

GONZAGA UNIVERSITY

CLASS OF 1968

Letter from the Alumni Association Director

Class of 1968,

On behalf of Gonzaga University, welcome back to campus! We are delighted to have you here for this memorable 50th anniversary weekend!

While on campus, we hope you are able to reconnect with your classmates, walk down memory lane, and rekindle fond memories of attending Gonzaga. Your classmates who served on the planning committee have organized this weekend just for you – socials, meals, campus tours and so much more!

In a recent survey, alumni were asked, "What is the most important thing Gonzaga can do for you in the next 5-10 years?" The overwhelming response was keep me connected and informed. We hope you leave this weekend feeling both of these – more closely connected to your alma mater and better informed of university updates and initiatives. We will work hard to ensure this connection continues upon your return home.

You'll notice a few changes on campus, and hear about more to come. But even amidst some changes, we're confident you'll feel that Gonzaga spirit you remember alive and well.

Thank you so much for joining us! In the words of our beloved Fr. Tony Lehman... *To Be Continued!*

A handwritten signature in black ink that reads "Kara Hertz".

KARA HERTZ '01

Director of Engagement & Alumni
Gonzaga Alumni Association

Class of 1968 Timeline

1965

World News

- Unmanned US spacecraft, Mariner IV, performed the first successful flyby of the planet Mars returning the first pictures of the Martian surface

Oswin

Life's highlights since graduation:

Seven grandchildren, four sons- two in Alaska, one building a railroad and one teaching math and art, one in Madagascar teaching art and technology and one in Walla Walla doing the work of the Lord, winemaking- one wife. Thank you Molly. We move back to Spokane in 1973 and have lived next door to Donna and Terry Ryan since 1976 and down the street from Paul and Niece Shafer. It takes a university, thank you Gonzaga!

Beverly Jean Cunningham Austin

**Degree:**

BA in Sociology

Children:

Marc Austin, 48, University of Pennsylvania

Derek Austin, 46, Princeton University

David Austin, 44, Princeton University

Jennifer Austin Lewis, 39, Santa Clara University

Grandchildren:

Ben Austin, 15; Lucas Austin, 13; Jack Austin, 11; Joelle Lewis, 9; Charlie Lewis, 7; Hayden Austin, 5

Memories of your life at Gonzaga:

Dorm life, Studying for exams, Writing interminable papers, being part of the first group of women students to be allowed to wear pants to class (no I am not making this up), Volunteering at the YWCA and Sr. Antonia's Home, Celebrating my 21st birthday at the Bulldog, Folk music Masses in the student Chapel, St Patrick's Day talent shows and Jack and Dan's, Retreats, Philosophy orals for graduation, ROTC Sponsor Corp drills on the Quad, Military Ball, AWSGU meetings as the Spokane Rep, hanging out with Spokane students, playing bridge and eating Lenten Specials in the Lower COG, being the RA at the desk in Madonna hoping my friends got inside the doors before "hours" started, watching basketball games and especially Paz Roche, the transfer from San Jose, Montana Club parties, getting my ears pierced "professionally" with ice, matches and a needle in the dorm one night, ouch! I should had gone on that date instead! Waikiki retreat for RAs, life long friends, Graduation.

Something you learned at Gonzaga that you've carried with you throughout your life:

The required philosophy courses have given me a solid base for making decisions in life and to see the connection of the parts to the whole in all of creation. Theology classes gave me a faith foundation based in scripture which had not been a part of my religious education as a Catholic. During college when I was questioning my faith, the Jesuits helped me find a personal relationship with God through Jesus and the Sacraments which helped me grow in my personal life. They taught me the distinction between the institutional Church and being a follower of Christ. Fr. Conwell, author of his own textbook, was a pioneer in teaching Old Testament scripture. Frs. Beuzer, Tanksley and Greif were inspirations to me when I was struggling with my faith. The rigorous liberal arts education enabled me to easily earn a Master of Social Work and a teaching certification in Religious Studies when I returned to school many years after graduation.

Life's highlights since graduation:

Marriage and four children came in the years following graduation. My children and six grandchildren are blessings in my life. In my career, I worked as a Public Assistance caseworker until my first son arrived. My first retirement came when I had three more children within eight years. Later, I started a social work agency providing step parent and private adoptions before I went to graduate school in 1985. After receiving my MSW, I worked as an administrator at St Anne's Children's home and then began a long career as a high school counselor at Gonzaga Preparatory School in Spokane. During those years with the Jesuits, I began a new career path, training to become a spiritual director in Ignatian Spirituality and later becoming the Executive Director of the SEEL program in Spokane. In 2005, I served as Community Service Administrator, Religious Studies teacher and Adult Faith Formation Director at Brebeuf Jesuit High School, Indianapolis, IN. I have traveled to many countries in Europe, South America and the South Pacific. The most meaningful have been pilgrimages to St Ignatian and Jesuit sights in Spain and Italy, mission trips to Russia and Chile and a pilgrimage in the footsteps of St. Paul to Greece, Turkey and Rome. This fall my siblings and I are cruising the Danube. Next Easter, I am walking the Camino de Santiago with a group of 60-70 year old friends from Seattle and Spokane. I enjoy painting in water colors. I like to read, work in the garden, play golf when the weather is good, enjoy aerobics and line dancing classes, watch the Bulldogs play at McCarthy when I can get tickets and go to Vegas for the WCC tournament. I love to see alums there. The GU legacy of serving others encouraged my volunteerism over the years in parish work, in SEEL retreats, on Catholic school boards, in League of Women Voters as Voter Registration Services Director, and currently as a board member of the Holy Names Music Center. Thank you Gonzaga University and the Jesuits.

The my future is so bright I need my shades

Memories of your life at Gonzaga:

Hockey games at the Coliseum; dorm life; basketball games; getting in to Joey's when I was 20; trips to Rathskellar's and trying to get home in time for curfew; the friends I made.

Something you learned at Gonzaga that you've carried with you throughout your life:

Earned my degree and worked in that field for nearly 30 years. The whole "Gonzaga experience" has affected my life in very positive ways and is still with me. I met my husband there.

Life's highlights since graduation:

Worked for awhile, then married and raised our 2 daughters. Returned to work for 25 years. We've spent our retirement traveling and spending time with our grandchildren. We've also had season tickets to the G.U.men's basketball games for nearly 30 years.

Life is good!

Bruce B. Butler

**Degree:**

BA Accounting GU, MBA UW

Spouse or partner:

Judy Acher Butler

Spouse or partner's Alma Mater:

Gonzaga 1968, GU Law 1980

Children:

Beth Butler Kennar,
Gonzaga and Gonzaga in Florence age 48
Sophie Butler-Parrish.
USF and Gonzaga in Florence. Age 45

Grandchildren:

Audrey (20) Eva (18) Ian (13) Rosemary (11) Kennar
Kate (13) Elle (10) Butler-Parrish

Memories of your life at Gonzaga:

Many great memories of dorm life in Welch, Lincoln, Cushing and as a RA on the fourth floor of DeSmet. My accounting classes with professor Dan Brajcich stand out. He was both inspiring and entertaining. Relationships made at GU have been long lasting. First and foremost Judy Acher and I began dating in our Junior year, married one week after graduation, and now celebrating our 50th wedding anniversary. My roommate for two years, Stan Roy, passed away a few years ago leaving a large hole for many who were fortunate to know him.

