Gonzaga University Class of 2013
One-Year-Out Survey of Undergraduates

Summary

- **92%** were currently working (including volunteering, service, internship, or military service)
- **76%** thought they were not *under*employed (i.e., they were working in a position requiring a college degree)
- **30%** were currently enrolled as a degree seeking student
- **59%** had at least one internship while attending college as an undergraduate
- **69%** used the Gonzaga Career Center & GAMP services and/or tools
- When asked “Which of the following best describes your current post-graduation status?” *Only 2.9%* selected the option “Not employed, seeking employment”
- **125** people selected “YES” to becoming a GAMP mentor and another **181** people selected “Maybe at a later date”

Methodology

In 2014, the Career Center & GAMP office collected one-year-out career and further education outcomes data from the undergraduate class of 2013. Survey data were collected online between 6/4/2013 and 8/22/2014. The survey was administered online using Baseline by CampusLabs. Email messages containing a link to the online survey were sent to all 1,154 graduates, and a 36% (n=415) response rate was achieved. Percentages are based on the number of responses to each question.
