admitted directly into the Master of Science in Nursing (MSN) program. Students with a non-nursing bachelor’s degree and Registered Nurse license are also able to be admitted directly into the Master of Science in Nursing program, but must complete a minimum of four pre-requisite courses prior to starting the master’s-level courses. Students apply for admission to one of three specialty tracks: Family Nurse Practitioner (47 credits), Psychiatric-Mental Health Nurse Practitioner (47 credits), or the Health Systems Leadership track (36 credits). They complete four undergraduate prerequisite courses (12 credits), and five MSN core courses (15 credits) prior to advancing to and progressing through one of the specialty tracks (additional 21-32 credits).
In the nurse practitioner options, students complete courses in advanced pathophysiology and pharmacology, advanced health assessment, and the direct care core courses that prepare them for advanced practice. Students in these pathways complete 600 hours (10 credits) of practicum or clinical experience. Students preparing for the advanced role specialty of Health Systems Leader complete the core courses for the specialty track as well as 360 hours of practicum (6 credits).

The second master’s degree option is designed for the Registered Nurse who already possesses a master’s degree in nursing but desires additional preparation in another specialty area. The program is structured to meet the needs and schedules of working Registered Nurses through the same distributive learning formats used in the MSN program. The total credits required may vary depending on each student’s background and preparation.

**RN to MSN Program (for Registered Nurses)**

The RN to MSN program offers the licensed Registered Nurse with a diploma or an associate’s degree in nursing the opportunity to earn a master’s degree in nursing in less time and with fewer credits than would be required if completing separate BSN and MSN degrees. The MSN is the degree awarded; there is no option for earning a separate BSN degree. In an effort to meet the needs of working Registered Nurses, the program is offered in an online distance delivery format with scheduled on-campus immersions during the MSN coursework. Students complete five courses (15 credits) that “bridge” them to the master’s level courses: NURS 320 – Statistics for Health Professionals, NURS 406 – Nursing Research, NURS 463 – Community Health, NURS 464 – Community Health Practicum, PHIL 280 – Persons & Conduct. Once the “bridge” courses have been completed, students’ progress immediately to the graduate level courses with an emphasis on preparation for an advanced role as a Health Systems Leader.

**Admission Requirements RN to MSN Program**

At the time of application to the RN to MSN program, the applicant also applies for admission to Gonzaga University. The applicant must have an associate's degree in nursing from an accredited college or a diploma in nursing from a state-approved program and must submit one official transcript from each college, university, and/or nursing program attended. The decision to admit an applicant to the RN to MSN program is based on consideration of the individual's overall portfolio including:

1. Cumulative GPA of 3.0 or better (4.0 scale).
2. Evidence of a current unencumbered RN license.
3. One official transcript from every college and university or nursing school attended. Only degrees and courses from regionally accredited institution will be accepted.
5. Two letters of recommendation from individuals such as employers, colleagues, or professors who can attest to the applicant’s leadership, interpersonal skills, professional practice, critical thinking and judgment, and potential for advanced study.
6. If GPA is less than 3.0, satisfactory score on the Miller Analogy Test or the Graduate Record Exam within the last five years.
7. Typewritten statement (maximum 500 words) that describes the applicant’s:
   a. interest in the RN to MSN Program and Health Systems Leader option
   b. professional goals
   c. personal and professional strengths
d. professional experiences

8. Non-native English speakers are required to provide proof of English proficiency. Gonzaga University accepts the following:
   a. score of 6.5 or better on the IELTS
   b. official TOEFL score of at least 88 ibt or 580 pbt
   c. completion of an Associate's degree in Nursing or a diploma in Nursing from an institution where English is the primary medium of instruction.

Degree Requirements

The RN to MSN program requires the completion of five "bridge" courses (15 credits) with a minimum GPA of 3.0 in order to progress to MSN-level course work.

Bridge Courses: 15 Credits

Graduate (MSN) Courses:

Students who have successfully completed the "bridge" courses with a minimum grade of "C" and have achieved a minimum GPA of 3.0 progress directly to the MSN level courses.

Master of Science in Nursing Program Admissions Requirements:

At the time of application to the MSN program, the applicant also applies for admission to Gonzaga University. The applicant must have a bachelor's degree from an accredited college or university, be licensed as a Registered Nurse, and submit one official transcript from each college, university, and/or nursing program attended.

Students who are admitted without a bachelor's degree in nursing must take some foundational nursing courses before completing master's-level courses, e.g., statistics, research, and community health nursing. The decision to admit an applicant to the MSN program is based on consideration of the individual's overall portfolio including:

1. Cumulative GPA of 3.0 or better (4.0 scale).
2. Evidence of a current unencumbered RN license.
3. One official transcript from every college and university or nursing school attended. Only degrees and/or courses from regionally accredited institutions will be accepted.
5. Two letters of recommendation from individuals such as employers, colleagues, or professors who can attest to the applicant’s leadership, interpersonal skills, professional practice, critical thinking and judgment, and potential for advanced study.
6. If GPA is less than 3.0 or bachelor degree is from a competency-based program, satisfactory score on the Miller Analogy Test or the Graduate Record Exam within the last five years.
7. Typewritten statement (maximum 500 words) that describes the applicant’s:
a. interest in the MSN Program and specific MSN option  
b. professional goals  
c. personal and professional strengths  
d. professional experiences  

8. Non-native English speakers are required to provide proof of English proficiency. Gonzaga University accepts the following:  
a. score of 6.5 or better on the IELTS,  
b. official TOEFL score of at least 88 ibt or 580 pbt,  
c. completion of an Associate’s degree in Nursing or a diploma in nursing from an institution where English is the primary medium of instruction.

Required Core Courses for All MSN Options: 15 Credits

All of the core courses are offered online and must be completed for all of the specialty options. These courses provide the theoretical foundation for role development and expose the students to concepts and issues that undergird all areas of advanced nursing practice. Courses include content in health policy analysis and development, information management, evidence-based practice, and leadership.

NURS 561 Information Technology and Data Management 3 credits  
NURS 562 Theoretical Foundations for Healthcare Improvement 3 credits  
NURS 563 Evidenced-Based Practice for Quality and Safety 3 credits  
NURS 564 Contemporary Healthcare Environment 3 credits  
NURS 565 Clinical Prevention for Diverse Populations 3 credits

Health Systems Leadership (HSL) Option: 36 Credits (including Core)

This option prepares Registered Nurses to assume leadership and administrative positions in inpatient, ambulatory care, and community-based settings. Students gain knowledge and competency in financial and human capital management, as well as strategies for responding to the ethical and legal issues encountered in administrative roles. The HSL core courses are offered online. Practicum experiences are arranged by the student to meet identified learning needs. There is a required two-day, on-campus immersion during the last practicum course.

Health Systems Leadership Core: 15 Credits

NURS 641A Nursing Leadership Development 3 credits  
NURS 642A Quality and Information Management 3 credits  
NURS 643A Communication and Relationship Management 3 credits  
NURS 644A Health Care Management 3 credits  
NURS 645A Legal, Regulatory, and Ethical Healthcare Environments 3 credits  

Health Systems Leadership Practicum: 6 Credits (360 hours)

NURS 631A Health Systems Leadership Practicum I 1-3 credits  
NURS 632A Health Systems Leadership Practicum II 1-3 credits  
NURS 633A Health Systems Leadership Practicum III 1-3 credits
Family Nurse Practitioner (FNP) Option: 47 Credits (including Core)

This option prepares students to provide a holistic approach to primary care for individuals and families of all ages and to manage a wide variety of acute and chronic health problems. Family Nurse Practitioners work in independent as well as collaborative practice settings, such as private practices, urgent care centers, health maintenance organizations, clinics, health departments, student health centers, and clinics for the homeless or uninsured. The FNP core courses are offered online. When students begin their practicum courses, they are required to participate in one on-campus immersion during each of the four practicum courses as well as two on-campus immersions when taking the Advanced Health Assessment course (for a total of 6 on-campus immersions). These immersions are two or more days in length. Students residing in Washington, Idaho, Oregon, and Montana have at least one site visit from a clinical faculty during each practicum course. Students living outside of this four-state region are required to arrange for an additional on-campus day in conjunction with the immersion experience during each practicum course in order to complete the faculty site visit requirement.

Psychiatric-Mental Health Nurse Practitioner (PMHNP) Option: 47 Credits (including Core)

This option prepares students to work as Psychiatric-Mental Health Nurse Practitioners. They are prepared to provide the full range of services that comprise primary mental health care in diverse settings with a variety of clients/patients, to provide clinical and professional leadership, and facilitate system improvements. Their clinical practice focuses on persons of all ages with diagnosed psychiatric disorders and individuals, families, or populations at risk for mental illness. The PMHNP core courses are offered online. When students begin their practicum courses, they are required to participate in one on-campus immersion during each of the three practicum courses and two on-campus immersions when taking the Advanced Health Assessment course (for a total of 5 on-campus immersions). These immersions are two days or more in length. Students will have at least one site visit from a clinical faculty during each of the three practicum courses. Additional site visits are arranged as needed.
Psychiatric Mental Health Nursing Core: 22 Credits

- **NURS 523** Advanced Pathophysiology 3 credits
- **NURS 524** Advanced Pharmacology 3 credits
- **NURS 600** Health Assessment: Advanced Nurse Practice 3 credits
- **NURS 601** Health Assessment: Advanced Nurse Practicum 1 credit
- **NURS 652M** Psychiatric-Mental Health Nursing Concepts I 3 credits
- **NURS 653M** Psychiatric-Mental Health Nursing Concepts II 3 credits
- **NURS 654M** Psychiatric-Mental Health Nursing Concepts III 3 credits
- **NURS 670** Advanced Psychopharmacology 3 credits

Psychiatric Mental Health Nursing Practicum: 10 Credits (600 hours)

- **NURS 661M** Advanced Psychiatric-Mental Health Nursing Practice I 1-3 credits
- **NURS 662M** Advanced Psychiatric-Mental Health Nursing Practice II 2-4 credits
- **NURS 663M** Advanced Psychiatric-Mental Health Nursing Practice III 2-4 credits
- **NURS 683M** Advanced Psychiatric-Mental Health Nursing Practicum Extension (if needed) 1-3 credits

Nurse Educator (NE) Option: 36 Credits (including Core)—not currently admitting to this option

This option prepares Registered Nurses to work as educators in academic, hospital, and community-based settings. Students develop an area of clinical specialization as well as competency in curriculum development, teaching-learning strategies, and assessment of student learning. Particular emphasis is placed on tailoring content and practicum experiences to individual needs. The NE core courses are offered online. Practicum experiences take place in a variety of educational settings. There are two required on-campus immersions lasting two days each.

Nurse Educator Direct Care Core and Practicum: 8 Credits

- **NURS 601E** Pathophysiology, Pharmacology and Assessment I 3 credits
- **NURS 602E** Pathophysiology, Pharmacology and Assessment II 3 credits
- **NURS 603E** Advanced Clinical Practicum: Acute Care 1 credit
- **NURS 604E** Advanced Clinical Practicum: Population-Focused 1 credit

Nurse Educator Core and Practicum: 13 Credits

- **NURS 651E** Curriculum Development 3 credits
- **NURS 652E** Teaching/Learning Strategies 3 credits
- **NURS 653E** Principles of Evaluation for Nurse Educator 3 credits
- Four credits distributed between the following two courses: 4 credits
  - **NURS 645E** Nurse Educator Practicum in Clinical Setting
  - **NURS 646E** Nurse Educator Practicum in Academia

Adult/Gerontology Nurse Practitioner Option: 45 credits (including Core)—not currently admitting to this option

This track prepares nurse practitioners to care for young adults to frail elders. Adult/Gerontology NPs typically practice in primary care settings, such as private practices, clinics, nursing homes, and long-term care facilities. Students in this track must complete a total of 45 credits to earn an MSN degree. The didactic
courses are offered online. Students complete the required 600 hours of practicum in their home communities working at a site and with a preceptor approved by faculty. When students begin their practicum courses, they are required to participate in one on-campus immersion during each of the three practicum courses as well as two on-campus immersions when taking the Advanced Health Assessment course (for a total of 5 on-campus immersions). These immersions are two or more days in length. Students residing in Washington, Idaho, Oregon, and Montana have at least one site visit from a clinical faculty during each practicum course. Students living outside of this four-state region are required to arrange for an additional on-campus day in conjunction with the immersion experience during each practicum course in order to complete the faculty site visit requirement.

**Adult/Geriatric Nurse Practitioner Core: 20 Credits**

- NURS 523 Advanced Pathophysiology 3 credits
- NURS 524 Advanced Pharmacology 3 credits
- NURS 600 Health Assessment: Advanced Nurse Practice 3 credits
- NURS 601 Health Assessment: Advanced Nurse Practicum 1 credit
- NURS 653P Primary Care: Adult/Geriatric I 4 credits
- NURS 654P Primary Care: Adult/Geriatric II 3 credits
- NURS 671 Care of the Frail Elder 3 credits

**Adult/Geriatric Nurse Practitioner Practicum: 10 Credits (600 hours)**

- NURS 663P Primary Care Practicum: Adult/Geriatric I 2-4 credits
- NURS 664P Primary Care Practicum: Adult/Geriatric II 2-4 credits
- NURS 665P Primary Care Practicum: Adult/Geriatric III 2-3 credits
- NURS 683P Primary Care Practicum Extension (if needed) 1 credit

**Second Master's Degree in Nursing**

After faculty review the student's transcript and determine the courses needed to complete the student's chosen specialty pathway, the student typically completes between 21 to 35 credits, depending on the pathway, to obtain a second master's degree in Nursing.

**Admission Requirements for Second Master's Degree in Nursing Option**

At the time of application to the second master's degree option, the applicant also applies for admission to Gonzaga University. The applicant must have a master's degree in nursing from an accredited college or university, be licensed as a Registered Nurse, and submit one official transcript from each college, university, and/or nursing program attended. The decision to admit an applicant to the MSN program is based on consideration of the individual's overall portfolio including:

1. Cumulative GPA of 3.0 or better (4.0 scale).
2. Evidence of a current unencumbered RN license.
3. One official transcript from every college and university or nursing school attended. Only degrees and courses from a regionally accredited institution will be accepted.
5. Two letters of recommendation from individuals such as employers, colleagues, or professors who can attest to the applicant’s leadership, interpersonal skills, professional practice, critical thinking and judgment, and potential for advanced study.
6. If GPA is less than 3.0 or bachelor degree is from a competency-based program, satisfactory score on the Miller Analogy Test or the Graduate Record Exam within the last five years.

7. Typewritten statement (maximum 500 words) that describes the applicant’s:
   a. interest in the MSN Program and specific MSN option
   b. professional goals
   c. personal and professional strengths
   d. professional experiences

8. Non-native English speakers are required to provide proof of English proficiency. Gonzaga University accepts the following:
   a. score of 6.5 or better on the IELTS
   b. official TOEFL score of at least 88 ibt or 580 pbt
   c. completion of an Associate's degree in nursing or a diploma in Nursing from an institution where English is the primary medium of instruction

Second Master's Degree Program Options:

Health Systems Leadership Option: 21-24 Credits

This option prepares Registered Nurses to assume leadership and administrative positions in inpatient, outpatient, and community-based settings. Students gain knowledge and competency in financial and human capital management, as well as strategies for responding to the ethical and legal issues encountered in administrative roles. The HSL core courses are offered online. Practicum experiences are arranged by the student to meet identified learning needs. There is a required two-day, on-campus immersion during the last practicum course.

NURS 523  Advanced Pathophysiology 3 credits
NURS 524  Advanced Pharmacology 3 credits
NURS 600  Health Assessment: Advanced Nurse Practice 3 credits
NURS 601  Health Assessment: Advanced Nurse Practicum 1 credit
NURS 653P  Primary Care: Adult/Geriatric I 4 credits
NURS 654P  Primary Care: Adult/Geriatric II 3 credits
NURS 671  Care of the Frail Elder 3 credits

Adult/Geriatric Nurse Practitioner Practicum: 10 Credits (600 hours)
NURS 663P  Primary Care Practicum: Adult/Geriatric I 2-4 credits
NURS 664P  Primary Care Practicum: Adult/Geriatric II 2-4 credits
NURS 665P  Primary Care Practicum: Adult/Geriatric III 2-3 credits
NURS 6893P  Primary Care Practicum Extension (if needed) 1 credit

Course Descriptions:

NURS 523 - Advanced Pathophysiology  credits: 3
This course seeks to assist learners to understand the cellular pathophysiological basis of disease. The content emphasizes cellular, genetic, and biochemical processes. Pathophysiological and physiological concepts form the basis for critical thinking and decision making when assessing and treating individuals with various disease processes.

NURS 524 - Advanced Pharmacology  credits: 3
The course is designed to prepare the learner for an advanced practice role with prescriptive authority. Pharmacokinetic and pharmacodynamic principles will be applied to the pharmacotherapeutic treatment of disease. Medications will be studied according to therapeutic categories and drug classes within the framework of organ-based pathophysiologic disease state processes. Emphasis will be placed on the medications that are commonly used (top 200 drugs) in primary care settings with special attention given to evidence-based medication selection, patient education, and medication monitoring.

Pre-requisites: NURS 523

NURS 561 - Info Tech and Data Management  credits: 3
This course explores the many uses of information technology and data management. The course will provide learners with the knowledge and skills in information and healthcare technology needed to enhance communication and interprofessional collaboration in the current healthcare environment. The process of locating, accessing and analyzing information and data is applied to advanced practice roles, enhancing patient safety, quality and outcomes, and improving population health.

NURS 562 - Theoretical Foundations of Healthcare Improvement  credits: 3
This course provides a theoretical orientation to become change agents in a variety of healthcare settings and diverse practice populations. The course will provide learners with a foundation in theories significant to nursing practice such as complex adaptive systems, organizational and change theory, leadership and team-building models, and quality improvement and care models needed to assess, design, plan, implement, and evaluation quality improvement project to promote patient-centered care and improve program outcomes.

NURS 563 – Evidence-Based Practice for Quality and Safety  credits: 3
This course will provide learners with a theoretical and practical foundation for identifying and critically appraising evidence from qualitative and quantitative research traditions. The emphasis is on the examination of the essential elements of evidence-based-practice, including the formulation of answerable questions to address quality improvement and safety in a variety of advance practice roles and the
systematic search for research evidence that can be used to answer researchable questions.

**NURS 564 - Contemporary Healthcare Environment**  
Credits: 3

This course explores the ethical and legal principles of healthcare and their impact on accessible, affordable, and quality care. This course will provide learners with a framework for discussing ethical and legal issues with an emphasis on the ethical delivery of care to individuals, families and populations. The scope and standards of advanced nursing roles will be examined along with current issues and policies that address health care disparities, health care organizations, financing and quality. Strategies for analyzing and influencing public, professional and institutional policies related to health care and its delivery will be considered.

**NURS 565 - Clinical Prevention for Diverse Populations**  
Credits: 3

The focus of this course is on the development of health promotion and disease prevention programs for diverse groups and populations. Selected concepts of epidemiology, broad determinants of health, population health, clinical prevention and cultural competence will be examined as they relate to the design and delivery of equitable clinical prevention and health promotion interventions and/or services to individuals, families, communities and aggregates/clinical populations.

**NURS 600 - Health Assessment: Advanced Nursing Practice**  
Credits: 3

This course is designed to extend and refine the assessment skills of the Registered Nurse in preparation for an advanced clinical practice role. The student will learn to perform physical, developmental, mental, emotional, cultural, social, and family assessments. Students will review anatomy and physiology related to each biological system being studied. The course emphasizes in-depth techniques for assessing each body system in individuals throughout the life span. Lectures will focus on the use of a variety of health assessment techniques, including history taking skills, physical assessment, and other diagnostic assessment tools. Application of diagnostic reasoning and patient education to the assessment process will be included in the content. This course incorporates approximately 13 hours of supervised laboratory experience and 60 hours of precepted clinical experience. Laboratory and clinical components of the course focus on helping the student to develop communication, observation, and psychomotor skills and to document history and physical examination findings. Satisfactory progress in the clinical setting is required to pass the course. Two, two day on-campus immersions required.

**Co-requisites:** NURS 601  
**Pre-requisites:** NURS 523 and NURS 524

**NURS 601 - Advanced Health Assessment Practicum I**  
Credit: 1

This course is the practicum course paired with NURS 600 Advanced Health Assessment. The focus is on the practice of advanced assessment skills within a primary care setting. Students must complete 60 clinical hours in an approved clinical setting while supervised by a nurse practitioner or physician.

