“IN-SPUR-ATION”: SPURS & SETONS REUNITE!

In mid-October, Foley Center Library’s Special Collections Reading Room will be housing an exhibition called: “In-Spur-ation: SPURS and Setons Celebrate 60 years of Sisterhood and Service.” Featuring various SPURS & Seton members from 1951 to current, the exhibition will highlight SPURS memorabilia including a classic sweater with the SPUR logo, numerous scrapbooks, pictures and artifacts. Once installed, the exhibition will be open weekdays from 10:00am - 4:30pm. Many of the scrapbooks can be viewed digitally at digital.gonzaga.edu.

This summer, Foley Center Library introduced a whole new way to do research at Gonzaga. PRIMO, Foley’s new online search tool, lets users discover resources in the library catalog as well as through online databases, journals, ebooks and digital collections – all from one search button. This Google-esque search of Gonzaga’s resources is a great place to start any faculty, staff or student research. For more in-depth exploration, specialized databases are still available. PRIMO brings a unified search interface to Foley’s extensive collection of materials. From the search results, users can request items from the library and other partner libraries, connect to online full-text resources, view recommendations from searches done by other users and export the results directly into RefWorks. Sometimes the hardest part about doing research is knowing where to start: now you can start your research with PRIMO!

Graphing calculators now available for checkout at the Foley Circulation Desk

(That was a great suggestion from a GU student. Let us know if you can think of something you would like the library to offer for checkout!)
