

## Gonzaga University Campus Resources Matrix

This tool has been developed to help parents easily identify offices on campus where you can refer your student, based on their specific concern. Keep in mind that these offices will want to work directly with your student, so we recommend using this as another tool to guide your student from the side. If you're not sure where to start, we recommend Parent & Family Relations. They can help connect you and your student to the right place, based on the situation.