**Co-requisites:** NURS 600  
**Pre-requisites:** NURS 523 and NURS 524

**NURS 601E - Pathophysiology, Pharmacology and Assessment I**  
Credits: 3

This course provides students with an in-depth analysis of concept-based pathophysiological problems with emphasis on assisting learners in understanding the cellular pathophysiological basis of disease, the pharmacokinetic and pharmacodynamics principles of its pharmacological treatment and the refinement of physical assessment skills used to form the basis for critical thinking and decision-making when treating individuals with various pathophysiological problems.

**NURS 602E - Pathophysiology, Pharmacology and Assessment II**  
Credits: 3

This course is a continuation of NURS 601E and provides students with an in-depth analysis of concept-based pathophysiological problems with emphasis on assisting learners in understanding the cellular pathophysiological basis of disease, the pharmacokinetic and pharmacodynamics principles of its pharmacological treatment and the refinement of physical assessment skills used to form the basis for critical thinking and decision-making when treating individuals with various pathophysiological problems.

**NURS 603E - Advanced Clinical Practicum: Acute Care**  
Credit: 1

Students complete 60 hours of direct care activities with a master’s prepared nurse in an acute care setting.
Particular emphasis is placed on safety, quality of care, and quality improvement activities. Students are provided with the opportunity to integrate previous knowledge and develop proficiency in a focused area of acute care clinical nursing.

**NURS 604E - Advanced Clinical Practicum: Pop-Focused**  
Credit: 1  
Students complete 60 hours of direct care activities with a master’s prepared nurse in a community setting. Particular emphasis is placed on safety, quality of care, and quality improvement activities. Students are provided with the opportunity to integrate previous knowledge and develop proficiency in a population-focused area of clinical nursing.  
**Pre-requisites:** NURS 565 and (NURS 601E or NURS 602E)

**NURS 631A - Health Systems Leader Practicum I**  
Credits: 1-3  
This practicum integrates knowledge from the didactic courses in the health organization setting.  
**Pre-requisite(s):** NURS 641A or NURS 642A or NURS 643A or NURS 644A or NURS 645A

**NURS 632A - Health Systems Leader Practicum II**  
Credits: 1-3  
This practicum integrates knowledge from the didactic courses in the health organization setting.  
**Pre-requisites:** NURS 631A

**NURS 633A - Health Systems Leader Practicum III**  
Credits: 1-3  
This practicum integrates knowledge from the didactic courses in the health organization setting.  
**Pre-requisites:** NURS 632A

**NURS 641A - Nursing Leadership Development**  
Credits: 3  
This course advances the student's understanding of concepts introduced in the common core with a focus on the role of the nursing leader within the complexity of healthcare organizations. Emphasis is placed on the development of a professional plan and portfolio that reflect the intentional selection of a personal model of nurse leadership. Consideration is given to the use of change management theories in promoting organizational as well as personal and professional changes.

**NURS 642A - Quality and Information Management**  
Credits: 3  
This course focuses on the information management skills essential for effective nursing leadership in complex healthcare settings. Topics to be addressed include clinical information systems, benchmarking, and quality monitoring.  
**Pre-requisite(s):** NURS 561 and NURS 562 and NURS 563 and NURS 564 and NURS 565

**NURS 643A - Communication and Relationship Management**  
Credits: 3  
This course addresses the role of the nurse as a healthcare systems leader in developing and sustaining relationships with employees and other healthcare providers within complex healthcare environments. Course content will address communication strategies, relationship management, conflict management and negotiation skills, and evaluation. Concepts related to legal, regulatory, and ethical aspects of employee hiring, performance evaluation, and termination will be reviewed. Consideration will be given to succession management.  
**Pre-requisite(s):** NURS 561 and NURS 562 and NURS 563 and NURS 564 and NURS 565

**NURS 644A - Health Care Management**  
Credits: 3  
This course focuses on the financial management skills essential for effective nursing leadership in complex healthcare settings. Topics to be addressed include financing, administrative, financial, cost accounting systems, and budget development and oversight.  
**Pre-requisite(s):** NURS 561 and NURS 562 and NURS 563 and NURS 564 and NURS 565

**NURS 645A - Legal, Regulatory, and Ethics of HealthCare**  
Credits: 3  
This course addresses the role of the nurse as a health systems leader in relation to legal, regulatory, and ethical considerations in health care environments. Complex adaptive systems is used as the framework for examining legal and regulatory constraints that affect care delivery, patient and employee rights and responsibilities, and quality management, including patient safety and risk management. Tension between legal and ethical guidelines will be explored.  
**Pre-requisite(s):** NURS 561 and NURS 562 and NURS 563 and NURS 564 and NURS 565
NURS 645E – Nurse Educator Practicum in Clinical Setting  
Credits: 1-3
Students complete 60-180 of the required 240 hours of preceptored teaching experience in an approved clinical setting providing student, patient and/or staff education. The experience will include classroom teaching, as well as supervised evaluation of participant learning and performance. The course included online clinical conferences.

Pre-requisites: NURS 601E and NURS 602E and NURS 651E

NURS 646E - Nurse Educator Practicum in Academia  
Credits: 1-3
Students complete 60-180 of the required 240 hours of preceptored teaching experience in approved academic setting. The experience will include classroom and clinical teaching, as well as supervised evaluation of student work and performance. The course includes on-line clinical conferences. There is a two to three day on-campus capstone immersion focusing on issues of professional development, transition to the nurse educator role, and legal and ethical issues inherent in academic and service settings.

Co-requisites: NURS 653E

Pre-requisites: NURS 601 and NURS 602 and NURS 651

NURS 651E - Curriculum Development  
Credits: 3
This course addresses strategies for developing curricula, ranging in scope from individual teaching sessions, to courses, to complete programs of study. Emphasis is given to developing a curriculum that is congruent with institutional and program mission, philosophy, and goals; professional standards; needs and expectations of an educational program’s communities of interest; contextual variables; and learner characteristics. Students are introduced to “backward design” principles, the concept of “threading” content, strategies for sequencing content, using a theoretical/conceptual framework to inform a curriculum, and principles of curriculum evaluation, focusing on both content validity and outcomes achievement. Legal, ethical, and accreditation issues related to curriculum content also will be considered.

NURS 651P – Primary Care: Gender Based  
Credits: 2
This course focuses on the role of the Family Nurse Practitioner in the care of women and men with common pathophysiological alterations in gender related health. Focus is on clinical management of preventative, acute and chronic health problems in women and men who present for care in primary care settings. Emphasis is placed on the FNP’s role in performing comprehensive health assessment (including ordering and interpretation of appropriate diagnostic tests), diagnostic reasoning (differential diagnosis), and prescription of pharmacologic and non-pharmacological interventions.

Co-requisites: NURS 661P

Pre-requisites: NURS 600 and NURS 601

NURS 652E – Teaching and learning Strategies  
Credits: 3
This course explores strategies for teaching in classroom, online, clinical and community settings and emphasizes linking teaching-learning strategies to desired learning outcomes. Theoretical frameworks for teaching-learning, assessing and accommodating learning styles, preferences, and readiness to learn will be considered. The course also addresses adapting content to teaching strategies for different groups of learners (e.g., students, health care consumer/patients, professional colleagues) and learners with different characteristics. A two to three day on-campus immersion focusing on simulation technologies is required. The course will explore strategies to enhance interprofessional collaboration through the educational process. Students will use their clinical specialty area as context for course assignments.

Pre-requisites: NURS 651E

NURS 652M – Psych-Mental Health Nurse Concepts I  
Credits: 3
Designed as an induction into advanced practice psychiatric-mental health nursing. The scope of practice and standards of the psychiatric nurse practitioner are analyzed. Major emphasis is placed on building a therapeutic relationship, assessing, and diagnosing major psychiatric disorders mental health promotion/prevention strategies, and diagnostic decision-making is stressed. Risk assessments and formulating diagnoses using DSM V, are emphasized and other phenomena requiring clinical intervention, considering variations across the lifespan. Selected theories of interpersonal psychotherapy, human development, recovery, and trauma informed care across the lifespan are analyzed. The biological bases of
psychosocial behavior and their implications in psychiatric care are explored. Integration of concepts and application in one’s personal practice are stressed.

**Co-requisites:** NURS 661M  
**Pre-requisites:** NURS 600 and NURS 601 and NURS 670

**NURS 652P – Primary Care: Infant, Child, and Adolescence**  
This course focuses on the role of the Family Nurse Practitioner in the clinical management of preventative, acute and chronic health problems in infants/children/adolescents who present for care in primary care settings. Emphasis is placed on the NP’s role in performing comprehensive health assessment and treatment (including ordering and interpretation of appropriate diagnostic tests), diagnostic reasoning (differential diagnosis), and prescription of pharmacologic and non-pharmacological interventions. The FNP’s role in management and referral to other health care professionals and community resources for individuals and families will be emphasized (e.g., coordination of care transitions within and between health care systems for children with developmental delay).

**Co-requisites:** NURS 662P  
**Pre-requisites:** NURS 600 and NURS 601

**NURS 653E - Principles of Evaluation for Nurse Educator**  
This course examines the basic principles of evaluation and provides practical guidelines for evaluation of learning in academic, clinical and community settings. The course includes content on test construction and evaluation, developing and using rubrics, developing and grading written assignments, evaluating clinical performance, and evaluating personal teaching effectiveness. The course also addresses program evaluation and accreditation. Legal and ethical considerations related to evaluation and grading will be discussed. (One day test writing seminar included in the NURS 646E on-campus capstone immersion.)

**Co-requisites:** NURS 646E  
**Pre-requisites:** NURS 651E

**NURS 653M – Psych-Mental Health Nurse Concepts II**  
The focus of this course is on the diagnosis and management of acute and chronic mental health issues. Emphasis is on individual and group psychotherapy across the lifespan. Development of therapeutic relationships and interpersonal processes in psychotherapy are examined. Continued development of therapeutic relationships, self-awareness, and skill in assessment, diagnosis, and care formulation are emphasized.

**Co-requisites:** NURS 662M  
**Pre-requisites:** NURS 652M or NURS 661M

**NURS 653P – Primary Care: Adult and Geriatric I**  
This course focuses on the role of the Nurse Practitioner (NP) in the clinical management of chronic and complex health problems in adults and elders who present for care in primary care settings. Emphasis is placed on the NP’s role in performing comprehensive health assessment (including ordering and interpretation of appropriate diagnostic tests), diagnostic reasoning (differential diagnosis) and treatment, prescription of pharmacologic and non-pharmacological interventions, and patient education, follow-up, co-management or referral.

**Co-requisites:** NURS 663P  
**Pre-requisites:** NURS 600 and NURS 601

**NURS 654M – Psych-Mental Health Nurse Concepts III**  
Focuses on the diagnosis and management of acute and chronic mental health issues. The course will have an emphasis on individual, group and family psychotherapy interventions. Development of therapeutic relationships and interpersonal processes in psychotherapy are examined. Theoretical models for individual and group psychotherapy are analyzed for their application and presenting issues in therapy situations of patients/clients of varying ages and diagnoses are emphasized. Self-awareness; continuing development of knowledge and skill in assessment, diagnosis, and care formulation; and integration of theories and techniques of psychotherapy for application in one’s personal practice are stressed. Strategies in treating chronic mental health disorders are considered. The indications for and selection of appropriate
theoretical models, diagnostic strategies, and/or intervention techniques, and issues in treatment situations of patients/clients across the age span are emphasized.

**Co-requisites:** NURS 663M  
**Pre-requisites:** NURS 652M or NURS 661M

**NURS 654P – Primary Care: Adult and Geriatric II**  
credits: 3  
This course focuses on the role of the Nurse Practitioner (NP) in the clinical management of chronic and complex health problems in adults and elders who present for care in primary care and other settings. Emphasis is placed on comprehensive health assessment and treatment (including ordering and interpretation of appropriate diagnostic tests), diagnostic reasoning (differential diagnosis), prescription of pharmacologic and non-pharmacological interventions, and patient education. The course also emphasizes the NP’s role when referring to other health care professionals, community resources, and interdisciplinary teams.

**Co-requisites:** NURS 664P  
**Pre-requisites:** NURS 600 and NURS 601

**NURS 661M - Psych-Mental Health Practicum I**  
credits: 1-3  
This clinical course is paired with the didactic course Psychiatric Mental Health Nursing Concepts I. Emphasis is on utilizing the theories, concepts, and skills necessary to assess and diagnose acute and chronic psychiatric disorders and the development of clinical intervention.

**Co-requisites:** NURS 652M  
**Pre-requisites:** NURS 600 and NURS 601

**NURS 661P – Primary Care: Gender-Based Practicum**  
credits: 1-3  
This course is the clinical course paired with the didactic course Primary Care Gender-Based. It is designed to allow Nurse Practitioner students to apply concepts of Advanced Practice Nursing. Students must complete 60 to 180 clinical clock hours in an approved clinical setting while supervised by a nurse practitioner, physician, or physician’s assistant (unless in a state that requires the preceptor to be either an MD or a NP). The focus of this clinical experience is on the development of skills in caring for the adult male and female population with health concerns.

**Co-requisites:** NURS 651P  
**Pre-requisites:** NURS 600 and NURS 601

**NURS 662M - Psych-Mental Health Practicum II**  
credits: 2-4  
This clinical course is paired with the didactic course Psychiatric Mental Health Nursing Concepts II. Emphasis is on the application of treatment interventions including medication management, individual, group psychotherapy for the adult clients.

**Co-requisites:** NURS 653M  
**Pre-requisites:** NURS 652M or NURS 661M

**NURS 662P – Primary Care: Infant, Child, and Adolescent Practicum**  
credits: 2-3  
This course is the clinical course paired with the didactic course Primary Care Infant, Child and Adolescent. It is designed to allow Nurse Practitioner students to apply concepts of Advanced Practice Nursing. Students must complete 120 clinical clock hours in an approved clinical setting while supervised by a nurse practitioner, physician, or physician’s assistant (unless in a state that requires the preceptor to be either an MD or a NP). The focus of this clinical experience is on the development of skills in caring for the population of infant through adolescent with health concerns.

**Co-requisites:** NURS 652P  
**Pre-requisites:** NURS 600 and NURS 601

**NURS 663M - Psych-Mental Health Practicum III**  
credits: 2-4  
This clinical course is paired with the didactic course Psychiatric Mental Health Nursing Concepts III. Emphasis is on the application of treatment interventions including medication management and individual and group psychotherapy for the child/adolescent and elderly client with acute, chronic, and co-occurring disorders.

**Co-requisites:** NURS 654M  
**Pre-requisites:** NURS 652M and NURS 661M
**NURS 663P – Primary Care: Adult and Geriatric Practicum I**

Credits: 2-4

This course is the clinical course paired with the didactic course Primary Care Adult/Geriatric I. It is designed to allow Nurse Practitioner students to apply concepts of Advanced Practice Nursing. Students must complete a minimum of 120 clinical clock hours in an approved clinical setting while supervised by a nurse practitioner, physician, or physician’s assistant (unless in a state that requires the preceptor to be either a physician or NP). The focus of this clinical experience is on the development of skills in caring for the adult/geriatric population with health concerns in primary care settings.

**Co-requisites:** NURS 653P

**Pre-requisites:** NURS 600 and NURS 601

---

**NURS 664P - Primary Care: Adult and Geriatric Practicum II**

Credits: 2-4

This course is the clinical course paired with the didactic course Primary Care Adult/Geriatric II. It is designed to allow Nurse Practitioner students to apply concepts of Advanced Practice Nursing. Students must complete a minimum 120 clinical clock hours in an approved clinical setting while supervised by a nurse practitioner, physician, or physician’s assistant (unless in a state that requires the preceptor to be either a physician or NP). The focus of this clinical experience is on the development of skills in caring for the adult/geriatric population with health concerns in primary care and other settings.

**Co-requisites:** NURS 654P

**Pre-requisites:** NURS 600 and NURS 601

---

**NURS 665P - Primary Care: Adult and Geriatric Practicum III**

Credits: 2-3

This course is the clinical course paired with the didactic course Care of the Frail Elder. It is designed to allow Nurse Practitioner students to apply concepts of Advanced Practice Nursing in a long-term care setting while caring for frail older adults. Students must complete a minimum of 120 clinical clock hours (2 credits) in an approved clinical setting while supervised by a nurse practitioner, physician, or physician’s assistant (unless in a state that requires the preceptor to be either a physician or NP).

**Co-requisites:** NURS 671

**Pre-requisites:** NURS 600 and NURS 601

---

**NURS 670 - Psychopharmacology**

Credits: 3

The course covers the principles and theories of psychopharmacology, the examination of, epigenetics, genetics, neurochemical communication, circuits in psychopharmacology, the effects of various psychotropic drugs, and the actions of drugs used to treat psychiatric disorders. The course examines the actions and use of specific psychotropic medication, required monitoring and the management of behavior and mental illness.

**Pre-requisites:** NURS 523 and NURS 524

---

**NURS 671 - Care of Frail Elder**

Credits: 3

This course focuses on the clinical management of the elder in primary care. Emphasis is on principles of gerontological care, common syndromes, ethical issues, abuse/neglect, and care options within the long-term care (LTC) continuum. The course includes a clinical application experience in a LTC setting.

**Co-requisites:** NURS 665P

**Pre-requisites:** NURS 600 and NURS 601

---

**NURS 672 - Mental Health in Advanced Practice**

Credits: 3

This course is foundational for advanced practice nurses when providing care to patients with common mental health disorders. Content includes neurophysiologic, genomic, environmental, social, and developmental theories to understand the etiology and presentation of common mental health conditions. Psychopharmacological and non-pharmacological principles and modalities for treatment of common mental health problems will be explored.

---

**NURS 683M - Psych-Mental Health Practicum Extension**

Credits: 1-3

This course is an independent clinical course. It is not paired with a didactic course. It is designed to allow Psychiatric-Mental Health Nurse Practitioner students to continue to apply concepts of Advanced Practice Nursing in semesters when they are not enrolled in NP specialty didactic courses. Students will complete variable clinical clock hours in approved clinical settings while supervised by a nurse practitioner, physician,
or physician’s assistant (unless in a state that requires the preceptor to be either a physician or NP). The focus of this clinical experience is on the continuing development and refinement of treatment interventions including medication management and individual and group psychotherapy for any population.

**Pre-requisites:** NURS 661M

**NURS 683P - Primary Care Practicum Extension**

This course is an independent clinical course. It is not paired with a didactic course. It is designed to allow Nurse Practitioner students to continue to apply concepts of Advanced Practice Nursing in semesters following completion of the NP specialty didactic courses. Students will complete variable clinical clock hours in approved clinical settings while supervised by a nurse practitioner, physician, or physician’s assistant (unless in a state that requires the preceptor to be either an MD or a NP). The focus of this clinical experience is on the continuing development and refinement of skills in caring for any population with health concerns in primary care or other approved settings.

**Pre-requisites:** NURS 663P and NURS 662P and (NURS 654P or NURS 651P minimum grade: C)

**NURS 690 - Special Topics**

Courses designed to address special topics in nursing, based on student and faculty interests.

**NURS 691 - Special Topics**

Topic to be determined by instructor.

**NURS 692 - Independent Study**

Independent study requires completion of a form, and department permission and cannot be registered for via ZAGWEB. (Cannot be used to fulfill elective requirement).

**Doctor of Nursing Practice**

**Chairperson:** Jeffery Ramirez

**Professors:** S. Boysen, N. Crogan, M. McFarland

**Associate Professors:** L. Murphy, J. Ramirez, J. Tiedt

**Assistant Professors:** N. Dhanaswar, J. Isaacson, C. Kottwitz, J. Owens, B. Senger

**Senior Lecturer:** D. Smith

**Lecturers:** N. Beckham, M. DeNysschen, J. Derzay, J. Garrity, K. Manion, D. Ogorek, K. Slater, L. Torretta

---

**Introduction**

The Department of Nursing offers two pathways to a Doctor of Nursing Practice (DNP) degree: post-baccalaureate DNP and post-master’s DNP. Nurses with a bachelor’s degree and a Registered Nurse license can apply for admission to the post-baccalaureate DNP option and one of the specialty nurse practitioner tracks: Family Nurse Practitioner (75 credits) or Psychiatric-Mental Health Nurse Practitioner (75 credits). Nurses with a master’s degree in nursing that prepared them for an advanced practice role, such as a nurse practitioner or clinical nurse specialist, or in an advanced role, such as a health systems leader/nurse administrator, can apply for admission to the post-master’s DNP option (minimum 31 credits). The Doctor of Nursing Practice program is consistent with the mission of Gonzaga University and the overall mission of the Department of Nursing, which is to prepare nurses for leadership in the service of others. Graduates of Gonzaga’s DNP program are prepared to engage in systems thinking to solve complex problems, translate evidence to improve health care practices and population health, lead quality improvement and change initiatives, and demonstrate effective intra-professional collaboration.
Gonzaga's DNP program is offered in an online distance delivery format with scheduled on-campus immersions. This format enables nurses in geographically isolated areas and those who would not be able to attend an on-campus program to pursue advanced nursing education and still continue to provide much-needed nursing services in their home communities while completing graduate studies. Graduates are qualified to take the national certification examinations for their areas of specialization. National certification is a requirement for licensure as a nurse practitioner in most states. Students are responsible for checking state mandates for practice while in the student role and in an advanced nursing role.