Something you learned at Gonzaga that you've carried with you throughout your life:

Gonzaga helped me develop a moral compass in dealing with issues constantly in play from owning a CPA practice. Fortunate to have a rewarding family life, relationships with friends and clients, and volunteerism in the community and Church.

Life's highlights since graduation:

Fifty years with a wonderful partner, two great daughters and six grandchildren. Able to live on the shores of Lake Pend Oreille after wonderful years living in Spokane. Fortunate to travel to many parts of Europe and Asia especially when our daughters spent a year in the Florence program. Now enjoying GU basketball including the traveling with friends to the NCAA tournaments, and annual breaks from winter with trips to Mexico and Hawaii.

**Degree:**

BA Political Science, JD

Spouse or partner:

Bruce Butler

Spouse or partner's Alma Mater:

Gonzaga BA, UW MBA

Children:

Beth, 49, GU BA, UW Law

Sophie, 46, USF

Grandchildren:

Audrey 20, Eva 18, Ian 13, Rosemary 11.

Kate 13, Elle 10

Memories of your life at Gonzaga:

Coming to Gonzaga from Montana I worried I might have a California roommate (I did). The blend of cultures created a wonderful GU spirit that has lasted fifty years. At Gonzaga, religious ed turned into theology; rote learning became questioning and Fr. Richard Twohy opened up big-picture ideas. In law school I learned that there are two sides to every issue, very little black-letter law, and basketball was really fun to watch.

Something you learned at Gonzaga that you've carried with you throughout your life:

Bruce and I began studying together at the GU library, married right after graduation, and this year celebrate 50 wonderful years together. All the friendships formed then and over the years in the GU community are treasured. I owe deep gratitude to the Jesuits at Gonzaga and St. Al's for reminding me to seek God everywhere.

Life's highlights since graduation:

After making our home for over 40 years in Spokane, we moved "to the lake" (Hope, Idaho) in 2008. Here we welcome children, grandchildren and all friends passing through. We tend our gardens in summer and follow the Zags and the sun in the winter.

Children:

Amy Yates 46- UC San Diego- USD Law-school

Julie Spradling 44- Stirling University, Scotland - Grad school education Cal State

Jenny Berry- 41- Stirling University Scotland - Marketing
Robert (Bobby) Cressey- 36 -UC San Diego school of Engineering

John Cressey- 31- UC San Diego - Linguistics and Neuro Science

Grandchildren:

Ava Berry 13

Abby Berry 9

Zidon Spradling 11

Bayani Spradling 8

Katy and Julia Yates 11

Memories of your life at Gonzaga:

Oh so many memories of The Music Building and "The Little Theater" on the third floor of the Ad Building. I lived at home and worked part time so it was a hectic and frenetic time but the opportunities GU provided expanded my horizons while at the same time creating that key to joy- trusting that God is with me always and recognizing Him in others.

Something you learned at Gonzaga that you've carried with you throughout your life:

Don't ever give in to the temptation of thinking you don't make a difference.

Life's highlights since graduation:

Having 5 children will always be THE highlight of my life. We have lived many places including Europe and I still travel. I have 2 children (and 2 Granddaughters) that live and work in China so Southeast Asia has been high on the travel priority list!

All the "kids" with me.

Age 72! Aren't we lucky to be alive!

Matt Diez - 35

Grandchildren:

Cayden Sauter 4 1/2 years
Finley Sauter 2 years

Memories of your life at Gonzaga:

I have fond memories of times spent in the dorms with friends since I was a "Spokane student" and lived off campus at home. I spent many hours in "The Cog" playing pinochle with friends. The "Horny Pumas" were an amazing group of friends that we had many fun times with. I met Angel, my future husband through mutual friends at Gonzaga!

Basketball games & watching the guys play soccer in the snow are fond memories. I enjoyed being part of the student government & being Denny Dellwo's secretary. I'll never forget when Romeo drowned. Quite the 4 years!

Something you learned at Gonzaga that you've carried with you throughout your life:

Something that I learned at Gonzaga was to be a person for others, to always find a way to be understanding and help others, whether it be monetarily or by "just listening" when someone needs you to do just that.

Life's highlights since graduation:

Angel & I have been married for 50 years this December! We have enjoyed coaching & watching our children play many sports including, soccer, baseball, soccer, basketball, softball & gymnastics. We have travelled to Hawaii, Alaska, Spain, Portugal, England, Scotland, Italy, Greece, France, Belgium many times & spent time in Arizona with good friends. We follow the Zags & have been to many of the Basketball WCC tournaments over the years.

One of our many trips to Hawaii

Memories of your life at Gonzaga:

Wonderful, lifetime friendships established, especially with Gonzaga-in-Florence classmates.

Interesting classes, great teachers, ski trips, ice hockey and basketball games, and keggers to Idaho

Year spent in Florence was the highlight of my GU experience

Life's highlights since graduation:

Being married to my wonderful husband, Al, for 35 years before his death in 2008; having three wonderful children, and now three beautiful grand daughters. I enjoyed my teaching career and am now enjoying my retirement.

Planning and attending Gonzaga-in-Florence reunions have played an important part of my life.

Annette Isabelle McGinn Erickson

**Degree:**

Bachelor of Arts, English Major, Mathematics Minor

Spouse or partner:

Marty Erickson

Spouse or partner's Alma Mater:

University of Colorado

Children:

Kristine A. (Erickson) Toulou, 43, EWU

Karin E. Schuyleman, 41, WWU

David M. Erickson, 38, UW

Grandchildren:

Erin L Toulou, 15; Elissa M. Toulou, 12; Meghan C. Schuyleman, 11; Konner B. Erickson, 10; Caitlin B. Schuyleman, 9; Steven M. Erickson, 9 and Eric J. Schuyleman, 1

Memories of your life at Gonzaga:

I was the only female in my Modern Algebra class. The teacher, a male, said, "Ladies and Gentlemen, I mean, Lady and Gentlemen, I hope I didn't insult anyone." After that, I sat in the back row and took notes.

Something you learned at Gonzaga that you've carried with you throughout your life:

Apparently I scored high enough on the College Algebra final to be encouraged by Dr. Firkins to take more math. Dr. Goldman liked to call on me to see how females approached problem solving. When I graduated from GU, they needed math teachers. I ended up teaching Pre Algebra, Algebra, Advanced Algebra and Geometry at Fort Vancouver High School.

