Mission Statement

Gonzaga University is an exemplary learning community that educates students for lives of leadership and service for the common good. In keeping with its Catholic, Jesuit, and humanistic heritage and identity, Gonzaga models and expects excellence in academic and professional pursuits and intentionally develops the whole person -- intellectually, spiritually, physically, and emotionally.

Through engagement with knowledge, wisdom, and questions informed by classical and contemporary perspectives, Gonzaga cultivates in its students the capacities and dispositions for reflective and critical thought, lifelong learning, spiritual growth, ethical discernment, creativity, and innovation.

The Gonzaga experience fosters a mature commitment to dignity of the human person, social justice, diversity, intercultural competence, global engagement, solidarity with the poor and vulnerable, and care for the planet. Grateful to God, the Gonzaga community carries out this mission with responsible stewardship of our physical, financial, and human resources.
Introduction

What’s in a Name?
The University is named after the sixteenth-century Italian Jesuit saint, Aloysius Gonzaga. A descendant of a noble Renaissance family and a page at the court of Francesco de Medici, Aloysius Gonzaga entered the
Society of Jesus (the Jesuit order) in 1585. Later, while a seminarian in plague-stricken Rome, he attended to the sick and dying; as a result of his heroic service, he died of exhaustion on June 21, 1591, only 23 years old. He was declared the patron saint of youth in 1726.

Quality That Earns National Recognition
U.S. News and World Report’s most recent America’s Best Colleges ranked Gonzaga among the top comprehensive regional universities in the West. Fiske Guide to Colleges, Kiplinger Best Buys in College Education and The Princeton Review have also consistently praised the academic strength and quality of education provided at Gonzaga University.

Spokane and the Inland Northwest
Spokane, Washington, forms the hub of the “Inland Northwest,” a four-state region relying on this city’s businesses, services and transportation amenities. With a population exceeding 600,000 in the Spokane-Coeur d’Alene, Idaho corridor, Spokane offers many opportunities for work, service and relaxation for Gonzaga students.

Campus overlooks the Spokane River, where the Washington Centennial Trail extends 39-miles between northwest Spokane and Coeur d’Alene. Students enjoy biking, rollerblading, running and walking along the trail. Downtown Spokane is just a few blocks’ walk from the campus. The city’s skywalk system, the nation’s second largest, provides easy access to shopping, dining and entertainment. A 12,000-seat civic entertainment arena is also within walking distance of campus. The University basketball team plays occasional games there, and it is the site of Gonzaga’s undergraduate commencement ceremonies.

Spokane boasts many parks, including the 100-acre Riverfront Park in the heart of the city. In addition, there are 21 public golf courses within an hour’s drive, ice and roller skating rinks, theaters, and art galleries. A symphony orchestra, civic theatre and professional athletic teams add to the cultural and entertainment opportunities of the urban core.

Nearby recreational areas are easily accessible to students. Seventy-six lakes and five ski areas provide swimming, water skiing and winter sports activities. Spokane has consistently been lauded for its quality of life.

Students: The Center of the University
Total enrollment each semester at Gonzaga is approximately 7,352 of which about 4,837 are undergraduates and 2,515 are in graduate programs, including the School of Law, two doctoral programs, and master’s degree programs. Our student body represents nearly every state and over thirty foreign countries. More than fifty percent of the student body comes from homes at least 250 hundred miles from Spokane. The result is a diverse, welcoming campus community, where cultures and friendships are shared warmly.

There are a total of 729 regular Jesuit, lay, and religious faculty, and classes are taught by professors, not teaching assistants. The ratio of students to faculty is about 11 to 1. More than 70% of undergraduates ranked in the top quarter of their graduating class. Approximately 25% hold student leadership positions in Gonzaga student government, residence halls, clubs and organizations.
Finance: An Important Part of Your Education

As you begin your academic career, it is important to remember that although tuition at independent or private universities is typically higher than at public universities, the ultimate value of a degree from Gonzaga University is well recognized by members of business and industry. Gonzaga is committed to assisting students in financing their college education. Over 95% of our students receive financial aid. The Financial Aid Office welcomes your inquiries and is prepared to provide assistance in the development of your financial aid award, assuring you the best package possible.

The Campus: Your Home Away From Home

Gonzaga’s campus has grown from one building which housed both students and Jesuit faculty in its early years to 105 buildings spread over 152 landscaped acres. The University site is along the north bank of the Spokane River and includes its own small lake and an attractive, well-kept campus. Some highlights of the campus include the following:

The Department of Housing and Residence Life provides living options for more than 3,000 undergraduate students, including men’s, women’s or coeducational residence halls with capacities ranging from 15 to 420. Residence halls are staffed by Resident Assistants who provide services ranging from personal advising to planning activities. Full-time first and second year students who are under age 21, unmarried, and not living at home, must live in on-campus residence halls. Upper-division, law and graduate students have access to apartment-style living units, and the University owns three apartment complexes and 12-18 houses in the neighborhood depending upon the year.

John J. Hemmingson Center is a living and learning environment where students, faculty, staff, alumni and members of the larger community will interact, collaborate and foster new connections in a manner never before possible. A new face for Gonzaga, the Hemmingson adds another icon in a collection that makes Spokane a hub for global access and higher education. The Hemmingson will provide the campus and community with media, moving work space and active lounge areas, beautiful multi-use space for meetings and conferences utilizing the latest in leading-edge technology. The Center will offer multiple banking services and offices for student clubs and organizations. The Center for Community Action and Service Learning, University Ministry, Center for Experiential Leadership, Center for Global Engagement and global initiatives work space for international students, Unity Multicultural Education Center will all call the Hemmingson Center home. The dining experience will impress all that enter into the facility offering themed restaurants, retail outlets such as Einstein’s, Starbucks, a Pub and the Marketplace.

Gonzaga University Athletic Facilities

The Charlotte Y. Martin Centre is the home of Gonzaga volleyball. The gym, which is the birthplace of the Kennel, seats 2,000 fans. As a whole, the Martin Centre is 136,000 square feet and houses the volleyball gym, but is also the location of athletic offices and the newly renovated Academic Lab and Diedrick & DeLong Athletic Training Facility. The athletic training facility is a wonder on its own, covering nearly 5,000 square feet and featuring two state-of-the-art rehabilitation whirlpools.

The Rudolf Fitness Center is a 38,000 sq. ft. facility with cardiovascular and weight areas containing a full line of Olympic benches, dumbbells, Hammer Strength equipment, treadmills, elliptical machines, rowers, versaclimber, bikes, and steppers with 14 televisions. Also available are four racquetball courts, two aerobics rooms, a field house with three full basketball or volleyball courts, a (1/11 mile) rubberized running track, a six lane 25-yard swimming pool and a smoothie snack bar. The Rudolf Fitness Center also houses a majority of the physical education classes offered by the University and is open throughout the year for use by students, staff/faculty, and spouses.
The McCarthey Athletic Center is home to the Gonzaga men's and women's basketball teams as well as the Harry A. Green Indoor Rowing Facility. The facility, which features a 6,000-seat arena, is 144,000 square feet of screaming fans come basketball season and lives and breathes the legacy of past basketball greats, such as John Stockton.

Patterson Baseball Complex and Washington Trust Field became the home of Gonzaga baseball in the spring of 2007. The completion of the facility brought GU baseball back to the campus for the first time since 2003. The complex is named after benefactor and former Chairman of the Board of Trustees Mike Patterson, while Pete Stanton and Washington Trust Bank of Spokane were also major contributors. Luger Field is home to Gonzaga’s Men’s and Women’s soccer programs. Phase I of the new facility was finished in fall 2008. The new facility provides not only a playing field, but a practice field for both the men's and women's teams as well as a press box and ticket booth. Phase II, III and IV will include the installation of permanent seating, a locker room for the home and visiting teams and state-of-the-art stadium lighting.

The Stevens Center, Gonzaga University’s new state-of-the-art indoor tennis and golf facility, opened in January 2014. This 72,000-square-foot facility includes six regulation tennis courts and a golf practice area with putting green, chipping area and four TrackMan simulators. Other prominent features include locker rooms, training rooms, team lounge, offices and balcony seating overlooking the tennis courts.

Campus Buildings:
The Gonzaga University campus includes 105 buildings and over 152 acres of landscaped grounds. Among these buildings are several new buildings, including a new tennis and golf practice facility and a new bookstore. The Hemmingson Center that houses the Center for Global Engagement, the Campus Ministry offices, the Center for Community Action and Service Learning, the Unity Multicultural Education Center, a student leadership center, student government offices, multiple meeting rooms and lounges, a branch bank, a ballroom, as well as multiple food venues. Since 2000, twelve new buildings have been constructed, including the bookstore and parking facility, the Corkery and Kennedy Apartments; Coughlin, Dillon, Goller, and Twohy Residence Halls; the Law School; the McCarthey Athletic Center; the Paccar Center for Engineering; the Patterson Baseball Complex; and the Stevens Center for Tennis and Golf. A new fitness center was also added to the Martin Centre sports facility, and the Tilford Center for Nursing and Human Physiology, as well as Professional Studies, was created from a purchased facility. The Magnuson Theater was also renovated during this time frame.

Foley Center: This 20 million dollar state-of-the-art library was opened in the fall of 1992, providing sophisticated on-line computer access to libraries across the United States. It also contains one of the finest rare book rooms in the country.

In addition to the library, Foley is now the home for the Writing Center, the Center for Teaching and Advising, the Center for the Virtual Campus digital Design and Production Center, and the Center for Academic Advising and Assistance, including the Disability Access, and the Academic Testing Center. Other Buildings: New buildings as well as historic ones grace the Gonzaga campus. The Jundt Art Center and Museum was completed in 1995. The Jepson Center for the School of Business was remodeled and expanded in 2004. The Rosauer School of Education building was completed in 1994. The historic Huetter Mansion was relocated to the University Campus and renovated as the home for the Alumni Association, and the graceful 1902 Monaghan Mansion continues to house offices and practice rooms for the Music department.

The University is planning the construction of a new Performing Arts Center, the Myrtle Woldson Center for the Performing Arts, scheduled to open in the fall of 2018.
St. Aloysius Church and the Student Chapel
The spires of St. Al’s Church are a landmark of the Spokane area. The chapel, located in College Hall, offers students a place for solitude and reflection as well as daily Masses.

A Century of Educational Leadership
After forty years of pioneer missionary efforts to bring Christian civilization and culture to the Pacific Northwest, the Rev. Joseph M. Cataldo, S.J., an Italian Jesuit missionary, initiated plans to build a mission school in Spokane Falls Territory. Out of the vision and courage of early Jesuits, Gonzaga College became a reality and admitted its first students in 1887, two years before Washington became a state. The College became Gonzaga University with the opening of the School of Law in 1912. In 1916 the School of Philosophy of Letters for Jesuit Scholastics became part of the University. In 1921 the University opened the School of Business Administration and in 1928 the School of Education. The School of Engineering was established in 1934 and in 1975 the School of Continuing Education was established, now named the School of Professional Studies. Gonzaga is an independent, Roman Catholic and Jesuit university committed to ensuring our students an educational experience which encourages individual intellectual, moral, and spiritual development.

Campus Visit
The Office of Admission offers an extensive visit program for those interested in attending Gonzaga. Gonzaga offers several Campus Preview Days (group oriented, pre-scheduled days) throughout the year, along with individualized visits. These visits may include a campus tour, residence hall tour, admission interview, class visit or faculty meeting, and an overnight stay. To schedule a visit, fill out the visit request form online or contact the Visit Office. A notice of at least two weeks is appreciated, and necessary when requesting class visits or faculty meetings.

Accreditation: The Mark of Excellence
Gonzaga University is accredited by the Northwest Commission on Colleges and Universities (NWCCU), an institutional accrediting body recognized by the Council for Higher Education Accreditation and the Secretary of the U.S. Department of Education.

• The School of Business is accredited by the Association to Advance Collegiate Schools of Business, a specialized accrediting board recognized by the Council for Higher Education Accreditation and the Secretary of the U.S. Department of Education.

• The School of Law is accredited by Council of the Section of Legal Education and Admissions to the Bar of the American Bar Association (ABA). The U.S. Department of Education has recognized the Council as the national agency for the accreditation of programs leading to the first professional degree in law.

• Programs in English as a Second Language are accredited by the Commission on English Language Programs (CEA), a specialized accrediting board recognized by the U.S. Secretary of Education as a national accrediting agency for English language programs and institutions.

• Programs in the Department of Nursing are accredited by the Commission on Collegiate Nursing Education (CCNE), a specialized accrediting board recognized by the Council for Higher Education Accreditation and the Secretary of the U.S. Department of Education.

• Programs in Civil, Electrical, Computer, and Mechanical Engineering are accredited by the Engineering Accreditation Commission of ABET, http:\www.abet.org, a specialized accrediting board recognized by the Council for Higher Education Accreditation and the Secretary of the U.S. Department of Education.
• All teacher preparation degree programs and elementary, secondary, and advanced certification programs in
the School of Education are accredited by the National Council for Accreditation of Teacher Education (NCATE),
a specialized accrediting board recognized by the Council for Higher Education and the Secretary of the U.S.
Department of Education and fully approved by the Washington State Professional Educators Board (PESB).
• The School Counseling, Clinical Mental Health Counseling, and Marriage and Family Counseling master’s
programs are accredited by the Council for Accreditation of Counseling and Related Educational Programs
(CACREP), a specialized accrediting board recognized by the Council for Higher Education Accreditation and the
Secretary of the U.S. Department of Education.
• Nurse Anesthetists programs are accredited by the Council of Accreditation of Nurse Anesthesia Education Programs
(COA).
• Master’s programs offered in British Columbia, Canada have received consent from the British Columbia Ministry
of Advanced Education and the Degree Quality Assessment Board (DQAB). Master’s programs offered in
Alberta, Canada are approved by the Alberta Ministry of Education and Technology, and the Campus Alberta
Quality Council (CAQC).
• The Music Department in the College of Arts and Sciences holds Associate Membership with the National Association
of Schools of Music (NASM), a specialized accrediting board recognized by the U.S. Secretary of Education as the
institutional and specialized accrediting body for the field of music.

The University Seal: The Mark of Distinction
The University adapted the present form of its seal in 1914 from an earlier version used in the 1890’s. Beneath the eagle
of the former seal is a shield; the order of precedence in this shield is dexter chief, sinister base, sinister chief, and dexter base.
In hatchment dexter chief are two gray wolves leaning on a black pot and chain; it represents the House of
Loyola whose son, Ignatius, was the founder of the Jesuits; the pride of that House was that they kept the
wolf away from the door of the poor.
In hatchment sinister base are the arms of the House of Gonzaga; a purple cross sustaining an escutcheon
with the lions of Florence and three purple bars for the many ecclesiastical dignities given to the House of
Gonzaga; the four falcons in the corners represent the hunting prowess of that family.
In hatchment sinister chief are the colors of Spain; seven red bars on a field of gold which were given to the
House of Loyola-Onaz because seven brothers of that house distinguished themselves in service to the King
of Spain. They form part of Ignatius of Loyola’s coat of arms.
In hatchment dexter base is a sunburst over Spokane Falls, a pine tree, and an Indian tepee; the Spokane
Indians were so called because they were children of the sun.
The eagle in the crest is the American bald eagle which protects the university; above the eagle are found
“IHS” of the name of Jesus, the cross, and the nails of His crucifixion all in black, surrounded by a halo of gold.
The escutcheon in the center of all is a royal blue field on which the white letter “G” stands for Gonzaga;
the university’s colors are Royal Blue and Immaculate White. The scrolled A.M.D.G. stands for Ad Majorem
Dei Gloriam, “For the Greater Glory of God,” the motto of the Society of Jesus. Below this is the date of incorporation of Gonzaga College. The wreath of bay leaves on the right represents classic renown, and the wreath of oak on the left signifies civic pride.

**Our Commitment to Non-Discrimination**

Gonzaga University subscribes to the principles and laws of the federal government and Washington State pertaining to civil rights and equal opportunity. The university does not discriminate against any person on the basis of race, color, religion, national origin, sex, marital status, sexual orientation, gender identity, age, disability, veteran status, or any other non-merit factor in employment, educational program, or activities that it operates. All university policies, practices, and procedures are consistent with Gonzaga’s Catholic, Jesuit identity and Mission Statement.

As a church-related institution, in conformity with federal and state law Gonzaga reserves the right to take religious faith into consideration where it is deemed appropriate. Gonzaga University’s Equal Employment Opportunity and Affirmative Action Plan is designed to further develop and maintain equal employment opportunity for all personnel and to insure the utilization of women, ethnic minorities, veterans and persons with disabilities at all levels and in all segments of the university, particularly where they are underutilized in relation to their availability in the work force.
Services

University Ministry

Mission

The Office of University Ministry is responsible for the faith development of all students regardless of religious affiliation and tradition. University Ministry provides opportunities and resources for spiritual growth and fellowship through retreats, service projects, liturgies, music ministry, Christian Life Communities (CLC’s), spiritual direction, residence hall programs and more. These activities offer students a more mature understanding of Gonzaga’s Jesuit and Catholic identity and a deeper respect for other religious traditions.

Activities

• Mass and Sacraments: As a Catholic university, we hold masses on campus to unite us as a faith community. At least four public Liturgies are available each day in the Gonzaga community. People of all religious paths are welcome to join us in prayer and worship. In addition, we help students connect with other local area places of worship.

Not only are students invited to come to Mass, but they are also invited to take on leadership positions, such as that of Eucharistic Minister, Lector, Server, or Sacristan. University Ministry also offers students the Sacrament of Reconciliation three times each week. In addition, a student may seek out a priest at any time.

• Retreats: University Ministry’s retreat programs provide opportunities for students to practice reflection, self-disclosure, leadership, fellowship and self-examination according to our Ignatian heritage. More than a thousand students participate in University Ministry retreats each year.

University Ministry coordinates one Pilgrimage, six Freshmen Retreats, four SEARCH Retreat, four Cardoner Retreats, one Senior Retreat and three Montserrat Retreats per academic year. Each retreat is coordinated by a University Ministry staff member and most are led by student crews.

If you have questions about other University Ministry sponsored events and programs, please contact the office at (509) 313-4242 or umin@gonzaga.edu. University Ministry is located on the main floor of the Hemmingson Center and online at www.gonzaga.edu/um.

Veterans

Gonzaga University’s academic programs of study are approved by the Washington State Higher Education Coordinating Board’s State Approving Agency (HECB/SAA) for enrollment of persons eligible to receive educational benefits under Title 38 and Title 10 USC.

For graduate students enrolled in academic programs offering courses in non-standard terms, the number of credits required to achieve a time status of "full time" shall be proportional to the number of weeks in that non-standard term divided by sixteen (e.g. 8 divided by 16, times 6 credits equals a full-time status of three (3) credits for a non-standard term of eight (8) weeks duration).
Eligible veterans needing to apply for their benefits, approved veterans needing certification of enrollment, or students with questions about possible veteran benefits should contact the University’s veterans advisor in Room 229 of College Hall.

**Disability Access**

Disability Access, formerly Disability Resources, Education and Access Management (DREAM), provides access services to Gonzaga University’s programs, services, activities and facilities for qualified students with disabilities in compliance with the Americans with Disabilities Act, Section 504 of the Rehabilitation Act of 1973 and Washington State laws. Disability Access serves students with permanent or temporary disabilities. Disability Access may arrange or provide appropriate and reasonable academic accommodations, auxiliary aids, assistive technology, physical/mobility aids and other types of accommodations for students with disabilities. Students should contact Disability Access to inquire about the procedure for requesting accommodations. The University recommends the student contact Disability Access at least four weeks prior to the semester for which they are requesting services. However, Disability Access continuously evaluates student documentation and requests for accommodation throughout the school year.

If at any time during the process of application, admission, and enrollment, individuals feel that they have been discriminated against because of disability, they are encouraged to notify Disability Access. Incidents which have occurred more than 120 days prior to making the complaint may or may not be given consideration. To obtain copies of GU’s Informal Complaint Process for Reasonable Accommodation or the Formal Grievance Procedure, please contact the Disability Access office.

Disability Access is located in Foley Center Library, 2nd floor, Room 209 and is at extension 4134. Visit the Disability Access website.

**International Students**

Gonzaga welcomes applications from international students. Non-native English speaking students must present evidence of English proficiency sufficient for graduate-level work. Gonzaga University requires the Test of English as a Foreign Language (TOEFL) and that the official scores be sent from ETS. In lieu of the TOEFL, Gonzaga will accept satisfactory completion of Level 108 of the University’s English as a Second Language program with a grade point average of at least 3.00 and the recommendation of the ESL faculty. Applicants should submit transcripts in both their native language and an English translation. Photocopies are not accepted as official documents and may not be used for evaluation purposes.

In addition, Gonzaga University requests international applicants provide documentation of sufficient funds for academic and living costs while staying in the United States for at least the academic year (two consecutive full-time semesters) via the Financial Declaration form. On this form, students state that they have access to a certain amount of available funds as well as the source(s) for these funds. Students must provide documentation regarding the source of funding such as written notification from a sponsor or a certified bank statement.

In order to process an I-20 form, the University requires a completed Financial Declaration form and supporting documents. The University program director collects the information and accompanying
documents; when the student is accepted, the program director forwards the documentation to International Student Programs, which prepares and mails the I-20 to the student. The student must report to the International Student Programs Office immediately upon arrival to receive a travel signature and to have immigration information collected.

The Student Health Center

The Student Health Center provides medical treatment and evaluation for illness and minor injuries. Additionally, the staff of the center is actively engaged in providing the campus community with programs and education to promote physical and mental health and well-being. Staffed with a physician, nurse practitioner, and registered nurses, services are offered each weekday throughout the year except during holidays. These caring individuals are here to provide individualize, confidential treatment and consultation. If you need referred to a specialist or for additional care, this service is provided as well. All registered students may use the Student Health Center. Refer to the Center’s website for hours of operation.

The Student Counseling Center

The Student Counseling center offers short-term personal counseling to all registered students who are experiencing any concerns which may be impeding their successful academic progress. These issues may include a wide-range of topics including: depression, alcohol or substance abuse, eating disorders, chronic psychological conditions, or the need for connection to longer-term therapeutic relationships in the Spokane community. The Center is staffed with fully licensed counselors and a part-time psychiatrist. Refer to the Center’s website for hours of operation and instructions on how to schedule appointments.

LGBT Resource Center

The LGBT Resource Center provides a safe, supportive educational environment to the entire Gonzaga community and for those individuals who identify as lesbian, gay, bisexual, transgendered, or are questioning their sexual orientation. Gonzaga’s approach to sexual orientation is drawn from the NonDiscrimination Policy, the commitment to human diversity, Catholic social teaching, and a commitment to helping students develop their whole selves. LGBT students may have special needs that require purposeful care. In accordance with our Catholic, Jesuit, humanistic mission these are addressed with concern and individualized attention, this is central to our mission and role on campus. The LGBT Resource Center is located inside the John J. Hemmingson Center and is an integral part of enhancing the institution’s educational commitment to creating an inclusive community where human differences can thrive in an environment of respect. Some examples of the annual programs offered by the LGBT Center are: Safe Space Training, Always Our Children Retreat, and intentional advocacy and ally development.

Center for Community Action and Service Learning (CCASL)

For almost twenty years CCASL has been putting Gonzaga’s mission into action through a wide spectrum of volunteer and service-learning projects. CCASL’s programs offer you the opportunity to develop a personal
commitment to service, social justice, and leadership. We take seriously the Jesuit mission of forming, “women and men for and with others.” You can find our office in the Hemmingsson Center. CCASL serves as a resource center for students, faculty, alumni, and community partners. Housed within CCASL are the following initiatives:

**The Office of Academic Service-Learning:** Gonzaga University has offered service-learning courses for over 15 years. These classes are taught across the curriculum and offered by the various schools, including the Law School. Over 1700 students are actively engaged in service-learning each year. This office coordinates the Fall Service Fest, and the Spring Service Fair, which brings 80-100 non-profit agencies come to campus to recruit student volunteers.

**Gonzaga Mentoring Initiative:**
For over 15 years, this program has brought well-trained, caring college students together with the school youth in the Spokane community. Beginning in 1995 with Campus Kids at Stevens and Logan Elementary, the program has grown to include seven distinct programs in 12 of the Spokane public schools.

**Co-Curricular Student Engagement:**
This enrichment program allows you to take part in service-learning projects working with individuals with developmental disabilities, the homeless, and the elderly on issues of faith and justice. These projects can be one-day interactions or extended on-going projects.

**Service Immersion:**
These programs are meant to be “life-changing” and there are three opportunities to take part each year. The first of these is for first-year students, prior to orientation, called Reality Camp. The second opportunity is called Justice in January and is offered during Christmas Break. The final one is called Mission: Possible, is offered during Spring Break. These programs visit 13 different locations across the country and give you the chance to experience integrated learning on specialized topics (eg: environmental studies, Native American studies).

**Unity Multicultural Education Center (UMEC)**

The work of UMEC plays an essential role in developing and expanding Gonzaga’s commitment to recruit, nurture, and retain students, faculty, administration and staff from traditionally underrepresented demographics. UMEC’s intentional efforts and co-curricular opportunities provide the necessary tools that help build and enhance cultural competency and an appreciation of the value of human difference. The primary purpose of the center is to proactively assist and provide leadership towards; supporting an inclusive campus community, enhancing cultural competency, and increasing diversity awareness.

The staff of UMEC is actively engaged with the greater Gonzaga community in promoting the value of diversity in its many forms and offers programs and resources that animate our institutional commitment to social justice. Some examples of these include: presentations in classrooms and residence halls, events/programming, workshops/training, mentors, retreats, and advocacy. On-going programs throughout the year include:

BRIDGE (pre-orientation)
LEADS Mentoring  
Multicultural Honors Society  
Speakers Series  
Diversity Monologues  
Study Breaks (during mid-terms and finals)  
Spring Break Alternatives (immersion programs)

**Transfer, Veteran, and Returning Adult Services**

This office serves as your central point of information and provides you with the opportunity and resources to address any questions or concerns you may have about being a transfer, veteran, or returning adult student at Gonzaga University. We understand that transfer, veteran, and returning adult students face unique challenges when returning to college. We are committed to supporting your successful transition to college and to connecting you to the services available at Gonzaga to support your educational journey. We value and appreciate the diverse skills, talent, and knowledge that you bring to Gonzaga University.

**Student Involvement and Leadership**

The Department of Student Involvement is home to:

- The Graduate Student Council (GSC)
- The Crosby Student Center
- Student Clubs and Organizations
- The GU Outdoors

**The Graduate Student Council (GSC)** is comprised of a president and council, who represent the various graduate programs at Gonzaga, the GSC acts as the conduit for voicing student (both on campus and online) concerns to the administration and seeks to improve graduate education and student life at Gonzaga University. The GSC encourages scholarship and professional development by administering scholarships to students attending and/or presenting at conferences. The GSC also organizes many academic and social events throughout the year.

**The Crosby Student Center** opened in 1993 and from the beginning it has been the “living room” of the campus. Crosby is the place to go to find out what’s going on. It is where you can just hang-out with friends or sit with faculty and staff to discuss the hot topics of the day.

Inside the center, you’ll find the following offices: University Ministry, the Career Center, Student Involvement and Leadership, the First Year Experience office, GU Outdoors, and the Gonzaga Student Body Association (GSBA). In addition, you’ll be able to take advantage of the various meeting rooms, lounges, programming areas, and study areas. Crosby also houses the University Mail service and student mailboxes, the central information desk, a variety of quick snack options (Grab & Go), and Ticket Central, where you’ll be able to purchase discounted tickets for events on and off campus. For more information visit our website at [www.gonzaga.edu/Student-Development/Get-Involved/crosby-student-center/](http://www.gonzaga.edu/Student-Development/Get-Involved/crosby-student-center/)

**Student Clubs and Organizations:** Gonzaga currently has over 100 active and recognized student clubs that cover a wide range of interest. GSBA and the office of Student Involvement and Leadership work together to provide support and services for all student clubs and their members.

Visit the Zagtivities site to view all the clubs and organizations that are available, and to learn how to sign up!

Curious about starting a club? Check out Gonzaga's Student Group Policy. If you have questions about
guidelines, policies, processes and/or resources for Gonzaga University Student Groups, check out the Gonzaga University Student Group Manual. For more information visit our website at www.gonzaga.edu/Student-Development/Student-Activities/clubs-organizations

GU Outdoor strives to keep the outdoors as accessible as possible by providing inexpensive gear rentals, subsidized outdoor adventures, and educational clinics. Their goal is to give as many students as possible the opportunity to enjoy the beautiful local surroundings. A few of the activities offered by Gonzaga Outdoors focus on: Skiing/snowboarding, snowshoeing, hiking, backpacking, kayaking, biking, fishing, rock climbing, and more.

The Gonzaga Outdoors office is located in lower Crosby. Contact us at 509-313-4189 or outdoors@gonzaga.edu

The Career Center

The Career Center provides students and alumni with career support, opportunities and connections, translating the Gonzaga experience to meaningful life’s work. Some of the services offered by the Career Center are:

- Career Preparation Workshops
- Employment Recruitment Internship Programs
- Career Fairs
- Employer and Job Searches
- ZagTrax
- Electronic Files
- Individual Career Counseling
- Career Center Representatives
- Resumania

GAMP is a career development and networking resource for students and alumni. This award winning program assists you in exploring alternative career fields and in developing a personal network of contacts by matching you with alumni mentors. The program has over 2000 participating alumni that represent a broad range of careers, experiences, and geographical locations. These mentors are willing to help you clarify academic and career decisions with real-world knowledge and experience. By taking part in this program you will gain realistic and current information from these Gonzaga graduates. You will also begin to develop the relationships you’ll need to help you in the transition from school to the professional world of work. This program is intended for all majors and you are encouraged to use these services throughout your college experience.

GAMP also organizes regional career development and networking events in Spokane, Portland, Seattle, New York, San Francisco, and San Jose. In addition, GAMP oversees a program in corporate excursions called “Trek” – this offers you the opportunity to take part in social networking and meet executives from some of the top employers in the region.
**Campus Public Safety and Security Department**

Affectionately called CAMPO, this department facilitates the safety and security of students, staff, faculty, visitors and the property of the university. As part of the Division of Student Development, the Safety and Security department supports the educational and developmental missions outlined by the VP of Student Development. The department is open 24 hours a day, 365 days a year. Officers make regular checks of all university buildings and grounds with an emphasis on the residence halls and areas where students gather. Other services provided from this office are: safe escorts from location to location (on campus), jump starts, alarm checks, and suspicious activity investigations. CAMPO works closely with the Spokane Police Department to coordinate criminal investigations and for requests of police services outside the authority of this department. They also work collaboratively with all local law enforcement and emergency service providers. To contact the office of Public Safety and Security dial (509) 313-2222.

**Programs of Study**

- **College of Arts and Sciences**  
  Master of Arts in Philosophy

  Master of Education in Special Education Master of Initial Teaching  
  Master of Initial Teaching, Special Education

- **School of Engineering and Applied Science**  
  Master of Engineering in Transmission and Distribution Engineering

- **School of Nursing and Human Physiology**
Academic Citizenship

Academic Freedom of Students

Freedom of Expression: Students are free to take reasoned exception to the views offered in particular courses of study. They may, however, be required to know thoroughly the particulars set out by the instructor, but are free to reserve personal judgment as to the truth or falsity of what is presented. Knowledge and academic performance should be the norms by which students are graded.

Academic Honesty

A complete copy of the policy can be found at https://www.gonzaga.edu/campus-resources/Offices-andServices-A-Z/Academic-Vice-President/AcademicHonestyPolicy2002.pdf.

Grade Appeal

Students must maintain standards of academic performance set forth by the University if they are to receive the certificate of competence implied by course credits and degrees. The instructor is the usual and competent judge of these matters. But students must be protected against the rare case of unjust grading and evaluation. Allegations of unfair or prejudiced grading may be brought to the attention of and reviewed by the department Chair, by the Dean of the appropriate school and, if necessary, by the Academic Vice President, whose decision is final.

Minimum/Maximum Course Loads

Full-Time Status: The normal course load of a regular full-time graduate student is six semester credits.

Good Academic Standing, Unsatisfactory Academic Progress, Probation, and Academic Dismissal

Students are on Academic Probation whenever the term and/or cumulative GPA earned falls below a 3.00. To be in Good Academic Standing with the University, students must maintain a term GPA of 3.00 as determined at the end of every semester, beginning with the completion of the student’s second semester.
at Gonzaga University. Good Academic Standing is required for all graduating students, and it may impact a student’s ability to receive financial aid, or to represent Gonzaga in extra-curricular activities.

Students with unsatisfactory progress, may be subject to academic dismissal from the University. A notation of “Academic Dismissal” will appear on grade reports and transcripts. Dismissed students have an opportunity for appeal.

Those receiving financial aid also may be subject to Financial Aid Satisfactory Academic Progress Probation and/or Suspension, which may result in additional financial consequences.

**Satisfactory Academic Progress for Veterans**

Veterans failing to achieve minimum standards of academic progress are placed on probation for the following semester and notified via email by the University’s Veterans’ Advisor. The Department of Veteran Administration will be notified should a veteran fail to achieve satisfactory academic progress subsequent to the initial probationary period and benefits will be suspended until satisfactory progress standing is attained.

**Class Attendance Policy**

Students are presumed to have sufficient maturity to recognize their responsibility for regular class attendance. Since illness or other good reasons may prevent attendance, Gonzaga University has a standard policy on absences. However, students should check the syllabus for each course to confirm the instructor's specific attendance policy, which should be clearly delineated within each syllabus, and which cannot be more restrictive than the GU policy.

Gonzaga's policy on absences stipulates that the maximum allowable absence is two class hours (100 minutes) for each class credit. For three credit classes the maximum absence is, therefore, six class hours (300 minutes). Classes scheduled to meet for more than 50 minutes have more than one class hour for each meeting; for example, a class which meets for 75 minutes has one and one-half class hours for each scheduled meeting. Instructors may report absences to the Registrar’s Office which will in turn notify the students. The grade given for excessive absences is a “V”, which has the same effect as “F” (Fail) and is counted in the GPA. This outcome can be appealed to the Dean of the College/School in which the course is offered. Instructors are encouraged to work with individual students to ensure academic success.

Participation in school activities or athletics does not exempt students from this standard policy on absences. The fact that a student has met the other course requirements (such as papers) is not sufficient to change a "V" to a passing grade. The University Class Attendance Policy may be modified for qualified students with documented short or long term disabilities. For more information or case consultation, contact Disability Access.

**Final Examinations**

Final examinations are held at the end of each semester. Final examination times are listed for each semester on the Registrar’s Office web pages. Students making their travel arrangements for the end of each semester must take into account these final examination times.
Final examinations or their equivalent can be administered by instructors only on the day and at the time indicated in the Final Exam Schedule; any exceptions to this procedure must have the explicit approval of the appropriate Dean.

Enrollment Verifications

On average, six times each semester the Registrar’s Office transmits enrollment data to the National Student Clearinghouse for enrollment verification of students with federal and state loans. The Registrar’s Office, upon timely notice, will also provide to any student a letter verifying his/her enrollment status to any agency. Students may print out their verification for insurance providers by accessing the National Student Loan Clearinghouse link through ZAGWEB.

General Academic Information

Please refer to the specific programs for admission requirements, time requirements and advanced and transfer credit information. Information pertaining to the Law School is published in the School of Law Student Handbook and Catalogue available from the Law School Registrar.

Admission to Candidacy

Upon completion of 12 credit hours of approved graduate work, a student may be admitted to candidacy. Candidacy will be denied and the student dropped from the program if the GPA is less than 3.00 or if the student’s performance is unsatisfactory. Students who have not been fully admitted to a degree program may not earn beyond 12 credits without such admission. The Program Director will inform those students not admitted to candidacy. A student may not transfer to a new program if he/she has been admitted to candidacy. Exceptions can be made with the approval of the Program Director and the Dean.

Degree Requirements

- Earn a minimum cumulative grade point average of 3.00.
- Only degrees and courses from a regionally accredited institution will be accepted.
- For most programs undergraduate and post-baccalaureate level courses may not be counted toward a graduate or doctoral degree. Students majoring in the post-baccalaureate DNP degree program may use post baccalaureate coursework toward completion of the post-baccalaureate DNP degree unless the coursework was used toward completion of another academic credential (i.e. degree or certificate).
- Courses used in the completion of a previous degree program may not be reused.
- Fractional credit is never rounded on a cumulative GPA and major GPA nor on the total minimum credits required for a Gonzaga degree.
- Course attendance is not allowed without official registration and financial confirmation.
- Payment of all indebtedness to Gonzaga University, the return of all equipment to the appropriate entity, and the return of all books to Foley Library are required prior to a prospective graduate’s departure from Gonzaga. Holds may be placed on transcripts and diplomas for any of these or other deficiencies.
- Formal application for graduation: students must file an application and pay the graduation application fee according to the instructions and dates published by the University Registrar. Degrees will be awarded upon completion of all requirements as of March, May, June, August, October, or December, with one public commencement ceremony held on the second Saturday in May.
- Once a student has graduated from the University and a degree has been posted, no further change can be made to the academic record (i.e. grade changes).
Time Requirements for Degrees

All work accepted toward a degree is to be completed within a five-year period from the date of acceptance into the program or from the first semester of graduate-level enrollment, or advanced credit, whichever comes first. Students who wish to appeal to use course work older than five years will need to appeal to their Dean.

The Doctor of Nursing Practice (DNP) program requires completion of the post-master’s DNP within a five-year period from the date of acceptance into the DNP program or from the first semester of enrollment into the DNP program. Students who wish to appeal to use course work older than five years will need to appeal to their Dean. Students in the post-baccalaureate DNP option have seven years from the date of acceptance into the DNP program or from the first semester of enrollment to complete degree requirements. Students who wish to appeal to use course work older than seven years will need to appeal to their Dean.

Challenge of Courses

Graduate-level courses may not be challenged.

Repeating Courses for Improved Grade

A graduate student can repeat any course with another course of the same designation, in an effort to improve the GPA. The original course and grade will remain recorded on the student’s transcript but will not be counted into the student’s GPA. The cumulative credits and GPA will be adjusted to reflect the last credits and grade earned. Courses for which a student received a grade carrying no quality point value, such as W, (X prior to Fall 1996), and AU, may be re-taken in subsequent semesters; these grades are not included in the repeat course policy jurisdiction. Courses taken as direct instruction also do not qualify under this policy. Only courses re-taken at Gonzaga University qualify to improve the GPA.

Individualized Study

Students may undertake individualized study if it is considered necessary to complete their program. Application for individualized study must be made on a form available from the Registrar's Office. It is the responsibility of the student to demonstrate the relevancy of the proposed study and the ability to complete it within an agreed upon time line. For most master’s programs, the student is allowed a maximum of two individualized study courses (six credits) for degree completion.

Extension and Correspondence Courses

Courses taken in extension or by correspondence are not allowed as credit toward graduate degrees. In exceptional cases, the Academic Vice President may waive this regulation if recommended by the Program Director and Dean.
Thesis Information

Graduate students who are preparing their theses for publication will work with their respective Program Directors.

Grading

A student’s scholastic standing in each subject is determined by the combined results of examinations, assignments, class participation, and general evidence of regular and consistent application. Due weight is given not only to the degree of subject mastery manifested by the student but also to the ability to communicate orally and in written form.

Faculty are expected to be able to explain how final grades are calculated through the accumulation of points or percentages assigned in the evaluation of graded work. To indicate a student’s qualify of achievement in a given subject, final grades, in the form of letters and plus/minus indicators, are used by all instructors in the University’s graduate programs. The letter grades A, A-, B+, B, B-, C+, C, C-, D+, D, F and V are assigned a “quality point value” for purposes of cumulative grade point average calculations, certification and consistency of grade assignment and reporting.

</tbody>
</table>

Grade awarded to students who complete the term and the course but fail to achieve course objectives.

S (Satisfactory) Passing grade of B or higher (not computed in GPA)

P (Pass) Passing grade of B or higher (not computed in GPA)
NS (Non Failing Satisfactory) (computed in GPA)  
grade of B- or lower  
W (Withdrawal)  
RD (Report Delayed) (not computed in GPA)  
AU = Audit  
No credit hours earned; does not apply toward a degree; the “AU’ grade is not an option for instructors. Students must register for this grade mode no later than the close of Registration Period III which runs through the drop/add period. 
I = Incomplete  
May be given when a student with a legitimate reason (determined by the instructor) does not complete all the work of the course within the semester that he/she is registered for the course. The faculty member notifies the Registrar’s Office with the reason for the “Incomplete” grade, lists the missing material, and assigns a provisional grade that will be assigned thirty (30) calendar days into the following semester (summer sessions are not included). Requests for a date extension beyond the published date for removing incompletes must be approved through the appropriate Dean’s Office and the Academic Vice President. Approved extensions will then be sent to the Registrar’s Office for processing. Forms for this action can be obtained from the Registrar’s Office by the instructor. If the instructor does not submit an extension or a new grade before the published date or time extension lapses, the provisional grade will be recorded on the student’s transcript. If a provisional grade has not been provided, the “I” grade becomes an “F” grade and is recorded on the transcript as an “I/F”. Whenever an “I” grade has been assigned, the “I” grade becomes part of the permanent record. i.e. “I/B”, etc. 
IP- In Progress  
Assigned for courses such as Research, Comprehensive, Thesis, Dissertation and Proposal Seminar, DPLS 730, 735-736, and for other courses recognized by a Program Director/Dean as eligible due to the nature of the course and the need for more than a semester to complete the course work. Instructors must indicate the deadline for completion of the work. If no grade is submitted within one year, an “IP” automatically becomes a “W” (unofficial withdrawal). Requests for time extension beyond the deadline must be submitted by the instructor to the Registrar’s Office by completing the Extension form and obtaining signatures from the dean of the school the course falls under as well as the Academic Vice President. Once the course is complete and graded, the Change of Grade form needs to be processed and the grade will be entered on the student academic record by the Registrar’s Office.  
P = Pass  
Designated elective courses may be taken on the Pass/Fail grading option by student request, not that of the instructor. Students select this option before the drop/add registration period closes by completing the appropriate paperwork in the Registrar’s Office. Letter grades assigned by instructors that are 'B' or higher are converted to 'P' grades at the end of the semester and grades of B- or below are converted to 'F' grades. The 'P' grade does not calculate into the grade-point average and the credits earned count toward the minimum number of credits required to graduate. The 'F' (fail) grade affects the cumulative GPA as a standard 'F' grade. S/NS = Satisfactory/Non Satisfactory
Certain courses are designated by academic departments for Satisfactory (S)/Non Satisfactory (NS) grading only. This is not a grading option that students choose. This is the grade mode determined by a department/school. The “NS” grade has the same effect as an “F” (failing) on the GPA. An “S” grade does not affect the GPA, and the credits earned are counted toward the total needed to graduate. Courses using this grade mode will not be converted to a standard grade.

**RD = Report of Grade Delayed**

If an instructor fails to assign a grade for a course and the grade entry is left blank, the Registrar’s Office will assign an “RD” and the “RD” will remain a part of the student record until the earned grade has been received by the Registrar’s Office. To submit the grade, a Change of Grade form is required along with the Dean’s signature. **V = Unofficial Withdrawal**

Grade awarded to students who have not officially dropped or withdrawn from a course and consequently have not met class attendance requirements or participation in the course through the end of a semester. The grade is given at the discretion of the professor. Students should not assume that professors will automatically initiate course drops/withdrawals for non-attendance.

**W = Withdrawal**

No penalties incurred. Not included in the attempted or earned GPA.

**Grade Point Average**

Graduate programs require a 3.00 cumulative grade point average in course work approved for the degree program. Students failing to meet the minimum grade point average will be considered on probation for one semester, may lose veteran benefits, and may be dropped from the program. Credits which carry a letter of C-, D, F, AU, W, V, IP, I, or RD do not count toward a graduate degree. The grade point average is determined by dividing cumulative quality points earned in authorized courses by the cumulative credits attempted in authorized courses. Letter grades (AU, W, I, IP, and RD) do not count as credit hours attempted and quality points are not awarded.

**Transfer of Credits**

Graduate students may transfer credits into their program with the approval of their Program Director, the Dean of the students program, and the Registrar’s Office. A maximum of 1/5 of program credits (usually six credits for graduates, 12 credits for doctoral) may be transferred.

Course work must be distinctively graduate level by the transfer institution and must have been taken within the last five years from a regionally accredited institution. A minimum grade of a B (P grades must be defined as B or better) must be earned. Courses previously applied to a degree are not transferable to the student’s current program. It is important to note that all credits converted to semester credits, are not rounded up and are awarded only after signature approval for transfer of the course have been obtained on the Permission to Transfer Graduate Credit form. Transfer credits are used in the calculation of the graduate grade point average but are not entered on the student’s transcript until the student has been admitted to candidacy.
Non-Gonzaga Transcripts

Based on standard institutional practice, copies of transcripts from other educational institutions attended by Gonzaga students and housed in their student file, will not be provided back to the student upon their request. Students are asked to contact the issuing institutions directly to obtain further copies of their transcript records.

Change of Grade

A change of grade requires a Change of Grade form signed by both the instructor and the Dean of the school in which the course was offered. Grades are normally changed only because of calculation error or failure to take into account a significant amount of student work.

Full-Time Status

In general, students must be registered for a minimum of six credits per semester to be considered fulltime.

Tuition and Fees 2015 - 2016

Included in tuition is a $20 non-refundable Student Development Fee.

Tuition, per credit:

Doctoral Programs: (per credit) .................................................................
  Doctor of Philosophy in Leadership Studies ....................................... $995
  Doctor of Nursing Practice .............................................................. $935
  Doctor of Nurse Anesthesia Practice .............................................. $935

Master’s Programs: (per credit) ............................................................
  Business and Nursing ................................................................. $935
  Communications and Organizational Leadership ....................... $900
  Education, Engineering, Sport and Athletic Administration .......... $925
  MA/TESL - Fall/Spring ............................................................... $900
  Philosophy .................................................................................. $810
  Theology and Leadership ........................................................... $700

Post Baccalaureate tuition ................................................................. $925

Application Fee:
  Master’s Programs .......................................................................... $50
  Doctoral Program .......................................................................... $50

Deposit to Confirm Acceptance:
  Master of Anesthesiology Education ............................................. $200
  Graduate Nursing Programs ...................................................... $200
  Masters of Sport and Athletic Administration Program .............. $200
  School of Education Programs .................................................. $100
This deposit is required of all new students after they have received notification of tentative acceptance and is credited to the tuition of the first semester. The deposit is not refundable if the student does not enroll.

Room and Board

For information contact the Student Accounts Office.

Miscellaneous

The University reserves the right to change any costs without notice. It further reserves the right to withhold student information, including transcripts of record and diploma’s, until said student’s account has been paid in full. No student will be allowed to register for an ensuing semester if a balance is owed for a prior semester.

A finance charge of 12% per annum pro rata (365 days) on any amount more than thirty days past due, or a re-billing fee of 1% of the amount due or $2.00, whichever is greater, will be added to a student’s account. A no payment/no arrangement fee of 3% of the amount due will be charged to a student not meeting the established payment deadlines.

Financial Information

Student Costs and Payment Options

The University’s cost of providing a Gonzaga education is not borne solely by student tuition and fees. The annual Jesuit community gift, endowment income, and gifts of many types from individuals, firms, and foundations constitute some of the other revenue sources essential for a balanced budget. However, revenue from student charges constitutes most of Gonzaga’s income. Student charges (less verified financial aid) are payable in full in U.S. dollars on a per semester basis, no later than three weeks prior to the beginning of the term. Knowing that payment in full presents a burden for many parents and students, Gonzaga offers two installment plans which cover the academic year and spread payments over a period of eight or ten months.

Eight and Ten Month Installment Plans

With each of these payment options, estimated tuition, room, and board expenses for the academic year are set up in equal monthly installments. The plans require an application and fee. There is, however, no interest charged. Verified financial aid is deducted from the total amount due.

The application deadline for the 10 Month Installment Plan is June 1st. Payments begin July 1st and run through the following April.
The application deadline for the 8 Month Installment Plan is August 3rd. Payments begin September 1st and run through the following April. December graduates or students enrolling in the spring semester for the first time should contact Student Accounts for semester payment options. Students who are admitted to the University after the application deadlines given above may apply within two weeks of their acceptance date.

Note: All charges are payable in U.S. Funds. Student Accounts accepts cash and checks for payment on account. Electronic payment is also available which includes e-Check at no charge to the student and credit card payment through American Express, MasterCard, Discover and VISA with a 2.75% service fee. For additional information, go to: www.gonzaga.edu/studentaccounts and click on the ‘Billing and Payment’ link.

Third Party Sponsors
A student whose account will be paid by a corporate or foreign sponsor, a government agency, a religious institution, a scholarship foundation or trust account, requires proof of sponsorship in the Student Accounts Office to confirm their classes.

Refunds
Graduate level students completely withdrawing from the University must obtain a Complete Withdrawal form from the Registrar’s Office. Tuition adjustments are calculated in Student Accounts. Final adjustments are based on the effective dates of withdrawals and exclude non-refundable fees. Room and Board is prorated throughout the semester. Laboratory fees are not refunded after the first full week of classes. Financial aid funds are refunded in accordance with federal, state, and University regulations. The tuition adjustment schedules for dropped courses and complete withdrawals is posted at www.gonzaga.edu/studentaccounts and is also available in the Student Accounts and Financial Aid Offices.

Financial Aid
For those students who need assistance in meeting the expenses of a Gonzaga graduate education, the University strives to provide as much financial aid as possible on an equitable basis.

Applying for Admission
A student must be admitted to a graduate program before financial aid can be offered; however, a student may apply for admission and financial aid concurrently in order to expedite the process.

Financial Aid Application
The Free Application for Federal Student Aid (FAFSA) is the required application for most financial aid programs. In order for Gonzaga to receive FAFSA data to determine eligibility for financial aid, applicants must list Gonzaga University, Spokane, Washington, federal school code “003778” in the School section of the FAFSA. The FAFSA is available on the internet at www.fafsa.ed.gov. The completed forms are evaluated by the U.S. Department of Education and are forwarded to the University with the student’s expected
contribution. The Financial Aid Office then compares the expected contribution to the cost of attendance to determine the amount of financial aid for which the student is eligible.

Application Deadlines
There is no established financial aid deadline for graduate students; however, it is recommended that a student submit the forms to the federal processor between January 1st and March 1st each year for the following fall semester. Early application ensures that the funds will be available for fall registration. A student must reapply each year.

The Financial Aid Package
Once financial need has been established and the student is accepted for admission, the Financial Aid Office makes an award offer to the student via email. This offer generally includes loan funds and any scholarships or graduate assistantships of which the Financial Aid Office has been notified.

Loans
Federal Direct Unsubsidized Stafford Student Loans: The Unsubsidized Stafford Loan is a non-need based loan where the student is responsible for interest that accrues. The interest may be paid while in school or capitalized by adding it to the principal balance. The maximum loan is $20,500 per year, but may be adjusted due to receiving other financial aid, or by the student’s total cost of attendance. The FAFSA and a separate promissory note are required. The interest rate for the Federal Direct Unsubsidized Stafford Loan is 6.21% and starts accruing from the time funds are disbursed. The promissory note can be completed online at www.studentloans.gov.

Graduate Direct PLUS Loan: A federal loan available to graduate students who show an absence of a negative credit history. The maximum amount of a Graduate PLUS is the total cost of attendance less any other aid received for the academic year. The Graduate PLUS loan accrues interest from the date of disbursement at a rate of 7.21%. Monthly payments may be deferred while the student borrower is enrolled as at least a half-time student. Students must first borrow from the Federal Direct Stafford Loan program before applying for a Graduate PLUS loan. The FAFSA and a separate application and promissory note are required. Students can apply for this loan and complete the promissory note at www.studentloans.gov around mid-April.

Federal Nursing Loans: These loans are available to graduate nursing students with financial need. The Federal Nursing loan carries a fixed interest rate of five percent, with no accrual of interest while enrolled at least half-time. Students have a nine month grace period after their enrollment drops below less than half-time before monthly payments are required. Minimum monthly payments of at least $40 per month and interest begin after the grace period.

Alternative Loans: There are several non-need-based private loan programs for graduate students. These loan programs offer a choice of variable interest rates and repayment plans tailored to meet the student’s needs. Approval is subject to lender credit criteria. Approval of the private loans by the lender is based upon the creditworthiness of the student. For a list of lenders that have helped Gonzaga students in the past, please see our website.
Off-Campus Employment
The Student Employment Office maintains listings of off-campus jobs and can assist students in finding employment while in school. These are regular job openings available in the community for appropriately qualified students.

Graduate Assistantship Awards
Graduate assistantships are offered in several departments and schools. Each department or school determines if the assistantship is paid as a scholarship (which reduces tuition charges), or as a work award (that is paid as wages). Students receiving their assistantship as wages may elect to have their salary directly transferred to their student account by arranging this transfer through the Payroll Office. Applications for assistantships should be directed to the school or department in which a student enrolls.
Residence Hall Assistantships are also available to qualified graduate students through the Office of the Vice President of Student Development. Assistantships pay board, room, and in certain cases, a monthly stipend. Please contact the Student Development Office.

Satisfactory Academic Progress
The Higher Education Amendments of 1992, and the Washington State Higher Education Coordinating Board, require that a student receiving federal and/or state assistance must demonstrate satisfactory academic progress (SAP). In general, SAP is defined as “proceeding toward successful completion of degree within a specified period.” The policies and procedures governing SAP and its relationship to financial aid are available from the Financial Aid Office, College Hall Room 129. Students with additional questions regarding this policy are invited to inquire at the Financial Aid Office. For more about SAP please refer to these policies.

GONZAGA UNIVERSITY CONFIDENTIALITY OF RECORDS POLICY

The Family Educational Rights and Privacy Act of 1974 (FERPA), also known as the Buckley Amendment, is a federal law regarding the privacy of student education records and the obligations of the institution, primarily in the areas of release of records and access provided to these records.
The intent of the legislation is to protect the rights of students, and to ensure the privacy and accuracy of education records. The Act applies to all institutions that are recipients of federal aid administered by the Secretary of Education.

EDUCATION RECORDS
Any record maintained by Gonzaga that contains information that is personally identifiable to a student (in whatever format or medium) is considered to be an education record with some narrowly defined exceptions to include the following:
- Sole possession records or private notes held by a school official that are not accessible or released to other personnel.
- Law enforcement or campus security records created and maintained by a law enforcement agency for a law enforcement purpose.
- Employment records of an individual who is employed by the institution unless the employment is contingent on student status.
- Medical/psychological treatment records.
- Alumni records created after the student has graduated or left the institution.

**STUDENT RIGHTS**
At Gonzaga, FERPA rights belong to the student who is in attendance beginning with his/her first day of class regardless of age. The definition of a student applies to all students including continuing education students, students auditing a class, distance education students, and former students. FERPA affords students the following basic rights in respect to their education record:
- Right to inspect and review their education record maintained by the school.
- Right to request an amendment to the record that the student believes are inaccurate or misleading.
- Right to consent to disclosure of personally identifiable information.
- Right to file a complaint with the U.S. Department of Education concerning alleged failures to comply with the requirements of FERPA.

**CHALLENGING THE CONTENT OF EDUCATION RECORDS**
A student who wishes to challenge information in their records must submit, in writing, a request for a hearing to the appropriate office maintaining the record, listing the specific information in question and the reasons for the challenge.
Hearings will be conducted by a university official who has no direct interest in the outcome of the hearing. Students shall be afforded a full and fair opportunity to present evidence relevant to the reasons for the challenge.
The hearing officer will render a decision, in writing, noting the reason and summarizing all evidence presented within a reasonable time frame after the challenge is filled.
Should the hearing be in favor of the student, the record shall be amended accordingly. Should the request be denied, an appeal may be made in writing, and submitted to the university registrar within 10 days of the student’s notification of the decision of the hearing officer. The appeal shall be heard by an appeals board of three senior university officials and a decision rendered, in writing, within a reasonable period of time.
Should the appeal be in favor of the student, the record shall be amended accordingly. Should the request be denied, the student may choose to place a statement with the record commenting on the accuracy of the information in the record and/or setting forth any basis for inaccuracy. When disclosed to an authorized party, the record will always include the student’s statement and notice of the board’s decision, as long as the student’s record is maintained by the University.

