REGISTER AT:

<https://commerce.cashnet.com/GULead>

This conference offers two tracks:
one in women's leadership, and the other
in wine law.

Workshops will be held at Charles Krug and
Beringer wineries, in St. Helena.

GUEST SPEAKERS

Deanna Davis, Ph.D.

"Radical Resilience"

Known for her characteristic blend of humor and how-to, Dr. Davis will offer tools to learn how to intentionally lean forward into your life.

Lucia Albino Gilbert, Ph.D.

"Women leading in male-dominated fields: what are the facts?"

Leading is not "easy peasy," especially for women in male-dominated fields. Professor Gilbert will address what we know about effective leadership and describe key factors that influence women's ability to be leaders in male-dominated fields. She will share stories from her extensive research on women winemakers to illustrate these factors.