Life's highlights since graduation:

We have traveled to England, Wales, Scotland and Germany with my husband's singing group, Vancouver USA Singers, to Mexico twice, to Alaska twice and to Hawaii six times. And we have driven across the United States three times with and without children. I belong to two hospital guilds, Children's for 43 years and Doernbecher for 28 years, helping raise over one million dollars for uncompensated care. Marty and I enjoy playing bridge. He and I met at a state math convention.

Nicholas Feulner Gonzaga, CUNY(City University of New York)

Thomas Feulner Stanford

Timothy Feulner Regis, Georgetown Law

Grandchildren:

Gabe Anderson 11

Zach Anderson 3

Memories of your life at Gonzaga:

I was a Spokane off campus student. Many Spokane student's attended Gonzaga at that time. I remember the lounge on the main floor at the Ad Building(College Hall). Also, hanging out in the Lower COG. I remember attending basketball in the new Kennedy. Also, my parents had season tickets at Zag games in the old Coliseum and Kennedy. My father went to Gonzaga High School when it was located on G.U.'s campus. He went to G.U. for one year. I found his picture is in the main hall of College Hall.

Something you learned at Gonzaga that you've carried with you throughout your life:

Remember, I was at G.U. from 1964-1968. These were turbulent years in our country. I learned how to question and how to think. Logic was a course I had difficulty with. But, later on it served me well. In the spring of 1968 I applied to the Jesuit Volunteer Corps(JVC) and was accepted and I was going to be sent to Alaska where I was to teach in an elementary self-contained classroom. I had done my student teaching at Ferris High School. I realized I needed some help. I went to Eastern Washington University and took 18 hours of elementary methods courses. I was only going to stay one year but wound up staying three in Fairbanks. Being a JVC made a drastic change in my life. Fr. Jack Morris, S.J. was the head of JVC. One of Fr. Jack's expressions was, "Once you were a Jesuit Volunteer, you are ruined for life." I was ruined for life in so many ways.

In my third year I met a girl named Sue Bickard. We were married in 1975.

Life's highlights since graduation:

I taught for 44 years, all in Catholic schools. I retired 2012 from St. Charles Catholic School where I taught for almost 38 years. I still volunteer one day a week at St. Charles. My wife and I do Meals on Wheels.

We both joined the JVE's last September. I volunteer at St. Charles. Sue volunteers at the House of Charity and CAPA. We are enjoying these experiences very much.

**Spouse or partner:**

DD

Spouse or partner's Alma Mater:

University of Maryland

Children:

Jesse, 42, Vancouver Island University

Willow, 38, Simon Fraser University

Grandchildren:

Three grandchildren, all boys.

Memories of your life at Gonzaga:

Roommates, fellow students, Gonzaga-In-Florence, odd but interesting Theology and Philosophy requirements.

Life's highlights since graduation:

Moved to Canada 1970; married 1972; worked for Ministry of Forests on Vancouver Island, British Columbia, 1977-2003; retired to small but intriguing Denman Island 2005.

Joseph A. Giampaolo

**Degree:**

Bachelors of Science Electrical Engineering

Spouse or partner:

Barbara Giampaolo

Spouse or partner's Alma Mater:

UCLA

Children:

Jennifer A. Giampaolo, 42, University of Notre Dame

Michael T. Giampaolo, 40, Harvard University

Alessandra C. (Giampaolo) Braun, 31 University of Michigan

Grandchildren:

Michael Giampaolo's children- Eli 8, Brynn 6, Maris 4

Alessandra Braun's children-Presley 2, Atlas 6 months

Something you learned at Gonzaga that you've carried with you throughout your life:

Be a good Christian and Set my goals, stick to a schedule and success will follow.

Susan Adrienne Glowacki

**Degree:**

B.A. English

Children:

Meagan Lindsay Freeman, Sonoma State University

Grandchildren:

Shawn 21

Dylan 19

Braeden 16

Lindsay 11

Katy 9

Memories of your life at Gonzaga:

Working in the COG, walking to class on frozen sidewalks, first group of women to live at Campion House, Joey's, the streaker at DeSmet, Stromboli's, Fr. Leary's freshman Logic class, Gamma Delta Delta, Tina practicing violin in the bathrooms, watching Star Trek in the dorm TV room, Dr. McDermott giving me a D- on the first paper I wrote for punctuation errors, what 19 below zero feels like.

"Time is was, and what a time it was. A time of innocence, a time of confidences. Long ago it must be, I have a photograph, preserve your memories...."

Simon & Garfunkle

Something you learned at Gonzaga that you've carried with you throughout your life:

Thank you to my Dad for sending me to Gonzaga - the greatest gift. With the turmoil of the 60's swirling around us all, being in that time and sheltered place was amazing for me. To be able to so totally immerse myself in the Humanities was remarkable and a once in lifetime experience. The quality of the many fine instructors I had, and the exceptional friends who I laughed with and talked about life with for hours on end are unforgettable.

Life's highlights since graduation:

I've worked as a Manager in the Food Industry for many years in Logistics, retiring 4 years ago.

My daughter and family live nearby and I love spending time with my grandchildren.

Active in Rotary for many years and since retiring I've become a docent at a preserve in Glen Ellen, CA taking groups of school children out on nature hikes.

Joshua Dylan Hill Age 45 Alma Mater: BA in English Concordia University (Portland OR); MA Creative Writing St. Andrews University (Scotland)

Laurel Rain Durham Age 43 Alma Mater: B. S. Nursing Oregon Health Sciences University (OHSU, Portland, OR); MS in Public Health OHSU

Grandchildren:

Tre Demps Age 25 (son of Serene and father of Chloe Demps, my first Great-grandchild)

Kai Wilson Age 12 (Son of Serene)

Mia Rose Hill Age 7 (Daughter of Joshua)

Schuyler Durham Age 26 (Son of Laurel)

Kaitlynn Durham Age 24 (Daughter of Laurel)

Memories of your life at Gonzaga:

I wrote in an application for grad school that my mind had "exploded" at Gonzaga. When I came to GU, I was a jock (and a decent student) without a clue. As a result of friends and teachers there, my life possibilities expanded. As a result of a paper I wrote for Franz Schneider about W. B. Yeats, I realized that a life could have purpose and direction. Inspired by an assignment from Thomas Rukavina (initially I would not have chosen but am grateful that I was required to take 6 philosophy classes), I wrote my "ethical philosophy of life" that has guided (and grown with) me since. I had the honor to sit in literature classes with John Sisk, who used to sit on the window sill smoking his pipe and (from my view) saying the most amazing things. I will never forget the times I spent with my roommate (and life-long friend) Mike McGonigle. I loved playing intramural sports, meeting girl friends in the library (or at Spokane Falls) and staying up late in the dorms talking to friends.