**PARENT RIGHTS**
Once a student reaches the age of 18 or begins their attendance at a postsecondary institution regardless of age, FERPA rights transfer from the parent to the student. Parents can obtain information from their child’s education record if the student has submitted a signed consent form to the Registrar’s Office or if proof of
dependency status has been provided through the receipt of a copy of the most recent income tax statement by the Registrar’s Office.

SCHOOL OFFICIAL
A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted as its agent to provide a service instead of using University employees or officials (such as an attorney, auditor, or collection agent); a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. Upon request, the University also discloses education records without consent to officials of another school in which a student seeks or intends to enroll.

LEGITIMATE EDUCATIONAL INTEREST
When a school official requires access to a student’s record in order to perform their instructional, supervisory, advisory, or administrative duties. FERPA allows universities to give school officials who have legitimate educational interest access to education records without the written and signed consent of the student.

DIRECTORY INFORMATION
Those data items that are generally not considered harmful or an invasion of privacy if disclosed. Each institution establishes what it considers to be directory information. Gonzaga University does not authorize distribution of listings of student names with addresses and/or telephone numbers to any entity outside of the University unless it is required by law or otherwise allowed by FERPA. Gonzaga has deemed the following information as directory information:

1. Student name
2. Addresses & phone numbers
3. E-mail addresses
4. Place of birth
5. Major field of study
6. Dates of attendance
7. Full or part time enrollment status
8. Year in school (class)
9. Degree(s) received
10. Scholastic honors and awards received
11. Other educational institutions attended
12. Visual images (through photographs or videos)
13. Height and weight of athletic team members

Directory information may be published in a student directory or event program and released to the media and to the public for enrolled students. Every student is given the opportunity to have directory information suppressed from public release through their signed consent on a form available from the Registrar’s Office. With this agreement, the information will not be disclosed unless authorized under the Family Educational Rights and Privacy Act of 1974 (FERPA).
ANNUAL NOTIFICATION
Gonzaga notifies eligible students annually of their rights under FERPA. Gonzaga provides this notification to each student via e-mail and through publications such as the University catalogues.

College of Arts and Sciences
Dean: Elisabeth Mermann-Jozwiak
Associate Deans: Matt Bahr, Patricia Terry

The College of Arts and Sciences offers graduate programs on both a full-time and a part-time basis. The Master of Arts degree is available in Philosophy. The Department of Religious Studies offers the Master of Arts degree in Theology and Leadership.
Philosophy

Chairperson: Jay Ciaffa
Director of the Philosophy Graduate Program: David Calhoun
Professors: M. Alfino, B. Henning, T. Jeannot, D. Kries, W. Pomerleau, T. Rukavina (Emeritus), M. Tkacz, R.M. Volbrecht

Master of Arts in Philosophy

The Master of Arts program in Philosophy builds on the central place of philosophical study in Gonzaga's Jesuit, Catholic, humanistic identity. Through coursework, supervised study, examinations, and a thesis, the program stresses understanding of the main problems of philosophy as they emerge in the history of philosophy, knowledge of the major figures and movements of the history of philosophy, and attention to contemporary philosophy and social and applied ethics. The program’s focus on fundamental questions of reality, knowledge, and the good promotes skills of reflection and self-examination, and prepares students for critical engagement with and across human cultures. These goals reflect the mission of the Philosophy Department and the mission and identity of Gonzaga University, particularly the goals of intellectual inquiry, development and discipline of the faculties of intelligence and moral judgment, and intelligent and morally informed leadership. The program provides students with resources to make use of philosophical concepts and skills in a variety of career contexts, including Ph.D. studies in philosophy and related disciplines, such as theology, law, and politics, and philosophy teaching at the introductory university or community college level.

The Master’s degree is offered on a full-time or part-time basis during the regular session. While many courses offered in the Gonzaga Master of Arts program are cross-listed with undergraduate courses, a Graduate Seminar restricted to graduate students only is offered each fall and spring semester. A limited set of graduate-level philosophy courses is also available during summer.

Admissions

Each applicant must submit the following materials:

1. A completed application form and a non-refundable application fee.
2. Two official transcripts from each college or university attended (international applicants must submit foreign transcripts in the original language and an English copy). Only degrees and courses from a regionally accredited institution will be accepted.
3. Three letters of recommendation sent directly from the recommending individual.
4. The official score from the GRE general aptitude test or MAT (must be less than five years old), a requirement which may be waived if the applicant has an advanced degree.
5. Submission of an official TOEFL score of at least 100 ibt or 250 cbt or 600 pbt by each international applicant who has graduated from a foreign college or university and whose native language is not English.
6. Submission of a financial declaration form and supporting documentation by each international applicant.
7. Personal statement of philosophical background and interest.
8. A sample of philosophical writing (no more than 3500 words).

Prerequisite

B.A. with major (or acceptable background) in Philosophy from a regionally accredited college or university.

Requirements

Completion of the Master of Arts degree in Philosophy from Gonzaga University requires:

1. 30 credit-hours of philosophy: 24 hours of graduate level course work, six hours for the thesis (PHIL 699).
2. Registration in the Graduate Seminar each semester in which the student is taking course work.
3. Successful completion of a comprehensive examination (including written and oral components)(PHIL 697).
4. Successful completion of a logic exam, testing skills up to and including the predicate calculus (PHIL 695).
5. The M.A. program has no foreign language requirement, but a thesis director may require a student to have competency in translating texts from a foreign language into English depending on the student’s thesis topic.

PHIL 501 ‐ History of Ancient Philosophy  credits: 3
A survey of major figures and developments in ancient Greek and Hellenistic philosophy from Thales to Plotinus, using texts in translations. Fall.
PHIL 505 ‐ History of Medieval Philosophy  credits: 3
A survey of the major philosophical movements in the Latin, Greek, and Arabic traditions from the seventh to the fourteenth centuries. Attention is given to bibliography and methodology for research in medieval philosophy. Spring.
PHIL 509 ‐ Social Justice  credits: 3
This course will critically consider famous theories of justice, as well as their applications to some social and moral problems.
PHIL 510 ‐ History of Modern Philosophy  credits: 3
A survey from Descartes through Hegel. Fall.
PHIL 516 ‐ Marxism  credits: 3
Some major writings of Marx, the social and intellectual history of Marxism, the relationship between Marxist theory and revolutionary practice, and contemporary problems in Marxism.
PHIL 517 ‐ C.S. Lewis  credits: 3
This course examines Lewis the Christian intellectual as his participation in the Christian theistic tradition and his philosophical training exhibit themselves in his fictional, philosophical and theological works.
PHIL 518 ‐ Walker Percy  credits: 3
This course examines both fiction and non-fiction works by Walker Percy (1916-1990), with particular emphasis on his development of existential themes and C.S. Peirce's semiotics. We investigate Peter Augustine Lawler's description of Percy as a proponent of "postmodernism rightly understood."
PHIL 520 ‐ Contemporary Philosophy  credits: 3
A survey of major figures from the post-Hegelian period to the present. Spring.
PHIL 521 ‐ American Philosophy  credits: 3
A study of major figures in the American philosophical tradition.
PHIL 524 ‐ Existentialism  credits: 3
The movement from Kierkegaard to the present.
PHIL 525 - Phenomenology  
Some proponents of phenomenological philosophy stemming from Husserl.

PHIL 526 - Existential Psychology  
A study of important existentialist philosophers and their influence upon psychology and psychologists.

PHIL 528 - Philosophical Hermeneutics  
Allied with phenomenology, philosophical hermeneutics struggles not only with interpreting patterns of meaning in classical philosophical texts, but also with interpreting patterns of meaning in human existence based on the model of the text.

PHIL 530 - Metaphysics  
A systematic ordering and development of the perennial questions concerning being and existence; unity, diversity, truth, value, causality, and transcendence; and the existence and nature of God.

PHIL 534 - Chinese Philosophy  
A survey of the history of Chinese philosophy focusing on the Confucian tradition and taking other traditions such as Taoism and Buddhism into account.

PHIL 538 - Philosophy of Love and Friendship  
Survey and analysis of influential accounts of love and friendship, including treatments of erotic/romantic love, friendship, and charity, within a framework provided by C.S. Lewis classic study 'The Four Loves'. Special attention will be given to the relation between views of love and the nature of happiness, proper treatment of others, human desire and psychology, character, self-love, and religious devotion.

PHIL 540 - Theory of Knowledge  
Problems, positions and synthesis of the modes of human knowledge.

PHIL 541 - Symbolic Logic  
The study of modern symbolic logic (propositional and predicate). Metalogical issues (the syntax and semantics of formal systems) are discussed.

PHIL 546 - Philosophical Reflections on Christianity and Science  
Philosophical inquiry into the historical relationship between Christian religious doctrine and the knowledge imparted by the sciences, with focus on particular episodes such as the Galileo affair and the Darwinian revolution.

PHIL 565 - Philosophy of Religion  
A study of the nature of religious experience and practice, and how religious language and belief relate to science, morality and aesthetics. Included is also a study of what is meant by 'God,' divine attributes and proofs for and against God's existence.

PHIL 567 - Faith and Reason  
This course will address a cluster of fundamental problems of faith and reason--the nature of knowledge, especially in connection with religious claims, evidence for the existence of God, the relevance of recent advances in cosmology to the Christian world view, the problem of evil and suffering, and the challenge of atheism.

PHIL 577 - Graduate Seminar  
A seminar will be scheduled for graduate students in philosophy each fall and spring semester. Topics will vary. Class size is limited to allow for greater student participation and writing.

PHIL 578 - Philosophy of Technology  
This course in applied philosophy involves reflection and self-understanding of our technology-saturated world. Examinations of well-known philosophers' writings on technology will be covered. Course goals include a deeper, more reflective understanding of the nature of technology, its role in our lives, its ethical implications, its political ramifications and its relation to society.

PHIL 579 - Graduate Seminar  
A seminar will be scheduled for graduate students in philosophy each semester. Topics will vary. Class size is limited to allow for greater student participation and writing.

PHIL 585 - Philosophy in Film  

Many current films raise first-order philosophical questions or issues, though few films are particularly good at solving those same problems or resolving the conflict underlying the issues. This course seeks to explore many contemporary films (none older than "Blade Runner") and the philosophical issues they raise, both by their explicit content and by their implicit content. Metaphysical issues about the mind and body relationship, the nature and extent of free will, and the nature of personal identity will be included. Some epistemological issues having to do with how well we can expect to have access to reality, and what might be among the impediments to the access, will also be included. The course generally avoids treating ethical or moral issues, but also takes an interest in the use of the emotions in films, the treatment of violence and human sexuality in films, the nature of comedy in films. Some attention will also be given to film techniques, especially from the point of view of the audience.

PHIL 586 - Seminar
Topics will vary.

PHIL 587 - Seminar
Topics will vary.

PHIL 588 - Seminar
Topics will vary.

PHIL 611 - Continuing Research credit: 1
PHIL 690 - Directed Study credits: 1-7
Credits and material to be arranged. Must have form completed before registering.

PHIL 695 - Logic Requirement
credit: 0

PHIL 697 - Comprehensive Examination
credit: 0

Students must register via ZAGWEB for comprehensive exams.

PHIL 698 - Research
credit: 1-9

PHIL 699 - Thesis
credits: 6

Students must register via ZAGWEB for Thesis credits.
Religious Studies

Chairperson: Robert Hauck
Associate Professors: R. Hauck, S. Kuder, S.J., M. Rindge, J. Sheveland, A. Wendlinder
Assistant Professors: E. Clark, S. Dunn, E. Goldstein, A. Hughes, J. Mudd
Senior Lecturer: P. Baraza, V. Thompson

Master of Arts in Theology and Leadership

The Department of Religious Studies at Gonzaga University offers the Master of Arts in Theology and Leadership degree to meet the needs of persons seeking greater understanding and practical knowledge of theology and leadership. This program is designed as a terminal degree or as preparation for doctoral studies. Students enter the program as members of a cohort and progress through the program together. Students gather on campus during the summer for two residency experiences. Courses usually required for a degree can be waived by a Graduate Program Director when these areas have been previously studied in depth.

This program provides graduate theological education and leadership formation for teaching, consulting, research, and development of theological resources for ministry, adult education programs, and other services to the church and the wider civic community. Graduates of these programs have combined their theological work with diverse career commitments, including church ministry, journalism, medicine, community service, chaplaincy, business and law, among others.

Admissions

Applicants must submit the following materials:

1. A completed Gonzaga University Master of Arts in Theology and Leadership application.
2. $50.00 non-refundable application fee.
3. Two confidential letters of recommendation sent by the recommending persons directly to Gonzaga University using the official Religious Studies Confidential Recommendation Form.
4. A three to five page piece of the applicant's written academic work (in English). A complete paper is not required; it should be a piece of what the applicant considers a good example of his/her writing/research ability.
5. A one page statement of purpose (in English) responding to the following:
   a. Describe your interests in Theology and Leadership.
   b. Assess your current strengths and describe what you hope to gain from the Master of Arts in Theology and Leadership program.
6. The official score from either the Miller Analogies Test or the GRE general aptitude test (must be less than five years old). This requirement may be waived at the discretion of the program director.
7. Two official transcripts from each college or university attended. **International applicants must submit foreign transcripts in the original language and also in English. Only degrees and courses from a regionally accredited institution will be accepted.

International students must also provide the following:

1. Proof of English proficiency which can be satisfied by one of the following options:
   a. TOEFL score of 550 or more if graduated from foreign college and where the native language is not English.
   b. Proof of undergraduate studies (transcript) in the United States
2. Completed Financial Declaration with original supporting bank statements.

Prerequisites

An application is not complete and will not be evaluated until all materials have been received by the Office of the Dean of the Virtual Campus. Materials or fees submitted to another party do not constitute application to the program.

Applicants should have a B.A. in Religious Studies, Theology, or related area.

Applicants may be eligible for advanced standing of up to 6 credits for related graduate work as determined by the graduate program director(s). Applicants seeking advanced standing must petition the graduate director(s) in writing at the time of application.

Program Requirements

Students enter the program as members of a cohort and register for six credits per semester.

All work accepted toward a degree is to be completed within a five year period from the date of acceptance into the program, or from the date of the earliest course accepted transfer credits, whichever occurs first.

Students in a degree program are required to maintain a minimum grade point average of 3.0. Students who fail to maintain a 3.0 cumulative grade point average may be put on probation or dismissed from the program. Credits which carry a letter grade of C-, D, F, AU, X, V, IP, RD or I will not be counted toward a graduate degree.

Only authorized courses for a degree will be counted in computing the grade point average. Courses not authorized will appear on the transcript with a letter grade awarded but will not affect the graduate grade point average.

Residency Experiences

1. Students will participate in two residency experiences during the summer.
2. During the first residency experience students will participate in the intensive residency portion of the 3 credit Christian Leadership core course.
3. During the second residency experience students will participate in a 1-credit Leadership Seminar of their choice.

Comprehensive Exam

1. Students who have completed their core courses will take a comprehensive exam.
2. The comprehensive exam will be based on a bibliography developed in consultation with the student's advisor. The exam will be administered online, and assessed by a three person faculty committee including the student's advisor, and graded pass/fail.
3. Students who fail the exam will have one opportunity to retake the exam within six months.

Financial Aid

The department has a limited amount of financial aid in the form scholarships. They are based on financial need and academic performance.

Program Outline: 40 credits

ORGL 518 Transforming Leadership
One of the following summer seminars: 3 credits

(Summer On-site)

RELI 606 Mission Leadership Seminar

RELI 607 Ministry Leadership Seminar

RELI 698 Thesis 1 credit

RELI 699 Thesis 2 credits

RELI 500 - Research Methods in Religious Studies  credit: 0
An orientation to techniques and resources for research and writing in religious studies. Taken on a pass/fail basis.

RELI 505 - Introduction to Christian Leadership  credit: 1
Taken during summer orientation at the beginning of the student's entry into the program, this course provides an introduction to foundational theological questions related to Christian leadership and organizational theory. Summer.

RELI 506 - Systemic Theology I: God, Humanity, Christ  credits: 3
The first of a two course sequence, this course explores systematic questions regarding the nature of God, God's relationship with humanity, and the person and mission of Christ. Beginning with a consideration of theological method, the course introduces students to both classical texts and contemporary approaches to theological reflection, with a special emphasis on theologies of liberation and social justice. Fall.

RELI 507 - Systemic Theology II: Spirit, Church, World  credits: 3
The second in a two course sequence, this course explores systematic questions regarding the mission of the Spirit in the church and the world, including theologies of history and eschatology, but with special attention to the liturgical life of the church. The course provides a foundation for further studies in ecclesiology, liturgical theology, and ministry through an examination of classical and contemporary texts, paying particular attention to theological methods. Spring.

Pre-requisites: RELI 506 Minimum Grade: C

RELI 509 - Foundation Theology: Special Topics  credits: 3
RELI 510 - Hebrew Bible/ Old Testament  credits: 3
Examines the theological issues, major themes and development of the Hebrew scriptures.

RELI 511 - Pentateuch  credits: 3
An historical-critical and theological study of the documents which constituted Israel's understanding of covenant with God.

RELI 512 - Prophets of Israel  credits: 3
A survey of prophecy in ancient Israel that focuses on the nature of prophecy, the role and message of the prophets, and the parameters of contemporary prophetic ministry.

RELI 513 - Wisdom Literature  credits: 3
A study of literacy, theological, and historical dimensions of the book of Proverbs, Job, Ecclesiastes, Sirach, and the wisdom of Solomon and their place in the development in Hebrew thought.

RELI 514 - Hebrew Scriptures Special Topics  credits: 3
RELI 515 - Synoptic Gospels  credits: 3
Matthew, Mark, and Luke in their interrelationship and their independent development.

RELI 516 - Johannine Literature  credits: 3
The Gospel of John and the Johannine letters.

RELI 517 - Letters of Paul  credits: 3
Paul's life and theology as reflected in his letters.

RELI 518 - Apocalyptic Literature credits: 3
How to interpret the Book of Revelation and the Epistles of James, Hebrews, Jude, and 1 and 2 Peter. Restrictions:

RELI 519 - New Testament-Special Topics credits: 3 RELI 520 - Trends in Contemporary Theology credits: 3
A selective engagement of current themes and authors who are setting the course for theology in the 21st century.

RELI 521 - Theological Anthropology credits: 3
An investigation into Christian understandings of the human person before God. Topics include creation, image of God, covenant, freedom, sin and grace, incarnation, community, reconciliation, and consummation. Perspectives will include liberationist, feminist and inter-religious anthropologies. Restrictions:

RELI 522 - Christology credits: 3
The key movements in Christology today in the light of scriptural and conciliar teachings. Restrictions:

RELI 525 - Political Theology credits: 3
The critical relationship of religious and political values as foundational; memory, narrative, and solidarity as theological categories. Special emphasis on the work of Johann Baptist Metz with some attention to J. Moltmann and D. Soelle.

RELI 526 - Comparative Theologies credits: 3
This course explores comparative theologies as 'faith seeking understanding' in the context and presence of the persons, texts and wisdom of one or more other religious traditions, with the aims of enacting solidarity with others and encountering fresh theological insights. The course rehearses the history of Christian views of other traditions (Theologies of Religions) and promptly moves forward with concrete experiments in comparison. Possible dialogue partners include Hindu, Buddhist, Jewish and Muslim texts and persons.

RELI 529 - Systemic Theology Special Topics credits: 3 RELI 530 - Christian Moral Theology credits: 3
How does theological ethics inform a Christian understanding of our practical moral life? This course will examine the fundamental concepts of Christian theological ethics and study their application to specific ethical issues and problems.

RELI 535 - Theologies of Social Justice credits: 3
The theologies of justice viewed from multiple perspectives as they understand church and society locally, nationally and internationally.

RELI 539 - Contemporary Ethical Issues credits: 3
RELI 540 - Ecclesiology credits: 3
Study of the church’s ecumenical self-understanding of its nature and function in the contemporary world as reflected in official documents and theological writings.

RELI 545 - Early Church History credits: 3
The historical origins of Christianity and its development to the Reformation.

RELI 546A - Church History from Reformation credits: 3
The figures, ideas, and events that produced the religious challenge to medieval Christendom in the sixteenth century and the subsequent development of Christian belief and practice.

RELI 547 - American Religious History credits: 3
The role of religion in the development of American culture from the colonial period to the present.

RELI 548 - Church History: Special Topics credits: 3 RELI 549 – Church: Special Topics credits: 3
RELI 562 - Liturgical-Sacramental Spirituality credits: 3
The interrelation of liturgical celebration, personal spirituality, and Christian living.

RELI 569 - Liturgy-Sacraments-Special Topic credits: 3 RELI 572 - Christian Spiritual Traditions credits: 3
A study of themes, issues, and selected classic texts in the history of Christian spirituality.

RELI 573 - Contemporary Christian Spirituality credits: 3
A contemporary exploration of human relationships—self, community, world, and God through the lens of Christian spirituality.

**RELI 577 - Contemporary Issues in Spirituality**  
credits: 3  
A dialogue on particular issues in contemporary Christian spirituality based on student research.

**RELI 579 - Spirituality - Special Topics**  
credits: 3  
RELI 581 - Ignatian Spirituality  
The personal spirituality and legacy of St. Ignatius Loyola.

**RELI 582 - Spirituality and Adult Life Cycle**  
credits: 3  
The dynamics of Christian growth in connection with contemporary life-cycle research.

**RELI 606 - Mission Leadership Seminar**  
credit: 1  
This seminar brings together graduate faculty and professionals in the field of mission leadership to discuss the challenges and strategies for mission integration in complex mission-based organizations including Health Care, Education, and Non-profit organizations. Students earning credit for the seminar will produce a major paper during the following Fall semester in consultation with the instructor. Summer.

Pre-requisites: RELI 505 Minimum Grade: C and RELI 506 Minimum Grade: C and RELI 507 Minimum Grade: C and (RELI 510 Minimum Grade: C or RELI 519 Minimum Grade: C)

**RELI 607 - Ministry Leadership Seminar**  
credit: 1  
This seminar brings together graduate faculty and ministry professionals to explore challenges and opportunities in ministry leadership in the fields of liturgical ministry, parish ministry, and teaching. Students earning credit for the seminar will produce a major paper during the following Fall Semester in consultation with the instructor. Summer.

Pre-requisites: RELI 505 Minimum Grade: C and RELI 506 Minimum Grade: C and RELI 507 Minimum Grade: C and (RELI 510 Minimum Grade: C or RELI 519 Minimum Grade: C)

**RELI 611 - Continuing Research**  
credit: 1  
**RELI 690 - Directed Readings**  
credits: 1-3  
**RELI 698 - Thesis**  
credit: 1  
The Thesis will be either a substantial work of theological scholarship or a detailed project (e.g., curriculum, program grant, mission integration initiative) related to the student's particular interest in ministry or leadership in the community. During fall semester, the student will develop a thesis/project outline in consultation with a faculty advisor.

**RELI 699 - Thesis**  
credits: 2  
The Thesis will be either a substantial work of theological scholarship or a detailed project (e.g., curriculum, program grant, mission integration initiative) related to the student's particular interest in ministry or leadership in the community. During spring semester, students will complete their thesis/project and participate in an online peer review forum.

Restrictions:
Must be in the following Level(s):
Graduate Non-Matric
Graduate

**Graduate School of Business Administration**

**Interim Dean:** Kenneth S. Anderson  
**Associate Dean:** Molly Pepper  
**Director, MBA Programs:** Christopher E. Stevens  
**Director, Master of Accountancy Programs, Coordinator of Accountancy Programs:** Gary Weber  
**John L. Aram Chair of Business Ethics:** B. Steverson
Erwin Graue Professor of Economics: K. Henrickson
Kinsey M. Robinson Professor of Business Administration: P. Buller
Pigott Professor of Entrepreneurship: T. Finkle
Assistant Director of Admissions: Stacey N. Chatman

The School of Business was established in 1921 and is accredited by AACSB International - The Association to Advance Collegiate Schools of Business. As stated in its Mission, the School “develops professionally competent and intellectually curious graduates who exemplify the humanistic, ethical, and moral values of a Jesuit institution. We provide a challenging and supportive learning environment, with quality students and faculty marking our excellence. As part of a global environment, we promote relationships with regional, national, and international business and scholarly communities.” To support the mission of the School of Business, the Graduate School of Business strives to develop in graduates the following competencies and qualities:

1. An ability to appropriately apply the advanced technical and analytical skills required for effective managerial decision-making.
2. An ability to integrate ethical perspectives and principles as well as a commitment to the common good into their conception of how business decisions ought to be made.
3. An ability to possess the interpersonal and organizational skills required to effectively manage within organizations.
4. An ability to understand diverse perspectives and the global reach of business decisions.

The majority of graduate classes are offered in the evening with some offerings in the late afternoons. Students can complete degree requirements on either a part-time or full-time basis.

Degrees Offered

- Master of Business Administration (MBA)
- Master of Accountancy (MACC)
- Master of Science in Taxation
- Master of Business Administration/Master of Accountancy (MBA/MACC)
- Master of Business Administration/Juris Doctorate (MBA/JD)
- Master of Accountancy/Juris Doctorate (MACC/JD)
- Master of Business Administration in American Indian Entrepreneurship (MBA/AIE)

For more information visit: www.gonzaga.edu/MBA or www.gonzaga.edu/MAcc

Admission Requirements

Admission decisions are based on the evaluation of the following factors: cumulative grade point average (GPA), Graduate Management Admission Test (GMAT) score, three short essays, two confidential recommendation letters, and resume with relevant work experience. Each applicant must submit the following materials to the Graduate School of Business:
1. A completed application form and a non-refundable application fee (see www.gonzaga.edu/MBA or www.gonzaga.edu/MAcc).
2. Two online recommendations from professors, supervisors or managers.
3. One official set of transcripts from each college or university attended. International students must submit foreign transcripts in the original language and an English copy. A course-by-course report from ECE (Educational Credentials Evaluators) or WES (World Education Services) is to be sent directly to the Graduate School of Business. Only degrees and courses from a regionally accredited institution will be accepted. We will accept e-scrip transcripts.
4. Official Graduate Management Admissions Test (GMAT) score.
5. A professional resume detailing relevant work experience and professional objectives.
6. Answers to the three essay questions on the application.

International Applicants must also submit:

7. An official TOEFL score of at least 88 (IBT), 230 (CBT), 570 (PBT) or an IELTS score of 6.5 or above by each international applicant who has graduated from a foreign college or university and whose native language is not English.
9. In addition, the Graduate School of Business may require a personal interview with incoming international applicants. A deficiency in written or spoken English may be remedied by the successful completion of English and speech courses, which may be required for securing admission.
10. A virtual interview may be required.

Graduate business programs are open to qualified holders of a baccalaureate degree from an accredited institution regardless of undergraduate major field of study. The goal of the admission policy is to select degree candidates who demonstrate high potential for academic and professional success. Students of promise normally exhibit a GMAT score in excess of 500 and at least a 3.00 cumulative grade point average.

A prospective student may enroll for one semester as a non-matriculated student for a maximum of one to two graduate business courses. The Graduate Program Director can elect to confer non-matriculated status to a student of demonstrated potential that has applied for admission but who may not have been able to complete the application process prior to the start of classes.

Tuition refunds are dependent upon the relevant Academic Calendar. Courses offered outside of the advertised semester-long schedule are subject to a refund of tuition that may be different from the standard University schedule.

**Prerequisite Requirements**

**MBA Requirements**

In order to enroll in all MBA course content, MBA students are required to complete the following prerequisite coursework:

- Microeconomics
- Macroeconomics
- Principles of Management
- Principles of Marketing
- Operations Management
- Financial Accounting
Many prerequisites can be completed alongside MBA level course content.

To be waived out of each of the eight pre-requisites below, students must have completed equivalent coursework in the past seven years with a minimum grade of a "C" or have significant work experience in the field.

1. Microeconomics
2. Macroeconomics
3. Principles of Management
4. Principles of Marketing
5. Operations Management
6. Managerial Accounting
7. Business Law
8. Management Information Systems

To be waived out of the three quantitative pre-requisites below, students must have completed them in the past four years with a minimum grade of a “B” or have significant work experience in the field.

9. Statistics
10. Principles of Finance
11. Financial Accounting

Admitted students must consult with their advisor before registering for their first semester in order to evaluate their pre-requisites and to develop a plan for completing them. Pre-requisites can be fulfilled by:

- Successfully completing the appropriate three credit pre-requisite course.
- Successfully completing the appropriate one credit review course (only available for pre-requisites in Statistics, Principles of Finance, and Financial Accounting - must be pre-approved by the advisor).
- Successfully completing a proficiency exam offered by Gonzaga’s School of Business or CLEP exam. Pre-requisite course credits are not counted toward the graduate degree program credits. They must be taken in addition to the 33 credits required for the MBA degree.

**MAcc Pre-Requisite Requirements**

Prior to enrolling in graduate coursework required for the degree program, MAcc students are required to complete the following pre-requisite coursework:

- Microeconomics
- Macroeconomics
- Principles of Management
- Principles of Marketing
- Operations Management
- Financial Accounting
- Managerial Accounting
- Business Law
- Management Information Systems
- Statistics
- Principles of Finance
To be waived out of these pre-requisites, students must have completed equivalent coursework in the past four years with a minimum grade of a "C." Alternatively, students must have completed equivalent coursework in the past seven years with a minimum grade of "B," or have significant work experience in the field.

Admitted students must consult with their advisor before registering for their first semester in order to evaluate their pre-requisites and to develop a plan for completing any that are needed. Pre-requisites can be fulfilled by:

- Successfully completing the appropriate three credit pre-requisite course.
- Successfully completing the appropriate one credit review course (only available for pre-requisites in Statistics and Principles of Finance - must be pre-approved by the advisor).
- Successfully completing a proficiency exam offered by Gonzaga’s School of Business or CLEP exam. Pre-requisite course credits are not counted toward the graduate degree program credits. They must be taken in addition to the 31 credits required for the MAcc degree.

**MBUS Pre-Requisite Grading Policy:**
Starting Fall 2012, all 500 level MBUS courses are graded as Pass/Fail. If a student fails the MBUS 500 level course, it will be treated as an "F" and will calculate into the overall graduate GPA on the transcript. If a student re-takes the MBUS 500 level class and successfully passes it, then the fail grade "F" will remain on the transcript, but will be removed from the overall graduate GPA calculation.

**MACC Pre-requisite Grading Policy:**
The MACC 500 pre-requisite courses are not Pass/Fail. The grading policy will remain the same with traditional letter grades. If a student earns a "C-" or lower in a MACC 500 level course, it will be treated as an "F" and no credit will be given. The F will be calculated into the overall graduate GPA on the student transcript. If a student re-takes the MACC 500 level class and successfully passes it the second time, then the "F" grade will remain on the transcript, but will be removed from the overall graduate GPA calculation and credit will be given.

**MBA Proficiency Exams Grading Policy**
A "C" or better is required to receive a passing grade (professor discretion or 75%)

**CLEP Exam Grading Policy**
A 50 scaled score is required to pass (75%)

**Master of Accountancy (MAcc)**
The Gonzaga Master of Accountancy program provides a strong framework of courses promoting development and enhancement of the intellectual, technical, and interpersonal skills which are critical in
today's business environment. The MAcc program is intended for those who are looking to pursue a career in the audit function of public accounting or in industry.

Current Gonzaga undergraduate accounting majors may apply for the MAcc program during the second semester of their junior year. If accepted into the program, they may take up to nine credits of graduate-level courses during their senior year with the permission of their graduate advisor. Before applying for admission, students should have completed 75 credit hours (including ACCT 360) with a cumulative GPA of 3.20 and at least 2.30 in each upper-division accounting course. Students must be admitted to the MAcc program before enrolling in any graduate-level class.

**Foundation Courses**

The foundation (pre-requisite) courses for the MAcc degree include both business and accounting courses. In addition to the business foundation courses required for the MBA degree, specific accounting foundation courses include the following:

- MACC 560 Intermediate Accounting I
- MACC 561 Intermediate Accounting II
- MACC 563 Cost Accounting
- MACC 565 Federal Taxation
- MACC 564 Auditing

**Degree Requirements**

A total of thirty-one (31) credits of graduate coursework is required for the Master of Accountancy degree. Students must maintain a 3.00 or better grade point average.

Electives*  
*Electives must be approved by the graduate advisor

MACC 560 - Intermediate Accounting I  
An intensive study of financial accounting theory and practice. Topics include recognition, measurement, and reporting and assets, liabilities, corporate equity, revenues and expenses; preparation and analysis of the principal financial statements. Fall and Summer.  
Restrictions:  
Must be in the following College(s):  
School of Business  
Pre-requisites:  ACCT 261 or ACCT 263 or MBUS 560

MACC 561 - Intermediate Accounting II  
Continuation of MACC 560. Spring and Summer.  
Restrictions:  
Must be in the following College(s):  
School of Business  
Pre-requisites:  ACCT 360 or MACC 560

MACC 563 - Cost Accounting  
An examination of the mechanics and application of accounting principles and concepts for planning, control, and decision making. Topics include cost behavior, job, process, and standard cost systems; budgeting and control; and activity-based costing. Fall and Summer.  
Restrictions:  
Must be in the following College(s):  
School of Business  
Pre-requisites:  ACCT 261 or ACCT 263 or MBUS 560

MACC 564 - Auditing  
A study of auditing concepts and practices. Includes audit planning and procedures, EDP auditing, statistical sampling, ethical considerations, and report writing. Fall.  
Restrictions:  
Must be in the following College(s):  
School of Business  
Pre-requisites:  ACCT 361 or MACC 561

MACC 565 - Federal Taxation  
Fundamentals of federal taxation with emphasis on individual taxation and tax planning. Topics include income, deductions, losses, and credits in addition to capital asset and other property transactions. Spring.  
Restrictions:  
Must be in the following College(s):  
School of Business  
Pre-requisites:  ACCT 361 or MACC 561

MACC 590 - Independent Study  
Restrictions:  
Must be in the following College(s):  
School of Business

MACC 600 - Orientation  
This zero credit Orientation is held one evening per semester just prior to the start of classes. It must be taken during the student's first semester in either the Master of Accountancy or Master of Business Administration programs. Topics include an orientation to the Graduate School of Business programs, University facilities available to students, team-building, communications, and case analysis. Fall, Spring, and Summer.  
Restrictions:
Must be in the following College(s):
School of Business
MACC 603 - Financial Accounting for Income Taxes credits: 3
Tax professionals are frequently called upon to review the income tax accrual contained in audit work papers. This course focuses on the basic and some of the more common complexities encountered in accounting for income taxes under FASB Statement No. 109, Accounting for Income Taxes, and FIN 48, Accounting for Uncertainty in Income Taxes. In addition, specialized topics such as tax periods and methods are discussed. Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: (ACCT 361 or MACC 561) and (ACCT 365 or MACC 565)
MACC 604 - Corporate Taxation credits: 3
This course explores the fundamentals of federal taxation as it relates to corporate formation, operations, distributions, and liquidations. Particular attention is given to the operation of S Corporations. The course concludes with a discussion of mergers and spinoffs, particularly in the context of small business corporations.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: ACCT 365 or MACC 565
MACC 605 - Partnership Taxation credits: 3
This course deals with the federal income tax fundamentals of partnership and limited liability company taxation. The course covers formation of, operation of, and distribution from partnership and LLC's, and provides contrast to the problems associated with corporate operations.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: ACCT 365 or MACC 565
MACC 606 - Tax Planning for Wealth Trans credits: 3
This is a survey course involving the federal tax effects of gifts during life and transfers at death. Some work is done in actual planning principles and how federal transfer taxes can be reduced by proper planning. A discussion of estate planning will combine all aspects of the transmission of wealth, both be testate and intestate methods. Consideration will be given to the tax and non-tax problems inherent in property transmission. Fall.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: ACCT 365 or MACC 565
MACC 607 - Real Estate Taxation credits: 3
This course deals with detailed examination of corporate and partnership acquisitions and dispositions. Both taxable and nontaxable events will be explored concentrating upon the small business aspects of such transactions.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: ACCT 365 or MACC 565
MACC 608 - State and Local Tax Concepts credit: 1
This course focuses on the basics of state income taxes, property taxes, and other state and local taxes, with an emphasis on the state of Washington tax structure. In addition, the effect of state and local taxes on multi-state operations is discussed.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: ACCT 365 or MACC 565
MACC 610 - International Tax Concepts credit: 1
This course covers the basics of the taxation of foreign income of U.S. citizens and corporations, and of U.S. source income of foreign persons and corporations. In addition, there is discussion of planning for organization of foreign operations under the tax laws.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: ACCT 365 or MACC 565
MACC 611 - Tax Policy credit: 1
This course will examine the legal, economic, and political considerations relevant to the formulation of U.S. tax policy. Specific topics will be selected from among the following: the concept of income and the tax base; issues relating to the allocation of the tax burden, including equity and distributive justice; tax expenditures; the taxation of capital, including capital gains, corporate taxation and the taxation of income from intangible property; consumption taxation; the tax legislative process; fundamental tax reform; tax compliance and enforcement, including tax shelters; and current tax policy initiatives.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: ACCT 365 or MACC 565
MACC 612 - Tax Theory credits: 2
This course examines some of the key tax doctrines and concepts that underpin the taxation of businesses and individuals, as well as the court cases that created them. Emphasis will be on how those concepts and theories affect taxpayers today. Fall.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: ACCT 365 or MACC 565
MACC 613 - IRS Practice and Procedure credits: 2
This course studies a wide range of tax procedure and IRS practice, including an analysis of the laws pertaining to tax procedure and how the IRS interprets and applies those laws. The course will include descriptions of how the IRS operates. Suggested techniques for representing clients before the IRS are also presented. Fall.
Restrictions:
Must be in the following College(s): School of Business
MACC 634 - Behavior Issues in Managerial Accounting credits: 1-2
Equivalent: MBUS 634
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: (ACCT 260 and ACCT 261) or ACCT 263 or MBUS 560 or MBUS 502
MACC 635 - Business Behaving Badly credit: 1
This course examines the psychological and behavioral problems faced by managers. Students will study job burnout, budgetary slack, and the potential unintended consequences of using accounting numbers in incentive systems.
Equivalent: MBUS 635
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: (ACCT 260 and ACCT 261) or ACCT 263 or MBUS 560 or MBUS 502

MACC 640 – Financial Accounting Research and Practice credits: 2
This course emphasizes the development of research and professional writing skills in the context of the financial accounting standards and relevant interpretations. Fall. Restrictions:
Must be in the following College(s):
School of Business

MACC 641 - Financial Statement Analysis credits: 3
This course provides an overview of the use of financial statement information in business analysis. As such, it will attempt to increase comprehension of financial statements in their related footnotes, introduce several tools and procedures common to financial statement analysis, expand understanding of the relationship between business transactions, environmental forces (e.g., political, economic, social) and reported financial information, examine how financial statement information can help solve certain business problems, and encourage logical and creative thinking about the strengths and weaknesses of information available to decision-makers.
Restrictions:
Must be in the following College(s): School of Business

MACC 660 - Advanced Financial Accounting credits: 3
Advanced topics in financial accounting, theory and practice. Subjects include incorporate investments, consolidated financial statements, international accounting, partnerships, and accounting for governmental and NFP entities. Fall. Restrictions:
Must be in the following College(s): School of Business
Pre-requisites: ACCT 361 or MACC 561

MACC 661 - Professional Writing Workshop credit: 1
This course will emphasize the fundamentals of business writing in a professional accounting environment. Fall and Spring.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: (ACCT 360 or MACC 560) and (ACCT 361 or MACC 561) and (ACCT 363 or MACC 563) and (ACCT 365 or MACC 565) and (ACCT 464 or MACC 564)

MACC 662 - Advanced Managerial Accounting credits: 3
A study of managerial accounting topics using the case methods. Students are required to apply analytic reasoning in designing and evaluating management accounting systems.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: (ACCT 363 or MACC 563)

MACC 663 - Accounting Theory credits: 3
This course examines the hypothetical, conceptual, and pragmatic principles which form the general frame of reference for financial accounting and reporting. Fall.
Restrictions:
Must be in the following College(s): School of Business
Pre-requisites: (ACCT 360 or MACC 560) and (ACCT 361 or MACC 561) and (ACCT 363 or MACC 563) and (ACCT 365 or MACC 565) and (ACCT 464 or MACC 564)

MACC 664 - Professional Ethics credits: 2
This course examines the literature of general and business ethics as well as codes developed specifically for practicing accountants. Attention is given to challenges faced by accounting professionals in both public and corporate practice. Case studies are used extensively to challenge and sensitize students to the issues they are likely to encounter in practice; various methods of understanding and solving ethical dilemmas are considered. Fall and Summer.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: (ACCT 360 or MACC 560) and (ACCT 361 or MACC 561)
MACC 665 - Audit Research and Practice credits: 3
This course examines various theoretical and practical applications of the changing auditing discipline. Authoritative attestation and auditing literature is studied as well as recent PCAOB pronouncements. Case studies are used to consider risk assessment, independence issues, internal control evaluation, and audit processes. This course also emphasizes the development of research and professional writing skills in the context of the assurance function. Spring.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: ACCT 464 or MACC 564
MACC 666 - Advanced Federal Taxation credits: 3
This course covers corporate, partnership, estate and gift, and international taxation. Current issues in taxation relating to both business and individual taxation will be discussed, along with an examination of tax procedure and tax practice. Fall.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: ACCT 365 or MACC 565
MACC 667 - Tax Research And Practice credits: 2
This course encompasses a study of tax research methodology, tax policy, and tax practice. Topic areas include various tax research techniques, tax administration and professional responsibilities, as well as international taxation. Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: ACCT 365 or MACC 565
MACC 668 - Not-For-Profit Accounting credits: 2
This course investigates accounting principles and procedures as applied to governmental and not-for-profit organizations such as universities, health care agencies, and health and welfare organizations. Spring.
Restrictions:
Must be in the following College(s):
School of Business
MACC 669 - IFRS and U.S. GAAP credits: 3
This course builds on intermediate-level coverage of various U.S. Generally Accepted Accounting Principles (GAAP) theory and practice issues dealing with accounting for business, adding coverage of selected advanced topics, then helping students integrate into their understanding of financial accounting similarities and differences between U.S. GAAP and International Financial Reporting Standards (IFRS). Related financial and managerial analysis and control topics will also be covered. Spring.
Restrictions:
Must be in the following College(s):
School of Business
Pre‐requisites:  (ACCT 361 or MACC 561) and (ACCT 363 or MACC 563)
MACC 670 ‐ Fraud and Forensic Examination  credits: 3
This class provides prospective auditors, accountants, and managers with an awareness of the extent and significance of fraudulent activity, and an understanding of the methods and techniques of prevention and detection. Consideration is given to (1) asset misappropriations and other fraud against the company, committed by employees, suppliers, and others, (2) consumer fraud, and (3) fraudulent financial reporting, along with the role of ethics and corporate governance in minimizing fraud. Fall.
Restrictions:
Must be in the following College(s):
School of Business
Pre‐requisites:  ACCT 464 or MACC564
MACC 671 ‐ Forensic Accounting Lab  credits: 3
Called the "Justice for Victims Project," this class is a joint program with members of the community (law enforcement, prosecutors, and local certified fraud examiners), that provides a select group of students with an opportunity to investigate real cases of suspected fraud that are referred by local law enforcement. Students are assigned to teams and are supervised by faculty and by mentors from the Spokane Chapter of the Association of Certified Fraud Examiners. The cases are selected based on financial need of the victim (primarily local small businesses and non-profit organizations). Student teams must complete a written forensic accounting report on their case, an internal control recommendation report for the client, and a formal presentation to law enforcement outlining their results. Enrollment is by application only. Fall and Spring.
Restrictions:
Must be in the following College(s):
School of Business
MACC 672 ‐ Law and Regulation  credits: 3
This course will include coverage of current legal and regulatory issues applicable to practicing accountants. Common law and statutory liability, UCC and contracts, partnership taxation, and antitrust regulation are some of the topics which will be discussed. Spring.
Restrictions:
Must be in the following College(s):
School of Business
Pre‐requisites:  (ACCT 360 or MACC 560) and (ACCT 361 or MACC 561) and (ACCT 363 or MACC 563) and (ACCT 365 or MACC 565) and (ACCT 464 or MACC 564)
MACC 679 ‐ International Accounting  credits: 2‐3
This course will compare and contrast accounting and financial reporting under International Financial Reporting Standards and U.S. GAAP, using official pronouncements, cases, and problems.
Restrictions:
Must be in the following College(s):
School of Business
Pre‐requisites:  (ACCT 360 or MACC 560) and (ACCT 361 or MACC 561)
MACC 690 ‐ Directed Study  credits: 1‐3
Guidelines are available in the Graduate School of Business Office. Requirements must be met before registration. Summer.
Restrictions:
Must be in the following College(s):
School of Business
MACC 694 ‐ Team Building Intensive  credits: 2
This intensive, 2-credit course combines the highly interactive, challenge activities and in-class and outside assignments. Summer.
Restrictions:
Must be in the following College(s):
School of Business
MACC 695 - Management Consulting credits: 3
Practicum in providing management assistance to businesses and non-profit organizations in marketing, management, finance, accounting, information systems, operations and related case problems. The course will also examine the management of the consulting process and the role of the consultant as an agent of organizational change. Restrictions:
Must be in the following College(s):
School of Business
MACC 696 - New Venture Lab credits: 1-3
The New Venture Lab (NVL) Internship provides graduate students with a venue to apply the skills they have developed during their educational endeavors by allowing them to collaborate with local entrepreneurs on a variety of consulting projects. Students can choose to do the internship for 1 to 3 credits; each credit requires 60 hours of work. The NVL is an unpaid internship. As with any internship, students must complete an application and interview process in order to be considered for the NVL Internship Program. Restrictions:
Must be in the following College(s):
School of Business
MACC 697 - Internship credits: 0-3
Relevant work experience is required that is commensurate with a student's professional interests. Guidelines and criteria are available from the School of Business Administration Internship Director. Restrictions:
Must be in the following College(s):
School of Business
MACC 699 - Special Topics credits: 1-3
These seminars offer coverage of current topics of importance to the accounting profession. This course may be repeated for credit with a change in subject matter.
Master of Science in Taxation

The Gonzaga Master of Science in Taxation (MST) program is designed to equip students with a strong technical skill set, enhanced communication skills and a framework with which to approach the complex problems and issues faced by taxpayers in today’s global economy. Significant emphasis is placed on issue identification, problem solving, and tax planning. The program also seeks to assist students in the preparation for the CPA examination.

Current Gonzaga undergraduate accounting majors may apply for the MST program during the second semester of their junior year. If accepted into the program, they may take up to nine credits of graduate-level courses during their senior year with the permission of their graduate advisor. Before applying for admission, students should have completed 75 credit hours (including ACCT 360) with a cumulative GPA of 3.20 and at least 2.30 in each upper-division accounting course. Students must be admitted to the MST program before enrolling in any graduate-level class.

Foundation Courses

The foundation (pre-requisite) courses for the MST degree include both business and accounting courses. In addition to the business foundation courses required for the MBA degree, specific accounting foundation courses include the following:

- MACC 560 Intermediate Accounting I
- MACC 561 Intermediate Accounting II
- MACC 563 Cost Accounting
- MACC 565 Federal Taxation
- MACC 564 Auditing

Degree Requirements

A total of thirty-one (31) credits of graduate coursework is required for the Master of Science in Taxation degree. Students must maintain a 3.00 or better grade point average in order to progress through and to graduate from the program.

Tax professionals are frequently called upon to review the income tax accrual contained in audit work papers. This course focuses on the basic and some of the more common complexities encountered in accounting for income taxes under FASB Statement No. 109, Accounting for Income Taxes, and FIN 48, Accounting for Uncertainty in Income Taxes. In addition, specialized topics such as tax periods and methods are discussed.

Pre-requisites: MACC 561 and MACC 565

This course explores the fundamentals of federal taxation as it relates to corporate formation, operations, distributions, and liquidations. Particular attention is given to the operation of S Corporations. The course concludes with a discussion of mergers and spinoffs, particularly in the context of small business corporations.

Pre-requisites: MACC 565

This course deals with the federal Income tax fundamentals of partnership and limited liability company taxation. The course covers formation of, operation of, and distribution from partnership and LLC's, and provides contrast to the problems associated with corporate operations.

Pre-requisites: MACC 565

This is a survey course involving the federal tax effects of gifts during life and transfers at death. Some work is done in actual planning principles and how federal transfer taxes can be reduced by proper planning. A discussion of estate planning will combine all aspects of the transmission of wealth, both be testate and intestate methods. Consideration will be given to the tax and non-tax problems inherent in property transmission. Pre-requisites: MACC 565

This course will survey several important areas related to the federal income taxation of property transactions. Emphasis will be on federal income tax treatment of sales and other dispositions of property, including deferred payment sales and non-recognition transactions. Potential specific topics include depreciation, the effect of debt on basis and amount realized calculations, characterization, limitations on loss allowances, like kind exchanges, involuntary conversions, installment sales and leasing. Pre-requisites: MACC 565

This course focuses on the basics of state income taxes, property taxes, and other state and local taxes, with an emphasis on the state of Washington tax structure. In addition, the effect of state and local taxes on multi-state operations is discussed.

Pre-requisites: MACC 565

This course covers the basics of the taxation of foreign income of U.S. citizens and corporations, and of U.S. source income of foreign persons and corporations. In addition, there is discussion of planning for organization of foreign operations under the tax laws.

Pre-requisites: MACC 565

</table>
This course examines some of the key tax doctrines and concepts that underpin the taxation of businesses and individuals, as well as the court cases that created them. Emphasis will be on how those concepts and theories affect taxpayers today. Pre-requisites: MACC 565

MTAX 613 - IRS Practice & Procedure credits: 2.00
This course studies a wide range of tax procedure and IRS practice, including an analysis of the laws pertaining to tax procedure and how the IRS interprets and applies those laws. The course will include descriptions of how the IRS operates. Suggested techniques for representing clients before the IRS are also presented.
Pre-requisites: MACC 565

MTAX 620 - Tax Plans for Business Trans credits: 3.00
This course examines the tax and business planning aspects of taxable and nontaxable transfers of businesses and real estate. Particular attention will be given to planning whether to use asset sales or stock sales, structuring financing for acquisitions and techniques for compensating investors. The course will also explore the taxation of partnerships, S corporations and limited liability companies and their special application to corporate and real estate acquisitions.
Pre-requisites: MACC 565

MTAX 621 - Tax Periods & Methods credits: 1.00
This course examines timing issues related to the Federal income tax, including adoption of the changes in accounting periods, cash and accrual methods of accounting, tax consequences of changing from one method of accounting to another, installment methods of accounting, time value of money issues (original issue discount), the Uniform Capitalization Rules, and accounting for long-term contracts.
Pre-requisites: MACC 565

MTAX 661 - Professional Writing Workshop credits: 1.00
This course will emphasize the fundamentals of business writing in a professional accounting environment.
Pre-requisites: MACC 560 and MACC 561 and MACC 563 and MACC 565 and MACC 564

MTAX 664 - Professional Ethics credits: 2.00
This course examines the literature of general and business ethics as well as codes developed specifically for practicing accountants. Attention is given to challenges faced by accounting professionals in both public and corporate practice. Case studies are used extensively to challenge and sensitize students to the issues they are likely to encounter in practice; various methods of understanding and solving ethical dilemmas are considered.
Pre-requisites: MACC 560 and MACC 561

MTAX 667 - Tax Research & Practice credits: 2.00
This course encompasses a study of tax research methodology, tax policy, and tax practice. Topic areas include various tax research techniques, tax administration and professional responsibilities, as well as international taxation. Pre-requisites: MACC 565
Master of Business Administration (MBA)

The MBA of Choice
Gonzaga's MBA of Choice offers a comprehensive graduate education for professional management in a dynamic and complex economic environment. The program allows students the opportunity to choose among a large selection of electives to design a curriculum which will best satisfy their individual educational and career goals. The program prepares graduates for leadership roles in business and other organizations. The curriculum provides students opportunities to apply concepts, techniques, and practice in the functional disciplines of business. Students are intellectually challenged and taught to develop an appreciation of human behavior in organizations and the responsibilities facing entrepreneurs and managerial decision-makers.

Degree Requirements
To complete the MBA degree program, thirty-three credit hours of 600-level graduate business administration courses are required beyond the pre-requisite courses. Students are expected to maintain a minimum grade point average of 3.00. Degree requirements consist of 22 credit hours of core courses and 11 hours of graduate-level electives.
For more information visit: www.gonzaga.edu/MBA

Elective Courses (Concentration) 11 credits

Total Credits Required – 33 credits
MBA Concentration

In addition to the MBA of Choice, the Graduate School of Business offers the MBA with concentration in Finance (nine credits). Students can complete an emphasis in Ethics, MIS, Supply Chain Management or Sports Management (six credits). The MBA concentration permits a student to tailor coursework to match career and educational goals and interests. The core courses are the same for the concentration as they are for the MBA of Choice. Instead of 11 hours of electives, however, each of this program substitutes additional course requirements. These courses are offered on a two year cycle.

Finance Concentration

9 finance credits + 2 general electives/non-finance

MBA in American Indian Entrepreneurship (MBA/AIE)

The MBA/AIE program prepares leaders to effectively manage and support sustainable business on American Indian reservations. The MBA in AIE program expands student’s analytical skills, critical thinking, and tribal leadership skills in order to successfully address the unique demands facing tribal organizations and communities in a global economy.
The MBA in AIE program was created for faculty and staff at tribal colleges. There are strict criteria for eligibility that ensures students are working for tribal colleges and giving back to their Native American communities. The MBA in AIE is a two year cohort program that requires students come to campus for six weeks in the summer and one weekend during the fall and spring semesters. The remaining course work is completed via distance learning.

Admissions Requirements
An admissions decision* is based on our evaluation of the following factors: cumulative grade point average (GPA), Graduate Management Admission Test (GMAT) score, three short essays, two confidential recommendation letters, and resume with relevant work experience. Each applicant must submit the following materials to the Graduate School of Business:

- A completed application form and a non-refundable application fee (see www.gonzaga.edu/MBA-AIE).
- Two online recommendations from professors, supervisors or managers.
- One official set of transcripts from each college or university attended. Only degrees and courses from a regionally accredited institution will be accepted. We now accept e-scrip transcripts.
- Official Graduate Management Admissions Test (GMAT) score.
- A professional resume detailing relevant work experience and professional objectives.
- Answers to three essay questions.
- Copy of Tribal Enrollment Verification Card (unless teaching at a tribal college)

*To be eligible students must be an enrolled member of a federally recognized American Indian tribe or non-natives working at tribal colleges or native owned businesses. For more information visit: www.gonzaga.edu/mba-aie

Degree Requirements
To complete the MBA/AIE degree program, thirty-five credit hours of 500 and 600-level graduate business administration courses are required beyond the pre-requisite courses. Students are expected to maintain a minimum grade point average of 3.00.

**Total Credits Required: 35 credits**

MBUS 500 - Economic Analysis  credits: 3
Key micro and macroeconomic models which are critical to the development of modern economics are explored. Analysis includes theories of supply and demand, theory of the firm, pricing, employment, monetary and fiscal policy, and international trade and finance. Fall.
Restrictions:
Must be in the following College(s): School of Business

MBUS 500T - Economic Analysis  credits: 3
To familiarize the student with the concepts and tools of microeconomics and macroeconomics.

