Gonzaga University Offers Quality, Personalized Learning

The Gonzaga Master of Education Program is designed for educators who aspire to be effective teacher or administrative leaders. The program is designed for working educators and uses the practical issues in teaching and leadership in local districts as the contexts for study. Applicants are admitted into a cohort of educators and experience the benefits of a collaborative learning community close to their own schools and districts.

“I gained fresh perspective, deepened friendships with colleagues, and renewed my commitment to the profession of teaching.”

Joan, Gonzaga Grad 2000

Salmon Arm, B.C.

Programs designed for working professionals with a focus on practical issues in teaching and leadership.