Something you learned at Gonzaga that you've carried with you throughout your life:

Gonzaga changed my life. I became a more thoughtful reader and writer. I was introduced to books, ideas and issues that still haunt me. From a racially and ethnically diverse Seattle neighborhood, I was perhaps innately disposed to care about racial justice. The war in Vietnam expanded my concerns for social justice--and shaped my subsequent scholarship, teaching and activism. These concerns were the focus of dorm discussions, summer reading and, while not the subject of any class that I took, GU helped me see these issues within larger context. I carried away from Gonzaga perhaps three main messages: the world is complicated, I have a role to play (Franz Schneider told us we needed to take a stand)--and, in light of these two, be humble. I remember a Halloween party (my junior year, I think) where we decorated the dorm basement as a graveyard, each person with a marker and epitaph. Mine was "Here lies Dick Hill who died trying to be articulate." Still trying.

Life's highlights since graduation:

Earned Ph.D. in American Studies from Emory University in 1976 (Atlanta, GA)

Taught 41 years (1976-2017) at Concordia University (Portland, OR) in Humanities and English

I loved teaching, the energy of the classroom and the curiosity of students. Features of my teaching included rigor, classroom community building and issues exploration through discussion, care for students and social justice concerns. I attribute all of these to my education at Gonzaga. I always thought of my teaching career as "paying it forward" for wonderful teachers at Gonzaga like Richard Twohy, Thomas Rukavina, Franz Schneider and John Sisk (among others).

I was married twice to two wonderful women. My three children, 5 grandchildren and one great-grandchild (listed above) are the pride of my life. Not listed above due to space, I also have 2 step-children (and their 3 children) that I love.

My life has been rich and busy, steeped in the principles I breathed in at Gonzaga. At various periods of my life, I have been an avid runner, movie goer, camper, reader, traveler and social activist. Many of these are still an important part of my life. I have participated in numerous marches and demonstrations, written many articles for my students and had the opportunity to travel to India, Japan, Guatemala, El Salvador, and several countries in Europe, including Ireland, Greece, Italy, Germany, France (where my son lives) and others.

I have tried to make a difference, opposing war, working for peace and social justice and doing my best to be a good citizen, all values that I imbibed at Gonzaga.

The journey is ongoing.

Dick, 2 daughters,
3 grandchildren,

Karen Mary Krebs Ireland

Degree:

Bachelor of Science (Honors)

Spouse or partner:

Jeff Reynolds

Spouse or partner's Alma Mater:

Massachusetts Institute of Technology

Memories of your life at Gonzaga:

Freshman year panty raid at St. Catherine's/St. Monica. St. Patrick's day talent shows in the COG when all the smuggled beer bottles, now empty, would be passed down the rows to be lined up on the window shelf! Walking across campus in the snow. The wonderful noon daily mass in the 4th floor student chapel. Monthly University Club meetings out at Waikiki where the discussions were so interesting and sometimes so intense. Wonderful teachers: Dr. Hurd, Mr. Barry, Fr. O'Leary's lucid organic chemistry lectures, Fr. St. Marie's History of Art class that sparked my lifelong interest in art, Dr. Schneider's Honors poetry class, Fr. Twohy standing on the chair in Poly Sci., Fr. Conwell's Old Testament class, the INTENSE discussions in Dr. Bisbee's New Testament class on ROTC days, kind Mr. Firkins who "saved" me in calculus, Dr. Sisk's Shakespear class, Fr. Tom Greif. Anne MacAdam and I sitting in the inner courtyard reviewing our dissected cat for the final (and horrifying others).

Something you learned at Gonzaga that you've carried with you throughout your life:

Love of art and poetry. The desire and (hopefully) the ability to think clearly.

Life's highlights since graduation:

Medical school graduation. Surviving internship. Becoming a full professor. Traveling the world including working for 4 months in a Japanese hospital, trekking to Mt. Everest base camp. Landing with a fantastic private pathology group when I left academic medicine.

Patricia (Pat) Jean Oaklund Jacobs

**Degree:**

Bachelor of Business Administration

Spouse or partner:

Henry (Hank) Jacobs

Spouse or partner's Alma Mater:

Eastern Washington University

Children:

Roberta Jacobs PhD., 48, University of Washington

Denise Dammann, 46, Western Washington University

Grandchildren:

Kate Dammann, 12

Hannah Dammann, 9

Memories of your life at Gonzaga:

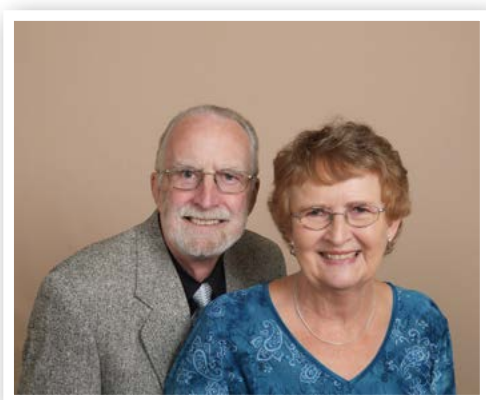

I enjoyed going to a small university because it had a feeling of closeness & family. In four years, I never missed a home basketball game & we still enjoy following the Zags!

Something you learned at Gonzaga that you've carried with you throughout your life:

The philosophy of Gonzaga taught you to open your mind and to think for yourself.

Life's highlights since graduation:

Marriage, children, grandchildren, retirement and travel. We are planning a river cruise in Europe to celebrate our 50th wedding anniversary.

Dave Keeney, Western Washington Univ.

Tim Keeney, University of Wash.

Grandchildren:

Clara, Ethan and Timmy DuCharme

Hannah, and Brandon Keeney

Expecting a new Baby Keeney in the Fall, 2018

Memories of your life at Gonzaga:

I came to Gonzaga from an all girl's high school, thinking I wanted to major in Math. Signed up for a math class my first semester, which turned out to be a class of 24 guys and me. Math became my choice of major! I loved dorm life and the chance to meet so many girls from all over the country. I remember card games and tons of coffee in the COG. I remember walking through the snow to the Coliseum to watch hockey games, sitting on the grass to watch baseball games and following GU basketball as faithfully as I do now! I remember hours of studying math, Philosophy Orals, the Joey's mushball team I played on, Ted Kennedy's visit to campus, numerous concerts and plays and of course a kegger or two. Mostly, I remember friends and teachers and wonderful Jesuits!!

Something you learned at Gonzaga that you've carried with you throughout your life:

Coming from a small high school, I loved all the instant friendships made living in St. Catherine's Hall. Girls from all over the country with a wide variety of dreams and talents. It reinforced in me the strength of women and the idea that I could accomplish anything I set my mind to, even in a world that tended to define acceptable roles for women. My advisor, Dr. Mottler and several Jesuits helped me find my way when I felt defeated. I went on to land a job upon graduation, where I was the first woman to be hired into a position traditionally held by men. I raised my daughter and sons to believe that gender should never limit your dreams and now I especially push my grandchildren to follow their dreams wherever they may lead. Gonzaga taught me I could be whatever I wanted to be.