MBUS 501 - Review of Statistical Concepts  credit: 1
The purpose of this course is to review basic statistical concepts, such as descriptive statistics, probability distributions (binomial and normal), sampling distribution, inferences (point estimates and confidence intervals), hypotheses testing (one-sample tests, two-sample tests), Analysis of Variance (ANOVA), as well as simple linear regression analysis. Furthermore, the course will provide students with hands-on experience in using statistical software (MegaStat) to assist in making effective decisions.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: MBUS 600

MBUS 502 - Review of Financial Accounting Concepts  credit: 1
The review will begin with business transaction analysis, including both non-accounting and technical accounting treatments, leading to a discussion of the accounting cycle and the resulting major financial statements (income statement and balance sheet). The class will then drill down and examine in more detail accounting for (1) accounts receivable and bad debt expense; (2) inventory and cost of goods sold; (3) property, plant, and equipment, and depreciation expense; (4) current liabilities and accrued expenses; (5) bonds payable and interest expense; and (6) transactions with owners. The class will conclude with a discussion of the statement of cash flows.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: MBUS 600

MBUS 503 - Review of Finance Concepts  credit: 1
Basic review of core principles of corporate finance. Topics will include the analysis of risk and return, the time value of money and discounted cash flow analysis, the firm's investment and financing decisions, and the management of working capital.
Restrictions:
Must be in the following College(s):
School of Business
MBUS 510 - Marketing Analysis  credits: 3
This course explores the "process of exchange". Class lectures, readings and assignments acquaint students with important marketing concepts that any organization can use to effectively satisfy consumer needs while also achieving internal objectives.
Restrictions:
Must be in the following College(s):
School of Business
Must be in the following Field(s) of Study:
Accountancy
Business Administration
Must be the following: Post Baccalaureate
MBUS 510T - Marketing Analysis  credits: 3
This course explores the "process of exchange." Class lecture, readings and assignments acquaint students with important marketing concepts that any organization can use to effectively satisfy consumer needs while also achieving internal objectives.
MBUS 520 - Financial Management  credits: 2
The purpose of this course is to provide students with a basic theoretical foundation and tools to employ in financial decision-making. Of primary importance is provision for the necessary mathematical and analytical methods needed to continue into advanced finance courses. These techniques are commonly encountered by professionals in all areas of business management. Also, the thought process and techniques introduced in this class can be readily applied to everyday personal decision-making situations.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: MBUS 600 and (ACCT 260 and ACCT 261 or ACCT 263 or MBUS 560 or MBUS 502)
MBUS 520T - Financial Analysis  credits: 3
The purpose of this course is to provide students with a basic theoretical foundation and tools to employ in financial decision-making. Of primary importance is provision for the necessary mathematical and analytical methods needed to continue into advanced finance courses. These techniques are commonly encountered by professional in all areas of business management. Also, the thought process and techniques introduced in this class can be readily applied to everyday personal decision making situations.
MBUS 560 - Accounting Analysis  credits: 3
This course is intended as an introduction to financial and managerial accounting concepts. Students successfully completing the class will have: a) a general knowledge of accounting concepts and techniques; b) a familiarity with the accounting procedures used to account for most business transactions; c) the ability to prepare basic financial reports; d) an understanding of the uses and limitations of accounting information; e) an understanding of some of the ethical issues in accounting; and f) the ability to provide at least an elemental interpretation of the information contained in a set of financial statements. Spring.
Restrictions:
Must be in the following College(s):
School of Business
MBUS 560T - Accounting Analysis  credits: 3
Professionals in many disciplines are likely to confront accounting and financial management issues regularly in their careers. This course is intended as an introduction to financial and managerial accounting concepts.
MBUS 583 - Legal Environment  credits: 3
This course addresses the legal fundamentals of running a business with particular attention to contracts, partnerships, corporations, property, commercial paper, securities, and the regulatory environment.
Restrictions:
Must be in the following College(s):
School of Business
MBUS 590 - Directed Study credits: 1-3
Guidelines are available in the Graduate School of Business office. Requirements must be met before registration.
Summer.
MBUS 600 - Orientation credit: 0
This zero credit Orientation is held one evening per semester just prior to the start of classes. It must be taken during the student's first semester in either the Master of Accountancy or Master of Business Administration programs.
Topics include an orientation to the Graduate School of Business programs, University facilities available to students, team-building, communication skills, and students will receive pertinent information regarding academic honesty, professional standards, and networking. Fall, Spring, and Summer.
Restrictions:
Must be in the following College(s):
School of Business
MBUS 608 - Introduction Real Estate Investment credit: 1
This course is designed to provide an introduction to real estate finance and investment. Topics covered include an overview of the language, products, historical background, and core concepts in real asset investment and management. Also covered are analytical tools and decision-making techniques in property asset valuation and financing options for various development projects.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: (BFIN 320 or MBUS 520 or MBUS 503) and MBUS 600
MBUS 610 - Econ Environment of the Firm credits: 2
Managers must understand the nature and objectives of the firm in the economy. This course emphasizes how firms are affected by their market structure and how they interface with society, government and the global economy.
Topics are selected from: competitive markets, market imperfections, pricing strategies, game theory, the economic model of human behavior, compensation and incentives, government regulation, fiscal and monetary policy, foreign exchange, and trade policy. Spring.
Restrictions:
Must be in the following College(s): School of Business
Pre-requisites: ((ECON 201 and ECON 202) or MBUS 500) and MBUS 600 and (MBUS 501 or BUSN 230 or MBUS 530)
MBUS 610H - Healthcare Economics credits: 3
Consideration of microeconomic theory to the specialized area of health care. Topics of discussion include what does and does not make health care distinctive as an economic good, the market for health care in theory and practice, and economic proposals to overcome existing market failure. Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: MBUS 505H and MBUS 600
MBUS 612 - Managing People and Performance credits: 2
This course focuses on understanding behavioral concepts necessary for the effective management of people in organizations. Current literature, case studies and simulations will be used to demonstrate application of concepts. Topics covered include perception, motivation, leadership, managing teams and conflict, supportive communication, leveraging diversity and performance management. Fall and Spring. Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: MGMT 350 and MBUS 600

MBUS 612H - Healthcare Management credits: 2
Presentation of the basic concepts and theory underlying effective management practices, particularly those specifically necessary for managing in the healthcare arena. The course will focus on skill such as problem solving, creative thinking, supportive communication, managing conflict, and project management. Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: MBUS 505H and MBUS 600

MBUS 613 - Quantitative and Stats Analysis credits: 2
This course is designed to expose students to the use of spreadsheet-based models and the scientific research process to support problem solving and decision making in a business environment. Emphasis is on the acquisition, analysis, and interpretation of data to solve business problems. Topics include an overview of statistical thinking and basic statistical analysis, analysis of variance techniques, and regression analysis. Case problems may be used to provide practical experience in data analysis and interpretation. Fall and Spring.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: (BUSN 230 or MBUS 530 or MBUS 501) and MBUS 600

MBUS 614 - Business Ethics credits: 2
In general, business ethics is the study of ethical concerns that arise in connection with business as it is currently practiced, typically in a capitalist setting. This particular course, given the audience, will focus on a handful of basic points of interest that relate essentially to the business lives of managers, especially entrepreneurial managers.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: MBUS 600

MBUS 614H - Healthcare Ethics credits: 2
Consideration of the ethical issues facing healthcare managers. Students will have the opportunity to apply ethical principles to the practical management problems frequently found in healthcare settings.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: MBUS 505H and MBUS 600

MBUS 615H - Healthcare Law credits: 2
The course will ensure a student learns about how we currently deliver healthcare in the United States, and the legal challenges facing healthcare providers, consumers, and regulators. The course will cover national healthcare policy, control of and access to healthcare, costs of delivering healthcare, private health insurance and managed care, public healthcare programs (Medicare and Medicaid), the structure of the healthcare enterprise, forms of healthcare business enterprises, and conflicts of interest in healthcare delivery.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: MBUS 505H and MBUS 600

MBUS 615T - Small Business Marketing credits: 3
This course presents practical marketing techniques with a strong theoretical basis. Students will acquire an understanding of how marketing techniques may be adapted effectively for efficient use in small business environments. Issues in buyer behavior and marketing research will be discussed.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: MBUS 510
MBUS 616 - Strategic Management
This is a capstone course designed to apply and integrate concepts and analytical tools that students have studied in their MBA or MAcc coursework. This course adopts a general management perspective to analyze complex business situations, identify critical issues, and develop effective solutions. Consideration is given to ethical dimensions of strategic decision making. The emphasis throughout is on developing strategic thinking skills and understanding the fundamentals for achieving competitive advantage in a dynamic global environment. Completion of the functional core courses required prior to registration and is preferably taken in the student’s final semester. Fall and Spring.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: MBUS 600 and MBUS 600-699 six credits and MGMT 350
MBUS 616T - Tribal Strategic Management
This course adopts a general management perspective to analyze complex business situations, identify critical issues, and develop effective solutions. Consideration is given to ethical dimensions of strategic decision making. The emphasis throughout is on developing strategic thinking skills and understanding the fundamentals for achieving competitive advantage in a dynamic global environment. Completion of the functional core courses required prior to registration and is preferably taken in the student’s final semester. Summer.
Restrictions:
Must be in the following College(s): School of Business
MBUS 617 - Tribal Leadership
This course offers an interdisciplinary and cross-cultural examination of leadership in tribal communities. It will examine the cultural and business implications of the leadership challenge in tribal economic and political systems by addressing the fundamental questions: What are distinguishing theories and practices of effective tribal leadership that define its cultural acumen in postmodern times? Using critical pedagogical strategies, students will study the history causes, structures and consequences of this notion called "tribal leadership."
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: MBUS 600
MBUS 624 - Finance Theory and Practice
This course is designed to develop students' understanding of financial theory and how it can be applied to financial decisions a business must make. Included are such topics as cost of capital, capital budgeting, capital structure and working capital management. Fall and Spring.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: (BFIN 320 or MBUS 520 or MBUS 503) and MBUS 600 and ((ACCT 260 and ACCT 261) or ACCT 263 or MBUS 502) and MBUS 629
MBUS 624H – Management of Healthcare Finance
Application of financial theory and advanced techniques to the managerial decisions of healthcare organizations. Included are topics such as working capital management, cost of capital, risk evaluation, investment decisions, and mergers and acquisitions.
Restrictions:
MBUS 625 - Operations Theory and Practice  
credits: 2-3

The main purpose of this course is to help graduate business students understand the impact of operations in determining the best strategies for the business as a whole. The course covers the main principles and concepts pertaining to such issues as the development of a manufacturing strategy, order winners and order qualifiers, lean manufacturing/thinking and six sigma, process choice and product profiling, supply chain management, manufacturing planning and control systems (MPC), etc.

Restrictions:
Must be in the following College(s): School of Business
Pre-requisites: MBUS 600 and (OPER 340 or MBUS 540) and (BUSN 230 or MBUS 501 or MBUS 530)

MBUS 625H - Healthcare Operations  
credits: 3

The purpose of this course is to help graduate business students understand the impact of operations in determining the best strategies in healthcare. The course covers the main principles and concepts pertaining to such issues as the development of service strategy, order winners and order qualifiers, lean thinking and six sigma, benchmarking, service supply chain management and outsourcing.

Restrictions:
Must be in the following College(s): School of Business
Pre-requisites: MBUS 600 and (BUSN 230 or MBUS 501 or MBUS 530 or MBUS 505H

MBUS 626 - Information Systems Theory and Practice  
credits: 2-3

This course introduces information system theories and explores issues related to managing and using IS functions and resources from a managerial perspective. The course also investigates the overall information resources of an organization and the strategic role of IS in improving/creating competitive advantages. Real world cases that show how companies have put ideas into practice are examined and discussed.

Restrictions:
Must be in the following College(s): School of Business
Pre-requisites: (BMIS 235 or MBUS 535) and MBUS 600

MBUS 626H - Healthcare Information Systems  
credits: 2

This course is designed to introduce students to the complex and diverse world of healthcare by exploring the history, current applications, and the future of information, information management and information technology within the healthcare field. Topics may include: Healthcare information technologies to support clinical processes and decision support; trends in electronic health records and computerized physician order entry systems; integrating digital imaging, laboratory, and pharmacy system for different contexts; patient privacy; system security, and ethical issues. Industry leaders will be invited to share their ideas and experiences with students throughout the course. Restrictions:
Must be in the following College(s): School of Business
Pre-requisites: (BMIS 235 or MBUS 535) and MBUS 600 and MBUS 505H

MBUS 627 - Marketing Theory and Practice  
credits: 2

The emphasis in this course is on marketing decision-making based upon an evaluation of the market, the product, promotion effort, price, and channels of distribution. The course provides essential knowledge of marketing needed by the modern executive. Fall and Spring.

Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: (MKTG 310 or MBUS 510) and MBUS 600
MBUS 628 - Managerial Accounting credits: 2
The principal objective of this course is to explain how accounting data can be interpreted and used by managers in planning, organizing, and controlling organizational activities. The basic processes of cost behavior, product costing, and the use of accounting numbers for performance evaluation will be covered. The intent is not to dwell on accounting procedures; however, a basic understanding of financial accounting and organizational procedures will be necessary to fully understand the concepts covered in this course.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: (ACCT 260 and ACCT 261 or ACCT 263 or MBUS 560 or MBUS 502) and MBUS 600 and (MBUS 501 or BUSN 230)
MBUS 629 - Corporate Financial Reporting credits: 2
Corporate financial accounting theory and reporting practice will be studied. The emphasis will be on the analysis and use of corporate financial reports in business decision-making. Ethical dimensions of corporate financial reporting will be considered, as well as more traditional technical topics, which may include receivables, inventory, long-lived assets, investments, leases, pensions, revenue, recognition, fair value measurements, stock option accounting, or financial derivatives.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: (ACCT 260 or ACCT 263 or MBUS 560 or MBUS 502) and MBUS 600
MBUS 629H - Financial Reporting for HCM credits: 2
The objective of this course is to guide students in understanding healthcare organizations, their accounting and reporting characteristics, as well as the issues pertaining to: performance evaluation, financial reporting analysis, valuation, budgeting, auditing and control. This course will emphasize the understanding of the role of Healthcare Organizations (HCO) and their unique characteristics as well as how financial statements are created, interpreted and analyzed. Thus, this course will teach the theory emphasizing the use of accounting in HCOs as a tool for decision-making and problem solving through the use of analytical and critical thinking. Therefore, students will be expected to demonstrate their knowledge of accounting and financial reporting issues through written and oral analysis. Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: (ACCT 260 or ACCT 263 or MBUS 560 or MBUS 502) and MBUS 600
MBUS 641 - Sports Economics credits: 2
Explores the economic incentives present in professional and amateur sports. Specifically, the business of sports is examined including: revenue maximization, ticket pricing, league structure, stadium financing, advertising, labor relations/player pay, federal anti-trust exemptions, and Title IX. Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: (ECON 201 and ECON 202 or MBUS 500 or ECON 200) and MBUS 600
MBUS 647T - Entrepreneurship credit: 1
The primary objective of this course is to give the student an understanding of the entrepreneurial process. This includes: An understanding of the entrepreneur, an analysis of the role of the entrepreneurship in the economy, business plan development, financing concerns, strategic issues. This objective will be accomplished with a special emphasis on the process as it applies to the American Indian community. Restrictions:
Must be in the following College(s):
School of Business

MBUS 651H - Change Management  
credit: 1
This course examines the strategic importance of a healthcare organization's ability to deal effectively within a framework of complex organizational change. Perspectives of the environment, leadership, culture, process, and human resources will be considered.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: MBUS 600 and MGMT 350 and MBUS 505H

MBUS 654H - Community Health Promotions  
credit: 1
This course focuses on the use of marketing principles and techniques to develop population-based health promotion and disease prevention programs. The emphasis is on learning how to incorporate a marketing orientation to address the diverse range of issues and problems that are encountered in the modern day practice of public health.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: MBUS 505H and MBUS 600

MBUS 655 - Insurance Topics for HCM  
credit: 1
Topics in this course include the economics of insurance and information. We will discuss strategies to manage risk and uncertainty and how profit is affected in an environment of uncertainty. We will learn about how hidden actions and information can lead to moral hazard and adverse selection and how to mitigate these problems. We will discuss how this specifically applies to the health insurance industry. Finally, we will learn about different types of auctions, the optimal bid in these auctions, and the expected revenues from these auctions. Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: MBUS 600

MBUS 660 - Investments  
credits: 2
This course covers the fundamentals of security valuation and analysis, market efficiency, the scientific evidence surrounding investment strategies, and the relationship between risk and return. Trading mechanics, types of trades, and alternative investment vehicles will be discussed.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: (BUSN 230 or MBUS 530 or MATH 121 or MBUS 501) and MBUS 600 and (BFIN 320 or MBUS 520 or MBUS 503)

MBUS 661 - Sustainable Business  
credit: 1
This class includes both the evaluation of financial performance via financial statement and ratio analysis as well as planning for growth and external financial requirements. The derivation of pro-forma statements, cash budgets, and credit analysis and policy, will be covered as will means for evaluating financial alternatives available for meeting a corporation's funding requirements.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: MBUS 600 and MBUS 646 and (MBUS 520 or BFIN 320 or MBUS 503)

MBUS 662 - Advanced Corporate Finance  
credits: 2
The course covers both the theoretical background and practical implications of the central issues in corporate financial management, including capital structure decisions, dividend payout decisions, and asset valuation. Real
options are considered as an enhancement to traditional capital budgeting methods. Also, issues related to security design are covered.

Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: (BFIN 320 or MBUS 520 or MBUS 503) and MBUS 600

MBUS 664 - Derivatives credit: 1
The class focuses on futures, forwards, and options on common stock and foreign currencies. Institutional aspects of derivatives markets, as well as factors influencing the value of these contracts are studied. In option valuation, the Black-Scholes-Merton option pricing model and the Binomial tree model of option valuation are covered in detail. Various portfolio strategies using combinations of call and put options to exploit investors’ expectations of future asset prices are also covered.

Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: (BFIN 320 or MBUS 520 or MBUS 503) and MBUS 600

MBUS 665 - Mergers and Acquisitions credits: 2
This class includes coverage of merger types, their characteristics, and motivations for mergers. The market for corporate control will be introduced, as will the agency problem and how it relates to merger activity. Principles of valuation will be applied to takeovers and some examination of merger law, corporate governance reform, and the scholarly research of M and A's will also be included in the course. Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: (BFIN 320 or MBUS 520 or MBUS 503) and MBUS 600
This course will address a variety of topics related to the subject of Operations. Subjects may include, but will not be limited to: logistics, supply chain management, process flow, project management, quality and operational research methods. The subject of Current Issues in Operations will vary between the Fall and Spring semesters of each year.

Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: MACC 600 or MBUS 600

This course will address a variety of topics related to the subject of Information Systems. Subjects may include, but will not be limited to: the use of systems in decision making, information systems design, the use of data in organizations, and e-commerce and information tools. The subject of Current Issues in Information Systems will vary between the Fall and Spring semesters of each year.

Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: (MACC 600 or MBUS 600) and (MKTG 310 or MBUS 510)

This course will address a variety of topics related to the subject of Managerial Accounting. Subjects may include, but will not be limited to: accounting decision-making tools, the accounting behavior of organizations, forensic accounting, and the communication of accounting information. The subject of Current Issues in Managerial Accounting will vary between the Fall and Spring semesters each year.

Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: (MACC 600 or MBUS 600) and (MKTG 310 or MBUS 510)

This course will address a variety of topics related to the subject of ethics. Subjects may include, but will not be limited to: ethical decision-making, the application of ethics in disciplinary or cultural contexts, and case studies in ethical and unethical business practices. The subject of Current Issues in Ethics will vary between the Fall and Spring semester of each year.

Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: (MACC 600 or MBUS 600) and (MKTG 310 or MBUS 510)

This course provides an introduction to the basic principles of the legal environment within which business operates. The course will cover the historical and cultural development of law, as well as practical applications to current business issues. Although the readings will be highlighted in class, students will bear the major responsibility for text assignments. Classroom discussions should focus more on specific legal issues involving doing business on Indian reservations.

Restrictions:
Must be in the following College(s):
School of Business

This course will address a variety of topics related to the subject of Marketing. Subjects may include, but will not be limited to: buyer behavior, new product promotion, advertising, digital media, creativity, and marketing
communications. The subject of Current Issues in Marketing will vary between the Fall and Spring semesters of each year. Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: (MACC 600 or MBUS 600) and (MKTG 310 or MBUS 510) and MBUS 613
MBUS 685 – Current Issues Financial Reporting credits: 1
This course will address a variety of topics related to the subject of Financial Reporting. Subjects may include, but will not be limited to: the use of financial reporting systems, communication of financial data to stakeholders, and financial strategy. The subject of Current Issues in Financial Reporting will vary between the Fall and Spring semesters of each year.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: (MACC 600 or MBUS 600) and (MKTG 310 or MBUS 510)
MBUS 686 – Current Issues in Management credit: 1
This course will address a variety of topics related to the subject of Management. Subjects may include, but will not be limited to: strategic decision-making, human resources, performance appraisal, negotiations, organizational effectiveness and conflict resolution. The subject of Current Issues in Management will vary between the Fall and Spring semesters of each year.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: (MACC 600 or MBUS 600) and (MKTG 310 or MBUS 510)
MBUS 687 – Current Issues in Entrepreneurship credits: 1
This course will address a variety of topics related to the subject of Entrepreneurship. Subjects may include but will not be limited to; idea development and appraisal, entrepreneurial decision-making, new venture strategy, sales, small business management, and not-for-profit organizational development. The subject of Current Issues in Entrepreneurship will vary between the Fall and Spring semesters of each year.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: (MACC 600 or MBUS 600) and (MKTG 310 or MBUS 510)
MBUS 688 – Current Issues in Economics credit: 1
This course will address a variety of topics related to the subject of Economics. Subjects may include, but will not be limited to: emerging economies, global markets, economic analysis, economic behavior, and economic models of industries and cultures. The subject of Current Issues in Economics will vary between the Fall and Spring semesters of each year.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: (MACC 600 or MBUS 600) and (MKTG 310 or MBUS 510)
MBUS 689 – Current Issues in Finance credit: 1
This course will address a variety of topics related to the subject of Finance. Subjects may include, but will not be limited to; real estate, investments, financial markets, the use of financial modeling tools, valuation, and the role of risk. The subject of Current Issues in Finance will vary between the Fall and Spring semesters of each year.
Restrictions:
Must be in the following College(s):
This course will address a variety of topics related to the subject of International Business. Subjects may include, but will not be limited to: international markets, the impact of government and culture on business, doing business internationally, global logistics, international finance, and ethical decision making in a global economy. The subject of Current International Issues will vary between the Fall and Spring semesters of each year. Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: MACC 600 or MBUS 600

690H - Special Topics  Healthcare  credits: 1-3

These seminars cover topics of importance to healthcare professionals. This course may be repeated for credit with a change in subject matter.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: MBUS 505H and MBUS 600

This intensive, 2-credit course combines the highly interactive, challenge activities and in-class and outside assignments. Summer.
Restrictions:
Must be in the following College(s):
School of Business
Pre-requisites: MBUS 600

Practicum in providing management assistance to small business and nonprofit organizations in marketing, management, finance, accounting, information systems, operations, and related business areas. Student teams will meet with clients and develop a proposal outlining specific objectives and expected outcomes to be achieved. A final written report will be presented to the client outlining their analyses and recommendations along with implementation strategies. This course will bring Native American Entrepreneurs and Business Leaders together in the summer to meet with and talk about the issues in tribal business and learn about their successes and obstacles.
Restrictions:
Must be in the following College(s):
School of Business
Dual Degree Programs

Master of Business Administration/Master of Accountancy (MBA/MAcc)

Students who wish to pursue both the MBA and MAcc degrees may do so through the dual MBA/MAcc program. Students must apply to both programs. Nine credit hours previously earned in either the MBA or MAcc program may be transferred into the other program. The result is that the total credit hours required for both the MBA and MAcc degrees will be reduced by nine. Consequently, the total graduate level credit hours required for both degrees would be reduced from 64 (33 plus 31) to 55.

Master of Business Administration/Juris Doctor (MBA/JD) Master of Accountancy/Juris Doctor (MAcc/JD)

The Graduate School of Business, in conjunction with the School of Law, offers programs leading to the combined Master of Accountancy/Juris Doctorate and the Master of Business Administration/Juris Doctorate degrees. These dual degree programs are designed to meet a two-fold need. On the one hand, there is need for lawyers who are trained in business and in accounting. A legal education may sufficiently equip a person for general law practice or even for certain legal specializations, but the role of the lawyer in relation to business and other institutional needs demands preparation beyond the scope of a legal education. On the other hand, a successful accountant or business executive, skilled in financial and practical decision-making processes, will benefit from a thorough knowledge of the law.

The applicant for either of these dual programs must meet the admission requirements of both the School of Law and the Graduate School of Business. These requirements and the application procedures are contained in the catalogues of each school.

Degree Requirements

Normally, the student will complete one year of Law School before beginning MBA or MAcc classes. The total combined credits must be 112 for the MACC/JD and 114 for the MBA/JD. In both cases, this represents a reduction of nine credits from the 121 or 123, which would be required if the student were to take both degrees separately. No more than six of these nine credits may be waived from either program. With the exception of the reduction in the total number of credits described, all requirements of both schools must be satisfied.

Master of Business Administration and B.S. in Engineering

To meet the need for business knowledge and skills as an enhancement to the technical engineering degree, students with an aptitude for engineering and the capacity to assume management responsibilities may complete a program which leads to the B.S. in one of the disciplines of engineering and Master of Business Administration (MBA). The dual degree program takes five years of full-time study with a Engineering Management degree, but longer for other engineering programs. Students choosing this program must complete their Bachelor's degree in engineering and the required pre-requisite courses in business before being admitted to the Graduate School of Business. Undergraduate students are encouraged to take the MBA pre-requisite courses during their sophomore, junior and senior years and apply for the MBA program during their senior year.
Undergraduate students will not be accepted into the MBA program until they have completed their undergraduate degree and are not allowed to take any 600 level courses until their undergraduate degree is granted. Foundation courses required for the MBA program are:

- ACCT 263  Accounting Analysis
- ECON 200  Economic Analysis
- BUSN 230  Business Statistics
- MKTG 310  Principles of Marketing
- BFIN 320  Principles of Finance
- OPER 340  Operations Management
- MGMT 350  Management and Organization
- BUSN 283  Business Law
- BMIS 235  Management Information Systems

Engineering students who complete BFIN 320 and ECON 200 may have ENSC 300 waived. Additional information about the B.S. in Engineering can be found in the undergraduate catalogue.
School of Education

Dean: Vincent C. Alfonso
Associate Dean: Diane C. Tunnell
Professors: J. Abi-Nader (Emerita), A. Barretto, E. Bennett, J. Burcalow (Emerita), M. Derby, A. Fein (Emeritus), D. Mahoney, T. F. McLaughlin, J. Nelson (Emerita), K. Weber, R. Williams (Emeritus)
Assistant Professors: A. Case, M. Ghoston, C. Johnson, E. Radmer, A. Wissel
Lecturers: B. Burrus, C. Dieter, J. Neyman, K. Nitta, H. Nordstrom,

School of Education Mission Statement
The mission of the School of Education is to prepare socially responsive and discerning practitioners to serve their community and profession.

- We model and promote leadership, scholarship and professional competence in multiple specializations.
- We support an environment that is challenging, inclusive, reflective, and collegial.
- We foster inquiry, intellectual creativity, and evidence-based decision making to accept the challenges facing a global society.
- We provide academic excellence in teaching, advising, service, and scholarship.
- We promote, support and respect diversity.

The School of Education upholds the tradition of humanistic, Catholic, and Jesuit education and this tradition and mission are embodied in our theme statement: Preparing socially responsible professionals who serve with care, competence, and commitment.

Accreditation
All teacher preparation degree programs and elementary, secondary, and advanced certification programs in the School of Education are accredited by the National Council for Accreditation of Teacher Education (NCATE), a specialized accrediting board recognized by the Council for Higher Education Accreditation and the Secretary of the U.S. Department of Education, and fully approved by the Washington State Professional Educators Board (PESB).

The School Counseling, Clinical Mental Health Counseling, and Marriage and Family Counseling master’s programs are accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). The Anesthesiology Education master’s program is accredited by the Council of Accreditation of Nurse Anesthesia Education Programs (COA), part of the American Association of Nurse Anesthetists (AANA). CACREP and COA are accrediting boards recognized by the Council for Higher Education Accreditation and the Secretary of the U.S. Department of Education.

Master’s programs offered in British Columbia, Canada have received consent from the British Columbia Ministry of Advanced Education and the Degree Quality Assessment Board (DQAB). Master’s programs offered in Alberta, Canada have been approved by the Alberta Ministry of Education and Technology, and the Campus Alberta Quality Council (CAQC).

While this catalogue provides students with the most current information regarding School of Education graduate programs, students are advised that programmatic changes are a common occurrence in the field of education and are usually the result of directives from the State Office for the Superintendent of Public Instruction (OSPI) and outside accreditation agencies. The School of Education takes seriously its
responsibility to communicate all changes to students. Students must be sure to meet with their advisors regularly to be in compliance with current regulations.

The School is organized into five departments. Following are the graduate degrees offered:

The Department of Counselor Education
- Master of Arts in Clinical Mental Health Counseling
- Master of Arts in Marriage and Family Counseling
- Master of Arts in School Counseling
- Master of Counselling (site-based, Canada)

The Department of Educational Leadership and Administration
- Master of Arts in Leadership and Administration (site-based, Washington)
- Master of Education (School Administration) (site-based, AB Canada)
- Master of Education in Leadership and Administration (site-based, BC Canada)

The Department of Special Education
- Master of Education in Special Education

The Department of Sport and Physical Education
- Master of Arts in Sport and Athletic Administration (site-based and online)

The Department of Teacher Education
- Master of Initial Teaching
- Master of Education in Literacy

Graduate Admission
The School of Education Graduate Admissions Office processes the applications for all SOE graduate and certification programs offered on-campus and site-based. Refer to the program section in the catalogue for specific admission requirements. Program application deadlines are listed on the School of Education Web site http://www.gonzaga.edu/soe.

The application process for School of Education online graduate programs can be found on the Virtual Campus website http://online.gonzaga.edu/online-masters-sport-and-athletic-administration

Time Requirements for Degrees
All work accepted toward a degree is to be completed within a five-year period from the date of acceptance into the program or from the first semester of graduate-level enrollment, or advanced credit, whichever occurs first.

Advanced Credit
Credit for graduate-level courses completed at Gonzaga prior to admission to a graduate program may be accepted for advancement into the program upon recommendation of the academic advisor. Such recommendation is forwarded to the Dean of the School of Education for final approval. Advance credits are limited to twelve.

Transfer Credit
The School of Education may accept up to one-fifth of the total number of credits required for a degree from another accredited college or university, six credits for most master’s programs. Courses must be clearly graduate level as defined by the granting institution. The subject matter of courses transferred must be relevant to the degree in question, which is determined by the academic advisor. The date of
each course considered needs to be within five years of the beginning semester at Gonzaga. No course for which a grade less than “B” has been awarded may be accepted. Classes graded on a Pass/Fail scale will not be considered unless Pass is equivalent to “B”. Transfer credits are used in the calculation of the graduate grade point average. The School of Education Dean gives final approval for transfer credits. Forms are available from the academic advisor.

Department of Counselor Education

Chairperson: Mark Young

Degrees:

- Master of Arts in Clinical Mental Health Counseling
- Master of Arts in Marriage and Family Counseling
- Master of Arts in School Counseling
- Master of Counselling—Site Based (Canada Only)

Mission Statement for the Department of Counselor Education

The Counselor Education Department is grounded in a rich tradition and history. Aware of the potential for personal, professional, and global transformation, we create and sustain relationships that facilitate excellence in the development of professionalism, service, and growth. Therefore, with intention, we embrace the strengths of all individuals; we invest in services that promote the greater good; we depend on and contribute to the research and practical foundations of the profession; we develop counselors who enter human services and educational environments.

Department Theme Statement

We are practitioners who are intentional in the development of relationships that honor the strengths of all individuals and the promotion of transformational growth.

Admissions

Each applicant must submit the following materials to the School of Education Graduate Admissions office prior to one of the two admission period deadlines for campus classes—Early admissions deadline: January 15th

Regular admissions deadline: March 15th

Site Based Program deadline (Canada): March 15th

- A completed application form (see the School of Education Website: http://www.gonzaga.edu/soe/grad) and non-refundable fee.
- A written statement of purpose addressing the following two topics (one typed page, single spaced):
  a. a description of interests in graduate studies in counseling and relation to the desire to become a counselor; and
  b. an assessment of current strengths as a potential counselor and description of benefits in gaining a counseling master’s degree.
- A minimum of two letters of recommendation to be sent directly from the recommending persons (your employer, professor, supervisor, or colleague) to the School of Education Graduate Admissions Office using the Confidential Recommendation forms (see the School of Education website: http://www.gonzaga.edu).
• One official transcript from each college or university attended (international applicants must submit foreign transcripts in the original language and an English copy), final transcripts must bear a posted bachelor’s degree. Only degrees and courses from a regionally accredited institution will be accepted.
• Official scores from the Graduate Record Exam (GRE) or the Miller Analogies Test (must be less than five years old), a requirement which may be waived if the applicant has an advanced degree.
• Submission of an official TOEFL score of at least 550 (minimum score of 80 if taken via Internet) by each international applicant who has graduated from a foreign college or university and whose native language is not English.
• Submission of a financial declaration form and supporting documentation by each international applicant. Final acceptance will be based on selected candidates’ interviews.
• Site-Based: Although a bachelor’s degree in psychology is not a pre-requisite for admission to the site-based Master of Counseling program, it is highly recommended. For applicants without said degree, a reading list will be provided and students must pass a knowledge-based competency exam prior to advancement to candidacy.

Credit Transfer Information
With departmental permission a student may be permitted to take graduate courses up to 12 semester credits in a non-matriculated manner before full admission to the program. No more than six graduate credits from another accredited university (less than five years old) are applicable toward the degree before admission. Ask your advisor for transfer credit information.

Master of Arts in Clinical Mental Health Counseling

Clinical Mental Health Counseling Mission
The Clinical Mental Health Counseling Program models ethical, moral, and professional leadership as counselor educators to promote development of a solid knowledge base, a sound skills set, and an experienced understanding of the process of personal transformation. Clinical mental health counseling students are prepared to live as creative, productive, morally grounded, socially just, service-oriented leaders in the profession.

This program offers preparation for professional counselors within community agencies, hospitals, college settings, private practice, and clinics. All counselor candidates attain a core of competencies with individualization taking place through supervised internship settings. Emphasis is placed on translating theory and research from coursework into services for clients. A major focus of the program is the development and operationalization of the student’s personal theory of counseling.

Program Description
The Master of Arts in Clinical Mental Health Counseling is designed to train professional counselors for a variety of employment settings, including family counseling, social service and mental health agencies, college counseling centers, and private practice. Qualified candidates are screened, using standard graduate school admissions and comprehensive interviews. Candidates are introduced to theoretical and practical academic teachings, which are woven together throughout the program to ensure a rich educational experience. Upon completion of the program, they are reintroduced to the community as qualified counselors who will enhance their community through service and leadership.

A major focus of the program is in developing and operationalizing the student’s personal theory of counseling. Emphasis is placed on translating theory and research from coursework to services for clients. Counselor training utilizes personal as well as multi-media instruction, carefully balanced to include didactic and experiential teaching. Diverse internships are available in community agency settings with
100 hours of practicum (40 hours of direct service) and 600 hours (240 hours of direct service) of internship required. Approximately 200 hours of supervision are provided by onsite and University supervisors. Core competencies are individualized to each internship setting.

Another major focus of the program is personal growth and development. It is the belief of the faculty that students must possess insight and awareness and must be clear about the boundaries between personal issues and those of the client. To that end, students are presented with a number of opportunities for selfdiscovery and process and are referred outside the program for counseling when necessary. Solid mental health is the foundation to providing professional counseling services.

A primary goal of Gonzaga’s counseling program is to identify and select students who present the highest potential for success as counselors. Indicators of counselor success are demonstrations of skills, emotional intelligence, conflict resolution, consistent interpersonal behaviors, recognition of strengths and weaknesses, a clear grasp of goals, and increasing knowledge of one’s impact on others.

The following skills are essential for successful counseling:

- **Counselor-Client Communication**
  Counselors must be able to demonstrate paraphrasing, reflection of feelings, clarification, silence, attending, minimal verbal response, and identification of affect. The counselor must recognize the congruence of the client’s communication as demonstrated by verbal, non-verbal, and extra-verbal cues.

- **Recognition of Impact**
  Counselors must be aware of how their actions may affect the client. This not only includes communication, but also confidentiality and professional standards. The counselor must take professional responsibility for providing the best possible counseling environment to assist a client’s progress.

- **Personal Growth**
  Counselors should take responsibility for their own personal growth and must be able to deal with personal issues in healthy ways.

- **Conflict Resolution**
  Counselors should be able to use productive methods for resolving conflicts with and between others.

- **Approach**
  Client issues may be accessed cognitively, affectively, spiritually, and/or behaviorally. Counselors should be aware of traditional and innovative counseling methods.

- **Cultural Differences**
  Counselors should be sensitive to the needs of multicultural populations in providing counseling intervention.

- **Consultation and Referral**
  Counselors must be able to identify their areas of expertise and know when and how to consult and refer clients to specialized resources.

**Fall Semester**
EDCE 697A Counseling Internship  5 credits
EDCE 664 Group Facilitation  2 credits
EDCE 581 Chemical Dependency in Counseling  2 credits

**Spring Semester**
EDCE 697B Counseling Internship  5 credits
EDCE 550 Multicultural Counseling  3 credits

**Summer Semester**
EDCE 689 Professional Seminar  3 credits
EDCE 699 Comprehensive Oral Examination  0 credits

**Elective Courses**
EDCE 690 Directed Readings  variable credit
EDCE 691 Directed Study  variable credit
EDCE 692 Independent Study  variable credit
EDCE 694 Special Project  variable credit

Students must complete an additional two elective credits to complete the required 60 credits. Electives can be taken in courses offered in Marriage and Family or School Counseling programs, summer practicum/internship course, optional electives offered through the department, or directed study in an area pertinent to the student's needs.

**Master of Arts in Marriage and Family Counseling**

**Marriage and Family Mission**
The Marriage and Family Counseling Program promotes excellence in the practice of couples and family counseling through specialized training in the development of professionalism, service, and growth. Marriage and family counseling students possess the knowledge, skills, and practices necessary to address a wide variety of issues in the context of relationships and families and are prepared to serve as advocates, educators, and leaders in strengthening individuals, families, and communities. This program offers preparation for professional counselors within community agencies, hospitals, college settings, private practice, and clinics. All counselor candidates attain a core of competencies with individualization taking place through supervised internship settings. Emphasis is placed on translating theory and research from coursework into services for clients. A major focus of the program is the development and operationalization of the student's personal theory of counseling.
Program Description

The Master of Arts in Marriage and Family Counseling is designed to train professional counselors to specialize in providing marital, couple, and family counseling for a variety of settings, including family counseling, social service and mental health agencies, college counseling centers, and private practice. Qualified candidates are screened, using standard graduate school admissions and comprehensive interviews. Candidates are introduced to theoretical and practical academic teachings, which are woven together throughout the program to ensure a rich educational experience. Upon completion of the program, they are reintroduced to the communities as qualified counselors who will enhance their community through service and leadership.

A major focus of the program is developing and operationalizing the student's personal theory of counseling. Emphasis is placed on translating theory and research from course work to services for clients. Counselor training utilizes personal as well as multi-media instruction, carefully balanced to include didactic and experiential teaching. Diverse internships are available in community agency settings with 100 hours of practicum (40 hours of direct service) and 600 hours (240 hours of direct service) of internship are required. Approximately 200 hours of supervision are provided by onsite and University supervisors. Core competencies are individualized to each internship setting.

Another major focus of the program is personal growth and development. It is the belief of the faculty that students must possess insight and awareness and must be clear about the boundaries between personal issues and those of the client. To that end, students are presented with a number of opportunities for self-discovery and process and are referred outside the program for counseling when necessary. Solid mental health is the foundation to providing professional counseling services.

A primary goal of Gonzaga's counseling program is to identify and select students who present the highest potential for success as counselors. Indicators of counselor success are demonstrations of skills, emotional intelligence, conflict resolution, consistent interpersonal behaviors, recognition of strengths and weaknesses, a clear grasp of goals, and increasing knowledge of one's impact on others.

The following skills are essential for successful counseling:

- **Counselor-Client Communication**
  Counselors must be able to demonstrate paraphrasing, reflection of feelings, clarification, silence, attending, minimal verbal response, and identification of affect. The counselor must recognize the congruence of the client’s communication as demonstrated by verbal, nonverbal, and extra-verbal cues.

- **Recognition of Impact**
  Counselors must be aware of how their actions may affect the client. This not only includes communication, but also confidentiality and professional standards. The counselor must take professional responsibility for providing the best possible counseling environment to assist a client's progress.

- **Personal Growth**
  Counselors should take responsibility for their own personal growth and must be able to deal with personal issues in healthy ways. □ Conflict Resolution
  Counselors should be able to use productive methods for resolving conflicts with and between others.

- **Approach**
  Client issues may be accessed cognitively, affectively, spiritually, and/or behaviorally. Counselors should be aware of traditional and innovative counseling methods.

- **Cultural Differences**
  Counselors should be sensitive to the needs of multicultural populations in providing counseling intervention.

- **Consultation and Referral**
Counselors must be able to identify their areas of expertise and know when and how to consult and refer clients to specialized resources.

Program Outline: 60 credits

**Core Required Courses**

**FIRST YEAR:**

**Fall Semester**

- EDCE 560 Critical Issues in Counseling 3 credits
- EDCE 695 Counseling Pre-Practicum 3 credits
- EDCE 583 Introduction to Marriage and Family Counseling 2 credits

**Spring Semester**

- EDCE 588 Human Growth and Development 4 credits
- EDCE 650 Group Process 2 credits
- EDCE 696 Counseling Practicum 3 credits
- EDCE 589 Marriage and Family Counseling 3 credits

**Summer Semester**

- EDCE 565 Assessment in Counseling 3 credits
- EDCE 605 Occupational Choice and Career Development in Counseling 2 credits
- EDCE 603 Human Sexuality 2 credits

**SECOND YEAR:**

**Fall Semester**

- EDCE 697A Counseling Internship 5 credits
- EDCE 664 Group Facilitation 2 credits
- EDCE 592 Advanced Family Systems 3 credits

- EDCE 697B Counseling Internship 5 credits
- EDCE 550 Multicultural Counseling 3 credits
- EDCE 638 Theories of Couples Counseling 2 credits

**Summer Semester**

- EDCE 689 Professional Seminar 3 credits
- EDCE 699 Comprehensive Oral Examination 0 credits

**Master of Arts in School Counseling**

**School Counseling Mission**

The mission of the School Counseling Program is to facilitate the development of excellence in professional competence and personal growth. School Counseling graduates are prepared for distinguished service particularly in the areas of leadership, advocacy, social justice, and a respect for diversity in support of the educational achievement and life success skills of all students.

This program offers preparation for professional counselors who will serve in the K-12 school setting. School counselor candidates are competent in core knowledge, skills, and practice based on Washington State and CACREP standards. They participate in a supervised practicum (100 hours) and internship (600 hours) in the schools. The uniqueness of the program is embodied in its cohort model, the development and application of the student’s personal theory of counseling, a transformational personal and professional growth process, and the teaching of comprehensive, state of the art school counseling best practices.
Program Description

The Master of Arts in School Counseling is designed to train professional counselors to work with students, staff, parents, and the community to support student achievement in the areas of personal, social, academic, and career development in K-12 schools. The successful school counseling graduate receives Washington State Residency Certification as an Educational Staff Associate (ESA).

Qualified candidates are screened using standard graduate school admissions and comprehensive interviews. Candidates are introduced to theoretical and practical academic teachings which are woven together throughout the program to ensure a rich educational experience. Upon completion of the program, they are reintroduced to the communities as qualified counselors who will enhance the educational community through service and leadership.

A major focus of the program is developing and operationalizing the student’s personal theory of counseling. Emphasis is placed on translating theory and research from course work to services for school students. Counselor training utilizes personal as well as multi-media instruction, carefully balanced to include didactic and experiential teaching. Internships are available in school settings with 100 hours of practicum (40 hours of direct service) and 600 hours (240 hours of direct service) of internship are required. Approximately 200 hours of supervision are provided by onsite and University supervisors. Core competencies are individualized to each internship setting.

Another major focus of the program is personal growth and development. It is the belief of the faculty that graduate students must possess insight and awareness and must be clear about the boundaries between personal issues and those of the school student. To that end, students are presented with a number of opportunities for self-discovery and process. Solid mental health is the foundation to providing professional counseling services in schools.

A primary goal of Gonzaga’s counseling program is to identify and select graduate students who present the highest potential for success as counselors. Indicators of counselor success are demonstration of skills in emotional intelligence, conflict resolution, leadership, consistent interpersonal behaviors, recognition of strengths and weaknesses, a clear grasp of goals, and increasing knowledge of one’s impact on others.

The following skills are essential for successful counseling:

- Counselor-Student Communication
  Counselors must be able to demonstrate paraphrasing, reflection of feelings, clarification, silence, attending, minimal verbal response, and identification of affect. The counselor must recognize the congruence of the student’s communication as demonstrated by verbal, nonverbal, and extra-verbal cues.

- Recognition of Impact
  Counselors must be aware of how their actions may affect the student. This not only includes communication, but also confidentiality and professional standards. The counselor must take professional responsibility for providing the best possible counseling environment to assist a student’s progress and support academic achievement. □ Personal Growth
  Counselors should take responsibility for their own personal growth and must be able to deal with personal issues in healthy ways. □ Conflict Resolution
  Counselors should be able to use productive methods for resolving conflicts with and between others.

Master of Counselling (Site Based)

Master of Counselling, Site-Based Program Mission Statement
The Master of Counselling program provides counsellor education for students, reflecting ethical and cultural aspects of Canadian life with focus on province-related needs and trends. The program promotes the development of a solid knowledge base and strong clinical skills, while fostering personal growth and transformation. Students are prepared to be ethical, competent, service-oriented counsellor practitioners.
This program offers preparation for professional counsellors within community agencies, schools, and clinics in Canada. Candidates attain a core of competencies, with individualization taking place through supervised internship settings. Emphasis is placed on translating theory and research from course work to services for clients. A major focus of the program is the development and operationalization of the student's personal theory of counselling. This degree is a two-year program for students and is provided in a cohort model.

**Notice for Students and Public (site-based Alberta):**
This program is offered pursuant to the written approval of the Minister of Advanced Education and Technology effective September 1, 2009, having undergone a quality assessment process and been found to meet the criteria established by the Minister. Nevertheless, prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (for example, acceptable to potential employers, professional licensing bodies, or other educational institutions).

**Notice for Students and Public (site-based British Columbia):**
This program is offered under the written consent of the Minister of Advanced Education effective June 2012, has undergone a quality assessment process and been found to meet the criteria established by the minister. Nevertheless, prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (for example, acceptable to potential employers, professional licensing bodies, or other educational institutions).

**Program Outline: 43 credits**

**Core Required Courses:**
- EDCE 525 Introduction to Canadian Counselling 1 credit
- EDCE 551 Diversity in Counselling 2 credits
- EDCE 558 Canadian Counselling Issues and Ethics 3 credits
- EDCE 567 Career Development and Assessment in Counselling 4 credits
- EDCE 584 Counselling Across the Life Span 3 credits
- EDCE 590 Marriage and Family Counselling 3 credits
- EDCE 616 Psychopathology and Psychopharmacology 3 credits
- EDCE 640 Counselling Theories 3 credits
- EDCE 658 Group Process and Facilitation 3 credits
- EDCE 684 Pre-Practicum A in Counselling 2 credits
- EDCE 685 Pre-Practicum B in Counselling 4 credits
- EDCE 686 Practicum in Counselling 5 credits
- EDCE 689 Professional Seminar 3 credits

**EDCE 525 - Introduction to Canadian Counselling**
1
This course provides information and insight into the roles and functions of various counselling specialties within the provinces of British Columbia and Alberta. This course serves as a prerequisite for EDCE 640 Counselling Theories and EDCE 558 Canadian Counselling Issues and Ethics. Summer.

**EDCE 550 - Multicultural Counseling**
3
This course provides an opportunity for students to gain insight into the significance of culture and how it relates to behavior and mental health. This course includes readings and discussions of culturally sensitive diagnostic and treatment issues with respect to race, ethnicity, gender, sexual orientation, physical status, age, socioeconomic status and religion. It is essential for future counselors to understand the unique nature of interpersonal distress and happiness on pathogenesis and health functioning. Diagnosis and treatment without consideration of such factors may constitute unethical behavior.

**EDCE 551 - Diversity in Counselling**
2
Students gain an understanding of behavior and mental health given the cultural context of relationships, issues and trends, and between multicultural and pluralistic national and international societies related to such factors as attitudes, beliefs, understandings, and acculturative experiences of culture, ethnicity, nationality, age, gender, sexual orientation, mental and physical characteristics, education, family values, religious and spiritual values, socioeconomic status, and unique characteristics of individuals, couples, families, ethnic groups, and communities. Through learning the theories of multicultural counseling, theories of identity development, and multicultural competencies, students will understand the advocacy process needed to address institutional and social barriers that impede access, equity, and success of clients. Spring.

**EDCE 558 - CA Counselling Issues and Ethics**
3
Content will focus on Canadian and specifically provincial (British Columbia and Alberta) issues and ethics of the Canadian Counselling and Psychology Association (CCPA) with accompanying texts and other materials that are regional and province specific. Gonzaga graduates in the counselling profession are expected to be at the forefront as leaders in the profession by role modeling the highest ethical standards possible. Through discussion, assigned reading, and written work, students develop and present their personal understanding of and response to critical issues in the counselling field. Specifically, students will study ethical and legal considerations, roles in social justice, advocacy, and conflict resolution, cultural self-awareness, the nature of biases, prejudices, processes of intentional and unintentional oppression and discrimination, and other culturally supported behaviors that are detrimental to the growth of the human spirit, mind, or body. Other issues to be discussed include professional roles, functions, and relationships with other human service providers; public and private policy processes, including the role of the professional counsellor in advocating on behalf of the profession; advocacy processes needed to address institutional and social barriers that impede access, equity, and success of clients; the ethical standards of CCPA and related entities; and applications of ethical and legal considerations in professional counseling. Fall.
EDCE 559 - Critical Issues in School Counseling  credits: 3
This course introduces students to ethical and legal considerations specifically related to school counseling. Students become familiar with school law, including policies and procedures related to Student Rights and Responsibilities, students with disabilities education, child abuse prevention, and mandatory reporting. Students are exposed to both the American Counseling Association and the American School Counseling Association, codes of ethics, and the application of such in a school setting. An emphasis is placed on helping students examine and become aware of their beliefs and values and the potential impact these might have on the way they provide counseling.

EDCE 560 - Critical Issues in Counseling  credits: 3
Graduates of the Master of Arts Program in Counseling at Gonzaga University are expected to be at the forefront in demonstrating the highest ethical standards possible in the counseling profession. In a time when the helping profession is increasingly being held accountable for the behavior of its members, the development and implementation of personal and professional standards that exemplify the best in role models and leadership are imperative. Through discussion, assigned reading, and written work, students develop and present their understanding of and response to critical issues in the counseling field.

EDCE 564 - Assessment in School Counseling  credits: 2
This course is designed to provide students with an understanding and working knowledge of test and non-test methods of individual appraisal, including the selection, administration, scoring, interpretation, and application of various assessments. Individual and group measures used in schools will be reviewed and discussed. This course is not intended to qualify students to perform psychological assessments or to otherwise provide assessment services to the general public. Rather, this course is intended to familiarize students with appraisal methods and instruments used in school counseling.

EDCE 565 - Assessment in Counseling  credits: 3
This course is intended to familiarize students with test and non-test methods of appraisal, including administration, scoring, and interpretation of tests. Individual and group tests and clinical procedures widely used to appraise intelligence, aptitudes, interests, achievement, development, personality, and learning approaches are surveyed. It is stressed that this course is not intended to qualify students to perform psychological assessments or to otherwise perform assessment services to the public. Its purpose is to familiarize students with appraisal methods and instruments typically used in counseling and to assist students in the process of performing assessments appropriate to the counseling profession.

Pre-requisites: EDCE 588 and EDCE 616

EDCE 567 - Career Development and Assessment in Counselling  credits: 4
This course is designed to acquaint students with the theories, practice, and pragmatic aspects of vocational and life planning counselling. Students will develop their own synthesis of theoretical assumptions regarding vocational development and choice, integrate their theory into counselling practice, become familiar with information systems and centers, and prepare a comprehensive life planning program appropriate for use in the students' employment setting. Students will also become familiar with test and non-test methods of appraisal, including technical and methodological principles, administration, scoring, and interpretation of tests used in counselling with a particular focus on career assessment tools. This course is not intended to qualify student to perform assessments using psychological testing or to otherwise perform assessment services to the public without further education, training, and supervision. Rather, this course is intended to familiarize students so that they can identify and understand instruments typically used in counselling and have more expertise in the application of career assessment tools.

EDCE 570 - Special Issues in Counseling  credit: 1
This course is designed to provide students with specific education regarding the following five specialty topics in relation to the profession of counseling via a monthly seminar: 1) Suicide Prevention and Assessment, 2) Consultation, 3) Trauma Response and Crisis Intervention, and 4) Models of Supervision.

EDCE 581 - Chemical Dependency/Addiction  credits: 2
This class is designed to provide students with specific education regarding chemical dependency recognition, diagnosis, co-occurring disorders, and impact on medical and mental health issues. Specifically, as a result of this course and in accordance with the CACREP standards, students will know the disease concept and etiology of
addiction and co-occurring disorders. They will learn appropriate counseling strategies when working with clients with addiction and co-occurring disorders. They will learn to identify standard screening and assessment instruments for substance use disorders and process addictions, as well as know the impact of co-occurring substance use disorders on medical and psychological disorders.

EDCE 583 - Introduction Marital Couple Family
This course serves as an introduction to couples and family theories and therapy. General principles of family development and systems theory are explored. The student is asked to think in relationship or systems terms regarding family behavior. Through participation in experiential assignments, students will acquire an understanding of family development and couple and family theories.
Restrictions:
Must be in the following Field(s) of Study:
Clinical Mental Health Counseling
Marriage and Family Counseling
School Counseling

EDCE 584 - Counselling across Lifespan
This course is designed to provide students with an in-depth exploration of the mental health issues specific to various populations across the lifespan. This course will thoroughly represent human growth and development with specific and current interventions appropriate to different developmental levels and stages. Special emphasis is placed on 'normal' development compared to 'pathological' development. Students study human behavior, including an understanding of developmental crises, disability, exceptional behavior, addictive behavior, psychopathology, and situational and environmental factors that affect both normal and abnormal behavior. There is special sensitivity to the issues of child abuse, multicultural awareness, and at-risk populations. Students are introduced to a variety of counseling procedures and interventions appropriate to both agency and school settings. Spring.

EDCE 585 - Introduction to School Counseling
This course introduces the field of school counseling and provides an overview of the profession, role and function of the counselor in the school, history and trends, and school counselor professional identity. A basic framework for comprehensive school counseling programs is introduced. Student achievement and personal/social and career development are discussed in relation to current societal and educational issues, barriers, and opportunities that may affect student success. Education reform and structure of school, guidance lesson planning and delivery, social advocacy, and counselor as consultant are among other topics covered.

EDCE 586 - Introduction to CMH Counseling
This course includes an orientation to Clinical Mental Health Counseling and familiarization with role and function, standards of care, professional ethical guidelines, and an understanding of the historical, philosophical, and social roots of counseling and consultation practices of the counseling profession.

EDCE 587 - Child and Adolescent Counseling
This course is designed to provide students with an in-depth exploration of the mental health issues specific to this population. Special emphasis is placed on "normal" development compared to "pathological" development, and there is special sensitivity to the issues of child abuse, multicultural awareness, and at-risk populations. Students are introduced to a variety of counseling procedures and interventions appropriate to both agency and school settings.

EDCE 588 - Human Growth and Development
Through this course, students review, analyze, and interpret theories of individual and family development and transitions across the life-span; theories of learning and personality development and human behavior, including an understanding of and ability to evaluate developmental crises, disability, addictive behaviors, and environmental factors as they affect both normal and abnormal behavior. Human Growth and Development involves aspects of cognitive, behavioral, social, spiritual, physical, and emotional realms. Ethical and legal concerns will be examined, and students will be asked to assess these as they relate to human growth and development. Students will also identify and evaluate aspects at different times across the life span. Effects of situational versus enduring influences will be
assessed, and students will be expected to defend their judgments. Associated with human growth and development will be discussions and interpretations of resiliency in a multicultural world. Application, summary, and evaluation to those we serve will be an emphasis and will receive constant attention.

**EDCE 589 ‐ Marriage and Family Counseling**  
credits: 3  
Students examine the major contemporary theories and approaches in Marriage and Family Counseling. Major theories and concepts of family dynamics, family life cycle, and lifestyles are examined.

**EDCE 590 ‐ Marriage and Family Counselling**  
credits: 3  
Students examine the major contemporary theories and approaches in Marriage and Family Counseling. Concepts of family dynamics, family life cycle, and lifestyles in general are presented. Students will explore systems theories and related interventions as well as processes for selecting appropriate modalities for family assessment and counseling. Role and function, ethical and legal considerations, the structure and operations of professional organizations and credentialing bodies, and the implications of professional issues unique to marital, couple, and family counseling are discussed as are pertinent roles of racial, ethnic, cultural heritage, nationality, socioeconomic status, family structure, age, gender, sexual orientation, religious and spiritual beliefs, occupation, physical and mental status, and equity issues. Fall.

