Career & Graduate School Outcomes

Summary Highlights for Class of May 2012

- Data collection: voluntary surveys administered and analyzed by the Gonzaga University Career Center & GAMP Office
- Survey response rate: 84%
- Survey collection period: April-August 2012
- Summary of information received:
  - 73% of respondents engaged in one or all three of the following activity categories:
    - employment, internship, volunteer work
    - AND/OR
    - further education (including master’s, doctorate, medical, health-professional, law school, etc.)
    - AND/OR
    - studying for an exam (including CPA, FE, NCLEX, MCAT, LSAT, GMAT, GRE, DAT, CAPM, FSO, CFA, etc.)
  - 27% of respondents were searching for employment
  - <1% of respondents chose neither employment nor graduate school to engage in transitional activities (including travel, personal enrichment, family care, etc.)

- Methodology:
  Most of the above summarized information was obtained from voluntary surveys administered to graduating seniors in April/May. A small percentage of additional outcomes information was further collected through August of 2012 directly from the graduates and from other reliable sources such as Department Chairs and faculty. Information provided above reflects only undergraduates who officially graduated in the May 2012 academic term. These data represent information collected on “plans for next year” at the time of graduation. The percentages provided are based on the number of students who responded to the survey and not on the total number of official graduates. May 2012 graduates will be contacted again one year after graduation for more up-to-date information.