Life's highlights since graduation:

Following graduation from GU, I went to work for PT&T in California in data systems management. After about 5 years, I left the company, spent some time abroad and returned to the Pacific Northwest, going to work for PNB in Seattle, again working in data systems. I met my husband, Dave while working there and we were married in 1975. With the pending arrival of our first child, I left the work force and took on a much tougher job of stay at home mom. I spent the greater part of the late 70's, 80's and early 90's being a wife and mother and loved every minute of it. With college looming and 5 kids to help get through, I decided I needed to reenter the work force. I enrolled in Community college taking accounting classes and updating my computer skills. After several part time jobs, I went to work in the office of our Parish Church as the office manager and bookkeeper for both the church and parish school. I retired after 16 years, in 2012. My husband retired from his job the same year. We enjoy our individual hobbies and together we do some travelling, work in the garden, spoil grandchildren and talk about how proud we are of our greatest achievements, our kids.

The Keeney Clan, July, 2016

Grandkids are the best!

James Daniel Kinney, Jr.

**Degree:**

BBA Marketing

Spouse or partner:

Eileen (Frey) Kinney

Spouse or partner's Alma Mater:

Sacred Heart School of Nursing and Central Washington University

Children:

We have three children, all Graduates from Gonzaga: Dan graduated in Mechanical Engineering in 1991, Colleen graduated in Education in 1992, and Megan graduated in Marketing in 1995. All their spouses also attended Gonzaga, so we are truly a Gonzaga Family.

Grandchildren:

Erin , 20, Kailee, 18, and Shannon Kinney,15
Catherine, 3, and Nathan Sneider, 2
Jameson, 15, and Rowan Smith, 13

Something you learned at Gonzaga that you've carried with you throughout your life:

I married my wife, Eileen, during my senior year. She graduated from Sacred Heart School of Nursing, but received all her scientific academic training through professors from Gonzaga. We are thankful for the many blessings God has given us, so throughout our lives we have been very active in Catholic schools and parishes, especially Holy Rosary Parish in Moxee WA.

Life's highlights since graduation:

I graduated from Gonzaga University with a degree in Marketing, and a Commission in the US Army. I completed Flight School and Officer Maintenance School and was sent to Vietnam. I served with the 23rd Artillery Group which provided all the heavy Artillery in Firebases throughout Vietnam's III Corps. As the Maintenance Officer, I was responsible for a maintenance crew of about 30 crew chiefs and the mission readiness of 23 Helicopters. Our Aviation Section transitioned from Korean era helicopters, to become the first Combat Unit flying the OH-58 Kiowa – Bell Jet Rangers. I completed my tour with over 800 hours as a Test Pilot. I reached the rank of Captain and completed my service obligation in 1972. I sold truck leases for a year before returning to Yakima WA to begin work in the insurance industry. I spent over thirty-five years in the Property Casualty business as an agent and broker. During this time our Independent Insurance Agency grew from a small five-employee firm, to a Million Dollar Agency employing 16 agents and staff. We had an excellent reputation in the community and a strong financial position when I retired as a partner in 2011. I have also been involved in bird watching and environmental issues through the Audubon Society for almost 40 years. I was actively involved in saving the Spotted Owl and working with the Forest Service in protecting the remaining Old Growth Forests of the Northwest. I have been involved in numerous water issues in the Yakima Valley, and worked to move gravel mining out of the river channels. Since retiring, I am also a docent at the McAllister Museum of Flight, our local aviation museum here in Yakima. It is gratifying giving back to the community, and I enjoy my renewed association with aviation, and especially the fellowship of other veterans.

Dan Madden

Degree:

Civil Engineering

Spouse or partner:

Jan (Weisgerber) Madden

Spouse or partner's Alma Mater:

Portland State

Memories of your life at Gonzaga:

1st semester, freshman year, 17 years old: **chemistry**, didn't study, F minus going into the final. I studied for 52 hours the weekend before the test, with maybe 4 hours sleep, learned it all, aced the final, got a "C" in the class, probably retained the knowledge for about 4 days. **Fluid mechanics**, studied hard, didn't really get it. Went to a weekend-long kegger before the final, studied a few hours back in the dorm and it all came together. 100 on the final. Maybe the beer helped. **Differential Equations**, again studied hard. Take-home test, 1 problem, hardest test I ever took. I finally got an answer and it seemed to make sense: " $2X=4$ ". I wrote " **$2X=4$, $X=4$** ". Professor: "sloppy algebra". I got a "D" in the class. Hockey, baseball and basketball teams. I'd like to see a rematch with Weber State now. Concerts: Righteous Bros (we applauded, hoping for an encore, finally quit, realizing they were on the plane home), Bill Cosby, Chad Mitchell. I still regret not seeing Louis Armstrong.

Something you learned at Gonzaga that you've carried with you throughout your life:

I learned a lot about the value of good friends, the ones you knew you could count on: Best friends: my roommate Jim Jahn '68, RIP 1969, Fort Lewis; and Bill Swanson '68, RIP 2014; and my fellow engineering students, who helped me more than I was able to help them. I hope I was able to "pay this forward" by helping my colleagues during my working career.

I received an excellent education in Civil Engineering (emphasis structural analysis) from Dr. Dar, Mr. Serbousek, Mr. Bush, and Dr. Laak that prepared me for my career.

I learned a little about philosophy.

I learned, thankfully, a lot more about God and my religion in my Theology classes, which supported me throughout my life.

And, if $2X = 4$, $X = 2$

Life's highlights since graduation:

I passed up a partial scholarship for a masters degree at one of the Colorado schools and took a job with the corps of engineers after graduation, hoping for a draft deferment. Deferment was denied. My Mom sent me to a doctor, who found I had allergies to some 20 plants in Vietnam. Four weeks into my corps career, thanks to these allergies, I failed the draft physical. Thanks mom! Back then, like many of us, I did not think the war was wrong. I trusted our government. But I really didn't want to be involved. I stayed with the corps, and retired 34 years later, never pursuing a masters.

I went through a ridiculous, rotten marriage 1973-1976. The annulment took (no exaggeration) about 200 times longer than Ted Kennedy's. In 1979 I met the perfect woman for me, Jan Weisgerber. When I wonder what would have been had I flunked that physical 2 months earlier than I did, and gone further with my education, I think of Jan, and how I never would have met her. I realize how God-given my choices were. We married in 1982. In the mid 1980's I was temporarily assigned to our head office in DC. While in DC we visited the Smithsonian museums, the Washington Monument, the Capitol, White House, National Cathedral, the Lincoln and Jefferson memorials, etc.--lasting memories.

Jan and I played on a corps coed softball team, winning championships six out of eight years, at a time in my life when bending down to pick up a ground ball did not involve a lot of planning.

I enjoyed my engineering work with the corps. I got into structural dynamics, performing many analyses and studies. The most interesting was an analysis of the Bonneville First Powerhouse. The project was designed and constructed in the 30's and 40's. The need for the study was the increased knowledge of the seismicity of the region learned from the Mount Saint Helens volcanic eruption in 1980.

Jan (the cold one) and I on
the island of Hawaii

Jan and I on the
island of Maui

Grandchildren:

Ryan Bendt - age 14

Katie Bendt - age 12

Memories of your life at Gonzaga:

It was a life changing four years with abundant opportunity to grow in a supportive environment - friends, music, student chapel mass, many excellent professors, Joey's...(the list of specifics is long...)