**EDCE 592 ‐ Advanced Family Systems**  
credits: 3  
Students will engage in an advanced theoretical study with an emphasis on researched applications of family counseling. Restrictions:  
Must be in the following Field(s) of Study:  
Clinical Mental Health Counseling  
Community Counseling  
Marriage and Family Counseling  
School Counseling

**EDCE 594 ‐ Special Topics MCF Systems**  
credits: 1-3  
The effects of violence, chemical dependency, and related family concerns on family dynamics and their impact on couple and family counseling. Students will understand family development and the family life cycle and the impact of specific problems and challenges on family functioning. Restrictions:  
Must be in the following Field(s) of Study:  
Clinical Mental Health Counseling  
Community Counseling  
Marriage and Family Counseling  
School Counseling

**EDCE 595 ‐ Special Issues in School Counseling**  
credit: 1  
This course extends the knowledge and skill introduced in EDCE 585 as students begin the application of learning in their practicum. Emerging issues in the school setting are covered in a discussion format. Instructional and counseling strategies (multiple intelligences, solution focused counseling, resilience research, and other related topics) that support student academic and personal/social success are taught. Spring. Co-requisites: EDCE 696

**EDCE 603 ‐ Human Sexuality**  
credits: 2  
Students will learn a basic understanding of human sexuality. Normal psycho-sexual development, sexual functioning and its physiological aspects and sexual dysfunction along with its treatment will be covered. Restrictions:  
Must be in the following Field(s) of Study:  
Community Counseling  
Marriage and Family Counseling  
School Counseling

**EDCE 604 ‐ Prevention and Parent Education**  
credits: 3
Current prevention programs for relationship enhancement and parent education. Students will examine research effectiveness, counselor/leader roles and program formats.

Restrictions:
Must be in the following Field(s) of Study:
Clinical Mental Health Counseling School
Counseling
EDCE 605 - Occupational Choice and Career Development in Counseling credits: 2
This course is designed to acquaint students with the theory practice, and pragmatic aspects of vocational and life planning counseling. Students develop their own theoretical assumptions regarding vocational development and choice, integrate their theory into counseling practice, become familiar with information systems and centers, and prepare a comprehensive life planning program appropriate for use in future employment settings.
EDCE 611 - Continuing Research credit: 1
EDCE 616 - Psychopathology and Psychopharmacology credits: 3-4
This course is designed to provide a cognitive foundation in theoretical and treatment perspectives on psychopathological disorders of adults, including an understanding of the application of theses perspectives in clinical settings for diagnostic and treatment purposes. Attention is given to identifying the specific symptoms associated with common psychological disorders, the multi-axial evaluation system of the DSM IV, differential diagnostic considerations, and psychopharmacological issues and interventions. The issues of severity of psychosocial stressors as well as the importance of actual adaptive functioning levels associated with each disorder are covered.
EDCE 638 - Theories in Couples Counseling credits: 2
The study of the development of the couple-counseling field and the issues and theories related to its practice.
Restrictions:
Must be in the following Field(s) of Study:
Clinical Mental Health Counseling
Marriage and Family Counseling
School Counseling
EDCE 639 - Counseling Theories credits: 3
Students in this course will have the opportunity to examine historic and current cognitive, affective, spiritual, and behavioral theoretical orientations to counseling psychology and the application of theory to counseling service, case conceptualization, and counseling interventions. From this historical and current exploration, students will begin to develop a personal model of counseling, a general framework for understanding and practicing counseling. Additionally, students will examine the historical development of consultation, explore the stages of consultation and the major models of consultation, and apply the theoretical material to case presentations. Students will also begin to develop a personal model of consultation. Fall.
EDCE 640 - Canadian Counselling Theories credits: 3
Canadian students will have the opportunity to examine historic and current cognitive, affective, spiritual, and behavioral theoretical orientations to counselling psychology and the application of theory to counselling service, case conceptualization, and counselling interventions. From this historical and current exploration, students will begin to develop a personal model of counselling, a general framework for understanding and practicing counseling. Additionally, students will examine the historical development of consultation, explore the stages of consultation and the major models of consultation, and apply the theoretical material to case presentations. Canadian students will also begin to develop a personal model of consultation. Fall.
EDCE 650 - Group Process credits: 2
This course was designed to prepare students for the potential ethical and legal dilemmas that may arise in the counseling profession. This two credit graduate level course is intended to assist students with developing knowledge about the ethical standards associated with this profession. Additionally, the identification of core values is essential to personal development. Exploration of these core values, in combination with the development of an ethical decision making model, will challenge students to be prepared for the various dilemmas they may encounter.
This course is designed to prepare students for the culminating experiences in the Masters of Arts Program, the final
Professional Seminar and Oral Examination. Students work with their primary professors and with their small groups to revise and refine their personal theories of counseling. Students are given the opportunity to "defend" this personal theory in a format similar to that of the actual final oral.

Pre-requisites: EDCE 697B or EDCE 686

EDCE 690 - Directed Reading

Directed Reading requires completion of a form, and departmental permission and cannot be registered for via ZAGWEB.

EDCE 691 - Directed Study

Directed Study requires completion of a form, and departmental permission and cannot be registered for via ZAGWEB.

EDCE 692 - Independent Study

Independent Study requires completion of a form, and departmental permission and cannot be registered for via ZAGWEB.

EDCE 693 - Comprehensive Orals for School Counselors

EDCE 694 - Special Project

Special Project requires completion of a form, and departmental permission and cannot be registered for via ZAGWEB.

EDCE 695 - Counseling Pre-Practicum

Students develop their own counseling style and begin integrating their theories of counseling into a personal process of counseling. Through this course, students develop skills, strategies, and techniques critical to counseling.

EDCE 696 - Counseling Practicum

This course is designed to serve as the transition between the pre-practicum phase of the counselor's professional development and the internship experience. Students gain working knowledge of record keeping, resources, and office protocol. They will regularly observe and receive feedback from the Field Supervisor and begin to carry a case load of clients by the middle of the semester.

EDCE 697 - Counseling Internship

A minimum of 600 hours (240 hours minimum of direct service). Internship requires completion of a form, and departmental permission and cannot be registered for via ZAGWEB.

Pre-requisites: EDCE 696

EDCE 697A - Internship

This course provides a minimum of 300 hours on-site counseling experiences (120 hours of which must be in direct service) under direct supervision for advanced students. Students integrate their personal theory of counseling into practice and function as a full staff member in the school or agency counseling setting, demonstrate professional ethics and standards of care, and demonstrate professional counseling skills, strategies, and techniques.

Pre-requisites: EDCE 695 and EDCE 696

EDCE 697B - Internship

A second semester continuation of 697A. A further 300 hours of field experience, with 120 hours of direct service is required.

Pre-requisites: EDCE 697A

EDCE 698 - Research and Statistics

This course is designed to acquaint students with the language and tools of research and statistics as they serve to inform the counseling practitioner. Students often do not come to this course with a strong background in research and, as a result, have a real fear of this subject area. A specific goal of this course is to make research and statistics a subject with which students become comfortable and find application value in professional practice. Students will review and abstract research articles, present the outcomes of this review at a professional conference, and develop a research proposal. Statistical theory and techniques will be developed in the areas of descriptive statistics (e.g., scales of measurement, distribution, central tendency) and inferential statistics (e.g., variance, confidence intervals, tests of hypotheses, t-tests, ANOVA, correlation and regression, chi square). This course requires a minimal math background of basic arithmetic, beginning algebra, use of square roots, and order of operations. Having a personal
calculator that adds, subtracts, multiplies, divides, and computes square roots (X2) can be helpful and save time.

EDCE 699 - Comprehensive Oral Examination  
Permission of Chairperson  
Pre-requisites: EDCE 697B or EDCE 685

Department of Educational Leadership and Administration

Chairperson: Charles V. Salina

The Department of Educational Leadership and Administration bases its graduate degree programs on the premise that the education profession must be composed of knowledgeable, skilled, and committed leaders who operate from a strong value base. At the master’s level, leadership is defined as possessing the knowledge, abilities, and commitment to facilitate transformation in educational settings.

This department offers three master’s degree programs:

- Master of Arts in Leadership and Administration - Washington State
- Master of Education in Leadership and Administration - British Columbia, Canada
- Master of Education (School Administration) - Alberta, Canada

Admissions

Selection of candidates is based on the information gathered from the materials identified below. Each applicant should submit the following materials to the School of Education Graduate Admissions Office:

a) A completed application form (see the School of Education website: http://www.gonzaga.edu/soe/grad)  
b) A non-refundable fee.  
c) A written statement of purpose. Gonzaga University belongs to a long and distinguished tradition of humanistic Catholic, and Jesuit education. The School of Education upholds the University tradition and exemplifies it through its dedication to preparing socially responsive professionals who serve with competence, commitment, and care. Additionally, the department’s mission is to prepare reflective educational leaders who promote student, professional, and organizational learning to address challenges and opportunities inherent in a changing world. With these perspectives in mind, please submit a typed statement of purpose that:

i) Briefly describes your background.  
ii) Describes why you are interested in the Gonzaga graduate program.

iii) Describes and gives examples of the strengths that you bring to the program that will help you as an educational leader.

iv) Describes leadership experiences that you have had in or out of the school setting, including examples from leadership experiences.

v) Describes and gives examples of your personal commitment to working/teaching students, service to others, and advocate for all students.

vi) Shares with us what you expect to accomplish in acquiring a master’s degree and what you hope you will accomplish once you have received your degree.
d) Two letters of recommendation, from recent supervisors sent directly from the recommending persons to the School of Education Graduate Admission Office with the Confidential Recommendation forms attached (see the School of Education website). i) Written Recommendation:
   Please write your letter of recommendation on school or district letterhead. It is crucial that you address all of the items; we score the candidate’s likelihood of success in graduate work and “fit” to our program against all of these criteria.
   (1) Describe and give examples of the candidate’s ability to lead or leadership experiences in the school setting.
   (2) Describe and give examples of the candidate’s commitment to serving students.
   (3) Describe and give examples of the candidate’s teaching ability.
   (4) Describe and give examples of the candidate’s commitment to diversity and ability to advocate) for the success of all students. ii) Professional Dispositions
   * Please rate the candidate according to the scale five (5) strongly agree to one (1) strongly disagree. The last column on the rating sheet may be checked if your feel you have “insufficient knowledge” of the candidate to make a judgment.

e) One official transcript from each college or university attended. International applicants must submit foreign transcripts in the original language and an English copy. Final transcripts must bear a posted Bachelor’s degree. Only degrees and courses from a regionally accredited institution will be accepted.

f) A resume that shows career history and highlights leadership experiences. List and describe any specific training and / or experiences you have had as a group / project leader, co-coordinator of change initiatives, or trainer. Please include length of service. Applicants, please structure your vita as shown below and explicitly address each of the bulleted items: i) Work Experience ii) Describe your work history (most recent first), including location, length of service, and position iii) Professional Development/Training
   List career related training and professional development programs completed within the past four years. Include the source of training, and the duration and year completed.

iv) Technology Training
   Briefly describe your level of training and experience in using information technology including computers, software and telecommunications networks as tools for business, education, teaching and personal use.

v) Volunteer/unpaid service
   List and describe and voluntary/unpaid post-secondary employment and/or community service experience. Please include name of organization, length of service, and a brief description of duties.

vi) Leadership Experience
   Please describe any specific training and/or experiences you have had as a group/project leader, cocordinator of change initiatives, or as a trainer.

g) An official TOEFL score of at least 550 (minimum score of 80 if taken via Internet) by each international applicant who has graduated from a foreign college or university and whose native language is not English.

Master of Arts in Leadership and Administration - Washington State
The Master of Arts in Leadership and Administration Program is designed as an integrated program for educators who aspire to be effective teacher leaders or administrative leaders. We believe that educational teams become stronger when greater understanding exists about the roles of each of its members. Because the program integrates content and professional standards appropriate to both teachers and administrators, candidates also may elect to complete their principal or program administrator certification in conjunction with the master’s program. Theory and practice are explored
from the perspective of both teachers and administrators, and coursework is differentiated depending on
the candidates’ career goals.
The program is designed for working educators with a focus on linking theory and research to practical
issues in teaching and leadership using candidates' local districts as the context for their study. Candidates
are admitted into a cohort of educators from their local areas and experience the benefits of a
collaborative learning community. Faculty travel to the candidates’ location. Courses are held in the
evenings or on weekends depending on the needs of the cohort. As candidates work on assignments for
each of the program courses, they have the opportunity to explore issues important to them in their own
classrooms, schools, and districts. Each cohort is assigned a faculty advisor who works with them through
the entire program. Currently, the program is approved to be delivered in the state of Washington.

Prerequisite
A Bachelor’s degree from an accredited college or university is required and a minimum of three (3) years
of teaching experience is preferred.

Program Outline: 34 credits
The Master of Arts in Leadership and Administration is a 34 credit degree program.

EDLA 525  Educational Leadership and Inquiry  3 credits
EDLA 690  Professional Literature Review  1 credit
EDLA 633  Organizations and Educational Leadership  3 credits
EDLA 564  Art and Science of Teaching  3 credits
EDLA 548  Educational Leadership and School Improvement  3 credits
EDLA 698  Research and Data Analysis  3 credits
EDLA 565  Assessment and Learning  3 credits
EDLA 653  Curriculum Development  3 credits
EDLA 641  Educational Leadership and Community  3 credits
EDLA 626  Culture and Diversity  3 credits
EDLA  Elective  3 credits
EDLA 689  Professional Seminar  3 credits
EDLA 699  Comprehensive Oral Exam  0 credits

The Master of Arts in Leadership and Administration with Principal or Program Administrative Certification
is designed for those individuals that wish to complete their master's degree with certification.

EDLA 612  Leadership Role Seminar (fall)  3 credits
EDLA 613  Leadership Role Seminar (spring)  3 credits
EDLA 620  Certification Internship (fall)  3 credits
EDLA 630  Certification Internship (spring)  3 credits

Master of Education (School Administration) Alberta, Canada
The Master of Education (School Administration) Program is designed as an integrated program for
educators who aspire to be effective educational leaders. The program is designed for working educators
with a focus on linking theory and research to practical issues in leadership using candidate's local districts
as the context for their study. Candidates are admitted into a cohort of educators from their local area and
experience the benefits of a collaborative learning community. Faculty travel to the candidates' location.
Courses are held in the evenings or on weekends depending on the needs of the cohort. As candidates work on assignments for each of the program courses, they have the opportunity to explore issues important to them in their own classrooms, schools, and districts. Each cohort is assigned a faculty advisor who works with them through the entire program. Currently, the program is approved to be delivered in the province of Alberta, Canada.

**Notice for Students and Public:**
This program is offered pursuant to the written approval of the Minister of Advanced Education and Technology effective September 2009, having undergone a quality assessment process and been found to meet the criteria established by the Minister. Nevertheless, prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (for example, acceptable to potential employers, professional licensing bodies, or other education institutions).

**Prerequisite**
A Bachelor’s degree from an accredited college or university is required and a minimum of three (3) years of teaching experience is preferred.

**Program Outline: 34 credits**
The Master of Education (School Administration) is a 34 credit degree program.

Principal or Program Administrator Certification
(for specific program information, please contact the Program Director, Dr. Cynthia Johnson, johnsonc2@gonzaga.edu.) Principal or Program Administrator Certification for candidates who have a graduate degree in educational leadership or educational administration is available through the completion of a 12 credit professional development program consisting of leadership role seminars and internships.

Program Outline: 12 credits
Principal or Program Administrator Certification
EDPC 912  Leadership Role Seminar (fall)  3 credits
EDPC 913  Leadership Role Seminar (spring)  3 credits
EDPC 920  Certification Internship (fall)  3 credits
EDPC 930  Certification Internship (spring)  3 credits
EDLA 520 - Computers in School Curriculum  
Credits: 3
The nature of contemporary school curriculum and the need for the professional educator to gain a basic understanding of computers and computer technology are discussed. The course also explores a variety of computer applications and evaluates their uses in the classroom.

EDLA 525 - Educational Leadership and Inquiry  
Credits: 3
This course creates opportunity for personal reflection upon one's role as a leader. Because schools are centers of inquiry, candidates develop the capacities to lead a process of evidence-informed decision-making. Candidates will examine leadership theory, practice, and the skills associated with professional inquiry.

EDLA 540 - Ethical Dimensions in Education  
Credits: 3
This course presents a review of ethical theory and an examination of ethical decision-making that affects the daily life of students, teachers, administrators, staff, and parents involved in the pre-K-12 education system. This course also explores important elements of practical and professional ethics and the culture of pre-K-12 education.

EDLA 546 - Advanced Learning Strategies  
Credits: 3
This course is designed to identify for teachers, principals and curriculum developers a range of teaching models and instructional approaches for creating learning environments. The course provides a systematic exploration of interactions among educational objectives, pedagogical strategies, curricular designs, social and psychological theory. The course emphasizes the wide range of options teachers may adopt and adapt to their unique teaching situation. The course assists students in developing a basic repertoire of teaching models through analysis of the underlying theoretical structures, principles and procedures of four different groups of approaches to teaching. Students will have the opportunity to participate in the "coaching" process designed to assist with the acquisition of new teaching behaviors.

EDLA 548 - Educational Leadership and School Improvement  
Credits: 3
This course will examine the beliefs, knowledge, and skills that promote collaboration with all stakeholders toward creating a school improvement plan that promotes student success. The course will address practical elements of dynamic school leadership applied to research based practices regarding change, team building, staff development models, and supervisory processes that foster the improvement of schools.

Restrictions:
Must be enrolled in one of the following Campus(s): Off-Campus

EDLA 553 - Teaching Thinking Skills  
Credits: 3
This course presents a practical introduction to strategies that develop thinking skills: theory as well as practical applications to use in the classroom. Emphasis is on how to integrate thinking skills development into the existing classroom curriculum.

EDLA 554 - Cooperative Learning  
Credits: 3
This course provides a treatment of collaborative learning strategies. Course topics include recognizing elements of cooperative learning, diagnosing and grouping for a cooperative classroom environment, utilizing eight applied teaching techniques, and promoting responsible evaluation techniques for collaborative learning.

EDLA 564 - Art and Science of Teaching  
Credits: 3
This course examines frameworks for enhancing student learning from the perspectives of leadership in the classroom and at the building or district level. The course will build on the educational applications of brain research and on strategies for creating safe and effective learning environments. Candidates will be asked to apply course content at the classroom level and school leadership level.

EDLA 565 - Assessment and Learning  
Credits: 3
This course is designed to help candidates extend their expertise in applied educational measurement at the classroom, building, district, state, provincial, and national levels. The philosophical, cultural, ethical, and political issues surrounding assessment and evaluation will be examined from the perspectives of classroom practitioners and school leaders. Candidates will also focus on involving students in a variety of rigorous assessment methods to promote a fair, supportive, and reciprocal learning environment.
EDLA 597 - Instructional Practicum  
This is a field-based experience for practicing teachers. The focus is on the development and documentation of growth standards from research on teaching. Teachers use peer coaching, effective schools research, climate expectations, and goal setting strategies. Some application of specific models, social styles, and positive growth strategies may be involved.

EDLA 600 - Program Administrator Intern  
The internship is planned for candidates contemplating a calling to central office administration. This two semester course field experience places the candidate-administrator in a firsthand work experience in which academic knowledge can be applied in the educational setting. The candidate's experience is aligned to Washington State Program Administrator Certification requirements.

EDLA 609 - Program Administrator Role Seminar  
This course is delivered through a series of five seminars during the candidates' internship year. Attendance of each seminar in the specific sequence is mandatory. Seminar topics include budget allocation and distribution, staffing, ASB funds, special education law, personnel, public relations and the job search process. Department: Educational Leadership Admin.

EDLA 610 - Program Administrator Intern  
The internship is planned for candidates contemplating a calling to central office administration. This two semester course field experience places the candidate administrator in a firsthand work experience in which academic knowledge can be applied in the educational setting. The candidate's experience is aligned to Washington State Program Administrator Certification requirements.

EDLA 611 - Continuing Education  

EDLA 612 - Leadership Role Seminar  
This course is delivered through a series of five seminars during the candidate's internship year. Attendance of each seminar in the specific sequence is mandatory. Seminar topics include budget allocation and distribution, staffing, ASB funds, special education law, personnel, public reflections and the job search process. Fall.

EDLA 613 - Leadership Role Seminar  
This course is delivered through a series of five seminars during the candidate's internship year. Attendance of each seminar in the specific sequence is mandatory. Seminar topics include budget allocation and distribution, staffing, ASB funds, special education law, personnel, public reflections and the job search process. Spring.

EDLA 620 - Principal Internship  
The internship is planned for the candidate's second year in the program. The field experience places the candidate-administrator in a firsthand experience in which academic knowledge can be applied to the educational setting. The candidate's experience is aligned to Washington State principal certification requirements.

EDLA 623 - Risk and Protective Factors  
This course addresses the interdependency of family, school and community as they impact the school-aged child. Risk factors are addressed, as well as protective factors that can support family, school, and community in fostering resiliency in children.

EDLA 625 - Classroom Intervention Skills  
This course offers teachers the opportunity to learn communication and counseling skills that can be used within the instructional settings. Supportive classroom management techniques that result in logical consequences and assist the child in accepting responsibility for behavior are addressed. This course focuses on a multitude of methods and modalities in order to address various learning styles to reduce non-academic stressors.

EDLA 626 - Culture and Diversity  
This course addresses culture and diversity from local and global perspectives with practical application at the classroom, school, and community levels. Candidates will develop cultural competencies that support effective and appropriate interaction in a variety of cultural educational and community contexts. These competencies involve
developing knowledge, skills, and attitudes that promote equity, celebrate human differences, and accommodate students so that they achieve the benefits of education.

EDLA 627 ‐ Teacher as Counselor credits: 3
This introductory course addresses the metacognitive aspects of the teacher as person and counseling skill development for classroom teacher use. Areas of emphasis will include self-awareness, awareness of impact on others, recognizing and attending to different learning styles and personality types, maintaining healthy relationships with others, and creating a vision for the future. It will focus on personal and academic growth.

EDLA 628 ‐ Manage‐Enhance Instruction Culture credits: 3
This course includes methods and strategies teachers can use to match pedagogy to the various learning styles of students. Teachers translate theory into practice through experiences within the classroom as well as collaborate with families and community agencies. The course focuses on practical application of theory by the creation of curricula using methods, strategies, and resources that have been designed to facilitate child resiliency, involve family, and utilize school and community resources.

EDLA 630 ‐ Principal Internship credits: 3
The internship is planned for the candidate’s second year in the program. The field experience places the candidate administrator in a firsthand experience in which academic knowledge can be applied to the educational setting. The candidate’s experience is aligned to Washington State Principal Certification requirements.

EDLA 633 ‐ Organizations and Educational Leadership credits: 3
This course is designed to enhance candidates’ understanding of organizations and to build their capacity as leaders with and without authority to help the organization achieve its goals.

EDLA 635 ‐ Principalship credits: 3
This course explores the role of the building administrator. It examines the nature of school leadership in today’s schools; core values and beliefs; and the relationships of the principal with students, teachers, parents, and the community.

EDLA 638 ‐ Human Resource Management credits: 3
This course presents a broad view of the human relations function as one of the critical and interrelated subsystems involved in the administration of a school or a school system. The major topics for consideration and investigation include knowledge of the processes and attitudes that facilitate the integration of a professional into the school organization, promotion of the instructional leadership of the individual and the enhancement of his/her work satisfaction and the awareness of the legal and ethical environment of personnel administration. The course challenges the student to respond to the changing needs in personnel administration by adopting new ways of working that can enhance the human resource capabilities of schools.

EDLA 641 ‐ Educational Leadership and Community credits: 3
This course will explore the multiple, complex ways that our schools and society shape each other, with special attention devoted to school leadership issues. Theory, research, and models of effective practice will inform the educational leader’s role as a bridge between school and community. This bridging role includes being actively involved in building reciprocal relations within and between the school and community, facilitating understanding and communication among and between various interest groups as they impinge on the school, and developing mutually beneficial linkages and partnerships for the benefit of the school, particularly as they enhance the mission of promoting powerful and equitable learning for students, professionals, and the organization.

EDLA 646 ‐ Staff Development credits: 3
This course provides the professional teacher with an understanding of the concepts of adult learning and development and an awareness of some of the components, processes, and techniques of staff development programs. The focus is on the underlying theme of staff development programs that the professional teacher perceives learning and the acquisition of new competencies as a life-long process.

EDLA 648 ‐ Teacher Leadership credits: 3
This course focuses on the skills of promoting effective cooperation between community and school. It also includes discussion of communication strategies, team building, and meeting patron need. Prerequisite: Postgraduate standing or permission. (Canada only)
Restrictions:
Must be enrolled in one of the following Campus(s): Off-Campus

EDLA 651 - Supervision of Instruction  credits: 3
This course is designed to support the position that the primary purpose of supervision is to provide the means for teachers and supervisors to increase their understanding of the teaching-learning process through collaborative inquiry that can increase classroom effectiveness and student learning. The primary assumption on which this course rests is given a democratic setting; all teachers have the potential for growth and are capable of making appropriate instructional decisions based on relevant classroom data. Teachers are perceived as active constructors of their own knowledge about learning and teaching and supervision is viewed as a collaborative means in creating this knowledge. The emphasis is on multiple methods of collecting objective data during instruction that can be used to make inferences and interpretations regarding the effectiveness of the teaching process.

EDLA 653 - Curriculum Development  credits: 3
This course addresses the basic approaches to planning and modifying school curricula and places these in historical, ideological, and political contexts. Topics include the diagnosis of needs, selection and organization of learning experiences, evaluating curricular systems, and the elements of the change process that promote equity and access to learning. Candidates will explore the implications of course concepts at the classroom, school, and district levels.

EDLA 662 - Leadership and Finance  credits: 3
This course presents a thorough overview of the economics and financing of education. This course also presents, and prepares participants for using, standard budgeting procedures for managing schools and school systems.

EDLA 663 - Leadership and Law  credits: 3
The course is designed for graduate students in education without prior formal training in school law, but who have experience working in schools. Through multiple activities students are expected to be able to identify legal issues which may arise in their jobs in school, be familiar with the legal rules which govern these issues, and be able to make an educated guess about how a court might apply these legal standards to their situation.

EDLA 670 - Leadership and Change Planning  credits: 3
This course consists of one module that can be taken in either the fall or spring semesters. The module topic addresses planning for school change. The course is designed for those candidates that already hold a master's degree in the field of education and is primarily developed for those individuals that have a Principal or Program Administrator Certification.

EDLA 671 - Leadership and Capacity Building  credits: 3
This course consists of one module that can be taken in either the fall or spring semesters. The module topic addresses Leadership and Building Capacity in others. The course is designed for those candidates that already hold a master's degree in the field of education and is primarily developed for those individuals that have a Principal or Program Administrator Certification.

EDLA 672 - Education Leadership and Student Success  credits: 3
This course is designed for candidates that already hold a Masters' degree in the field of education and addresses leading for student success.

EDLA 689 - Professional Seminar  credits: 3
This seminar is intended to be a culminating experience in the Master Degree program. During the semester, the candidate works with his/her academic advisor to complete the research and/or position paper. The final paper is presented to a small group of peers in a seminar setting. Each student has approximately 50 minutes for their presentation. The presentation should be viewed as a discussion time for peer interaction about the topic of the paper, rather than a formal lecture or 'teaching' session.

EDLA 690 - Directed Readings  credits: 1-3
This is an individualized study based on readings approved by professor. Student develops a selected bibliography.
EDLA 692 ‐ Independent Study  
credits: 0‐3  
This is an individualized study designed by the student in consultation with the professor. It requires self-directed learning in a selected area of interest; the professor serves as resource.

EDLA 694 ‐ Special Project  
credits: 1‐3  
This is an individualized and project-based study, which results in a practical application of educational theory. The project or written report of project is submitted to the professor for evaluation.

EDLA 695 ‐ Professional Experience  
credits: 1‐3  
This is a planned series of field experiences in settings related to education, junior colleges, court services, social agencies, etc.

EDLA 698 ‐ Research and Data Analysis  
credits: 3  
The research course continues from the Educational Leadership and Inquiry course and focuses on helping candidates understand and apply methodological, ethical, and writing, and formatting issues related to the research process. The course is designed to prepare the candidates to plan and report on self-selected research projects.

EDLA 698A ‐ Research Project  
credits: 3  
This is a research project for a master's degree.

EDLA 698C ‐ Research Seminar  
credit: 1  
An analysis of basic elements of research proposal design.

EDLA 699 ‐ Comprehensive Oral Exam  
credit: 0  
Department of Sport and Physical Education

Chairperson: Karen Rickel

Master of Arts in Sport and Athletic Administration

Gonzaga University’s M.A. in Sport and Athletic Administration (MASAA) program prepares candidates to be leaders in sport, athletic, and health related professions. This campus based and online program is designed as an interdisciplinary curriculum, grounded in the liberals arts, drawing on studies in educational and organizational theory. An integral part of the program is the internship, in which candidates acquire skills and experience under the supervision of an advisor and a site administrator. The emphasis is on training candidates to administer programs in accordance with best professional practices. Graduates of the program earn a degree from an academically respected university with a top 10 NCAA brand. Students move through the program as a cohort, with a new cohort starting each fall. The on-campus curriculum is designed as a 34 semester credit program with an average two year completion time for full time students. Students entering in the fall semester can usually complete the program requirements within the two years provided they take six to nine credits per semester. The online program differs as classes are offered in an accelerated fashion with two courses (approximately 8 weeks in duration) taken each semester. Students can usually complete the program in six semesters, provided they follow the recommended course sequence schedule. 

During the past few years, some of the institutions and organizations which have hired our alumni, include:
The University of Oklahoma Athletics, Georgetown University, Washington State University, University of Arizona, Illinois State University, Boise State University, Drake University, Ohio University, Texas State University, Lewis and Clark State College, North Idaho College, Lake Forest College, Gonzaga University, Oregon School Activities Association (OSAA), Whitworth University, Dixie State College of Utah, Spokane
Community Colleges, Washington Nationals (MLB), Hillsboro Hops (Minor League Baseball), Spokane Indians (Minor League Baseball), Spokane Chiefs (Western Hockey League), Lethbridge Hurricanes (Western Hockey League), Mizuno, Spokane Regional Sport Commission, Spokane Youth Sports Association (SYSA), Volleyball of the Rockies, The Dirty Dash, and more.

Admissions
Campus and Online Admissions Guidelines
You can also find this information at the following link: https://online.gonzaga.edu/online-masters-sportand-athletic-administration/apply-now-masaa2

1) Complete the online application and pay the $50 application fee (pay at the end of the online application). See the MASAA “Apply Now” button at online.gonzaga.edu and follow the instructions.

2) Provide official transcript from each college or university attended. A cumulative grade point average (GPA) must be above a 3.0 on a 4.0 scale.
   a) If your GPA falls below a 3.0, please include an explanation of GPA statement.
   b) If you previously attended Gonzaga or are a current student, please note that Gonzaga University transcripts are ordered by the Graduate Admissions Office on your behalf. c) Mail official transcripts to:
      Gonzaga University
      Virtual Campus Admissions
      502 E. Boone Avenue
      Spokane, WA 99258-0068

3) Provide a minimum of two recommenders Request letters of recommendation through the online application. Your references will be contacted directly by us via email with directions for submitting their letters of recommendation and evaluation checklist on your behalf. Provide a minimum of two recommenders who can evaluate your leadership, interpersonal skills, critical thinking, judgment, professional practice, and your ability and capacity to complete a graduate degree. Please note: recommendations from family members are not accepted.
   a) If you graduated with your bachelor’s degree within three years of this application, follow the guidelines below.
      i) Provide one letter from an academic advisor or past professor. ii) Provide a second letter from a current supervisor or an additional letter from a past professor. iii) All letters must address your potential to perform as a graduate student in the following areas: leadership, interpersonal skills, critical thinking, judgment, and professional practice.
   b) If you graduated with your bachelor’s degree more than three years from the date of this application, follow the guidelines below.
      i) Provide two letters from current or past (within last three years) supervisors.
      ii) The letters must address your potential to perform as a graduate student in the following areas: leadership, interpersonal skills, critical thinking, judgment, and professional practice.
If you are not able to secure a recommendation from your current supervisor for any reason, please contact our admissions counselor ASAP.

Exception
If you graduated with a major or minor from Gonzaga’s Sport and Physical Education undergraduate program, you may NOT submit letters from professors or advisors within that program. Letters may be submitted from professors in other programs at Gonzaga and/or past or current supervisors. However, the letters must address your potential to perform as a graduate student.
Note to Applicants Regarding Letters of Recommendation: A letter of recommendation makes a statement of support for a candidate. This letter presents a well-documented evaluation, providing sufficient evidence and information to help an admissions committee get a better picture of the applicant and his or her potential for success in a graduate program. Transcripts, standardized test scores, and personal statements are vital components to the application; however, an excellent letter of recommendation may help make up for weaknesses in any of these areas. Encourage your recommender to write a letter focused on your particular skills and abilities in the areas of leadership, interpersonal skills, critical thinking, judgment, and professional practice. We love to hear about examples and true stories that demonstrate the character behind the applicant. We recommended that you provide the individuals writing letters of recommendation with this guidance so that they can write the best letter of support for you.

a) If you graduated with your bachelor’s degree within three years of this application, follow the guidelines below.
   i) Provide one letter from an academic advisor or past professor.
   ii) Provide a second letter from a current supervisor or an additional letter from a past professor. iii) All letters must address your potential to perform as a graduate student in the following areas: leadership, interpersonal skills, critical thinking, judgment, and professional practice.

b) If you graduated with your bachelor’s degree more than three years from the date of this application, follow the guidelines below.
   i) Provide two letters from current or past (within last three years) supervisors.
   ii) The letters must address your potential to perform as a graduate student in the following areas: leadership, interpersonal skills, critical thinking, judgment, and professional practice.

If you are not able to secure a recommendation from your current supervisor for any reason, please contact our admissions counselor ASAP.

Admission Questionnaire
Please address the following questions as completely and succinctly as possible. Each question should be 400-600 words. Please review your answers for grammatical accuracy and clarity.

1) Please read the University Mission Statement and respond to the following question: How do you use the Mission in your current work (if you are already in a sporting or related industry) or plan to use the Mission in your future endeavors in a sporting or related industry?
2) What do you see as your strengths that will help you successfully complete our program? What challenges or conflicts do you anticipate if you are accepted into this program and how do you plan to overcome them?

3) If you could have dinner with someone (living or deceased), who would that person be and why?

4) What do you see as a problem we face in the sporting industry today and why?

5) What are your long-term professional goals? How do you see this program helping you achieve those goals?

6) Tell us about your technological skills, area of expertise, and knowledge of software. Provide examples of the systems you have used and examples of work you have completed. If the questionnaire does not meet the criteria, applicants may not be accepted. We encourage students to have their questionnaire answers reviewed by a professional at the master’s or doctoral level before submitting the application package.

1) Resume or Curriculum Vitae Please provide a current resume including your overall GPA and major GPA.

International Students

International students must submit the above documentation and the following items:

1) Submission of foreign transcripts in the original language and a certified English copy

2) An official TOEFL score of 88 ibt, 580 (written) OR an IELTS score of 6.5 or higher OR successful completion of Gonzaga University’s ESL program

3) Copy of passport

4) Completed financial declaration form (https://online.gonzaga.edu/wp-content/uploads/2015/02/BasicGraduateFinancial-Dec-14-15.pdf) with original supporting bank statements (showing at least US $22,900) or official letter from sponsoring agency.

Prerequisite

A bachelor’s degree from an accredited college or university is required.
Program Outline: 34 credits

EDPE 500  Sport and Athletic Promotions  3 credits
EDPE 501  Sport Media and Communication  3 credits
EDPE 514  Ethical and Legal Aspects in Sport and Athletic Administration  3 credits
EDPE 525  Sport and Athletics in the Social Context  3 credits
EDPE 565  Research Methods and Statistics in Sport and Athletics  4 credits
EDPE 571  Sport and Athletic Finance  3 credits
EDPE 613  Administration of Physical Education, Athletics and Sports  3 credits
EDPE 696A-C*  Sport and Athletic Administration Internships I - III  9 credits
EDPE 699  Capstone Experience  0 credit
EDPE Elective  3 credits

Recommended course is EDPE 621, or a course pre-approved by your academic advisor.

*The online program only consists of one internship (696A) and the other 6 credits are replaced with special topic classes that are decided at the beginning of each new cohort.

EDPE 500 - Sport and Athletic Promotions  credits: 3
Study of policies and practices in managing relations with external and internal publics associated with the sport and athletic industry. Media relations, publicity for both print and broadcast press, marketing strategies, advertising and campaign development, sponsorships and marketing ethics are some of the main topics to be covered.

EDPE 501 - Sport Media and Communication  credits: 3
This course will examine today's world of communication by examining the converging industries of journalism, public relations, marketing and advertising as expressed in the new commercial reality of sport. The student will be provided with a history of the sport media and the changes the media has undergone in recent years. The students will also have the opportunity to be placed in the media chair and produce written material as a reporter covering an athlete program or sporting event.

EDPE 514 - Ethical/Legal Aspects in Sport  credits: 3
To familiarize students with the legal and ethical aspects surrounding sport organizations. Topics such as tort law, contract law, agency law, constitutional law, Title IX and IX, ethical theories within the work place are thoroughly covered.

EDPE 515 - Elementary Physical Education  credit: 1
This course will provide students both theoretical and practical experience in learning how to design and implement a physical education program at an elementary level. It will introduce the students to objectives of physical education, activities that can be implemented at specific grade levels, general fitness concepts, and techniques of teaching in a physical activity environment, assessment protocol, and the importance of physical education as an integral part of general education. An experimental and cross disciplinary approach will be taken to developing and implementing effective learning experiences in physical education for students K-8. Permission only; On Demand.

EDPE 516 - Elementary Health Methods  credit: 1
This course will provide students both theoretical and practical experience in learning how to design and implement a health education program at an elementary level. It will introduce the students to objectives of health education, activities that can be implemented at specific grade levels, teaching strategies, assessment protocol, and the importance of health education as an integral part of general education. An experimental and cross disciplinary approach will be taken to developing and implementing effective learning experiences for students K-8. Permission only. On demand.

EDPE 517 - Abuse Prevention  credit: 1
This course will provide students an awareness of the incidence of abuse and the knowledge and skills needed to execute their professional roles and responsibilities, as K-12 educators, in dealing with children who have suffered abuse and neglect. Reporting mandates and legal protection afforded in executing these mandates will also be covered.

EDPE 518 - Health/Fitness Methods  
This course will provide students both theoretical and practical experience in learning how to design and implement a health and fitness education program at an elementary level. It will introduce the students to objectives of health and fitness education, activities that can be implemented at specific grade levels, teaching strategies, assessment protocol, and the importance of health and fitness education as an integral part of general education. An experimental and cross disciplinary approach will be taken to developing and implementing effective learning experiences for students K-8. Permission only; on demand.

EDPE 525 - Sport and Athletics in the Social Context  
An analysis of historical sport and athletic events, the structure of sport in societies, and the social factors influencing the positive and negative outcomes of those events. Topics such as diversity, economics, politics, media, and religion will be covered and investigation of the social impact of these issues on sport and athletic environments.

EDPE 565 - Research Methods and Statistics in Sport Athletics  
This course focuses on the research methods, statistical techniques and applications of social research and evaluation process using SPSS in the context of sport and athletics. Students are required to complete his/her individual research proposal by the end of semester consisting of three chapters (introduction, review of literature, and methodology) and also are given the opportunity to learn and practice SPSS, statistical computer software for social science.

EDPE 571 - Sport and Athletic Finance  
Analysis of budget techniques and strategies for financial planning and decision making in sport and athletic programs. Emphasis will be given to revenue productions and fundraising relevant to both community and school supported sport programs.

Restrictions:
Must be in the following College(s):
School of Education

EDPE 590 - Directed Readings  
Directed readings requires completion of a form, and department permission and cannot be registered for via ZAGWEB.

EDPE 591 - Directed Study  
Directed Study requires completion of a form, and department permission and cannot be registered for via ZAGWEB.

EDPE 592 - Independent Study  
Independent Study requires completion of a form, and department permission and cannot be registered for via ZAGWEB.

EDPE 594 - Special Projects  
Special Projects requires completion of a form, and department permission and cannot be registered for via ZAGWEB.

EDPE 611 - Continuing Research  
Required of all graduate students to maintain continuous enrollment in the program while completing their final project.

EDPE 613 - Admin in Sport and Athletics  
Students will study organizational theories and practices with an emphasis on the sport industries. Leadership styles and theories, organizational development, personnel, fiscal, and legal issues will be covered.

EDPE 621 - Facilities Management in Sport and Athletics  

This course covers theories, policies, principles, and practical applications of facility management and operations with the special emphasis on designing, planning, operating, maintaining of the sport facility. Students will develop and utilize a variety of materials reflective of sport event and venue operations such as an event bidding proposal, a facility review evaluation report, area of expert papers and case studies.

EDPE 689 - Master's Research Project
Credits: 3
This course involves the identification and in-depth exploration of a topic or issue in physical education, athletics, or sports administration in preparation for the final oral presentation. The project must be completed and submitted in a written form or manuscript suitable for publication.
Pre-requisites: EDPE 565

EDPE 696A - Sport and Athletics Administration: Intern I
Credits: 3
An intensive field supervised experience in a sport or athletic related organization approved by the instructor of record.

EDPE 696B - Sport and Athletics Administration: Intern II
Credits: 3
A continuation of EDPE 696A. An intensive field supervised experience in a sport or athletic related organization approved by the instructor of record. Pre-requisites: EDPE 696A

EDPE 696C - Sport and Athletics Administration: Intern III
Credits: 3
A continuation of 696B. An intensive field supervised experience in the sport or athletic organization approved by the instructor of record. Pre-requisites: EDPE 696B

EDPE 699 - Capstone Experience
Credit: 0
This is a student's final experience demonstrating competency in content knowledge through an oral or written project.

Department of Special Education

Chairperson: Kimberly Weber

Master of Education in Special Education

Program Director: Kimberly Weber

The Department of Special Education offers preparation for special educators within schools and other agencies. Candidates gain core competencies and then specialize in areas of interest. Individual field experiences are available to meet specialized needs. Three tracks of study are offered: Track One in Functional Analysis, Track Two in Early Childhood Special Education, and Track Three in General Special Education (usually completed for candidates who have an endorsement in another area and are seeking to add an endorsement in special education). The Department of Special Education offers teaching endorsements in Special Education (pre-school-12) and Early Childhood Special Education (birth-3). After successfully completing nine credits of the program with a 3.00 GPA or higher in each course, candidates submit an application for candidacy. This application requires an advisor recommendation and faculty review.
Admissions

Each applicant must submit the following materials to the School of Education Graduate Admissions Office:

1. A completed application form (see the School of Education website: http://www.gonzaga.edu/soe/grad) and non-refundable fee.
2. A written statement of purpose addressing the applicant’s interest in graduate studies that relates to some area in the field, assessing the applicant’s current strengths, and describing what the applicant hopes to gain from a master’s degree program.
3. Two letters of recommendation sent directly from the recommending persons to the School of Education Graduate Admissions Office using the Confidential Recommendation form (see the School of Education website).
4. A resume.
5. An official transcript from each college or university attended (international applicants must submit foreign transcripts in the original language and an English copy), final transcripts must bear a posted bachelor’s degree. Only degrees and courses from a regionally accredited institution will be accepted.
6. The official score from the Graduate Records Exam (GRE) general aptitude test or the Miller Analogies Test (must be less than five years old). This requirement may be waived if the applicant has an advanced degree, or graduated from the undergraduate special education program at Gonzaga University, or graduated from another program at Gonzaga University earning a GPA of 3.00 or higher.
7. Submission of an official TOEFL score of at least 550 (minimum score of 80 if taken via internet) by each international applicant who graduated from a foreign college or university and whose native language is not English.
8. Submission of a financial declaration form and supporting documentation by each international applicant.
9. An interview with the special education faculty.

Prerequisite

A bachelor’s degree from an accredited college or university is required.

Program Outline: 32 credits

Core: 18-20 credits

For those seeking BCBA certification the following additional courses must be taken to meet course content requirements.

EDSE 669 Ethics on Behavior Analysis I 1 credit
EDSE 674 Ethics on Behavior Analysis II 2 credits

**Track Two: 12 credits (Early Childhood Special Education)**

EDSE 560 Early Childhood Special Education 3 credits
EDSE 561 Physical Development 3 credits
EDSE 562 Language and Communication 3 credits
EDSE 565 Development of Children with Exceptionalities 3 credits

**Track Three: 12 credits (General Special Education)**

EDSE 501 Psychology of Children with Exceptionalities 3 credits
EDSE 522 Precision Teaching 3 credits
EDSE 551 Direct Instruction: Reading 3 credits
EDSE 552 Direct Instruction: Mathematics 3 credits

Students wishing to add an endorsement in Special Education must take:

EDSE 520 Applied Behavior Analysis 3 credits
EDSE 545 Special Education Policies and Procedures 3 credits
EDSE 575 Advanced Classroom Management 3 credits
EDSE 604 Assessment in Special Education 3 credits

All track three courses: 12 credits

EDSE 500 Graduate Teaching Certification 0 credit
EDSE 505 Special Education Applied Classroom Experience: Elementary 1 credit
EDSE 506 Special Education Applied Classroom Experience 1 credit
EDSE 507 Special Education Applied Classroom Experience: Secondary 1 credit

One of the following early childhood special education courses: 3 credits

- EDSE 560 Early Childhood Special Education
- EDSE 561 Physical Development
- EDSE 562 Language and Communication
- EDSE 565 Development of Children with Exceptionalities

One of the following two courses: 6 credits

- EDSE 696 Student Teaching in Special Education
- EDSE 697 Extended Student Teaching in Special Education (if student is not certified previously)

Certification requirements for the State of Washington frequently change. It is the applicant’s responsibility to contact the certification officer in the School of Education for the most current information regarding state certification.

Additional requirements will include:

1) Completion of the Character and Fitness form.
2) WSP/FBI clearances.
3) Passing the Washington State West B (basic competency test) if the student is not already certified in the State of Washington.
4) Acceptance into teacher certification.
5) Completion of all other State of Washington certification requirements, such as passing the WEST E in each endorsement area the candidate is completing.
Electives
If a student previously took the equivalent of a core course or a course from the chosen track, then an elective course from the following special education courses may be substituted with the approval of the academic advisor, chairperson, and the dean.

Master of Initial Teaching (MIT) in Special Education
Program Director: Anjali Barretto
The Department of Special Education offers preparation for candidates with a bachelor’s degree to seek certification in special education along with a master’s degree. Candidates who enter the Master of Initial Teaching in Special Education focus on learning competencies for understanding students with disabilities, policies, and procedures regarding special education laws and compliance issues. Coursework and practicum experiences are linked in such a manner that candidates apply knowledge immediately in applied settings. The Department of Special Education offers initial teaching endorsements in Special Education (pre-school-12) and Early Childhood Special Education (birth-3).

Admissions
Each applicant must submit the following materials to the School of Education Graduate Admissions Office:
1. A completed application form (see the School of Education Website: http://www.gonzaga.edu/soe/grad) and non-refundable fee.
2. A written statement of purpose addressing the applicant’s interest in graduate studies that relates to some area in the field, assessing the applicant’s current strengths, and describing what the applicant hopes to gain from a master’s degree program.
3. Two letters of recommendation sent directly from the recommending persons to the School of Education Graduate Admissions Office using the Confidential Recommendation form (see the School of Education website).
4. A resume.
5. Two official transcripts from each college or university attended (international applicants must submit foreign transcripts in the original language and an English copy), final transcripts must bear a posted bachelor's degree. Only degrees and courses from a regionally accredited institution will be accepted.
6. The official score from the Graduate Records Exam (GRE) general aptitude test or the Miller Analogies Test (must be less than five years old). This requirement may be waived if the applicant has an advanced degree or graduated from the undergraduate special education program at Gonzaga University or graduated from another program at Gonzaga University earning a GPA of 3.00 or higher.
7. Submission of an official TOEFL score of at least 550 (minimum score of 80 if taken via internet) by each international applicant who graduated from a foreign college or university and whose native language is not English.
8. Submission of a financial declaration form and supporting documentation by each international applicant.
9. An interview with the special education faculty.
10. A bachelor’s degree from an accredited college or university is required.
11. Passing score on all three areas of the WEST B exam (content tested: reading, math, and writing).
12. Provisional acceptance may be given in some cases for one semester in order for candidates to complete necessary admission requirements.

Prerequisites
A bachelor’s degree from an accredited college or university is required.
Program Outline: 46 credits

**1st Summer**
- EDSE 501  Psychology of Children with Exceptionalities  3 credits
- EDTE 511  Instructional Foundation  3 credits
- EDPE 517  Abuse Prevention  1 credit

**1st Fall**
- EDSE 500  Graduate Teaching Certification  0 credit
- EDSE 505  Special Education Applied Classroom Experience: Elementary  1 credit
- EDSE 520  Applied Behavior Analysis  3 credits
- EDSE 545  Special Education Policies and Procedures  3 credits

**1st Spring**
- EDSE 506  Special Education Applied Classroom Experience  1 credit
- EDSE 551  Direct Instruction Reading  3 credits
- EDSE 552  Direct Instruction Mathematics  3 credits

**2nd Summer**
- EDSE 698  Research in Special Education  4 credits

**2nd Fall**
- EDSE 560  Early Childhood Special Education  3 credits
- EDSE 575  Advanced Classroom Management  3 credits
- EDSE 507  Special Education Applied Classroom Experience: Secondary  1 credit

**2nd Spring**
- EDSE 522  Precision Teaching  3 credits
- EDSE 604  Assessment in Special Education  3 credits
- EDSE 697  Extended Advanced Special Education Teaching Practicum  6 credits

**3rd Summer**
- EDSE 689  Professional Seminar  2 credits

**Certification**
In order to be eligible to receive an endorsement, the graduate candidate must be accepted into teacher certification. The candidate must also take and pass the necessary content course requirements, pass the WEST E in the specified content area of special education to obtain a Washington State teaching certificate and an endorsement to teach special education (P-12).

EDSE 500 - Graduate Teaching Certification Orientation  credit: 0
This course is required for candidates pursuing an endorsement to teach special education in the State of Washington. Basic requirements for Washington State certification including Washington State Patrol and FBI clearances, West B competency testing, Praxis II/West E competency testing, professional standards and expectations of special education teacher candidates, including residency and professional certification are covered. Co-requisites: EDSE 520

EDSE 501 - Psychology of Children with Exceptions  credits: 3
The purpose of this course is to provide candidates with an overview of special education. Etiology, characteristics, and treatment of major disabling conditions will be covered. Philosophical, political, and pedagogical implications of past, current, and future services are analyzed.

**EDSE 505 - Special Education Applied Classroom Experience Elementary**  
Credit: 1  
Graduate candidates obtain experience in applied special education classroom settings at the elementary/preschool level. Appropriate clearance is required prior to entering the school setting. A minimum of 30 hours of supervised work in school setting is required to meet course standards.

**EDSE 506 - Special Education Applied Classroom Experience**  
Graduate candidates obtain experience in applied special education classroom settings either at the elementary/preschool level or at the middle/high school level. Opportunities to provide experiences in inclusive settings with special needs students will be sought. Appropriate clearance is required prior to entering the school setting. A minimum of 30 hours of supervised work in school setting is required to meet course standards.

**EDSE 507 - Special Education Applied Classroom Experience Secondary**  
Credit: 1  
Graduate candidates obtain experience in applied special education classroom settings at the middle/high school level. Appropriate clearance is required prior to entering the school setting. A minimum of 30 hours of supervised work in school setting is required to meet course standards.

**EDSE 520 - Applied Behavior Analysis**  
Credits: 3  
An advanced introduction to the basic principles of learning and effective and practical procedures based upon those principles. Students read seminal articles in the field of behavior analysis and conduct and write up their own applied research study, implementing some of the procedures to remediate socially significant problems of children.  
Co-requisites: EDSE 500

**EDSE 522 - Precision Teaching**  
Credits: 3  
This course covers basic procedures of precision teaching (e.g., movement cycles, pinpointing behaviors, setting aims, charting, planning curricula development for precision teaching, and methods of remediating learning disabilities).  
Pre-requisites: EDSE 520 Minimum Grade: B- or EDSE 320

**EDSE 523 - Theory of Instruction**  
Credits: 3  
This course covers a detailed analysis of direct instruction principles and their application to curriculum development. Requires an in-depth knowledge of and experience with direct instruction curriculum materials.

**EDSE 527 - Teaching Persons with a Developmental Disability**  
Credits: 3  
This course provides students with an understanding of the state-of-the-science practices in serving individuals who are mentally handicapped. Focus is on development of intervention within community, school, vocational, domestic, and social settings for both school-age students and adults.

**EDSE 535 - Autism**  
Credits: 3  
This course overviews the major characteristics of persons with autism, with focus on effective treatment, functional goals and curricula, objective assessment, teacher/parent training, classroom integration, and generalization and maintenance of treatment gains. Particular emphasis is placed on developing effective applied skills through course work, practicum, and an applied research study and write-up.
Special Education Policies and Procedures  
This course covers issues involved in providing I.E.P. provisions including goals, strategies, and legal and ethical implications.

EDSE 551 - Direct Instruction-Reading  
This course trains prospective teachers how to teach special education and regular education pupils to read. Content covers beginning through intermediate reading. Particular emphasis is placed on instructing teachers to use reading techniques that have research supporting their effectiveness. Prospective teachers are taught how to teach, monitor, assess, and remediate reading deficits regarding various reading skills.

EDSE 552 - Direct Instruction-Mathematics  
This course focuses on the teaching of mathematics directly to students with special needs and regular education elementary pupils. Emphasis is placed on procedures with a strong research base supporting their effectiveness. Prospective teachers are taught how to teach, monitor, assess, and remediate skill deficits regarding various mathematical skills.

EDSE 560 - Early Childhood Special Ed  
This course overviews of the principles and practical procedures involved in infant and preschool services integrating children with disabilities. Applied experience is provided in an integrated preschool setting.

Pre-requisites: EDSE 520 Minimum Grade: B-

EDSE 561 - Physical Development  
This course examines the principles of normal physical and neuromotor development with an emphasis on methods for identifying and treating delayed and dysfunctional development. Treatment approaches address designing interventions and adapting the environment. Applied experience is provided in an integrated preschool setting. Pre-requisites: EDSE 520 Minimum Grade: B-

EDSE 562 - Language and Communication  
This course examines the principles of normal language development as well as guidance for facilitating functional language development in infants, toddlers, and preschoolers. The focus is on intervention programs designed for enhancing generalization of functional language usage. Applied experience is provided in an integrated preschool setting. Pre-requisites: (EDSE 520 Minimum Grade: B- or EDSE 320 Minimum Grade: B-)

EDSE 565 - Development of Children with Exceptionalities  
This course emphasizes normal child development and etiology of exceptionalities from infancy through age six. History and philosophy of early childhood special education, as well as relevant legislation, are studied. Applied experience is provided in an integrated preschool setting.

Pre-requisites: EDSE 520 Minimum Grade: B- or EDSE 320 or EDSE 320

EDSE 575 - Advanced Seminar in Classroom Management  
This course examines strategies of applied behavior analysis for controlling various inappropriate behaviors that interfere with the learning process. The emphasis is on practical procedures that can be implemented by a single teacher in a special education or regular classroom setting.

Pre-requisites: EDSE 520 Minimum Grade: C or EDSE 320

EDSE 576 - Consultation in the Classroom  
This course covers advanced information and skills required to consult effectively with educators and parents regarding the development and implementation of educational programs within the least restrictive environment.

EDSE 577 - Examining Youth with Behavior Disorders or ADHD  
This course overviews practical strategies to deal with children's behavioral and emotional disturbances in the classroom. Etiology of behavior disorders and emotional problems in children and youth are discussed.

EDSE 580 - Technology for Teaching the Learning Disabled  
This course examines various techniques and approaches to remediate learning disabilities in school settings. Emphasis is placed on successful treatment and diagnostic procedures.

EDSE 604 - Assessment in Special Education  

115
This course covers various methods of assessing student progress and social behaviors as well as actual classroom observations and assessment. Data gathered in assessment are used to develop an individualized program for special students.

