2026-2027 COST OF ATTEDANCE BY PROGRAM

This page provides estimated annual costs for Gonzaga University graduate programs. Direct costs include average tuition, mandatory university fees, and required program-specific fees charged by the University for the academic year.

Cost estimates are calculated using a typical full-time enrollment pattern for each program and reflect program-level averages. Actual charges may vary based on course load, enrollment pacing, modality, or individual program requirements. These estimates are intended to be used as a companion to Gonzaga's published Cost of Attendance (COA).

Indirect expenses such as housing, food, transportation, personal expenses, and books or supplies are not charged by Gonzaga and represent an estimate of expenses students might incur while attending school. These indirect costs may greatly vary from person to person.

The Cost of Attendance for International Students is based on Financial Aid Office's estimates by removing First Year Experience Fees, loan fees, and adding mandatory health insurance cost. All international students on F-1 and J-1 visas are required to purchase medical insurance provided by Gonzaga University. Students must show an additional $11,540 for each dependent (spouse/children) they wish to invite to the U.S. to accompany their studies.

Additional details about tuition rates and course-specific fees are available on the Student Accounts website. Information about estimated living expenses and indirect costs can be found on Gonzaga's Cost of Attendance website.