Something you learned at Gonzaga that you've carried with you throughout your life:

Generally, the foundational piece was the Jesuit mission and philosophy as reflected in the curriculum and as the center of University policy - in the expectations, practices, the classroom, certain activities, and overall...

Life's highlights since graduation:

Besides the milestones of marriage to Tom, birth and rearing of two amazing children, Kristin and Matt and two precious grandchildren, Ryan and Katie and having an awesome son-in-law, Steve all in our lives, my career has been:

Speech Therapist for Tri County Special Education

Spokane School District: English Teacher, Lewis and Clark High School, School Counselor, Glover Jr. High and Garry Middle School, Coordinator of Student Services, Director of Student Services Department, Retired

Gonzaga University - Assistant Professor and Director of the School Counseling Program, Retired again.

Professional leadership and community volunteer through the years

Lots of travel and extraordinary life experiences for which I feel blessed and grateful.

Memories of your life at Gonzaga:

I have such wonderful memories of my years at Gonzaga: the best friends in the world, so much fun, lots of drama, and an amazing feeling of belonging. Being in the right place at the right time, and ready for the springboard that would launch us into real life.

Something you learned at Gonzaga that you've carried with you throughout your life:

We were so lucky. We had values, generated from our parents and shared through Catholicism and Jesuit ideals. And intellectual curiosity, and a readiness for change and adventure. Right after graduation I went to New York to get a job as a writer. Was I insane? Maybe. But I got a job, and I worked in Manhattan for a year. It couldn't have been more different than Spokane, but I did fine because I had a solid base. I was ready, and it was a blast. Met lots of people, traveled, and saw Zags in NYC as often as possible.

Life's highlights since graduation:

Really, does anyone care? I had a nice life, nothing normal but nothing outrageous either. Didn't get married until we were 37, but that was a disaster. No children of my own, but I love my brother's and sister's kids. All 4 of my brother's children graduated from Gonzaga. And now there are great nieces and nephews, ages 3 to 13, and I adore them all. I worked as a writer for almost 50 years, at advertising agencies and dotcoms. Had a couple of great jobs, and a few that I hated. Lived in New York, Los Angeles, San Francisco, and the Seattle area since 1976. Sold my house in Ballard last year and moved out to North Bend, a delightful little town about 40 miles east. Love being retired, and have forgotten how to set an alarm clock. I read as much as I want, and take care of my great nephews. And I've always loved Gonzaga, the culture and the memories. It continues to be one of the most important pieces of my life.

Craig Jay Murphy

**Degree:**

Bachelor of Arts

Spouse or partner:

Casey

Spouse or partner's Alma Mater:

College of San Mateo

Children:

Craig, 36, graduate of University of Arizona. Account executive, Twitter.

Memories of your life at Gonzaga:

Freshman year: orientation wearing the beanie; ridiculous class registration process. Meeting friends for life.

Sophomore year: Lincoln House.

Junior year: Firenze.

Senior year: sleeping in, cutting classes. Making up for cutting classes.

Something you learned at Gonzaga that you've carried with you throughout your life:

As with all of us I shared the great tradition of a Jesuit education. It was meant to be challenging and in turn I developed a great desire to question the challenges that we encountered. In turn, to hear and consider both sides of an opinion objectively and evaluate each sides' position. I was fortunate to attend the Gonzaga-in-Florence program for my junior year. The experience of travelling through Europe and the Holy Land, being involved with different cultures and people, and the wonderful classmates of that group. Oh yeah, and that flood in Florence.

Life's highlights since graduation:

Work: yea I know boring, but we have to put this in...

So, I have benefited from a rewarding career in commercial real estate for over some 40 years in the San Francisco Bay Area, primarily in Marin County. I have been involved with large sized companies such as Autodesk, Lucasfilm, Commerce Clearing House, various governmental agencies and any number of start ups and creative groups. As such these years have presented me with a marvelous opportunity to interact with a wide range of clients' requirements and goals. It has been an interesting journey and very fulfilling.

Interesting thing is I never thought I would have been doing what I have done for this past half a century! I mean who else knew what they wanted to be back in 1968?? (other than John Demakas and Jack Ossello).

Fun: As an aside...in my 40's through early 60's I participated in local community theatre...yeah, what a HAM!! I AM!!

Really NOT! I was scared, very scared....this was about raising money for the local school district. Anyway, get this... The show is "Guys and Dolls" and at the audition I get the nod for the lead roll....Nervous?...yea, geez, and I didn't even know the show...how bad was that...pulled it off though..."Luck be a Lady Tonight"!

Anyway, over the years I had a lot of fun doing shows including My Fair Lady, Kiss Me Kate, Ain't Misbehavin', Music Man, etc..All fun and a great way to meet people and raise funds for the local school community. Brought me out of my shell.

Our son Craig's wedding, (June, 2014)

Terrence Daniel Nicksic

**Degree:**

BS in Chemistry

Spouse or partner:

Christine Nicksic

Spouse or partner's Alma Mater:

University of Illinois

Children:

Matthew, 41

Grandchildren:

Drago, 2

Memories of your life at Gonzaga:

I have many great memories of my time at GU. I would probably divide those memories into three main areas : classes; dorms and roommates, and sports. Most of my classroom memories revolve around my major in chemistry. My dorms were Alliance House, Lincoln House, Roncalli(?) and Dooley. Many intramural teams: The Perobas, The Hounds, Ralph and several others. And of course we always went to all the Zag home basketball games. Not really enough space to actually go into memories about these areas.

Something you learned at Gonzaga that you've carried with you throughout your life:

Not sure if I can pin down any one thing that I would attribute to Gonzaga. It was a great experience in and out of the classroom that I remember fondly. A wonderful group of people that I still consider friends even though we have not always been able to stay in touch over the years.

Life's highlights since graduation:

Went to the University of Illinois for graduate work in Biochemistry. Met and married Christine, a most wonderful woman from the Chicago area. Got my Ph.D., did a port-doc at UCSF. Worked in the Chemistry Department at Pacific Lutheran University for over 30 years. Retired in 2014. Greatly enjoying retirement.

Jack L. Ossello

Degree:

Bachelor of Science

Spouse or partner:

Kathy McLaughlin

14, Nathan 13, Braeden 8, Ainsley 6, Camryn 4

Memories of your life at Gonzaga:

Kangaroo Court Freshman year and Campus Days.

Passing out handbills at Albi Stadium and meeting Jack Ossello on the bus.

Yearly retreats and Noon Mass in the student chapel.

Frequent trips to Idaho on the weekends.

Meeting great-life long friends and my future husband.

Something you learned at Gonzaga that you've carried with you throughout your life:

I valued being part of a supportive faith community during my time at Gonzaga. I left with skills to pursue a variety of jobs in the education field. Making life-long friends and meeting my husband, Jack have been a boon.