EDSE 611 - Continuing Research Education
Credit: 1

669 Ethics on Behavior Analysis I
Credit: 1

This course was designed to provide students an understanding of the expectations of ethical behavior required by the Behavior Analyst Certification Board (BACB). The course will cover content found in the ‘Professional and Ethical Compliance Code for Behavior Analysis.’ Specific content areas included but are not limited to responsible conduct, responsibility to clients, assessing behavior, and individualized behavior change programs. This course will focus on client centered ethical responsibilities.

EDSE 670 - Functional Analysis Seminar
Credits: 3

This course reviews functional analysis methodologies as developed by Iwata et. al (1982) for systematically identifying environmental variables that serve to maintain aberrant behavior. This course includes a detailed overview of functional analysis procedures and treatment packages that can be implemented based on the results of functional analysis. Particular emphasis is placed on reinforcement-based interventions and dimensions of reinforcement.

Pre-requisites: EDSE 520 Minimum Grade: B or EDSE 320 Minimum Grade: B

EDSE 671 - Behavior Treatment in the Clinical Setting
Credits: 3

This course is experimental in nature and requires students to apply the functional analysis methodologies studied in EDSE 670 in a "hands on" manner. Under direct supervision of faculty, students will conduct weekly assessments to determine the environmental variables maintaining children's inappropriate behavior (EDSE 671L=1 credit). Students will also collect and graph data, write reports that summarize their findings, and meet regularly with faculty and classmates to discuss their findings and their relationship to the literature. Students will be required to use and discuss single case design in the evaluation of treatment components.

Co-requisites: EDSE 671L
Pre-requisites: EDSE 670

EDSE 671L - Behavior Treatment in the Clinical Setting Lab
Credit: 1

This course is experiential in nature and should be taken in the semester immediately following EDSE 670. Students in this course will conduct assessments and implement behavioral interventions in the clinical settings. Under the supervision of faculty, students will conduct in-home treatment evaluations of children seen in the clinic and will train parents and teachers in the implementation of such interventions.

Pre-requisites: EDSE 670

EDSE 672 - Behavior Intervention in the Natural Setting
Credits: 3

This course is experiential in nature and should be taken in the semester immediately following EDSE 671. Students in this course will implement behavioral interventions designed in the clinical settings. Students will also collect and graph data, write reports that summarize their findings, and meet regularly with faculty and classmates to discuss their findings and their relationship to the literature. Students will be required to use and discuss single case design in the evaluation of treatment components.

Restrictions:
Co-requisites: EDSE 672L
Pre-requisites: EDSE 671 Minimum Grade: C

EDSE 672L - Behavior Intervention in the Natural Setting Lab
Credit: 1

This course is experiential in nature and should be taken in the semester immediately following EDSE 671. Students in this course will conduct behavioral assessments and implement behavioral interventions designed in the natural environment. Under the supervision of faculty, students will conduct long-term follow-up evaluations of children originally evaluated in the clinic and will train parents and teachers in the implementation of such interventions. Co-requisites: EDSE 672
Pre-requisites: EDSE 671 Minimum Grade: C
EDSE 673 - Supervision and Consultation credits: 3
This course is experimental in nature. Students in this course provide supervision of functional analysis procedures to others wishing to learn about functional analysis procedures. Students consult with classroom teachers and others as they provide instruction on assessment methodologies and procedures, data collection, graphing, report writing, and intervention recommendations. Students meet regularly with faculty to discuss teaching, supervision, and consultation techniques and issues. Pre-requisites: EDSE 672 Minimum Grade: C

675 Advanced Applied Behavior Analysis credits: 3
The most recently developed and refined principles and data-based effective procedures developed within the field of Applied Behavior Analysis are discussed. This course promotes graduate students' analytic and practical skills in teaching and management procedures in a variety of settings. The course focuses on state-of-art advancements through recently published applied research studies and reviews.

EDSE 680 - Best Practices credits: 3
This course provides students with the rationales and strategies for implementing intervention technologies for research-based educational best practices. Best practices include precision teaching, cooperative learning, direct instruction, self-management, class wide peer tutoring, and opportunities-to-respond.

EDSE 689 - Professional Seminar credits: 1-3
A culminating course where the student develops and conducts and writes an applied research study or completes and writes a comprehensive review of the literature. The formal write-up must be in APA style and format and ready for submission to a journal outlet.

EDSE 690 - Directed Readings credits: 1-3
This course is an individualized study based on readings approved by the professor. Each student develops a selected bibliography.

EDSE 691 - Directed Study credits: 1-3
This course is an individualized study that is designed by the professor. Students follow a prescribed course outline.

EDSE 692 - Independent Study credits: 1-3
This course is an individualized study that is designed by the student in consultation with the professor. Self-directed learning in a selected area of interest is the process employed. Professor serves as a resource.

EDSE 694 - Special Project credit: 1-6
This course is an individualized study that is project based. The study results in a practical application of educational theory. The project or written report of project is submitted to the professor for evaluation.

EDSE 696 - Special Education Teaching Practicum credits: 6
This is an intensive field experience which is at least eight weeks in duration. The graduate student will systematically take over the responsibilities of the special education teacher for at least three weeks under the direction of the University supervisor and the cooperating special education teacher.

Restrictions:
Must be in the following College(s): School of Education

Pre-requisites: EDSE 551 Minimum Grade: C and EDSE 552 Minimum Grade: C and EDSE 575 Minimum Grade: C
EDSE 697 - Extended Advanced Special Education Teaching Practicum credits: 6
This is an intensive field experience which is at least 12 weeks in duration. The graduate student will systematically take over all the responsibilities of the special education teacher for at least five weeks under the direction of the University supervisor and the cooperating special education teacher.

Restrictions:
Must be in the following College(s):
School of Education
Must be in the following Field(s) of Study:
Initial Teaching Special Ed Special Education
Pre-requisites: EDSE 551 Minimum Grade: C and EDSE 552 Minimum Grade: C and EDSE 575 Minimum Grade: C
EDSE 698 - Research in Special Education credits: 3-5
This course presents the various procedures for carrying out classroom research by the teacher in order to evaluate the effectiveness of various classroom intervention strategies. The course teaches students ways to collect data, examine data for functional relationships, graph, and write up a research report in APA style. EDSE 699 - Comprehensive Oral Examination credit: 0
This course requires the student to present orally and in a professional manner a summary of the major research project.
Directed by our Jesuit mission, the School of Education develops socially responsible professionals who serve with care, competence, and commitment. The department of teacher education offers a thorough preparation in professional teaching at the graduate level. It is committed to the development of exemplary educators through the integration of knowledge, skills, and dispositions necessary for teaching and learning in a global and democratic society. The program utilizes a cohort group structure in which entering candidates proceed through a prescribed sequence of classes together. The Masters of Initial Teaching program leads to an elementary or secondary teacher certification in a one (1) or two (2) year program.

Applicants seeking elementary education certification will receive an elementary endorsement and teach grades K-8 as generalists in a self-contained classroom. Secondary education certification candidates teach grades 5-12 and choose a specific content area (endorsement) to teach. The content areas must be selected from one of the following approved endorsements offered at Gonzaga: biology, chemistry, physics, English language arts, social studies, health and fitness, mathematics, music, and designated world languages. Additional endorsements are encouraged. For additional endorsements, visit the certification office for requirements.

The Teacher Education program is advised by a Professional Education Advisory Board (PEAB) composed of area teachers, school administrators, educational staff associates, representatives of professional organizations, teacher candidates, and faculty.

The teacher certification program meets standards specified by the Washington Professional Education Standards Board (PESB), The National Council for Accreditation of Teacher Education (NCATE) and the Northwest Association of State Directors of Teacher Education and Certification (NASDTEC).

Washington State certification requirements may change, so it is the applicant’s responsibility to stay current by checking with their School of Education advisors and the Certification Office.

Admission Requirements

Each applicant must submit the following materials to the School of Education Graduate Admissions Office:

1) A baccalaureate degree from an accredited institution.
2) A completed application form (see the School of Education website: http://www.gonzaga.edu/soe/grad). 3) A $50.00 non-refundable application fee.
4) One (1) official transcript from all colleges or universities attended. Transcript analysis for endorsement is required. International applicants must submit foreign transcripts in the original language and an English copy. Only degrees and courses from a regionally accredited institution will be accepted.
5) A written statement of purpose addressing the applicant’s: a) commitment to becoming a K-12 educator, b) past and present academic experiences and, c) ability to work with children or youth.
6) Two (2) confidential letters of recommendation from individuals who have current knowledge of the applicants' teaching capabilities. Gonzaga University Recommendation forms are required. Individuals recommending the applicant should be selected with care and be able to attest to the qualities listed on the Confidential Recommendation forms (see the School of Education website).
7) A completed declaration of endorsement form.
8) A personal interview with the MIT admissions committee.
9) Passing score for the Basic Skill Requirement in each category: Reading, Writing, and Math with minimum scores in either the WEST B, SAT, ACT or CBEST test.
10) Passing score for the WEST E or NES test in the applicants primary content area
11) Submission of an official TOEFL score of at least 550 (minimum score of 80 if taken via internet) by each international applicant who has graduated from a foreign college or university and who native language is not English.
12) Submission of a financial declaration and supporting documentation by each international applicant.

---

**EDTE 505 - Field Experience I**

Teacher candidates will have the opportunity to explore firsthand the instruction, assessment, and technology practices that are at work in schools. The course will aid the teacher candidate to focus and integrate learning by observing, reflecting and analyzing instructional events in the school site. The course will enable teacher candidates to observe and participate in instructional decision-making strategies for differentiation, and various assessment models. Teacher candidates are required to submit a Field Experience Request form to the Field Experience Office a minimum of a month prior to the semester they are taking the course. This form can be found on the Gonzaga School of Education website under Field Experience. The field experience requires a minimum of 30 hours in the classroom and travel by car may be required. In addition, current fingerprint clearance from the WSP and FBI throughout the semester and a Character and Fitness form on file is required.

**Restrictions:**
- Must be in the following College(s):
  - School of Education
- Must be in the following Field(s) of Study:
  - Initial Teaching

**EDTE 506 - Field Experience II**

Must be in the following Field(s) of Study:
Initial Teaching

EDTE 509 - Math and Science Methods  credits: 3
This course is designed to prepare teacher candidates for teaching mathematics and science in an elementary classroom. Candidates will learn and apply content specific pedagogy, understand the mathematical practices, understand how students learn and develop scientific knowledge, plan assessments to monitor student learning, and foster a classroom environment which promotes mathematical learning and scientific inquiry.

EDTE 511 - Instructional Foundations  credits: 3
This course examines the philosophical social, historical and theoretical foundations of learning, intelligence, and instruction in the context of culturally diverse populations. The course also addresses issues and needs pertaining to contemporary American society from both ethical and legal perspectives. Themes include learning theory and human development, philosophy and history of education, cultural competency, ethics, and law as they relate to the classroom teacher.

EDTE 512E - Elementary Differentiated Instruction and Assessment  credits: 3
This course is designed to engage student teacher candidates in developing competencies and strategies for successful teaching within multiple content areas and with a range of student learning abilities: race, color, national origin, gender, native language, age, social or economic status, family structure and lifestyle, religious preference, or disability. The course will cover the essential elements of K-8 instruction: planning, implementation, accommodations, differentiation and assessment of instruction, and the integration of technology to meet the Washington State's Common Core.

EDTE 512S - Secondary Differentiated Instruction and Assessment  credits: 3
This course is designed to engage student teacher candidates in developing competencies and strategies for successful teaching within multiple content areas and with a range of student learning abilities: race, color, national origin, gender, native language, age, social or economic status, family structure and lifestyle, religious preference, or disability diverse learners. The course will cover the essential elements of 6-12 instruction: planning, implementation, accommodations, differentiation and assessment of instruction, and the integration of technology to meet the Washington State's Common Core.

EDTE 518 - Discipline Specific Literacy  credits: 3
This course presents the theory and practice for developing interdisciplinary literacy in secondary classrooms including the structure and development of language and its effective expression in specific disciplines are presented in this course. In particular, students gain competencies in working with texts, supporting academic language development, and adapting instruction to make it accessible to English language learners.

EDTE 520 - Teaching in the Middle School  credits: 3
The purpose of this course is to help the prospective middle level/secondary teacher candidate develop in-depth knowledge and understanding of early adolescents. The middle school reform movement and the developmental characteristics and the needs of adolescents provide a framework for this course.

EDTE 531 - Instructional Methods: Reading, Writing, and Communication II  
credits: 3
The purpose of this course is twofold: one, to prepare teachers to create appropriate methods for teaching literacy which provide opportunities for children to become involved with literacy in a purposeful and meaningful manner and, second, to become aware of available literary resources, including technology for thematic teaching.

EDTE 537 - Integrated Instruction  
3
Candidates will become proficient in creating appropriate opportunities for children to engage in a meaningful way with authentic literature through a variety of methods. Students will develop an integrated curriculum for classroom implementation at a designated grade level, K-12 which appeals to different learning styles and is compatible with state mandates. This integrated curriculum will be in a thematic format which will connect the content areas through the fine arts and the language arts.

EDTE 540 - Foundation of Reading and Language  
credits: 3
This course provides candidates with the opportunity to investigate theories and practices supporting reading and language arts instruction in K-8 schools. Teacher candidates develop a repertoire of instructional practices to plan for student learning in reading development, writing, grammar, and spelling. Practical approaches to assessment incorporated in the lesson plan.

EDTE 550 - Social Studies Methods  
credits: 3
This course presents a global approach to the teaching of social studies at the elementary level with an emphasis on age appropriate strategies for teaching major concepts in the variety of social science disciplines.

EDTE 554 - Discipline Specific Methods  
credits: 3
Discipline Specific Methods address strategies, assessment, and student activities in the academic areas approved of for endorsements. Washington State standards are met and candidates are prepared for the Teacher Preparation Assessment.

EDTE 554E - Secondary Methods: English  
credits: 3
See EDTE 554A.

EDTE 554F – Secondary Methods: Social Studies  
credits: 3
See EDTE 554A.

EDTE 554L - Field Experience: Add-On Endorsement  
credit: 1
This is a lab course which will accommodate teacher candidates who add-on and additional endorsement. Teacher candidates are required complete a Field Experience Request form prior to taking this course which can be found on the Gonzaga School of Education website under Field Experience. This course must be taken concurrently with an EDTE 554A”“T Discipline Specific Methods course. Requires current fingerprint clearance throughout semester and Character and Fitness form on file. Fall only.

EDTE 554M - Secondary Methods: Math  
credits: 3
See EDTE 554A.

EDTE 554S - Secondary Methods: Science  
credits: 3
See EDTE 554A.

EDTE 554T - Secondary Methods: World Languages  
credits: 3
See EDTE 554A.

EDTE 555E - Classroom Environment: Elementary Management, Procedures and Retention  
credits: 3
Teacher candidates are provided with strategies to manage the elementary classroom to create a motivated classroom climate, communicate with teacher candidates, parents, school, and community agencies, and to deal effectively with problem situations, management, instructional approaches, and corrective measures. Teacher as leader will be the primary metaphor which requires candidates to investigate the role of power and communication in teaching.
EDTE 555S - Classroom Environment: Secondary Management, Procedures and Retention
Teacher candidates are provided with strategies to manage the elementary classroom to create a motivated classroom climate, communicate with teacher candidates, parents, school, and community agencies, and to deal effectively with problem situations, management, instructional approaches, and corrective measures. Teacher as leader will be the primary metaphor which requires candidates to investigate the role of power and communication in teaching.

EDTE 561 - Reading Diagnosis
The course provides teacher candidates with the in-depth skills and knowledge to identify and diagnose reading strengths and deficiencies of K-12 students. Appropriate instructional strategies for remediation and extension are developed and implemented. This class incorporates field experience components and is intended for the reading endorsement.

EDTE 562 - Child and Adolescent Literature
Survey of classical and contemporary literary works for children and youth, preschool-early adolescent. Assessment and teaching strategies for the utilization of literature across K-12 curriculum. This course is intended for the reading endorsement.

EDTE 564 - Practicum Reading
This course creates and applies literacy instruction/assessment strategies in a K-12 classroom setting. School location arranged. Practicum requires completion of a form, and Dept. permission and cannot be registered for via ZAGWEB. This course is intended for the reading endorsement.

EDTE 566 - Literacy and English Language Learner
This course provides literacy knowledge related to working with English learners. Teacher candidates and tutors will create classroom materials for English language learners to support their learning of literacy knowledge. Teacher candidates will take theoretical knowledge that will be translated into practical application through the creation of lesson plans, stories and tutoring. This course is intended for the reading endorsement.

Equivalents: MTSL 514

EDTE 590 - Directed Readings
Directed Readings requires completion of a form, and department permission and cannot be registered for via ZAGWEB.

EDTE 591 - Directed Study
Directed Study requires completion of a form, and department permission and cannot be registered for via ZAGWEB.

EDTE 592 - Independent Study
Independent Study requires completion of a form, and department permission and cannot be registered for via ZAGWEB.

EDTE 594 - Special Project
Independent Study requires completion of a form, and departmental permission and cannot be registered for via ZAGWEB.

EDTE 611 - Continuing Thesis Education
EDTE 631 - Education Research Introduction
This introduction to practitioner based research will lay the groundwork and expectation for a master’s level research project to be completed by the end of the MIT program. Content to be introduced include: characteristics of practitioner research, applicable research terminology, qualitative and quantitative methodologies, topic selection, teacher-as-researcher skills and the literature review structure.

EDTE 632 - Education Research and Assessment
This course, a two-credit continuation of educational research, is the second of four research classes offered to Masters of Initial Teaching (MIT) candidates over the span of one year. It is designed to provide the knowledge and
skills in qualitative/action research and continue to explain the components of the Student Impact Project (SIP), as well as their connection to the Teacher Performance Assessment, especially the Assessment Task. Course topics to include examples of practitioner-based research, activities to further clarify professional identity and knowledge of students, opportunities to collect and analyze study work samples and assignments to integrate artifacts into a personalized research plan.

EDTE 633 - Education Research and Data Evaluation  
credits: 2
This course, a two-credit continuation of EDTE 631 and EDTE 632, is the third of four research courses offered to Masters of Initial Teaching (MIT) candidates over the span of one year. It is designed to provide a review of the knowledge and skills in qualitative/action research, an overview of data analysis methodologies, and a forum to support the organization and completion of the final Student Impact Project (SIP).

EDTE 689 - Professional Seminar  
credit: 1
This seminar focuses on the final preparation and presentation of capstone research project. It provides the opportunity for critical review by peers and professors. The Professional Seminar is the formal presentation of the completed curriculum project. Graduate students present their Research Project before a committee of graduate faculty, peers, and members of the University community. Successful completion of the curriculum project is required for granting of the MIT degree.
EDTE 696A - Student Teaching: Elementary  
This is a culminating 16 week capstone experience in which the teacher candidate assumes the full responsibility of an elementary teacher under the direction of a University supervisor and a co-operating teacher. Concurrent seminars are provided for student interaction, problem solving, certification requirements and informational support.

EDTE 696B - Student Teaching: Secondary  
This is a culminating 16 week capstone experience in which the teacher candidate assumes the full responsibility of a secondary teacher under the direction of a University supervisor and a co-operating teacher. Concurrent seminars are provided for student interaction, problem solving, certification requirements and informational support.

EDTE 699 - Comprehensive Oral Exam  
Orals are the formal presentation of the completed major research project in its final written form. Graduate students present their research before a committee of graduate faculty, peers, and members of the University community. Students describe how their research extends the knowledge base of education in their field. Successful completion of the orals is required for granting of the MIT degree.
The School of Engineering & Applied Science (SEAS) was established in 1934 and offers both a Master of Engineering in Transmission & Distribution (T&D) Engineering degree and a 15-credit T&D Certificate for engineers in the power industry.

The School of Engineering & Applied Science produces broadly educated and capable engineers ready to contribute innovative solutions for a better world. The T&D program exemplifies this mission statement by offering online, graduate level courses to utility engineering professionals who are interested in pursuing an advanced degree but are unable to participate in traditional (on-site) graduate programs.

The multi-disciplined program has been designed in collaboration with power industry experts to provide students with necessary technical and managerial skills for advancement in their engineering careers. The courses are taught by experienced engineering faculty and power industry engineers to ensure students learn the most relevant design and maintenance standards. The multi-disciplined program blends academic rigor with engineering practicum in a series of courses that include civil, electrical, and mechanical engineering, along with engineering leadership topics, to form an advanced degree or Certificate in Transmission and Distribution Engineering.

Gonzaga University's School of Engineering and Applied Science (SEAS) offers an on-line Master of Engineering degree and a Graduate Certificate in Transmission and Distribution (T&D) Engineering. All courses are offered on-line over an eight week period by industry experts and Gonzaga University faculty. Students may register and take courses from anywhere in the world and have immediate access to high quality instruction from industry leaders.

Admissions:

Admission to the program will be administered by faculty and staff of the School of Engineering and Applied Science. For the M.E. degree, an undergraduate degree in engineering, two letters of recommendation (preferably from immediate managers/supervisors in a power-related industry), and a letter of intent expressing the student's qualifications, professional goals, and employment experience will
be required to enter the program. Preferred consideration for admission will be given to applications with industry experience that have completed the T&D Certificate Program.

Admission Checklist:

1) Letter of intent
2) Transcripts of all relevant university coursework. Only degrees and courses from a regionally accredited institution will be accepted.
3) GRE test score (waived for those with a T&D Certificate or current PE license)
4) Two letters of recommendation
5) Application form submitted
6) Application fee
7) Professional Resume

Prerequisites:

B.S. Degree in Civil, Mechanical, Electrical or other engineering field. Employment in electric utility or related industry recommended.

Course Requirements:

Thirty-six (36) credits total:

- 33 in T&D courses, Students may substitute six credits from pre-approved graduate courses.
- TADP 556 Capstone - 3 credits.

Degree Requirements:

The Master of Engineering in T&D Engineering is a 36-credit hour degree program. Students are required to complete a total of 36 credits- three from the TADP 556 capstone course and at least 27 credits from other T&D courses. The final six credits may be from the T&D program, approved courses from GU’s Business or Organizational Leadership programs, or approved graduate courses from other universities. Once admitted to the T&D degree program students will be given six years to complete their degree.

To receive an M.E. Degree in T&D Engineering the student must have an average cumulative grade point of 3.0 or better in the T&D program. Prior to being awarded their degree, each student is encouraged to participate in the campus visit associated with the Engineering Leadership capstone course.

Basic requirements for completion and award of the degree are 36 credits of graduate coursework including:

1. A cumulative grade point average of at least 3.0 in the program
2. TADP 556 Engineering Leadership Capstone course
3. At least 27 credits of T&D coursework
4. Six credits of electives from either T&D coursework or other pre-approved graduate courses
5. A portfolio of final projects is required as the culminating project
### Transmission Track Courses:

### Graduate Certificate in T&D Engineering:

The 15 credit T&D Engineering certificate program consists of any five (3 credit) Gonzaga T&D graduate courses. Each course may be taken individually, or students may take any sequence of five (3-credit) courses that fit their professional needs to obtain the graduate level certificate in T&D Engineering. A cumulative GPA of 3.00 from the T&D Program and good standing with the University will be required for the award of the certificate. Admission is administered through the T&D program with director approval needed for registration in TADP 545 and TADP 640.

### Courses:

These courses are an ideal fit for engineers looking for utility related professional development opportunities at the graduate level. The courses also offer engineers the technical insight they will need to be successful in the utility field. Course topics include transmission line design and construction, project management and construction methods, power system analysis, protective relaying, distribution system design, and power system design (including regional and national power infrastructure and regulations). Each course has been split into modules with a different industry expert assigned to develop and teach each module. Students, therefore, receive instruction from multiple industry experts and have access to course material which is directly focused on current transmission and distribution design practice and procedures. In addition, the online format allows students to attend "class" each week whenever it is convenient to their work schedules without the need to travel to campus.

For more information about this program and current courses offerings, please visit our website at: http://eng.gonzaga.edu/tandd/.

### TADP 521 Utility Communications

This course is an introduction into the world of communications, with an emphasis on applications in the electrical utility space. The course is intended for those whose specialty is not communications engineering but need an
overview of the evolving communications technology as a pre-requisite for the future Smart Grid; this includes power-track engineers, project managers, etc.

TADP 540 - Introduction Transmission Line Design credits: 3
Introduction to structures, conductors, insulation, survey techniques, terrain modeling, computer-aided design, NESC code requirements. Each major step in an overhead line design process will be analyzed and discussed using data from a recently constructed line. Advantages and disadvantages of some modern design tools will be established.

TADP 541 - Electrical Distribution System Design credits: 3
Network planning, protection/fusing, conductor sizing, transformer specification and connections, arrestors, reactive compensation, underground cabling, substation overview. Students will learn the characteristics of distribution devices and how to select devices which contribute to the desired system performance. The course will cover the requirements of acceptable power quality and how to identify the different types of loads and their requirements for service.

TADP 542 - Substation Design credits: 3
System overview, design principles, types of substations, components, utilization, reliability, metering, voltage, protection, project plan, site, scheduling, major equipment, control houses, communication, SCADA, foundations, structural design, grounding.

TADP 543 - Electrical Grid Operations credits: 3
NERC/WECC reliability standards, control area operation, outage coordination planning, switch theory and devices, reactive load balancing, generation load balancing, economic dispatch, transmission marketing (OASIS), seasonal ratings. The student will acquire the expertise needed for the inner-workings of a large, interconnected utility system. In addition, the students will develop a skill set that includes knowledge of how electricity is generated, transmitted, and consumed, as well as the ability to analyze complex transmission operational situations and make qualified judgments and recommendations to mitigate transmission related problems.

TADP 544 - Project Development and Construction Method credits: 3
System planning and project development, project proposals to management, project initiation, scheduling, cost management, resource management, permitting authority, land rights acquisition, overview of contracts, contractor selection, Gantt tracking. Students will study conductor types and uses, and learn strategies for developing and describing competing transmission projects. Given a specific transmission line project, the students will be able to develop a detailed project description in the form of a project plan.

TADP 545 - System Protection credits: 3
General concepts, symmetrical faults, asymmetrical faults, voltage and current transformers for protection, classification and functionality of relays, overcurrent protection, distribution feeder protection, transmission line protection with communications independent distance relaying, introduction to differential protection, and disturbance analysis.

TADP 547 - Underground System Design credits: 3

TADP 548 - T-Line Design - Elect Aspects credits: 3
This course covers the electrical aspects of transmission line design which ensure acceptable reliability, safety and code compliance for transmission facilities. Topics include an introduction to the electrical aspects of a transmission line design, rules and requirements, design criteria and voltage levels, conductor selection and ratings, required clearances, REA manual, insulation, voltage flashover, EMF fields, corona, induction coordination, grounding requirements, pole grounding, guy wire grounding, and grounding measurements.

TADP 549 – Transmission Line Design: Structures and Foundations credits: 3
The course covers in-depth design of steel poles, concrete poles, and associated foundations. The major topics include: review of steel pole specifications, development of loading trees, design of steel poles including arms, attachment details, base plate, anchor bolts and connections, manufacturing process, inspections of weld details, testing of steel poles, review of concrete pole specifications, design of concrete poles, comparison of steel vs. concrete poles, associated industry national standards, direct embedment and pier foundations, foundation optimization, and anchor foundations.

TADP 553 - System Automation  
Students will learn economic benefits, reliability, safety, equipment costs, communication, transmission automation, distribution automation, under frequency load shedding, radial overhead, radial loop underground, demand side management, remote connect/disconnect, SmartGrid, consumer automation, and network design aspects.

TADP 556 - Engineering Leadership  
Four broad areas of leadership will be covered: leadership roles and responsibilities (sponsor appreciation); communication; systems thinking and breakthrough leadership; leadership, change and ethics.

TADP 640 - Advanced Transmission Line Design  
The course further develops strategies covered in T-Line course and introduces advanced concepts for designing overhead transmission lines.

TADP 641 - Power System Analysis  
This course will begin with a review of basic concepts of power systems, their components and how they are interrelated. An overview of the topology and members of the North American power grid will then be covered. The main portion of the course will refer to modeling of power systems, short circuit calculations, and load flow algorithms and methods. Students will learn how to apply the algorithms and methods using case studies in topics such as voltage regulation, VAR control, and relay setting and coordination. The course will wrap up with a brief segment on harmonic analysis and filter design.

TADP 680 - Special Topics  
Topic to be determined by instructor.

School of Nursing and Human Physiology

Dean: Brenda Stevenson Marshall

Welcome to the School of Nursing and Human Physiology (SNHP). The school is new, having been established in 2013, in response to growing need and building on two departments with a long history at Gonzaga. Consistent with the mission of Gonzaga University, our message is that of making a difference through excellence in education and scholarly pursuits in the Jesuit, Catholic tradition.

Students choosing to enroll in one of our programs will be taught by faculty with exemplary records in teaching, research and service. Many faculty maintain clinical schedules to enrich their integration of theory and practice in the classroom. Our research is translational - designed to bring the benefits of scholarly work to the improvement of individual and population health practices. Service is an important component of what we do as it provides the school with the opportunity to fulfill the Jesuit commitment of social justice through helping others.

Through the virtual campus we make educational programs available to a broader array of non-traditional students who wish to pursue a career in nursing but require flexible scheduling. Human physiology brings a human science to undergraduates as an option to pursue a graduate career in health. The new approach to health services delivery highlights the use of trained and skilled professionals who perform services formerly reserved for physicians. The Doctorate in Nursing Practice (DNP) the SNHP currently offered and
the Doctorate in Nursing Anesthesia Practice (DNAP) schedule to be offered in the fall of 2015 provide an opportunity for qualified students to pursue these career pathways.

Degree Programs in the School of Nursing and Human Physiology
  Doctor in Nurse Practice
  M.S. Nursing (R.N. to M.S.N., M.S.N., Second Master’s Degree Programs)

Doctor of Nurse Anesthesia Practice

Chairperson: Scot Pettey, CRNA, DNAP
Program Director: Scot Pettey, CRNA, DNAP
Clinical Director: John Weisbrod, CRNA, MAE

Introduction

The Doctor of Nurse Anesthesia Practice is designed for the registered nurse who wishes to assume a leadership role within the profession of nurse anesthesia. In addition to preparing students to be competent, skilled nurse anesthesia practitioners, it is the mission of the program to nurture and develop innovative, creative leaders for the advancement of the profession. The DNAP degree is a practice doctorate which provides the DNAP students with robust clinical experiences gained throughout over 3000 clinical hours during the program.

Graduates of Gonzaga’s DNAP program will receive a practice-based experience blending anesthesia clinical practice with leadership strategies. The curriculum of Gonzaga’s DNAP program will build on the extensive education of program participants. In addition to learning the practice of nurse anesthesia, candidates should be prepared to engage in systems thinking to solve complex problems, translate evidence to improve health care practices and population health, lead quality improvement and change initiatives, and demonstrate effective intraprofessional collaboration in the nurse anesthesia field.

Gonzaga DNAP students will benefit from a long-standing partnership with Providence Health Services. Locally, Providence Sacred Heart Medical Center and Children’s Hospital and three local and regional affiliations will provide all DNAP candidates’ clinical hours and experience. The DNAP Program is jointly owned and operated by Providence Sacred Heart Medical Center (dba as Providence Health Care) and Gonzaga University.

Admission Requirements:

1) Bachelor’s degree from an accredited university.
2) Seven (7) life science courses. Some examples include, but are not limited to chemistry, biochemistry, biology, microbiology, physiology, pathophysiology, and anatomy.
3) 2 years of RN experience with at least one year of adult critical care experience at the time of interview. Experience must be within the past 5 years.
4) 3.0 minimum (3.2 preferred) overall grade point average with strong science grades.
5) Applicants must have a current RN license and be able to obtain a Washington State RN license.
6) CCRN is required and documentation is submitted as part of application.
7) Personal interviews with members of the admissions committee by invitation only.

**Application Requirements:**

8) Documentation of an earned bachelor’s degree from an accredited college or university.
9) One official transcript from every college, university and nursing school attended.
10) Three letters of recommendation.
11) Submission of current Registered Nurse license.
12) Current professional curriculum vitae.
13) Typewritten statement describing:
   i) interest in Gonzaga’s DNAP program
   ii) professional goals
   iii) strengths
   iv) professional experiences and how those experiences have prepared the applicant for the DNAP program.
14) Evidence of CCRN Certification

**Degree Requirements: 93 credits**

**Semester 1 - Fall**
- DNAP 701 Basic Principles of Anesthesia I: 3 credits
- DNAP 711 Anatomy and Advanced Physiology I: 3 credits
- DNAP 721 Advanced Pharmacology I: 4 credits
- DNAP 731 Advanced Health Assessment: 1 credit
- DNAP 780 Advanced Health Assessment Practicum: 1 credit

**Semester 2 - Spring**
- DNAP 702 Basic Principles of Anesthesia II: 3 credits
- DNAP 712 Anatomy and Advanced Physiology II: 3 credits
- DNAP 722 Advanced Pharmacology II: 4 credits
- DNAP 761 Evidence-Based Practice in Anesthesia: 2 credits
- DNAP 781 Clinical Practicum: I: 1 credit

**Semester 3 - Summer**
- DNAP 703 Advanced Principles of Anesthesia – Regional Anesthesia: 3 credits
- DNAP 723 Advanced Pharmacology III: 4 credits
- DNAP 752 Technology and Anesthesia Information Management Systems: 3 credits
- DNAP 782 Clinical Practicum: II: 2 credits

**Semester 4 - Fall**
- DNAP 704 Advanced Principles: Obstetric Anesthesia: 3 credits

DNAP 701 - Basic Principles of Anesthesia I credits: 3
This course assists the doctoral candidate in learning the methods, techniques, and agents involved in general anesthesia. The course includes pre- and post-anesthetic assessment of the patient, drugs that augment anesthesia, common complications related to anesthesia, and the importance of initiating and maintaining the patient's anesthesia record during surgery. First semester. Restrictions:

Must be enrolled in one of the following Fields of Study: Nurse Anesthesia Practice

Co-requisites: DNAP 711, DNAP 721,

DNAP 702 - Basic Principles of Anesthesia II credits: 3

This course is a continuation of DNAP 701 and will enhance the doctoral candidate's knowledge of pre- and post-anesthetic assessment of the patient, drugs that augment anesthesia, and common complications related to anesthesia. Throughout the course, the candidate will have a variety of experiences administering anesthesia under the supervision of a qualified anesthetist. Spring, second semester.

Restrictions:

Must be enrolled in one of the following Fields of Study:

Nurse Anesthesia Practice Co-requisites: DNAP 781

Pre-requisites: DNAP 701

DNAP 703 - Advanced Principles of Anesthesia-Regional Anesthesia credits: 3

This course will introduce the doctoral candidate to the theory, methods, techniques, anatomy, and agents involved in regional anesthesia. Students will be instructed in the science and administration of neuraxial and peripheral regional anesthesia. Instructions on the use, strategies and science of ultrasound will also be covered. Third semester.

Restrictions:

Must be enrolled in one of the following Fields of Study:

Nurse Anesthesia Practice Co-requisites: DNAP 782

Pre-requisites: DNAP 702

DNAP 704: Advanced Principles: Obstetric Anesthesia credits: 3

This course will introduce the doctoral student to anesthesia for the obstetric patient and neonate. This course presents epidural anesthesia theory in preparation for the practicum, focuses on anesthesia for routine and complicated obstetric and neonatal patients, and begins the study of clinical anesthesia for neonatal patients as well as for routine and high-risk patients.

Restrictions:

Must be enrolled in one of the following Fields of Study:

Nurse Anesthesia Practice
DNAP 705: Advanced Principles: Pediatric & Neonatal Anesthesia  
This course will provide the study of principles of pediatric anesthesia including anesthesia for the healthy child and for children with disease states. This course focuses on the study of clinical anesthesia for routine and high-risk care of pediatric patients from neonate through adolescent. Pharmacology, physiology, pathophysiology and anatomic considerations unique to the pediatric patient will be emphasized. Restrictions: Must be enrolled in one of the following Fields of Study:
Nurse Anesthesia Practice Co-requisites: DNAP 784
Pre-requisites: DNAP 704

DNAP 706: Advanced Principles: Neurosurgical & Thoracic Anesthesia  
This course will introduce the doctoral student to anesthesia for neurosurgical and thoracic (non-cardiac) procedures. Common pathophysiology and conditions associated with these procedures is the focus of study. Invasive monitoring, use of vasoactive drugs, and case studies complete the course. Restrictions: Must be enrolled in one of the following Fields of Study:
Nurse Anesthesia Practice Co-requisites: DNAP 785
Pre-requisites: DNAP 705

DNAP 707: Advanced Principles: Cardiac and Vascular Anesthesia  
This course will introduce the doctoral student to anesthesia for peripheral and central vascular procedures, noninvasive cardiac procedures, and open heart procedures. Common pathophysiology and conditions associated with these procedures is the focus of study, which will include case studies. Restrictions: Must be enrolled in one of the following Fields of Study:
Nurse Anesthesia Practice Co-requisites: DNAP 786
Pre-requisites: DNAP 706

DNAP 708: Advanced Principles: Acute and Chronic Pain Management  
This course will provide the doctoral student with an introduction to the management of acute and chronic pain both for outpatient pain management and for patients presenting for surgery. The doctoral student will assess and evaluate patients experiencing chronic pain, and develop a plan of care specific to the patients’ situations. Acute and chronic pain treatment options, origins, physiological and psychological effects on the patient will be introduced. The student will also assess the potential for significant acute pain, of both surgical and nonsurgical origins, and develop plans of care that include adjunctive therapy and consultations with other professionals, as indicated. Students will be introduced to fundamental radiologic principles and various techniques, topographic anatomy, contrast agents, radiation safety, basic evaluation of normal and abnormal radiographs, and proper techniques of safe fluoroscopic equipment use Restrictions: Must be enrolled in one of the following Fields of Study:
Nurse Anesthesia Practice Co-requisites:
DNAP 787
Pre-requisites: DNAP 707

DNAP 709: Advanced Principles of Anesthesia: Integration  
This course will prepare the graduating doctoral student for practice as a CRNA by integrating pharmacology, physiology, pathophysiology, principles of anesthesia, experience in clinical practicum, and legal and professional issues in a case management seminar format. Restrictions: Must be enrolled in one of the following Fields of Study: Nurse Anesthesia Practice
DNAP

Co-requisites: DNAP 784
Pre-requisites: 704

DNAP 711 - Anatomy and Physiology I credits: 3
Cellular and system physiology as it applies to anesthesia practice offered first semester of the DNAP program.
First semester. Restrictions:
Must be enrolled in one of the following Fields of Study: Nurse Anesthesia Practice

Co-requisites: DNAP 701, DNAP 721,

DNAP 712 - Anatomy and Physiology II credits: 3
Cellular and system physiology as it applies to anesthesia practice. Spring, second semester. Restrictions:
Must be enrolled in one of the following Fields of Study:
Nurse Anesthesia Practice Co-requisites: DNAP 702

Pre-requisites: DNAP 711

•DNAP 713: Advanced Pathophysiology credits: 3
This course will present common and uncommon disease processes encountered in the anesthetic settings across the lifespan. The participant will gain a better understanding of the general concepts of the disease, including etiology, pathogenesis, treatment strategies and anesthetic implications. These concepts are applied in a systems-oriented approach to disease processes affecting musculoskeletal, cardiopulmonary, renal, nervous, gastrointestinal, immune, hematological and endocrine systems. By the end of the course, students should be able to understand the relation between the symptoms and disease process.
Prerequisite: DNAP 712,
Restrictions:
Must be enrolled in one of the following Fields of Study:
Nurse Anesthesia Practice

DNAP 721 - Advanced Pharmacology I credits: 4
This course covers the fundamentals of blood, respiratory, and pharmaceutical chemistries and the principles of general anesthesia and pharmacology including all pharmaceutical agents used for these purposes and their application in diseased state. Fall, first semester. Restrictions:
Must be enrolled in one of the following Fields of Study: Nurse Anesthesia Practice

Co-requisites: DNAP 701

DNAP 722 - Advanced Pharmacology II credits: 4
This course is a continuation of DNAP 721 and involves the doctoral candidate in a deeper study of blood, respiratory and pharmaceutical chemistries and the principles of general anesthesia and pharmacology including all pharmaceutical agents used for these purposes and their application in diseased state with regard to surgical cases. Spring, second semester. Restrictions:
Must be enrolled in one of the following Fields of Study: Nurse Anesthesia Practice

Co-requisites: DNAP 702

Pre-requisites: DNAP 721

DNAP 723 - Advanced Pharmacology III credits: 4
This course, a continuation of DNAP 722, is the last of three courses in this series. It involves the doctoral candidate in an extensive study of blood, respiratory, and pharmaceutical chemistries and the principles of general anesthesia and pharmacology including all pharmaceutical agents used for these purposes and their application in diseased state with regard to surgical cases. Summer, third semester. Restrictions:
Must be enrolled in one of the following Fields of Study: Nurse Anesthesia Practice
DNAP

Co-requisites: DNAP 703

Pre-requisites: 722

DNAP 731 – Advanced Health Assessment  credit: 1
This course will prepare the doctoral student to complete a focused history and physical assessment of patients on whom they will administer anesthesia. The body systems assessments that are emphasized are cardiac, respiratory, renal, hepatic, and neurological. An overview of the other systems is included. The student will learn focused history and review of symptoms relative to the proposed procedure and anesthesia management. Spring, second semester.

Restrictions:
Must be enrolled in one of the following Fields of Study: Nurse Anesthesia Practice

Co-requisites: DNAP 780

DNAP 741 – Chemistry and Physics in Anesthesia  credits: 2
This course will introduce the doctoral student to the principles of physics, chemistry and biochemistry as applied specifically to anesthesiology. Included is a review of biomedical instrumentation pertinent to anesthesia, application of the gas laws, and review of principles of uptake and distribution from the perspective of physics, the chemistry and biochemistry of fundamental processes and drug receptor interactions. Restrictions:
Must be enrolled in one of the following Fields of Study: Nurse Anesthesia Practice

DNAP 742: Crisis Management in Anesthesia  credits: 2
This course will introduce the doctoral student to the principles of crisis management in anesthesia, through a serious of case studies and use of high fidelity simulation. Students will be given didactic instruction in dynamic decision-making, human performance issues, and in the principles of anesthesia crisis resource management. Students will be presented with a serious of simulated crisis cases and debriefings covering critical events in anesthesia such as cardiovascular, pulmonary, equipment, obstetric, pediatric and pathophysiologic events. Examinations crisis case studies and simulation will demonstrate how to minimize risk; create a crisis plan; and manage, survive, and recover from a crisis
Prerequisite: DNAP 708.

Restrictions:
Must be enrolled in one of the following Fields of Study: Nurse Anesthesia Practice

DNAP 752: Technology and Anesthesia Information Management Systems  credit 3
This course focuses on the use of information technology for data collection, data management, and data analysis specific to healthcare information, medical informatics, management systems, and improved healthcare delivery in the profession of anesthesiology. Students will be introduced to medical and information management systems
Restrictions:
Must be enrolled in one of the following Fields of Study: Nurse Anesthesia Practice

DNAP 753: Evidence-Based Teaching Projects  Credit 1
This course provides the doctoral candidate the opportunity to draw upon the professional literature, the data collected in previous coursework, and the strategies learned in previous coursework in order to integrate new knowledge and skills in anesthesia and to teach and precept other adults in hospitals and other healthcare settings within the context of professional leadership. Restrictions:
Must be enrolled in one of the following Fields of Study:
Nurse Anesthesia Practice

DNAP 754: Culture, Diversity and Health Care Policy  Credit 3
This course creates a setting in which the doctoral candidate will address cultural competency by examining issues of accepting, respecting, appreciating, and accommodating all members of society specific to health care and health
DNAP
care organizations. This course will provide doctoral candidates with the skills to analyze, advocate, and implement health care policy in organizations, communities, and educational environments. Restrictions:
Must be enrolled in one of the following Fields of Study:
Nurse Anesthesia Practice
DNAP 755: Medical Ethics  
Credit 3  
The course is intended to provide an understanding of and an appreciation for the function of philosophical inquiry and ethical analysis in the field of health care delivery. Attempting to provide students with the tools requisite to negotiate more effectively the health care system in general, either professionally or personally, this consideration of health care ethics is specifically designed to expose individuals to the process of philosophical reasoning as a basis for the application of certain principles in the resolution of difficulties most often encountered in the particular circumstances of either seeking or providing health care. Restrictions: Must be enrolled in one of the following Fields of Study: Nurse Anesthesia Practice  

DNAP 756 Law and Business for Anesthesia  
Credit 2  
This course examines health care economics and the business of clinical practice as they relate to the delivery of quality health care services, both generally and in the CRNA profession. This course also examines health care law and legal issues as they relate to the delivery of quality health care services, both generally and in the CRNA profession. Restrictions: Must be enrolled in one of the following Fields of Study: Nurse Anesthesia Practice  

DNAP 757 Professional Leadership and Organizational Systems  
Credit 3  
This course is designed to enhance candidates’ understanding of organizations and to build their capacity as leaders to help the organization achieve its goals. The critical analysis of components inherent in professional leadership is provided in this course through an exploration of literature and situational analysis. Understanding medical organizations will enhance candidates’ ability to make sense of the realities they face as leaders with and without authority and therefore, equip them to make decisions and to take actions that may contribute to achieving the goals and “health” of the organization. This course examines the nature of professions, problems, assumptions about leadership, and how leaders can productively address difficult problems. Candidates will be provided with the opportunity to apply these concepts to their professional setting. A modified seminar approach is employed. Restrictions: Must be enrolled in one of the following Fields of Study: Nurse Anesthesia Practice  

DNAP 758: Certifying Exam Preparation  
Credit 0  
Doctoral students will either attend a Certifying Exam Review Course or purchase review course materials to be used for exam preparation, i.e. Prodigy, Apex or Valley Review.  

DNAP 761 - Evidence Based Practice in Anesthesia  
Credits: 2  
This course focuses on the evidence-based practice process and the knowledge and skills that are necessary for the translation of professionally accepted evidence into the advanced clinical practice of anesthesia. Doctoral candidates will compare and contrast various forms and levels of scientific evidence with an emphasis on research technique, instrumentation, study design, and theories that are relevant for advanced clinical practice. Spring, second semester. Restrictions: Must be enrolled in one of the following Fields of Study: Nurse Anesthesia Practice  

DNAP 762 Research Methods, Design and Data Analysis  
Credits: 3  
This course is designed to help candidates understand the research process through the development of a research proposal including selecting a topic, reviewing the relevant literature, choosing an appropriate collection methodology, and determining the appropriate method to analyze the data. Proposals are submitted to the Spokane institutional Review Board and to Gonzaga’s Institutional Review Board. Restrictions: Must be enrolled in one of the following Fields of Study:
Nurse Anesthesia Practice
DNAP 763: Capstone I: Project Design credits: 2
The DNAP program culminates in the successful completion of a scholarly project that demonstrates a synthesis of the doctoral candidate’s work and lays the groundwork for future scholarship and contribution to the profession. The candidate will engage in scholarly inquiry to analyze, evaluate, or transform a relevant aspect of clinical practice. This substantive project should make a significant, evidenced-based contribution to existing nurse anesthesia knowledge. The DNAP doctoral project is a tangible and deliverable academic product that can be developed from clinical practice, immersion in the profession, other courses, significant interests, significant experiences, or professional goals. Whatever the genesis of the topic, the research course is designed to develop the skills for data collection specific to the topic, and the three Capstone courses are in place to support the candidate in designing, developing, and implementing the project during the last three semesters of the doctoral program. The focus of this first Capstone course is the analysis of applicable data and literature, after which the candidate will design the project in collaboration with the instructor of the research course and the program directors, along with appropriate faculty and clinical preceptors. Restrictions:
Must be enrolled in one of the following Fields of Study: Nurse Anesthesia Practice
DNAP 764: Capstone II: Project Development credits: 2
The DNAP program culminates in the successful completion of a scholarly project that demonstrates a synthesis of the doctoral candidate’s work and lays the groundwork for future scholarship and contribution to the profession. The candidate will engage in scholarly inquiry to analyze, evaluate, or transform a relevant aspect of clinical practice. This substantive project should make a significant, evidenced-based contribution to existing nursing knowledge. The DNAP doctoral project is a tangible and deliverable academic product that can be developed from clinical practice, immersion in the profession, other courses, significant interests, significant experiences, or professional goals. Whatever the genesis of the topic, the research course is designed to develop the skills for data collection specific to the topic, and the three Capstone courses are in place to support the candidate in designing, developing, and implementing the project during the last three semesters of the doctoral program. The focus of this first Capstone course is the analysis of applicable data, after which the candidate will design the project in collaboration with the instructor of the research course and the program directors, along with appropriate faculty and clinical preceptors. Restrictions:
Must be enrolled in one of the following Fields of Study: Nurse Anesthesia Practice
DNAP 765: Capstone III: Project Implementation credits: 2
The DNAP program culminates in the successful completion of a scholarly project that demonstrates a synthesis of the doctoral candidate’s work and lays the groundwork for future scholarship and contribution to the profession. The candidate will engage in scholarly inquiry to analyze, evaluate, or transform a relevant aspect of clinical practice. This substantive project should make a significant, evidenced-based contribution to existing nursing knowledge. The DNAP doctoral project is a tangible and deliverable academic product that can be developed from clinical practice, immersion in the profession, other courses, significant interests, significant experiences, or professional goals. Whatever the genesis of the topic, the research course is designed to develop the skills for data collection specific to the topic, and the three Capstone courses are in place to support the candidate in designing, developing, and implementing the project during the last three semesters of the doctoral program. The focus of this first Capstone course is the analysis of applicable data, after which the candidate will design the project in collaboration with the instructor of the research course and the program directors, along with appropriate faculty and clinical preceptors. Restrictions:
Must be enrolled in one of the following Fields of Study: Nurse Anesthesia Practice
DNAP 769: Oral Exam credits: 0
The oral exam meeting is the final, formal interaction among the doctoral candidate, the program directors, and the clinical supervisor(s). The oral exam is a time for the candidate to share reflections and to articulate the level of integration of the knowledge, skills, and dispositions gained as a member of the doctoral program. The oral exam consists of three areas of focus: the research project; the integration of anesthesia, teaching, and leadership; and clinical practice. In the research and integration portions of the exam, the questions asked are of a comprehensive nature, rather than the specifics of any particular course. In the clinical portion of the exam, the questions are clinically case-based and range from comprehensive to minutely focus. The Oral Comprehensives are scheduled at the conclusion of the program and last approximately one hour per person. Successful completion will result in the awarding of the degree Doctor of Anesthesiology Education.

Restrictions:
Must be enrolled in one of the following Fields of Study: Nurse Anesthesia Practice

DNAP 780 - Physical Assessment Practicum  
This course will provide the doctoral student with the practicum portion of physical assessment and will include role playing with classmates for history taking, use of SimMan for physical assessment, and taking history and doing focused physical exams on perioperative patients in the pre-surgical screening clinic and surgery admit units. First semester.
Restrictions:
Must be enrolled in one of the following Fields of Study: Nurse Anesthesia Practice

DNAP 781 - Clinical Practicum: General I  
In this practicum, the doctoral candidate will learn the actual administration of anesthesia under the supervision of certified registered nurse anesthetists and physician anesthesiologists. Pre-operative and post-operative assessment of the patient is made by the candidate. The candidate is responsible for selecting the appropriate anesthetic, administering needed pharmaceutical agents, and maintaining homeostasis during general surgical procedures. Monitoring, positioning, and recovery are stressed. Second semester. Restrictions:

Must be enrolled in one of the following Fields of Study: Nurse Anesthesia Practice

DNAP 782 - Clinical Practicum: General II  
This course is a continuation of DNAP 781. Doctoral candidates rotate through general surgery, special procedures, basic vascular surgery, and basic neurosurgery. Third semester. Restrictions:

Must be enrolled in one of the following Fields of Study: Nurse Anesthesia Practice Co-requisites: DNAP 703

DNAP 783: Clinical Practicum: III  
This course is a continuation of DNAP 782. Doctoral candidates rotate through obstetrics, pediatrics, vascular surgery, neurosurgery, and evening trauma rotations, in addition to general practice, for 30 hours a week for a total of 450 clinical hours. Fourth semester. Restrictions:

Must be enrolled in one of the following Fields of Study: Nurse Anesthesia Practice Co-requisites: 

DNAP 704

DNAP 784 Clinical Practicum IV  
Credits: 2
This course provides for the clinical application of knowledge and skills learned in DNAP 704, the study of advanced principles of regional anesthesia theory and pediatric anesthesia, for 30 hours per week for a total of 480 clinical hours. Fifth semester.

Restrictions:
Must be enrolled in one of the following Fields of Study:
Nurse Anesthesia Practice Co-requisites: DNAP 705
Pre-requisites: DNAP 783
Prerequisite: DNAP 705. Minimum Grade: S.

DNAP 785: Clinical Practicum: V credits: 2
This course will provide the clinical application of knowledge and skills learned in DNAP 706 Neurosurgical and Thoracic anesthesia. Doctoral students will be assigned to these cases as part of their clinical rotations, from this semester forward. Other rotations will include pediatrics, obstetrics, general surgery, and out-of-area rotations. 30 hours per week, total 450 clinical hours. Sixth semester. Restrictions:
Must be enrolled in one of the following Fields of Study:
Nurse Anesthesia Practice Co-requisites: DNAP 706
Pre-requisites: DNAP 784

DNAP 786: Clinical Practicum: VI credits: 2
This course will provide the third-year clinical practicum rotations for doctoral students and will include assignments in general surgery for adult and pediatric patients, neurosurgery, thoracic, vascular, obstetrics, and out-of-area anesthesia services. This rotation includes assignments to the 3-11 and Saturday shifts. 30 hours per week, total 450 clinical hours. Seventh semester. Restrictions:
Must be enrolled in one of the following Fields of Study:
Nurse Anesthesia Practice Co-requisites: DNAP 707
Pre-requisites: DNAP 785

DNAP 787: Clinical Practicum VII credits: 2
This course will provide the doctoral student with an exposure to a chronic pain management clinic or setting. The student will participate in evaluation of patients, adjunctive therapy decision making, and assist/perform regional anesthesia for chronic pain management via one 36-hour clinical rotation during the last 12 months of the program. This course, or an approved transfer course, is a requirement for all degree-completion candidates. Eighth semester. Restrictions:
Must be enrolled in one of the following Fields of Study:
Nurse Anesthesia Practice Co-requisites: DNAP 708
Pre-requisites: DNAP 786

DNAP 788 Clinical Practicum: VIII credits: 2
This course will provide the third-year clinical practicum rotations for doctoral students and will include assignments in general surgery for adult and pediatric patients, neurosurgery, thoracic, vascular, cardiac, obstetrics, and out-of-area anesthesia services. This rotation includes assignments to the 3-11 and Saturday shifts. 28 hours per week for a total of 476 clinical hours. Ninth semester. Restrictions:
Must be enrolled in one of the following Fields of Study:
Nurse Anesthesia Practice Co-requisites: DNAP 709
Pre-requisites: DNAP 787
Master of Science in Nursing

Chairperson: Jeffery Ramirez
Professors: N. Crogan, S. Norwood
Associate Professors: N. Beckham, L. Murphy, J. Tiedt
Assistant Professors: D. Abendroth, J. Ramirez, B. Senger Senior
Lecturer: D. Smith

Introduction

The Department of Nursing offers three advanced education nursing programs: the accelerated RN to MSN (Master of Science in Nursing) program, the MSN program, and second Master's in Nursing program. These programs emphasize leadership, the integration of theoretical concepts from nursing and related disciplines, and the application of these theories to practice. Both role development and preparation in a specialty focus area are emphasized. Grounded in Jesuit and nursing values, the MSN program prepares Registered Nurses to assume roles as Family Nurse Practitioners, Adult/Gerontology Nurse Practitioners, Psychiatric-Mental Health Nurse Practitioners, Nurse Educators, or Health Systems Leaders. With Complex Adaptive Systems (CAS) as the organizing framework for the curriculum, the program builds on the themes of servant leadership, social justice, community, and reflective practice. Gonzaga's MSN program is offered in an online distance delivery format with scheduled on-campus immersions. This format enables nurses in geographically isolated areas and those who would not be able to attend an on-campus program to pursue advanced nursing education and still continue to provide much-needed nursing services in their home communities while completing graduate studies. Graduates are qualified to take the national certification examinations for their areas of specialization. National certification is a requirement for licensure as a nurse practitioner in most states. Students are responsible for checking state mandates for practice while in the student role and in an advanced nursing role.

