Career & Graduate School Outcomes
Summary Highlights for Class of May 2013

- Data collection: voluntary surveys administered and analyzed by the Gonzaga University Career Center & GAMP Office
- Survey response rate: 84% (n=834)
- Survey collection period: April-June 2013
- Summary of information received:
  - 77% (n=643) of respondents engaged in one or all three of the following activity categories:
    - employment, internship, volunteer work
    AND/OR
    - further education (including master’s, doctorate, medical, health-professional, law school, etc.)
    AND/OR
    - studying for an exam (i.e., CPA, FE, NCLEX, MCAT, LSAT, GMAT, GRE, DAT, CAPM, FSO, CFA, etc.)
  - 23% (n=190) of respondents were searching for employment
  - <1% (n=1) of respondents chose neither employment nor graduate school to engage in transitional activities
    (including travel, personal enrichment, family care, etc.)

- Methodology:
Most of the above summarized information was obtained from voluntary surveys administered to graduating seniors in April/May. A small percentage of additional outcomes information was further collected through June 2013 directly from the graduates or from their LinkedIn profiles. Information provided above reflects only undergraduates who officially graduated in the May 2013 academic term. These data represent information collected on “plans for next year” at the time of graduation. The percentages provided are based on the number of students who responded to the survey and not on the total number of official graduates. May 2013 graduates will be contacted again one year after graduation for more up-to-date information.