Life's highlights since graduation:

Birth of our 4 children and 9 grandchildren. Being involved in the education field. Being part of a supportive faith community in our parish.

William James Pursley

Degree:

BBA at GU

Spouse or partner:

Kanokthip

Spouse or partner's Alma Mater:

Kanchanaburi Rajabhat University

Children:

Daniel Pursley, 29, Santa Clara Univ bachelor's degree;
Univ of Texas (Austin) MBA.

Kaitlin Pursley, 27, Gonzaga Univ bachelor's degree.

Something you learned at Gonzaga that you've carried with you throughout your life:

I met many wonderful people at Gonzaga and I have many good friends to this day.

Life's highlights since graduation:

After GU I attended Santa Clara's school of law. After I passed the bar exam I went into the Army Reserves as a Lieutenant. Except for a 6 year stint as an attorney for the State of California, I have been a self-employed practitioner of Workers' Compensation law. Still enjoying my craft full time.

Dennis Michael Rickert

**Degree:**

Basic Medical Science Pre-Dental

Spouse or partner:

Nancy

Children:

Cynthia Joy... University of Oregon

Brett Wells...University of Oregon

Grandchildren:

Cooper Joy 15 ...Freshman at West Linn High in Oregon

Memories of your life at Gonzaga:

De Smet Hall...I spent 4 years there with the last two as R.A. of 2nd Floor. Father Tim O'Leary was a legend there as the Rector until health problems necessitated recuperation. Lights out at 11:30 PM. and he did bed check every night. He was greatly loved and respected by the men of DeSmet and there are legendary stories about him. He was a Chemistry Professor and Pre-Med advisor. He was the best and fairest teacher I ever had and that includes 4 years of Dental School.

My Freshman year 3rd floor DeSmet was made up of Freshman and Sophomores because of building occurring on campus. The chemistry of that floor was infectious and our antics were known to all on campus. We stole the lock for the cabinet in the COG that had the pictures of all the women candidates for Valentine Queen. Our picture of a gorilla was placed in the center with all the girls looking at it. Beach Boys and Beatle records blared from our windows as the students walked by every day.

Something you learned at Gonzaga that you've carried with you throughout your life:

Science courses dominated my studies as an undergraduate and as a graduate student, but it was the liberal arts courses that were to stimulate me later on. It was the exposure to literature, history, philosophy and foreign language that I learned to appreciate many years after my graduation. To this very day I challenge myself at the beginning of every school term to read and/or study something from one of these fields. This winter is Dante's Inferno. These areas of study are so much more interesting today than trying to plow through them as an undergraduate with a test in sight. I am forever grateful that Gonzaga placed that spark in me

Life's highlights since graduation:

The very best thing that ever happened to me was meeting and marrying my wife Nancy. We have been married 41 years and we have learned some life lessons and have grown through all those years. I raised her two children and we all gather at our house every Saturday night for Tacos! We have done this for over forty years.

I practiced Dentistry initially but changed careers and was a Nursing Home Administrator for nearly 25 years.

My Catholic faith has sustained me over the years. I had my crisis in faith after leaving Gonzaga and wandered for about 15 years but through God's Grace got back on the path.

Spouse or partner:

Joe

Spouse or partner's Alma Mater:

University of Nevada Reno

Children:

Christian 44

Patrick 41

Grandchildren:

Paxton-22

Ian - 21

Memories of your life at Gonzaga:

Some of the best memories from Gonzaga were of my friends and the good times that we had together. I love my education and many of the educators at GU. I had a lot of fun attending, hockey, basketball and baseball games. There was a "panty raid" at Catherine-Monica dorm which made national news and left some parents questioning their decision to send their students to Gonzaga. Exciting night at Catherine-Monica!

I remember giant snowballs rolled up against the outside entrance doors of our dorm. The same individuals were probably also responsible for big snowballs rolled across Boone Ave. which blocked traffic.

I remember kegers, dances, walks, the spires, the beautiful and powerful Spokane River at the bottom of the campus. Most of all, I remember the lifelong friendships.

Something you learned at Gonzaga that you've carried with you throughout your life:

Gonzaga gave me a deeper understanding of my faith. GU reinforced the same values which my family held. Spirituality was an important part of Gonzaga campus life. Critical thinking is something which has carried me through life in all circumstances and Gonzaga played a large part in developing that process.

Life's highlights since graduation:

My husband Joe and I have been married for 47 years. We owned a successful CPA firm and I worked in the business part time while raising our 2 sons. Having always had an interest in art and photography, I returned to school and studied photography at Allen Hancock Jr. College in Santa Maria, Ca. I had many opportunities with art shows to display and sell fine art photography. Eventually, I started a wedding, portrait and commercial photography business with another photographer and loved sharing special moments and helping create memories for others. I have always been a volunteer in schools, church and community. I love music(singing), art, traveling, and most of all, my family.

Son Kevin, age 39, Alma Mater, Loyola Marymount

Memories of your life at Gonzaga:

Freshman orientation, St. Paddy's Day performances, intramural sports, seeing everyone dropping off their dates at 2am at Catherine-Monica, keggars all over, playing basketball in the old gym which was open all the time. Also remember going to basketball games, Lake Arthur, the new Kennel and Swimming pool.

Something you learned at Gonzaga that you've carried with you throughout your life:

I am sure it made me a better person and met a lot of nice people.

Life's highlights since graduation:

I spent two years in the Army fighting dental decay at Fort Riley Kansas. Most of my working life has been in sales. I worked in radio and television for 7 years, I was a stock broker for 6 years, and spent 27 years in the real estate business with Coldwell Banker Tomlinson. And I have spent most of my years living in Spokane. I have travelled to mostly warm climates, Puerto Rico, Hawaii, Virgin Islands, Bahamas, and I try to head to the California beaches in the warm climate. I have enjoyed watching Gonzaga Basketball at the McCarthy, and I try to play as much golf as I can in the summer.

Josephine Carolyn Fifi Soublet

Degree:

BS in Medical Technology

Spouse or partner:

Morris J. Soublet, Jr.

Spouse or partner's Alma Mater:

California State University, Hayward (CA)

Children:

Monica, 48. BS, Fresno State Uni., 1992; MA, FSU, 2001. Pre-school instructor, St. Agnes Child Development Center, Fresno, for 21 years and also an Adjunct Instructor at Fresno City College since 2008.

Erika, 46. BA, Gonzaga Uni., 1994. JD, Northwestern School of Law of Lewis and Clark College, 1997. Deputy DA for 16 years. Joined faculty of Taipei American School in Taipei, Taiwan in 2013.