Program Overview

Post-Baccalaureate DNP Option

This online program is available to Registered Nurses who have earned a Bachelor of Science degree in Nursing or have a bachelor’s degree in another field and are licensed as Registered Nurses. Nurses with a non-nursing bachelor’s degree must complete a minimum of four pre-requisite nursing courses prior to starting the DNP courses. The DNP courses are offered in a distance delivery format in fall, spring, and summer sessions.

The post-baccalaureate DNP requires the completion of a minimum of 75 credit hours depending on the selected specialty track. The Family Nurse Practitioner (FNP) and Psychiatric-Mental Health Nurse Practitioner tracks require the completion of 75 credits, while students in the Adult/Gerontology track must complete 76 credits (students are not currently being admitted to this track). Students in all tracks must complete a minimum of 1000 practicum hours in order to earn the DNP degree. The majority of the practicum hours (approximately 660 hours) are spent learning the NP specialty role and the remaining 360 hours involve completion of a DNP project focused on improving an identified practice issue. Students are required to participate in a total of six or seven on-campus immersions (depending on their specialty track).

Admission Requirements:

At the time of application to the post-baccalaureate DNP program, the applicant also applies for admission to Gonzaga University. The applicant must have a bachelor’s degree from an accredited college or university, be licensed as a Registered Nurse, and submit one official transcript from each college, university, and/or nursing program attended. Students who are admitted without a bachelor’s degree in nursing may be required to take foundational nursing courses before completing graduate-level courses, e.g., statistics, research, and community health nursing. The decision to admit an applicant to the DNP program is based on consideration of the individual’s overall portfolio including:

1. A bachelor’s degree from an accredited college or university.
2. An unencumbered RN license from the state where practicum courses will be completed.
3. A minimum cumulative grade point average (GPA) from bachelor’s level courses of 3.3 on a 4.0 scale.
4. An official transcript from every college and university and/or nursing program attended (only courses from accredited institutions will be accepted).
5. Curriculum vitae (CV).
6. Three letters of recommendation. Two must be from a colleague/supervisor who is able to evaluate current competency in nursing and the candidate's potential for nursing practice at the most advanced level. Applicants are strongly encouraged to have one letter from a former college/university nursing professor who can attest to the candidate’s potential for academic success in a doctoral program.
7. A 500-word personal statement that addresses:
   a. The candidate’s reasons for pursuing a DNP degree at Gonzaga University and how the
      program will prepare the candidate to meet his/her professional goals.
   b. Experiences and background that have prepared the candidate to be successful while pursuing
      a doctoral degree.
   c. Interest in specific track within the DNP program (FNP or PMHNP)
   d. Clinical issue/problem to be addressed in a DNP project:
      i. A description of the identified clinical problem or issue and how it was identified
      ii. What change the applicant proposes to implement.
      iii. How the applicant envisions that improvement in the practice problem/clinical issue
          will make a difference in the quality of health and/or the healthcare system.

8. Applicants who do not meet the cumulative GPA requirement or have graduated from a competency-based program, must submit either MAT or GRE scores from within the last five years.

9. Non-native English speakers are required to provide proof of English proficiency. Gonzaga accepts the following:
   a. Score of 6.5 or better on the IELTS
   b. Official TOEFL score of at least 88 ibt or 580 pbt

10. All students must pass a national background check that will be completed upon acceptance into the program.

Degree Requirements:

Required Courses for All Post-Baccalaureate DNP Options: 50 credits
All of the core courses are offered online and must be completed for all of the specialty options.

Core: 6 credits
NURS 561  Information Technology and Data Management  3 credits
NURS 563  Evidence-Based Practice  3 credits

Nurse Practitioner Core: 10 credits
NURS 523  Advanced Pathophysiology  3 credits
NURS 524  Advanced Pharmacology  3 credits
NURS 600  Advanced Health Assessment  3 credits
NURS 601  Advanced Health Assessment Practicum  1 credit

DNP Courses: 34 credits (minimum)
NURS 700  Theoretical Foundations of Doctor of Nursing Practice  3 credits
NURS 701  DNP Practicum I: Application of Evidence-Based Practice  1-3 credits
NURS 702  DNP Practicum II: Application of Evidence-Based Practice  1-3 credits
NURS 703  DNP Practicum III: Application of Evidence-Based Practice  1-3 credits
NURS 704  DNP Practicum IV: Application of Evidence-Based Practice  1-3 credits
NURS 705  DNP Immersion  1 credit
NURS 708  Inferential Statistics  3 credits
NURS 710  Population-Focused Care  3 credits
NURS 720  Evidence Synthesis for Practice  3 credits
NURS 730  Clinical Program Development, Implementation, and Evaluation  3 credits
NURS 740  Quality Improvement, Information Management, and Leadership in Health Care  3 credits

NURS 750  Health Policy and Advocacy  3 credits

NURS 761  Integrative Application of Evidence for Advanced Practice Seminar I  2 credits

NURS 762  Integrative Application of Evidence for Advanced Practice Seminar II  2 credits

NURS 763  Integrative Application of Evidence for Advanced Practice Seminar III  1 credit

NURS 764  Integrative Application of Evidence for Advanced Practice Seminar IV  1 credit

**Family Nurse Practitioner (75 credits)**

This track prepares nurse practitioners to provide a holistic approach to primary care for individuals across the life span, from infants to older adults, and to manage a wide variety of acute and chronic health problems. FNPs typically practice in primary care settings, such as private practices, clinics, urgent care centers, and community health centers. Students in this track must complete a total of 75 credits to earn a DNP degree. The didactic courses are offered online. Students complete the required 1000 hours of practicum in their home communities working at a site and with a preceptor approved by faculty.

When students begin their practicum courses, they are required to participate in seven on-campus immersions. Six of the immersions are associated with the FNP practicum courses and emphasize health assessment, diagnostic reasoning, skill development, and the demonstration of competence in the NP role. These immersions are two days or more in length. An additional required immersion (DNP Immersion) focuses on the development of the scholarly DNP project proposal and expectations of individuals with a DNP degree.

Students residing in Washington, Idaho, Oregon, and Montana have at least one site visit from a clinical faculty during each FNP practicum course. Students living outside of this four-state region are required to arrange for an additional on-campus day in conjunction with one of the immersions during each practicum course in order to complete the faculty site visit requirement.

The completion of a DNP project that improves practice is also a requirement. At the completion of the program, students must take the FNP certification exam, which, if passed, makes them eligible for an advanced practice license.

**FNP Specialty Courses: 25 credits – must complete 10 credits of practicum**

NURS 651P  Primary Care: Gender-Based  2 credits

NURS 652P  Primary Care: Infant/Child/Adolescent  3 credits

NURS 653P  Primary Care: Adult/Geriatric I  4 credits

NURS 654P  Primary Care: Adult/Geriatric II  3 credits

NURS 661P  Primary Care Practicum: Gender-Based  1-3 credits

NURS 662P  Primary Care Practicum: Infant/Child/Adolescent  2-3 credits

NURS 663P  Primary Care Practicum: Adult/Geriatric I  2-4 credits

NURS 664P  Primary Care Practicum: Adult/Geriatric II  2-4 credits

NURS 683P  Primary Care Practicum Extension (if needed)  1 credit
Electives – Must take one 3 credit elective

NURS 670  Psychopharmacology  3 credits
NURS 671  Care of the Frail Elder  3 credits
NURS 672  Mental Health in Advanced Practice  3 credits

Psyciatric-Mental Health Nurse Practitioner (75 credits)

This track prepares nurse practitioners to care for individuals across the life span in need of mental health care and treatment. PMHNPs are prepared to provide psychotherapy and prescribed medications and other psychiatric treatment interventions. PMHNPs typically practice in primary care settings, such as private practices, mental health clinics, psychiatric hospitals, and community mental health centers. Students in this track must complete a total of 75 credits to earn a DNP degree. The didactic courses are offered online. Students complete the required 1000 hours of practicum in their home communities working at a site and with a preceptor approved by faculty.

When students begin their practicum courses, they are required to participate in six on-campus immersions. Five of the immersions are associated with the PMHNP practicum courses and emphasize health assessment, diagnostic reasoning, development of skill in behavioral therapy, and the demonstration of competence in the NP role. These immersions are two days or more in length. An additional required immersion (DNP Immersion) focuses on the development of the DNP project proposal and expectations of individuals with a DNP degree.

Students have a site visit from a clinical faculty during each of the three PMHNP practicum courses. The completion of a DNP project that improves practice is also a requirement. At the completion of the program, students must take the PMHNP certification exam, which, if passed, makes them eligible for an advanced practice license.

PMHNP Specialty Courses: 25 credits – must complete 10 credits of practicum

NURS 670  Psychopharmacology  3 credits
NURS 652M  Psychiatric-Mental Health Nursing Concepts I  3 credits
NURS 653M  Psychiatric-Mental Health Nursing Concepts II  3 credits
NURS 654M  Psychiatric-Mental Health Nursing Concepts III  3 credits
NURS 661M  PMHNP Practicum I  1-3 credits
NURS 662M  PMHNP Practicum II  2-4 credits
NURS 663M  PMHNP Practicum III  2-4 credits

Electives – Must take one 3 credit elective

NURS 671  Care of the Frail Elder  3 credits
NURS 672  Mental Health in Advanced Practice  3 credits

Adult/Gerontology Nurse Practitioner (76 credits)—not currently admitting students to this track

This track prepares nurse practitioners to care for young adults to frail elders. Adult/Gerontology NPs typically practice in primary care settings, such as private practices, clinics, nursing homes, and long-term care facilities. Students in this track must complete a total of 76 credits to earn a DNP degree. The didactic
courses are offered online. Students complete the required 1000 hours of practicum in their home communities working at a site and with a preceptor approved by faculty.

When students begin their practicum courses, they are required to participate in six on-campus immersions. Five of the immersions are associated with the A/GNP practicum courses and emphasize health assessment, diagnostic reasoning, skill development, and the demonstration of competence in the NP role. These immersions are two days or more in length. An additional required immersion (DNP Immersion) focuses on the development of the DNP project proposal and expectations of individuals with a DNP degree.

Students residing in Washington, Idaho, Oregon, and Montana have at least one site visit from a clinical faculty during each A/GNP practicum course. Students living outside of this four-state region are required to arrange for an additional on-campus day in conjunction with one of the immersions during each NP practicum course in order to complete the faculty site visit requirement.

The completion of a scholarly DNP project that improves practice is also a requirement. At the completion of the program, students must take the Adult-Gerontology Primary Care certification exam, which, if passed, makes them eligible for an advanced practice license.

**A/GNP Specialty Courses: 26 credits – must complete 10 credits of practicum**

- NURS 670 Psychopharmacology 3 credits
- NURS 653P Primary Care: Adult/Geriatric I 4 credits
- NURS 654P Primary Care: Adult/Geriatric II 3 credits
- NURS 663P Primary Care Practicum: Adult/Geriatric I 2-4 credits
- NURS 664P Primary Care Practicum: Adult/Geriatric II 2-4 credits
- NURS 665P Primary Care Practicum: Adult/Geriatric III 2-3 credits
- NURS 671 Care of the Frail Elder 3 credits
- NURS 672 Mental Health in Advanced Practice 3 credits
- NURS 683P Primary Care Practicum Extension 1 credit

**Post-Master’s DNP Option**

At the time of application to the DNP program, the applicant also applies for admission to Gonzaga University. This online program is available to Registered Nurses who have earned a master’s degree in a nursing specialty area as a clinical nurse specialist, nurse practitioner, certified nurse anesthetist, certified nurse midwife, or in nursing administration/leadership and want to advance their practice. The DNP courses are offered in a distance delivery format in fall, spring, and summer sessions.

The post-master's DNP requires the completion of a minimum of 31 credit hours. The total number of credits a student must take in order to complete degree requirements depends on the courses and practicum hours completed in the student's master's degree program. If an applicant was not required to complete an Evidence-Based Practice course or a Biostatistics or Inferential Statistics course during his or her master's degree program, these courses must be completed either prior to beginning the DNP program, or they can be taken at Gonzaga during the first semester of the DNP program. The number of practicum hours that each student must complete is individualized based on the number completed in the student's MSN program so that each student meets the required 1,000 practicum hours by program completion (including practicum hours from the student's master's program). This means that a student may need to complete 37 or more total credits.
The program requires one on-campus immersion. The student must participate in an immersion prior to enrolling in the first DNP practicum course. It is a 3-day orientation to the program and includes a discussion of expectations for practicum, the DNP project, composition of the DNP Project Committee, Institutional Review Board requirements, the proposal defense, and an introduction to faculty and their specific research interests.

The four practicum and seminar courses prepare the student to complete a scholarly DNP project that is aimed at improving some aspect of clinical or leadership practice, depending on the student’s focus, and expertise as either a nurse practitioner, clinical nurse specialist, or nurse administrator/health systems leader. The student has the option of presenting the defense of his or her DNP project proposal and the final defense of the completed DNP scholarly project to faculty and students either in person or electronically. The final version of the student’s DNP project is a publishable manuscript and an abstract that is submitted for either a podium or poster presentation at a major conference.

Admission Requirements

Registered Nurses who meet the following criteria are eligible to apply to the post-master’s Doctor of Nursing Practice option:

1. A master’s degree in nursing from a program accredited by the Commission on Collegiate Nursing Education (CCNE) or Accreditation Commission for Education in Nursing (ACEN) OR a graduate nurse anesthesia degree from a program accredited by the Council on Accreditation of Nurse Anesthesia Education Programs OR a graduate nurse-midwifery degree from a program accredited by the American College of Nurse Midwives Accreditation Commission for Midwifery Education. Students who will be completing a master’s degree during the semester when applications are due also are eligible to apply. Gonzaga does admit Canadian students into graduate nursing programs as long as they graduated from an approved Master of Science in Nursing program in Canada and provide official verification of registration as a Registered Nurse.

2. A cumulative grade point average (GPA) from master’s-level nursing courses of 3.3 on a 4.0 scale. If the GPA is below a 3.3, the applicant must include a statement explaining why the GPA is lower than required.

3. Official transcript posting MSN or MN degree with documentation of an Evidence Based Practice (EBP) course. If the student has not had an EBP course, he or she can still be fully admitted, but will be required to complete an EBP course during the first semester of DNP course work. Gonzaga offers this course and it is available online to DNP students.

4. Official transcript of a three semester-credit graduate-level inferential statistics or biostatistics course within the last five years with an earned grade of C or better. If the student has not had a statistics course, he or she can still be fully admitted, but will be required to complete a statistics course during the first semester of DNP course work. Gonzaga offers this course and it is available online to DNP students.

To be considered as an applicant for the post-master’s DNP option, the following application items are evaluated:

1. Curriculum vitae (CV).
2. Three letters of recommendations.
a. Two must be from a colleague/supervisor who is able to evaluate current competency in nursing and the candidate’s potential for nursing practice (clinical or leadership depending on the area of practice) at the most advanced level.

b. Applicants are strongly encouraged to have one letter from a former college/university nursing professor who can attest to the candidate’s potential for academic success in a doctoral program.

3. A 500-word personal statement that describes:
   a. The candidate’s reasons for pursuing a DNP at Gonzaga University and how the program will prepare the candidate to meet his/her professional goals.
   b. Experiences and background that have prepared the candidate to be successful while pursuing a doctoral degree.
   c. Clinical issue/problem to be addressed in a DNP project:
      i. A description of the identified clinical problem or issue and how it was identified
      ii. What change the applicant proposes to implement.
   d. How the applicant envisions that improvement in the practice problem/clinical issue will make a difference in the quality of our health and/or the healthcare system.

4. Official transcript(s) posting MSN or MN degree from granting institution or courses completed at time of application if has not yet completed degree. Graduate nurse anesthesia degrees or graduate nurse-midwifery degrees will be accepted for CRNA or CNM applicants respectively.

5. Copy of current unencumbered RN license.

6. Verification of practicum hours completed in MSN program.

7. In addition, nurse practitioner applicants must provide documentation of:
   a. Unencumbered license as an Advanced Practice Nurse (APN) in the state where practicum courses will be completed.
   b. Certification in the area of specialization.

Applicants who do not meet the cumulative GPA requirement or are graduates from competency-based programs must submit either MAT or GRE scores from within the last five years.

**Degree Requirements**

The DNP program requires completion of a minimum of 31 semester credits.

Course Descriptions:

**NURS 700 - Theoretical Foundation of Nurse Practice**
This course focuses on examining philosophical and scientific knowledge development in nursing practice and the implications for practice. Emphasis will be on the analysis, critique, and application of nursing middle-range and other related theories to nursing practice.

**Pre-requisites:** NURS 563 and NURS 708

**NURS 701 - DNP Practicum I: Application of Evidence-Based Practice**
This practicum course provides the student an opportunity to work within a practice setting to begin to design his or her scholarly project. The student also begins to establish the expanded advanced nursing DNP role focusing on a population of interest. The student is required to submit an individualized practicum proposal and objectives for the practicum experience.

**Co-requisites:** NURS 761

**Pre-requisites:** NURS 700

**NURS 702 - DNP Practicum II: Application of Evidence-Based Practice**
The DNP student works with a faculty mentor to begin implementation of his or her scholarly project. The student also establishes the expanded advanced nursing DNP role focusing on a population of interest. The student is required to submit an individualized practicum proposal and objectives for the practicum experience.

**Co-requisites:** NURS 762

**Pre-requisites:** NURS 701 and NURS 761

**NURS 703 - DNP Practicum III: Application of Evidence-Based Practice**
The DNP student continues to work with a faculty mentor to implement his or her scholarly project. This includes analysis of data and drafting a report of the scholarly project. The student is required to submit an individualized practicum proposal and objectives for the practicum experience.

**Co-requisites:** NURS 763

**Pre-requisites:** NURS 702 and NURS 762

**NURS 704 - DNP Practicum IV: Application of Evidence-Based Practice**
In this final practicum course, the DNP student completes the implementation and evaluation of his or her scholarly project. The student also completes the final written report of the project and disseminates the findings through preparation of a bound document or a manuscript suitable for a peer-reviewed publication.
along with an abstract that is submitted for a podium or poster presentation at a major conference. The student is required to submit an individualized practicum proposal and objectives for the practicum experience.

**Co-requisites:** NURS 764  
**Pre-requisites:** NURS 763 and NURS 703

**NURS 705 - DNP Immersion**  
credit: 1  
The on-campus 'immersion' must be completed by all DNP students within a semester or two prior to enrolling in NURS 701 and NURS 761. This course introduces students to Jesuit values and ethical decision-making. Students also learn about the DNP role, expectations, and the importance of crystallizing their ideas for their scholarly projects early in the program. Requirements for completion of an IRB application, guidelines for formation of a Scholarly Project Committee, the proposal and final defense processes, and steps to complete a scholarly project are emphasized. Students are oriented to library databases for distance students and creation of an electronic portfolio. They are introduced to the fundamentals of writing for publication and participate in an interactive session designed to bring focus to their scholarly projects.

**Pre-requisites:** NURS 700

**NURS 708 - Inferential Statistics**  
credits: 3  
The purpose of this course is to review statistical concepts, such as descriptive statistics, probability distributions (binomial and normal), sampling distributions, inferences (point estimates and confidence intervals), hypotheses testing (one-sample tests, two-sample tests), Analysis of Variance (ANOVA), as well as simple linear regression and multiple regression analysis. The course emphasizes the application of statistical concepts to analyze research for best available evidence to support quality nursing practice. The course also provides students with hands-on experience in using statistical software (Mega Stat) to assist in making effective decisions.

**NURS 710 - Population-Focused Care**  
credits: 3  
This course focuses on developing and evaluating health promotion and disease prevention interventions targeting population-based health. The environmental, socioeconomic, and cultural context of health behaviors will be explored. The use of epidemiology and evidence-based research to inform clinical prevention programs and policy solutions for population health disparities are emphasized.

**NURS 720 - Evidence Synthesis for Practice**  
credits: 3  
This course emphasizes how to create answerable questions relevant to the role of Doctor of Nursing Practice (DNP) to address specific patient/client problems or situations and critically appraise types of data generated through research in both qualitative and quantitative traditions. The focus is on evaluating the adequacy of research questions, methodologies, and the presentation of findings. The DNP will be prepared to use epidemiological data to identify the causes of disease and to evaluate health services. In addition, the course emphasizes an examination of knowledge transformation, including the systematic search for research evidence to answer research questions and the synthesis of evidence for knowledge translation across a body of research.

