What is JesuitMBA?

THE JESUIT MBA DIFFERENCE

The Society of Jesus (Jesuits) was founded in 1540 by Saint Ignatius of Loyola. It is the largest religious order of the Roman Catholic Church. For centuries, Jesuits have influenced mathematics, business, astronomy, architecture, law, medicine, and most academic pursuits. A primary mission of the Jesuits is education.

There are twelve established characteristics of learning in the Jesuit tradition. They are:

- Pursuit of Excellence
- Respect for the World with International and Global Perspective
- Learning from Experience
- Contemplative Vision Informed by Hope
- Development of Personal Potential
- Critical Thinking and Effective Communication
- Appreciation of Things Both Great and Small
- Commitment to Service
- Special Concern for the Poor and Oppressed
- Linking Faith with Justice
- International and Global Perspective
- Discerning Mindset

These characteristics, along with a strong focus on business ethics, develop leaders with strong analytical skills, technical competence, and social responsibility. MBA graduates of Jesuit colleges and universities are highly sought after by corporations for their integrity and high performance.
Nearly 400 students have participated in the JesuitMBA Transfer Agreement.

In 1996 a group of MBA directors and administrators from Jesuit and Jesuit-friendly universities decided to work together to promote the many benefits of Jesuit business education.
