Gonzaga University Class of 2012
One-Year-Out Survey of Undergraduates

Summary

- 91% were currently working (including volunteering, service, internship, or military service)
- 75% thought they were not underemployed (i.e., they were working in a position requiring a college degree)
- 21% were currently enrolled as a degree seeking student
  - 72% were of the opinion that their post-graduate studies were “considerably” or “completely” related to their undergraduate studies at Gonzaga
- 58% had at least one internship while attending college as an undergraduate
- 71% used the Gonzaga Career Center & GAMP services and/or tools
- When asked “Which of the following best describes your current post-graduation status?” Only 3.5% selected the option “Not employed, seeking employment”
- 130 people selected “YES” to becoming a GAMP mentor and another 177 people selected “Maybe at a later date”

Methodology

In 2013, the Career Center & GAMP office collected one-year-out career and further education outcomes data from the undergraduate class of 2012. Survey data were collected online between 6/5/2013 and 7/28/2013. The survey was administered online using Baseline by CampusLabs. Email messages containing a link to the online survey were sent to all 1,085 graduates, and a 39% (n=424) response rate was received. Percentages are based on the number of responses to each question.