**NURS 730 - Clinical Program Development, Implementation, and Evaluation**  
credits: 3  
This course emphasizes the steps involved in the development of a business plan for creation of a new clinical service or program or a clinical practice. Students will learn about conducting a needs assessment, developing mission and values statements, creating the program design, conducting a financial analysis, and designing evaluation strategies and measures.

**NURS 740 - Quality Improvement, Information Management, and Leadership in HealthCare**  
credits: 3  
This course emphasizes strategic planning and management, systems and organizational theories, quality improvement, and information management. It acquaints students with the process, tools and techniques of strategic planning that will enable them to manage patient populations and to contribute effectively to strategic thinking and action in health systems. The course focuses on leadership and the process of health care delivery from a systems perspective, emphasizing continuous process improvement as crucial to achieving high quality outcomes.

**Equivalent:** DNAP 740
NURS 750 - Health Policy and Advocacy  
This course focuses on the leadership role of the DNP in influencing health policy makers and health policy development emphasizing interprofessional collaboration. The effect of nursing scholarship on health policy and advocacy will be explored. The regulatory and ethical environments that impact DNP practice are examined considering Ignatian values and social justice principles. Strategies for designing and leading the implementation of public, professional, and institutional polices relating to local, regional, national, and international health care and its delivery are considered.

NURS 761 - Integrated Application of Evidence Seminar I  
This is the first of a series of four seminars that provide the DNP student with mentored opportunities to identify a practice issue and develop, implement, evaluate, and disseminate an independent, analytic, scholarly project focusing on problems of advanced nursing practice within specific populations. Each seminar course builds on the knowledge and practice expertise of the DNP student, culminating in the completion of a scholarly project. The range of projects will be varied as they relate to the DNP student’s unique area of nursing, e.g., quality improvement, analyzing policy, designing and using databases, designing and evaluating new models of care, collaboration with researchers to answer clinical questions, program development, implementation, and evaluation. The student also examines the DNP role in relation to clinical scholarship and leadership.

Co-requisites: NURS 701  
Pre-requisites: NURS 700

NURS 762 - Integrated Application of Evidence Seminar II  
The DNP student refines the design of his or her scholarly project, including the data collection and evaluation plans. Students must successfully complete an oral defense of the planned project prior to beginning implementation.

Co-requisites: NURS 702  
Pre-requisites: NURS 701 and NURS 761

NURS 763 - Integrated Application of Evidence Seminar III  
The DNP student continues to refine the evidence-based scholarly project specific to a population of interest within a practice setting.

Co-requisites: NURS 703  
Pre-requisites: NURS 702 and NURS 762

NURS 764 - Integrated Application of Evidence Seminar IV  
In this final seminar course, the student will present the final defense of his or her scholarly project through an oral presentation that addresses the topic of interest, the development and implementation of the project, how it addressed the needs of a selected population, and an evaluation of the project and outcomes. Students will apply knowledge and skills obtained in the didactic and integrative courses to address the ethical, legal, financial and organizational aspects of the scholarly project.

Co-requisites: NURS 704  
Pre-requisites: NURS 703 and NURS 763

NURS 790 - Special Topics  
Courses designed to address special topics in nursing, based on student and faculty interests.

NURS 792 - Independent Study  
Independent study requires completion of a form, and department permission and cannot be registered for via ZAGWEB. (Cannot be used to fulfill elective requirement).
Doctor of Anesthesia Practice

Chairperson: Scot Pettey, CRNA, DNAP
Program Director: Scot Pettey, CRNA, DNAP
Assistant Program Director: Brad Hemingway, CRNA, MSNA
Clinical Director: John Weisbrod, CRNA, MAE

Introduction

The Doctor of Nurse Anesthesia Practice is designed for the registered nurse who wishes to assume a leadership role within the profession of nurse anesthesia. In addition to preparing students to be competent, skilled nurse anesthesia practitioners, it is the mission of the program to nurture and develop innovative, creative leaders for the advancement of the profession. The DNAP degree is a practice doctorate which provides the DNAP students with robust clinical experiences gained throughout over 3000 clinical hours during the program. The Nurse Anesthesia Program is an integrated program, the first semester is primarily didactic, with clinical rotations beginning in the second semester and increasing in frequency throughout the program.

Graduates of Gonzaga's DNAP program will receive a evidence-based experience blending anesthesia clinical practice with leadership strategies. The curriculum of Gonzaga’s DNAP program will build on the extensive education of program participants. In addition to learning the practice of nurse anesthesia, candidates should be prepared to engage in systems thinking to solve complex problems, translate evidence to improve health care practices and population health, lead quality improvement and change initiatives, and demonstrate effective intraprofessional collaboration in the nurse anesthesia field.

The DNAP Program is jointly owned and operated by Providence Sacred Heart Medical Center (dba Providence Health Care) and Gonzaga University. Gonzaga DNAP students will benefit from a long-standing partnership with Providence Health Services. Clinical rotations include Providence Sacred Heart Medical Center and Children’s Hospital, Holy Family Hospital, Mann-Grandstaff Veteran’s Medical Center, Pullman Regional Hospital and Anaconda Community Hospital as well as other local and regional affiliations to provide all DNAP candidates’ clinical hours and experience.

Admission Requirements:

1. A current unencumbered license as a registered professional nurse and/or an APRN/ARNP in the United States or its territories or protectorates and be able to obtain a Washington State RN license.
2. A baccalaureate or graduate degree in nursing or an appropriate major, from an accredited university.
3. Seven (7) life science courses. Some examples include, but are not limited to: chemistry, biochemistry, biology, microbiology, physiology, pathophysiology, and anatomy.
4. 2 years of RN experience with a minimum of one-year full-time work experience, or its part-time equivalent, as a registered nurse in a critical care setting at the time of interview. The best critical care experience is obtained in a busy ICU, CICU, MICU, or SICU. The competencies desired are routine management of adult patients on ventilators, interpreting of advanced monitoring techniques and titration of vasoactive medications. Critical care experience must be within the past 3 years.
5. The Council on Accreditation of Nurse Anesthesia Programs defines critical care experience as:
6. "Critical care experience must be obtained in a critical care area within the United States, its territories or a US military hospital outside of the United States. During this experience, the registered professional nurse has developed critical decision making and psychomotor skills, competency in patient assessment, and the ability to use and interpret advanced monitoring techniques. A critical care area is defined as one where, on a routine basis, the registered professional nurse manages one or more of the following: invasive hemodynamic monitors (e.g., pulmonary artery, central venous pressure, and arterial catheters), cardiac assist devices, mechanical ventilation, and vasoactive infusions. Examples of critical care units may include but are not limited to: surgical intensive care, cardiothoracic intensive care, coronary intensive care, medical intensive care, pediatric intensive care, and neonatal intensive care."

7. Minimum (3.2 preferred) overall grade point average with strong science grades.

8. CCRN certification is required and documentation is submitted as part of application.

9. Recommended minimum 24 hours cumulative shadowing time with an anesthesia provider. (Submission of a document listing contact information of anesthesia provider(s) with whom you’ve shadowed, including the date, location and total number of hours, will be included with application.)

10. Personal interviews with members of the admissions committee by invitation only.

Application Requirements:

1. Documentation of an earned bachelor’s degree from an accredited college or university.
2. One official transcript from every college, university and nursing school attended
3. Three letters of recommendation are required
   a. One recommendation must be from applicant’s immediate supervisor who is able to evaluate professional practice, leadership, interpersonal skills, communication, critical thinking and judgment.
   b. The other two recommendations should be from professional colleagues who can evaluate the applicant’s professional practice, leadership, interpersonal skills, communication, critical thinking and judgment.
4. Submission of current Registered Nurse license.
5. Current professional curriculum vitae.
6. Typewritten statement describing:
   a. Interest in Gonzaga’s DNAP program and what he/she hopes to gain from the degree
   b. Professional goals
   c. Strengths
   d. Professional experiences and how those experiences have prepared the applicant for the DNAP program.
7. Evidence of CCRN Certification.
8. Shadowing experience containing contact information of anesthesia provider(s) with whom you've shadowed, including the date, location and total number of hours is documented in the application.
9. $50 Application Fee
10. The last day to have a complete application for the DNAP program is September 1st with classes beginning the following May.
Program Expectations:

1. Attendance is required in all clinical and didactic courses.
2. Hours of Duty
   During the first semester of school, classes may be scheduled between 7:00 a.m. and 5:00 p.m. Evening classes or seminars are occasionally held. After the first semester, clinical duty begins at 6:00 a.m. During the second and third years of the program, students rotate to 3p-11p, 7a-7p, 7p-7a, as well as Saturday and Sunday 12 hour rotations.
3. Academic Performance
   The DNAP Program has program-specific grading policies. All courses must be completed with a 3.0 or higher grade. If a student earns a grade below a 3.0 in any course, he/she will be placed on probation. Subsequent or additional grades below a 3.0 are grounds for dismissal from the Nurse Anesthesia Program. Appeals will be in accordance with the Nurse Anesthesia Program appeal policy located in the DNAP Student Handbook, grade remediation in accordance with individual instructors grading policies.

Degree Requirements: 88 credits (3,342 clinical hours)

1st Semester - Summer
DNAP 701  Basic Principles of Anesthesia I  3 credits
DNAP 711  Anatomy and Advanced Physiology I  3 credits
DNAP 721  Advanced Pharmacology I  3 credits
DNAP 731  Advanced Health Assessment  3 credits

2nd Semester - Fall
DNAP 702  Basic Principles of Anesthesia II  3 credits
DNAP 712  Anatomy and Advanced Physiology II  3 credits
DNAP 722  Advanced Pharmacology II  4 credits
DNAP 781  Clinical Practicum: I (108 clinical hours)  1 credit

3rd Semester - Spring
DNAP 703  Advanced Principles of Anesthesia – Regional Anesthesia  3 credits
DNAP 713  Advanced Pathophysiology  3 credits
DNAP 723  Advanced Pharmacology III  3 credits
DNAP 741  Chemistry and Physics of Anesthesia  2 credits
DNAP 782  Clinical Practicum: II (390 clinical hours)  2 credits

4th Semester - Summer
DNAP 704  Advanced Principles: Obstetric Anesthesia  3 credits
DNAP 755  Medical Ethics  3 credits
DNAP 761  Evidence-Based Practice in Anesthesia  3 credits
DNAP 783  Clinical Practicum: III (480 clinical hours)  2 credits

5th Semester - Fall
DNAP 705  Advanced Principles: Pediatric and Neonatal Anesthesia  3 credits
DNAP 754  Culture, Diversity and Health Care Policy  3 credits
DNAP 762  Research Methods and Design and Data Analysis  3 credits
DNAP 784  Clinical Practicum: IV (480 clinical hours)  2 credits

**Course Descriptions:**

**DNAP 701 - Basic Principles Anesthesia I**

| credits: 3 |
| This course assists the doctoral candidate in learning the methods, techniques, and agents involved in general anesthesia. Specific types of anesthetic equipment are demonstrated. The course includes pre- and post-anesthetic assessment of the patient, drugs that augment anesthesia, common complications related to anesthesia, and the importance of initiating and maintaining the patient’s anesthesia record during surgery. |

**Restrictions:**

Must be in the following field(s) of study: Nurse Anesthesia Practice

**DNAP 702 - Basic Principles Anesthesia II**

| credits: 3 |
| This course is a continuation of DNAP 701 and will enhance the doctoral candidate’s knowledge of pre- and post-anesthetic assessment of the patient, drugs that augment anesthesia, and common complications related to anesthesia. Throughout the course, the candidate will have a variety of experiences learning the administration of anesthesia. |

**Restrictions:**

Must be in the following field(s) of study: Nurse Anesthesia Practice

**Pre-requisites:** DNAP 701 minimum grade: B

**DNAP 703 - Advanced Principles of Anesthesia- Regional**

| credits: 3 |
| This course will introduce the doctoral candidate to the theory, methods, techniques, anatomy, and agents involved in regional anesthesia. Students will be instructed in the science and administration of neuraxial and peripheral regional anesthesia. Instructions on the use, strategies and science of ultrasound will also be
Restrictions:
Must be in the following field(s) of study: Nurse Anesthesia Practice

Co-requisites: DNAP 782
Pre-requisites: DNAP 702 minimum grade: B

DNAP 704 - Advanced Principles: Obstetric Anesthesia
This course will introduce the doctoral student to anesthesia for the obstetric patient. This course presents epidural anesthesia theory in preparation for the practicum, focuses on anesthesia for routine and complicated obstetric and neonatal patients, and begins the study of clinical anesthesia for neonatal patients as well as for routine and high-risk patients.

Restrictions:
Must be in the following field(s) of study: Nurse Anesthesia Practice
Pre-requisites: DNAP 703 minimum grade: B

DNAP 705 - Advanced Principles: Pediatric and Neonatal Anesthesia
This course will provide the study of principles of pediatric anesthesia including anesthesia for the healthy child and for children with disease states. This course focuses on the study of clinical anesthesia for routine and high-risk care of pediatric patients from neonate through adolescent. Pharmacology, physiology, pathophysiology and anatomic considerations unique to the pediatric patient will be emphasized.

Restrictions:
Must be in the following field(s) of study: Nurse Anesthesia Practice
Co-requisites: DNAP 784
Pre-requisites: DNAP 704 minimum grade: B

DNAP 706 - Advanced Principles: Neurosurgery and Thoracic Anesthesia
This course will introduce the doctoral student to anesthesia for neurosurgical and thoracic (non-cardiac) procedures. Common pathophysiology and conditions associated with these procedures is the focus of study. Invasive monitoring, use of vasoactive drugs, and case studies complete the course.

Restrictions:
Must be in the following field(s) of study: Nurse Anesthesia Practice
Co-requisites: DNAP 785
Pre-requisites: DNAP 705 minimum grade: B

DNAP 707 - Advanced Principles: Cardiac and Vascular Anesthesia
This course will introduce the doctoral student to anesthesia for peripheral and central vascular procedures, noninvasive cardiac procedures, and open heart procedures. Common pathophysiology and conditions associated with these procedures is the focus of study.

Restrictions:
Must be in the following field(s) of study: Nurse Anesthesia Practice
Co-requisites: DNAP 786
Pre-requisites: DNAP 706 minimum grade: B

DNAP 708 - Advanced Principles: Acute and Chronic Pain Management
This course will provide the doctoral student with an introduction to the management of acute and chronic pain. The doctoral student will assess and evaluate patients experiencing chronic pain, and develop a plan of care specific to the patients’ situations. Acute and chronic pain treatment options, origins, physiological and
psychological effects on the patient will be introduced.

Restrictions:
Must be in the following field(s) of study: Nurse Anesthesia Practice

Co-requisites: DNAP 787

Pre-requisites: DNAP 707 minimum grade: B

DNAP 709 - Advanced Principles of Anesthesia: Integration
This course will prepare the graduating doctoral student for practice as a CRNA by integrating pharmacology, physiology, pathophysiology, principles of anesthesia, experience in clinical practicum, and legal and professional issues in a case management seminar format.

Restrictions:
Must be in the following field(s) of study: Nurse Anesthesia Practice

Co-requisites: DNAP 788 minimum grade: B

DNAP 711 - Anatomy and Advanced Physiology I
Cellular and system physiology as it applies to anesthesia practice offered first semester of the DNAP program.

Restrictions:
Must be in the following field(s) of study: Nurse Anesthesia Practice

DNAP 712 - Anatomy and Physiology II
Cellular and system physiology as it applies to anesthesia practice.

Restrictions:
Must be in the following field(s) of study: Nurse Anesthesia Practice

Pre-requisites: DNAP 711 and DNAP 701

DNAP 713 - Advanced Pathophysiology
This course will present common and uncommon disease processes encountered in the anesthetic settings across the lifespan. The participant will gain a better understanding of the general concepts of the disease, including etiology, pathogenesis, treatment strategies and anesthetic implications. These concepts are applied in a systems-oriented approach to disease processes affecting musculoskeletal, cardiopulmonary, renal, nervous, gastrointestinal, immune, hematological and endocrine systems. By the end of the course, students should be able to understand the relation between the symptoms and disease process.

Restrictions:
Must be in the following field(s) of study: Nurse Anesthesia Practice

DNAP 721 - Advanced Pharmacology I
This course covers the fundamentals of blood, respiratory, and pharmaceutical chemistries and the principles of general anesthesia and pharmacology including all pharmaceutical agents used for these purposes and their application in diseased state.

Restrictions:
Must be in the following field(s) of study: Nurse Anesthesia Practice

DNAP 722 - Advanced Pharmacology II
This course is a continuation of DNAP 721 and involves the doctoral candidate in a deeper study of blood, respiratory and pharmaceutical chemistries and the principles of general anesthesia and pharmacology including all pharmaceutical agents used for these purposes and their application in diseased state with regard to surgical cases.

Restrictions:
Must be in the following field(s) of study: Nurse Anesthesia Practice

Pre-requisites: DNAP 721 minimum grade: B
DNAP 723 - Advanced Pharmacology III  
This course, a continuation of DNAP 722, is the last of three courses in this series. It involves the doctoral candidate in an extensive study of blood, respiratory, and pharmaceutical chemistries and the principles of general anesthesia and pharmacology including all pharmaceutical agents used for these purposes and their application in diseased state with regard to surgical cases.

Restrictions:
Must be in the following field(s) of study: Nurse Anesthesia Practice
Pre-requisites: DNAP 722 minimum grade: B

DNAP 731 - Advanced Health Assessment  
This course will prepare the doctoral student to complete a focused history and physical assessment of patients on whom they will administer anesthesia. The body systems assessments that are emphasized are cardiac, respiratory, renal, hepatic, and neurological. An overview of the other systems is included. The student will learn focused history and review of symptoms relative to the proposed procedure and anesthesia management.

Restrictions:
Must be in the following field(s) of study: Nurse Anesthesia Practice

DNAP 740 - Quality Improvement, Information Management, and Leadership in Healthcare  
This course emphasizes strategic planning and management, systems and organizational theories, quality improvement, and information management. It acquaints students with the process, tools and techniques of strategic planning that will enable them to manage patient populations and to contribute effectively to strategic thinking and action in health systems. The course focuses on leadership and the process of health care delivery from a systems perspective, emphasizing continuous process improvement as crucial to achieving high quality outcomes.

Equivalent: NURS 740

DNAP 741 - Chemistry and Physics in Anesthesia  
This course will introduce the doctoral student to the principles of physics as applied specifically to anesthesiology. Included is a review of biomedical instrumentation pertinent to anesthesia, application of the gas laws, and review of principles of uptake and distribution from the perspective of physics.

Restrictions:
Must be in the following field(s) of study: Nurse Anesthesia Practice

DNAP 742 - Crisis Management in Anesthesia  
This course will introduce the doctoral student to the principles of crisis management in anesthesia, through a serious of case studies and use of high fidelity simulation. Students will be given didactic instruction in dynamic decision-making, human performance issues, and in the principles of anesthesia crisis resource management. Students will be presented with a serious of simulated crisis cases and debriefings covering critical events in anesthesia such as cardiovascular, pulmonary, equipment, obstetric, pediatric and pathophysiologic events.

Restrictions:
Must be in the following field(s) of study: Nurse Anesthesia Practice

DNAP 754 - Culture, Diversity and Health Care Policy  
Candidates will develop cultural competencies that will help them work more effectively in their professional settings. The course will identify the issues that underlie health care policy development as well as the economic systems that support the financing of health care services in the United States. This course will provide doctoral candidates with the skills to analyze, advocate, and implement health care policy in
organizations, communities, and educational environments.

Restrictions:
Must be in the following field(s) of study: Nurse Anesthesia Practice

DNAP 755 - Medical Ethics credits: 3
The course will highlight the function of values clarification in ethical analysis, identify recurrent medical-ethical entanglements impacting the delivery of care, comprehensively detail the major principles of health care ethics, and suggest a manner of their employment to enhance the process of decision-making. Attempting to provide students with the tools requisite to negotiate more effectively the health care system in general, either professionally or personally.

Restrictions:
Must be in the following field(s) of study: Nurse Anesthesia Practice

DNAP 756 - Law and Business for Anesthesia credits: 3
This course examines health care economics and the business of clinical practice as they relate to the delivery of quality health care services, both generally and in the CRNA profession. Doctoral candidates will analyze the driving forces of economics, heath policy, quality improvement, and standards of care in the delivery of health care services in general, and anesthesiology in particular, to maximize health outcomes. Candidates will study economic concepts and business models to critically appraise an anesthesia business issue, design strategies to improve clinical outcomes, and evaluate the achievement of the improvement goals, which will include outcome, safety, fiscal principles, efficiency, and quality. This course also examines health care law and legal issues as they relate to the delivery of quality health care services, both generally and in the CRNA profession. Doctoral candidates will compare civil and criminal law from the anesthesia perspective, tracing an anesthesia lawsuit through the legal system. The nurse practice act related to anesthesia practice and practice options will be emphasized.

