Notice to Students Requiring Reasonable Accommodations

Gonzaga’s Disability Resources, Education, and Access Management office (“DREAM”), in compliance with the American with Disabilities Act, Section 504 of the Rehabilitation Act of 1973 and Washington State laws, provides qualified students with access services to Gonzaga University’s programs, services, activities, and facilities. DREAM recommends appropriate academic adjustments, reasonable accommodations, auxiliary aids, assistive technology, advocacy, and other types of assistance to students with disabilities.

To receive such accommodations or assistance, students must file a request for accommodation with and provide appropriate documentation to DREAM.

Information about a disability disclosed on an application for admission is treated as confidential by the law school’s admissions office and is not shared with DREAM.

Because information on law school applications is not shared with DREAM, even those students who have indicated a disability in their admissions application must, to receive accommodation, directly contact DREAM and provide it with the necessary documentation.

Students must contact DREAM at least four weeks prior to each semester for which they are requesting accommodations or services. Although DREAM receives student requests for accommodation and evaluates student documentation continuously throughout the school year, the process takes time and failure to submit a request in a timely manner may delay the availability of accommodations.

DREAM is located on the main campus in Foley Center, east wing, second floor, in the Curriculum Center. More information can be found at: http://www.gonzaga.edu/Campus-Resources/Offices-and-Services-A-Z/Disability-Resources-Education-and-Access-Management/