Program Overview

Students who enter the master's program through the accelerated RN to MSN pathway complete a total of five courses (15 credits) that "bridge" them to the graduate-level courses. After completing these "bridge" courses, they progress directly to the core courses in the MSN program provided they have successfully completed all bridge courses with a grade of “C” or better and have maintained a minimum GPA of 3.0. They have the option of pursuing either the Health Systems Leader or the Nurse Educator track in the MSN program.

Students with a Bachelor of Science in Nursing degree are admitted directly into the Master of Science in Nursing (MSN) program. Students with a non-nursing bachelor’s degree and Registered Nurse license are also able to be admitted directly into the Master of Science in Nursing program, but must complete a minimum of four pre-requisite courses prior to starting the master’s-level courses. Students apply for admission to one of five specialty tracks: Family Nurse Practitioner (44 credits), Adult/Gerontology Nurse Practitioner (45 credits), Psychiatric-Mental Health Nurse Practitioner (47 credits), Nurse Educator (36

146
credits), or the Health Systems Leader track (36 credits). They complete the core courses (15 credits) prior to advancing to and progressing through one of the specialty tracks (additional 21-32 credits). In both nurse practitioner options, students complete courses in advanced pathophysiology and pharmacology, advanced health assessment, and the direct care core courses that prepare them for advanced practice. Students in these pathways complete 600 hours (10 credits) of practicum or clinical experience. Students preparing for the advanced role specialties of Nurse Educator and Health Systems Leader complete the core courses for those specialty tracks as well as 360 hours of practicum (6 credits).

The second master’s degree program is designed for the Registered Nurse who already possesses a master’s degree in nursing but desires additional preparation in another specialty area. The program is structured to meet the needs and schedules of working Registered Nurses through the same distributive learning formats used in the MSN program. The total credits required may vary depending on each student’s background and preparation.

**RN to MSN Program (for Registered Nurses)**

The RN to MSN program offers the licensed Registered Nurse with a diploma or an Associate's degree in Nursing the opportunity to earn a master’s degree in nursing in less time and with fewer credits than would be required if completing separate BSN and MSN degrees. The MSN is the degree awarded, and there is no option for earning a separate BSN degree. In an effort to meet the needs of working Registered Nurses, the program is offered in an online distance delivery format with scheduled on-campus immersions during the MSN coursework. Students complete five courses (15 credits) that "bridge" them to the master’s level courses: NURS 320 – Statistics for Health Professionals, NURS 406 – Nursing Research, NURS 463 – Community Health, NURS 464 – Community Health Practicum, PHIL 280 – Persons & Conduct. Once the "bridge" courses have been completed, students’ progress immediately to the graduate level courses with an emphasis on preparation for an advanced role as either a Nurse Educator or Health Systems Leader.

**Admission Requirements RN to MSN Program**

At the time of application to the RN to MSN program, the applicant also applies for admission to Gonzaga University. The applicant must have an Associate's degree in Nursing from an accredited college or a diploma in nursing from a state-approved program and must submit one official transcript from each college, university, and/or nursing program attended. The decision to admit an applicant to the RN to MSN program is based on consideration of the individual's overall portfolio including:

1) Cumulative GPA of 3.0 or better (4.0 scale).
2) Evidence of a current unencumbered RN license.
3) One official transcript from every college and university or nursing school attended. Only degrees and courses from regionally accredited institution will be accepted.
4) Current curriculum vitae (CV).
5) Two letters of recommendation from individuals such as employers, colleagues, or professors who can attest to the applicant’s leadership, interpersonal skills, professional practice, critical thinking and judgment, and potential for advanced study.
6) If GPA is less than 3.0, satisfactory score on the Miller Analogy Test or the Graduate Record Exam within the last five years.
7) Typewritten statement (maximum 500 words) that describes the applicant’s:
   a) interest in the RN to MSN Program and specific MSN option, e.g., Nurse Educator or Health Systems Leader.
   b) professional goals.
   c) personal and professional strengths.
   d) professional experiences.
8) Non-native English speakers are required to provide proof of English proficiency. Gonzaga University accepts the following:
   a) score of 6.5 or better on the IELTS
   b) official TOEFL score of at least 88 ibt or 580 pbt
   c) completion of an Associate's degree in Nursing or a diploma in Nursing from an institution where English is the primary medium of instruction.
9) Submission of a financial declaration and supporting documentation by international applicants

Degree Requirements

The RN to MSN program requires the completion of five "bridge" courses (15 credits) with a minimum GPA of 3.0 in order to progress to MSN-level course work.

Graduate (MSN) Courses:

Students who have successfully completed the "bridge" courses with a minimum grade of “C” and have achieved a minimum GPA of 3.0 progress directly to the MSN level courses.

Admissions Requirements to the MSN Program

At the time of application to the MSN program, the applicant also applies for admission to Gonzaga University. The applicant must have a bachelor’s degree from an accredited college or university, be licensed as a Registered Nurse, and submit one official transcript from each college, university, and/or nursing program attended. Students who are admitted without a bachelor’s degree in nursing must take some foundational nursing courses before completing master’s-level courses, e.g., statistics, research, and community health nursing. The decision to admit an applicant to the MSN program is based on consideration of the individual's overall portfolio including:

1) Cumulative GPA of 3.0 or better (4.0 scale).
2) Evidence of a current unencumbered RN license.
3) One official transcript from every college and university or nursing school attended. Only degrees and/or courses from regionally accredited institutions will be accepted.
4) Current curriculum vitae (CV).
5) Two letters of recommendation from individuals such as employers, colleagues, or professors who can attest to the applicant’s leadership, interpersonal skills, professional practice, critical thinking and judgment, and potential for advanced study.
6) If GPA is less than 3.0 or bachelor degree is from a competency-based program, satisfactory score on the Miller Analogy Test or the Graduate Record Exam within the last five years.
7) Typewritten statement (maximum 500 words) that describes the applicant’s:
   a) interest in the MSN Program and specific MSN option,
   b) professional goals,
   c) personal and professional strengths,
   d) professional experiences.
8) Non-native English speakers are required to provide proof of English proficiency. Gonzaga University accepts the following:
   a) score of 6.5 or better on the IELTS,
   b) official TOEFL score of at least 88 ibt or 580 pbt,
   c) completion of an Associate's degree in Nursing or a diploma in nursing from an institution where English is the primary medium of instruction.
9) Submission of a financial declaration and supporting documentation by international applicants.

Required Core Courses for All MSN Options: 15 Credits

All of the core courses are offered online and must be completed for all of the specialty options. These courses provide the theoretical foundation for role development and expose the students to concepts and issues that undergird all areas of advanced nursing practice. Courses include content in health policy analysis and development, information management, evidence-based practice and leadership.

NURS 561 Information Technology and Data Management 3 credits
NURS 562 Theoretical Foundations for Healthcare Improvement 3 credits
NURS 563 Evidenced-Based Practice for Quality and Safety 3 credits
NURS 564 Contemporary Healthcare Environment 3 credits
NURS 565 Clinical Prevention for Diverse Populations 3 credits

Health Systems Leadership (HSL) Option: 36 Credits (including Core)

This option prepares Registered Nurses to assume leadership and administrative positions in inpatient, ambulatory care, and community-based settings. Students gain knowledge and competency in financial and human capital management, as well as strategies for responding to the ethical and legal issues encountered in administrative roles. The HSL core courses are offered online. Practicum experiences are arranged by the student to meet identified learning needs. There is a required two-day, on-campus immersion during the last practicum course.

Health Systems Leadership Core: 15 Credits
NURS 641A Nursing Leadership Development 3 credits
NURS 642A Quality and Information Management 3 credits
NURS 643A Communication and Relationship Management 3 credits
NURS 644A Health Care Management 3 credits
NURS 645A Legal, Regulatory, and Ethical Healthcare Environments 3 credits

Health Systems Leadership Practicum: 6 Credits (360 hours)
NURS 631A Health Systems Leadership Practicum I 1-3 credits
NURS 632A Health Systems Leadership Practicum II 1-3 credits
NURS 633A Health Systems Leadership Practicum III 1-3 credits

Nurse Educator (NE) Option: 36 Credits (including Core)
This option prepares Registered Nurses to work as educators in academic, hospital, and community-based settings. Students develop an area of clinical specialization as well as competency in curriculum development, teaching-learning strategies, and assessment of student learning. Particular emphasis is placed on tailoring content and practicum experiences to individual needs. The NE core courses are offered online. Practicum experiences take place in a variety of educational settings. There are two required 2-3 day, on-campus immersions.

Nurse Educator Direct Care Core and Practicum: 8 Credits
NURS 601E Pathophysiology, Pharmacology and Assessment I 3 credits
NURS 602E Pathophysiology, Pharmacology and Assessment II 3 credits
NURS 603E Advanced Clinical Practicum: Acute Care 1 credit
NURS 604E Advanced Clinical Practicum: Population-Focused 1 credit

Nurse Educator Core and Practicum: 13 Credits
NURS 651E Curriculum Development 3 credits
NURS 652E Teaching/Learning Strategies 3 credits
NURS 653E Principles of Evaluation for Nurse Educator 3 credits
Four credits distributed between the following two courses: 4 credits
NURS 645E Nurse Educator Practicum in Clinical Setting 1-3 credits
NURS 646E Nurse Educator Practicum in Academia 1-3 credits

Family Nurse Practitioner (FNP) Option: 44 Credits (including Core)
This option prepares students to provide a holistic approach to primary care for individuals and families of all ages and to manage a wide variety of acute and chronic health problems. Family Nurse Practitioners work in independent as well as collaborative practice settings, such as private practices, urgent care centers, health maintenance organizations, clinics, health departments, student health centers, and clinics for the homeless or uninsured. The FNP core courses are offered online. When students begin their practicum courses, they are required to participate in two oncampus immersions during each of the three practicum courses as well as when taking the Advanced Health Assessment course (for a total of 8 on-campus immersions). These immersions are two days in length. Students residing in Washington, Idaho, Oregon, and Montana also have at least one site visit from a clinical faculty during each practicum course. Students living outside of
this four-state region are required to arrange for an additional on-campus day in conjunction with one of the immersion experiences during each practicum course in order to complete the faculty site visit requirement.

**Family Nurse Practitioner Core: 22 Credits**

- **NURS 523** Advanced Pathophysiology 3 credits
- **NURS 524** Advanced Pharmacology 3 credits
- **NURS 600** Health Assessment: Advanced Nurse Practice 3 credits
- **NURS 601** Health Assessment: Advanced Nurse Practicum 1 credit
- **NURS 651P** Primary Care: Gender-Based 2 credits
- **NURS 652P** Primary Care: Infant/Child/Adolescent 3 credits
- **NURS 653P** Primary Care: Adult/Geriatric 4 credits
- **NURS 654P** Primary Care: Adult/Geriatric II 3 credits

**Family Nurse Practitioner Practicum: 10 Credits (600 hours)**

- **NURS 661** Practicum Care Practicum: Gender-Based 1-3 credits
- **NURS 662** Practicum Care Practicum: Infant/Child/Adolescent 1-3 credits
- **NURS 663** Practicum Care Practicum: Adult/Geriatric 1-4 credits
- **NURS 664** Practicum Care Practicum: Adult/Geriatric II 1-4 credits

**Adult/Gerontology Nurse Practitioner Option: 41 credits (including Core)**

This track prepares nurse practitioners to care for young adults to frail elders. Adult/Gerontology NPs typically practice in primary care settings, such as private practices, clinics, nursing homes, and long-term care facilities. Students in this track must complete a total of 45 credits to earn an MSN degree. The didactic courses are offered online. Students complete the required 600 hours of practicum in their home communities working at a site and with a preceptor approved by faculty.

When students begin their practicum courses, they are required to participate in one on-campus immersion during each of the three practicum courses as well as two on-campus immersions when taking the Advanced Health Assessment course (for a total of 5 on-campus immersions). These immersions are two or more days in length. Students residing in Washington, Idaho, Oregon, and Montana also have at least one site visit from a clinical faculty during each practicum course. Students living outside of this four-state region are required to arrange for an additional on-campus day in conjunction with one of the immersion experiences during each practicum course in order to complete the faculty site visit requirement.

**Adult/Geriatric Nurse Practitioner Core: 20 Credits**

- **NURS 523** Advanced Pathophysiology 3 credits
- **NURS 524** Advanced Pharmacology 3 credits
- **NURS 600** Health Assessment: Advanced Nurse Practice 3 credits
- **NURS 601** Health Assessment: Advanced Nurse Practicum 1 credit
- **NURS 653P** Primary Care: Adult/Geriatric I 4 credits
NURS 654P Primary Care: Adult/Geriatric II 3 credits
NURS 671 Care of the Frail Elder 3 credits

**Adult/Geriatric Nurse Practitioner Practicum: 10 Credits (600 hours)**
NURS 663P Primary Care Practicum: Adult/Geriatric I 1-4 cr
NURS 664P Primary Care Practicum: Adult/Geriatric II 1-4 cr
NURS 665P Primary Care Practicum: Adult/Geriatric III 2-4 cr

**A/GNP Specialty Courses: 26 credits – must complete 10 credits of practicum**

A/GNP Specialty Courses: 26 credits – must complete 10 credits of practicum

NURS 670 Psychopharmacology 3 credits
NURS 653P Primary Care: Adult/Geriatric I 4 credits
NURS 654P Primary Care: Adult/Geriatric II 3 credits
NURS 663P Primary Care Practicum: Adult/Geriatric I 1-4 credits
NURS 664P Primary Care Practicum: Adult/Geriatric II 1-4 credits
NURS 665P Primary Care Practicum: Adult/Geriatric III 1-4 credits
NURS 671 Care of the Frail Elder 3 credits
NURS 672 Mental Health in Advanced Practice 3 credits
NURS 683P Primary Care Practicum Extension 1-3 credits

**Psychiatric-Mental Health Nurse Practitioner (PMHNP) Option: 47 Credits (including Core)**

This option prepares students to work as Psychiatric-Mental Health Nurse Practitioners. They are prepared to provide the full range of services that comprise primary mental health care in diverse settings with a variety of clients/patients, to provide clinical and professional leadership, and facilitate system improvements. Their clinical practice focuses on persons of all ages with diagnosed psychiatric disorders and individuals, families, or populations at risk for mental illness. The PMHNP core courses are offered online. When students begin their practicum courses, they are required to participate in one on-campus immersion during each of the four practicum courses and two on-campus immersions when taking the Advanced Health Assessment course (for a total of 6 on-campus immersions). These immersions are two days in length. Students also have at least one site visit from a clinical faculty during two of the practicum courses. Additional site visits are arranged as needed.

**Psychiatric Mental Health Nursing Core: 22 Credits**

NURS 523 Advanced Pathophysiology 3 credits
NURS 524 Advanced Pharmacology 3 credits
NURS 670 Advanced Psychopharmacology (optional) 3 credits
NURS 600 Health Assessment: Advanced Nurse Practice 3 credits
NURS 601 Health Assessment: Advanced Nurse Practicum 1 credit
NURS 652M Psychiatric-Mental Health Nursing Concepts I 3 credits
NURS 653M Psychiatric-Mental Health Nursing Concepts II 3 credits
Second Master's Degree in Nursing Program

After faculty review the student's transcript and determine the courses needed to complete the student's chosen specialty pathway, the student typically completes between 21 to 35 credits, depending on the pathway, to obtain a second master's degree in Nursing.

Admission Requirements for Second Master's Degree in Nursing Program

At the time of application to the second master’s degree program, the applicant also applies for admission to Gonzaga University. The applicant must have a master's degree in nursing from an accredited college or university, be licensed as a Registered Nurse, and submit one official transcript from each college, university, and/or nursing program attended. The decision to admit an applicant to the MSN program is based on consideration of the individual's overall portfolio including:

1. Cumulative GPA of 3.0 or better (4.0 scale).
2. Evidence of a current unencumbered RN license.
3. One official transcript from every college and university or nursing school attended. Only degrees and courses from a regionally accredited institution will be accepted.
5. Two letters of recommendation from individuals such as employers, colleagues, or professors who can attest to the applicant’s leadership, interpersonal skills, professional practice, critical thinking and judgment, and potential for advanced study.
6. If GPA is less than 3.0 or bachelor degree is from a competency-based program, satisfactory score on the Miller Analogy Test or the Graduate Record Exam within the last five years.
7. Typewritten statement (maximum 500 words) that describes the applicant’s:
   a) interest in the MSN Program and specific MSN option,
   b) professional goals,
   c) personal and professional strengths,
   d) professional experiences.
8. Non-native English speakers are required to provide proof of English proficiency. Gonzaga University accepts the following:
   a) score of 6.5 or better on the IELTS,
   b) official TOEFL score of at least 88 ibt or 580 pbt,
   c) completion of an Associate's degree in nursing or a diploma in Nursing from an institution where English is the primary medium of instruction.

9. Submission of a financial declaration and supporting documentation by international applicants.

Second Master's Degree

Program Options:

Health Systems Leadership Option: 21-24 Credits

This option prepares Registered Nurses to assume leadership and administrative positions in inpatient, outpatient, community-based, and academic settings. Students gain knowledge and competency in financial and human capital management, as well as strategies for responding to the ethical and legal issues encountered in administrative roles. The HSL core courses are offered online. Practicum experiences are arranged by the student to meet identified learning needs. There is a required two-day, on-campus immersion during the last practicum course.

Required Courses or Equivalency: 15-18 Credits

NURS 603E  Advanced Clinical Practicum: Acute Care  1 credit
NURS 604E  Advanced Clinical Practicum: Population Focused  1 credit
NURS 651E  Curriculum Development  3 credits
NURS 652E  Teaching Learning Strategies  3 credits
NURS 653E  Principles of Evaluation for Nurse Educator  3 credits

**Nurse Educator Practicum: 4 credits distributed between the following two practicum courses (240 hours):**

NURS 645E  Nurse Educator practicum in Clinical Setting  1-3 credits
NURS 646E  Nurse Educator Practicum in Academia  1-3 credits

**Family Nurse Practitioner Option: 32-35 Credits**

This option prepares students to provide a holistic approach to primary care for individuals and families of all ages and to manage a wide variety of acute and chronic health problems. Family Nurse Practitioners work in independent as well as collaborative practice settings, such as private practices, urgent care centers, health maintenance organizations, clinics, health departments, student health centers, and clinics for the homeless or uninsured. The FNP core courses are offered online. When students begin their practicum courses, they are required to participate in one oncampus immersion during each of the four practicum courses as well as two on-campus immersions when taking the Advanced Health Assessment course (for a total of 6 immersions). These immersions are two days or more in length. Students residing in Washington, Idaho, Oregon, and Montana also have at least one site visit from a clinical faculty during each practicum course. Students living outside of this four-state region are required to arrange for an additional on-campus day in conjunction with one of the immersions during each practicum course in order to complete the faculty site visit requirement.

**Required Courses or Equivalency: 22-25 Credits**

NURS 563  Evidence-Based Practice (if needed)  3 Credits
NURS 523  Advanced Pathophysiology  3 credits
NURS 524  Advanced Pharmacology  3 credits
NURS 600  Health Assessment: Advanced Nurse Practice  3 credits
NURS 601  Health Assessment: Advanced Nurse Practicum  1 credit
NURS 651P Primary Care: Gender-Based  2 credits
NURS 652P Primary Care: Infant/Child/Adolescent  3 credits
NURS 653P Primary Care: Adult/Geriatric I  4 credits
NURS 654P Primary Care: Adult/Geriatric II  3 credits

**Family Nurse Practitioner Practicum: 10 Credits (600 hours)**

NURS 661P Primary Care Practicum: Gender-Based  1-3 credits
NURS 662P Primary Care Practicum: Infant/Child/Adolescent  1-3 credits
NURS 663P Primary Care Practicum: Adult/Geriatric I  1-4 credits
NURS 664P Primary Care Practicum: Adult/Geriatric II  1-4 credits
Adult/Gerontology Nurse Practitioner Option: 30-32 credits

This track prepares nurse practitioners to care for young adults to frail elders. Adult/Gerontology NPs typically practice in primary care settings, such as private practices, clinics, nursing homes, and long-term care facilities. The AGNP core courses are offered online. When students begin their practicum courses, they are required to participate in one on-campus immersion during each of the three practicum courses as well as two on-campus immersions when taking the Advanced Health Assessment course (for a total of 5 immersions). These immersions are two days or more in length. Students residing in Washington, Idaho, Oregon, and Montana also have at least one site visit from a clinical faculty during each practicum course. Students living outside of this four-state region are required to arrange for an additional on-campus day in conjunction with one of the immersions during each practicum course in order to complete the faculty site visit requirement.

Required Courses or Equivalency: 20-23 Credits

NURS 563 Evidence-Based Practice (if needed) 3 Credits
NURS 523 Advanced Pathophysiology 3 credits
NURS 524 Advanced Pharmacology 3 credits
NURS 600 Health Assessment: Advanced Nurse Practice 3 credits
NURS 601 Health Assessment: Advanced Nurse Practicum 1 credit
NURS 653P Primary Care: Adult/Geriatric I 4 credits
NURS 654P Primary Care: Adult/Geriatric II 3 credits
NURS 671 Care of the Frail Elder 3 credits

Adult/Geriatric Nurse Practitioner Practicum: 10 Credits (600 hours)

NURS 663P Primary Care Practicum: Adult/Geriatric I 1-4 credits
NURS 664P Primary Care Practicum: Adult/Geriatric II 1-4 credits
NURS 665P Primary Care Practicum: Adult/Geriatric III 2-4 credits

Psychiatric-Mental Health Nurse Practitioner: 32-35 Credits

This option prepares students to work as Psychiatric-Mental Health Nurse Practitioners. They are prepared to provide the full range of services that comprise primary mental health care in diverse settings with a variety of clients/patients, to provide clinical and professional leadership, and facilitate system improvements. Their clinical practice focuses on persons of all ages with diagnosed psychiatric disorders and individuals, families, or populations at risk for mental illness. The PMHNP core courses are offered online. When students begin their practicum courses, they are required to participate in one on-campus immersion during each of the three practicum courses and two on-campus immersions when taking the Advanced Health Assessment course (for a total of 5 immersions). These immersions are two days or more in length. Students also have one site visit from a clinical faculty during the last three of the practicum courses. Additional site visits are arranged as needed.

Required Courses or Equivalency: 22-25 Credits

NURS 563 Evidence-Based Practice (if needed) 3 Credits
NURS 523 Advanced Pathophysiology 3 credits
Doctor of Nursing Practice

Chairperson: Jeffery Ramirez
Professors: N. Crogan, S. Norwood
Associate Professors: N. Beckham, J. Ramirez, L. Murphy, J. Tiedt
Assistant Professors: D. Abendroth, C. Kottwitz, J. Owens, B. Senger Senior
Lecturer: D. Smith

Introduction

The Department of Nursing offers two pathways to a Doctor of Nursing Practice (DNP) degree: postbaccalaureate DNP and post-master’s DNP. Nurses with a bachelor’s degree and a Registered Nurse license can apply for admission to the post-baccalaureate DNP option and one of the specialty nurse practitioner tracks: Family Nurse Practitioner (75 credits), Psychiatric-Mental Health Nurse Practitioner (75 credits), or Adult/Gerontology Nurse Practitioner (76 credits). Nurses with a master’s degree in nursing that prepared them for an advanced practice role such as a nurse practitioner or clinical nurse specialist or in an advanced role such as a health systems leader/nurse administrator can apply for admission to the postmaster’s DNP option (minimum 31 credits). The Doctor of Nursing Practice program is consistent with the mission of Gonzaga University and the overall mission of the Department of Nursing, which is to prepare nurses for leadership in the service of others. Graduates of Gonzaga's DNP program are prepared to engage in systems thinking to solve complex problems, translate evidence to improve health care practices and population health, lead quality improvement and change initiatives, and demonstrate effective intraprofessional collaboration.
Program Overview Post-Baccalaureate DNP Option

Gonzaga's DNP program is offered in an online distance delivery format with scheduled on-campus immersions. This format enables nurses in geographically isolated areas and those who would not be able to attend an on-campus program to pursue advanced nursing education and still continue to provide much-needed nursing services in their home communities while completing graduate studies. Graduates are qualified to take the national certification examinations for their areas of specialization. National certification is a requirement for licensure as a nurse practitioner in most states. Students are responsible for checking state mandates for practice while in the student role and in an advanced nursing role.

This online program is available to Registered Nurses who have earned a Bachelor of Science degree in nursing or have a bachelor’s degree in another field and are licensed as Registered Nurses. Students with a non-nursing bachelor’s degree also can be admitted directly into the DNP program, but must complete a minimum of four pre-requisite nursing courses prior to starting the DNP courses. The DNP courses are offered in a distance delivery format in fall, spring, and summer sessions.

The post-baccalaureate DNP requires the completion of a minimum of 75-76 credit hours depending on the selected specialty track. The Family Nurse Practitioner (FNP) and Psychiatric-Mental Health Nurse Practitioner tracks require the completion of 75 credits, while students in the Adult/Gerontology track must complete 76 credits. Students in all tracks must complete a minimum of 1000 practicum hours for completion of the DNP degree. The majority of the practicum hours (approximately 660 hours) are spent learning the NP specialty role and the remaining 360 hours involve completion of a scholarly project focused on improving an identified practice issue. Students are required to participate in a total of six or seven on-campus immersions (depending on their specialty track).

Admission Requirements:

At the time of application to the post-baccalaureate DNP program, the applicant also applies for admission to Gonzaga University. The applicant must have a bachelor's degree from an accredited college or university, be licensed as a Registered Nurse, and submit one official transcript from each attended college, university, and/or nursing program. Students who are admitted without a bachelor’s degree in nursing may be required to take foundational nursing courses before commencing graduate-level courses, e.g., statistics, research, and community health nursing. The decision to admit an applicant to the DNP program is based on consideration of the individual's overall portfolio including:

1. A bachelor's degree from an accredited college or university.
2. An unencumbered RN license from the state where practicum courses will be completed.
3. A minimum cumulative grade point average (GPA) from bachelor’s level courses of 3.3 on a 4.0 scale.
4. An official transcript from every college and university and/or nursing program attended (only courses from accredited institutions will be accepted).
5. Curriculum vitae (CV).
6. Three letters of recommendation. Two must be from a colleague/supervisor who is able to evaluate current competency in nursing and the candidate's potential for advanced practice (clinical or leadership depending on area of practice) at the most advanced level. Applicants are strongly encouraged to have one letter from
a former college/university nursing professor who can attest to the candidate's potential for academic success in a doctoral program.

7. A 500-word personal statement that addresses:
   a. Reasons for pursuing a DNP degree and how Gonzaga University's DNP program will prepare the candidate to meet his or her professional goals, b. Personal and professional strengths,
   c. Professional experiences,
   d. Interest in specific track within DNP program (FNP, PMHN, or A/GNP.)

8. Applicants who do not meet the cumulative GPA requirement or graduate from a competency-based program, must submit either MAT or GRE scores from within the last five years.

9. Non-native English speakers are required to provide proof of English proficiency. Gonzaga accepts the following:
   a. Score of 6.5 or better on the IELTS
   b. Official TOEFL score of at least 88 ibt or 580 pbt

**Degree Requirements:**

Required Courses for All Post-Baccalaureate DNP Options: 50 credits

All of the core courses are offered online and must be completed for all of the specialty options.

Family Nurse Practitioner (75 credits)

This track prepares nurse practitioners to provide a holistic approach to primary care for individuals across the life span, from infants to older adults, and to manage a wide variety of acute and chronic health problems. FNPs typically practice in primary care settings, such as private practices, clinics, urgent care centers, and community health centers. Students in this track must complete a total of 75 credits to earn a DNP degree. The didactic courses are offered online. Students complete the required 1000 hours of practicum in their home communities working at a site and with a preceptor approved by faculty.

When students begin their practicum courses, they are required to participate in seven on-campus immersions. Six of the immersions are associated with the FNP practicum courses and emphasize health assessment, diagnostic reasoning, skill development, and the demonstration of competence in the NP role. These immersions are two days or more in length. One of the immersions (DNP Immersion) focuses on the development of the scholarly practice proposal and expectations of individuals with a DNP degree.

Students residing in Washington, Idaho, Oregon, and Montana also have at least one site visit from a clinical faculty during each FNP practicum course. Students living outside of this four-state region are required to arrange for an additional on-campus day in conjunction with one of the immersions during each practicum course in order to complete the faculty site visit requirement.

The completion of a scholarly project that improves practice is also a requirement. At the completion of the program, students must take the FNP certification exam, which, if passed, makes them eligible for an advanced practice license.

**FNP Specialty Courses: 22 credits – must complete 10 credits of practicum**

Psychiatric-Mental Health Nurse Practitioner (75 credits)

This track prepares nurse practitioners to care for individuals across the life span in need of mental health care and treatment. PMHNPs are prepared to provide psychotherapy and prescribed medications and
other psychiatric treatment interventions. PMHNPs typically practice in primary care settings, such as private practices, mental health clinics, psychiatric hospitals, and community mental health centers. Students in this track must complete a total of 75 credits to earn a DNP degree. The didactic courses are offered online. Students complete the required 1000 hours of practicum in their home communities working at a site and with a preceptor approved by faculty.

When students begin their practicum courses, they are required to participate in six on-campus immersions. Five of the immersions are associated with the PMHNP practicum courses and emphasize health assessment, diagnostic reasoning, development of skill in behavioral therapy, and the demonstration of competence in the NP role. These immersions are two days or more in length. One of the immersions (DNP Immersion) focuses on the development of the scholarly practice proposal and expectations of individuals with a DNP degree.

Students have a site visit from a clinical faculty during two of the PMHNP practicum courses. The completion of a scholarly project that improves practice is also a requirement. At the completion of the program, students must take the PMHNP certification exam, which, if passed, makes them eligible for an advanced practice license.

**PMHNP Specialty Courses: 22 credits – must complete 10 credits of practicum)**

**Adult/Gerontology Nurse Practitioner (76 credits)**

This track prepares nurse practitioners to care for young adults to frail elders. Adult/Gerontology NPs typically practice in primary care settings, such as private practices, clinics, nursing homes, and long-term care facilities. Students in this track must complete a total of 76 credits to earn a DNP degree. The didactic courses are offered online. Students complete the required 1000 hours of practicum in their home communities working at a site and with a preceptor approved by faculty.

When students begin their practicum courses, they are required to participate in six on-campus immersions. Five of the immersions are associated with the A/GNP practicum courses and emphasize health assessment, diagnostic reasoning, skill development, and the demonstration of competence in the NP role. These immersions are two days or more in length. One of the immersions (DNP Immersion) focuses on the development of the scholarly practice proposal and expectations of individuals with a DNP degree.
Students residing in Washington, Idaho, Oregon, and Montana also have at least one site visit from a clinical faculty during each A/GNP practicum course. Students living outside of this four-state region are required to arrange for an additional on-campus day in conjunction with one of the immersions during each NP practicum course in order to complete the faculty site visit requirement.

The completion of a scholarly project that improves practice is also a requirement. At the completion of the program, students must take the FNP certification exam, which, if passed, makes them eligible for an advanced practice license.

### Post-Master’s DNP Option

At the time of application to the DNP program, the applicant also applies for admission to Gonzaga University. This online program is available to Registered Nurses who have earned a master's degree in a nursing specialty area and want to advance their practice, such as nurse practitioners or nurses in leadership/management positions. The DNP courses are offered in a distance delivery format in fall, spring, and summer sessions.

The post-master's DNP requires the completion of a minimum of 31 credit hours. The total number of credits a student must take in order to complete degree requirements depends on the courses and practicum hours completed in the student's Master's program. If an applicant was not required to complete an Evidence-Based Practice course or a Biostatistics or Inferential Statistics course during his or her master’s program, these courses must be completed either prior to beginning the DNP program, or they can be taken at Gonzaga during the first semester of the DNP program. The number of practicum hours that each student must complete is individualized based on the number completed in the student's MSN program so that each student meets the required 1,000 practicum hours by program completion (including practicum hours from the student's master’s program). This means that a student may need to complete 37 or more total credits.

The program requires one on-campus immersion. The student must participate in an immersion prior to enrolling in the first DNP practicum course. It is a 3-day orientation to the program and includes a discussion of expectations for practicum, the scholarly project, composition of the Scholarly Project Committee, Institutional Review Board requirements, the proposal defense, and an introduction to faculty and their specific research interests.
The four practicum and seminar courses prepare the student to complete a scholarly project that is aimed at improving some aspect of clinical or leadership practice, depending on the student’s focus, and expertise as either a nurse practitioner, clinical nurse specialist, or health systems leader. The student has the option of presenting the defense of his or her scholarly project proposal and the final defense of the completed scholarly project to faculty and students either in person or electronically. The final version of the student’s scholarly project is either a bound document or a publishable manuscript and an abstract that is submitted for either a podium or poster presentation at a major conference.

**Admission Requirements**

Registered Nurses who meet the following criteria are eligible to apply to the post-master’s Doctor of Nursing Practice option:

1. A master’s degree in nursing from a program accredited by the Commission on Collegiate Nursing Education (CCNE) or Accreditation Commission for Education in Nursing (ACEN) OR a graduate nurse anesthesia degree from a program accredited by the Council on Accreditation of Nurse Anesthesia Education Programs of the American Association of Nurse Anesthetists OR a graduate nurse-midwifery degree from a program accredited by the American College of Nurse Midwives Accreditation Commission for Midwifery Education. Students who will be completing a master’s degree during the semester when applications are due also are eligible to apply.

2. A cumulative grade point average (GPA) from master’s-level nursing courses of 3.3 on a 4.0 scale. If the GPA is below a 3.3, the applicant must include a statement explaining why the GPA is lower than required.

3. Official transcript posting MSN or MN degree with documentation of an Evidence Based Practice (EBP) course. If the student has not had an EBP course, he or she can still be fully admitted, but will be required to complete an EBP course during the first semester of DNP course work. Gonzaga offers this course and it is available online to DNP students.

4. Official transcript of a three semester credit graduate-level inferential statistics or biostatistics course within the last five years with an earned grade of C or better. If the student has not had a statistics course, he or she can still be fully admitted, but will be required to complete a statistics course during the first semester of DNP course work. Gonzaga offers this course and it is available online to DNP students. Graduate nurse anesthesia degrees or graduate nurse-midwifery degrees will be accepted for CRNA or CNM applicants respectively.

5. Verification form documenting supervised practicum hours earned in a master’s program (from graduate program unless the hours can be determined from the transcript).

6. An unencumbered RN license from the state where practicum courses will be completed.

7. Must pass a national background check that will be completed upon acceptance into the program.

8. Applicants who do not meet the cumulative GPA requirement or are graduates from competency-based programs must submit either MAT or GRE scores from within the last five years.

9. An interview via phone or Skype may be requested.

To be considered as an applicant for the post-master’s DNP option, the following application items are evaluated:

1. Curriculum vitae (CV).
2. Three letters of recommendations.
a. Two must be from a colleague/supervisor who is able to evaluate current competency in nursing and the candidate’s potential for nursing practice (clinical or leadership depending on the area of practice) at the most advanced level.

b. Applicants are strongly encouraged to have one letter from a former college/university nursing professor who can attest to the candidate’s potential for academic success in a doctoral program.

3. A 1000 word scholarly essay that describes:
   a. The candidate’s reasons for pursuing a DNP at Gonzaga University and how the program will prepare the candidate to meet his/her professional goals.
   b. Experiences and background that have prepared the candidate to be successful while pursuing a doctoral degree.
   c. Clinical issue/problem to be addressed in a scholarly project: i. An in-depth description of the identified clinical problem or issue
      ii. How the problem was identified
      iii. The population that is adversely affected
      iv. What change the candidate proposes to implement.
      v. How the candidate envisions that improvement in the practice problem/clinical issue will make a difference in the quality of our national healthcare system.

4. Official transcript(s) posting MSN or MN degree from granting institution or courses completed at time of application if has not yet completed degree. Graduate nurse anesthesia degrees or graduate nursemidwifery degrees will be accepted for CRNA or CNM applicants respectively.

5. Copy of current unencumbered RN license.

6. Verification of practicum hours completed in MSN program.

7. In addition, nurse practitioner applicants must provide documentation of:
   a. Unencumbered license as an Advanced Practice Nurse (APN) in the state where practicum courses will be completed.
   b. Certification in the area of specialization.

Degree Requirements

The DNP program requires completion of a minimum of 31 semester credits.

NURS 523 - Advanced Pathophysiology  credits: 3
This course seeks to assist learners to understand the cellular pathophysiological basis of disease. The content emphasizes cellular, genetic, and biochemical processes. Pathophysiological and physiological concepts form the basis for critical thinking and decision making when assessing and treating individuals with various disease processes. Restrictions:

NURS 524 - Advanced Pharmacology  credits: 3
The course is designed to prepare the learner for an advanced practice role with prescriptive authority. Pharmacokinetic and pharmacodynamic principles will be applied to the pharmacotherapeutic treatment of disease. Medications will be studied according to therapeutic categories and drug classes within the framework of organbased pathophysiologic disease state processes. Emphasis will be placed on the medications that are commonly used (top 200 drugs) in primary care settings with special attention given to evidence-based medication selection, patient education, and medication monitoring.
Pre-requisites: NURS 523 Minimum Grade: C

NURS 525 - Psychopharmacology  credits: 3
The psychopharmacology course is designed to prepare nurse practitioner students in the practice of prescribing psychiatric medications. The course reviews the principles and theories of psychopharmacology, the neurochemical communication circuit, and the effects of various psychotropic drugs. The course examines the indications and actions of specific psychotropic medications in the management of the behavioral effect of mental illness. Recommended and required monitoring of medication effects and adverse effects will be emphasized.
Pre-requisites: NURS 523 Minimum Grade: C and NURS 524 Minimum Grade: C

NURS 561 - Information Technology and Data Management  credits: 3
This course explores the many uses of information technology and data management. The course will provide learners with the knowledge and skills in information and healthcare technology needed to enhance communication and interprofessional collaboration in the current healthcare environment. The process of locating, accessing and analyzing information and data is applied to advanced practice roles, enhancing patient safety, quality and outcomes, and improving population health.

NURS 562 - Theoretical Foundations in Healthcare Improvement  credits: 3
This course provides a theoretical orientation to become change agents in a variety of healthcare settings and diverse practice populations. The course will provide learners with a foundation in theories significant to nursing practice such as complex adaptive systems, organizational and change theory, leadership and team-building models, and quality improvement and care models needed to assess, design, plan, implement, and evaluation quality improvement project to promote patient-centered care and improve program outcomes.

NURS 563 – Evidence Based Practice for Quality and Safety  credits: 3
This course will provide learners with a theoretical and practical foundation for identifying and critically appraising evidence from qualitative and quantitative research traditions. The emphasis is on the examination of the essential elements of evidence-based-practice, including the formulation of answerable questions to address quality improvement and safety in a variety of advance practice roles and the systematic search for research evidence that can be used to answer researchable questions.
NURS 564 ‐ Contemporary Healthcare Environment credits: 3
This course explores the ethical and legal principles of healthcare and their impact on accessible, affordable, and quality care. This course will provide learners with a framework for discussing ethical and legal issues with an emphasis on the ethical delivery of care to individuals, families and populations. The scope and standards of advanced nursing roles will be examined along with current issues and policies that address health care disparities, health care organizations, financing and quality. Strategies for analyzing and influencing public, professional and institutional policies related to health care and its delivery will be considered.

NURS 565 ‐ Clinical Prevention for Diverse Populations credits: 3
The focus of this course is on the development of health promotion and disease prevention programs for diverse groups and populations. Selected concepts of epidemiology, broad determinants of health, population health, clinical prevention and cultural competence will be examined as they relate to the design and delivery of equitable clinical prevention and health promotion interventions and/or services to individuals, families, communities and aggregates/clinical populations.

NURS 600 ‐ Health Assessment: Advanced Nursing Practice credits: 3
This course is designed to extend and refine the assessment skills of the Registered Nurse in preparation for an advanced clinical practice role. The student will learn to perform physical, developmental, mental, emotional, cultural, social, and family assessments. Students will review anatomy and physiology related to each biological system being studied. The course emphasizes in-depth techniques for assessing each body system in individuals throughout the life span. Lectures will focus on the use of a variety of health assessment techniques, including history taking skills, physical assessment, and other diagnostic assessment tools. Application of diagnostic reasoning and patient education to the assessment process will be included in the content. This course incorporates approximately 13 hours of supervised laboratory experience and 60 hours of precepted clinical experience. Laboratory and clinical components of the course focus on helping the student to develop communication, observation, and psychomotor skills and to document history and physical examination findings. Satisfactory progress in the clinical setting is required to pass the course. Two, two day on-campus immersions required.

Restrictions:
Co‐requisites: NURS 601
Pre‐requisites: NURS 523 Minimum Grade: C and NURS 524 Minimum Grade: C

NURS 601 ‐ Advanced Health Assessment Practice I credit: 1
This course is the practicum course paired with NURS 600 Advanced Health Assessment. The focus is on the practice of advanced assessment skills within a primary care setting. Students must complete 60 clinical hours in an approved clinical setting while supervised by a nurse practitioner, physician or physician’s assistant (unless in a state that requires the preceptor to be either an NP or MD).

Restrictions:
Must be in the following Level(s):
Graduate Non‐Matric
Graduate

Co‐requisites: NURS 600
Pre‐requisites: NURS 523 Minimum Grade: C and NURS 524 Minimum Grade: C

NURS 601E ‐ Pathophysiology, Pharmacology and Assessment I credits: 3
This course provides students with an in-depth analysis of concept-based pathophysiological problems with emphasis on assisting learners in understanding the cellular pathophysiological basis of disease, the pharmacokinetic and pharmacodynamics principles of its pharmacological treatment and the refinement of physical assessment skills used to form the basis for critical thinking and decision-making when treating individuals with various pathophysiological problems.

NURS 601M ‐ Advanced Psych‐Mental Health Practicum I credit: 1
Designed to provide opportunities for learners to begin practice as advanced practice psychiatric-mental health nurses. Emphasis is on utilizing the theories, concepts, and skills necessary to assess and diagnose major psychiatric disorders and other phenomena requiring clinical intervention gained in NURS 21M Dynamic Care Formulation in the clinical setting. One, two day on-campus immersion required.

Co-requisites: NURS 621M
Pre-requisites: NURS 600 Minimum Grade: C

NURS 602E - Pathophysiology, Pharmacology and Assessment II credits: 3
This course is a continuation of NURS 601E and provides students with an in-depth analysis of concept-based pathophysiological problems with emphasis on assisting learners in understanding the cellular pathophysiological basis of disease, the pharmacokinetic and pharmacodynamics principles of its pharmacological treatment and the refinement of physical assessment skills used to form the basis for critical thinking and decision-making when treating individuals with various pathophysiological problems.

NURS 603E - Advanced Clinical Practicum: Acute Care credit: 1
Students complete 60 hours of direct care activities with a master’s prepared nurse in an acute care setting. Particular emphasis is placed on safety, quality of care, and quality improvement activities. Students are provided with the opportunity to integrate previous knowledge and develop proficiency in a focused area of acute care clinical nursing.

NURS 604E - Advanced Clinical Practicum: Population Focused credit: 1
Students complete 60 hours of direct care activities with a master’s prepared nurse in a community setting. Particular emphasis is placed on safety, quality of care, and quality improvement activities. Students are provided with the opportunity to integrate previous knowledge and develop proficiency in a population-focused area of clinical nursing.

Pre-requisites: NURS 565 Minimum Grade: C and (NURS 601E Minimum Grade: C or NURS 602E Minimum Grade: C)

NURS 605P - Practicum in Primary Health Care I credits: 2-3
This primary care practicum course requires the completion of 120-180 practicum hours with supervision by an approved Nurse Practitioner, Physician, or Physician’s Assistant-Certified. Emphasis is placed on the application of concepts as well as on collaboration with a preceptor to analyze patient data, select appropriate diagnostic tests, develop a comprehensive treatment plan, and prepare legally sound documentation for individuals who present for care with common and acute healthcare problems. Requires attendance at two, two day on-campus immersions.

Pre-requisites: NURS 523 Minimum Grade: C and NURS 524 Minimum Grade: C and NURS 600 Minimum Grade: C

NURS 606P - Practicum in Primary Healthcare II credits: 2
This primary care practicum course requires the completion of a pre-determined number of practicum hours (120, 180, or 240) with supervision by an approved Nurse Practitioner, Physician, or Physician's Assistant-Certified. Emphasis is placed on the application of concepts from family nurse practitioner didactic courses and the development of increasing independence in analyzing patient data, selecting appropriate diagnostic tests, developing comprehensive treatment plans, and preparing legally sound documentation for individuals who present for care in a family practice setting. Requires attendance at two, two day on-campus immersions.

Co-requisites: NURS 636P

Pre-requisites: NURS 605P Minimum Grade: C and NURS 635P Minimum Grade: C

NURS 607P - Practicum in Primary Healthcare III credits: 2
This primary care practicum course requires the completion of a pre-determined number of practicum hours (120, 180, or 240 corresponding to 2, 3 or 4 credits respectively) with supervision by an approved Nurse Practitioner, Physician, or Physician’s Assistant-Certified. Emphasis is placed on the application of concepts from family nurse practitioner didactic courses and the development of increasing independence in analyzing patient data, selecting appropriate diagnostic tests, developing comprehensive treatment plans, and preparing legally sound documentation for individuals who present for care in family practice setting. Requires attendance at two, two day on-campus immersions. Co-requisites: NURS 637P
Pre-requisites: NURS 606P Minimum Grade: C and NURS 636P Minimum Grade: C

NURS 608P - Advanced Nursing Practice IV credits: 1-4
This primary care practicum course requires the completion of a predetermined number of practicum hours (120, 180, or 240 hours) corresponding to 2, 3, or 4 credits respectively) with supervision by an approved Nurse Practitioner, Physician, or Physician's Assistant-Certified. Emphasis is placed on the application of concepts from family nurse practitioner didactic courses and the development of increasing independence in analyzing patient data, selecting appropriate diagnostic tests, developing comprehensive treatment plans, and preparing legally sound documentation for individuals who present for care in family practice setting. Pre-requisites: NURS 607P Minimum Grade: C and NURS 637P Minimum Grade: C

NURS 621M - Dynamic Care Formulation credits: 3
Designed as an induction into advanced practice psychiatric-mental health nursing. The scope of practice and the advanced practice nursing roles are examined. Major emphasis is placed on understanding, assessing, and diagnosing major psychiatric disorders and other phenomena requiring clinical intervention, considering variations across the lifespan. Selected theories of human development and adaptation across the lifespan and as a basis for psychiatric disabilities are analyzed. The biological bases of psychosocial behavior and their implications in psychiatric care are explored. Concepts, principles, and clinical approaches to assessment, mental health promotion, and diagnostic decision-making in advanced practice psychiatric-mental health nursing are stressed. Completing clinical assessments and formulating diagnoses using ICD, DSM-IV, and nursing systems are emphasized. Integration of concepts and application in one's personal practice are stressed.
Co-requisites: NURS 601M

NURS 631A - Health Systems Leadership Practicum I credits: 1-3
This practicum integrates knowledge from the didactic courses in the health organization setting.
Pre-requisites: NURS 641A or NURS 642A or NURS 643A or NURS 644A or NURS 645A

NURS 631M - Advanced Psych-Mental Health Nurse Practicum II credits: 2-3
Builds on NURS 601M Psychiatric Mental Health Nursing Practice I and is designed to provide the practice of psychotherapy as advanced practice nurses in psychiatric-mental health nursing. Emphasis is on continuing to refine skills in assessment, diagnosis, and care formulation; applying the theories and techniques of psychotherapy and nursing. Therapeutic use of self and developing one's personal style and theoretical model are stressed. One, two day on-campus immersion required.
Pre-requisites: NURS 621M Minimum Grade: C

NURS 632A - Health Systems Leader Practicum II credits: 1-3
This practicum integrates knowledge from the didactic courses in the health organization setting.
Pre-requisites: NURS 631A Minimum Grade: C

NURS 632M - Advanced Psych-Mental Health Nurse Practicum III credits: 2-3
Builds on NURS 601M Psychiatric Mental Health Nursing Practice I and is designed to provide the practice of psychotherapy as advanced practice nurses in psychiatric-mental health nursing. Emphasis is on continuing to refine skills in assessment, diagnosis, and care formulation; applying the theories and techniques of psychotherapy and nursing. Therapeutic use of self and developing one's personal style and theoretical model are stressed. One 2-day on-campus immersion required.
Co-requisites: NURS 643M

NURS 633A - Health System Leader Practicum III credits: 1-3
This practicum integrates knowledge from the didactic courses in the health organization setting. Pre-requisites: NURS 632A Minimum Grade: C

NURS 633M - Advanced Psych-Mental Health Nurse Practicum IV credits: 2-3
Builds on NURS 601M Psychiatric Mental Health Nursing Practice I and is designed to provide the practice of psychotherapy as advanced practice nurses in psychiatric-mental health nursing. Emphasis is on continuing to refine skills in assessment, diagnosis, and care formulation; applying the theories and techniques of psychotherapy and nursing. Therapeutic use of self and developing one’s personal style and theoretical model are stressed. One, two day on-campus immersion required.

Co-requisites: NURS 644M
Pre-requisites: NURS 621M Minimum Grade: C

NURS 635P - Primary Health Care I credits: 3
Introduction course for MSN student enrolled in the Family Nurse Practitioner (FNP) option. Focus of the course is on the development of knowledge about the FNP role. Emphasis is on the role of the FNP in the care of individuals throughout the lifespan who present with select common and acute health problems in the primary care setting. The importance of performing comprehensive advanced-level health assessments, use of diagnostic reasoning, and the selection of appropriate diagnostic tests and pharmacologic and non-pharmacologic therapies is stressed. Incorporates content related to health promotion, family health, and practice management.

Co-requisites: NURS 605P
Pre-requisites: NURS 524 Minimum Grade: C and NURS 600 Minimum Grade: C

NURS 636P - Primary Health Care II credits: 3
Continues learning initiated in previous courses for MSN students enrolled in the FNP option. Emphasis continues on the role of the FNP in the care of individuals with select common and acute health problems in the primary care setting. The importance of performing comprehensive advanced-level health assessments, use of diagnostic reasoning, and the selection of appropriate diagnostic tests and pharmacologic and non-pharmacologic therapies is stressed. A focus on health promotions, family health, and practice management continues from the previous semester.

Co-requisites: NURS 606P
Pre-requisites: NURS 605P Minimum Grade: C and NURS 635P Minimum Grade: C

NURS 637P - Primary Health Care III credits: 3
Role of the Family Nurse Practitioner in the care of individuals with chronic and complex health problems who present for care in primary care settings. Emphasis is placed on the FNP's role in performing comprehensive health assessments (including ordering and interpretation of appropriate diagnostic tests), diagnostic reasoning, and prescription of pharmacologic and non-pharmacologic interventions to individuals throughout the life span. Incorporates content related to advanced health assessment, health promotion, and family health. Consideration is given to the preparation of FNPs for practice, medical-legal issues, and concepts of practice management.

Co-requisites: NURS 607P
Pre-requisites: NURS 606P Minimum Grade: C and NURS 636P Minimum Grade: C

NURS 641A - Nursing Leadership Development credits: 3
This course advances the student's understanding of concepts introduced in the common core with a focus on the role of the nursing leader within the complexity of healthcare organizations. Emphasis is placed on the development of a professional plan and portfolio that reflect the intentional selection of a personal model of nurse leadership. Consideration is given to the use of change management theories in promoting organizational as well as personal and professional changes.

NURS 642A - Quality and Information Manage credits: 3
This course focuses on the information management skills essential for effective nursing leadership in complex healthcare settings. Topics to be addressed include clinical information systems, benchmarking, and quality monitoring.

Pre-requisites: (NURS 551 or NURS 564) and (NURS 552 or NURS 562) and NURS 553 or NURS 563) and (NURS 554 or NURS 561) and (NURS 555 or NURS 565)

NURS 642M Advanced Psych-Mental Health Nurse Concept I credits: 3
Focuses on the diagnosis and management of acute and episodic mental health issues. The course will have an emphasis on psychotherapy interventions and introduces the use of psychobiological interventions. Research findings related to therapeutic relationships and interpersonal processes in psychotherapy are examined.

Theoretical models for psychotherapy and nursing theories are analyzed for their application in individual therapy and presenting issues in therapy situations of patients/clients of varying ages and diagnoses are emphasized. Self-awareness; continuing development of knowledge and skill in assessment, diagnosis, and care formulation; and integration of theories and techniques of psychotherapy for application in one's personal practice are stressed. Co-requisites: NURS 631M

Pre-requisites: NURS 621M Minimum Grade: C

NURS 643A - Communication and Relation Management credits: 3

This course addresses the role of the nurse as a healthcare systems leader in developing and sustaining relationships with employees and other healthcare providers within complex healthcare environments. Course content will address communication strategies, relationship management, conflict management and negotiation skills, and evaluation. Concepts related to legal, regulatory, and ethical aspects of employee hiring, performance evaluation, and termination will be reviewed. Consideration will be given to succession management.

Pre-requisites: (NURS 551 or NURS 564) and (NURS 552 or NURS 562) and (NURS 553 or NURS 563) and (NURS 554 or NURS 561) and (NURS 555 or NURS 565)

NURS 643M - Advanced Psych-Mental Health Nurse Concepts II credits: 3

Focuses psychobiological interventions building upon the knowledge and skills gained in NURS 621M Dynamic Care Formulation. The course will introduce and examine various psychobiological and non-psychobiological interventions for people suffering mental illness. Strategies for establishing differential diagnoses and the bases for treatment are emphasized. Neuroanatomy and neurophysiology as the bases for biological interventions are reviewed; concepts and principles of psychopharmacology extend existing knowledge gained in NURS 524 Advanced Pharmacology. The challenges of treating co-occurring disorders are considered. The indications for and selection of appropriate theoretical models, diagnostic strategies, and/or intervention techniques, and issues in treatment situations of patients/clients across the age span are emphasized. Group psychotherapy across the age span will be explored and the various theoretical models for delivering and implementing this modality will be reviewed. Co-requisites: NURS 632M

Pre-requisites: NURS 621M Minimum Grade: C

NURS 644A - Health Care Management credits: 3

This course focuses on the financial management skills essential for effective nursing leadership in complex healthcare settings. Topics to be addressed include financing, administrative, financial, cost accounting systems, and budget development and oversight.

NURS 644M - Advanced Psych-Mental Health Nurse Concepts III credits: 3

Builds upon the knowledge and skills gained in NURS 621M Dynamic Care Formulation. This course is divided into four areas of study: 1) Child/adolescent psychiatric mental health, 2) Geriatric psychiatric mental health, 3) Family and couple therapy, and 4) Advanced psychiatric mental health nursing in a complex health care system. This course will introduce and examine various theories to care for vulnerable populations suffering from mental and emotional distress, including child/adolescent and geriatric populations. The most common psychiatric disorders within these populations will be covered as well as various psychotherapeutic approaches and the most common psychiatric medications used to manage the illnesses in order to restore health. Concepts and principles of psychopharmacology extend existing knowledge gained in NURS 524 Advanced Pharmacology. Various theories of family and couple therapy will be analyzed. The role of Advanced Psychiatric Mental Health Nurse will be examined regarding system and organizational transformation.

Co-requisites: NURS 633M

Pre-requisites: NURS 621M Minimum Grade: C

NURS 645A - Legal, Regulatory, and Ethic in Healthcare credits: 3
This course addresses the role of the nurse as a health systems leader in relation to legal, regulatory, and ethical considerations in health care environments. Complex adaptive systems is used as the framework for examining legal and regulatory constraints that affect care delivery, patient and employee rights and responsibilities, and quality management, including patient safety and risk management. Tension between legal and ethical guidelines will be explored.

Pre-requisites: (NURS 551 or NURS 564) and (NURS 552 or NURS 562) and (NURS 553 or NURS 563) and (NURS 554 or NURS 561) and (NURS 555 or NURS 565)

NURS 645E – Nurse Educator Practicum in Clinical Setting
Credits: 1-3
Students complete 60-180 of the required 240 hours of preceptored teaching experience in an approved clinical setting providing student, patient and/or staff education. The experience will include classroom teaching, as well as supervised evaluation of participant learning and performance. The course included on-line clinical conferences.