Restrictions:
Must be in the following field(s) of study: Nurse Anesthesia Practice

DNAP 758 - Certifying Exam Preparation credit: 0
Doctoral students will either attend a Certifying Exam Review Course or purchase review course materials to be used for exam preparation, ie, Prodigy, Apex or Valley Review.

Restrictions:
Must be in the following field(s) of study: Nurse Anesthesia Practice

DNAP 761 - Evidence Based Practice in Anesthesia credits: 2
This course focuses on the evidence-based practice process and the knowledge and skills that are necessary for the translation of professionally accepted evidence into the advanced clinical practice of anesthesia. Doctoral candidates will compare and contrast various forms of scientific evidence with an emphasis on research technique, instrumentation, study design, and theories that are relevant for advanced clinical practice. This course will also emphasize the critical appraisal skills necessary to ensure meaningful translation of scientific evidence into professional practice in order to ensure the highest quality of patient care and optimal outcomes. This course provides the doctoral candidate the opportunity to integrate evidence-based literature and principles in anesthesia to teach and precept other adults in healthcare settings within the context of professional leadership.

Restrictions:
Must be in the following field(s) of study: Nurse Anesthesia Practice

Pre-requisites: DNAP 731 minimum grade: B

DNAP 762 - Research Methods, Design and Data Analysis credits: 3
This course is designed to help candidates understand the research process through the development of a research proposal including selecting a topic, reviewing the relevant literature, choosing an appropriate
collection methodology, and determining the appropriate method to analyze the data.

**Restrictions:**
Must be in the following field(s) of study: Nurse Anesthesia Practice

**Co-requisites:** DNAP 754

**DNAP 763 - Capstone I: Project Design**
The DNAP program culminates in the successful completion of a scholarly project that demonstrates a synthesis of the doctoral candidate's work and lays the groundwork for future scholarship and contribution to the profession. The candidate will engage in scholarly inquiry to analyze, evaluate, or transform a relevant aspect of clinical practice. The focus of this first Capstone course is the analysis of applicable data, which the candidate will design the project in collaboration with the instructor of the research course and the program directors, along with appropriate faculty and clinical preceptors.

**Restrictions:**
Must be in the following field(s) of study: Nurse Anesthesia Practice

**Pre-requisites:** DNAP 762 minimum grade: B

**DNAP 764 - Capstone II: Project Development**
This course is a continuation of DNAP 763 Capstone I. The focus of this Capstone course is the development of the project. The candidate will develop the doctoral project in collaboration with the instructor of the research course and the program directors, along with appropriate faculty and clinical preceptors.

**Restrictions:**
Must be in the following field(s) of study: Nurse Anesthesia Practice

**Pre-requisites:** DNAP 763 minimum grade: B

**DNAP 765 - Capstone III: Project Implementation**
This course is a continuation of DNAP 763 Capstone I and DNAP 764 Capstone II. The focus of this Capstone course is the actual implementation of the project. The candidate will implement the doctoral project in collaboration with the instructor of the research course and the program directors, along with appropriate faculty and clinical preceptors.

**Restrictions:**
Must be in the following field(s) of study: Nurse Anesthesia Practice

**Pre-requisites:** DNAP 764 minimum grade: B

**DNAP 769 - Oral Exam**
The oral exam meeting is the final, formal interaction among the doctoral candidate, the program directors, and the anesthesiologist liaison. The oral exam is a time for the candidate to share reflections and to articulate the level of integration of the knowledge, skills, and dispositions gained as a member of the doctoral program. The oral exam consists of three areas of focus: the research project, the integration of anesthesia professional practice and leadership, and clinical practice. In the research and integration portions of the exam, the questions asked are of a comprehensive nature, rather than the specifics of any particular course. In the clinical portion of the exam, the questions are clinically case-based and range from focused to comprehensive. The Oral Comprehensives are scheduled at the conclusion of the program and last approximately one hour per person. Successful completion will result in the awarding of the degree Doctor of Nurse Anesthesia Practice.

**DNAP 781 - Clinical Practicum: I**
In this practicum, the doctoral candidate will learn the actual administration of anesthesia under the supervision of certified registered nurse anesthetists and physician anesthesiologists. Pre-operative and post-operative assessment of the patient is made by the candidate. The candidate is responsible for selecting the appropriate anesthetic, administering needed
pharmaceutical agents, and maintaining homeostasis during general surgical procedures. Monitoring, positioning, and recovery are stressed.

**Restrictions:**
Must be in the following field(s) of study: Nurse Anesthesia Practice

**DNAP 782 - Clinical Practicum: II**
This course is a continuation of DNAP 781. Doctoral candidates rotate through general surgery, special procedures, basic vascular surgery, and basic neurosurgery.

**Restrictions:**
Must be in the following field(s) of study: Nurse Anesthesia Practice

**Pre-requisites:** DNAP 781 minimum grade: S

**DNAP 783 - Clinical Practicum: III**
This course is a continuation of DNAP 782. Doctoral candidates rotate through vascular surgery, neurosurgery, and evening trauma rotations, in addition to general practice.

**Restrictions:**
Must be in the following field(s) of study: Nurse Anesthesia Practice

**Pre-requisites:** DNAP 781 minimum grade: S

**DNAP 784 - Clinical Practicum: IV**
This course provides for the clinical application of knowledge and skills learned in the study of obstetric anesthesia, and builds upon previous clinical rotations. 30 hours per week for a total of 480 clinical hours.

**Restrictions:**
Must be in the following field(s) of study: Nurse Anesthesia Practice

**Co-requisites:** DNAP 705

**Pre-requisites:** DNAP 783 minimum grade: S

**DNAP 785 - Clinical Practicum: V**
This course will provide the clinical application of knowledge and skills learned in DNAP 706 Neurosurgical and Thoracic anesthesia. Doctoral students will be assigned to these cases as part of their clinical rotations, from this semester forward. Other rotations will include pediatrics, obstetrics, general surgery, and out-of-area rotations. 30 hours per week, total 450 clinical hours.

**Restrictions:**
Must be in the following field(s) of study: Nurse Anesthesia Practice

**Co-requisites:** DNAP 706

**Pre-requisites:** DNAP 784 minimum grade: S

**DNAP 786 - Clinical Practicum: VI**
This course will provide the third-year clinical practicum rotations for doctoral students and will include assignments in general surgery for adult and pediatric patients, neurosurgery, thoracic, vascular, obstetrics, and out-of-area anesthesia services. This rotation includes assignments to the 3-11 and Saturday shifts. 30 hours per week, total 450 clinical hours.

**Restrictions:**
Must be in the following field(s) of study: Nurse Anesthesia Practice

**Co-requisites:** DNAP 707

**Pre-requisites:** DNAP 785 minimum grade: S

**DNAP 787 - Clinical Practicum: VII**
This course will provide the doctoral student with a one-week rotation to a chronic pain management clinic or setting. The student will participate in evaluation of patients, adjunctive therapy decision making, and assist/perform regional anesthesia for chronic pain management via one 36-hour clinical rotation during the last 12 months of the program. This course will provide the third-year clinical practicum rotations for doctoral students and will include assignments in general surgery for adult and pediatric patients, neurosurgery,
thoracic, vascular, cardiac, obstetrics, and out-of-area anesthesia services. This rotation includes assignments to the 3-11 and Weekend shifts. 28 hours per week for a total of 476 clinical hours.

**Restrictions:**
Must be in the following field(s) of study: Nurse Anesthesia Practice

**Co-requisites:** DNAP 708

**Pre-requisites:** DNAP 786 minimum grade: S

**DNAP 788 - Clinical Practicum: VIII**

This course will provide the third-year clinical practicum rotations for doctoral students and will include assignments in general surgery for adult and pediatric patients, neurosurgery, thoracic, vascular, cardiac, obstetrics, and out-of-area anesthesia services. This rotation includes assignments to the 3-11 and Weekend shifts and one week of 7p-7a obstetric/house assignment. 36 clinical hours per week, for a total of 504 clinical hours.

**Restrictions:**
Must be in the following field(s) of study: Nurse Anesthesia Practice

**Co-requisites:** DNAP 709

**Pre-requisites:** DNAP 787 minimum grade: S
School of Professional Studies

Interim Dean: Jolanta Weber

Mission
The School of Professional Studies strives to create, educate, and support leaders; contribute to the health of people, communities, and organizations; and to be of service in meeting the learning needs of a complex society.

Our programs embody the University’s Mission and the Ignatian spirit on which Gonzaga University is founded. Ethics, excellence, spirit, and community are guiding values for all aspects of the School. Faculty scholarship and research contribute positively to the professions, the global community, and the classroom.

Through a spirit of inquiry and lifelong learning, our students expand their capacity to transform thinking, and engage in ethical problem solving and decision making. New knowledge is acquired in a learning environment of respect and high standards.

Degree Programs in the School of Professional Studies

- Doctoral Program in Leadership Studies (Ph.D.)
- M.A. Communication and Leadership Studies
- M.A. Organizational Leadership

Master of Arts in Communication and Leadership Studies

Chairperson: Michael Hazel
Professor and Walter Ong, S.J. Scholar: J. Caputo
Associate Professor: H. Crandall, C. Cunningham, M. Hazel
Assistant Professors: P. Shlossberg

The Master of Arts in Communication and Leadership Studies is designed to provide graduate-level expertise for solving communication problems in modern organizations and social systems from a communication and leadership perspective, and prepare effective, ethical communicators who use critical thinking for positive local and global change. By their very nature, organizations depend upon complex formal and informal communication functions for effective operation in increasingly technologically based, communication networks. What distinguishes the 21st century from the 20th is the unprecedented degree to which communication and information technology enable creation of active networks linking individuals, functions and organizations. The program is grounded in scientific and humanistic theory and methodology, global
communication and ethics, and is relevant for those seeking leadership in corporate communications, public relations, media management, media criticism, human resources, marketing, strategic planners, training and consulting, media literacy, community college teaching or Ph.D. work in communication.

The degree builds upon the historic tradition of rhetoric as the cornerstone of a Jesuit education and lays the groundwork for high leverage knowledge and skills in communication and leadership in today’s complex world. This program combines relevant theories and experiential learning applicable to the latest workplace developments.

The Communication and Leadership Studies master’s degree is designed to meet the needs and schedules of working adults as well as continuing students from undergraduate programs. Flexible scheduling, evening, and Internet courses are offered. The program consists of 30 credits. One residency course, COML 517, is required.

Distinctive features of the M.A. in Communication and Leadership Studies are: a unique blend of communication and leadership theory, the Center for Media Literacy Excellence, a range of visiting scholars and professionals who visit to discuss cutting-edge work in communication and leadership, intensive periods where workshops are held to develop practical communication skills in speaking, writing and multi-media design, internship and service-learning possibilities for students who need practical experience, and possible foreign study for students to gain global media and communication experience.

Admissions

Each applicant must submit a complete packet containing the following materials to the Department of Communication and Leadership Studies:

1. A completed application form (see appendix for inquiry form) and a non-refundable fee.
2. A written statement from the applicant which:
   3. describes the applicant’s own interest in the Communication and Leadership Studies degree.
   4. assesses the applicant’s strengths and describes the applicant hopes to gain from a graduate degree.
5. One letter of recommendation from faculty in the undergraduate major, which evaluate the applicant’s ability and capacity to complete a graduate degree.
6. Official transcripts from each college and university attended (international applicants must submit foreign transcripts in the original language and an English copy). Only degrees and courses from a regionally accredited institution will be accepted.
7. The official score from the GRE general aptitude test or the Miller Analogies Test, a requirement which can be waived if the applicant has an advanced degree or an undergraduate GPA of 3.0 or above.
8. Submission of an official TOEFL score of at least 550 by each international applicant who has graduated from a foreign college or university whose native language is not English.
9. Submission of a financial declaration and supporting documentation by each international applicant.

Pre-requisite

A bachelor’s degree from an accredited college or university is required.
Program Outline: 30 credits

12 credits in Core Theory and Practice Courses
12 credits in Communication (COML) and/or Organizational Leadership (ORGL) Electives
6 credits in Research and Project or Thesis Capstone

Core Courses (18 credits required)

- COML 595  Theorizing Communication  3 credits
- COML 596  Masters Level Writing  0 credits
- COML 597  Communication and Leadership Ethics  3 credits
- COML 598  International and Intercultural Communication  3 credits
- COML 599  Communication Practicum  3 credits
- COML 601  Applied Communication Research  3 credits
- COML 602  Communication and Leadership Capstone Seminar (content specific to chosen concentration)  3 credits

College Teaching of Communication

- COML 510  Communication Teaching and Pedagogy  3 credits
- COML 520  Internship  3 credits

One of the following courses:

- COML 509  Social Dynamics of Communication Technology  3 credits
- COML 514  Advanced Criticism  3 credits
- COML 515  Interpersonal and Small Group Communication  3 credits
- COML 516  Media Literacy  3 credits
- COML/ORGL  Study Abroad Courses

Global Leadership Concentration: 12 credits

- ORGL 570: Introduction to Global Systems  3 credits

Study Abroad or Internship:

- ORGL 690: Development Communication  3 credits

Two of the following elective courses:

- ORGL 517: Organizational Change and Transformation  6 credits
- ORGL 518: Transforming Leadership
- ORGL 520: Conflict Resolution
- ORGL 535: Listen, Discern, and Decide
- ORGL 689: Leadership & Hardiness
- ORGL 689: Global Citizenship

Note: Other courses may be substituted on a case by case basis as approved by the COML Department Chair.

International/Intercultural Communication

One of the following two courses:

- COML 521  Travel Writing  3 credits
- COML 515  Interpersonal and Small Group Communications
Two of the following three Cultural Immersion courses:  
COML 524  Communication and Culture  
COML 600  Multi-Media Practicum  
COML 513  Advanced Topics in Communication: International Media and Culture

Strategic and Organizational Communication concentration
COML 504  Organizational Communication  3 credits

Two of the following four courses:  
COML 509  Social Dynamics of Communication and Technology  
COML 511  Seminar in Communication Consulting and Training  
COML 512  Seminar in Strategic and Corporate Communication  
COML 515  Seminar in Interpersonal and Small Group Communications

Note: Other courses may be substituted on a case by case basis as approved by the COML Department Chair.

Course Descriptions:

**COML 500 - Organizational Leadership**  
An introduction to organizational leadership begins with an examination of these questions: How do leaders explain the causes of dysfunctional thinking and/or behavior in themselves, other leaders, or in organizations? How do they understand the differences among a variety of styles of leadership and organizational models? How do they apply the theories of leadership and the principles of organizational behavior to actual situations? How do they formulate a broad, integrative perspective from which to view leadership and organizational behavior? Drawing from the social science, this integrated course focuses on research and models of leadership relevant to defining and achieving collective goals in a variety of organizational settings.

**COML 504 - Organizational Communication**  
All organizations - from Microsoft, to churches, to social clubs, and universities — rely on communication. Being able to communicate strategically is crucial to meaningful participation. This course will explore contemporary concepts about the meanings and functions of communication in organizations. Organizational communication encompasses not only communication within businesses, but also within large private or nonprofit associations, larger community groups, and governments both large and small. We will cover selected topics in organizational communication research such as culture, socialization, systems theory, communication and technology, and globalization.

**Equivalent(s):** ORGL 504

**COML 505 - Digital Storytelling**  
The digital age has changed the way we tell stories. Web 2.0 technologies allow users access to a range of digital technologies to not only create their own stories, but share them widely through social media. But how do stories make an impact on audiences, given that there is so much more information available? This course teaches students different forms of storytelling using digital media tools including Audacity, GIMP, imovie, and Windows MovieMaker. Readings help students better understand different narrative and persuasive styles of storytelling as well as understand the major theoretical and policy-related issues. Through hands-on assignments, students will acquire technical skills that will help them become more effective communicators in the digital age.

**COML 507 - Emerging Leadership**  
This course will explore, examine, and analyze the ways in which communication technology influences our shared fundamental assumptions about the nature of communication, and the manner in which we interact
with one another on a daily basis, as well as our socially shared values, beliefs, and attitudes.

Equivalent(s): ORGL 509

COML 510 – Communication, Teaching, and Pedagogy credits: 3
This course is designed for people considering a career as a communication educator at the college level. The goals for this class have three interrelated dimensions; (a) cognitive learning, (b) affective orientation; and (c) behavioral development. Students will develop curriculum, learn teaching strategies, develop goals and assessment, observe college classroom environments, and build a teaching portfolio.

COML 511 - Seminar in Communication Consulting and Training credits: 3
In a global economy, it is increasingly important to have the training and consulting skills that will allow you to interact effectively with many different cultures. Understanding and creating new media programs is vital to you and your organization’s success. This course will explore the unique application of communication skills and models for training and consulting. There will be practice in consulting in a variety of settings, developing resources, marketing, workshop development, training, skill building, and evaluation.

COML 512 - Seminar in Strategic and Corporate
Gone are the days when organizations can afford to just wait it out while their competition moves ahead. Whether a student leads or works for an organization, or is in charge of strategic planning or communication, it is critical to understand how to develop, implement and evaluate effective integrated communication plans. New ideas, trends, issues, projects, and services in our workplaces are all opportunities to plan, strategize and communicate with the many stakeholders. Students learn from real-life examples as well as their colleagues to fully understand and implement campaigns, media relations strategies, and social media tactics.

COML 513 - Seminar in Advanced Topics in Communication credits: 3
This seminar explores cutting-edge technologies, theory, and issues. The specific theme of this course varies each time it is offered because communication is constantly evolving.

COML 514 - Seminar in Advanced Criticism credits: 3
The study of criticism begins with the understanding that as human beings we use language and other symbols to shape the world in which we live. Rhetorical theory allows us to begin to understand how symbols function. Rhetorical criticism is one of the processes through which we assess specific symbolic acts. Students will explore and apply several different methods including how to describe primary rhetorical acts or texts (including speeches, films, news coverage, television programs, songs, and advertisements, among others) in rich, relevant detail, how to situate or make sense of rhetorical acts or texts within their historical, cultural moments; and how to use theory to develop a rhetorical perspective that will help render a judgment about a text or act.

COML 515 - Seminar in Interpersonal and Small Group credits: 3
This course will enhance your ability to assess an interpersonal or small-group communication event and its context (a ‘context’ can be familial, business, church, school-related, and so on). Students will learn to choose among relevant theoretical perspectives in order to understand and improve interpersonal and small-group communication within specific social contexts. The course is designed to encourage students to explore the communication dynamics that create group situations (and the ethical dimensions of these situations), and to explore specific communication actions that can lead to positive social change.

COML 516 - Seminar in Media Literacy credits: 3
Despite our awareness that we live in an age of communication, we are often unaware of how we contribute, define, make, use and are used by various forms of communication media. Communication in our society takes place in many forms, including mass electronic media, telecommunications, transportation, publishing and even our educational system. This course examines the implications of several forms of communication
for how we live and what we believe, including the impact of mass media on modern societies, conflicting social interests and the needs of different groups in society, the formation of public opinion, and the diffusion of innovations. Attention will be directed throughout the course to the processes of developing action plans for communication that incorporates principles of media literacy.

**COML 520 - Communication Leadership Internship**

Credit: 1-6

Students will complete an approximately 240-hour internship under the supervision of a communication professor at a local college or university for one semester or quarter. The internship includes the development of a portfolio and evaluations from internship supervisors. Students are responsible for arranging the internship.

**COML 521 - Travel Writing**

Credits: 3

This course is designed to improve your ability to write a narrative from stories about travel. The genre ranges from the documentary to the evocative, from literary to journalistic, and from humorous to serious. This course will show you how to put your camera aside (temporarily) and engage your experiences more deeply in both strange and familiar places close to home. Text exercises will help you develop the basic storytelling and descriptive skills this genre requires. Selected current readings will serve as examples of good writing.

**COML 522 - Renaissance Rhetoric and Contemporary Leadership**

Credits: 3

This course examines rhetoric, written, oral, and visual to understand the humanistic movement of the Italian Renaissance and the role it continues to play in contemporary leadership. Through readings, discussions, and on-site visits to historical settings in Rome, Florence and Siena, we will formulate and explore the critical questions necessary to bring these ideas to our contemporary world. This course will be offered every summer.

