While there continues to be a lot of uncertainty about COVID-19 and our future, Gonzaga has remained steadfast in how much it values community. Studies show that “a robust social life . . . can lower stress levels; improve mood; encourage positive health behaviors and discourage damaging ones; boost cardiovascular health; improve illness recovery rates; and aid virtually everything in between” (Ducharme, 2019). Students may have different experiences finding their niche when they start college. Some may even experience “culture shock” depending on how different Spokane is to their hometown. Nonetheless, whether in person or online, your student can and will find their sense of belonging as a Zag with a little effort on their part and plenty of support, opportunities, and resources on our end.