Pre-requisites: NURS 601E Minimum Grade: C and NURS 602E Minimum Grade: C and NURS 651E Minimum Grade: C

NURS 646E - Nurse Educator Practicum in Academia
Credits: 1-3
Students complete 60-180 of the required 240 hours of preceptored teaching experience in approved academic setting. The experience will includes classroom and clinical teaching, as well as supervised evaluation of student work and performance. The course includes on-line clinical conferences. There is a two to three day on-campus capstone immersion focusing on issues of professional development, transition to the nurse educator role, and legal and ethical issues inherent in academic and service settings. Co-requisites: NURS 653E

Pre-requisites: NURS 601 Minimum Grade: C and NURS 602 Minimum Grade: C and NURS 651 Minimum Grade: C

NURS 651E - Curriculum Development
Credits: 3
This course addresses strategies for developing curricula, ranging in scope from individual teaching sessions, to courses, to complete programs of study. Emphasis is given to developing a curriculum that is congruent with institutional and program mission, philosophy, and goals; professional standards; needs and expectations of an educational program’s communities of interest; contextual variables; and learner characteristics. Students are introduced to "backward design" principles, the concept of "threading" content, strategies for sequencing content, using a theoretical/conceptual framework to inform a curriculum, and principles of curriculum evaluation, focusing on both content validity and outcomes achievement. Legal, ethical, and accreditation issues related to curriculum content also will be considered.

Pre-requisites: NURS 651E Minimum Grade: C

NURS 652E – Teaching and Learning Strategies
Credits: 3
This course explores strategies for teaching in classroom, online, clinical and community settings and emphasizes linking teaching-learning strategies to desired learning outcomes. Theoretical frameworks for teaching-learning, assessing and accommodating learning styles, preferences, and readiness to learn will be considered. The course also addresses adapting content to teaching strategies for different groups of learners (e.g., students, health care consumer/patients, professional colleagues) and learners with different characteristics. A two to three day on-campus immersion focusing on simulation technologies is required. The course will explore strategies to enhance interprofessional collaboration through the educational process. Students will use their clinical specialty area as context for course assignments.

Pre-requisites: NURS 651E Minimum Grade: C
NURS 652M – Psychiatric Mental Health Nurse Concepts I  
credits: 3
Designed as an induction into advanced practice psychiatric-mental health nursing. The scope of practice and standards of the psychiatric nurse practitioner are analyzed. Major emphasis is placed on building a therapeutic relationship, assessing, and diagnosing major psychiatric disorders mental health promotion/prevention strategies, and diagnostic decision-making is stressed. Risk assessments and formulating diagnoses using DSM V are emphasized and other phenomena requiring clinical intervention, considering variations across the lifespan. Selected theories of interpersonal psychotherapy, human development, recovery, and trauma informed care across the lifespan are analyzed. The biological bases of psychosocial behavior and their implications in psychiatric care are explored. Integration of concepts and application in one's personal practice are stressed.

NURS 652P – Primary Care: Infant, Child, Adolescence  
credits: 3
This course focuses on the role of the Family Nurse Practitioner in the clinical management of preventative, acute and chronic health problems in infants/children/adolescents who present for care in primary care settings. Emphasis is placed on the NP’s role in performing comprehensive health assessment and treatment (including ordering and interpretation of appropriate diagnostic tests), diagnostic reasoning (differential diagnosis), and prescription of pharmacologic and non-pharmacological interventions. The FNP’s role in management and referral to other health care professionals and community resources for individuals and families will be emphasized (e.g., coordination of care transitions within and between health care systems for children with developmental delay).

Co-requisites: NURS 662P
Pre-requisites: NURS 600 Minimum Grade: C and NURS 601 Minimum Grade: C

NURS 653E - Principles of Evaluation for Nurse Educators  
credits: 3
This course examines the basic principles of evaluation and provides practical guidelines for evaluation of learning in academic, clinical and community settings. The course includes content on test construction and evaluation, developing and using rubrics, developing and grading written assignments, evaluating clinical performance, and evaluating personal teaching effectiveness. The course also addresses program evaluation and accreditation. Legal and ethical considerations related to evaluation and grading will be discussed. (One day test writing seminar included in the NURS 646E on-campus capstone immersion.) Co-requisites: NURS 646E
Pre-requisites: NURS 651E Minimum Grade: C

NURS 653M - Psychiatric Mental Health Nurse Concepts II  
credits: 3
The focus of this course is on the diagnosis and management of acute and chronic mental health issues. Emphasis is on individual and group psychotherapy across the lifespan. Development of therapeutic relationships and interpersonal processes in psychotherapy are examined. Continued development of therapeutic relationships, self-awareness, and skill in assessment, diagnosis, and care formulation are emphasized.

Co-requisites: NURS 662M
Pre-requisites: NURS 652M Minimum Grade: C or NURS 661M Minimum Grade: C

NURS 653P - Primary Care: Adult/Geriatric I  
credits: 4
This course focuses on the role of the Nurse Practitioner (NP) in the clinical management of chronic and complex health problems in adults and elders who present for care in primary care settings. Emphasis is placed on the NP’s role in performing comprehensive health assessment (including ordering and interpretation of appropriate diagnostic tests), diagnostic reasoning (differential diagnosis) and treatment, prescription of pharmacologic and non-pharmacological interventions, and patient education, follow-up, co-management or referral.

Co-requisites: NURS 663P
Pre-requisites: NURS 600 Minimum Grade: C and NURS 601 Minimum Grade: C

NURS 654M – Psychiatric Mental Health Nurse Concepts II  
credits: 3
Focuses on the diagnosis and management of acute and chronic mental health issues. The course will have an emphasis on individual, group and family psychotherapy interventions. Development of therapeutic relationships and interpersonal processes in psychotherapy are examined. Theoretical models for individual and group
psychotherapy are analyzed for their application and presenting issues in therapy situations of patients/clients of varying ages and diagnoses are emphasized. Self-awareness; continuing development of knowledge and skill in assessment, diagnosis, and care formulation; and integration of theories and techniques of psychotherapy for application in one's personal practice are stressed. Strategies in treating chronic mental health disorders are considered. The indications for and selection of appropriate theoretical models, diagnostic strategies, and/or intervention techniques, and issues in treatment situations of patients/clients across the age span are emphasized.  

NURS 654P - PC: Adult/Geriatric II  
credits: 3  
This course focuses on the role of the Nurse Practitioner (NP) in the clinical management of chronic and complex health problems in adults and elders who present for care in primary care and other settings. Emphasis is placed on comprehensive health assessment and treatment (including ordering and interpretation of appropriate diagnostic tests), diagnostic reasoning (differential diagnosis), prescription of pharmacologic and non-pharmacological interventions, and patient education. The course also emphasizes the NP’s role when referring to other health care professionals, community resources, and interdisciplinary teams.  
Co-requisites: NURS 664P  
Pre-requisites: NURS 600 Minimum Grade: C and NURS 601 Minimum Grade: C  
NURS 661M – Psychiatric Mental Health Practicum I  
credits: 1-3  
This clinical course is paired with the didactic course Psychiatric Mental Health Nursing Concepts I. Emphasis is on utilizing the theories, concepts, and skills necessary to assess and diagnose acute and chronic psychiatric disorders and the development of clinical intervention.  
Co-requisites: NURS 652M  
Pre-requisites: NURS 600 Minimum Grade: C and NURS 601 Minimum Grade: C  
NURS 661P - PC: Gender-Based Practicum  
credits: 1-3  
This course is the clinical course paired with the didactic course Primary Care Gender-Based. It is designed to allow Nurse Practitioner students to apply concepts of Advanced Practice Nursing. Students must complete 120 clinical clock hours in an approved clinical setting while supervised by a nurse practitioner, physician, or physician’s assistant (unless in a state that requires the preceptor to be either an MD or a NP). The focus of this clinical experience is on the development of skills in caring for the adult male and female population with health concerns.  
Co-requisites: NURS 651P  
Pre-requisites: NURS 600 Minimum Grade: C and NURS 601 Minimum Grade: C  
NURS 662M – Psychiatric Mental Health Practicum II  
credits: 1-3  
This clinical course is paired with the didactic course Psychiatric Mental Health Nursing Concepts II. Emphasis is on the application of treatment interventions including medication management, individual, group psychotherapy for the adult clients.  
NURS 662P - Primary Care: Infant, Child, Adolescent Practicum  
credits: 1-3  
This course is the clinical course paired with the didactic course Primary Care Infant, Child and Adolescent. It is designed to allow Nurse Practitioner students to apply concepts of Advanced Practice Nursing. Students must complete 120 clinical clock hours in an approved clinical setting while supervised by a nurse practitioner, physician, or physician’s assistant (unless in a state that requires the preceptor to be either an MD or a NP). The focus of this clinical experience is on the development of skills in caring for the population of infant through adolescent with health concerns. Co-requisites: NURS 652P  
Pre-requisites: NURS 600 Minimum Grade: C and NURS 601 Minimum Grade: C  
NURS 663M - Psychiatric Mental Health Practicum III  
credits: 1-4  
This clinical course is paired with the didactic course Psychiatric Mental Health Nursing Concepts III. Emphasis is on the application of treatment interventions including medication management and individual and group psychotherapy for the child/adolescent and elderly client with acute, chronic, and co-occurring disorders. Co-requisites: NURS 654M
Pre-requisites: NURS 652M Minimum Grade: C and NURS 661M Minimum Grade: C
NURS 663P - Primary Care: Adult/Geriatric Practicum I credits: 1-4
This course is the clinical course paired with the didactic course Primary Care Adult/Geriatric I. It is designed to allow Nurse Practitioner students to apply concepts of Advanced Practice Nursing. Students must complete a minimum of 120 clinical clock hours in an approved clinical setting while supervised by a nurse practitioner, physician, or physician's assistant (unless in a state that requires the preceptor to be either a physician or NP). The focus of this clinical experience is on the development of skills in caring for the adult/geriatric population with health concerns in primary care settings. Co-requisites: NURS 653P

Pre-requisites: NURS 600 Minimum Grade: C and NURS 601 Minimum Grade: C
NURS 664P - Primary Care: Adult/Geriatric Practicum II credits: 1-4
This course is the clinical course paired with the didactic course Primary Care Adult/Geriatric II. It is designed to allow Nurse Practitioner students to apply concepts of Advanced Practice Nursing. Students must complete a minimum 120 clinical clock hours in an approved clinical setting while supervised by a nurse practitioner, physician, or physician’s assistant (unless in a state that requires the preceptor to be either a physician or NP). The focus of this clinical experience is on the development of skills in caring for the adult/geriatric population with health concerns in primary care and other settings. Co-requisites: NURS 654P

Pre-requisites: NURS 600 Minimum Grade: C and NURS 601 Minimum Grade: C
NURS 665P ‐ Primary Care: Adult/Geriatric Practicum III credits: 2-3
This course is the clinical course paired with the didactic course Care of the Frail Elder. It is designed to allow Nurse Practitioner students to apply concepts of Advanced Practice Nursing in a long-term care setting while caring for frail older adults. Students must complete a minimum of 120 clinical clock hours (2 credits) in an approved clinical setting while supervised by a nurse practitioner, physician, or physician's assistant (unless in a state that requires the preceptor to be either a physician or NP). The focus of this clinical experience is on the development of skills in caring for the adult/geriatric population with health concerns in primary care settings. Co-requisites: NURS 671

Pre-requisites: NURS 600 Minimum Grade: C and NURS 601 Minimum Grade: C
NURS 670 ‐ Psychopharmacology credits: 3
The course covers the principles and theories of psychopharmacology, the examination of, epigenetics, genetics, neurochemical communication, circuits in psychopharmacology, the effects of various psychotropic drugs, and the actions of drugs used to treat psychiatric disorders. The course examines the actions and use of specific psychotropic medication, required monitoring and the management of behavior and mental illness.

NURS 671 ‐ Care of Frail Elder credits: 3
This course focuses on the clinical management of the elder in primary care. Emphasis is on principles of gerontological care, common syndromes, ethical issues, abuse/neglect, and care options within the long-term care (LTC) continuum. The course includes a clinical application experience in a LTC setting. Co-requisites: NURS 665P

Pre-requisites: NURS 600 Minimum Grade: C and NURS 601 Minimum Grade: C
NURS 672 ‐ Mental Health in Advanced Practice credits: 3
This course is foundational for advanced practice nurses when providing care to patients with common mental health disorders. Content includes neurophysiologic, genomic, environmental, social, and developmental theories to understand the etiology and presentation of common mental health conditions. Psychopharmacological and nonpharmacological principles and modalities for treatment of common mental health problems will be explored.

NURS 683M ‐ Psychiatric Mental Health Practicum Extension credits: 1-3
This course is an independent clinical course. It is not paired with a didactic course. It is designed to allow Psychiatric-Mental Health Nurse Practitioner students to continue to apply concepts of Advanced Practice Nursing in semesters when they are not enrolled in NP specialty didactic courses. Students will complete variable clinical clock hours in approved clinical settings while supervised by a nurse practitioner, physician, or physician’s assistant (unless in a state that requires the preceptor to be either a physician or NP). The focus of this clinical experience is
on the continuing development and refinement of treatment interventions including medication management and individual and group psychotherapy for any population.

Pre-requisites: NURS 661M Minimum Grade: C
NURS 683P - Primary Care Practicum Extension credits: 1-3
This course is an independent clinical course. It is not paired with a didactic course. It is designed to allow Nurse Practitioner students to continue to apply concepts of Advanced Practice Nursing in semesters following completion of the NP specialty didactic courses. Students will complete variable clinical clock hours in approved clinical settings while supervised by a nurse practitioner, physician, or physician’s assistant (unless in a state that requires the preceptor to be either an MD or a NP). The focus of this clinical experience is on the continuing development and refinement of skills in caring for any population with health concerns in primary care or other approved settings.
Pre-requisites: NURS 663P Minimum Grade: C and NURS 662P Minimum Grade: C and (NURS 654P Minimum Grade: C or NURS 651P Minimum Grade: C)
NURS 690 - Special Topics credits: 1-4
Courses designed to address special topics in nursing, based on student and faculty interests.
Restrictions:
NURS 691 - Special Topics credits: 1-3
Topic to be determined by instructor.
NURS 692 - Independent Study credits: 1-4
Independent study requires completion of a form, and department permission and cannot be registered for via ZAGWEB. (Cannot be used to fulfill elective requirement).
NURS 700 - Theoretical Foundations of Nurse Practice credits: 3
This course focuses on examining philosophical and scientific knowledge development in nursing practice and the implications for practice. Emphasis will be on the analysis, critique, and application of nursing middle-range and other related theories to nursing practice.
Pre-requisites: NURS 563 Minimum Grade: C and NURS 708 Minimum Grade: C
NURS 701 - DNP Practicum I: Application of Evidence Based Practice credits: 1-3
This practicum course provides the student an opportunity to work within a practice setting to begin to design his or her scholarly project. The student also begins to establish the expanded advanced nursing DNP role focusing on a population of interest. The student is required to submit an individualized practicum proposal and objectives for the practicum experience.
Co-requisites: NURS 761
Pre-requisites: NURS 700 Minimum Grade: C
NURS 702 - DNP Practicum II: Application of Evidence Based Practice credits: 1-3
The DNP student works with a faculty mentor to begin implementation of his or her scholarly project. The student also establishes the expanded advanced nursing DNP role focusing on a population of interest. The student is required to submit an individualized practicum proposal and objectives for the practicum experience. Co-requisites: NURS 762
Pre-requisites: NURS 701 Minimum Grade: C and NURS 761 Minimum Grade: C
NURS 703 - DNP Practicum III: Application of Evidence Based Practice credits: 1-3
The DNP student continues to work with a faculty mentor to implement his or her scholarly project. This includes analysis of data and drafting a report of the scholarly project. The student is required to submit an individualized practicum proposal and objectives for the practicum experience.
Co-requisites: NURS 763
Pre-requisites: NURS 702 Minimum Grade: C and NURS 762 Minimum Grade: C
NURS 704 - DNP Practicum IV: Application of Evidence Based Practice credits: 1-3
In this final practicum course, the DNP student completes the implementation and evaluation of his or her scholarly project. The student also completes the final written report of the project and disseminates the findings through
preparation of a bound document or a manuscript suitable for a peer-reviewed publication along with an abstract that is submitted for a podium or poster presentation at a major conference. The student is required to submit an individualized practicum proposal and objectives for the practicum experience. Co-requisites: NURS 764

Pre-requisites: NURS 763 Minimum Grade: C and NURS 703 Minimum Grade: C

NURS 705 - DNP Immersion
The on-campus ‘immersion’ must be completed by all DNP students within a semester or two of enrolling in NURS 701 and NURS 761. This course introduces students to Jesuit values and ethical decision-making. Students also learn about the DNP role, expectations, and the importance of crystallizing their ideas for their scholarly projects early in the program. Requirements for completion of an IRB application, guidelines for formation of a Scholarly Project Committee, the proposal and final defense processes, and steps to complete a scholarly project are emphasized. Students are oriented to library databases for distance students and creation of an electronic portfolio. They are introduced to the fundamentals of writing for publication and participate in an interactive session designed to bring focus to their scholarly projects.

Pre-requisites: NURS 700 Minimum Grade: C

NURS 708 - Inferential Statistics
The purpose of this course is to review statistical concepts, such as descriptive statistics, probability distributions (binomial and normal), sampling distributions, inferences (point estimates and confidence intervals), hypotheses testing (one-sample tests, two-sample tests), Analysis of Variance (ANOVA), as well as simple linear regression and multiple regression analysis. The course emphasizes the application of statistical concepts to analyze research for best available evidence to support quality nursing practice. The course also provides students with hands-on experience in using statistical software (Mega Stat) to assist in making effective decisions.

NURS 710 - Population-Focused Care
This course focuses on developing and evaluating health promotion and disease prevention interventions targeting population-based health. The environmental, socioeconomic, and cultural context of health behaviors will be explored. The use of epidemiology and evidence-based research to inform clinical prevention programs and policy solutions for population health disparities are emphasized.

NURS 720 - Evidence Synthesis for Practice
This course emphasizes how to create answerable questions relevant to the role of Doctor of Nursing Practice (DNP) to address specific patient/client problems or situations and critically appraise types of data generated through research in both qualitative and quantitative traditions. The focus is on evaluating the adequacy of research questions, methodologies, and the presentation of findings. The DNP will be prepared to use epidemiological data to identify the causes of disease and to evaluate health services. In addition, the course emphasizes an examination of knowledge transformation, including the systematic search for research evidence to answer research questions and the synthesis of evidence for knowledge translation across a body of research.

NURS 730 - Clinical Program Development, Implementation, and Evaluation
This course emphasizes the steps involved in the development of a business plan for creation of a new clinical service or program or a clinical practice. Students will learn about conducting a needs assessment, developing mission and values statements, creating the program design, conducting a financial analysis, and designing evaluation strategies and measures.

NURS 740 - Quality Improvement, Information Management, and Leadership in Health Care
This course emphasizes strategic planning and management, systems and organizational theories, quality improvement, and information management. It acquaints students with the process, tools and techniques of strategic planning that will enable them to manage patient populations and to contribute effectively to strategic thinking and action in health systems. The course focuses on leadership and the process of health care delivery from a systems perspective, emphasizing continuous process improvement as crucial to achieving high quality outcomes.

NURS 750 - Health Policy and Advocacy
This course focuses on the leadership role of the DNP in influencing health policy makers and health policy development emphasizing interprofessional collaboration. The effect of nursing scholarship on health policy and
advocacy will be explored. The regulatory and ethical environments that impact DNP practice are examined considering Ignatian values and social justice principles. Strategies for designing and leading the implementation of public, professional, and institutional polices relating to local, regional, national, and international health care and its delivery are considered.

NURS 761 - Integrated Applications of Evidence Seminar I
This is the first of a series of four seminars that provide the DNP student with mentored opportunities to identify a practice issue and develop, implement, evaluate, and disseminate an independent, analytic, scholarly project focusing on problems of advanced nursing practice within specific populations. Each seminar course builds on the knowledge and practice expertise of the DNP student, culminating in the completion of a scholarly project. The range of projects will be varied as they relate to the DNP student's unique area of nursing, e.g., quality improvement, analyzing policy, designing and using databases, designing and evaluating new models of care, collaboration with researchers to answer clinical questions, program development, implementation, and evaluation. The student also examines the DNP role in relation to clinical scholarship and leadership. Co-requisites: NURS 701
Pre-requisites: NURS 700 Minimum Grade: C

NURS 762 - Integrated Applications of Evidence Seminar II
The DNP student refines the design of his or her scholarly project, including the data collection and evaluation plans. Students must successfully complete an oral defense of the planned project prior to beginning implementation. Co-requisites: NURS 702
Pre-requisites: NURS 701 Minimum Grade: C and NURS 761 Minimum Grade: C

NURS 763 - Integrated Applications of Evidence Seminar III
The DNP student continues to refine the evidence-based scholarly project specific to a population of interest within a practice setting.
Co-requisites: NURS 703
Pre-requisites: NURS 702 Minimum Grade: C and NURS 762 Minimum Grade: C

NURS 764 - Integrated Applications of Evidence Seminar IV
In this final seminar course, the student will present the final defense of his or her scholarly project through an oral presentation that addresses the topic of interest, the development and implementation of the project, how it addressed the needs of a selected population, and an evaluation of the project and outcomes. Students will apply knowledge and skills obtained in the didactic and integrative courses to address the ethical, legal, financial and organizational aspects of the scholarly project. Co-requisites: NURS 704
Pre-requisites: NURS 703 Minimum Grade: C and NURS 763 Minimum Grade: C

NURS 790 - Special Topics
Courses designed to address special topics in nursing, based on student and faculty interests. NURS 792
- Independent Study credits: 1-4
Independent study requires completion of a form, and department permission and cannot be registered for via ZAGWEB. (Cannot be used to fulfill elective requirement).

School of Professional Studies

Interim Dean: Joseph Albert

Mission

The School of Professional Studies strives to create, educate, and support leaders; contribute to the health of people, communities, and organizations; and to be of service in meeting the learning needs of a complex society.
Our programs embody the University’s Mission and the Ignatian spirit on which Gonzaga University is founded. Ethics, excellence, spirit, and community are guiding values for all aspects of the School. Faculty scholarship and research contribute positively to the professions, the global community, and the classroom.

Through a spirit of inquiry and lifelong learning, our students expand their capacity to transform thinking, and engage in ethical problem solving and decision making. New knowledge is acquired in a learning environment of respect and high standards.

Degree Programs in the School of Professional Studies

- Doctoral Program in Leadership Studies (Ph.D.)
- M.A. Communication and Leadership Studies
- M.A. Organizational Leadership

Master of Arts in Communication and Leadership Studies

Chairperson: Michael Hazel Professor: J. Caputo
Associate Professor: H. Crandall, M. Hazel
Assistant Professors: C. Cunningham, P. Shlossberg

The Master of Arts in Communication and Leadership Studies is designed to provide graduate-level expertise for solving communication problems in modern organizations and social systems from a communication and leadership perspective, and prepare effective, ethical communicators who use critical thinking for positive local and global change. By their very nature, organizations depend upon complex formal and informal communication functions for effective operation in increasingly technologically based, communication networks. What distinguishes the 21st century from the 20th is the unprecedented degree to which communication and information technology enable creation of active networks linking individuals, functions and organizations. The program is grounded in scientific and humanistic theory and methodology, global communication and ethics, and is relevant for those seeking leadership in corporate communications, public relations, media management, media criticism, human resources, marketing, strategic planners, training and consulting, media literacy, community college teaching or Ph.D. work in communication.

The degree builds upon the historic tradition of rhetoric as the cornerstone of a Jesuit education and lays the groundwork for high leverage knowledge and skills in communication and leadership in today’s complex world. This program combines relevant theories and experiential learning applicable to the latest workplace developments.
The Communication and Leadership Studies master’s degree is designed to meet the needs and schedules of working adults as well as continuing students from undergraduate programs. Flexible scheduling, evening, and Internet courses are offered. The program consists of 30 credits. One residency course, COML 599, is required.

Distinctive features of the M.A. in Communication and Leadership Studies are: a unique blend of communication and leadership theory, the Center for Media Literacy Excellence, a range of visiting scholars and professionals who visit to discuss cutting-edge work in communication and leadership, intensive periods where workshops are held to develop practical communication skills in speaking, writing and multi-media design, internship and service-learning possibilities for students who need practical experience, and possible foreign study for students to gain global media and communication experience.

Admissions

Each applicant must submit a complete packet containing the following materials to the Department of Communication and Leadership Studies:

1) A completed application form (see appendix for inquiry form) and a non-refundable fee.
2) A written statement from the applicant which:
   a) describes the applicant’s own interest in the Communication and Leadership Studies degree.
   b) assesses the applicant’s strengths and describes the applicant hopes to gain from a graduate degree.
3) Two letters of recommendation from faculty in the undergraduate major, which evaluate the applicant’s ability and capacity to complete a graduate degree.
4) Official transcripts from each college and university attended (international applicants must submit foreign transcripts in the original language and an English copy). Only degrees and courses from a regionally accredited institution will be accepted.
5) The official score from the GRE general aptitude test or the Miller Analogies Test, a requirement which can be waived if the applicant has an advanced degree.
6) Submission of an official TOEFL score of at least 550 by each international applicant who has graduated from a foreign college or university and whose native language is not English.
7) Submission of a financial declaration and supporting documentation by each international applicant.

Prerequisite

A bachelor’s degree from an accredited college or university is required.

Program Outline: 30 credits

12 credits in Theory and Practice Courses
12 credits in Communication/Leadership Electives
6 credits in Research and Thesis/Project Capstone

Core Courses (18 credits required)
COML 595 Theorizing Communication 3 credits
COML 596  Masters Level Writing  0 credits
COML 597  Communication and Leadership Ethics  3 credits
COML 598  International and Intercultural Communication  3 credits
COML 599  Communication Practicum  3 credits
COML 601  Applied Communication Research  3 credits
COML 602  Communication and Leadership Capstone Seminar (content specific to chosen concentration)  3 credits

Strategic and Organizational Communication concentration
COML 504  Organizational Communication  3 credits Two of the following four courses:
6 credits
  COML 509 Social Dynamics of Communication and Technology  COML 511 Seminar in Communication Consulting and Training
  COML 512 Seminar in Strategic and Corporate Communication  COML 515 Seminar in Interpersonal and Small Group Communications

International/Intercultural Communication concentration
One of the following two courses:  3 credits
  COML 509  Travel Writing
  COML 515 Interpersonal and Small Group Communications
Two of the following three Cultural Immersion courses:  6 credits
  (offered in Italy)
  COML 524  Communication and Culture
  COML 600  Multi-Media Practicum
  COML 513  Advanced Topics in Communication: International Media and Culture

College Teaching of Communication concentration
COML 510  Communication Teaching and Pedagogy  3 credits
COML 520  Internship  3 credits
Two of the following courses:  6 credits
  COML 509  Social Dynamics of Communication Technology
  COML 514  Advanced Criticism
  COML 515  Interpersonal and Small Group Communication
  COML 516  Media Literacy
  COML  Study Abroad Courses

COML 500 - Organizational Leadership  credits: 3
An introduction to organizational leadership begins with an examination of these questions: How do leaders explain the causes of dysfunctional thinking and/or behavior in themselves, other leaders, or in organizations? How do they understand the differences among a variety of styles of leadership and organizational models? How do they apply
the theories of leadership and the principles of organizational behavior to actual situations? How do they formulate a broad, integrative perspective from which to view leadership and organizational behavior? Drawing from the social science, this integrated course focuses on research and models of leadership relevant to defining and achieving collective goals in a variety of organizational settings.

Equivalents: ORGL 500

COML 501 - Communication and Organizational Research credits: 3

Students will learn and develop competencies in the knowledge and skills necessary to understand and/or engage in primary research. Students will learn: how to identify, select, and review academic studies relevant to a research topic; how to generate research questions by refining and distilling a research topic; and how to develop a methodological design that identifies and explains the research method to answer research questions. For students in the COML program, this course serves as a critical building block for the capstone COML 680 Thesis/Project course.

Equivalents: ORGL 501

COML 503 - Communication and Organizational Ethics credits: 3

This course will examine ethical dilemmas of communication and leadership within the context of moral choices and implications of decision-making. Course readings and case study analysis will prepare students to function ethically in personal, social, political, and professional spheres. Defining and analyzing personal values and worldviews in online postings will help students identify and clarify personal motivations, behaviors, and reactions to ethical problems. Students will integrate and apply ethical principles to logically identify, develop, and evaluate solutions to real-world ethical problems. Equivalents: ORGL 503

COML 504 - Organizational Communication credits: 3

All organizations from Microsoft, to churches, to social clubs, and universities rely on communication. Being able to communicate strategically is crucial to meaningful participation. This course will explore contemporary concepts about the meanings and functions of communication in organizations. Organizational communication encompasses not only communication within businesses, but also within large private or nonprofit associations, larger community groups, and governments both large and small. We will cover selected topics in organizational communication research such as culture, socialization, systems theory, communication and technology, and globalization.

Equivalents: ORGL 504

COML 506 - International and Intercultural Communication credits: 3

Who we are - whether we are comfortable with this idea or not - is shaped in part by the social roles we occupy and how society sees us in those roles. As we will see from the very beginning of this class, our social roles, the class we are born into, and our gender all have implications for our lives. We will explore intercultural communication as a tool for bridging differences and learning about identities, practices, and cultures.

Equivalents: ORGL 506

COML 508 - Theorizing Communication credits: 3

As an introduction to the field of communication, this course investigates major theories of communication, emphasizing theorizing as a process of constructing visions of reality. Critical analysis of the underlying assumptions of theoretical models of communication will help to frame your understanding of communication into a philosophical and ethical statement. Co-requisites: COML 518

COML 509 - Social Dynamics of Communication and Technology credits: 3

This course will explore, examine, and analyze the ways in which communication technology influences our shared fundamental assumptions about the nature of communication, and the manner in which we interact with one another on a daily basis, as well as our socially shared values, beliefs, and attitudes. Equivalents: ORGL 509

COML 510 – Communication Teaching and Pedagogy credits: 3

This course is designed for people considering a career as a communication educator at the college level. The goals for this class have three interrelated dimensions; (a) cognitive learning, (b) affective orientation; and (c) behavioral development. Students will develop curriculum, learn teaching strategies, develop goals and assessment, observe college classroom environments, and build a teaching portfolio.
COML 511 - Seminar in Communication Consulting and Training  
In a global economy, it is increasingly important to have the training and consulting skills that will allow you to interact effectively with many different cultures. Understanding and creating new media programs is vital to you and your organization's success. This course will explore the unique application of communication skills and models for training and consulting. There will be practice in consulting in a variety of settings, developing resources, marketing, workshop development, training, skill building, and evaluation.

COML 512 - Seminar in Strategic and Corporate Communication  
Gone are the days when organizations can afford to just wait it out while their competition moves ahead. Whether a student leads or works for an organization, or is in charge of strategic planning or communication, it is critical to understand how to develop, implement and evaluate effective integrated communication plans. New ideas, trends, issues, projects, and services in our workplaces are all opportunities to plan, strategize and communicate with the many stakeholders. Students learn from real-life examples as well as their colleagues to fully understand and implement campaigns, media relations strategies, and social media tactics.

COML 513 - Seminar in Advanced Topics in Communication  
This seminar explores cutting-edge technologies, theory, and issues. The specific theme of this course varies each time it is offered because communication is constantly evolving.

COML 514 - Seminar in Advanced Criticism  
The study of criticism begins with the understanding that as human beings we use language and other symbols to shape the world in which we live. Rhetorical theory allows us to begin to understand how symbols function. Rhetorical criticism is one of the processes through which we assess specific symbolic acts. Students will explore and apply several different methods including how to describe primary rhetorical acts or texts (including speeches, films, news coverage, television programs, songs, and advertisements, among others) in rich, relevant detail, how to situate or make sense of rhetorical acts or texts within their historical, cultural moments; and how to use theory to develop a rhetorical perspective that will help render a judgment about a text or act.

COML 515 - Seminar in Interpersonal and Small Group Communication  
This course will enhance your ability to assess an interpersonal or small-group communication event and its context (a 'context' can be familial, business, church, school-related, and so on). Students will learn to choose among relevant theoretical perspectives in order to understand and improve interpersonal and small-group communication within specific social contexts. The course is designed to encourage students to explore the communication dynamics that create group situations (and the ethical dimensions of these situations), and to explore specific communication actions that can lead to positive social change.

COML 516 - Seminar in Media Literacy  
Despite our awareness that we live in an age of communication, we are often unaware of how we contribute, define, make, use and are used by various forms of communication media. Communication in our society takes place in many forms, including mass electronic media, telecommunications, transportation, publishing and even our educational system. This course examines the implications of several forms of communication for how we live and what we believe, including the impact of mass media on modern societies, conflicting social interests and the needs of different groups in society, the formation of public opinion, and the diffusion of innovations. Attention will be directed throughout the course to the processes of developing action plans for communication that incorporates principles of media literacy.

COML 517 - Communication Practicum  
This course is grounded in the principle that the best learning is experiential, and occurs in the context of a community. This practicum is designed to merge theory and praxis, providing practical application of communication knowledge and action with a focus on public speaking, group processes writing, and multi-media products. Students will work to create a website/blog of a community profile that includes speaking, writing, and multi-media components.

COML 518 - Master’s Level Writing  
credit: 0
This course is designed to introduce students to the genre of academic writing in the discipline of communication. It is designed to both assess and improve a student’s writing skills while serving as a resource for graduate students who are apprehensive about their writing skills or who need to brush up on writing competencies. Co-requisites: COML 508

COML 520 - Communication Leadership Internship credits: 1-6
Students will complete an approximately 240-hour internship under the supervision of a communication professor at a local college or university for one semester or quarter. The internship includes the development of a portfolio and evaluations from internship supervisors. Students are responsible for arranging the internship.

COML 521 - Travel Writing credits: 3
This course is designed to improve your ability to write a narrative from stories about travel. The genre ranges from the documentary to the evocative, from literary to journalistic, and from humorous to serious. This course will show you how to put your camera aside (temporarily) and engage your experiences more deeply in both strange and familiar places close to home. Text exercises will help you develop the basic storytelling and descriptive skills this genre requires. Selected current readings will serve as examples of good writing.

COML 522 - Renaissance Rhetoric and Contemporary Leadership credits: 3.00
This course examines rhetoric, written, oral, and visual to understand the humanistic movement of the Italian Renaissance and the role it continues to play in contemporary leadership. Through readings, discussions, and on-site visits to historical settings in Rome, Florence, and Siena, we will formulate and explore the critical questions necessary to bring these ideas to our contemporary world. This course will be offered every summer.

COML 523 - Peacebuilding in North Ireland credits: 3.00
Dialogue requires responsiveness that is made possible by qualities of thought and talk allowing transformation to take place: transformation in how people understand the self, the other, and the societies they inhabit. The course will reflect on the causes and history of The Troubles (1969-1998) as well as the tortuous peace; process following the Belfast Agreement in 1998. Local peacebuilding through dialogue is central to understanding how peace has been maintained.

COML 595 - Theorizing Communication credits: 3.00
As an introduction to the field of communication, this course investigates major theories of communication, emphasizing theorizing as a process of constructing visions of reality. Critical analysis of the underlying assumptions of theoretical models of communication will help to frame your understanding of communication into a philosophical and ethical statement.

COML 596 - Master’s Level Writing credits: 0
This course is a resource for graduate students who are apprehensive about their writing skills or who need to brush up on writing competencies. It is designed to both assess a student’s writing skills and improve them if need be. It is also designed to introduce graduate students to the genre of academic writing in the discipline of communication.

COML 597 - Communication Ethics credits: 3.00
Inquiry into the philosophic foundations of interpersonal relations and values in multiple contexts with emphasis on applications of ethical systems to the responsibilities of people in organizations toward society and individuals.

COML 598 - International and Intercultural Communication credits: 3.00
Identification and analysis of processes and problems of communication as affected by differences in culture and identity. It explores effects of differences in attitudes, social organization, role expectations, language and nonverbal behavior, all of which are interrelated. Principles of communication theory as they apply to the intercultural context are also emphasized.

COML 599 - Communication Practicum credits: 3.00
This residential practicum is designed to merge theory and praxis and provide practical application of communication knowledge and action with a focus on public speaking, group processes, writing, and multi-media products.
COML 600 - Multi-Media Practicum  credits: 3.00  COML 601 - Applied Communication Research  credits: 3.00
Through engagement with primary research and exposure to current methodologies and the inquiry process, this course requires the development of a research proposal (e.g. literature review, rationale for the proposed questions, formal research questions and/or hypotheses, and proposed method description.) The course is designed to be paired with the capstone course so that the work defined in the proposal can be completed in the capstone course.

COML 602 - Communication and Leadership Capstone Seminar  credits: 3.00
Candidates for the master's degree in communication and leadership will complete a modified thesis or project under the guidance of a professor and/or mentor. The student will complete an original research study or applied project. The completed and accepted thesis/project will be presented in a public forum. Prerequisite: COML 601 and 24 graduate credits.

COML 611 - Seminar Continuation  credit: 1
COML 680 - Communication and Leadership Seminar/Thesis  credits: 3
In this integrative capstone course students will complete a thesis or project on a communication topic. Under the guidance of a professor and a mentor, the student will complete an original research study or applied project to be presented in a public forum.
Equivalents: ORGL 680
Pre-requisites: 30 credits and (COML 501 or ORGL 501)

COML 690 - Directed Study  credits: 1-3
Arranged with faculty.

Doctor of Philosophy in Leadership Studies

Chairperson: JoAnn Danelo Barbour  Professors:
J.D. Barbour, S. Ferch
Associate Professors: C. Francovich, S. Wilson (Emerita)
Assistant Professor: K. Gambrell

The Doctor of Philosophy in Leadership Studies is based on the Jesuit tradition of educating the whole person. The program is designed for working professionals across a wide range of professions such as, education, health care, social services, theology, engineering, government, law enforcement, and business. The program is interdisciplinary and designed to develop scholarship and professional competencies while encouraging self-reflection and strengthening a commitment of service to others.

The program can be completed in as few as three and one half years by students who can attend full time and year-round, or in four to seven years by students who can attend part-time or during summers. Courses are conducted at convenient times (evenings, weekends, and summers).

The doctoral program centers on three dimensions of leadership:

1. The leader as person.
2. The leader in organizational systems. 3. The leader in global systems.
Each dimension emphasizes the nature of change and the development of human capacities for life that are healthy and sustainable. Principles of research designed to honor humanity are threaded throughout the program and provide Doctoral students a structured way of thinking and coming to understand leadership from these three dimensions.

Because the use of computers is integrated into many courses, students need to have access to e-mail and have a general familiarity with navigating the web (or the world-wide web). For the most current information, as well as the conceptual framework detailing the theoretical foundation of the program, please consult the doctoral program website (http://www.gonzaga.edu/doctoral).

Mission of the Doctoral Program

The mission of the Doctoral Program in Leadership Studies is to educate scholars and leaders who possess conceptual and theoretical knowledge and professional and practical competencies for use in both scholarly and leadership roles that serve and engage others creatively, meaningfully, and purposefully for the greater good.

Values of the Doctoral Program

Based on the Jesuit tradition of educating the whole person, the Doctoral Program in Leadership Studies creates a space where critical thought and moral conviction meet the questions of humanity. We believe that leadership is based on a deep understanding of the self and of the core values that drive one’s actions. Effective leadership requires self-development with meaning, dignity, and purpose, so that we, in turn, help others to flourish with meaning, dignity and purpose. Because we believe that effective leaders need to develop the critical imagination required to embrace individual, organizational, and global change from a stance of hope and courage, we designed a leadership studies curriculum that supports the mission with a focus on three interrelated perspectives: Scholarly, Conceptual, and Professional. Each perspective is threaded through the curriculum, and is expressed through three specific leadership dimensions, also threaded through the curriculum: the leader as person, the leader in organizational systems, and the leader in global, social systems. Each dimension emphasizes the nature of change and the development of human capacities for life that are healthy and sustainable.

Graduates of the Doctoral Program

Graduates of the doctoral program often go into three areas post-graduation. 1.) Higher Education: They want to teach in higher education (leadership studies) primarily at the college undergraduate level; or they will teach at the community college level in their Masters’ Degree specialization. Some go into higher education administration, often student development. 2.) They will take their knowledge back to their organizations (who often have supported the doctoral student with developmental leaves) and work at an advanced level to grow their organizations. 3.) Many want to use their research as consultants, and will begin consulting in the areas of organizational leadership or personal leadership.
Admissions

Prior to filing an application to the program, it is advisable to secure an appointment for a conversation with the program chairperson. (This conversation can be conducted by phone for individuals who reside outside the geographic area). During this conversation, potential applicants will be counseled on factors they need to carefully consider before considering an application to the program, issues to be considered regarding program fit, the relationship between their career goals and the Gonzaga doctoral program, and their likelihood for meeting the application requirements.

Requirements:

1) A master’s degree (or its equivalent) with a minimum 3.50 GPA.
2) A minimum of two years of professional experience.
3) A minimum score of 50th percentile on either the Graduate Record Examination (GRE) or the Miller Analogies Test (MAT).
4) Letters of recommendation from sources knowledgeable about the applicant’s skills. Admission is based on a review of a total profile with careful attention to the fit between the needs of the applicant and the mission of the program. Additional factors taken into consideration include motivation, character, commitment to social justice, and writing ability.

Applicants can download the application materials from the doctoral website (http://www.gonzaga.edu/doctoral) or obtain an application packet from the Coordinator of Student Support. Each applicant must submit to the doctoral program a completed application packet to include the following materials:

1) A completed application form (see doctoral website or Coordinator of Student Support) and non-refundable fee.
2) A written statement of purpose that includes the reasons for why the applicant is seeking a Doctorate in Leadership Studies as well as a description of critical issues of concern to the applicant. The statement must be typed and is limited to 500 words.
3) A minimum of three recommendations using the Confidential Recommendation form (see website or Doctoral Program Coordinator). References must be selected from among supervisors, instructors, and colleagues who have worked with the applicant during the past five years. Two recommendations should come from the area of work experience and at least one from the applicant’s academic experience.
4) A resume that includes information about formal education, professional experience, academic achievements and honors, scholarly activity, and relevant non-professional experience.
5) Two official transcripts from each college or university attended (international applicants must submit foreign transcripts in the original language and an English copy). Only degrees and courses from a regionally accredited institution will be accepted.
6) Official score from either the Graduate Record Examination (GRE) or the Miller Analogies Test (MAT) taken within five years of the date of application.
7) Submission of an official TOEFL score of at least 550 by each international applicant who graduated from a foreign college or university and whose native language is not English.
8) A financial declaration and supporting documentation by each international applicant.

Applications are reviewed by the doctoral faculty throughout the year. Applicants are notified of decisions within 45 days of the submission of a completed application.
**Provisional Admission**

If a careful review of an applicant’s portfolio suggests a strong possibility of success in the program despite weaknesses in one or more areas, the doctoral faculty may grant provisional admission to the program. Students admitted provisionally are not eligible for financial assistance. A letter offering provisional admission will state the conditions that must be satisfied before the admission status will be changed to regular admission (at which time the student may apply for financial assistance). Students who are admitted provisionally will not be allowed to enroll in courses beyond one semester unless their admission status has been changed to regular admission. The decision to convert a provisional admission to regular admission is made by the doctoral program faculty.

**General Academic Information**

**Time Requirements for the Degree**

Consistent with doctoral program policy, students are to complete the doctoral degree within seven years of the first day of the semester in which a student first enrolls in a doctoral program class. To assure this timeline is met students are advised to gain candidacy status as early as possible. In the event of extraordinary circumstances, a student may petition for additional time to complete the degree. The doctoral faculty will consider this petition; and make its recommendation to the Dean of the School of Professional Studies who will make the final decision.

**Advancement to Candidacy**

Advancement to candidacy is a critical part of the program and is designed to provide an opportunity to reaffirm the appropriateness of the program relative to the needs and abilities of the students. Upon successful completion of the core courses (Leadership Theory, Organizational Theory, Global Issues and Policy Analysis, and Principles of Research) each student should see his or her pre-candidacy advisor to review the policies and procedures regarding candidacy. To protect the interests of students who may not be advanced to candidacy, students must apply for candidacy before completing 22 credits and must complete the process by 28 credits or they will be blocked from taking classes. More specific information about advancement to candidacy is available on the doctoral homepage.

The method of achieving candidacy is the written response to a specified question or topic that is determined jointly by the student and his or her pre-candidacy advisor. The candidacy topic is to align with the core curriculum framework. One or more of the program dimensions (personal, organizational, or global systems) provides the conceptual framework for the paper. The paper must be of the quality acceptable for publication in a peer-reviewed journal. We encourage candidates to submit papers to journals for review; although advancement to candidacy is not contingent upon the paper being accepted. Journals to be used as reference points are selected by each student and approved by the pre-candidacy advisor.

Once the topic has been designated, the student has up to four months to submit two copies of the paper to the pre-candidacy advisor. The pre-candidacy advisor and one other doctoral faculty member will review the paper. The decision to award candidacy is based on (a) the student’s demonstration of
competence in conceptualizing significant and complex theoretical subject matter, and (b) the student’s abilities to write with coherence, relevance, appropriate mechanics, scholarly tone, and veracity. If the candidacy paper is found to be unacceptable, the student will be asked to rewrite the paper and resubmit it, according to departmental guidelines. Failure to pass a third attempt at writing this paper will result in the student’s separation from the program. The student will receive a written notice of advancement or non-advancement to candidacy.

Transfer Credit

Although it is presumed that all work for the doctorate will be completed at Gonzaga University, the doctoral program may accept up to 12 credit hours from another college or university for coursework in which a grade of “B” or higher was awarded. Transfer credits are not rounded up. The acceptance of transfer credits requires the recommendation of the doctoral program chairperson. No course for which a grade less than “B” has been awarded may be accepted in transfer, and transfer credits are not entered onto a student’s transcript until the student is advanced to doctoral candidacy.

The limitations on transfer credit for the doctoral program are as follows:

1. Work to be transferred must clearly be doctoral-level coursework as defined by the granting institution.
2. Coursework must have been completed while the individual was accepted in a doctoral program accredited by a regional accrediting agency.
3. Coursework must have been completed within five years prior to the date of acceptance into the doctoral program at Gonzaga University.
4. Courses may not be transferred for the four core courses (DPLS 700, DPLS 701, DPLS 703, & DPLS 720), or Proposal Seminar (DPLS 730).
5. Transfer of other required courses will require faculty approval.
6. Transfer credits will be applied to the elective 18 credits (which include individualized study credits).
7. Coursework to be transferred must fit the mission of the doctoral program.

After an initial conference with a student or potential student who wishes to transfer credit, the program chairperson will send a letter (with a copy placed in the student’s file) informing him or her as to what credits will be accepted and what stipulations, if any, have been made.

Pass/Fail Option

Doctoral students may opt either for a letter grade or for a pass/fail option in each course. Students wishing to explore this option should consult their advisor. The student is responsible for filing a pass/fail petition with the Registrar prior to the published deadline. A pass/fail request is considered a private matter between the student and the Registrar. If this request is filed, the Registrar will substitute a “P” or an “F” in place of the assigned grade. A “P” will be recorded for an assigned grade of B or higher, while an “F” will be recorded for an assigned grade of B- or lower. The decision to put a course on a pass/fail basis is irrevocable, and once made cannot be changed for any reason.

Individualized Study
Students may undertake individualized study to acquire more advanced knowledge in an area or to pursue topics not currently covered in regularly scheduled classes. Application for individualized study must be made on a form available online. It is the responsibility of the student to demonstrate the relevancy of the proposed study and to negotiate the course content and timelines with a qualified instructor. A maximum of 12 credits of individualized study is permitted.

**Internship/Mentorship**

Students enrolled in the doctoral program may complete an internship/field experience or mentorship as an elective by registering for one to three hours of DPLS 766. For internship or mentorship credit, students must submit a proposal at the beginning of the course and attach it to the “Application for Individualized Study” form marked for DPLS 766. A report or project must be submitted at the end of the internship/mentorship to complete the course. For internship credit, the proposal may be to gain experience in another work setting or to complete a work project that will require the application of DPLS coursework. For mentorship credit, the proposal should describe the purpose of the mentorship, identify the mentor, and explain how the mentorship will enhance leadership abilities in the personal, organizational, or global dimensions. In both cases, the proposal should show that the student will be challenged in some way and explain how it will be related to their DPLS coursework. Proposals must be submitted to the instructor who will be the “professor of record”. At the end of the internship/mentorship, the student will submit a report and/or products developed as a result of the experience to the “professor of record.” The grading mode for this course is Satisfactory/Non-satisfactory. A maximum of three credits of internship/mentorship is permitted.

**Advanced Credits**

Credit for doctoral-level courses completed at Gonzaga University prior to admission of a student to regular status may be accepted by the doctoral program upon recommendation of the program chairperson as credits toward a degree. Such credits are termed “advanced credits” and are normally limited in number to 12 credits.

**Residence**

Residence is defined as work taken in a recognized Gonzaga graduate program. In the doctoral program, the matriculation policy is defined as three out of four consecutive semesters of study on campus upon admission to the doctoral program. For students who are admitted to the doctoral program with the intent to attend summers only, the continuity of matriculation requirement may be satisfied by attending three out of four consecutive summer sessions upon being admitted to the program.

Students enrolled in the doctoral program in the School of Professional Studies will have satisfied all continuity of matriculation requirements for the doctoral degree when they have completed three out of four consecutive semesters of graduate study earning a minimum of six (6) credit hours per semester.

It is the student’s responsibility to adhere to the tenets of the continuity of matriculation policy, with the student’s temporary and permanent advisor(s) monitoring the compliance process from the date of admission to the completion of the doctoral program. Any deviation from this policy must be entered as a
formal request for a “Leave of Absence.” The formal request for a leave of absence must be submitted by
the student and approved by the temporary or permanent advisor and the program chairperson in the
semester prior to the semester in which the leave will take effect.

Doctoral Advisors and Committee Members

A pre-candidacy advisor is assigned to each student at the time of admission to the program. Advisor’s
responsibilities are to assist the student in making program decisions and to facilitate the student through
the candidacy process. Once students have been advanced to candidacy, they select a dissertation
chairperson; and, before the defense of the proposal, with their dissertation chairperson select two or
more additional dissertation committee members. Students who are not making timely progress on their
proposal or dissertation, and/or have had little or no contact with their dissertation chairperson for a
semester or more should expect to confirm whether the individual is still available to work with them.

It is expected that the chairperson of the committee and at least one of the remaining committee
members will be selected from among the core faculty of the doctoral program. A student may petition to
1) have a core faculty member of the program as the chairperson of the committee and all other
committee members from outside the program or 2) have the chairperson of the committee from outside
the program and at least two of the remaining members from the program. Given the importance of the
committee chairperson in facilitating the student’s completion of the dissertation, chairpersons selected
from outside the core faculty must be prepared to work closely with committee members from the
program and invest sufficient time to fully understand the unique requirements of the Gonzaga Doctoral
Program. Any exceptions to the expected committee configuration should be carefully discussed with the
advisor before individuals from outside the program are approached about participation on the
committee. Written approval of the entire core doctoral faculty is required for any exceptions.

Admission to Proposal Seminar

The purpose of DPLS 730: Proposal Seminar is to craft the structure of the student’s dissertation. Before
students can enroll in DPLS 730 they must have achieved candidacy and have completed or be enrolled in
DPLS 722 and DPLS 723. In addition, enrollment in DPLS 730 requires a written petition to the doctoral
faculty, submitted through a student’s dissertation chairperson at least 60 days before enrolling in the
class. (Specifications for the petition are available on the doctoral program Website, from the doctoral
faculty, or from the Coordinator of Student Support.) Students who anticipate taking DPLS 730 should
discuss timing with their dissertation committee chairperson. Ideally, students should be able to defend
the dissertation proposal soon after taking this course.

Doctoral Dissertation

A scholarly research study must be completed by each student under the guidance of a dissertation
committee. The dissertation process in the Gonzaga Doctoral Program includes a formal defense of the
dissertation proposal (defined as the first three chapters of the dissertation). The dissertation committee
will also review and approve the final copy of the dissertation, which then must be filed with the
appropriate administrative office for final approval and acceptance by the University. Specific
arrangements should be made with the doctoral program for microfilming and binding of the dissertation.
Detailed dissertation procedures can be obtained from the Coordinator of Student Support or dissertation chairperson.

Certificate in Advanced Leadership Studies

A general plan of study based on the objectives of the student is developed with the chair of the doctoral program before the student is admitted into the certificate program. Students are required to take Leadership Theory (DPLS 700) and Organizational Theory (DPLS 701), as well as additional courses relevant to their needs. General expectations include that a student will participate for two years, take classes during the fall, spring, and summer terms, and enroll in a minimum of 18 credits. Students can start any term. There is also a “summer’s only” option that allows students to enroll in 18 credits over a four calendar year period. Students in the certificate program will be considered non-degree seeking and will not be eligible for student loans or graduate assistantships. For participation in this program:

1. Applicants must have completed a master’s degree (or its equivalent) with a minimum 3.50 GPA.
2. Submit an application form to the Doctoral program in Leadership Studies.
3. Provide the official transcript for the highest degree they have completed.
4. Submit one letter of recommendation.
5. Submit a personal statement of not more than 500 words detailing the student’s interest in obtaining the certificate.

Additional Considerations

Students that start the certificate program are eligible to change their educational objective and move into the doctoral program upon completing the doctoral admission process. Once the certificate is granted it cannot be revoked, therefore students interested in pursuing the Ph.D. are encouraged to make that decision prior to completing more than 12 credits in the certificate program. Students that complete the certificate program and then choose to move forward into the doctoral program are allowed to transfer a maximum of 12 credits into the doctoral program, and will take 48 additional doctoral credits to meet the 60-credit degree requirement.

Courses taken more than five years previous will not be accepted into the doctoral program. Students enroll in regular doctoral classes, complete the same assignments, pay regular doctoral tuition, and receive a Gonzaga University transcript. Students must maintain good academic standing for the entire 18 credits of the certificate program. After completing 18 credits and based on the recommendation of the faculty of the doctoral program, Gonzaga University will grant students a certificate in Advanced Leadership Studies.
Participation in the certificate program is limited to six (6) students a year. This limitation is necessary because certificate students take regular classes and doctoral classes are limited to 15 or fewer students.

DPLS 700 - Leadership Theory
The major goal of this course is to gain understanding in the concept of leadership historically, philosophically, psychologically, and morally, and to test these understandings against one's own values and experiences. Emphasis will be placed on the nature and role of leadership in understanding and interpreting the self, subjectivity and interpersonal interactions.

DPLS 701 - Organizational Theory
Emphasis on modernist and postmodernist organizational theory, examining organizations as the nexus of psychological, sociological, and biological phenomena. Organizations are explored through the frames of power, environmental and symbolic structures, human agency, and ethics. Students will also read in classical organizational theory as well.

DPLS 703 - Global Issues and Policy Analysis
This course is designed to provide students with a solid understanding of the concepts linking leadership to global and social systems with special attention to the role of policy analysis as a critical connection between leadership and systems.

DPLS 705 - Leadership and Social Justice
Examines issues of leadership and social justice beginning with an understanding of social justice, its theories, principles, tenets, and shortcomings. The course discusses social justice issues as they relate to hate, equality, distribution, and deserts.

DPLS 706 - Leadership and Diversity
Leaders are in a privileged position to effect a transformation of perspectives on race, ethnicity, and lifestyle. This course gives participants the opportunity to explore this potential, and, through life experiences and current literature, to assess their personal leadership styles and attitudes toward diversity.

DPLS 707 - Leadership and Technology
Technology is one aspect of the accelerating change that leaders must deal with. Leadership responsibilities in organizations will increasingly influence and be influenced by technology. This course is designed to provide a foundation for understanding technology in today's societies and the role of leadership in enhancing organizations through technology.

DPLS 708 - Leadership, Forgiveness and Restorative Justice
In this course students will begin the process of understanding leadership, justice, and forgiveness in the context of purposeful systems change. Servant leadership and restorative vs. retributive justice are important aspects of the learning community. The course engages students toward self-responsibility in the context of reconciliation, and the depth of heart, mind, and spirit that leads to healing and growth in community with others. Students will work to apply the interior leadership necessary for discernment and action within oppressive systems.

DPLS 709 - Leadership and Spirituality
This course is based on the premise that spiritual development is essential to human development, and emphasizes the importance of leaders awakening their own spirit in management and in life. Students are required to analyze theoretical and philosophical perspectives on spirituality in general and on spirituality as it applies to workplace. Students are invited to examine the condition of their own inner lives and how their lives can become more whole.

DPLS 710 - Planning for Change
Planned change provides a holistic vision of the future and outlines procedures for moving toward the future. This course focuses on the nature of change and the capacity of organizations to engage in system-wide change.