Memories of your life at Gonzaga:

I picked GU out of a book about colleges. When I arrived in Washington I had no idea how to pronounce either Spokane or Gonzaga. I spent the night in the "WOMEN'S ONLY" Monica/Catherine dorm. The following day I was introduced to cafeteria food, Freshman beanies, the capacity of Peggy Mullen's VW Bug, and the thrill of new-made friends using water balloons against a common "enemy" (Sophomores). I introduced myself as "Jose" or "Fifi" and began my wonderful, occasionally lonely, eye opening, liberating, entertaining, educational Gonzaga experience. I attended GU on a partial scholarship, as did Connie, Colbert, Nick, Zeke, Gail, Shirley, Ben, Chuck, Larry and Bob. We were the only African Americans in the student body. In my first four months I often wondered "why am I here?" Luckily, in January I started playing women's basketball, got invited to the Winter Ball and landed a part in "A Raisin in the Sun". By June, Gonzaga had won my heart and I was a "ZAG for life".

Something you learned at Gonzaga that you've carried with you throughout your life:

Freshman year was filled with "Firsts": snowball fight; minus 16 degree weather; writing a check, (Thank you Judy Winchell Sweeney); dying my hair; eating (in silence) with the basketball team; a party at Fairchild AFB; meeting Pete Yull; bowling and pizza (Thank you Patrick John Reagan). Sophomore year I used an outlawed electrical cord and tripped the main breaker in Madonna; the Kennedy opened; we made beer runs to Idaho; I sneaked into a guys' dorm during Thanksgiving break. Junior year, in psychology class I sat next to a member of the Klu Klux Klan. One day he doodled a Klansman, complete with hangman's noose. I don't remember his name, but I do remember Larry Brown promised to protect me. I also attended the funerals of four Gonzaga students. We thought we were invincible, until we realized we weren't. Senior year I interned in Oakland, CA, completing my requirements for a BS in Medical Technology. Academically, spiritually and morally, GU made me the person I am today.

Life's highlights since graduation:

I married Morris Soublet, Jr., the oldest of 10 kids, in 1969. Our daughters Monica (1970) and Erika (1972) captured our hearts, brightened our days, greyed our hair and depleted our bank account. In 1988 Monica became a Fresno State Bulldog. Erika continued the GU Bulldog tradition in 1990. Morris was a Catholic school teacher for over 30 years while I worked as a Medical Technologist at Kaiser Hospital in Oakland for 42 years. After our girls left home we expanded our travels. We've driven cross country twice, toured Western Canada by train, cruised from Quebec to Boston and round trip from San Francisco to Hawaii. I took a train trip in 2014 from Oakland to Denver, Chicago, Memphis, New Orleans, San Antonio, Tucson, Los Angeles and back home. Morris and Erika flew to Italy for a 2 week tour in 2015. An eye injury forced me to give up sewing and in 2015 I had a hip replacement. Thankfully, I'm still able to read, drive and line dance. (URBAN line dancing – imagine Beyonce's backup girls, only older, fatter and slower.) I remain a loyal GU basketball fan. I still recall the first time the team won a game in the Bay Area. Seattle, 1999, was a magical time, as I witnessed Gonzaga's advancement to the NCAA Sweet 16 with victories over Minnesota and Stanford. Morris and I attended the first round of games in San Diego in 2014 and the victories in San Jose in 2017 that got us to the Final Four for the first time in school history. Living the cloistered life of a college student I never participated in any political debates or events. I knew about the Civil Rights Act. I certainly knew about discrimination, but I never felt the urge to act. Since the disastrous 2016 election I have vowed to get involved. I've prayed, marched, signed petitions, donated money, written letters and debated with strangers. I'm hopeful the USA can pull out of this death spiral before we crash and burn. GU taught me anything is possible if you work hard enough.

Memories of your life at Gonzaga:

Excellent school, I was married and raising a family while attending Gonzaga and had a very supportive wife.

Something you learned at Gonzaga that you've carried with you throughout your life:

Strong faith and perseverance was a key that helped me meet my goals which I learned Gonzaga

Life's highlights since graduation:

My work gave me an opportunity to see many different countries of the world

Gerald Stranik

**Degree:**

BS

Spouse or partner:

Suzanne Stranik

Children:

Chelsey: Gonzaga

Tyler : of Arizona

Dakota : Cornell

Memories of your life at Gonzaga:

Gonzaga-in-Florence the best year.

Gonzaga was a place where everybody could be somebody.

Something you learned at Gonzaga that you've carried with you throughout your life:

People who really care about and for each other .

Life's highlights since graduation:

Creighton Dental School

43 years in Alaska

Dennis Joseph Sweeney

**Degree:**

BBA 1968, JD 1972

Spouse or partner:

Judy

Spouse or partner's Alma Mater:

Gonzaga

Children:

Shawna Marie Sweeney, 47, University of Washington
BBA, Duke University School of Law JD

Grandchildren:

Quinlan Joseph Drabek, 13
Connor Vasil Drabek, 8

Memories of your life at Gonzaga:

Many - Dan Brajcich; my wife, Judy K. Winchel Sweeney; ROTC; the COG; Work as the ASGU Treasurer; St. Als, the Jesuits

Something you learned at Gonzaga that you've carried with you throughout your life:

My experience at Gonzaga moved me from one experience and station in life to a very different station in life.

Life's highlights since graduation:

My personal highlights are my long marriage to Judy Winchel Sweeney and my daughter Shawna's personal and professional success in this life.

My professional highlights included 20 years of trial practice with a great law firm and 22 years of work as a judge on the Washington State Court of Appeals

Memories of your life at Gonzaga:

Despite the Vietnam War hanging over our heads, Gonzaga was four great years of idyllic living. Dorm living was the introduction to lifetime friendships, late-night philosophy and a phone line shared with 30 other girls. It was an age where institutional wisdom decided 40+ girls could be moved last minute into formerly all-male dorm Campion without renovating a bathroom of urinals. It was the mind-bending introduction to a philosophy minor where pouring over Mr. Gilmore's quotes left you more puzzled than enlightened. It was this English major earning the proudest grade of her life---a C in Introduction to Economics. Gonzaga nurtured us until we could face the real world with a little more maturity and faith---no matter what life threw our direction.

Life's highlights since graduation:

With six kids and soon to be seventeen grandchildren, family has been the highlight of my life since graduation. Pete and I settled in Spokane after Pete's two tours in Vietnam with a Navy underwater demolition team (now SEALS). I worked outside the home as a Charity Director for St. Vincent de Paul for several years and did part-time freelance writing work for national publications and for local businesses. I was elected and served on the local school board for 11 years. Our children are now spread across the country and the globe. Travel is always on the agenda.

**Degree:**

BA

Spouse or partner:

Elizabeth

Spouse or partner's Alma Mater:

Portland State University

Children:

Nicole Yull, 1973, University of Alabama.

Rebecca Yull Davis, Alabama State University

Memories of your life at Gonzaga:

I thrived on GU soccer (club), playing and managed from Fall '64 to Spring '68.

I arrived in Spokane from NYC and I was from a different planet but loved it and thrived on the various cultures and people. I was as odd as everyone else and enjoyed it. But I also was like everyone else in my being involved. In Christmas holiday I was able to get a car ride to NYC (home) and then had to take a Greyhound back to GU. The next three Christmas holidays I was able to rent a car with five or six Zags and drive to NYC and back with most interesting trips.