**COML 523 - Peacebuilding in Northern Ireland**

Credits: 3

Dialogue requires responsiveness that is made possible by qualities of thought and talk allowing transformation to take place: transformation in how people understand the self, the other, and the societies they inhabit. The course will reflect on the causes and history of The Troubles (1969-1998) as well as the tortuous peace; process following the Belfast Agreement in 1998. Local peacebuilding through dialogue is central to understanding how peace has been maintained.

**COML 595 - Theorizing Communication**

Credits: 3

As an introduction to the field of communication, this course investigates major theories of communication, emphasizing theorizing as a process of constructing visions of reality. Critical analysis of the underlying assumptions of theoretical models of communication will help to frame your understanding of communication into a philosophical and ethical statement.

**COML 596 - Master's Level Writing**

Credit: 0

This course is a resource for graduate students who are apprehensive about their writing skills or who need to brush up on writing competencies. It is designed to both assess a student’s writing skills and improve them if need be. It is also designed to introduce graduate students to the genre of academic writing in the discipline of communication.

**COML 597 - Communication Ethics**

Credits: 3

Inquiry into the philosophic foundations of interpersonal relations and values in multiple contexts with emphasis on applications of ethical systems to the responsibilities of people in organizations toward society and individuals.

**COML 598 - International and Intercultural**

Credits: 3

Identification and analysis of processes and problems of communication as affected by differences in culture and identity. It explores effects of differences in attitudes, social organization, role expectations, language
and nonverbal behavior, all of which are interrelated. Principles of communication theory as they apply to the intercultural context are also emphasized.

**COML 599 - Communication Practicum**

This residential practicum is designed to merge theory and praxis and provide practical application of communication knowledge and action with a focus on public speaking, group processes, writing, and multi-media products.

**COML 600 - Multi-Media Practicum**

**COML 601 - Applied Communication Research**

Through engagement with primary research and exposure to current methodologies and the inquiry process, this course requires the development of a research proposal (e.g. literature review, rationale for the proposed questions, formal research questions and/or hypotheses, and proposed method description.) The course is designed to be paired with the capstone course so that the work defined in the proposal can be completed in the capstone course.

**COML 602 - Communication and Leadership Capstone Seminar**

Candidates for the master's degree in communication and leadership will complete a modified thesis or project under the guidance of a professor and/or mentor. The student will complete an original research study or applied project. The completed and accepted thesis/project will be presented in a public forum. Prerequisite: COML 601 and 24 graduate credits.

**COML 611 - Seminar Continuation**

**COML 690 - Directed Study**

Arranged with faculty.

---

**Master of Arts in Organizational Leadership**

**Chairperson:** Adrian Popa  
**Associate Professor:** M. Carey, D. Conners, Kristine Hoover, A. Popa, L. Topuzova  
**Assistant Professor:** J. Albert  
**Senior Lecturer:** J. Horsman

The M.A. degree in Organizational Leadership is an interdisciplinary program that integrates knowledge and research from the social sciences, communication arts, and the humanities. The central objective of the program is to provide an advanced degree which synthesizes knowledge from diverse fields into a focused yet flexible plan of study that is useful to leaders in all forms of social organization. The program is designed for the student whose professional goal is a generalist leadership position in a corporate, government, non-profit, or community organization.

The Organizational Leadership master’s degree is intended to meet the needs and schedules of working adults. Required courses in the degree program are offered exclusively on an evening or weekend basis. The program consists of 30 semester credits. A required sequence of 15 credits is supplemented by electives totaling 15 credits, which are chosen by each student from a list of selected graduate courses. Students are permitted to take up to six credits of individualized readings, research projects or an internship as part of the elective component. The curriculum is dynamic and changes may occur on a yearly basis.

Graduates of the M.A. in Organizational Leadership program are able to: understand the relationship of liberal arts study to leadership; develop effective strategies to be social change agents; develop and enact a
leadership approach that acknowledges values and incorporates differences; create and utilize an integrated vision as a leader; understand and analyze organizations from multiple frameworks and, become an agent for productive change; be a knowledgeable consumer and effective practitioner of organizational research; and understand how to form and apply ethical systems within organizational settings.

**Admissions**

Each applicant must submit a complete packet containing the following materials to the Department of Organizational Leadership:

1. A completed application form (see appendix for inquiry form) and a non-refundable fee.
2. A written statement from the applicant which:
   a. describes the applicant’s own interest in the Organizational Leadership degree.
   b. assesses the applicant’s strengths as a leader and describes what the applicant hopes to gain from a graduate degree.
3. Provides a resume of professional experience.
4. Two letters of recommendation from an employer, professional colleague, or faculty in the students undergraduate major which evaluate the applicant’s leadership ability and capacity to complete a graduate degree.
5. Two official transcripts from each college and university attended (international applicants must submit foreign transcripts in the original language and an English copy). Only degrees and courses from a regionally accredited institution will be accepted.
6. The official score from the GRE general aptitude test or the Miller Analogies Test (must be less than five years old), a requirement which may be waived if the applicant has an advanced degree or minimum 3.0 undergraduate GPA
7. Submission of an official TOEFL score of at least 550 by each international applicant who has graduated from a foreign college or university and whose native language is not English.
8. Submission of a financial declaration and supporting documentation by each international applicant.

**Prerequisite**

A bachelor’s degree from an accredited college or university is required.

**Program Outline: 30 credits**

Required Courses: 15 credits

Graduate electives complete the Organizational Leadership degree program. Students may choose graduate-level courses from a list of electives provided in this catalogue offered by the Department of Organizational Leadership or by other graduate divisions of Gonzaga University. (MTSL 509, Academic Writing for International Graduate Students, cannot count towards the ORGL elective requirements). Up to six credits
may be selected within the elective component from the independent professional study options (ORGL 660-ORGL 671).

**Servant Leadership Concentration: 12 credits**

ORGL 530 Servant Leadership 3 credits

**Two of the following three courses:** 6 credits
- ORGL 522 Leadership, Community Empowerment, Collaboration, and Dialogue
- ORGL 532 Leadership Justice & Forgiveness
- ORGL 535 Listen Discern Decide

ORGL 537 Foresight and Strategy 3 credits

*Other ORGL or Cross-listed courses may meet the Servant-leader criteria and must be approved by the advisor.

**Global Leadership Concentration: 12 credits**

ORGL 570: Introduction to Global Systems 3 credits

**Study Abroad or Internship:** 3 credits
- ORGL 690: Development Communication

**Two of the following elective courses:** 6 credits
- ORGL 517: Organizational Change and Transformation
- ORGL 518: Transforming Leadership
- ORGL 520: Conflict Resolution
- ORGL 535: Listen, Discern, and Decide
- ORGL 689: Leadership & Hardiness
- ORGL 689: Global Citizenship

**Course Descriptions:**

**ORGL 499 - Writing for the Graduate Level**  
credit: 0

**ORGL 501 - Methods of Organization Research**  
credits: 3

Gall, Gall, and Borg note that research is a systematic and persistent approach to answering questions (2006). This course meets that charge head on as we attempt to explore the philosophies of research and how to answer questions that we are passionate about. Through engagement with primary research and exposure to current methodologies and the inquiry process, this course requires the development of a full research proposal (e.g. literature review, rationale for the proposed questions, formal research questions and/or hypotheses, and proposed method description).

**Equivalent(s):** COML 501

**ORGL 504 - Organizational Communication**  
credits: 3

All organizations - from Microsoft, to churches, to social clubs, and universities â€“ rely on communication, and being able to communicate strategically is crucial to meaningful participation. This course will explore contemporary concepts about the meanings and functions of communication in organizations. Organizational communication encompasses not only communication within businesses, but also within large private or nonprofit associations, larger community groups, and governments both large and small. We will cover such selected topics in organizational communication research, such as culture, socialization, systems theory,
communication and technology, and globalization.

Equivalent(s): COML 504

**ORGL 506 - Leadership and Diversity**

Who we are, whether we are comfortable with this idea or not, is shaped in part by the social roles we occupy and how society sees us in those roles. As we will see from the very beginning of this class, our social roles, the class we are born into, and our gender all have implications for our lives. We will explore intercultural communication as a tool to bridge differences and learn about identities, practices, and cultures.

Equivalent(s): COML 506

**ORGL 507 - Emerging Leadership**

Does communication technology cause social change or do social factors cause change in communication technologies? Examination of relationships between mass media and community and computers and the self.

Equivalent(s): COML 509

**ORGL 509 - Social Dynamics of Communication Technology**

Does communication technology cause social change or do social factors cause change in communication technologies? Examination of relationships between mass media and community and computers and the self.

Equivalent(s): COML 509

**ORGL 510 - Renaissance Leadership for the 21st Century**

This course provides an examination of Renaissance leadership as it applies to contemporary organizations. Course study is designed for an interdisciplinary group of students to explore the power of Renaissance thinking as it applies to renewal, rediscovery, invention and creativity. This course will help emerging leaders develop new perspectives and strategies to bring health, creativity and energy to their organizations. Learners will draw upon the creative processes of artists - painters, architects, musicians, and writers—and apply the same dynamics of creative thinking to the practical work of leaders in today’s organizations. Special emphasis will be given to the artists of the Italian Renaissance, especially as developed in the city of Florence.

**ORGL 513 - Advanced Topics in Communication:**

Communication and leadership are closely intertwined, whether in our current period of post-modernity or during the European Renaissance. Fifteenth century Italy, Florence in particular saw a flowering of the arts and scholarship unmatched in history. This can be seen in the rhetoric of art and architecture, religious preaching, political writing and oratory, and in the humanistic philosophy that emerges from it. This course examines this period through readings, discussions, and on-site visits to historical settings in Florence and Siena, in order to formulate the critical questions necessary to bring these ideas to our contemporary world. Using the Italian Renaissance as the canvas, we will study multiple examples of rhetoric, both written and visual.

**ORGL 516 - Organizational Development**

This course will focus on ‘seeing’ and ‘changing’ organizations through the research, theory, models, and praxis of the field and consulting practice of Organizational Development (OD). [Please note: this is not a course on the nature and characteristics of good leadership- it’s about consulting to leadership.] This course focuses on how OD consultants, internal or external, can support both leaders and all members of an organization. We will investigate multiple methods, tools, and technologies used to implement major change effectively in organizations.

**ORGL 517 - Organizational Change-Transformation**

Students will be exposed to the concepts of organizational change, health, and transformation. After developing a profile of a healthy organization, students will use this as a guide, practicing methods of organizational diagnosis and intervention. This course will provide opportunities to consider how to align people around new ways of doing things. Students will have the opportunity to gain confidence and competencies in leading change, and conclude the class with action planning specific to each individual’s interests. Leading change is a critical skill to support organizations in achieving their goals, mission, and vision. Building on theories from the field of change management, we will explore how different situations require different approaches but have common foundations. The course is appropriate for people in various levels and types of organizations, providing tools to support leading change effectively.
ORGL 518 - Transforming Leadership  
Transforming Leadership is designed to be an examination of the dynamics of transformation and how leadership can facilitate transformation, both within individuals and in organizations. Specifically, the guiding questions are: 1) What is transformation; and 2) How can transformation be facilitated in individuals and organizations? As a graduate-level seminar, emphasis is placed on students and teacher forming a community of both practice and learning - of praxis - so all may both engage the current understanding and develop new insights into the theory and practice of transforming leadership.

ORGL 519 - Leadership in Non-Profit Organizations  
Designed for students preparing to assume the role and duties of a leader, supervisor, or governing board member of a non-profit organization. This course will review theory and investigate specific methods of behaviors of non-profit organization leaders.

Equivalent(s): NURS 575

ORGL 520 - Negotiation and Conflict Resolution  
This course provides an overview of conflict on different levels, from micro through mezzo, macro to violent international conflict. The course will use real-life situations and case studies that will help students practice skills and strategies for dialogue, decision-making and ultimately conflict transformation and system change.

ORGL 521 - Technology and Communication in Organizations

ORGL 522 – Leadership and Communication-Empowerment, Collaboration, and Dialogue  
How does the leader develop community to facilitate individual growth and collective flourishing? Through experience and scholarship students explore and practice empowerment, collaboration, and dialogue in the context of creating structures and processes for sustaining and transforming community. At the Benedictine Abbey students become participant observers in an emersion designed to explore, practice, and come to an expanded understanding of the role and purpose of the leader’s involvement and commitment to building and sustaining meaningful and purposeful community. Experiential findings are then integrated with the literature on building community building and used to formulate a proposal for enhancing community flourishing.

ORGL 523 - Psychology of Leadership  
This course offers an introduction to the field of psychological issues in leadership. While the field is considered relatively new and growing, this course focuses on three popular and often discussed themes in this area: personality development, emotional intelligence and dimensions of a psychologically healthy workplace. Through the use of lecture, discussion, class exercises, film and readings students will begin with a look at leadership success and failure from the lens of psychology. Importance will be placed on the student understanding the psychological challenges of being in a leadership role and how to interact effectively with those who behave in ways that are less than productive for the organization. The middle section of the course offers an in-depth exploration of those psychological capacities necessary for effective leadership. Finally, characteristics of a psychologically healthy work environment will be explored.

ORGL 524 - Leadership in Human Resources  
In this course students will explore the changing role of the human resource leader in organizations. The growing emergence of the human resource leader as an organizational change agent will be examined as well as the skills necessary for success. Topics include policy and practice within organizations; selecting, training, motivating, evaluating, and compensating employees; labor relations; and applicable legislation.

ORGL 530 - Servant Leadership  
This course is an examination of the foundation, principles and practice of servant-leadership. Servant-leadership is explored with an emphasis on reviewing the original writings, and on conceptualizing and articulating the philosophy through a clarification of what it is, and why Servant-leadership is relevant. Human development theories are used as theoretical frameworks for identifying criteria to assess servant-leaders and servant-organizations, and for understanding how they develop and function. Dialogue is encouraged as a way of integrating aspects of the philosophy with applied experience and gain insights into
the students own leadership approach.

**ORGL 531 - Leadership and Spirituality**  
**ORGL 532 - Leadership, Justice and Forgiveness**

The key learning theme I want students to understand is the idea of emotional discipline based in love that calls a person toward meaningful responses to human suffering. Such responses are grounded in discernment regarding human conflict, oppression, power, and harm, and the opportunities - personal, familial, societal, and global - that rise from the crucible of potential that is our humanity. I’d like students to gain knowledge in three ways. First, begin to appreciate the depth of heart, thought, and spirit necessary for a person to do long term, hopeful and efficacious work inside any system, be it personal, societal, or global, when that system is initially locked in an oppressive or harmful cycle. The personal character required to live from a meaningful or purposeful approach regarding what it means to be human creates complexities and potentialities that invite the student toward joy, courage, and sacredness, even or perhaps in the words of Victor Frankl especially in the midst of human suffering. Second, students will begin the process of understanding leadership (specifically servant-leadership), justice (conceptions of restorative vs. retributive justice) and forgiveness in the context of systems change toward reconciliation and depth of heart, mind, and spirit. Third, students will work to apply the interior leadership necessary for discernment and action within oppressive systems. In this course, therefore, each student will engage the following questions: â€¢ What are the basic understandings of servant-leadership, restorative justice and forgiveness? â€¢ How can a person choose servant-leadership, restorative justice and forgiveness in the face of grave human atrocities and the furthest reaches of human suffering? â€¢ Who does one forgive, and how does one approach forgiveness? â€¢ What does it mean to be a person of restorative justice and forgiveness?

**ORGL 535 - Listen, Discern, Decide**

In this class, students will learn more in-depth concepts of Servant-leadership by learning practices and approaches for listening and discerning as a way of enhancing decision-making capacity. The course begins with a focus on interior and exterior listening. Listening and awareness techniques are then integrated with the principles and practices of discernment. The course progresses from a focus on the individual, to group, to listening and discerning and decision making in organizations and communities.

**ORGL 537 - Foresight and Strategy**

The course is designed to further develop the student’s servant-leader disposition, and integrate more of the servant-leader characteristics. The course explores the art, science and methods leaders use to acknowledge, stimulate, and further develop their capacity of foresight. Students engage macro-system perspectives applying strategy and stewardship as they consider introducing creative vision into the reality of complex organizational and community systems (includes a 3 day residency).

**Pre-requisites: ORGL 530**

**ORGL 550 - Team Building and Leadership**

This three-day intensive program is designed to increase students’ knowledge and understanding of leadership and team development through a combination of information sessions and active participation in cooperative, challenge activities. Introductory activities help students to get to know each other and begin to work together to solve problems and think ‘out of the box.’ Topics to be presented and discussed include the communication process, leadership models and styles, stages of team development, ethics, diversity, and visionary or principle-centered and creative leadership. The course will culminate in the development of personal mission statements and their presentation, along with short group presentations of key learnings. In addition to the mission statements, there are additional assignments that provide an opportunity for reflection and self-evaluation with regard to leadership styles, strengths and areas for improvement, and a plan for personal/professional development. Challenge activities are included in the schedule for all three days, but particularly emphasized on the second day when we will meet off-campus for group problem-solving activities and hiking (one to two flat miles). Challenge activities are designed to enhance students’ critical thinking skills, creativity, problem-solving ability, and ability to work effectively as a team. Activities included also present opportunities for taking leadership roles, recognizing leadership styles, identifying what
works and what doesn’t work in given situations, and applying learning to real life situations.

**ORGL 551 - Advanced Team Building and Leadership**

This course is designed to continue where 550 left off. This three-day intensive program is intended to increase participants’ knowledge about facilitating team building and leadership development activities. Learning will take place through information sessions, involvement in cooperative, challenge activities as both a participant and facilitator, with opportunities for feedback, and group discussion. Topics to be covered include selection and sequencing of appropriate activities based on group characteristics, stage of development, time, and resources; leading safe challenge activities; methods of facilitating inclusion, participation in activities, and successful debriefs; what if situations and question and answer sessions; and hot tips drawn from experience. Prerequisite: Completion of ORGL 550 (Team Building I).

**Pre-requisites:** ORGL 550

**ORGL 570 - Introduction to Global Systems**

We exist in a rapidly shrinking world of intensifying technological, economic, social, cultural, and political interconnections. Organizations across a range of fields and industries are increasingly more diverse and international, and leaders have to address this complex work environment both domestically and globally. This course engages students to become familiar with a variety of global issues tied to organizational performance and to analyze those issues using systems-thinking concepts and tools. Students will gain a deeper understanding of social relationships of interdependence and accountability, as well as skills to integrate diverse ideas and perspectives from a variety of sources. Further through case studies, simulations, and discussions of current issues they will be able to refine global leadership skills such as self-awareness, inquisitiveness, open-mindedness, and cultural sensitivity.

**ORGL 575 - Leadership and Accompaniment**

In this course students engage directly with local community leaders and gain first-hand experience of different community development models. Students learn strategies for thinking and practicing ethical leadership, and will have increased self-awareness and cultural sensitivity through critical reflection and action.

**ORGL 577 - Global Issues: Brussels**

Students examine contemporary global issues, comprehensively analyze policies, and work with international peers to create viable and sustainable solutions while mentored by and learning from international experts. Competencies are gained from class instruction and also from simulations at the epicenter of the European Community, NATO, and the home of various multinational organizations in Brussels, Belgium.

**ORGL 590 - Independent Study**

**ORGL 600 - Foundations of Leadership**

This course is a foundation for learning and developing the practice of leadership. It includes investigating various theories of leadership and communication strategies leaders use in their practice. Students explore the self through multiple assessments and reflections, in relationship to individuals, groups and organizations. Students explore personal and relational dimensions of leadership in the context of multiple perspectives and develop a personal leadership growth plan including a personal leadership philosophy. Knowledge of the use of different types of written communication and scholarship is fostered in the Leadership discipline. The paradoxes and ambiguities of leadership are examined in various contexts.

**ORGL 605 - Imagine, Create, Lead**

This team taught course has a two-fold purpose. It is designed to provide an orientation to the ORGL program and Gonzaga experience during the 3 days on campus. This experiential class provides an environment where students meet and engage with peers as well as with staff, and faculty advisors. During the face to face portion of class students have numerous opportunities to establish relationships that support their success throughout the program and beyond graduation. Throughout the course, students are introduced to the history and key concepts in the field of creativity. Further, through the theme of ‘seeing and seeing again,’ students are challenged to apply and expand their creative and imaginative capacity. Students explore Ignatian imagination and perspectives from the liberal arts (art, history, literature, music,
and so on) and are exposed to different techniques for developing and enhancing their own creativity and imagination in the context of leadership practice.

**ORGL 610 - Communication and Leadership Ethics**  
Inquiry into the personal, organizational, and social values present in moral dilemmas. Students will develop skills in ethical communication and decision-making, and recognize how to act for the common good as leaders who can acknowledge and consider multiple moral perspectives.