DPLS 711 - Human Resource and Org Community
This course covers basic understandings of managing human resources, but focuses primarily on more critical and social meanings associated with the development of human resources. An etymological approach to human resource development is pursued and provides the foundation for deep examination of leadership and the nature of community.

**DPLS 712 - Leadership and Financial Stewardship**

The focus of this course is on being a good steward of the organization’s resources, with an emphasis on financial resources. Fiscal leadership strategies are examined as well as the effective management of other organizational resources.

**DPLS 713 - Leadership and Law**

An analysis of selected legal principles affecting leaders in educational institutions. The principles illustrated are derived from decisions and opinions of the U.S. Supreme Court. Stress is also placed on an analysis of the leadership function exercised by the Court in such areas as freedom of speech and press, freedom of religion, personal civil rights, and the rights of criminal defendants.

**DPLS 714 - Writing for Publication**

Students learn how to identify outlets for various kinds of writing, prepare publishable work in different categories of writing, discuss ethical issues related to authorship, and work effectively in an editorial relationship.

**DPLS 715 - Writing for Funding**

Students learn how to identify private and governmental sources of grant funding and prepare fundable proposals.

**DPLS 717 - Instrument Design**

This course is designed to explore learning styles, adult learners, and strategies for working with adults. The leaders role in facilitating the learning, growth, and development of adults in organizational settings is examined. Beliefs about the nature of teaching, learning, and leadership are articulated in the form of a personal philosophy.

**DPLS 718 - Ways of Knowing: Teaching, Learning, and Leadership**

This course explores theories of organizational change with an emphasis on transformational change (change that occurs at a fundamental level of the system). Theories and strategies for identifying and positively effecting the core of the organization will draw from a core of readings in complexity science, anthropology, sociology, social psychology and organizational science.

**DPLS 720 - Principles of Research**

Focusing on the pursuit of truth, this course gives a comprehensive perspective on research design, including both quantitative and qualitative methods. Emphasis is on self-understanding in the context of research and the pursuit of truth, and the appropriate use of various research methodologies. Students conceptualize their own research design as well as become more knowledgeable consumers of extant literature.

**DPLS 721 - Leadership and Arts Based Understanding**

Students are invited to consider how different forms generate different kinds of understandings. They are introduced to qualitative research methods known as arts-based, arts-informed, or alternative methods. The topic of leadership is explored through stories and narrative, dance and theater, music and poetry, film, and visual arts data.

**DPLS 722 - Quantitative Data Analysis**

Quantitative data analyses require the use of statistics (descriptive and inferential) to summarize data collected, to make comparisons of data sets, and to generalize results obtained for a sample back to the populations from which the sample was drawn. Knowledge about data analyses can help a researcher interpret data for the purpose of providing meaningful insights about the problem being investigated.

Pre-requisites: DPLS 720 Minimum Grade: C

**DPLS 723 - Qualitative Research**

This course is designed to provide opportunities for developing specific qualitative research skills while gaining familiarity with theories, issues, and problems in qualitative research. The course examines the relationships
between the theories and purposes of qualitative inquiry. There is considerable focus on practicing selected research skills and the analysis and write-up of the results from these activities. Pre-requisites: DPLS 720

DPLS 724 - Advanced Quantitative Data Analysis  
credit: 1

Advanced data analysis such as multiple regression, factor analysis, repeated measures, and discriminate analysis will be the focus of this course. The SPSS computer program will be used to facilitate data analysis and interpretation.

Pre-requisites: DPLS 720 Minimum Grade: B and DPLS 722 Minimum Grade: B

DPLS 726 - Advanced Qualitative Research  
credits: 3

Building upon the knowledge and experience acquired in DPLS 723, this course provides students with structured opportunities to analyze, interpret, and report qualitative research, using their own or sample data banks.

Pre-requisites: DPLS 720 Minimum Grade: C and DPLS 723 Minimum Grade: C

DPLS 728 - Scholarship and Dissertation Framework  
credits: 3

The goal of this course is to assist students to create a structure for the reading and analysis necessary for composition of Chapter 2 of the dissertation. The course also focuses on outlining a 1st and 3rd chapter of the dissertation.

DPLS 729 - Computer Analysis of Qualitative Data  
credit: 1

This course will be devoted to learning the basics of N8 (Nvivo) through structured opportunities to analyze, interpret, and report qualitative research using a standardized set of data. Pre-requisites: DPLS 720 and DPLS 723

DPLS 730 - Proposal Seminar  
credits: 3

Development of the dissertation research proposal is the focus of this course.

Pre-requisites: DPLS 722 Minimum Grade: C or DPLS 723 Minimum Grade: C

DPLS 735 - Proposal Defense  
credit: 1

Students are to enroll in this course the semester in which they plan to defend their dissertation proposal.

DPLS 736 - Dissertation  
credits: 1-5

Students must register for a total of five (5) credits for this course.

DPLS 737 - Dissertation Extension  
credit: 1

Credit registration for student continuing after core course requirements have been completed. DPLS 738 - Completion of Candidacy  
credit: 0

Students must register for this zero credit course in the semester in which they complete their candidacy process.

DPLS 739 - Orientation  
credit: 0

Students must complete this zero credit online course in the first semester of their enrollment in the DPLS. The course has required and optional components that will help insure a successful orientation to the program.

DPLS 740 - Complexity and Org Leadership  
credits: 3

This course begins with a survey of complexity theories and models as applied and understood in relation to society, organizations, and the self. Deepening inquiry into the roots of complexity thinking and its relationship to language, sociality, and rational thought supports ongoing reinterpretation of modernist frameworks. Traditional frameworks drawn from leadership studies, language (symbolic interactionism) and the creation and maintenance of identities are recast through the lens of emergence and complex adaptive systems.

DPLS 741 - The Art and Practice of Dialogue  
credits: 3

This course is concerned with the praxis of dialogue. From the theoretical perspective dialogue is presented through philosophical, psychological, biological, and sociological readings. The course moves from broad perspectives on communication, meaning, and community to focused inquiry into subjective and intersubjective aspects of communication and meaning. This shift is supported by the regular practice of intentional dialogue at each class meeting.

DPLS 742 - Leadership and Appreciative Inquiry  
credits: 3

This course will include instruction in design, graphics and an introduction to new media with an emphasis on visual elements that are an informative, integral part of news delivery. Gain proficiency in Quark. Learn to construct basic
informational graphics. Explore New Media. Visual presentation is a critical part of connecting with readers. Class presentations focus on the use of visual elements in news and other publications.

**DPLS 743 - Leadership and Consulting**

This course examines the philosophy of consulting to include the 'main body of the leadership mind': ethics, courage, reality, and vision as intelligence tools. It also examines the consulting domain as it relates to internal and external barriers of organizational entities, such as structural concerns, gaps in leaders' skills and knowledge, effectiveness of collective intelligence.

**DPLS 744 - Leadership Lang and Culture**

This course is designed for students who are interested in sociocultural and critical perspectives on identity and language and their intersection in diverse cultural communities. Our goal will be to explore the theoretical and methodological issues and substantive findings surrounding current research on identity and language.

**DPLS 745 - Leadership and Personal Ethics**

This course looks at leadership from the perspectives of personal character of the leader and his or her ability to make decisions and take actions that can be considered to be good and right. Application to leadership issues are made throughout the course.

**DPLS 746 - Leadership and Applied Ethics**

This course centers on a variety of moral dilemmas that prevail in societies and organizations. Students gain a deep understanding of the complexity of such moral dilemmas through critical analysis and application of ethical principles. This course presupposes a good grasp of ethical theory either through DPLS 750: Leadership and Ethics or through extensive background readings.

**Several classical ethical models are examined throughout the course. Critical analysis of how these models might apply to leadership today is made.**

**DPLS 747 - Leadership and Classical Ethics**

Ethics and ethical decision making is viewed from a feminist perspective. Application to leadership is made throughout the course. A question of interest is how the feminist perspective might yield different outcomes than do more traditional decision-making models.

**DPLS 749 - Leadership and Eco Ethics**

This course provides in-depth thoughts on principles of ethics and ethical decision making regarding ecology at global, national, and local levels.

**DPLS 751 - Leadership and History**

This course focuses on the theme of leadership within unique historical contexts. The course considers the significant issues and dilemmas confronted by religious leaders, civic leaders, political leadership, reform leadership, female leadership, and business leadership. The historical contexts span from the 17th century Massachusetts Bay Colony to the 20th century using a biographical and case study approach to examine leadership dilemmas.

**DPLS 752 - Leadership and Philosophy**

This reviews the major schools of philosophical thought as they relate to leadership development and style.

**DPLS 753 - Leadership and Religious Studies**

Approaches to the nature of religion and its resulting impact on leadership are discussed. Emphasis is placed on leadership styles in religion.

**DPLS 754 - Leadership and Sociology**

The focus is on a range of sociological theories available for use in the understanding of leadership in social relations or organizations.

**DPLS 755 - Leadership and Communication**

This course focuses on the relation of the theories and techniques of group processes and persuasion to styles of leadership.
DPLS 756 - Leadership and Psychology  credits: 3  Systems and developmental approaches to psychology are integrated with personal and interpersonal understandings of leadership in this course. Dialogue regarding the nature is engaged in order to strengthen critical knowledge of psychology, social justice, and the leader as servant.

DPLS 757 - Leadership and Nature of Politics  credits: 3  This course centers on the importance of political theory to leadership style both in the world of politics and organizations.

DPLS 758 - Leadership and Literature  credits: 3  This course invites students to fall in love with various forms of literature which speak of leading and leadership. The course draws students into a deeper understanding of leadership through critical reviews and intellectual discoveries of such literature.

DPLS 759 - Leadership and Economics  credits: 3  The application of economic principles to the solution of current problems with emphasis on capitalism and North American economies are the focuses of this course. Additionally, on the consequences of human actions, specifically, the actions of leaders at both macro and micro levels.

DPLS 760 - Readings  credits: 1-3  Curriculum, reading lists, and credit are determined based on an individual proposal.

DPLS 761 - Readings  credits: 1-3  Curriculum, reading lists, and credit are determined based on an individual proposal.

DPLS 762 - Readings  credits: 1-3  Curriculum, reading lists, and credit are determined based on an individual proposal.

DPLS 763 - Readings  credits: 1-3  Curriculum, reading lists, and credit are determined based on an individual proposal.

DPLS 764 - Projects  credits: 1-3  Curriculum, reading lists, and credit are determined based on an individual proposal.

DPLS 765 - Projects  credits: 1-3  Curriculum, reading lists, and credit are determined based on an individual proposal.

DPLS 766 - Internship/Mentorship  credits: 1-3  Credits determined based on individual proposal.

DPLS 767 - Non-Dissertation Research  credits: 1-3  Research and design are based on an individual proposal.

DPLS 768 - Non-Dissertation Research  credits: 1-3  Research and design are based on an individual proposal.

DPLS 769 - Non-Dissertation Research  credits: 1-3  Research and design are based on an individual proposal.

DPLS 772 - Special Topics  credits: 1-3  Special topics seminars are designed based on individual student and faculty interests.

DPLS 773 - Special Topic  credits: 1-3  Special topics seminars are designed based on individual student and faculty interests.

DPLS 774 - Special Topics  credits: 1-3  Special topics seminars are designed based on individual student and faculty interests.

DPLS 775 - Special Topics  credits: 1-3  Special topics seminars are designed based on individual student and faculty interests.

DPLS 776 - Special Topics  credits: 1-3  Special topics seminars are designed based on individual student and faculty interests.

DPLS 777 - Special Topics  credits: 1-3  Special topics seminars are designed based on individual student and faculty interests.

DPLS 778 - Special Topics  credits: 1-3  Special topics seminars are designed based on individual student and faculty interests.
Master of Arts in Organizational Leadership

**Chairperson:** Joseph Albert
**Professor:** M. McFarland, J. Caputo
**Associate Professor:** L. Brown, M. Carey, D. Conners
**Assistant Professor:** J. Albert, J. Armstrong, H. Crandall, M. Hazel, A. Popa, A. Simha, L. Topuzova **Lecturer:** J. Horsman

The M.A. degree in Organizational Leadership is an interdisciplinary program that integrates knowledge and research from the social sciences, communication arts, and the humanities. The central objective of the program is to provide an advanced degree which synthesizes knowledge from diverse fields into a focused yet flexible plan of study that is useful to leaders in all forms of social organization. The program is designed for the student whose professional goal is a generalist leadership position in a corporate, government, non-profit, or community organization.

The Organizational Leadership master’s degree is intended to meet the needs and schedules of working adults. Required courses in the degree program are offered exclusively on an evening or weekend basis. The program consists of 36 semester credits. A required sequence of 24 credits is supplemented by electives totaling 12 credits, which are chosen by each student from a list of selected graduate courses. Students are permitted to take up to six credits of individualized readings, research projects or an internship as part of the elective component. The curriculum is dynamic and changes may occur on a yearly basis.

Graduates of the M.A. in Organizational Leadership program are able to: understand the relationship of liberal arts study to leadership; develop effective strategies to be social change agents; develop and enact a leadership approach that acknowledges values and incorporates differences; create and utilize an integrated vision as a leader; understand and analyze organizations from multiple frameworks and, become an agent for productive change; be a knowledgeable consumer and effective practitioner of organizational research; and understand how to form and apply ethical systems within organizational settings.

**Admissions**

Each applicant must submit a complete packet containing the following materials to the Department of Organizational Leadership:

1. A completed application form (see appendix for inquiry form) and a non-refundable fee.
2. A written statement from the applicant which:
   a) describes the applicant’s own interest in the Organizational Leadership degree.
   b) assesses the applicant’s strengths as a leader and describes what the applicant hopes to gain from a graduate degree.
3. Provides a resume of professional experience.
4. Two letters of recommendation from an employer, professional colleague, or faculty in the student's undergraduate major which evaluate the applicant’s leadership ability and capacity to complete a graduate degree.

5. Two official transcripts from each college and university attended (international applicants must submit foreign transcripts in the original language and an English copy). Only degrees and courses from a regionally accredited institution will be accepted.

6. The official score from the GRE general aptitude test or the Miller Analogies Test (must be less than five years old), a requirement which may be waived if the applicant has an advanced degree.

7. Submission of an official TOEFL score of at least 550 by each international applicant who has graduated from a foreign college or university and whose native language is not English.

8. Submission of a financial declaration and supporting documentation by each international applicant.

Prerequisite
A bachelor’s degree from an accredited college or university is required.

Program Outline: 30 credits

Required Courses: 15 credits

- ORGL 600 Organizational Leadership 3 credits
- ORGL 605 Leadership and Imagination 3 credits
- ORGL 610 Communication and Organizational Ethics 3 credits
- ORGL 615 Organizational Behavior and Theory 3 credits
- ORGL 620 Organizational Leadership Capstone 3 credits

Graduate electives complete the Organizational Leadership degree program. Students may choose graduate-level courses from a list of electives provided in this catalogue offered by the Department of Organizational Leadership or by other graduate divisions of Gonzaga University. (MTSL 509, Academic Writing for International Graduate Students, cannot count towards the ORGL elective requirements). Up to six credits may be selected within the elective component from the independent professional study options (ORGL 660-ORGL 671).

Servant Leadership Concentration: 12 credits

- ORGL 530 Servant Leadership 3 credits

Two of the following three courses:* 6 credits

- ORGL 522 Leadership, Community Empowerment, Collaboration, and Dialogue
- ORGL 532 Leadership Justice & Forgiveness
- ORGL 535 Listen Discern Decide

- ORGL 537 Foresight and Strategy 3 credits

*Other ORGL or Cross-listed courses may meet the Servant-leader criteria and must be approved by the advisor.

ORGL 500 - Organizational Leadership 3 credits
An introduction to organizational leadership begins with an examination of these questions: How do leaders explain the causes of dysfunctional thinking and/or behavior in themselves, other leaders, or in organizations? How do they understand the differences among a variety of styles of leadership and models of organizations? How do they apply
the theories of leadership and the principles of organizational behavior to actual situations? How do they formulate a broad, integrative perspective from which to view leadership and organizational behavior? Drawing from the social science, this integrated course focuses on research and models of leadership relevant to defining and achieving collective goals in a variety of organizational settings.

Equivalents: COML 500

ORGL 501 - Methods of Organizational Research

Gall, Gall, and Borg note that research is a systematic and persistent approach to answering questions (2006). This course meets that charge head on as we attempt to explore the philosophies of research and how to answer questions that we are passionate about. Through engagement with primary research and exposure to current methodologies and the inquiry process, this course requires the development of a full research proposal (e.g. literature review, rationale for the proposed questions, formal research questions and/or hypotheses, and proposed method description). Equivalents: COML 501

ORGL 502 - Leadership and Imagination

Why is creative imagination an important leadership capacity? How do leaders employ their imaginative processes within the organization? What can leaders do to stimulate and nurture their imagination? Through the theme of ‘seeing and seeing again’ perspectives from the liberal arts (i.e. art, drama, history, literature, music, and psychology), students are challenged to apply and expand their creative and imaginative capacity. This experiential class provides opportunities to meet and engage with class members as well as faculty and staff in a face-to-face setting, establishing relationships to support their success throughout the program and beyond graduation.

ORGL 503 - Organizational Ethics

Worldviews inform personal, social, political, and professional lives. They influence our perception and practice of leadership, how we respond to adversity, how we relate to others and what we understand to be our purpose. Through a modified case study approach, students are challenged to explore human life from two radically opposing worldviews, examining ethical dilemmas of leadership within the context of moral choices and implications of decision-making. Defining personal worldviews in online postings will help students identify and clarify personal motivations, behaviors, and reactions to ethical problems in the organizational setting. Equivalents: COML 503

ORGL 504 - Organizational Communication

All organizations ‘from Microsoft, to churches, to social clubs, and universities ’ rely on communication, and being able to communicate strategically is crucial to meaningful participation. This course will explore contemporary concepts about the meanings and functions of communication in organizations. Organizational communication encompasses not only communication within businesses, but also within large private or nonprofit associations, larger community groups, and governments both large and small. We will cover such selected topics in organizational communication research, such as culture, socialization, systems theory, communication and technology, and globalization. Equivalents: COML 504

ORGL 505 - Organizational Theory

In this introduction to the study of organizations, students are exposed to a synthesis and integration of major traditions in organizational theory. Emphasis is placed on grounding in theoretical concepts and their practical applications, exposing students to the chaotic and constantly changing world of organizations. Students will learn to view organizations from multiples frames and perspectives, applying the frames to interpret organizational behavior. Knowledge of organizational theory will be applied to a collaborative group project designing ‘real-life’ intervention.

ORGL 506 - Leadership and Diversity

Who we are, whether we are comfortable with this idea or not, is shaped in part by the social roles we occupy and how society sees us in those roles. As we will see from the very beginning of this class, our social roles, the class we are born into, and our gender all have implications for our lives. We will explore intercultural communication as a tool to bridge differences and learn about identities, practices, and cultures.

Equivalents: COML 506
ORGL 509 - Social Dynamics of Communication Technology  
Does communication technology cause social change or do social factors cause change in communication technologies? Examination of relationships between mass media and community and computers and the self. 
Equivalents: COML 509

ORGL 510 - Renaissance Leadership for 21st Century  
This course will help emerging leaders develop new perspectives and strategies, bringing healthy creativity and energy to their organizations. Drawing upon the creative processes of artists, painters, architects, musicians, and writers, students will apply the same dynamics of creative thinking to the practical work of leaders. An interdisciplinary approach explores the power of Renaissance thinking as it applies to renewal, rediscovery, invention, and creativity.

ORGL 513 - Advanced Topics in Communications  
Communication and leadership are closely intertwined, whether in our current period of post-modernity or during the European Renaissance. Fifteenth century Italy, Florence in particular saw a flowering of the arts and scholarship unmatched in history. This can be seen in the rhetoric of art and architecture, religious preaching, political writing and oratory, and in the humanistic philosophy that emerges from it. This course examines this period through readings, discussions, and on-site visits to historical settings in Florence and Siena, in order to formulate the critical questions necessary to bring these ideas to our contemporary world. Using the Italian Renaissance as the canvas, we will study multiple examples of rhetoric, both written and visual.

ORGL 516 - Organizational Development  
This course focuses on how OD consultants - internal or external - can support both leaders and all members of an organization in achieving their goals, mission, and vision. Students will explore ways to conduct systematic diagnoses of organizations, consider how to create and implement effective OD interventions, and investigate multiples methods, tools, and technologies used to effectively implement major change in organizations. Through consideration of the predictable human dynamics involved when orchestrating the implementation of major disruptive change, students will develop an awareness of the nature, application and practice of the profession of Organizational Development.

ORGL 517 - Organizational Change and Transformation  
Managing change is a critical skill to support organizations in achieving their goals, mission, and vision. Building on theories from the field of change management, the experiential learning in Spokane will introduce multiple interventions, reinforcing that different situations require different approaches. The course is appropriate for people in various levels and types of organizations, providing the tools to support effective change leadership.

ORGL 518 - Transforming Leadership  
How do contemporary leaders go beyond the social exchange theory to convert followers into leaders and leaders into moral agents? This course offers a comparison of transactional and transforming leadership by examining past leaders and events. An examination of the dynamics of transformation and how leadership can facilitate it within individuals and organizations will help students develop new insights into the theory and practice of transforming leadership.

ORGL 519 - Leadership in Non-Profit Organizations  
Designed for students preparing to assume the role and duties of a leader, supervisor, or governing board member of a non-profit organization. This course will review theory and investigate specific methods of behaviors of nonprofit organization leaders.

ORGL 520 - Negotiation and Conflict Resolution  
This course provides an overview of conflict on different levels, from micros through mezzo, macros to violent international conflict. Using real-life situations and case studies, students will practice skills and strategies for dialogue, decision-making, and ultimately conflict transformation and system change. This application is generic and therefore appropriate for all professions whether formally or informally involved in resolving conflict.
ORGL 521 - Technology and Communication in Organizations credits: 3
ORGL 522 - Leadership, Community Empowerment, Collaboration and Dialogue credits: 3

What is the meaning and purpose of life and activity? How is need for such meaning and purpose encountered in community? How does the leader develop community to facilitate individual growth and collective flourishing? Through study, experience and scholarship students explore and practice the leadership processes of empowerment, collaboration, and dialogue in the context of creating structures and processes for sustaining and transforming community. At the Benedictine Abbey students become participant observers in a five day emersion designed to explore, practice, and come to an expanded understanding of the role and purpose of the leader’s involvement and commitment to building and sustaining meaningful and purposeful community.

ORGL 523 - Psychology of Leadership credits: 3
Review of psychological theories and how they influence the leader-follower relationship. Emphasis will be placed on the psychological/emotional capacities inherent in each individual, how each capacity appears developed and impaired, and the importance of the development of those capacities for effective leadership.

ORGL 524 - Leadership in Human Resources credits: 3
In this course students will explore the changing role of the human resource leader in organizations. The growing emergence of the human resource leader as an organizational change agent will be examined as well as the skills necessary for success. Topics include policy and practice within organizations; selecting, training, motivating, evaluating, and compensating employees; labor relations; and applicable legislation.

ORGL 530 - Servant Leadership credits: 3
An examination of the foundation, principles and practice of servant leadership.

ORGL 531 - Leadership and Spirituality credits: 3

ORGL 532 - Leadership, Justice and Forgiveness credits: 3
Emotional discipline based in love calls a person toward meaningful responses to human suffering. Such responses are grounded in discernment regarding human conflict, oppression, power, and harm, and the opportunities’ personal, familial, societal, and global’ that rise from the crucible of potential that is our humanity. The course engages students toward self-responsibility in the context of reconciliation, and the depth of heart, mind, and spirit that leads to healing and growth in community with others. Students will work to apply the interior leadership necessary for discernment and action within oppressive systems.

ORGL 535 - Listen, Discern, Decide credits: 3
In this class, students will learn more in-depth concepts of Servant-leadership by learning approaches and practices of listening and discernment as a way of enhancing decision-making capacity. The course begins with a focus on interior and exterior listening. Listening and awareness techniques are then integrated with the principles and practices of discernment. The course progresses from a focus on the individual, to group, to listening and discerning and decision making in organizations and communities.

ORGL 537 - Foresight and Strategy credits: 3
In this course students will integrate more of the servant-leader characteristics, and further develop the disposition of a servant-leader. The course explores the art, science, practices and methods leaders can use to develop their capacity of foresight, and is designed to enhance the student’s awareness and experience of accessing foresight and reinforce the importance and use of strategy and stewardship implementing products or processes into organizational or community systems (includes a 3 day residency).

Pre-requisites: ORGL 530 Minimum Grade: C

ORGL 550 - Team Building and Leadership credits: 3
This 3-day intensive program is designed to increase students’ knowledge and understanding of leadership and team development through a combination of information sessions and active participation in cooperative, challenge activities. Challenge activities are designed to enhance students’ critical thinking skills, creativity, problem-solving
ability, and ability to work effectively as a team. These activities present opportunities to taking leadership roles, recognize leadership styles, identify what works and what doesn’t work in given situations, and apply lessons to real life situations. Topics include the communication process, leadership models and styles, stages of team development, ethics, diversity, and visionary or principle-centered and creative leadership.

ORGL 551 - Advanced Team Building and Leadership credits: 3
This three-day intensive program is designed to be taken along with ORGL 550, building on key concepts learned. The advanced session shifts the focus from group participation to group facilitation through team building and leadership development activities.

Pre-requisites: ORGL 550 Minimum Grade: C

ORGL 590 - Independent Study credits: 1-3 ORGL 600 – Foundations of Leadership credits: 3
This course is a foundation for learning and developing the practice of leadership. It includes investigating various theories of leadership and communication strategies leaders use in their practice. Students explore the self through multiple assessments and reflections, in relationship to individuals, groups and organizations. Students explore personal and relational dimensions of leadership in the context of multiple perspectives and develop a personal leadership growth plan including a personal leadership philosophy. Knowledge of the use of different types of written communication and scholarship is fostered in the Leadership discipline. The paradoxes and ambiguities of leadership are examined in various contexts.

ORGL 605 – Imagine, Create, Lead credits: 3
This team taught course has a two-fold purpose. It is designed to provide an orientation to the ORGL program and Gonzaga experience during the 3 days on campus. This experiential class provides an environment where students meet and engage with peers as well as with staff, and faculty advisors. During the face to face portion of class students have numerous opportunities to establish relationships that support their success throughout the program and beyond graduation. Throughout the course, students are introduced to the history and key concepts in the field of creativity. Further, through the theme of “seeing and seeing again,” students are challenged to apply and expand their creative and imaginative capacity. Students explore Ignatian imagination and perspectives from the liberal arts (art, history, literature, music, and so on) and are exposed to different techniques for developing and enhancing their own creativity and imagination in the context of leadership practice.

ORGL 610 - Communication and Leadership Ethics credits: 3
Inquiry into the personal, organizational, and social values present in moral dilemmas. Students will develop skills in ethical communication and decision-making, and recognize how to act for the common good as leaders who can acknowledge and consider multiple moral perspectives.

ORGL 611 - Seminar Continuation
ORGL 615 - Organizational Theory and Behavior credits: 3
The purpose of this core course is to provide exposure to theories of organizations, organizational behavior, and systems as well as a variety of strategies and tactics useful to successful leaders and followers. The content includes a traditional macro organizational theory emphasis on structure and culture and then extends to organizational behavior focusing on leading teams and interpersonal relationships.

ORGL 620 – Leadership Seminar credits: 3
The leadership seminar is designed to be a culmination of leadership coursework in the organizational leadership program. The course provides an opportunity for reflection, synthesis, application, analysis, and evaluation. Students will examine the formation of their leadership philosophy and professional development milestones achieved in the ORGL program and will synthesize and evaluate their individual leadership development plan for the future.

ORGL 623 - Qualitative Research Theory and Design credits: 3
The assumptions, theories, and practice of qualitative research are introduced. Students design, conduct, and report a pilot study that demonstrates basic research skills.
ORGL 650 - Internship in Organizational Leadership; credits: 3
On-site leadership experience for students under supervision of a site supervisor and professor.

ORGL 659 - Leadership and Economics; credits: 3
The application of economic principles to the solution of current problems with emphasis on capitalism and North American economies are the foci of this course.

ORGL 660 - Readings in Social Systems; credits: 1-3
This individualized study course is based on readings in a specific topic designed in consultation with the instructor. Students will discuss the selected readings on a tutorial basis with the instructor and prepare an annotated bibliography or bibliographical essay. Although individualized, this course is treated as a seminar in which students share their work with each other and the faculty member assigned to the course.

ORGL 661 - Readings in Human Behavior; credits: 1-3
This individualized study course focuses on the investigating of scholarly research findings in an aspect of the behavioral sciences defined by the student and instructor. Students will prepare a written report of findings on the research problem selected. Although individualized, this course is treated as a seminar in which students share their work with each other and the faculty member assigned to the course.

ORGL 670 - Projects in Organizational Leadership; credits: 1-3
This independent study course consists of a formal research project investigating a problem in applied organizational or social research conducted under the tutelage of the instructor. Although individualized, this course is treated as a seminar in which students share their work with each other and the faculty member assigned to the course.

ORGL 671 - Projects in Group Behavior; credits: 1-3
This independent study course consists of a formal project of original research in a topic of group behavior that proceeds from a research design approved and monitored by the instructor. Although individualized, this course is treated as a seminar in which students share their work with each other and the faculty member assigned to the course.

ORGL 680 - Leadership Seminar; credits: 3
The Leadership Seminar serves as the capstone experience of the master’s program in Organizational Leadership. Students create a research portfolio, project, or thesis as evidence of a synthesis of the program.

Pre-requisites: ORGL 501 Minimum Grade: C and ORGL 502 Minimum Grade: C

ORGL 681 - Special Topics in Org Leadership; credits: 1-3
ORGL 689 - Special Topics; credits: 1-3
ORGL 690 – Directed Study; credits: 1-3
This seminar explores new theories and issues. The specific theme of this course varies each time it is offered because the field of organizational leadership is constantly evolving.

English Language Center

Director, Master of Arts in Teaching in English as a Second Language: James Hunter

The Master of Arts in Teaching English as a Second Language (MA/TESL) program offers courses and a practicum for students who are interested in the learning and teaching of English to speakers of other languages. The MA/TESL degree is designed to prepare professional and knowledgeable ESL teachers as well as language specialists who help students develop linguistic and intercultural communication skills. In addition to persons interested in pursuing TESL education preparation, current and future teachers of foreign languages are also invited to enroll in coursework dealing with language acquisition and language teaching methodology, which have broad applicability in a variety of settings.

The MA/TESL knowledge base examines these areas:
• Knowledge about language, language use and culture and their interrelationship; understanding of how the target language is taught
• Knowledge of both the theoretical and practical bases for language teaching and learning in schools and communities
• Knowledge of the process of language acquisition as it concerns first and subsequent language learning and an understanding of the principles of language pedagogy

In the Gonzaga University MA/TESL program, theory and practice are integrated rather than sequenced. Courses and projects aim to provide authentic, holistic, and integrated opportunities to plan, teach, reflect, research and lead in the schools, community and within the University. MA/TESL courses and experiences are rich and complex enough to support students from diverse backgrounds, with diverse goals, at varying stages of development. In addition, students from the diverse cultures and perspectives represented in the program are important resources, helping us to better understand issues of second language acquisition and learning and teaching in a pluralistic world. Students and faculty work together to explore new ideas on learning and teaching. Students work with ESL faculty members on classroom projects. Students are introduced to, and encouraged to participate in professional organizations, and other ESL programs and schools. In consultation with a faculty advisor and peers, students select experiences and courses that will meet their own goals, the stated goals of the MA/TESL program, and the University requirements for a master’s degree. The program encourages the students and faculty to engage in research and critical reflection on the form and substance of language learning and teaching in order to understand the factors of communication and community building.

Master of Arts in Teaching English as a Second Language

Director of Graduate Program: James D. Hunter
Associate Professor: J. Hunter, M. Jeannot, M. Savage Assistant Professors: M. Runyan
Instructors: J. Akins, B. Arciszewska-Russo, H. Doolittle, B. Green, J. Sevedge

The Master of Arts in Teaching English as a Second Language (MA/TESL) program offers courses and a practicum for students who are interested in the learning and teaching of English to speakers of other languages. The MA/TESL degree is designed to prepare professional and knowledgeable ESL teachers as well as language specialists who help students develop linguistic and intercultural communication skills. In addition to persons interested in pursuing TESL education preparation, current and future teachers of foreign languages are also invited to enroll in coursework dealing with language acquisition and language teaching methodology, which have broad applicability in a variety of settings. The MA/TESL knowledge base examines these areas:

1. Knowledge about language, language use and culture and their interrelationship; understanding of how the target language is taught.
2. Knowledge of both the theoretical and practical bases for language teaching and learning in schools and communities.
3. Knowledge of the process of language acquisition as it concerns first and subsequent language learning and an understanding of the principles of language pedagogy.

In the Gonzaga University MA/TESL program, theory and practice are integrated rather than sequenced. Courses and projects aim to provide authentic, holistic, and integrated opportunities to plan, teach, reflect, research and lead in the schools, community and within the university. MA/TESL courses and experiences are rich and complex enough to support students from diverse backgrounds, with diverse goals, at varying stages of development. In addition, students from the diverse cultures and perspectives represented in the program are important resources, helping us to better understand issues of second language acquisition and learning and teaching in a pluralistic world. Students and faculty work together to explore new ideas on learning and teaching. Students work with ESL faculty members on classroom projects. Students are introduced to, and encouraged to participate in professional organizations, and other ESL programs and schools.

In consultation with a faculty advisor and peers, students select experiences and courses that will meet their own goals, the stated goals of the MA/TESL program, and the University requirements for a master’s degree. The program encourages the students and faculty to engage in research and critical reflection on the form and substance of language learning and teaching in order to understand the factors of communication and community building.

Prerequisites
Applicants are required to have a Bachelor’s degree from an accredited U.S. college or university. Students from other countries must have the equivalent of an American Bachelor’s degree. The undergraduate GPA should be at least a 3.00 on a 4.00 scale. Applicants should also have two years of successful university-level instruction in a modern language, or other evidence of second language competence deemed satisfactory by the program director. This requirement is waived for students whose first language is not English. Students may be admitted without this language background, but they will be required to gain it while enrolled in the program.

Admissions
Each applicant must submit the following materials:
1) A completed application form (see appendix) and a nonrefundable fee.
2) A written statement of purpose (750-1000) words addressing the applicant’s interest in graduate studies, outlining the applicant’s current strengths and what the applicant hopes to gain from MA/TESL study.
3) Two letters of recommendation sent directly from the recommending persons using the official confidential recommendation form (see appendix).
4) Two official transcripts from each college or university attended (International applicants must submit foreign transcripts in the original language and in English).
5) International students must also provide:
6) An official TOEFL score of 88 iBT (580 written) OR an IELTS score of 6.5 or higher or a recommendation from Gonzaga University’s English Language Center if English is not the student’s native language.
7) Completed Financial Declaration form (see appendix) with original supporting bank statements. 8) Passport Copy
Program Outline: 35-36 credits

Required Courses: 30-31 credits

One of the following two options:

- MTSL 500  Methods and Materials for ESL Teachers*  3 credits
- MTSL 501 and MTSL 580 Summer Institute*  4 credits
- MTSL 502  Pedagogical Grammar*  3 credits
- MTSL 504  Introduction to Sociolinguistics*  3 credits
- MTSL 508  Principles of Second Language Acquisition*  3 credits
- MTSL 510  Course Design, Evaluation and Assessment in English as a Second Language  3 credits
- MTSL 514  (EDTE 566) Literacy and the English Language Learners*  3 credits
- MTSL 517  Phonology  1 credit
- MTSL 600  Research Perspectives in Second Language Education  3 credits

One of the following two courses:

- MTSL 602  Thesis  3 credits
- MTSL 604  Master’s Portfolio  3 credits
- MTSL 610  Practicum in Teaching English as a Second Language  3 credits
- MTSL 680  Professional Seminar  1 credit
- Elective  6 credits

ESLK-12 Endorsement *

In conjunction with Gonzaga’s School of Education, the MA/TESL Program also offers a 15 credit ESL endorsement which consists of a combination of the asterisked courses shown above. In consultation with an advisor, the K-12 teacher candidate will design a hands-on course of study that examines the following:

1) Contexts and orientations for TESOL and bilingual education.
2) An introduction to fundamental concepts of first and second language acquisition.
3) Ideas for teaching language through content and developing materials for the content-based classrooms.
4) Strategies for working with English language learners in classrooms.
5) Cross-cultural training for working with diverse populations.
6) Strategies for incorporating state standards into instruction and assessment for English language learners.

TESL Summer Institute

In conjunction with the public schools, Gonzaga MA/TESL also offers a three-week intensive Summer Institute each year. The institute consists of coursework (MTSL 501) and a language camp for ESL students (MTSL 580). Students receive a certificate of attendance at the completion of this institute.

Master of Arts in Teaching English as a Second Language: Peace Corps Master's International

The Peace Corps Master’s International (PCMI) program is a joint program with Peace Corps in which students receive a foundation in Teaching English as a Second Language (TESL) and Studies in Language & Culture and then complete the degree by doing a three-credit (tuition waived) practicum with Peace Corps while earning an additional seven credits (non-waived) based on their service as a Peace Corps volunteer. The program is designed to provide participants with the skills needed to participate in Peace Corps TEFL and TEFL teacher training programs.
The PCMI knowledge base examines these areas:
- Knowledge about language, language use and culture and their interrelationship; understanding of how the target language is taught.
- Knowledge of both the theoretical and practical bases for language teaching and learning in schools and communities.
- Knowledge of the process of language acquisition as it concerns first and subsequent language learning and an understanding of the principles of language pedagogy.

In the Gonzaga University PCMI program, theory and practice are integrated rather than sequenced. Courses and projects aim to provide authentic, holistic, and integrated opportunities to plan, teach, reflect, research and lead in the schools, community and within the university.

Prerequisites
Applicants must have a baccalaureate degree from an accredited institution with an average cumulative GPA of at least 3.0. Applicants must also meet all Peace Corps requirements. Applicants should also have two years of successful university-level instruction in a modern language, or other evidence of second language competence deemed satisfactory by the program director. This requirement is waived for students whose first language is not English. Students may be admitted without this language background, but they will be required to gain it while enrolled in the program.

Admissions
Each applicant must submit the following materials:
1. A completed application form and a nonrefundable fee.
2. A written statement of purpose (750-1000) words addressing the applicant’s interest in earning a degree through PCMI and in serving in the Peace Corps, outlining the applicant’s intercultural experiences and what the applicant hopes to gain from PCMI study.
3. Two letters of recommendation sent directly from the recommending persons using the official confidential recommendation form (see appendix).
4. Two official transcripts from each college or university attend.

Program Outline: 36 credits

Courses taken during Peace Corps service:
MTSL 683 Peace Corps Training and Reflection 3 credits
MTSL 684 Peace Corps Field Research 3 credits
MTSL 685 Peace Corps Service 0 credits
MTSL 687 Peace Corps Culminating Project 4 credits

MTSL 304 - Immigrant and Refugee Perspectives 3 credits
Designed for students interested in sociocultural perspectives on identity and language and their intersection in diverse cultural communities, this course looks at the experience of immigrant populations in the USA and in the Spokane area, through the lens of their cultural and linguistic adjustment. An average of one hour of service per week is expected of all participants in this course.
Department: Teaching English as Second Language

MTSL 401 - Theory and Practice of Language Teaching 3 credits
This course investigates current theories in second language acquisition and ESL/EFL methodology. Students learn how to apply these methods to the specific needs of language learners while observing, assisting and teaching. The summer offering is an intensive 4 week course where students apply specific methods during a language camp practicum co-requisite course (MTSL 480).

MTSL 402 - Pedagogical Grammar 3 credits
This course will focus on language analysis for ESL teachers Issues and insights of interlanguage development, contrastive analysis, discourse, analysis, and pedagogical grammar will be interwoven throughout this course. Students will apply this knowledge to some of the tasks of teaching a second or foreign language including providing corrective feedback, selecting and designing presentation materials, and form-focused activities.
Pre-requisites: MTSL 450 Minimum Grade: B

MTSL 404 - Introduction to Sociolinguistics 3 credits
This course will examine how communication in ESL education shape relationships with non-members and members of a community. In particular, it will examine how the control of communication in bilingual and ESL education affects cognitive, social-cultural, affective, and linguistic development in bilingual and ESL classrooms. Theories studied in this course will help build an understanding of how to observe and analyze the effects of communication patterns on learning opportunities for ESL students.
Restrictions:

MTSL 408 - Principles of Second Language Acquisition 3 credits
This course will investigate some of the major theoretical concepts that have developed in the field of second language learning and teaching with emphases on the concepts of interaction, learner strategies, routines, negotiating meaning, motivation and developmental processes within sociocultural contexts.

MTSL 414 - Literacy and the English Language Learner 3 credits
This course will involve discussion and review of relevant research in second-language reading and writing. It also includes a critical investigation of research to implementation in the language classroom.

MTSL 417 - Phonology 1 credit
Introduces the International Phonetic Alphabet and covers basic techniques for improving second-language learners' pronunciation, using recording analysis to plan strategies and design materials.

MTSL 450 - Language Awareness 1 credit
This course will cover the basics of syntax along with the common metalanguage that enables teachers to talk about grammar, as well as broader issues of language structure in general.

MTSL 454 - Secondary Methods-World Language 3 credits
This course presents theories and methods appropriate to teaching a foreign language in the secondary school. (Fulfills Methods requirements for K-12 Endorsement)
An integral feature of the Summer Institute (MTSL 401) is the TESL Language Camp which provides a unique opportunity for its participants to work with ESL students of various ages, nationalities, and proficiency levels. Included in this enhanced hands-on experience are opportunities for observation, teaching, and participation in social activities with ESL students.

MTSL 490 - Independent Study credits: 1-6

This course investigates current theories in second language acquisition and ESL/EFL methodology. Students learn how to apply these methods to the specific needs of language learners while observing, assisting and teaching. The summer offering is an intensive 4 week course where students apply specific methods during a language camp practicum co-requisite course (MTSL 580). Restrictions:

MTSL 502 - Pedagogical Grammar credits: 3

This course will focus on language analysis for ESL teachers. Issues and insights of interlanguage development, contrastive analysis, discourse, analysis, and pedagogical grammar will be interwoven throughout this course. Students will apply this knowledge to some of the tasks of teaching a second or foreign language including providing corrective feedback, selecting and designing presentation materials, and form-focused activities.

Pre-requisites: MTSL 550 Minimum Grade: B

MTSL 503 - Immigrant and Refugee Perspectives credits: 3

Designed for students interested in sociocultural perspectives on identity and language and their intersection in diverse cultural communities, this course looks at the experience of immigrant populations in the USA and in the Spokane area, through the lens of their cultural and linguistic adjustment. An average of one hour of service per week is expected of all participants in this course.

MTSL 504 - Introduction to Sociolinguistics credits: 3

This course will examine how communication in ESL education shape relationships with non-members and members of a community. In particular, it will examine how the control of communication in bilingual and ESL education affects cognitive, social-cultural, affective, and linguistic development in bilingual and ESL classrooms. Theories studied in this course will help build an understanding of how to observe and analyze the effects of communication patterns on learning opportunities for ESL students.

MTSL 508 – Principles of Second Language Acquisition credits: 3

This course will investigate some of the major theoretical concepts that have developed in the field of second language learning and teaching with emphases on the concepts of interaction, learner strategies, routines, negotiating meaning, motivation and developmental processes within sociocultural contexts.

Restrictions:

MTSL 509 - Academic Writing Grad Students credits: 3

MTSL 510 - Design, Evaluation and Assessment in ESL credits: 3

This course will familiarize students with the principles of test design and construction for all language skills at various levels including both standardized and teacher made tests for a variety of purposes. The course will include reading and testing theories and opportunities to create and administer testing instruments and practice in interpreting the results.

MTSL 512 - Language and Cultural Identity credits: 3

Students will explore the relationship between language and cultural identity.

Restrictions:

Must be the following:

Junior

Senior

MTSL 514 - Literacy and the English Language Learner credits: 3
This course will involve discussion and review of relevant research in second-language reading and writing. It also includes a critical investigation of research to implementation in the language classroom.

Equivalents: EDTE 566

MTSL 516 - Technology in Second Language Education credits: 3
This course explores current trends in technological approaches to second-language teaching and learning. It familiarizes students with tools available on the Internet and World Wide Web. Hands on components will enable students to practice searching and retrieving information for classroom use. Student projects include student produced web pages and materials.

MTSL 517 - Phonology credit: 1
Introduces the International Phonetic Alphabet and covers basic techniques for improving second-language learners' pronunciation, using recording analysis to plan strategies and design materials.

MTSL 550 - Language Awareness credit: 1
This course will cover the basics of syntax along with the common metalanguage that enables teachers to talk about grammar, as well as broader issues of language structure in general.

MTSL 570 - History of the English Language credits: 3
This course will provide background in basic concepts of linguistics, principles of language change and historical linguistic study and the development of the English language.

MTSL 580 - TESL Language Camp Practicum credit: 1
An integral feature of the Summer Institute (MTSL 501) is the TESL Language Camp which provides a unique opportunity for its participants to work with ESL students of various ages, nationalities, and proficiency levels. Included in this enhanced hands-on experience are opportunities for observation, teaching, and participation in social activities with ESL students.

MTSL 600 - Research Perspectives in Second Language Education credits: 3
Introduces research methods and resources in the discipline with a focus on qualitative classroom-based approaches. A required prerequisite for MTSL 602 and MTSL 604.

MTSL 602 - Thesis credits: 3
This course involves the identification and in-depth exploration of a topic or issue in TESL. The thesis will include a comprehensive literature review, statement of purpose, description of methodology, presentation of findings, and discussion of implications and relevance of the research.

MTSL 604 - Master's Portfolio credits: 3
This course involves the identification and in-depth exploration of a topic or issue in TESL for the final oral presentation. The project is one that contributes to TESL, multicultural, multilingual development. The project must be completed and submitted in written form or as a manuscript suitable for publication.

Restrictions:

MTSL 610 - Practicum in TESL credits: 3
The culminating experience of MA/TESL study, the Practicum is a 10 to 14 week exercise in applied TESL. Having completed all prerequisites, students are assigned to a Gonzaga University ESL faculty member for the duration of the practicum. Following a period of observation, the intern moves to increased levels of responsibility for planning and teaching. Restrictions:

MTSL 611 - Continuing Research credit: 1 MTSL 680 - Professional Seminar credit: 1
This course (ProSem) is a complementary course to either MTSL 610 (Practicum) or MTSL 602 (Thesis) or 604 (Project). Students meet to discuss practical and theoretical issues related to their teaching or research site. Students also develop a professional portfolio consisting of a philosophy of teaching, a videotape of lesson, an ESOL curriculum unit with assessments and evaluations.

MTSL 683 - Peace Corps Training and Reflection credits: 3
Peace Corps Trainees/Volunteers undergo at least 10 weeks of training in country-language, cross-culture and technical (i.e., TESL/TEFL training). This experience is one of the most substantive educational experiences that a
PCV will have given the following: training expertise, in-country experience, PC trainee motivation and investment, theory/practice integration. We can only mimic this quality of experience in an MA program; therefore, the GU PCMI program would be significantly enhanced if students are required to document this training experience.

MTSL 684 - Peace Corps Field Research  
credits: 3
PCVs are well poised to conduct research in country. PCVs will use their MTSL 600 research course combined with their MTSL 683-PC training and reflection-to collect and analyze data using ethnographic, action and teacherresearch methodologies. PCVs will be assigned an advisor who will work with students in country if it is PC appropriate (e.g. suitable technology, related to assignment).

MTSL 685 - Peace Corps Service  
credit: 0
Peace Corps Service (27 months).

MTSL 687 - Peace Corps Culminating Project  
credits: 4
This course is one that bridges the divide between the initial Gonzaga experience and the PC experience. Since students often face more culture shock and dissonance upon their return home, the capstone course would include a readjustment phase, building on the completion of service orientation and the in-country reflection journals.

MTSL 690 - Independent Study  
credits: 0-6

MTSL 691 - Independent Study  
credits: 0-6
The School of Law

Dean: Jane Korn

Gonzaga University School of Law was established in 1912 by the Trustees of Gonzaga University with the active support of many prominent members of the bench and bar in Washington State. The School of Law has produced many exceptional lawyers. It is fully accredited by the American Bar Association, which entitles Gonzaga School of Law graduates to take the bar exam in any state. The School of Law is also a member of the Association of American Law Schools.

Objectives of Gonzaga University School of Law

Gonzaga School of Law belongs to a long and distinguished tradition of humanistic, Jesuit education. The school is committed to preserving that tradition and communicating it to the students. Accordingly, the School of Law seeks to challenge its students to incorporate knowledge of the past with the innovations of the present in order to better serve society. The education and development of the whole person is emphasized and an effort made to instill in the students a strong commitment to social justice and to encourage them to assume personal responsibility for and take individual initiative in the betterment of society.

The school recognizes its responsibility not only to the students, but also to the public and to the legal profession. As a result, the School of Law endeavors to graduate attorneys who, as capable problem solvers, will be able to translate their thoughts into effective, productive action on behalf of their clients. Toward this end, an emphasis is placed on providing students with personal, individual attention.

One of the school's greatest strengths is the dedication and commitment of the faculty and staff. Gonzaga takes pride in providing students with a quality legal education which includes practical, hands-on experience that will ease their transition from the academic world to the world of legal practice.

Full-Time Programs

The School of Law offers a full-time, three-year, 90 semester credit degree. In some circumstances, students can take advantage of flexible scheduling to complete their degrees in four or five years.

Of the 90 units necessary for graduation, 49 are required; the remaining units may be selected from electives and seminars. All degree credits must be completed within five years of matriculation.

Curriculum

Gonzaga's legal education program is deliberate. The rigorous, well-rounded curriculum focuses on legal analysis, problem-solving, values, and ethics. Equally important is the emphasis on practical experience, enabling students to develop real-world lawyering skills. The unique first-year program at Gonzaga exposes students to simulated skills training in litigation and transactional work in the fall and spring semesters, respectively, evidencing Gonzaga's commitment to these goals. As a further component to this innovative approach to legal education, the School of Law offers upper-division electives in many different
areas of the law, including: trial and appellate advocacy, environment/natural resource law, business and commercial law and international law. To complete their education all students are required to engage in experiential learning, either through working in a professional externship or in Gonzaga's legal clinic, during their second or third year of studies.

**University Legal Assistance**

Gonzaga School of Law operates the University Legal Assistance program as an on-campus clinic that provides legal services to low-income persons. It is a major provider of pro bono legal services in the Spokane area. The clinic offers its students the opportunity to practice law, under appropriate lawyer supervision, while still in school. Rule 9 of the Washington State Bar Association allows students who have completed two years of course work (60 semester credits) to practice law under the supervision of a licensed attorney. On-campus clinical offerings include a general practice clinic and specific subject area clinics in consumer law, business law, elder law, Indian law, and tax law.

Off-campus professional externship experience is available in legal settings such as criminal prosecution and defense, child dependency, juvenile law, and legal services work.

**Dual Degree Programs**

The School of Law and the Graduate School of Business offer dual-degree programs leading to the Juris Doctor/Master of Business Administration (JD/MBA), and the Juris Doctor/Master of Accountancy (JD/MAcc). These programs train attorneys with a business background to provide skilled leadership in the sophisticated and challenging world of modern business transactions. Application must be made to the Graduate School of Business as well as to the School of Law.

There is also a JD/MSW dual-degree program which is designed to prepare law and social work professionals to practice either profession competently, and to enable them to use this unique amalgamation of skills in new and enriched ways. This four-year program (three years for students with "Advanced Standing" in Social Work) will lead successful students to a J.D. from Gonzaga University School of Law, and a Master's in Social Work from Eastern Washington University. Graduates of the JD/MSW dualdegree program will be skilled professionals who can make significant contributions in areas such as public benefits, mental health services, children’s services, services for people with disabilities, education, elder law and services, and public health. The program meets all applicable American Bar Association and Council on Social Work Education accreditation guidelines. Admission to the JD/MSW program is highly selective, and is currently limited to a maximum of four students per year. Students must apply and be admitted to both Gonzaga University School of Law and the Eastern Washington University School of Social Work, and must meet each school's established admissions criteria. This includes qualifying scores on standardized tests, such as the Law School Admissions Test (LSAT). A candidate's application must be approved by both institutions before the candidate is considered for admission to this dual-degree program.
Co-Curricular Activities

Gonzaga's educational philosophy is based on the centuries-old Ignatian model of educating the whole person - mind, body, and spirit. Students, therefore, find it easy to become involved in a broad range of activities at the School of Law. Gonzaga is a major player in national moot court competitions and fields a variety of moot court teams. Students also have an opportunity to participate in the Linden Cup, Gonzaga's prestigious intra-school moot court competition, a client counseling competition, and a negotiation competition. The student-run Gonzaga Law Review is circulated throughout the country, and the Gonzaga Journal of International Law, the online international law journal, receives submissions from around the world. The Student Bar Association is a strong, active organization that encourages student involvement, and there are abundant opportunities to participate in student organizations, legal fraternities, public service projects, and other activities. Gonzaga's student organizations are diverse in nature and, whatever the interests or career goals, there are activities available that will enhance the knowledge and abilities, while contributing to the community.

Physical Facilities and Library

Rising from the banks of the beautiful Spokane River, the Gonzaga Law Center, which opened in May 2000, provides a stunning setting for research and learning. The Law Center offers a variety of classroom and library environments to support interactive teaching and learning methods. Features throughout the building encourage students to linger to talk and debate ideas in beautiful outdoor spaces, roof plazas and balconies, and comfortable lounges. Technology is readily available and a wireless network provide the "highway" for audio-visual, computer, and telecommunications technology. The mix of classrooms, study, seminar rooms, and clinical spaces provide flexibility to integrate the best of traditional law teaching and collaborative and innovative learning. Gonzaga's fine traditions of advocacy training and moot court competitions are promoted in the impressive Barbieri Courtroom. The law library is a warm and inviting environment filled with natural light designed to be conducive to individual and group study. The library's rich collection of print and electronic resources supports the research and scholarly needs of students and faculty.

Admissions

The School of Law endeavors to attract students with ambitious minds, professional motivation, and commitment to the highest ethics and values of the legal profession. A faculty committee reviews all applications, and does not restrict their consideration to impersonal statistics. An applicant's unique qualities, such as work and life experiences, personal accomplishments, and the opinions of others as reflected in letters of recommendation, will also be considered.

The School of Law seeks to enroll a diverse student body to ensure that the school and the legal profession are enriched through the participation of people from different cultural and ethnic backgrounds. Those individuals who want the admission review committee to consider diversity factors in their application process should provide information about their experiences and background in their applications.
Students who are in good standing at another ABA law school may apply for admission to the School of Law with advanced standing.

For admission information, write or call:

Summer Session

Summer session is the perfect time to catch up on requirements and take core courses and electives that won’t fit your schedule during the traditional academic year. It’s also a prime time to focus on just one or two courses at a time, or to take courses ahead of time to assure study abroad doesn’t set you behind. Undergraduates can take advantage of a discounted tuition rate during the summer, and both housing and employment opportunities are available for students of all levels.

Gonzaga University offers summer courses through the College of Arts and Sciences, the School of Business, the School of Education, the School of Engineering and Applied Science, the School of Law, the MATESL program, the School of Nursing and Human Physiology and the School of Professional Studies.

Courses are offered in three sessions. The dates for Summer 2016 are:

First Session May 16 - June 24  
Second Session June 27 - August 5  
Full Session May 16 - August 5

All courses are designed to meet diverse student interests and needs. Offerings range from undergraduate to graduate to doctoral, with classroom and online options as well as field studies and faculty-led study abroad programs.

Students from other colleges and universities are welcome to take summer session courses at Gonzaga that may fulfill requirements but may not be available at their home campuses. Such credits can typically be transferred to their home institution. Note that acceptance to and/or enrollment in a Gonzaga Summer Session course does not imply admission to one of our degree programs. See the admissions section of this catalogue for more information on applying for a degree program.
Graduate students will typically find several classes applicable to their program of study and in some instances will find complete academic programs offered during summer session. Courses, institutes, and workshops are also available for anyone interested in continuing their education.

Details on courses, dates, costs, and registration are available on the summer sessions website, http://www.gonzaga.edu/summer, by emailing summer@gonzaga.edu or by calling 509-313-5873.