**ORGL 611 - Seminar Continuation**  
Credit: 1

**ORGL 615 - Organizational Theory and Behavior**  
Credits: 3

The purpose of this core course is to provide exposure to theories of organizations, organizational behavior, and systems as well as a variety of strategies and tactics useful to successful leaders and followers. The content includes a traditional macro organizational theory emphasis on structure and culture and then extends to organizational behavior focusing on leading teams and interpersonal relationships.

**ORGL 620 - Leadership Seminar**  
Credits: 3

The leadership seminar is designed to be a culmination of leadership coursework in the organizational leadership program. The course provides an opportunity for reflection, synthesis, application, analysis, and evaluation. Students will examine the formation of their leadership philosophy and professional development milestones achieved in the ORGL program and will synthesize and evaluate their individual leadership development plan for the future.

**ORGL 623 - Qualitative Research Theory and Design**  
Credits: 3

The assumptions, theories, and practice of qualitative research are introduced. Students design, conduct, and report a pilot study that demonstrates basic research skills.

**ORGL 650 - Internship in Organizational Leadership**  
Credits: 3

On-site leadership experience for students under supervision of a site supervisor and professor.

**ORGL 659 - Leadership and Economics**  
Credits: 3

The application of economic principles to the solution of current problems with emphasis on capitalism and North American economies are the foci of this course.

**ORGL 660 - Readings in Social Systems**  
Credits: 1-3

This individualized study course is based on readings in a specific topic designed in consultation with the instructor. Students will discuss the selected readings on a tutorial basis with the instructor and prepares an annotated bibliography or bibliographical essay. Although individualized, this course is treated as a seminar in which students share their work with each other and the faculty member assigned to the course.

**ORGL 661 - Readings in Human Behavior**  
Credits: 1-3

This individualized study course focuses on the investigating of scholarly research findings in an aspect of the behavioral sciences defined by the student and instructor. Students will prepare a written report of findings on the research problem selected. Although individualized, this course is treated as a seminar in which students share their work with each other and the faculty member assigned to the course.

**ORGL 670 - Projects in Organizational Leadership**  
Credits: 1-3

This independent study course consists of a formal research project investigating a problem in applied organizational or social research conducted under the tutelage of the instructor. Although individualized, this course is treated as a seminar in which students share their work with each other and the faculty member assigned to the course.

**ORGL 671 - Projects in Group Behavior**  
Credits: 1-3

This independent study course consists of a formal project of original research in a topic of group behavior that proceeds from a research design approved and monitored by the instructor. Although individualized, this course is treated as a seminar in which students share their work with each other and the faculty member assigned to the course.

**ORGL 681 - Special Topics in Organizational Leadership**  
Credits: 1-3

**ORGL 689 - Special Topics**  
Credits: 1-3

**ORGL 690 – Directed Study: Organizational**  
Credits: 1-3

This seminar explores new theories and issues. The specific theme of this course varies each time it is offered because the field of organizational leadership is constantly evolving.
Doctor of Philosophy in Leadership Studies

Chairperson: JoAnn Danelo Barbour
Professors: J.D. Barbour, S. Ferch
Associate Professor: C. Francovich
Assistant Professor: K. Gambrell

The Doctor of Philosophy in Leadership Studies is based on the Jesuit tradition of educating the whole person. The program is designed for working professionals across a wide range of professions such as, education, health care, social services, theology, engineering, government, law enforcement, and business. The program is interdisciplinary and designed to develop scholarship and professional competencies while encouraging self-reflection and strengthening a commitment of service to others.

The program can be completed in as few as three and one half years by students who can attend full time and year-round, or in four to seven years by students who can attend part-time or during summers. Courses are conducted at convenient times (evenings, weekends, and summers).

The doctoral program centers on three dimensions of leadership:

- The leader as person.
- The leader in organizational systems.
- The leader in global systems.

Each dimension emphasizes the nature of change and the development of human capacities for life that are healthy and sustainable. Principles of research designed to honor humanity are threaded throughout the program and provide Doctoral students a structured way of thinking and coming to understand leadership from these three dimensions.

Because the use of computers is integrated into many courses, students need to have access to e-mail and have a general familiarity with navigating the web (or the world-wide web). For the most current information, as well as the conceptual framework detailing the theoretical foundation of the program, please consult the doctoral program website (http://www.gonzaga.edu/doctoral).

Mission of the Doctoral Program

The mission of the Doctoral Program in Leadership Studies is to educate scholars and leaders who possess conceptual and theoretical knowledge and professional and practical competencies for use in both scholarly and leadership roles that serve and engage others creatively, meaningfully, and purposefully for the greater good.

Values of the Doctoral Program

Based on the Jesuit tradition of educating the whole person, the Doctoral Program in Leadership Studies creates a space where critical thought and moral conviction meet the questions of humanity. Understanding that leadership is a process, faculty in the doctoral program hold the following: We believe that leadership is based on a deep understanding of the self and of the core values that drive one’s actions. Effective leadership requires self-development with meaning, dignity, and purpose, so that we, in turn, help others to
flourish with meaning, dignity and purpose. Because we believe that effective leaders need to develop the critical imagination required to embrace individual, organizational, and global change from a stance of hope and courage, we designed a leadership studies curriculum that supports the mission with a focus on three interrelated perspectives: Scholarly, Conceptual, and Professional. Each perspective is threaded through the curriculum, and is expressed through three specific leadership dimensions, also threaded through the curriculum: the leader as person, the leader in organizational systems, and the leader in global, social systems. Each dimension emphasizes the nature of change and the development of human capacities for life that are healthy and sustainable.

**Graduates of the Doctoral Program**

Graduates of the doctoral program often go into three areas post-graduation. 1.) Higher Education: They want to teach in higher education (leadership studies) primarily at the college undergraduate level; or they will teach at the community college level in their Masters’ Degree specialization. Some go into higher education administration, often student development. 2.) They will take their knowledge back to their organizations (who often have supported the doctoral student with developmental leaves) and work at an advanced level to grow their organizations. 3.) Many want to use their research as consultants, and will begin consulting in the areas of organizational leadership or personal leadership.

**Admissions**

Prior to filing an application to the program, it is advisable to secure an appointment for a conversation with the program chairperson. (This conversation can be conducted by phone for individuals who reside outside the geographic area). During this conversation, potential applicants will be counseled on factors they need to carefully consider before considering an application to the program, issues to be considered regarding program fit, the relationship between their career goals and the Gonzaga doctoral program, and their likelihood for meeting the application requirements.

**Requirements:**

1. A master’s degree (or its equivalent) with a minimum 3.50 GPA.
2. A minimum of two years of professional experience.
3. A minimum score of 50th percentile on either the Graduate Record Examination (GRE) or the Miller Analogies Test (MAT).
4. Letters of recommendation from sources knowledgeable about the applicant’s skills. Admission is based on a review of a total profile with careful attention to the fit between the needs of the applicant and the mission of the program. Additional factors taken into consideration include motivation, character, commitment to social justice, and writing ability.

Applicants can download the application materials from the doctoral website (http://www.gonzaga.edu/doctoral) or obtain an application packet from the Coordinator of Student Support. Each applicant must submit to the doctoral program a completed application packet to include the following materials:

1. A completed application form (see doctoral website or Coordinator of Student Support) and non-refundable fee.
2. A written statement of purpose that includes the reasons for why the applicant is seeking a Doctorate in Leadership Studies as well as a description of critical issues of concern to the applicant. The statement must be typed and is limited to 500 words.

3. A minimum of three recommendations using the Confidential Recommendation form (see website or Doctoral Program Coordinator). References must be selected from among supervisors, instructors, and colleagues who have worked with the applicant during the past five years. Two recommendations should come from the area of work experience and at least one from the applicant’s academic experience.

4. A resume that includes information about formal education, professional experience, academic achievements and honors, scholarly activity, and relevant non-professional experience.

5. Two official transcripts from each college or university attended (international applicants must submit foreign transcripts in the original language and an English copy). Only degrees and courses from a regionally accredited institution will be accepted.

6. Official score from either the Graduate Record Examination (GRE) or the Miller Analogies Test (MAT) taken within five years of the date of application.

7. Submission of an official TOEFL score of at least 550 by each international applicant who graduated from a foreign college or university and whose native language is not English.

8. A financial declaration and supporting documentation by each international applicant.

Applications are reviewed by the doctoral faculty throughout the year. Applicants are notified of decisions within 45 days of the submission of a completed application.

**Provisional Admission**

If a careful review of an applicant’s portfolio suggests a strong possibility of success in the program despite weaknesses in one or more areas, the doctoral faculty may grant provisional admission to the program. Students admitted provisionally are not eligible for financial assistance. A letter offering provisional admission will state the conditions that must be satisfied before the admission status will be changed to regular admission (at which time the student may apply for financial assistance). Students who are admitted provisionally will not be allowed to enroll in courses beyond one semester unless their admission status has been changed to regular admission. The decision to convert a provisional admission to regular admission is made by the doctoral program faculty.

**General Academic Information**

**Time Requirements for the Degree**

Consistent with doctoral program policy, students are to complete the doctoral degree within seven years of the first day of the semester in which a student first enrolls in a doctoral program class. To assure this timeline is met students are advised to gain candidacy status as early as possible. In the event of extraordinary circumstances, a student may petition for additional time to complete the degree. The doctoral faculty will consider this petition, and make its recommendation to the Dean of the School of Professional Studies who will make the final decision.

**Advancement to Candidacy**

Advancement to candidacy is a critical part of the program and is designed to provide an opportunity to reaffirm the appropriateness of the program relative to the needs and abilities of the students. Upon
successful completion of the core courses (Leadership Theory, Organizational Theory, Global Issues and Policy Analysis, and Principles of Research) each student should see his or her pre-candidacy advisor to review the policies and procedures regarding candidacy. To protect the interests of students who may not be advanced to candidacy, students must apply for candidacy before completing 22 credits and must complete the process by 28 credits or they will be blocked from taking classes. More specific information about advancement to candidacy is available on the doctoral homepage.

The method of achieving candidacy is the written response to a specified question or topic that is determined jointly by the student and his or her pre-candidacy advisor. The candidacy topic is to align with the core curriculum framework. One or more of the program dimensions (personal, organizational, or global systems) provides the conceptual framework for the paper. The paper must be of the quality acceptable for publication in a peer-reviewed journal. We encourage candidates to submit papers to journals for review; although advancement to candidacy is not contingent upon the paper being accepted. Journals to be used as reference points are selected by each student and approved by the pre-candidacy advisor.

Once the topic has been designated, the student has up to four months to submit two copies of the paper to the pre-candidacy advisor. The pre-candidacy advisor and one other doctoral faculty member will review the paper. The decision to award candidacy is based on (a) the student’s demonstration of competence in conceptualizing significant and complex theoretical subject matter, and (b) the student’s abilities to write with coherence, relevance, appropriate mechanics, scholarly tone, and veracity. If the candidacy paper is found to be unacceptable, the student will be asked to rewrite the paper and resubmit it, according to departmental guidelines. Failure to pass a third attempt at writing this paper will result in the student’s separation from the program. The student will receive a written notice of advancement or non-advancement to candidacy.

**Transfer Credit**

Although it is presumed that all work for the doctorate will be completed at Gonzaga University, the doctoral program may accept up to 12 credit hours from another college or university for coursework in which a grade of “B” or higher was awarded. Transfer credits are not rounded up. The acceptance of transfer credits requires the recommendation of the doctoral program chairperson. No course for which a grade less than “B” has been awarded may be accepted in transfer, and transfer credits are not entered onto a student’s transcript until the student is advanced to doctoral candidacy.

The limitations on transfer credit for the doctoral program are as follows:

- Work to be transferred must clearly be doctoral-level coursework as defined by the granting institution.
- Coursework must have been completed while the individual was accepted in a doctoral program accredited by a regional accrediting agency.
- Coursework must have been completed within five years prior to the date of acceptance into the doctoral program at Gonzaga University.
- Courses may not be transferred for the four core courses (DPLS 700, DPLS 701, DPLS 703, & DPLS 720), or Proposal Seminar (DPLS 730).
- Transfer of other required courses will require faculty approval.
- Transfer credits will be applied to the elective 18 credits (which include individualized study credits).
- Coursework to be transferred must fit the mission of the doctoral program.
After an initial conference with a student or potential student who wishes to transfer credit, the program chairperson will send a letter (with a copy placed in the student’s file) informing him or her as to what credits will be accepted and what stipulations, if any, have been made.

**Pass/Fail Option**

Doctoral students may opt either for a letter grade or for a pass/fail option in each course. Students wishing to explore this option should consult their advisor. The student is responsible for filing a pass/fail petition with the Registrar prior to the published deadline. A pass/fail request is considered a private matter between the student and the Registrar. If this request is filed, the Registrar will substitute a “P” or an “F” in place of the assigned grade. A “P” will be recorded for an assigned grade of B or higher, while an “F” will be recorded for an assigned grade of B- or lower. The decision to put a course on a pass/fail basis is irrevocable, and once made cannot be changed for any reason.

**Individualized Study**

Students may undertake individualized study to acquire more advanced knowledge in an area or to pursue topics not currently covered in regularly scheduled classes. Application for individualized study must be made on a form available online. It is the responsibility of the student to demonstrate the relevancy of the proposed study and to negotiate the course content and timelines with a qualified instructor. A maximum of 12 credits of individualized study is permitted.

**Internship/Mentorship**

Students enrolled in the doctoral program may complete an internship/field experience or mentorship as an elective by registering for one to three hours of DPLS 766. For internship or mentorship credit, students must submit a proposal at the beginning of the course and attach it to the “Application for Individualized Study” form marked for DPLS 766. A report or project must be submitted at the end of the internship/mentorship to complete the course. For internship credit, the proposal may be to gain experience in another work setting or to complete a work project that will require the application of DPLS coursework. For mentorship credit, the proposal should describe the purpose of the mentorship, identify the mentor, and explain how the mentorship will enhance leadership abilities in the personal, organizational, or global dimensions. In both cases, the proposal should show that the student will be challenged in some way and explain how it will be related to their DPLS coursework. Proposals must be submitted to the instructor who will be the “professor of record.” At the end of the internship/mentorship, the student will submit a report and/or products developed as a result of the experience to the “professor of record.” The grading mode for this course is Satisfactory/ Non-satisfactory. A maximum of three credits of internship/mentorship is permitted.

**Advanced Credits**

Credit for doctoral-level courses completed at Gonzaga University prior to admission of a student to regular status may be accepted by the doctoral program upon recommendation of the program chairperson as credits toward a degree. Such credits are termed “advanced credits” and are normally limited in number to 12 credits.

**Residence**

Residence is defined as work taken in a recognized Gonzaga graduate program. In the doctoral program, the matriculation policy is defined as three out of four consecutive semesters of study on campus upon
admission to the doctoral program. For students who are admitted to the doctoral program with the intent to attend summers only, the continuity of matriculation requirement may be satisfied by attending three out of four consecutive summer sessions upon being admitted to the program.

Students enrolled in the doctoral program in the School of Professional Studies will have satisfied all continuity of matriculation requirements for the doctoral degree when they have completed three out of four consecutive semesters of graduate study earning a minimum of six (6) credit hours per semester.

It is the student’s responsibility to adhere to the tenets of the continuity of matriculation policy, with the student’s temporary and permanent advisor(s) monitoring the compliance process from the date of admission to the completion of the doctoral program. Any deviation from this policy must be entered as a formal request for a “Leave of Absence.” The formal request for a leave of absence must be submitted by the student and approved by the temporary or permanent advisor and the program chairperson in the semester prior to the semester in which the leave will take effect.

**Doctoral Advisors and Committee Members**

A pre-candidacy advisor is assigned to each student at the time of admission to the program. Advisor’s responsibilities are to assist the student in making program decisions and to facilitate the student through the candidacy process. Once students have been advanced to candidacy, they select a dissertation chairperson; and, before the defense of the proposal, with their dissertation chairperson select two or more additional dissertation committee members. Students who are not making timely progress on their proposal or dissertation, and/or have had little or no contact with their dissertation chairperson for a semester or more should expect to confirm whether the individual is still available to work with them.

It is expected that the chairperson of the committee and at least one of the remaining committee members will be selected from among the core faculty of the doctoral program. A student may petition to 1) have a core faculty member of the program as the chairperson of the committee and all other committee members from outside the program or 2) have the chairperson of the committee from outside the program and at least two of the remaining members from the program. Given the importance of the committee chairperson in facilitating the student’s completion of the dissertation, chairpersons selected from outside the core faculty must be prepared to work closely with committee members from the program and invest sufficient time to fully understand the unique requirements of the Gonzaga Doctoral Program. Any exceptions to the expected committee configuration should be carefully discussed with the advisor before individuals from outside the program are approached about participation on the committee. Written approval of the entire core doctoral faculty is required for any exceptions.

**Admission to Proposal Seminar**

The purpose of DPLS 730: Proposal Seminar is to craft the structure of the student’s dissertation. Before students can enroll in DPLS 730 they must have achieved candidacy and have completed or be enrolled in DPLS 722 and DPLS 723. In addition, enrollment in DPLS 730 requires a written petition to the doctoral faculty, submitted through a student’s dissertation chairperson at least 60 days before enrolling in the class. (Specifications for the petition are available on the doctoral program Website, from the doctoral faculty, or from the Coordinator of Student Support.) Students who anticipate taking DPLS 730 should discuss timing with their dissertation committee chairperson. Ideally, students should be able to defend the dissertation proposal soon after taking this course.
**Doctoral Dissertation**

A scholarly research study must be completed by each student under the guidance of a dissertation committee. The dissertation process in the Gonzaga Doctoral Program includes a formal defense of the dissertation proposal (defined as the first three chapters of the dissertation). The dissertation committee will also review and approve the final copy of the dissertation, which then must be filed with the appropriate administrative office for final approval and acceptance by the University. Specific arrangements should be made with the doctoral program for microfilming and binding of the dissertation.

Detailed dissertation procedures can be obtained from the Coordinator of Student Support or dissertation chairperson.

**Outline: 60 credits**

**Required Courses**
- DPLS 700  Leadership Theory  3 credits
- DPLS 701  Organizational Theory  3 credits
- DPLS 703  Global Issues and Policy Analysis  3 credits
- DPLS 720  Principles of Research  3 credits
- DPLS 722  Quantitative Data Analysis  3 credits
- DPLS 723  Qualitative Research  3 credits
- DPLS 730  Proposal Seminar  3 credits
- DPLS 735  Proposal Defense  1 credit
- DPLS 736  Dissertation  5 credits
- DPLS 745  Leadership and Personal Ethics  2 credits

**An additional two (2) credits of ethics is required from the following courses:**
- DPLS 746  Leadership and Applied Ethics  2 credits
- DPLS 747  Leadership and Classical Ethics  2 credits
- DPLS 748  Leadership and Feminist Ethics  2 credits
- DPLS 749  Leadership and Ecology Ethics  2 credits

**Electives:**
- DPLS 705  Leadership and Social Justice  3 credits
- DPLS 706  Leadership and Diversity  3 credits
- DPLS 707  Leadership and Technology  3 credits
- DPLS 708  Leadership, Forgiveness and Restorative Justice  3 credits
- DPLS 709  Leadership and Spirituality  3 credits
- DPLS 710  Planning for Change  3 credits
- DPLS 711  Human Resources and Organizational Community  3 credits
- DPLS 712  Leadership and Financial Stewardship  3 credits
- DPLS 713  Leadership and Law  3 credits
- DPLS 714  Writing for Publication  1 credit
- DPLS 715  Writing for Funding  1 credit
- DPLS 718  Ways of Knowing: Teaching, Learning, and Leadership  3 credits
- DPLS 719  Systemic Organizational Change  3 credits
- DPLS 721  Leadership and Arts Based Understanding  3 credits
- DPLS 724  Advanced Quantitative Data Analysis  2 credits
- DPLS 726  Advanced Qualitative Research  2 credits

**Course Descriptions:**

**DPLS 700 - Leadership Theory**  
credits: 3  
The major goal of this course is to gain understanding in the concept of leadership historically, philosophically, psychologically, and morally, and to test these understandings against one's own values and experiences. Emphasis will be placed on the nature and role of leadership in understanding and interpreting the self, subjectivity and interpersonal interactions.

**DPLS 701 - Organizational Theory**  
credits: 3  
Emphasis on modernist and postmodernist organizational theory, examining organizations as the nexus of psychological, sociological, and biological phenomena. Organizations are explored through the frames of power, environmental and symbolic structures, human agency, and ethics. Students will also read in classical organizational theory as well.

**DPLS 703 - Global Issues and Policy Analysis**  
credits: 3  
This course is designed to provide students with a solid understanding of the concepts linking leadership to global and social systems with special attention to the role of policy analysis as a critical connection between leadership and systems.

**DPLS 705 - Leadership and Social Justice**  
credits: 3  
Examines issues of leadership and social justice beginning with an understanding of social justice, its theories, principles, tenets, and shortcomings. The course discusses social justice issues as they relate to hate, equality, distribution, and deserts.

**DPLS 706 - Leadership and Diversity**  
credits: 3  
Leaders are in a privileged position to effect a transformation of perspectives on race, ethnicity, and lifestyle. This course gives participants the opportunity to explore this potential, and, through life experiences and current literature, to assess their personal leadership styles and attitudes toward diversity.

**DPLS 707 - Leadership and Technology**  
credits: 3  
Technology is one aspect of the accelerating change that leaders must deal with. Leadership responsibilities in organizations will increasingly influence and be influenced by technology. This course is designed to provide a foundation for understanding technology in today's societies and the role of leadership in enhancing organizations through technology.

**DPLS 708 - Leadership, Forgive and Restorative Justice**  
credits: 3  
In this course students will begin the process of understanding leadership, justice, and forgiveness in the context of purposeful systems change. Servant leadership and restorative vs. retributive justice are important
aspects of the learning community. The course engages students toward self-responsibility in the context of reconciliation, and the depth of heart, mind, and spirit that leads to healing and growth in community with others. Students will work to apply the interior leadership necessary for discernment and action within oppressive systems.

**DPLS 709 - Leadership and Spirituality**

This course is based on the premise that spiritual development is essential to human development, and emphasizes the importance of leaders awakening their own spirit in management and in life. Students are required to analyze theoretical and philosophical perspectives on spirituality in general and on spirituality as it applies to workplace. Students are invited to examine the condition of their own inner lives and how their lives can become more whole.

**DPLS 710 - Planning for Change**

Planned change provides a holistic vision of the future and outlines procedures for moving toward the future. This course focuses on the nature of change and the capacity of organizations to engage in system-wide change.

**DPLS 711 - Human Resource and Organizational Community**

This course covers basic understandings of managing human resources, but focuses primarily on more critical and social meanings associated with the development of human resources. An etymological approach to human resource development is pursued and provides the foundation for deep examination of leadership and the nature of community.

**DPLS 712 - Leadership and Financial Stewardship**

The focus of this course is on being a good steward of the organization's resources, with an emphasis on financial resources. Fiscal leadership strategies are examined as well as the effective management of other organizational resources.

**DPLS 713 - Leadership and Law**

An analysis of selected legal principles affecting leaders in educational institutions. The principles illustrated are derived from decisions and opinions of the U.S. Supreme Court. Stress is also placed on an analysis of the leadership function exercised by the Court in such areas as freedom of speech and press, freedom of religion, personal civil rights, and the rights of criminal defendants.

**DPLS 714 - Writing for Publication**

Students learn how to identify outlets for various kinds of writing, prepare publishable work in different categories of writing, discuss ethical issues related to authorship, and work effectively in an editorial relationship.

**DPLS 715 - Writing for Funding**

Students learn how to identify private and governmental sources of grant funding and prepare fundable proposals.

**DPLS 717 - Instrument Design**

This course is designed to explore learning styles, adult learners, and strategies for working with adults. The leaders role in facilitating the learning, growth, and development of adults in organizational settings is examined. Beliefs about the nature of teaching, learning, and leadership are articulated in the form of a personal philosophy.

**DPLS 718 - Ways Know: Teaching, Learning, and Leadership**

This course explores theories of organizational change with an emphasis on transformational change (change that occurs at a fundamental level of the system). Theories and strategies for identifying and positively effecting the core of the organization will draw from a core of readings in complexity science, anthropology, sociology, social psychology and organizational science.

**DPLS 720 - Principles of Research**

Focusing on the pursuit of truth, this course gives a comprehensive perspective on research design, including both quantitative and qualitative methods. Emphasis is on self-understanding in the context of research and
the pursuit of truth, and the appropriate use of various research methodologies. Students conceptualize their own research design as well as become more knowledgeable consumers of extant literature.

DPLS 721 - Leadership and Arts Based Understanding  
credits: 3
Students are invited to consider how different forms generate different kinds of understandings. They are introduced to qualitative research methods known as arts-based, arts-informed, or alternative methods. The topic of leadership is explored through stories and narrative, dance and theater, music and poetry, film, and visual arts data.

DPLS 722 - Quantitative Data Analysis  
credits: 3
Quantitative data analyses require the use of statistics (descriptive and inferential) to summarize data collected, to make comparisons of data sets, and to generalize results obtained for a sample back to the populations from which the sample was drawn. Knowledge about data analyses can help a researcher interpret data for the purpose of providing meaningful insights about the problem being investigated.

Pre-requisites: DPLS 720

DPLS 723 - Qualitative Research  
credits: 3
This course is designed to provide opportunities for developing specific qualitative research skills while gaining familiarity with theories, issues, and problems in qualitative research. The course examines the relationships between the theories and purposes of qualitative inquiry. There is considerable focus on practicing selected research skills and the analysis and write-up of the results from these activities.

Pre-requisites: DPLS 720

DPLS 724 - Advanced Quantitative Data Analysis  
credit: 1
Advanced data analysis such as multiple regression, factor analysis, repeated measures, and discriminate analysis will be the focus of this course. The SPSS computer program will be used to facilitate data analysis and interpretation.

Pre-requisites: DPLS 720 minimum grade: B and DPLS 722 minimum grade: B

DPLS 726 - Advanced Qualitative Research  
credits: 3
Building upon the knowledge and experience acquired in DPLS 723, this course provides students with structured opportunities to analyze, interpret, and report qualitative research, using their own or sample data banks.

Pre-requisites: DPLS 720 and DPLS 723

DPLS 728 - Scholarship and Dissertation Framework  
credits: 3
The goal of this course is to assist students to create a structure for the reading and analysis necessary for composition of Chapter 2 of the dissertation. The course also focuses on outlining a 1st and 3rd chapter of the dissertation.

DPLS 729 - Computer Analysis of Qualitative Data  
credit: 1
This course will be devoted to learning the basics of N8 (Nvivo) through structured opportunities to analyze, interpret, and report qualitative research using a standardized set of data.

Pre-requisites: DPLS 720 and DPLS 723

DPLS 730 - Proposal Seminar  
credits: 3
Development of the dissertation research proposal is the focus of this course.

Pre-requisites: DPLS 722 minimum grade: C or DPLS 723 minimum grade: C

DPLS 735 - Proposal Defense  
credit: 1
Students are to enroll in this course the semester in which they plan to defend their dissertation proposal.

DPLS 736 - Dissertation  
credit: 1-5
Students must register for a total of five (5) credits for this course.

DPLS 737 - Dissertation Extension  
credit: 1
Credit registration for student continuing after core course requirements have been completed.

DPLS 738 - Completion of Candidacy  
credit: 0
Students must register for this zero credit course in the semester in which they complete their candidacy process.
DPLS 739 - Orientation  
Credit: 0  
Students must complete this zero credit online course in the first semester of their enrollment in the DPLS. The course has required and optional components that will help insure a successful orientation to the program.

DPLS 740 - Complexity and Organizational Leadership  
Credits: 3  
This course begins with a survey of complexity theories and models as applied and understood in relation to society, organizations, and the self. Deepening inquiry into the roots of complexity thinking and its relationship to language, sociality, and rational thought supports ongoing reinterpretation of modernist frameworks. Traditional frameworks drawn from leadership studies, language (symbolic interactionism) and the creation and maintenance of identities are recast through the lens of emergence and complex adaptive systems.

DPLS 741 - The Art and Practice of Dialogue  
Credits: 3  
This course is concerned with the praxis of dialogue. From the theoretical perspective dialogue is presented through philosophical, psychological, biological, and sociological readings. The course moves from broad perspectives on communication, meaning, and community to focused inquiry into subjective and intersubjective aspects of communication and meaning. This shift is supported by the regular practice of intentional dialogue at each class meeting.

DPLS 742 - Leadership and Appreciative Inquiry  
Credits: 3  
This course will include instruction in design, graphics and an introduction to new media with an emphasis on visual elements that are an informative, integral part of news delivery. Gain proficiency in Quark. Learn to construct basic informational graphics. Explore New Media. Visual presentation is a critical part of connecting with readers. Class presentations focus on the use of visual elements in news and other publications.

DPLS 743 - Leadership and Consulting  
Credits: 3  
This course examines the philosophy of consulting to include the 'main body of the leadership mind': ethics, courage, reality, and vision as intelligence tools. It also examines the consulting domain as it relates to internal and external barriers of organizational entities, such as structural concerns, gaps in leaders' skills and knowledge, effectiveness of collective intelligence.

DPLS 744 - Leadership Language and Culture  
Credits: 3  
This course is designed for students who are interested in sociocultural and critical perspectives on identity and language and their intersection in diverse cultural communities. Our goal will be to explore the theoretical and methodological issues and substantive findings surrounding current research on identity and language.

DPLS 745 - Leadership and Personal Ethics  
Credits: 2  
This course looks at leadership from the perspectives of personal character of the leader and his or her ability to make decisions and take actions that can be considered to be good and right. Application to leadership issues are made throughout the course.

DPLS 746 - Leadership and Applied Ethics  
Credits: 2  
This course centers on a variety of moral dilemmas that prevail in societies and organizations. Students gain a deep understanding of the complexity of such moral dilemmas through critical analysis and application of ethical principles. This course presupposes a good grasp of ethical theory either through DPLS 750: Leadership and Ethics or through extensive background readings.

DPLS 747 - Leadership and Classical Ethics  
Credits: 2  
Several classical ethical models are examined throughout the course. Critical analysis of how these models might apply to leadership today is made.

DPLS 748 - Leadership and Feminist Ethics  
Credits: 2  
Ethics and ethical decision making is viewed from a feminist perspective. Application to leadership is made throughout the course. A question of interest is how the feminist perspective might yield different outcomes than do more traditional decision-making models.
DPLS 749 - Leadership and Ecology Ethics  
This course provides in-depth thoughts on principles of ethics and ethical decision making regarding ecology at global, national, and local levels.

DPLS 751 - Leadership and History  
This course focuses on the theme of leadership within unique historical contexts. The course considers the significant issues and dilemmas confronted by religious leaders, civic leaders, political leadership, reform leadership, female leadership, and business leadership. The historical contexts span from the 17th century Massachusetts Bay Colony to the 20th century using a biographical and case study approach to examine leadership dilemmas.

DPLS 752 - Leadership and Philosophy  
This reviews the major schools of philosophical thought as they relate to leadership development and style.

DPLS 753 - Leadership and Religious Studies  
Approaches to the nature of religion and its resulting impact on leadership are discussed. Emphasis is placed on leadership styles in religion.

DPLS 754 - Leadership and Sociology  
The focus is on a range of sociological theories available for use in the understanding of leadership in social relations or organizations.

DPLS 755 - Leadership and Communication  
This course focuses on the relation of the theories and techniques of group processes and persuasion to styles of leadership.

DPLS 756 - Leadership and Psychology  
Systems and developmental approaches to psychology are integrated with personal and interpersonal understandings of leadership in this course. Dialogue regarding the nature is engaged in order to strengthen critical knowledge of psychology, social justice, and the leader as servant.

DPLS 757 - Leadership and Nature of Politics  
This course centers on the importance of political theory to leadership style both in the world of politics and organizations.

DPLS 758 - Leadership and Literature  
This course invites students to fall in love with various forms of literature which speak of leading and leadership. The course draws students into a deeper understanding of leadership through critical reviews and intellectual discoveries of such literature.

DPLS 759 - Leadership and Economics  
The application of economic principles to the solution of current problems with emphasis on capitalism and North American economies are the focuses of this course. Additionally, on the consequences of human actions, specifically, the actions of leaders at both macro and micro levels.

DPLS 760 - 765 - Readings  
Curriculum, reading lists, and credit are determined based on an individual proposal.

DPLS 766 - Internship/Mentorship  
Credits determined based on individual proposal.

DPLS 767 - 769 - Non-Dissertation Research  
Research and design are based on an individual proposal.

DPLS 772 - 779 - Special Topics  
Special topics seminars are designed based on individual student and faculty interests.

DPLS 795 - Continuing Research  
Credit: 1
Summer Session

Summer Session is the perfect time to catch up on requirements and take core courses and electives that won’t fit your schedule during the traditional academic year. It’s also a prime time to focus on just one or two courses at a time, or to take courses ahead of time to assure Study Abroad doesn’t set you behind. Undergraduates can take advantage of a discounted tuition rate during the summer, and both housing and employment opportunities are available for students of all levels.

Gonzaga University offers summer courses through the College of Arts and Sciences, the School of Business, the School of Education, the School of Engineering and Applied Science, the School of Law, the MATESL program, the School of Nursing and Human Physiology and the School of Professional Studies.

Courses are offered in three sessions. The dates for Summer 2017 are:

- **First Session**  May 20 - June 28
- **Second Session**  July 1 - August 9
- **Full Session**    May 20 - August 9

All courses are designed to meet diverse student interests and needs. Offerings range from undergraduate to graduate to doctoral, with classroom and online options as well as field studies and faculty-led study abroad programs.

Students from other colleges and universities are welcome to take Summer Session courses at Gonzaga that may fulfill requirements but may not be available at their home campuses. Such credits can typically be transferred to their home institution – just ask your advisor. And note that acceptance to and/or enrollment in a Gonzaga Summer Session course does not imply admission to one of our degree programs. See the Admissions section of this catalogue for more information on applying for a degree program.

Graduate students will typically find several classes applicable to their program of study and in some instances will find complete academic programs offered during Summer Session. Courses, institutes, and workshops are also available for anyone interested in continuing their education.

Details on courses, dates, costs, and registration are available on the Summer Session website, [http://www.gonzaga.edu/summer](http://www.gonzaga.edu/summer), by emailing summer@gonzaga.edu or by calling 509-313-5873.
The School of Law

Dean: Jane Korn

Gonzaga University School of Law was established in 1912 by the trustees of Gonzaga University with the active support of many prominent members of the bench and bar in Washington State. The School of Law has produced many exceptional lawyers. It is fully accredited by the American Bar Association, which entitles Gonzaga School of Law graduates to take the bar exam in any state. The School of Law is also a member of the Association of American Law Schools.

Objectives of Gonzaga University School of Law

Gonzaga School of Law belongs to a long and distinguished tradition of humanistic, Jesuit education. The school is committed to preserving that tradition and communicating it to the students. Accordingly, the School of Law seeks to challenge its students to incorporate knowledge of the past with the innovations of the present in order to better serve society. The education and development of the whole person is emphasized and an effort made to instill in the students a strong commitment to social justice and to encourage them to assume personal responsibility for and take individual initiative in the betterment of society.

The school recognizes its responsibility not only to the students, but also to the public and to the legal profession. As a result, the School of Law endeavors to graduate attorneys who, as capable problem-solvers, will be able to translate their thoughts into effective, productive action on behalf of their clients. Toward this end, an emphasis is placed on providing students with personal, individual attention.

One of the school's greatest strengths is the dedication and commitment of the faculty and staff. Gonzaga takes pride in providing students with a quality legal education which includes practical, hands-on experience that will ease their transition from the academic world to the world of legal practice.

Full-time Programs

The School of Law offers a full-time, three-year, 90 semester credit degree. In some circumstances, students can take advantage of flexible scheduling to complete their degrees in four or five years.

Of the 90 units necessary for graduation, 49 are required; the remaining units may be selected from electives and seminars. All degree credits must be completed within five years of matriculation.

Curriculum

Gonzaga's legal education program is deliberately. The rigorous, well-rounded curriculum focuses on legal analysis, problem-solving, values, and ethics. Equally important is the emphasis on practical experience, enabling students to develop real-world lawyering skills. The unique first-year program at Gonzaga exposes students to simulated skills training in litigation and transactional work in the fall and spring semesters, respectively, evidencing Gonzaga’s commitment to these goals. As a further component to this innovative approach to legal education, the School of Law offers upper-division electives in many different areas of the law, including: trial and appellate advocacy, environment/natural resource law, business and commercial law and international law. To complete their education all students are required to engage in experiential
learning, either through working in a professional externship or in Gonzaga's legal clinic, during their second or third year of studies.

**University Legal Assistance**

Gonzaga School of Law operates the University Legal Assistance program as an on-campus clinic that provides legal services to low-income persons. It is a major provider of pro bono legal services in the Spokane area. The clinic offers its students the opportunity to practice law, under appropriate lawyer supervision, while still in school. Rule 9 of the Washington State Bar Association allows students who have completed two years of course work (60 semester credits) to practice law under the supervision of a licensed attorney. On-campus clinical offerings include a general practice clinic and specific subject area clinics in consumer law, business law, elder law, Indian law, and tax law.

Off-campus professional externship experience is available in legal settings such as criminal prosecution and defense, child dependency, juvenile law, and legal services work.

**Dual Degree Programs**

The School of Law and the Graduate School of Business offer dual-degree programs leading to the Juris Doctor/Master of Business Administration (JD/MBA), and the Juris Doctor/Master of Accountancy (JD/MAcc). These programs train attorneys with a business background to provide skilled leadership in the sophisticated and challenging world of modern business transactions. Application must be made to the Graduate School of Business as well as to the School of Law.

There is also a JD/MSW dual-degree program which is designed to prepare law and social work professionals to practice either profession competently, and to enable them to use this unique amalgamation of skills in new and enriched ways. This four-year program (three years for students with "Advanced Standing" in Social Work) will lead successful students to a J.D. from Gonzaga University School of Law, and a Master's in Social Work from Eastern Washington University. Graduates of the JD/MSW dual-degree program will be skilled professionals who can make significant contributions in areas such as public benefits, mental health services, children’s services, services for people with disabilities, education, elder law and services, and public health. The program meets all applicable American Bar Association and Council on Social Work Education accreditation guidelines. Admission to the JD/MSW program is highly selective, and is currently limited to a maximum of four students per year. Students must apply and be admitted to both Gonzaga University School of Law and the Eastern Washington University School of Social Work, and must meet each school’s established admissions criteria. This includes qualifying scores on standardized tests, such as the Law School Admissions Test (LSAT). A candidate's application must be approved by both institutions before the candidate is considered for admission to this dual-degree program.

**Co-Curricular Activities**

Gonzaga's educational philosophy is based on the centuries-old Ignatian model of educating the whole person - mind, body, and spirit. Students, therefore, find it easy to become involved in a broad range of activities at the School of Law. Gonzaga is a major player in national moot court competitions and fields a variety of moot court teams. Students also have an opportunity to participate in the Linden Cup, Gonzaga's prestigious intra-school moot court competition, a client counseling competition, and a negotiation competition. The student-run Gonzaga Law Review is circulated throughout the country, and the Gonzaga Journal of International Law, the online international law journal, receives submissions from around the world. The Student Bar Association is a strong, active organization that encourages student involvement, and
there are abundant opportunities to participate in student organizations, legal fraternities, public service projects, and other activities. Gonzaga’s student organizations are diverse in nature and, whatever your interests or career goals, there are activities available that will enhance your knowledge and abilities, while contributing to the community.

**Physical Facilities and Library**

Rising from the banks of the beautiful Spokane River, the Gonzaga Law Center, which opened in May 2000, provides a stunning setting for research and learning. The law center offers a variety of classroom and library environments to support interactive teaching and learning methods. Features throughout the building encourage students to linger to talk and debate ideas in beautiful outdoor spaces, roof plazas and balconies, and comfortable lounges. Technology is readily available and a wireless network provide the "highway" for audio-visual, computer, and telecommunications technology. The mix of classrooms, study, seminar rooms, and clinical spaces provide flexibility to integrate the best of traditional law teaching and collaborative and innovative learning. Gonzaga’s fine traditions of advocacy training and moot court competitions are promoted in the impressive Barbieri Courtroom. The law library is a warm and inviting environment filled with natural light designed to be conducive to individual and group study. The library’s rich collection of print and electronic resources supports the research and scholarly needs of students and faculty.

**Admissions**

The School of Law endeavors to attract students with ambitious minds, professional motivation, and commitment to the highest ethics and values of the legal profession. A faculty committee reviews all applications, and does not restrict their consideration to impersonal statistics. An applicant’s unique qualities, such as work and life experiences, personal accomplishments, and the opinions of others as reflected in letters of recommendation, will also be considered.

The School of Law seeks to enroll a diverse student body to ensure that the school and the legal profession are enriched through the participation of people from different cultural and ethnic backgrounds. Those individuals who want the admission review committee to consider diversity factors in their application process should provide information about their experiences and background in their applications.

Students who are in good standing at another ABA law school may apply for admission to the School of Law with advanced standing.
